**PS Business Parks, Inc. reports results for the second quarter ended June 30, 2004.**

**Glendale, California** PS Business Parks, Inc. (AMEX:PSB), reported operating results for the three and six months ended June 30, 2004.

Net income allocable to common shareholders for the three months ended June 30, 2004 was \$5.2 million or \$0.23 per diluted share on revenues of \$55.6 million compared to \$13.0 million or \$0.60 per diluted share on revenues of \$51.6 million for the same period in 2003. Net income allocable to common shareholders for the six months ended June 30, 2004 was \$9.3 million or \$0.42 per diluted share on revenues of \$110.9 million compared to \$18.8 million or \$0.87 per diluted share on revenues of \$101.4 million for the same period in 2003.

Revenues increased \$4.0 million for the three months ended June 30, 2004 over the same period in the prior year as a result of properties acquired during the latter part of 2003, partially offset by a decrease in Same Park revenues of \$1.5 million. Net income allocable to common shareholders decreased over the same period by \$7.8 million or \$0.37 per diluted share partially resulting from a gain on disposition of real estate and a gain on sale of marketable securities of \$3.5 million and \$2.0 million, respectively, or \$0.19 per diluted share, for the same period in 2003. The remaining change is attributable to an increase in depreciation expense of approximately \$4.2 million, or \$0.14 per diluted share, for properties acquired in 2003.

Revenues increased \$9.5 million for the six months ended June 30, 2004 over the same period in the prior year as a result of properties acquired during the latter part of 2003, partially offset by a decrease in Same Park revenues of \$2.9 million. Net income allocable to common shareholders decreased over the same periods by \$9.4 million or \$0.45 per diluted share. Offsetting the impact of net operating income from acquired properties was additional depreciation, interest costs and preferred distributions related to the acquired assets. In addition, the Company reported additional distributions to its preferred stock and unit holders of \$2.1 million related to the redemption of preferred equity (see discussion below).

**Supplemental Measures**

Funds from operations ( FFO ) allocable to common shareholders and unit holders for the second quarter of 2004 and 2003 were \$25.5 million, or \$0.87 per diluted share and \$25.8 million, or \$0.90 per diluted share, respectively. FFO allocable to common shareholders and unit holders for the six months ended June 30, 2004 was \$48.9 million or \$1.67 per diluted share compared to \$46.1 million or \$1.60 per diluted share for the same period in 2003.

On April 30, 2004 the Company redeemed 2,112,900 depositary shares of its 9-1/4% Cumulative Series A Preferred Stock for approximately \$52.8 million and on April 23, 2004 the Company redeemed 510,000 units of its 8-7/8% Series B Cumulative Preferred Operating Partnership Units for approximately \$12.8 million. The Company had informed the holders of such securities of its intent to exercise its redemption rights during the first quarter of 2004. In accordance with the Securities and Exchange Commission's interpretation of Emerging Issues Task Force ( EITF ) Topic D-42, The Effect on the Calculation of Earnings per Share for the Redemption or Induced Conversion of Preferred Stock, the call for redemption of the Series A preferred stock resulted in an additional allocation of net income to preferred shareholders for the three months ended March 31, 2004 and a corresponding reduction of net income and FFO allocable to common shareholders of \$1,866,000. The call for redemption of the

Series B preferred operating partnership units resulted in an additional allocation of net income to preferred unit holders for the three months ended March 31, 2004 and a corresponding reduction in net income and FFO allocable to common shareholders of \$267,000. The \$2,133,000 aggregate reduction in net income allocable to common shareholders represents the excess of the redemption amount over the carrying amount of the Series A preferred stock and Series B preferred operating partnership units.

## Edgar Filing: PS BUSINESS PARKS INC/CA - Form 8-K

In the fourth quarter of 2003, the Company adopted guidance from the SEC regarding the inclusion of impairment adjustments in the calculation of funds from operations. Accordingly, the Company no longer adds back the effects of impairment losses in determining FFO, resulting in a decrease in FFO of \$5.9 million or \$0.20 per diluted share for the six months ended June 30, 2003.

The following table summarizes the impact of the implementation of the SEC's clarification of EITF Topic D-42 and the adoption of the SEC's guidance regarding impairment adjustments on the Company's FFO per common share for the three and six months ended June 30, 2004 and 2003:

### Property Operations

In order to evaluate the performance of the Company's overall portfolio, management analyzes the operating performance of a consistent group of properties (14.2 million net rentable square feet). These properties (herein referred to as Same Park facilities) have been owned and operated by the Company since January 1, 2003. In the first quarter of 2004 the Company reevaluated its plans to sell five office and flex buildings and 4.5 acres of land in Beaverton, Oregon. The Company has determined that these properties will not likely be sold within the next twelve months. Accordingly, these properties have been included in the Same Park facilities for the six months ended June 30, 2004 and 2003. Same Park facilities represent approximately 77% of the Company's total portfolio of 18.4 million square feet as of June 30, 2004.

