Edgar Filing: CURATIVE HEALTH SERVICES INC - Form DEF 14A

Committee generally reviews the scope of the audit with the independent public auditors and meets with them for the purpose of reviewing the results of the audit subsequent to its completion. The Board of Directors has adopted a written charter for the Audit Committee, a copy of which was included in last year's proxy statement.

Compensation and Stock Option Committee. The members of the Compensation and Stock Option Committee are Messrs. English (as Chairman), Berce and Maudlin. All the members of the Compensation and Stock Option Committee, are "non-employee directors" (as defined by Rule 16b-3 under the Securities Exchange Act of 1934, as amended). The Compensation and Stock Option Committee reviews and approves the compensation, including stock incentives, bonuses and benefits, of the executive officers of the Company and makes all determinations regarding the administration of the Company's various stock incentive plans and awards.

3

Nominating Committee. The members of the Nominating Committee are Messrs. Prior (as Chairman) and Feshbach. The Nominating Committee will consider nominees for director recommended by shareholders. In order to have nominees considered, shareholders must provide the Nominating Committee with written notice of such proposal not later than 60 days following the end of the fiscal year to which the next annual meeting of shareholders relates, together with such nominee's name, age, address, principal occupations for the preceding ten years, and a brief statement in support of such nominee. The Nominating Committee is under no obligation to accept a nominee proposed by a shareholder pursuant to the foregoing procedure. All nominations ultimately made by the Nominating Committee are in such committee's sole discretion. In the alternative, a shareholder may nominate persons for election as directors by following the procedures set forth in the Company's bylaws.

During Fiscal 2001 the Board of Directors met nine times; the Audit Committee met five times; the Compensation and Stock Option Committee met seven times; and the Nominating Committee did not meet. Each incumbent director attended at least 75% of all meetings of the Board and applicable committees held during Fiscal 2001.

Compensation of Directors

In 2001 each non-employee director was paid an annual retainer of \$12,000, \$1,000 for each Board meeting attended in person or \$350 for each Board meeting participated in by means of conference telephone. Each non-employee director also received an annual retainer of \$1,500 for each Committee on which he served, and the chairman of the each Committee received an additional annual retainer fee of \$3,000. Non-employee directors also received a fee of \$500 for each Committee meeting attended, except for meetings held on the same date as a Board meeting. The members of the Nominating Committee received no fees or options for serving on that Committee.

In consideration for the additional services he had been providing as a result of a change in the Company's management which occurred in late 2000, Mr. Feshbach was given the title of Executive Chairman in March 2001, awarded a monthly retainer in the amount of \$15,000 per month, and granted an additional option to purchase 75,000 shares of Common Stock at \$5.70 per share vesting at the rate of 15,000 shares every three months. In addition to options awarded to Gary Blackford under the Director Plan upon his election to the Board, Mr. Blackford, a former director and Chief Executive Officer of the Company, was awarded an option for 17,000 shares at \$6.30 per

Edgar Filing: CURATIVE HEALTH SERVICES INC - Form DEF 14A

share as an incentive to join the Board and in recognition of his special expertise in the specialty pharmacy industry, which market the Company had entered into through its acquisition of eBioCare.com, Inc. in March 2001. In recognition of his services in evaluating the injectables business of the Company's specialty pharmacy operations and in order to further align his interests with those of the shareholders, Mr. Blackford was awarded an additional option for 10,000 shares at \$8.68 share in August 2001. Subject to certain conditions, all of these options awarded to Mr. Blackford vest as to one-third of the shares after one year and thereafter in equal installments at the end of the next eight successive three-month periods. At the same time in August 2001, in consideration for extra services performed as directors, Mr. Berce and Mr. Maudlin were each awarded options for 15,000 shares with an exercise price of \$8.68 per share and, subject to certain conditions, vesting as to one-third of the shares after one year and thereafter in equal installments at the end of the next eight successive three-month periods. In September 2001, Mr. Feshbach's monthly retainer as Executive Chairman was increased to \$20,000 per month in recognition of the substantial progress made in resolving the pending governmental investigations. Finally, in December 2001, the Compensation and Stock Option Committee awarded Mr. Feshbach a \$50,000 cash bonus in recognition of the extra services he had performed for the Company during 2001, particularly with respect to resolving the governmental investigations.

4

In 1993, the Company established a Director Share Purchase Program (the "Program") to encourage ownership of its Common Stock by its directors. Under the program, each non-employee director can elect to forego receipt of annual retainer and meeting fees in cash and, in lieu thereof, receive shares of Common Stock having a market value at the date of issuance equal to the cash payment.

