Audit and Administrative Committee  
First Merchants Corporation Retirement and Savings Plan  
Muncie, Indiana

We have audited the accompanying statements of net assets available for benefits of First Merchants Corporation Retirement and Savings Plan as of December 31, 2006, and 2005, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The Plan has adopted FSP Nos. AAG INV-1 and SOP 94-4-1 as discussed in Note 2 to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the plan as of December 31, 2006, and 2005, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying supplemental schedule is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

 Retirement Income and Savings Plan  
 Notes to Financial Statements  
 December 31, 2006 and 2005

Note 1: Description of Plan

The following description of First Merchants Corporation Retirement Income and Savings Plan (Plan) provides only general information. Participants should refer to the Plan Document and Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined-contribution plan sponsored by First Merchants Corporation (Corporation) for the benefit of all employees who are age 18 or older. It is subject to the provisions of the Employee Retirement

## Edgar Filing: FIRST MERCHANTS CORP - Form 11-K

Income Security Act of 1974 (ERISA). First Merchants Trust Company is the trustee and recordkeeper of the Plan. Prime Vest Financial Services was the custodian for a majority of the Plan's assets during 2005. In November 2005, the assets were transferred to Mid Atlantic Capital Corporation. In October 2006, the assets were transferred from Mid Atlantic Capital Corporation to Fidelity. Fidelity is now the custodian for a majority of the Plan's assets.

### Contributions

The Plan permits eligible employees through a salary deferral election to have the Corporation make annual contributions of up to 75% of eligible compensation up to the maximum allowed by law. Employee rollover contributions are also permitted.

Prior to March 1, 2005, the Corporation made matching contributions of its employees' salary deferral amounts of 25% of the first 5% of employees' eligible compensation for all participating employees. After March 1, 2005, the matching contribution described above is the only type of employer contribution granted to grandfathered participants who are at least age 55 and credited with at least ten years of service at February 28, 2005. The remaining participants receive the following three different types of employer contributions. The Corporation's contributions are as follows:

- o Retirement security contributions: range from 2% of pay to 7% of pay based on years of service. The participant must have 1,000 hours of service and be employed at the end of the plan year.
- o Matching contributions: 50% of the first 6% of employees' eligible compensation for all participating employees.
- o Transition contributions: 3% of eligible compensation for all participants who are at least age 45, credited with at least ten years of service at February 28, 2005 and were participating in the Corporation's defined-benefit plan at February 28, 2005. The participant must have 1,000 hours of service and be employed at the end of the plan year. This contribution will only be applicable through the 2009 Plan year.

Retirement Income and Savings Plan  
Notes to Financial Statements  
December 31, 2006 and 2005

The entry date for retirement security and transition contributions is March 1, 2005, and each subsequent January 1. Catch-up contributions are also available for participants after they reach 50 years of age before the end of the applicable year. Prior to March 1, 2005, the Corporation's profit-sharing contributions were discretionary as determined by the Corporation's Board of Directors.

The Plan document also includes an automatic deferral feature whereby a participant is treated as electing to defer 3% of eligible compensation unless the participant made an affirmative election otherwise. Contributions are subject to certain limitations.

### Participant Investment Account Options

Investment account options available include various funds including a Corporation common stock fund. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily. Allocations to the Corporation common stock fund are generally limited to 25% of the applicable account balance.

### Participant Accounts

Each participant's account is credited with the participant's contribution, the Corporation's contribution and plan earnings. Allocations of Plan earnings are based on participant account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### Vesting

Participants are immediately vested in their voluntary contributions and rollover contribution accounts plus earnings thereon. Vesting in the Corporation's matching contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is fully vested in the matching contribution portion of their account after five years of credited service. Effective March 1, 2005, vesting in the retirement security contribution portion of their account plus earnings is 100% after five years of service. Effective March 1, 2005, vesting in the transition contribution portion of their account plus earnings is immediate since all eligible participants have at least ten years of service. The nonvested balance is forfeited upon termination of service. Forfeitures are used to reduce the Corporation's contribution or to pay reasonable administrative expenses of the Plan.

### Payment of Benefits

Upon termination of service, participants may elect to receive a lump-sum amount or installments equal to the value of their accounts. Withdrawals other than for termination are permitted under circumstances provided by the Plan. At December 31, 2006, plan assets include approximately \$39,600 allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan but have not yet been paid.

### Plan Termination

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

### Note 2: Summary of Significant Accounting Policies

#### Method of Accounting

## Edgar Filing: FIRST MERCHANTS CORP - Form 11-K

The accompanying financial statements are prepared on the accrual method of accounting.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits. Actual results could differ from those estimates.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully-benefit responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The FSP is effective for financial statements for the years ending after December 15, 2006 and the financial statements for 2005 have been restated to reflect the implementation of the new standard.

### Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Participant loans and money market funds are valued at cost, which approximates market. Investment in the Corporation's unrestricted common stock is valued at the quoted market price. The Plan's interest in the collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end.

Notes to Financial Statements  
December 31, 2006 and 2005

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

### Plan Tax Status

The Plan obtained its latest determination letter in September 2001, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended and restated since receiving the determination letter. However, the Plan administrator believes that the Plan and related trust

Edgar Filing: FIRST MERCHANTS CORP - Form 11-K

are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Participant Loans

Effective March 1, 2005, participant loans were acquired from merged plans. Participant loans have never been allowed in the Plan. Effective March 1, 2005, no new loans will be granted under the Plan with respect to any merged plan that had an active loan program. Any outstanding loan will continue to be repaid based on the term of the loan from the merged plan.

Administrative Expenses

Administrative expenses may be paid by the Corporation or the Plan, at the Corporation's discretion.

Note 3: Investments

At December 31, 2006, the Plan's investments are held by Fidelity and the Corporation. The Federated Capital Preservation Fund included in Plan assets may be subject to withdrawal charges upon contract termination. Crediting interest rates on the guaranteed interest portion of the investment contract are determined by the issuer. The Plan's investments (including investments bought, sold, and held during the year) appreciated in fair value as follows:

Note 5: Plan Amendments

Effective March 1, 2005, the Plan was amended and restated to allow the employees of Lafayette Bank and Trust Company, Commerce National Bank, First Merchants Insurance Services and Indiana Title Insurance Company to become participants in the Plan. Approximately \$10,500,000 was transferred into the Plan from these 401(k) plans and approximately 400 new participants were added to the Plan. The Plan's name was also changed to First Merchants Corporation Retirement Income and Savings Plan and the employer matching contribution changed as described in Note 1.

Note 6: Subsequent Event

Effective January 1, 2007, the Plan was amended to change the vesting of the Corporation's retirement security contribution portion of participant's accounts to 100% after three years of service from five years of service.
