The Commerce Group, Inc.
Announces 2003 Fourth Quarter Results
and Comparison to 2002

WEBSTER, Mass., January 29, 2004 -- The Commerce Group, Inc. (NYSE:CGI) today reported 2003 fourth quarter results. Net earnings were \$53.7 million, or \$1.65 per diluted share, compared to net earnings of \$1.5 million or \$0.04 per diluted share for 2002.

During the fourth quarter of 2003, the Company had net realized investment gains of \$13.5 million or \$0.27 per diluted share compared to losses of \$34.0 million or \$0.80 per diluted share in the fourth quarter of 2002. A complete breakdown of this information is included in the attached tables.

Earned premiums were \$384.7 million for the fourth quarter of 2003 compared to \$323.8 million for 2002. A schedule of direct written premiums to earned premiums is included in the attached tables.

Edgar Filing: COMMERCE GROUP INC /MA - Form 8-K

The fourth quarter statutory combined ratio for property and casualty operations was 87.7% compared to 99.5% for 2002. The decrease in the combined ratio was the result of a decrease in both the loss and underwriting ratios. The Company's loss ratio for the fourth quarter of 2003 decreased to 62.4% from 73.1% during the same period last year. The decrease was the result of more favorable current year experience in the personal automobile line of business primarily due to increases in average earned premium revenue per automobile, combined with more favorable loss reserve development compared to the fourth quarter of last year.

The Company's statutory underwriting ratio decreased to 25.3%, as compared to 26.4% for last year's fourth quarter, primarily as a net result of lower 2003 policy year mandated Massachusetts personal automobile commission rates offset by higher accrued contingent commissions.

Cumulative December 31, 2003 Results

Net earnings were \$160.9 million, or \$4.99 per diluted share, compared to \$46.8 million or \$1.42 per diluted share for 2002.

Earned premiums were \$1,445.6 million for 2003 compared to \$1,210.0 million for 2002. A schedule of direct written premiums to earned premiums is included in the attached tables.

CGI 4Q'03 earnings (page 2 of 6)

The Company had realized gains on investments of \$76.1 million, or \$1.66 per diluted share, compared to losses of \$82.4 million, or \$2.07 per diluted share for 2002. A complete breakdown of this information is included in the attached tables.

The statutory combined ratio for property and casualty operations was 96.3% for 2003 compared to 98.7% for 2002. The decrease in the combined ratio was primarily the result of a decrease in the loss ratio combined with a decrease in the underwriting ratio. The Company's loss ratio for 2003 decreased to 73.4% from 75.1% in 2002. The decrease was primarily driven by slightly more favorable experience in the current year personal automobile line of business due to increases in average earned premium revenue per automobile and more favorable loss reserve development compared to last year. The Company's statutory underwriting ratio improved to 22.9%, as compared to 23.6% for 2002, primarily from lower 2003 policy year mandated Massachusetts personal automobile commission rates.

A complete presentation of December 31, 2003 and 2002 financial statement information, including a breakdown of the components of the combined ratio and realized investment gains and losses, is included in the financial statements attached to this press release.

Additional supplemental financial information will be available on the Company's website at www.commerceinsurance.com, under the "Links" section of the "News and Investor Information" area.

Edgar Filing: COMMERCE GROUP INC /MA - Form 8-K

During the year ended 2003, the Company purchased 403,572 shares of treasury stock at an average price of \$36.32 per share.