In 1995, the Company established a Non-Employee Director Stock Option Plan (the "Director Plan"). The purpose of the Plan is to promote the success of the Company by attracting and retaining non-employee directors by supplementing their cash compensation and providing a means for such directors to increase their holdings of Common Stock. The Company believes it is important that the interest of the directors be aligned with those of its shareholders and that the Director Plan strengthens that link. The Director Plan provides for an automatic initial grant of options to purchase 12,000 shares of Common Stock, at market value on date of grant, to a non-employee director upon his or her initial election as a member of the Board. The Director Plan also provides for the automatic grant of an option to purchase 12,000 shares of Common Stock, at market value on the date of grant, each time a non-employee director is re-elected as a member of the Board; provided that, in lieu of such annual grants upon re-election in 2000 and 2001, each non-employee director re-elected at the 2000 Annual Shareholders Meeting received a one-time grant of an option to purchase 24,000 shares of Common Stock, at market value on date of grant. As a result, none of the non-employee directors re-elected at the 2001 Annual Shareholders Meeting received an option grant under the Director Plan in 2001.

Compensation Committee Interlocks and Insider Participation

The members of the Compensation and Stock Option Committee during 2001 consisted of Daniel A. Gregorie, M.D. (as Chairman), Mr. Berce and Mr. English, until the 2001 Annual Meeting of Shareholders when Dr. Gregorie left the Board, Mr. Maudlin was appointed to the Committee in place of Dr. Gregorie and Mr. English was chosen to act as its Chairman. Mr. Maudlin served as President of the Company from October 1985 through December 1986.

Edgar Filing: CURATIVE HEALTH SERVICES INC - Form DEF 14A

In December 2001, the Company loaned Mr. Maudlin \$133,683 which represented 80% of the aggregate exercise price payable to the Company by Mr. Maudlin in connection with an exercise by Mr. Maudlin of certain Company stock options. See "Certain Transactions" for more information about this loan.

Mr. English, who currently serves as the Chairman of the Compensation and Stock Option Committee, is the Chairman and Chief Executive Officer of QuadraMed Corporation. period following a change in control, Mr. Blackford would be entitled to a lump sum severance payment equal to the product of two times the sum of the then current annual base salary plus, subject to certain conditions, an amount equal to between 25% and 50% of his then current base salary. In addition, to the extent not otherwise required under the Company's stock option plan or any award agreement with Mr. Blackford, any unvested stock option awards would vest and become immediately exercisable in full after a change in control. Mr. Blackford's employment with the Company was terminated in March 2002. To date, no termination or severance payments have been made to Mr. Blackford.

On September 1, 1997, the Company entered into an amended and restated employment agreement with Mr. Prior. The salary under the employment agreement is subject to annual review and increase by the Compensation Committee. The Company may terminate the employment agreement at any time with or without cause upon 30 days' prior written notice to Mr. Prior, and Mr. Prior may terminate the employment agreement at any time upon 30 days' prior written notice to the Company. In the event the Company terminates the employment agreement without cause prior to a change of control (defined below) or elects not to renew, Mr. Prior will be entitled to receive a lump sum severance payment equal to Mr. Prior's then current base salary plus the arithmetic average of payments made to Mr. Prior pursuant to the Company's Executive Bonus Compensation Program with respect to the three years immediately preceding the fiscal year in which the date of termination occurs. In addition, to the extent not otherwise required under the Company's stock option plan, any unvested stock option awards that would have vested during the twelve month period following the date of termination shall vest and become immediately exercisable in full. If the employment agreement is terminated (or not renewed) by the Company without cause or by Mr. Prior for good reason during the twelve month period immediately following a change in control (or is terminated or not renewed prior to a change in control at the request or insistence of any person in connection with a change in control), Mr. Prior shall be entitled to a lump sum severance payment equal to the product of two times the sum of the then current annual base salary plus the arithmetic average of payments made to Mr. Prior pursuant to the Company's Executive Bonus Compensation Program with respect to the three fiscal years immediately preceding the fiscal year in which the date of termination occurs. In addition, to the extent not otherwise required under the Company's Stock Option Plan, any unvested stock option awards shall vest and become immediately exercisable in full. The Company may terminate the employment agreement at any time with or without cause upon 30 days' prior written notice to Mr. Tella, and Mr. Tella may terminate the employment agreement at any time upon 30 days' prior written notice to the

