NVE CORPORATION
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2002

1. INTERIM FINANCIAL INFORMATION

The accompanying unaudited financial statements of NVE Corporation (the "Company") are consistent with accounting principles generally accepted in the United States and reporting with SEC regulations. In the opinion of management, these financial statements reflect all adjustments, consisting only of normal and recurring adjustments, necessary for a fair presentation of the financial statements. Although we believe that the disclosures are adequate to make the information presented not misleading, it is suggested that that these condensed financial statements be read in conjunction with the audited financial statements and the notes there to included in our latest annual financial statements included in its report on Form 10-KSB. The results of operations for the three and six month periods ended September 30, 2002 are not necessarily indicative of the results that may be expected for the full year ending March 31, 2003.

2. NATURE OF BUSINESS

We develop and sell "spintronics" devices, which rely on electron spin rather than electron charge to acquire, store, and transmit information.

3. REVENUE RECOGNITION

Revenue from product sales to direct customers is recognized upon shipment. Revenue from licensing and technology development programs, which is nonrefundable and for which no significant future obligations exist, is recognized when the license is signed. Revenue from licensing and technology development programs, which is refundable, recoupable against future royalties, or for which future obligations exist, is recognized when we have completed our obligations under the terms of the agreements. Revenue from royalties is recognized upon the shipment of product from our technology license partners to direct customers. Certain research and development activities are conducted for third parties and such revenue is recognized as the services are performed.

4. EARNINGS PER SHARE

We calculate our income (loss) per share pursuant to Statement of Financial Accounting Standards No. 128 ("SFAS 128"), Earnings Per Share. Basic earnings per share is computed based upon the weighted average number of common shares issued and outstanding during each year. Diluted net income per share amounts assume conversion, exercise or issuance of all potential common stock instruments (stock options, warrants and convertible preferred stock). Potentially dilutive securities including warrants and stock options are

Edgar Filing: NVE CORP /NEW/ - Form 10QSB

excluded from diluted earnings per share during net loss periods because these securities would be anti-dilutive.

5. RECLASSIFICATION

We reclassified certain research and development costs related to contract research and development programs to cost of sales. Previously, these costs were included with research and development costs reported as operating expenses.

6. INVESTMENTS

We classify and account for debt and equity securities in accordance with SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities. The Company's entire portfolio is classified as available for sale; thus, securities are recorded at fair market value and any associated unrealized gain or loss, net of tax, is included as a separate component of shareholders' equity, "Accumulated other comprehensive income."

7. COMPREHENSIVE INCOME

The components of comprehensive income (loss) are as follows:

	Three months		Six months	
	ended September 30,		ended September 30,	
	2002	2001	2002	2001

Comprehensive income (loss)	\$228,312	\$(676,787)	\$343,639	\$(771,323)
	=====	=====	=====	=====

8. INVENTORIES

Inventories consist of the following:

Raw materials	\$187,864
Work-in-process	487,262
Finished goods	161,670

	836,796
Less obsolescence reserve	(200,000)

	\$636,796
	=====

Item 2. Management's Discussion and Analysis or Plan of Operation.

General

We develop and sell "spintronics" devices, which are integrated circuit type devices that rely on electron spin rather than electron charge to acquire, store, and transmit information in electronic systems. We derive revenue from three sources:

Edgar Filing: NVE CORP /NEW/ - Form 10QSB

- 1) contract spintronics research and development (principally government contracts);
- 2) commercial sales of spintronic sensor and coupler products; and
- 3) licenses for our magnetic random-access memory (MRAM) intellectual property.

Critical accounting policies

It is important to understand our significant accounting policies in order to understand our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. These accounting principles require us to make estimates and assumptions that affect amounts reported in our consolidated financial statements and the accompanying notes. Actual results are likely to differ from those estimates, but we do not believe such differences will materially affect our financial position or results of operations for the periods presented in this report.

