## Item 2.02 Results of Operation and Financial Condition

On February 29, 2016, the registrant provided an overview of the Company's recent operating highlights and selected financial results for the year ended December 31, 2015 and provided an update on the Guadalupe de los Reyes gold and silver project. The Company's full financial results can be found in the Company's Annual Report on Form 10-K, filed with the U.S. Securities and Exchange Commission (the "SEC") and the Canadian securities regulatory authorities on February 26, 2016.

### Summary of 2015 Financial Results

We reported net income of \$1.0 million or \$0.01 per share for the year ended December 31, 2015. This includes \$10.2 million of payments received from the Australian Government under a research and development incentive program for qualifying costs incurred in 2012 and 2013; a \$1.6 million mark-to-market loss on our investment in Midas Gold Corp.; \$7.5 million of operating expenses, net of a \$2.0 million gain on the disposal of the Los Cardones gold project; and \$0.1 million of other expenses. Cash operating expenditures were substantially unchanged from 2014.

Our working capital as at December 31, 2015 totaled approximately \$14.4 million, including cash and short-term investments (comprised of government securities) of approximately \$12.9 million. The Company has no debt.

Frederick H. Earnest, Vista's President and CEO, commented, "2015 was a pivotal year in the financial position of the Company. The cash received from the sale of some of our non-core assets, together with the receipt of \$10.2 million dollars under the Australian Government's R&D Tax Incentive Program have financed the Company without shareholder dilution, and provided a treasury that we believe will fund the Company into 2018.

We plan to continue our core focus on Mt Todd permitting and technical/economic studies. We recently retained a team of experts to review key areas of the project; concentrating on metallurgical recovery, process engineering and plant design, pit slope rock mechanics, mine plans and scheduling, and the gas-fired power plant. We hope that this review will identify opportunities to improve project economics and may move the project closer to development."

### Guadalupe de los Reyes Update

On February 25, 2016, Vista received notification from Great Panther Silver Limited ("Great Panther") that it is terminating its option agreement on Vista's non-core Guadalupe de los Reyes gold and silver project (the "Guadalupe project") in Sinaloa, Mexico; and that the \$1.5 million option payment due in February 2016 would not be made. Pursuant to the terms of the option agreement, Vista and Great Panther are now working together to transition 100% of the Guadalupe project back to Vista's control.

Frederick H. Earnest, added, "The Guadalupe project is a non-core project for Vista. The work that Great Panther and its subsidiary (Coboro Minerales de Mexico, S.A. de C.V) completed over the last two years has confirmed previous

work and provided additional information about the low-sulfidation epithermal veins systems in the district. We continue to believe that the Guadalupe project has good prospects for future development based on the identified and prospective mineral resources. At the appropriate time we intend to seek a new partner who can advance the project to a development decision.”
