## Item 2.01. Completion of Acquisition or Disposition of Assets.

On September 16, 2010, First Mid-Illinois Bancshares, Inc. (“the Company”) filed a Current Report on Form 8-K to report that its wholly owned subsidiary, First Mid-Illinois Bank & Trust, N.A., a national bank (“First Mid Bank”), completed on September 10, 2010 its previously-announced acquisition of 10 Illinois bank branches (“First Bank Branches”) from First Bank, a Missouri state chartered bank, located in Bartonville, Bloomington, Galesburg, Knoxville, Peoria and Quincy, Illinois. The acquisition was consistent with the Company’s strategy to expand its overall service area and bring added convenience to its customers by offering banking capabilities in 25 Illinois communities. In accordance with the Branch Purchase and Assumption Agreement, dated as of May 7, 2010, by and between First Mid Bank and First Bank, First Mid Bank acquired approximately \$336 million of deposits, approximately \$135 million of performing loans and the bank facilities and certain other assets of the Branches. First Mid Bank paid First Bank (a) the principal amount of the loans acquired, (b) the net book value, or approximately \$5.3 million, for the bank facilities and certain assets located at the Branches, (c) a deposit premium of 4.77% on the core deposits acquired, which equated to approximately \$15.6 million, and (d) approximately \$1.8 million for the cash on hand at the First Bank Branches, with proration of certain periodic expenses. The acquisition settled by First Bank paying cash of \$178.3 million to First Mid Bank for the difference between these amounts and the total deposits assumed.

The Current Report of Form 8-K/A is being filed in order to file certain financial statements with respect to the First Bank Branches and other information. The Company recognized \$957,000 of costs related to completion of the acquisition during the first nine months of 2010. These acquisition costs are included in other expense in the statement of income of the Company and are not reflected in the financial statements filed herewith.

The purchase was accounted for under the acquisition method in accordance with Accounting Standards Codification (“ASC”) 805, “Business Combinations,” and accordingly the assets and liabilities were recorded at their fair values on the date of acquisition. The following table summarizes the estimated fair values of assets acquired and liabilities assumed at the date of acquisition (in thousands).

September 10, 2010	Acquired Book Value	Fair Value Adjustments	As Recorded by First Mid Bank
<b>Assets</b>

The difference between the fair value and acquired value of the purchased loans of \$2,102,000 is being accreted to interest income over the remaining term of the loans. The difference between the fair value and acquired value of the assumed time deposits of \$1,413,000 is being amortized to interest expense over the remaining term of the time deposits. The core deposit intangible asset, with a fair value of \$3,050,000, will be amortized on an accelerated basis over its estimated life of ten years.