Revenue recognition

Revenue from product sales to direct customers is recognized upon shipment. Revenue from licensing and technology development programs, which is nonrefundable and for which no significant future obligations exist, is recognized when the license is signed. Revenue from licensing and technology development programs, which is refundable, recoupable against future royalties, or for which future obligations exist, is recognized when we complete our obligations under the terms of the agreements. Revenue from royalties is recognized upon the shipment of product from our technology license partners to direct customers. Certain research and development activities are conducted for third parties and such revenue is recognized as the services are performed. Payments received from licensing and technology development programs relating to future obligations as well as prepayments for future discounts on product sales are recorded as deferred revenue.

Bad Debt

We maintain an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

Inventory

We reduce the stated value of our inventory for excess quantities or obsolescence in an amount equal to the difference between the cost of inventory and the estimated market value based upon assumptions about future demand and market conditions. If actual future demand or market conditions are less favorable than those projected by management, additional reductions in stated value may be required.

Income Taxes

Edgar Filing: NVE CORP /NEW/ - Form 10QSB

In determining the carrying value of our net deferred tax assets, we must assess the likelihood of sufficient future taxable income in certain tax jurisdictions, based on estimates and assumptions to realize the benefit of these assets. Our management evaluates the realizability of the deferred assets quarterly and assesses the need for valuation allowances or reduction of existing allowances quarterly.

Internal Controls

Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002, our management has reviewed our disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) as of a date within 90 days prior to this quarterly report (the "Evaluation Date"). Our management believes that such disclosure controls and procedures as of the Evaluation Date were adequate to ensure that material information relating to the company is made known to management by others within the company. To management's knowledge, there were no significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the Evaluation Date.

THREE MONTHS ENDED SEPTEMBER 30, 2002 COMPARED TO THREE MONTHS ENDED SEPTEMBER 30, 2001

The table shown below summarizes the percentage of revenue for the various items for the periods indicated:

	Three months ended September 30,	
	2002	2001
	-----	-----
Revenue:		
Research and development	69.7 %	65.4 %
Product sales	26.1	22.3
License fees	4.2	12.3
	-----	-----
Total revenue	100.0	100.0
Cost of sales	64.4	87.3
	-----	-----
Gross profit	35.6	12.7
Total expenses	28.8	58.8
	-----	-----
Net (loss) income	6.8 %	(46.1)%
	=====	=====

Revenue for the three months ended September 30, 2002 was \$2,344,644, an increase of 60% from revenue of \$1,467,916 for the three months ended September 30, 2001. The revenue increase was due to increases in commercial product sales and research and development revenue. Commercial product sales increased 87% to \$612,812 from \$326,920. Research and development revenue increased 70% to \$1,633,915 from \$959,747 due to increased government contract revenue and new revenue recognized under an agreement with Agilent Technologies, Inc. Increases in commercial product sales and research and development revenue were partially offset by a decrease in license revenue from \$181,249 to \$97,917. The decrease in license revenue was due to completion of revenue recognition for one of our MRAM license agreements.

Gross profit increased to 36% for the three months ended September 30,

Edgar Filing: NVE CORP /NEW/ - Form 10QSB

2002 as compared to 13% for the three months ended September 30, 2001. Gross profit on commercial product sales increased to 51% and gross profit on contract research and development increased to 26% for the three months ended September 30, 2002 as compared to (5%) and 1% for the three months ended September 30, 2001. This increase was due to higher yields on commercial products as well as increased margins on contract research and development.

Research and development expenses decreased 24% to \$288,256 for the three months ended September 30, 2002 as compared to \$380,210 in the three months ended September 30, 2001. The decrease was due to completion of the development of some of our commercial products.

Selling, general and administrative expenses for the three months ended September 30, 2002 decreased by 6% to \$456,441 compared to \$483,563 in the prior year. The decrease was primarily due to general and administrative efficiencies and cost-containment.

Net income totaled \$160,296 for the three months ended September 30, 2002 compared to a net loss of \$676,787 for the three months ended September 30, 2001. The profit was due to a change from operational losses to profits, lower interest expense from the retirement of high-cost debt, and higher interest income from our investments.

