REQUIRED INFORMATION

4. Financial Statements and Supplemental Schedule for the Plan

The Meredith Savings and Investment Plan (the Plan) is subject to the Employee Retirement Income Security Act of 1974 (ERISA). In lieu of the requirements of Items 1 - 3 of this Form, the Plan is filing financial statements and a supplemental schedule prepared in accordance with the financial reporting requirements of ERISA. The Plan financial statements as of December 31, 2013 and 2012, and for the year ended December 31, 2013, and supplemental schedule as of December 31, 2013, have been audited by KPMG LLP, Independent Registered Public Accounting Firm, and their report is included herein.

Report of Independent Registered Public Accounting Firm

Meredith Savings and Investment Plan Committee:

We have audited the accompanying statements of net assets available for benefits of the Meredith Savings and Investment Plan (the Plan) as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013, in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements of the Plan taken as a whole. The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Meredith Savings and Investment Plan  
Notes to Financial Statements

1. Description of Plan

The following description of the Meredith Savings and Investment Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

**General**—The Plan is a defined contribution plan covering substantially all employees of Meredith Corporation (Meredith or the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Contributions**—Full and part-time employees are eligible to begin contributions to the Plan at any time. Temporary and on-call employees must work 1,000 hours and complete a year of service to be eligible to make Plan contributions. On a pretax basis, employees may contribute a maximum of 50 percent of their compensation to the Plan, subject to certain limitations and cannot exceed the maximum amount under the federal tax laws for that calendar year. To be eligible to receive Company matching contributions, all employees must complete a year of service in which they work at least 1,000 hours. The Company matches 100 percent of the first 3 percent of a participant's eligible compensation contributed to the Plan and 50 percent of the next 2 percent of a participant's eligible compensation contributed to the Plan. Additional amounts may be contributed at the discretion of the Company. No such additional discretionary contributions were made during the years ended December 31, 2013 and 2012. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (known as rollover contributions).

Individuals age 50 or older (and those who will turn 50 by the end of the calendar year) have the opportunity to make additional pretax contributions to the Plan if their contributions are otherwise limited by the tax laws or the Plan limit. Additional contributions cannot exceed the maximum amount allowed under the federal tax laws for that calendar year. The Company does not match additional contributions.

**Participant Accounts**—Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, and an allocation of plan earnings based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Investments**—Participants direct the investment of their contributions into various investment options offered by the Plan. Company matching contributions are invested in the same investment options as the participant's contribution elections. The Plan currently offers 13 common trust funds, 10 mutual funds, 2 pooled separate accounts, and a Company common stock fund as investment options for participants.

**Vesting**—Participants are immediately vested in their contributions, the Company's matching contributions, and investment earnings. As a result, there are no forfeitures under the Plan.

**Payment of Benefits**—On termination of service, a participant may receive a lump-sum amount equal to the vested value of his or her account. Upon death or retirement, a participant may elect to receive quarterly, semi-annual, or annual installments, not to exceed 15 years.

**Voting Rights**—Each participant is entitled to exercise voting rights attributable to the shares of Meredith common stock allocated to the participant's account. Shares of Meredith common stock for which participants do not timely return

proxy or voting instruction cards shall be voted by the trustee in proportion to the results for those votes returned by participants.

## 2. Summary of Significant Accounting Policies

**Basis of Accounting**—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

**Use of Estimates**—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Risks and Uncertainties**—The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan provides for investment in the Company's common and Class B stock. At December 31, 2013 and 2012, approximately 7 percent of the Plan's total assets were invested in common and Class B stock of the Company. The underlying values of the Company's common and Class B stock are entirely dependent upon the performance of the Company and the market's evaluation of such performance.

**Investment Valuation and Income Recognition**—Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the Wells Fargo Stable Return Fund investment contracts, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net assets Available for Benefits is prepared on a contract value basis.

Shares of mutual funds are valued at quoted market prices which represent the net asset values of shares held by the Plan at year-end. Fair value of the investments in the common trust fund is determined by the fund trustee based on the fair value of the underlying securities within the fund, which represent the net asset value of the shares held by the Plan at year end.

The Meredith Corporation Stock Fund (the Fund) pools contributions among participants to buy common stock of Meredith and a certain amount of short-term investments. Common stock of the Company is purchased and reported at the daily closing price as reported in the New York Stock Exchange composite. Ownership is measured in units of the Fund instead of shares of stock.

No Class B stock of the Company is publicly traded or available for sale. All Class B shares, however, are convertible to shares of the Company's common stock on a one-to-one basis and thus the value of a share of common stock has been used to value the Class B shares.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes gains and losses in investments sold during the year as well as appreciation and depreciation of the investments held at the end of the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds and common trust funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Administrative Expenses—Administrative expenses of the Plan are paid by the Company.

Payment of Benefits—Benefit payments to participants are recorded upon distribution. As of December 31, 2013, all distribution requests had been paid to participants who had elected to withdraw from the Plan.