Company. In the event the Company terminates the employment agreement without cause prior to a change of control (defined below) or elects not to renew, Mr. Tella will be entitled to receive a lump sum severance payment equal to Mr. Tella's then current base salary plus the arithmetic average of payments made to Mr. Tella pursuant to the Company's Executive Bonus Compensation Program with respect to the three years immediately preceding the fiscal year in which the date of termination occurs. In addition, to the extent not otherwise required under the Company's stock option plan, any unvested stock option awards that would have vested during the twelve month period following the date of termination shall vest and become immediately exercisable in full. If the employment agreement is terminated (or not renewed) by the Company without cause or by Mr. Tella for good reason during the twelve month period immediately following a change in control (or is terminated or not renewed prior to a change in control at the request or insistence of any person in connection with a change in control), Mr. Tella shall be entitled to a lump sum severance payment equal to the product of two times the sum of the then current annual base salary plus the arithmetic average of payments made to Mr. Tella pursuant to the Company's Executive Bonus Compensation Program with respect to the three fiscal years immediately preceding the fiscal year in which the date of termination occurs. The Company may terminate the employment agreement at any time with or without cause upon 30 days' prior written notice to Mr. McKinley, and Mr. McKinley may terminate the employment agreement at any time upon 30 days' prior written notice to the Company. In the event the Company terminates the employment agreement without cause prior to a change of control (defined below) or elects not to renew, Mr. McKinley will be entitled to receive a lump sum severance payment equal to Mr. McKinley's then current base salary plus the arithmetic average of payments made to Mr. McKinley pursuant to the Company's Executive Bonus Compensation Program with respect to the three years immediately preceding the fiscal year in which the date of termination occurs. In addition, to the extent not otherwise required under the Company's stock option plan, any unvested stock option awards that would have vested during the twelve month period following the date of termination shall vest and become immediately exercisable in full. If the employment agreement is terminated (or not renewed) by the Company without cause or by Mr. McKinley for good reason during the twelve month period immediately following a change in control (or is terminated or not renewed prior to a change in control at the request or insistence of any person in connection with a change in control), Mr. McKinley shall be entitled to a lump sum severance payment equal to the product of two times the sum of the then current annual base salary plus the arithmetic average of payments made to Mr. McKinley pursuant to the Company's Executive Bonus Compensation Program with respect to the three fiscal years immediately preceding the fiscal year

of termination is given at least three months prior to renewal. The Company may terminate the employment agreement at any time, if such termination is for cause, or, if for any reason other than for cause, upon 30 days' prior written notice to Mr. Leiker, and Mr. Leiker may terminate the employment agreement at any time without notice or, if the termination is for good reason, upon 60 days' prior written notice to the Company. In addition, to the extent not otherwise required under the Company's stock option plan any unvested stock option awards shall vest and become immediately exercisable in full. The employment agreement also restricts Mr. Leiker from competing with the Company under certain circumstances during his employment with the Company and for a period of two years thereafter.

The options held by the executive officers of the Company provide for

Edgar Filing: CURATIVE HEALTH SERVICES INC - Form DEF 14A

the acceleration of vesting of the options upon a change in control of the Company. For the purpose of these amendments, the term "change in control" includes a sale of substantially all of the Company's assets; the acquisition by a person or group of beneficial ownership of 51% or more of the outstanding Common Stock or the commencement of a tender offer for such an acquisition; a merger in which the shareholders of the Company receive shares of another company; a reorganization, merger or other transaction resulting in the consolidation of the Company with another company for federal income tax purposes; a change in the members of the Board of Directors such that a majority of the Board of Directors was not recommended by the Board of Directors for election by the shareholder; and any other transaction in which there is a sufficient change in the share ownership of the Company to change the effective control of the Company.

CERTAIN TRANSACTIONS

In December 2001 and January 2002, in order to encourage the directors and executive officers of the Company to increase their equity stake in the Company, the Board of Directors offered to accelerate the exercisability of certain options held by directors and executive officers (provided that the underlying shares could not be sold until such time, if any, as the option would have become exercisable under its original terms) and to provide the directors and officers with loans to cover 80% of the aggregate exercise price of any options they elected to exercise. Under this program, in December 2001 Mr. Blackford borrowed \$354,000 and Mr. Maudlin borrowed \$133,683. In 2002, Mr. Blackford borrowed an additional \$708,000, Mr. Auerbach borrowed \$77,495, Mr. Prior borrowed \$600,870, Mr. Tella borrowed \$489,959, Ms. Lanis borrowed \$78,200, Mr. McKinley borrowed \$245,344, Mr. Axmacher borrowed \$103,795 and Mr. Leiker borrowed \$303,997 to fund 80% of the exercise price of certain options. All of these loans bear interest at an annual rate of 2.46%. To date none of these loans has been repaid.

The Compensation and Stock Option Committee of the Board of Directors (the "Committee") is responsible for reviewing the performance of the Company's executive officers and establishing their compensation, including base salary, bonus incentive compensation and other benefits, if any, as well as grants to executive officers and other employees of long-term compensation incentives in the form of stock options pursuant to the Company's stock incentive plans. The Committee also makes recommendations as to compensation policies for the overall Company. The Committee is composed of three independent, non-employee directors. The key objectives of the Committee in administering executive compensation are the following:

- o Aligning the economic interests of executive officers with both the short-and long-term interests of shareholders.
- o Motivating executive officers to undertake strategic business initiatives and rewarding them for the successful development and implementation of those initiatives.
- o Attracting and retaining key executive officers who will contribute to the long-term success of the Company.