SIX MONTHS ENDED SEPTEMBER 30, 2002 COMPARED TO SIX MONTHS ENDED SEPTEMBER 30, 2001

The table shown below summarizes the percentage of revenue for the various items for the periods indicated:

	Six Months Ended September 30,	
	2002	2001
	-----	-----
Revenue:		
Research and development	70.3 %	66.2 %
Product sales	25.3	22.2
License fees	4.4	11.6
	-----	-----
Total revenue	100.0	100.0
Cost of sales	63.2	79.3
	-----	-----
Gross profit	36.8	20.7
Total expenses	31.2	45.3
	-----	-----
Net income (loss)	5.6 %	(24.6)%

Revenue for the six months ended September 30, 2002 was \$4,507,600, an increase of 44% from revenue of \$3,130,806 for the six months ended September 30, 2001. The revenue increase was due to increases in commercial product sales and research and development revenue. Commercial product sales increased 64% to \$1,142,000 from \$695,965. Research and development revenue increased 53% to \$3,169,766 from \$2,072,343 due to increased government contract revenue and new revenue recognized under an agreement with Agilent Technologies, Inc. Increases in commercial product sales and research and development revenue were partially offset by a decrease in license revenue from \$362,498 to \$195,834. The decrease in license revenue was due to completion of

Edgar Filing: NVE CORP /NEW/ - Form 10QSB

revenue recognition for one of our MRAM license agreements.

Research and development expenses decreased by 6% to \$616,858 for the six months ended September 30, 2002 as compared to \$657,283 in the six months ended September 30, 2001. The decrease was due to completion of the development of some of our commercial products.

Gross profit margins increased to 37% for the six months ended September 30, 2002 as compared to 21% for the six months ended September 30, 2001. Gross profit on commercial product sales increased to 50% and gross profit on contract research and development increased to 28% for the six months ended September 30, 2002 as compared to 24% and 6% for the six months ended September 30, 2001. This increase was due to higher yields on commercial products as well as increased margins on contract research and development.

Selling, general and administrative expenses for the six months ended September 30, 2002 increased by 7% to \$903,440 compared to \$843,519 in the prior year. The increase was primarily due to higher expenses associated with a ramp-up in commercial selling activities.

Net income totaled \$252,525 for the six months ended September 30, 2002 compared to a net loss of \$771,323 for the six months ended September 30, 2001. The profit was due to a change from operational losses to profits, lower interest expense from the retirement of high-cost debt, and higher interest income on our increased investments.

Liquidity and capital resources

At September 30, 2002, we had \$5,653,311 in available-for-sale securities, consisting of marketable fixed-income investments. We had cash on September 30, 2002 of \$470,653 and working capital of \$6,036,051. We believe our working capital is adequate for our current needs.

PART II--OTHER INFORMATION

Item 4. Submission of Matters to a Vote of Security Holders

An annual meeting of shareholders was held on July 25, 2002. There were 20,785,549 shares of common stock entitled to vote at the meeting with a total of 17,457,328 shares or 84.0% represented at the meeting.

The shareholders elected six directors for a term of one year. The shareholders present in person or by proxy cast the following number of votes in connection with the election of directors, resulting in the election of all the nominees:

	Votes For	Votes Withheld
Terrence Glarner	17,454,158	3,170
Daniel A. Baker	17,454,158	3,170
James Daughton	17,454,158	3,170
Herbert Goronkin	17,454,158	3,170
Robert Irish	17,454,158	3,170
Jeffrey K. Kaszubinski	17,449,158	8,170

Item 5. Other Information

On September 18, 2002, we executed an amended lease for our principal offices, located at 11409 Valley View Road, Eden Prairie, Minnesota 55344. The

Edgar Filing: NVE CORP /NEW/ - Form 10QSB

space consists of 21,362 square feet of offices, production space, and laboratories. The amendment extends through December 31, 2006 a lease which would have expired December 31, 2003. We believe this space will be adequate for our needs for the next several years.

The new amendment reduces our base rent due in calendar year 2003 from \$15,773 per month to \$9,375 per month. In addition to base rent, we pay operating expenses for the space including maintenance, utilities, real estate taxes and insurance.

The original lease and the recent lease amendment are filed herein.

Item 6. Exhibits and Reports on Form 8-K

a. Exhibits.
