NEWS RELEASE

**INDEPENDENCE HOLDING COMPANY REPORTS NET INCOME FROM CONTINUING OPERATIONS
OF \$.22 PER SHARE, DILUTED, FOR THE FIRST QUARTER OF 2009 VERSUS \$.20 PER SHARE,
DILUTED, FOR THE FIRST QUARTER OF 2008**

Stamford, Connecticut, May 11, 2009. Independence Holding Company (NYSE: IHC) today reported 2009 first-quarter results. This press release contains both GAAP and non-GAAP financial information for which reconciliations can be found at the end of this release.

Financial Results

IHC reported operating income¹ per share of \$.16 per share, diluted, or \$2,403,000, for the three months ended March 31, 2009, compared to \$.20 per share, diluted, or \$3,092,000, for the three months ended March 31, 2008.

Net income per share from continuing operations attributable to IHC increased 10% to \$.22 per share, diluted, or \$3,356,000, for the three months ended March 31, 2009, compared to \$.20 per share, diluted, or \$3,072,000, for the three months ended March 31, 2008. Revenues decreased 4.8% to \$99,371,000 for the three months ended March 31, 2009, compared to revenues for the three months ended March 31, 2008 of \$104,418,000, primarily due to stricter underwriting guidelines.

Chief Executive Officer's Comments

Roy Thung, Chief Executive Officer, commented, "We are pleased with the sequential increase in non-GAAP operating income to \$.16 per share, diluted, for the first quarter of 2009 from \$.08 per share, diluted, in the fourth quarter of 2008. The improvement in operating income is largely due to improved underwriting results from stricter underwriting guidelines on our medical stop-loss and an increase in earnings from our group line. We anticipate that our improved operating results will continue for the remainder of 2009."

Mr. Thung continued, "The Company recorded an increase in our book value per share to \$11.25 at March 31, 2009 from \$10.56 at December 31, 2008, primarily as a result of a reduction in unrealized losses due to mark-to-market accounting on our available-for-sale securities. The adjusted book value per share² was \$14.29 at March 31, 2009."

Non-GAAP Financial Measures

The Company provides non-GAAP financial measures to complement its consolidated financial statements presented in accordance with GAAP: (i) Operating income is income from continuing operations net of losses attributable to non-controlling interests and excluding net realized gains or losses, net of applicable income taxes, (ii) Operating income per share is operating income (loss) on a per share basis, and (iii) Adjusted book value per share represents IHC's book value per share excluding the per share value of net unrealized investment gains and losses (per SFAS 115), after taxes. These non-GAAP financial measures are intended to supplement the user's overall understanding of the Company's current financial performance and its prospects for the future. Specifically, the Company believes the non-GAAP results provide useful information to both management and investors by excluding realized gains or losses, net of taxes, that, when excluded from the GAAP results, may provide additional understanding of the Company's core operating results or business performance. However, these non-GAAP financial measures are not intended to supersede or replace the Company's GAAP results. A reconciliation of the non-GAAP results to the GAAP results is provided in the "Reconciliation of GAAP Income from Continuing Operations to Non-GAAP Income from Continuing Operations" and "Reconciliation of GAAP Book Value Per Share to Non-GAAP Adjusted Book Value Per Share" schedules below.

Footnotes

1 Operating income is a non-GAAP measure representing income from continuing operations net of losses attributable to non-controlling interests and excluding net realized investment gains (losses), net of applicable income tax. The Company believes that the presentation of operating income may offer a better understanding of the core operating results of the Company. A reconciliation of income from continuing operations to operating income is included in this press release.

2 Adjusted book value per share is a non-GAAP measure which represents IHC's book value per share and excludes the per share value of net unrealized investment gains and losses (per SFAS 115), after taxes. A reconciliation of book value per share to adjusted book value per share is included in this press release.