At present, there are three main components of compensation for executive officers: base salary, short-term incentive compensation in the form of annual bonuses and long-term incentive compensation in the form of stock options.

Base Salary

The Committee sets base salaries for executive officers (including the Chief Executive Officer) with reference to the specific responsibilities of the executive officer, his or her experience in the industry, and other competitive factors. The Committee reviews each executive officer's base salary annually and makes appropriate adjustments depending upon industry trends in executive salaries, Company financial and operating performance, and such individual's performance and contribution to the Company's growth and success. Due to numerous factors, including the Company's ongoing legal difficulties in the Specialty Healthcare Services unit, the departure of John Vakoutis as the Company's Chief Executive Officer in December 2000, the subsequent appointment of Mr. Feshbach as Executive Chairman and Mr. Prior as President and Interim Chief Executive Officer, followed by the hiring of Mr. Blackford as Chief Executive Officer in September 2001, and the addition of a new business segment to the Company with the acquisition of eBioCare.com in March 2001, 2001 was not a typical year for the Company in terms of financial or operational performance. Accordingly, many of the compensation decisions made during 2001 were based on changes in management and management positions, considering market conditions, equity factors and management recommendations. In January 2001 the Committee approved base salary increases recommended by Mr. Prior, including his recommendation that the base salaries of several of the executive officers be raised to put them on a par with other members of the executive team. As a result, the base salaries of the Company's executive officers (other than the Chief Executive Officer) generally increased for the year ended December 31, 2001 by an average of approximately five percent over their base salaries for the prior year.

The Committee's decisions during 2001 regarding base compensation for its chief executive officer reflected the increased responsibilities assumed by the individual carrying out the functions of the chief executive officer. Early in 2001, Mr. Feshbach was given the title of Executive Chairman and awarded a monthly retainer to recognize the increase in the time devoted by him to the Company after the departure of Mr. Vakoutis. See "Compensation of Directors" above. In March 2001, when Mr. Prior was promoted to President

and Interim Chief Executive Officer of the Company, the Board of Directors increased his annual salary from \$223,961 to \$270,000 in recognition of the increased responsibilities associated with his new position. Finally in September 2001, the Committee recommended and the Board approved the hiring of Mr. Blackford as Chief Executive Officer of the Company. Mr. Blackford's employment agreement provided for an initial base salary of \$350,000 per year which was the result of a lengthy negotiation between the Company and Mr. Blackford. In determining the amounts to be paid either as retainers or as salary in consideration for senior executive leadership during 2001, the Committee was primarily guided by the need to provide appropriate incentives for individuals based on market and equity considerations.

Bonus Incentive Compensation

The executive officers of the Company (including the Chief Executive Officer) participate in the Company's Annual Incentive Compensation Program, pursuant to which each executive officer is eligible to earn a cash bonus for each fiscal year of the Company equal to a predetermined percentage of such officer's base salary, as a function of the Company's achievement of quarterly operating earnings goals and certain other milestones. Furthermore, a predetermined weighting of the earnings goals and certain milestones is set for each officer.

At the beginning of the fiscal year of the Company, the Committee approves pre-determined percentages of the executive officers' base salary that will be paid in the form of a cash bonus if the Company achieves certain targeted goals as approved by the Committee. In addition, at the beginning of each fiscal year the Committee establishes certain operational milestones for the Company related to the achievement of healing outcomes of patients treated at the wound care programs, patient satisfaction results, other meaningful corporate goals which the Company's Specialty Healthcare and Specialty Pharmacy Services units might expect to accomplish in such fiscal year and an individual milestone for each officer. The Committee also establishes a specified percentage of the executive officers' base salaries that will be paid in relation to the achievement of each milestone. The earnings goals and the special milestones established by the Committee will permit the executive officers, except the Chief Executive Officer, to earn up to 60 percent of their base salary in the form of a cash bonus. The executive officers' actual bonuses are awarded and paid in the following fiscal year once the Company's financial results and milestone achievements for the prior fiscal year have been finally determined.

For fiscal 2001, the Company's performance overall and the achievements of individuals were negatively impacted by the Company's legal issues, a turbulent hospital industry and the generally weak economy. As a result, in December 2001 the Committee determined not to award any bonuses to the executive officers under the Annual Incentive Compensation Program for 2001.

With respect to the Company's executive officers, the Committee determined that some modest cash incentive compensation was warranted to recognize the service provided by certain officers during the difficult situation faced by the Company in 2001. The Committee did not award Mr. Blackford any cash incentive compensation due to his being just recently hired in September 2001.