The following tables summarize the operating results of the Same Park facilities as well as the total portfolio:

(1) Fixed charges include interest expense of \$833,000.

(2) Preferred distributions include amounts paid to preferred shareholders of \$6,679,000 and preferred unit holders in the operating partnership of \$4,804,000.

**Issuance of Preferred Stock and Preferred Units**

On June 30, 2004, the Company issued 2,300,000 depositary shares each representing 1/1,000 of a share of the Company's 7.950% Cumulative Preferred Stock, Series K, at \$25.00 per share. The Company received net proceeds of approximately \$55.7 million.

## Edgar Filing: PS BUSINESS PARKS INC/CA - Form 8-K

On May 27, 2004 and June 17, 2004, the Company completed private placements totaling approximately \$42.8 million of preferred units through its operating partnership. The 7.50% Series J Cumulative Redeemable Preferred Units are non-callable for five years and have no mandatory redemption. The net proceeds from the placements were used to fund a property acquisition and to reduce the amount outstanding on the Company's line of credit.

On April 21, 2004, the Company issued 3,000,000 depository shares, each representing 1/1,000 of a share of the Company's 6.875% Cumulative Preferred Stock, Series I, at \$25.00 per share. The Company received net proceeds of approximately \$72.6 million, which were used to redeem the Company's outstanding 9.25% Series A Preferred Stock and 8.875% Series B Preferred Operating Partnership Units, and reduce the outstanding balance on the Company's line of credit.

### **Property Acquisition**

On May 27, 2004, the Company acquired Fairfax Executive Park, a 165,000 square foot office complex in Fairfax, Virginia, for \$22.4 million. The complex, which consists of two three-story buildings and four one-story buildings, was 82% leased with 26 tenants. The acquisition increased the Company's Northern Virginia portfolio to 2.8 million square feet or 15.1% of the total Company portfolio with a weighted average occupancy of approximately 95.3% for the three months ended June 30, 2004.

### **Property Disposition**

On April 21, 2004, the Company sold a 43,000 square foot flex facility in Austin, Texas, with net proceeds of approximately \$1.1 million. In connection with the sale, the Company recorded a loss of approximately \$168,000.

### **Change in reserve for potentially uncollectible amounts**

During the three-month period ended June 30, 2004, the Company increased the allowance for doubtful tenant receivables by \$250,000 to \$400,000, due to the uncertainty of certain tenants' ability to pay amounts owed to the Company. Included in the reserve for potentially uncollectible receivables is approximately \$160,000 related to ongoing bankruptcy proceedings of existing tenants, the most significant of which is Footstar Corporation.

Footstar Corporation, which was previously one of the Company's top ten tenants, filed for bankruptcy protection during the first quarter of 2004. Immediately upon filing for bankruptcy protection, they rejected one of two leases with the Company. They continue to lease a 57,000 square foot space in Dallas, Texas with a term scheduled to expire in November 2008. At this point we are uncertain of their intentions for this space. Amounts owed by Footstar Corporation for the rejected lease of \$140,000 were written off during the first quarter of 2004.

### **Distributions Declared**

The Board of Directors declared a quarterly dividend of \$0.29 per common share on August 3, 2004. Distributions were also declared on the various series of depository shares, each representing 1/1,000 of a share of preferred stock listed below. Distributions are payable September 30, 2004 to shareholders of record on September 15, 2004.

<b>Series</b>	<b>Dividend Rate</b>	<b>Dividend Declared</b>

Series I	6.875%	\$ 0.429688
Series K	7.950%	\$ 0.502396 <sup>(1)</sup>

(1) Series K distribution includes dividends from June 30, 2004 to September 30, 2004.

- (1) Funds from operations ( FFO ) is a term defined by the National Association of Real Estate Investment Trusts, Inc. ( NAREIT ) by which real estate investment trusts ( REITs ) may be compared. It is generally defined as net income, computed in accordance with generally accepted accounting principles, before depreciation, amortization, minority interest in income and extraordinary items. The Company considers FFO to be a useful measure of the operating performance of a REIT, which provides investors with a basis to evaluate the operations and the cash flows of a REIT. FFO does not represent net income or cash flow from operations as defined by GAAP. FFO computations do not factor out the REIT's requirement to make either capital expenditures or principal payments on debt. The Company excludes gains/losses on disposition of real estate and gains/losses on sale of marketable securities to more accurately reflect cash flow from real estate operations. Other REITs may not make these adjustments in computing FFO. FFO does not represent net income or cash flow from operations as defined by GAAP.
- (2) Funds available for distribution ( FAD ) is computed by deducting from consolidated FFO recurring capital expenditures, tenant improvements, capitalized leasing commissions, and straight-line rent from FFO and adding impairment charges and stock based compensation expense. Like FFO, the Company considers FAD to be a useful measure for investors to evaluate the operations and cash flows of a REIT. FAD does not represent net income or cash flow from operations as defined by GAAP.