### 3. Investments

The fair value of the Plan's investments that represent 5 percent or more of the Plan's net assets as of December 31, 2013 and 2012, are as follows:

	2013	2012
Principal LargeCap S&P 500 Index Separate Account	\$48,378,929	\$37,730,596
T. Rowe Price Small-Cap Stock Fund	37,116,501	26,873,224
LSV Value Equity Fund	36,549,998	25,069,476
Principal MidCap Separate Account	30,506,333	23,558,923
Wells Fargo Stable Value Fund	29,553,686	29,627,107
Meredith Corporation Stock Fund	26,611,254	18,803,409
American Funds EuroPacific Growth R4 Fund	24,167,400	21,809,977
Vanguard Target Retirement 2030 Trust II Fund	19,661,927	15,983,445
Vanguard Total Bond Market Index Inst Fund	*	18,257,292
PIMCO Total Return Instl Fund	*	16,145,874

\* Balance less than 5 percent of Plan's net assets for the applicable year

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	2013
Pooled separate accounts	\$19,753,806
Mutual funds	40,013,224
Meredith common and Class B Stock	9,295,441
Common trust funds	383,827
Net appreciation in fair value of investments	\$69,446,298

### 4. Investment Contract

The Plan maintains a fully benefit-responsive investment contract with Wells Fargo Bank, N.A. (Wells Fargo). Contributions are maintained in a pooled account. As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported by Wells Fargo, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The investment contract is subject to certain restrictions which may impact the Plan's ability to fully realize the investment contract's value under certain conditions. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's competing investment options including the elimination of equity wash provisions, (3) the failure of the trust to

qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA,

6

---

(4) changes in law, regulation, ruling, administrative or judicial position, or accounting requirements, or (5) delivery of any communication designed to influence a participant not to invest in the contract. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The average yields on the contract for the years ended December 31, 2013 and 2012, were 1.36 percent and 0.94 percent, respectively. The crediting interest rates on the contract for the years ended December 31, 2013 and 2012 were 1.52 percent and 1.95 percent, respectively. The basis and frequency of determining the crediting interest rate is done on a quarterly basis. There were no guarantees or limitations on the contract at December 31, 2013 and 2012.

## 5. Fair Value Measurements

Fair value is a market-based measurement, not an entity specific measurement. Therefore, a fair value measurement should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering market participant assumptions in fair value measurements, a fair value hierarchy was established, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. The three levels of the fair value hierarchy are described as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices included within Level 1 that are either directly or indirectly observable;
- Level 3 Assets or liabilities for which fair value is based on valuation models with significant unobservable pricing inputs and which result in the use of management estimates.

The following is a description of the valuation methods used for assets measured at fair value:

**Mutual funds**—The fair values of these securities are based on observable unadjusted market quotations for identical assets and are priced on a daily basis at the close of business.

**Meredith common stock**—The fair value of the common stock is valued at the closing price reported on the active market on which the security is traded.

**Meredith Class B stock**—The fair value of Meredith Class B stock is based on observable market quotations of Meredith common stock and is valued at the closing price reported on the active market on which Meredith common stock is traded.

**Pooled separate accounts**—The fair value of units held in pooled separate accounts are valued at the net asset value as reported by the investment manager of the accounts. These net asset values generally represent amounts at which units are redeemed on a regular basis. The pooled separate accounts allow one transfer per 30 day period. The transfer restriction applies to all plan directed transfers out of this investment, including non-scheduled rebalancing activity. Once the number of allowed transfers is met, the plan is not allowed to transfer back in this investment option until the holding period elapses. Contributions into the investment options are not impacted.

**Common trust funds**—The fair value of the investments in the common trust fund is determined by the fund trustee based on the fair value of the underlying securities within the fund, which represent the net asset value of the shares held by the Plan at year end. The common trust funds allow one transfer per 30 day period. The transfer restriction

applies to all plan directed transfers out of this investment, including non-scheduled rebalancing activity. Once the

7

---

number of allowed transfers is met, the plan is not allowed to transfer back in this investment option until the holding period elapses. Contributions into the investment options are not impacted.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuations methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2013 and 2012:

December 31, 2013	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
<b>Mutual funds</b>				
Large U.S. equity	\$44,372,959	\$—	\$—	\$44,372,959

Total investments, at fair value	\$199,490,596	\$91,121,602	\$—	\$290,612,198

There were no transfers between levels of the fair value hierarchy.

## 6. Exempt Party-In-Interest Transactions

Certain Plan investments are shares in pooled separate accounts managed by the Principal Life Insurance Company (Principal). Principal is the Plan administrator and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each investment.

At December 31, 2013 and 2012, the Meredith Common Stock Fund held 523,726 and 553,556 shares, respectively, of the common stock of Meredith, the sponsoring employer, with a cost basis of \$16,153,210 and \$15,048,611, respectively. In addition, at December 31, 2013 and 2012, the Plan held 4,935 and 5,949 shares, respectively, of the Company's Class B stock, with a cost basis of \$27,043 and \$33,160, respectively. During the year ended December 31, 2013, the Plan recorded dividend income from Company common stock of \$861,752.

## 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

## 8. Income Tax Status

The IRS has determined and informed the Company by a letter dated September 17, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

## 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2013 and 2012.

	2013	2012
Net assets available for benefits per the financial statements	\$361,638,400	\$289,776,728
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	234,790	835,470
Net assets available for benefits per Form 5500	\$361,873,190	\$290,612,198

For the year ended December 31, 2013, the following is a reconciliation of net appreciation in fair value of investments per the financial statements to the Form 5500:

	2013
Total net appreciation in fair value of investments per the financial statements	\$69,446,298
Change in adjustment from contract value to fair value for fully benefit-responsive	(600,680 )

investment contracts	
Net appreciation in fair value of investments per Form 5500	\$68,845,618

9

---

For the year ended December 31, 2013, the following is a reconciliation of total contributions per the financial statements to the Form 5500:

	2013
Total contributions per the financial statements	\$28,761,794
Adjustment for prior year receivable per Form 5500	(25,237 )
Total contributions per Form 5500	\$28,736,557