Stock Options and Restricted Stock Awards

Although the Committee did not make an across the board grant of

Edgar Filing: CURATIVE HEALTH SERVICES INC - Form DEF 14A

options to the executive officers during 2001, it did grant options and award shares of restricted stock to various officers for specific reasons. Mr. Blackford, Mr. Leiker and Ms. Lanis were granted 380,000, 200,000 and 50,000 options, respectively, in connection with their hiring by the Company. Similarly, Mr. Prior and Mr. Axmacher were granted 20,000 and 10,000 options in connection with promotions received during 2001. In addition, Mr. Prior was awarded 10,000 shares of restricted stock in recognition of his special efforts on behalf of the Company in resolving its legal issues with the Department of Justice. Mr. Tella was also awarded 5,000 shares of restricted stock in recognition of his special efforts in connection with matters relating to Cytomedix.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended, sets a \$1.0 million limit on the amount of deductible compensation that can be paid in any year to an executive officer of the Company. "Qualified performance-based compensation" (as defined under Section 162(m)) is excluded from the calculation of this \$1.0 million limit. Although the Committee does not believe that the annual compensation for 162(m) purposes for any of the Company's executive officers will exceed \$1.0 million in fiscal 2002, the Company has taken the necessary steps to allow stock options granted under the 2000 Stock Incentive Plan to qualify as "qualified performance-based compensation" and so be excluded from this calculation.

The Audit Committee's responsibility is to monitor and oversee these processes.

In this context, the Audit Committee has met and held discussions with management and the independent accountants. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the consolidated financial statements with management and the independent accountants. The Committee also considered whether non-audit services provided by the independent accountants during the last fiscal year were compatible with maintaining the independent accountants' independence.

Based upon the Audit Committee's discussion with management and the independent accountants and the Audit Committee's review of the representations of management and the report of the independent accountants to the Audit Committee, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual report on Form 10-K for the fiscal year ended December 31, 2001 for filing with the Securities and Exchange Commission.

Section 16(a) of the Securities and Exchange Act of 1934 requires the Company's directors and executive officers and all persons who beneficially own more than ten percent of the outstanding shares of the Company's Common Stock to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of such Common Stock. Directors, executive officers and ten percent or more beneficial owners are also required to furnish the Company with copies of all Section 16(a) reports filed. Based solely on a review of the copies of such forms and certain representations, the Company believes that all Section 16(a) filing requirements applicable to its executive officers, directors and ten percent shareholders were in compliance, except that: a March 2001 Form 3 filing, and Form 4 filings for May and June 2001 with respect to the acquisition of 20,000 shares of Common Stock, with the Securities and Exchange Commission for Mr. Leiker were inadvertently omitted at the time such filings were due, and Form 4's filed for Mr. Maudlin and Mr. Feshbach in June 2001 were inadvertently filed approximately 15 minutes after the deadline for filing such forms with the Securities and Exchange Commission.

PROPOSAL #2 APPROVAL OF AMENDMENT TO THE CURATIVE HEALTH SERVICES, INC. 2000 STOCK INCENTIVE PLAN

In April 2002, the Board of Directors amended the Curative Health Services, Inc. 2000 Stock Incentive Plan (the "Plan"), subject to shareholder approval, to increase the number of shares of Common Stock available for issuance pursuant to options awards (including Incentive Stock Options (as defined below)) granted thereunder from 1,600,000 to 2,177,900. As of March 31, 2002, only 383,114 shares were available for grant under the Plan.

The purpose of the Plan is to aid in attracting and retaining personnel capable of assuring the future success of the Company, to offer such persons incentives to put forth maximum efforts for the success of the Company's business and to afford such persons an opportunity to acquire a proprietary interest in the Company. The Board of Directors believes that the increase in authorized shares is necessary because of the need to continue to make awards under the option plan to attract and retain key employees. In addition, since the first quarter of 2001 the Company has been actively growing its Specialty Pharmacy Services unit through the acquisition of complementary businesses, such as Apex Therapeutic Care, Inc. and Hemophilia Access, Inc. The Board of Directors believes that the ability to grant stock incentive awards under the Plan to new officers and employees is crucial to

Edgar Filing: CURATIVE HEALTH SERVICES INC - Form DEF 14A

the Company's ability to continue to take advantage of opportunities to acquire such complementary businesses and expand the Company's presence in specialty pharmacy services.

Summary of the Plan

Subject to shareholder approval at the Meeting, the total number of shares that may be granted under the Plan, and the total number of shares of Common Stock that may be purchased upon exercise of Incentive Stock Options (as defined below) granted under the Plan will be increased by 577,900 to 2,177,900. Any shares that are used by a Plan participant as full or partial payment to the Company of the purchase price relating to an award, or in connection with the satisfaction of tax obligations relating to an award in accordance with the provisions relating to tax withholding under the Plan,

21

will again be available for the granting of awards under the Plan. In addition, if any shares covered by an award under the Plan are not purchased or are forfeited or are otherwise not delivered, then such shares shall again be available for granting awards under the Plan. In order to ensure that awards under the Plan will be "performance-based" compensation and so deductible for tax purposes under Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), the Plan provides that, no person may be granted awards representing an aggregate of more than 500,000 shares of Common Stock in the aggregate in any calendar year.

Eligibility

Any employee, officer, consultant, independent contractor or director providing services to the Company or any of its affiliates is eligible to receive awards under the Plan. Approximately 400 individuals are eligible to participate in the Plan as of the date of this proxy statement. No awards may be granted under the Plan after May 31, 2010.

Types of Awards; Plan Administration

The Plan permits the granting of (a) stock options, including incentive stock options ("Incentive Stock Options") meeting the requirements of Section 422 of the Code, and stock options that do not meet such requirements ("Nonqualified Stock Options"), (b) restricted stock and restricted stock units, (c) performance awards, (d) stock appreciation rights ("SAR's"), and (e) other awards valued in whole or in part by reference to or otherwise based upon the Company's stock ("other stock-based awards"). The Plan is administered by a committee of the Board of Directors consisting exclusively of two or more members of the board of directors who are not also employees of the Company (the "Committee"). The Committee has the authority to establish rules for the administration of the Plan, to select the individuals to whom awards are granted, to determine the types of awards to be granted and the number of shares of Common Stock covered by such awards, and to set the terms and conditions of such awards. The Committee may also determine whether, and to what extent, any amounts payable with respect to awards under the Plan would be deferred, and whether any deferral would be automatic or at the election of the holder of the award or the Committee. Determinations and interpretations with respect to the Plan are at the sole discretion of the Committee, whose determinations and interpretations are binding on all interested parties. The Committee may delegate to one or more officers the right to grant awards under the Plan, except with respect to officers or directors of the Company or any affiliate of the Company who are subject to Section 16(b) of the Securities Exchange Act of 1934, as amended (the "1934 Act").

Awards may be granted for no cash consideration or for such minimal cash consideration as may be required by applicable law. Awards may provide that upon the grant or exercise thereof the holder will receive shares of Common Stock, cash or any combination thereof, as the Committee shall determine. The exercise price per share under any stock option, the grant price of any SAR, and the purchase price of any security which may be purchased under any other stock-based award shall not be less than 100% of the fair market value of the Company's Common Stock on the date of the grant of such option, SAR or award. Options shall be exercised by payment in full of the exercise price, either in cash or, at the discretion of the Committee, in whole or in part by tendering shares of Common Stock or other consideration including, without limitation, promissory notes, other securities, other awards or other property, or any combination thereof, having a fair market value on the date the option is exercised equal to the exercise price. Determinations of fair market value under the Plan are made in accordance with methods and procedures established by the Committee.

The Plan provides that the Committee may grant reload options, separately or together with another option, and may establish the terms and conditions of such reload options. Pursuant to a reload option, the optionee would be granted a new option to purchase the number of shares not exceeding the sum of (i) the number of shares of Common Stock tendered as payment upon

22

the exercise of the option to which such reload option relates, and (ii) the number of shares of the Company's Common Stock tendered as payment of the amount to be withheld under income tax laws in connection with the exercise of the option to which such reload option relates. Reload options may be granted with respect to options granted under any stock option plan of the Company.

The holder of restricted stock may have all of the rights of a shareholder of the Company, including the right to vote the shares subject to the restricted stock award and to receive any dividends with respect thereto, or such rights may be restricted as the Committee imposes. Restricted stock may not be transferred by the holder until any restrictions established by the Committee have lapsed. Holders of restricted stock units have the right, subject to any restrictions imposed by the Committee, to receive shares of Common Stock (or a cash payment equal to the fair market value of such shares) at some future date. Upon termination of the holder's employment during the restriction period, restricted stock and restricted stock units are forfeited, unless the Committee determines otherwise.

Performance awards may provide the holder thereof the right to receive payments, in whole or in part, upon the achievement of such goals during such performance periods as the Committee shall establish. A performance award granted under the Plan may be denominated or payable in cash, shares of Common Stock, or restricted stock, other securities, other awards or other property.

The holder of an SAR will be entitled to receive the excess of the fair market value (calculated as of the exercise date or, if the Committee shall so determine, as of any time during a specified period before or after the exercise date) of a specified number of shares over the grant price of the SAR.

The Committee is also authorized to establish the terms and conditions of other stock-based awards.

Miscellaneous

Except as otherwise provided in any award agreement (other than an award agreement relating to an Incentive Stock Option) pursuant to terms determined by the Committee, no award granted under the Plan may be assigned, transferred, pledged or otherwise encumbered by the individual to whom it is granted, otherwise than by will, by designation of a beneficiary, or by laws of descent and distribution. Except as otherwise provided, each award shall be exercisable, during such individual's lifetime, only by such individual, or, if permissible under applicable law, by such individual's guardian or legal representative.

If any dividend or other distribution, recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase, or exchange of shares of Common Stock or other securities of the Company or other similar corporate transaction or events affects the shares of Common Stock such that an adjustment is appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan or under an award, the Committee may, in such manner as it deems equitable or appropriate in order to prevent such dilution or enlargement of any such benefits or potential benefits, adjust any or all of (a) the number and type of shares (or other securities or property) which thereafter may be made the subject of awards, (b) the number and type of shares (or other securities or property) subject to outstanding awards, and (c) the purchase or exercise price with respect to any award. The Committee may correct any defect, supply any omission, or reconcile any inconsistency in the Plan or any award agreement in the manner and to the extent it shall deem desirable to carry the Plan into effect.

The Board of Directors may amend, alter, suspend, discontinue or terminate the Plan at any time, provided that, without shareholder approval, no such amendment, alteration, suspension, discontinuation or termination shall be made, that (i) would violate the rules or regulations of the Nasdaq National Market or of any securities exchange applicable to the Company; or (ii) would cause the Company to be unable under the Code to grant Incentive Stock Options under the Plan.

23

Tax Consequences

The following is a summary of the principal federal income tax consequences generally applicable to awards under the Plan. The grant of an option or SAR is not expected to result in any taxable income for the recipient. The holder of an Incentive Stock Option generally will have no taxable income upon exercising the Incentive Stock Option (except that a liability may arise pursuant to the alternative minimum tax), and the Company will not be entitled to a tax deduction when an Incentive Stock Option is exercised. Upon exercising a Nonqualified Stock Option, the optionee must recognize ordinary income equal to the excess of the fair market value of the shares of Common Stock acquired on the date of exercise over the exercise price, and the Company will be entitled at that time to a tax deduction for the same amount. Upon exercising a SAR, the amount of any cash received and the fair market value on the exercise date of any shares of Common Stock received are taxable to the recipient as ordinary income and deductible by the Company. The tax consequence to an optionee upon a disposition of shares acquired through the exercise of an option will depend on how long the shares have been held and upon whether such shares were acquired by exercising an Incentive Stock Option or by exercising a Nonqualified Stock Option or SAR. Generally, there will be no tax consequence to the Company in connection with

Edgar Filing: CURATIVE HEALTH SERVICES INC - Form DEF 14A

the disposition of shares acquired under an option, except that the Company may be entitled to a tax deduction in the case of a disposition of shares acquired under an Incentive Stock Option before the applicable Incentive Stock Option holding periods set forth in the Code have been satisfied.

With respect to other awards granted under the Plan that are payable in cash or shares of Common Stock that are either transferable or not subject to substantial risk of forfeiture, the holder of such an award must recognize ordinary income equal to the excess of (a) the cash or the fair market value of the shares of Common Stock received (determined as of the date of such receipt) over (b) the amount (if any) paid for such shares of Common Stock by the holder of the award, and the Company will be entitled at that time to a deduction for the same amount. With respect to an award that is payable in shares of Common Stock that are restricted as to transferability and subject to substantial risk of forfeiture, unless a special election is made pursuant to the Code, the holder of the award must recognize ordinary income equal to the excess of (i) the fair market value of the shares of Common Stock received (determined as of the first time the shares become transferable or not subject to substantial risk of forfeiture, whichever occurs earlier) over (ii) the amount (if any) paid for such shares of Common Stock by the holder, and the Company will be entitled at that time to a tax deduction for the same amount.

Under the Plan, the Committee may permit participants receiving or exercising awards, subject to the discretion of the Committee and upon such terms and conditions as it may impose, to surrender shares of Common Stock (either shares received upon the receipt or exercise of the award of shares previously owned by the optionee) to the Company to satisfy federal and state withholding tax obligations. In addition, the Committee may grant, subject to its discretion and such rules as it may adopt, a bonus to a participant in order to provide funds to pay all or a portion of federal and state taxes due as a result of the receipt or exercise of (or lapse of restrictions to) an award. The amount of such bonus will be taxable to the participant as ordinary income, and the Company will have a corresponding deduction equal to such amount (subject to the usual rules concerning reasonable compensation).

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE APPROVAL OF THE AMENDMENT TO THE 2000 STOCK INCENTIVE PLAN. The affirmative vote of a majority of the shares of Common Stock present in person or by proxy and eligible to vote at the Meeting is required to approve this proposal.

PROPOSAL #3 APPROVAL OF AMENDMENT TO THE NON-EMPLOYEE DIRECTOR STOCK OPTION PLAN

The Company's Board of Directors has adopted, subject to shareholder approval, amendments to the Non-Employee Director Stock Option Plan (the "Director Plan") which provide that

- (a) the initial and annual option grants made to non-employee directors under the Director Plan upon their re-election to the Board of Directors be increased from 12,000 shares to 15,000 shares,
- (b) the initial and annual option grants described in clause (a) above be immediately fully vested and exercisable,
- (c) the non-employee directors elected at the Meeting each be granted an option for 45,000 shares under the Director Plan upon their re-election, which option shall be exercisable immediately as to one

Edgar Filing: CURATIVE HEALTH SERVICES INC - Form DEF 14A

third of the shares, and shall become exercisable as to another third of the shares on the first anniversary of its grant and as to the final third on the second anniversary of its grant,

(d) the options granted pursuant to clause (c) above shall become fully vested and exercisable in the event of a change in control of the Company in accordance with the terms of the Director Plan, and

(e) any non-employee director that is granted an option pursuant to clause (c) above shall not be eligible to receive an annual option grant otherwise due under the Director Plan upon re-election to Board at the Meeting or at the annual shareholder meetings to be held in 2003 and 2004.

The Company believes it is important that the interests of its directors be aligned with those of its shareholders and that the Director Plan is one means of strengthening that link. The amendments are intended to provide the non-employee directors with an increased stake in the Company and an increased interest in the Company's long-term performance. The Board of Directors believes the amendments will substantially strengthen the alignment of the interests of the directors with those of the shareholders.

Summary of the Director Plan

Since August 23, 1995, the Company has maintained the Director Plan for the benefit of non-employee directors of the Company. The Director Plan is administered by the Board which has the authority to adopt such rules and regulations and to make such determinations as are necessary or desirable for the implementation and administration of the Director Plan and not inconsistent with its terms.

The Director Plan provides for the grant of options to purchase up to an aggregate of 650,000 shares of Common Stock, of which 320,332 shares remain available for grant as of March 31, 2002. The closing price of a share of Common Stock as of April 17, 2002 was \$12.12. Shares of Common Stock covered by expired or terminated options under the Director Plan may be used for subsequent awards under the Director Plan.

The Director Plan currently provides for the automatic grant (i) of an option to purchase 12,000 shares to each non-employee director upon his or her initial election as a member of the Board, and (ii) of an option to purchase 12,000 shares each time a non-employee director is re-elected as a member of the Board. All options granted under the Director Plan expire no later than ten years after the date of grant or on such earlier date as determined in the event of a reorganization.

25

The purchase price for the option stock is 100 percent of the fair market value of the stock on the day the option is granted. Options granted under the Director Plan currently become exercisable with respect to one third of the shares on the first anniversary of the grant date and thereafter become exercisable with respect to the balance of the shares in equal installments on the last day of each of the eight successive three month periods following the first anniversary of the grant. Each option also becomes immediately exercisable in full upon the death or disability of such director or an unsuccessful attempt by such director to win re-election to the Board. Any options subject to this acceleration clause can be exercised in whole or in part within one year after termination. In addition, under the Director Plan, in the event of a change of control, all outstanding options granted under the Director Plan accelerate and are exercisable in full

Edgar Filing: CURATIVE HEALTH SERVICES INC - Form DEF 14A

provided that no option can be exercised by a participant after the termination date of the option. Under the Director Plan, a change in control includes a sale of substantially all of the Company's assets; the acquisition by a person or group of beneficial ownership of 51 percent or more of the outstanding Common Stock or the commencement of a tender offer for such an acquisition; a merger in which the shareholders of the Company receive shares of another company; a reorganization, a merger or other transaction resulting in the consolidation of the Company with another company for federal income tax purposes; and any other transaction in which there is a sufficient change in the share ownership of the Company to change the effective control of the Company.

As a result of the proposed amendments to the Director Plan, each of the five non-employee directors nominated for re-election as directors of the Company at the Meeting will receive the benefits shown below:

(a) an option for 45,000 shares with an exercise price equal to the closing price of the Common Stock on the date of the Meeting which will be exercisable as to one third of the shares immediately, one third on the first anniversary of the date of grant and one third on the second anniversary of the date of grant, subject to immediate vesting of all of the shares if a change in control occurs; and

(b) commencing with the annual shareholders meeting in 2005, an annual grant upon re-election to the Board of an option for 15,000 shares which will be immediately fully vested and exercisable.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE AMENDMENT OF THE COMPANY'S NON-EMPLOYEE DIRECTOR STOCK OPTION PLAN. The affirmative vote of a majority of the shares of Common Stock present in person or by proxy and eligible to vote at the meeting is required to approve this proposal.
