Executive Compensation Highlights

See the section of this proxy statement entitled “Compensation and Discussion Analysis” for more information.

Fiscal 2017—A Transformative Year

In January 2017, we launched a new strategic plan and operating model, with three major elements as shown in the graph below:

Our New Strategic Plan is Delivering Results...and Enhancing Stockholder Value

As shown in the chart below, we made significant progress in executing on our new strategic plan. Our budget and operating plan for 2017 reflected our modest growth expectations with respect to our core products and our focus on managing our business as efficiently as possible. Although we projected that our total revenues would decline year-over-year, by reducing our operating expenses through headcount and spending reductions, we anticipated that we would achieve growth in non-GAAP operating income and non-GAAP earnings per share.

Our 2017 financial results exceeded our original expectations with respect to total revenue, operating income, operating margin, earnings per share and free cash flow. The strength of our overall business enabled us to return almost \$100 million of capital to stockholders in fiscal 2017 in the form of share repurchases and dividends.

Ultimately, our better-than-expected performance throughout the year generated strong returns for our stockholders and further strengthened the platform upon which our future business will grow.

Our Director Nominees

Executive Compensation Philosophy

The Compensation Committee's philosophy is to tie executive pay to performance to incent the achievement of outstanding returns to our stockholders and to drive the creation of sustainable long-term stockholder value. Consistent with its pay-for-performance philosophy, the Compensation Committee, in designing our executive compensation programs for 2017, emphasized alignment with our long-term business goals.

-vii-

ABOUT THE MEETING AND VOTING

Q: Who is soliciting my vote?

A: The Board of Directors of Progress is soliciting your vote at the 2018 Annual Meeting of Stockholders.

Q: What is the purpose of the Annual Meeting?

A: You will be voting on the following items of business:

1. To elect eight directors to serve until the Annual Meeting of Stockholders to be held in 2019;
2. To hold an advisory vote on the compensation of our named executive officers (say-on-pay vote);
3. To ratify the selection of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending November 30, 2018; and
4. To transact any other business as may properly come before the Annual Meeting and any adjournment or postponement of that meeting.

Q: Who can attend the meeting?

A: All stockholders as of the close of business on April 2, 2018, the record date, or their duly appointed proxies, may attend the meeting. If you plan to attend the meeting, please note that you will need to bring your proxy card or voting instruction card and valid picture identification, such as a driver's license or passport. Cameras, recording devices and other electronic devices will not be permitted at the meeting and all mobile phones must be silenced during the meeting. Please also note that if you hold your shares through a broker or other nominee, you will need to bring a copy of a brokerage statement reflecting your stock ownership as of the record date.

Q: Who is entitled to vote at the meeting?

A: Only stockholders of record at the close of business on April 2, 2018, the record date for the meeting, are entitled to receive notice of and to participate in the Annual Meeting. If you were a stockholder of record on that date, you will be entitled to vote all shares that you held on that date at the meeting, or any postponements or adjournments of the meeting. There were 45,462,237 shares of our common stock outstanding on the record date.

Q: What are the voting rights of the holders of our common stock?

A: Each share of our common stock outstanding on the record date will be entitled to one vote on each matter considered at the meeting.

Q: What is the difference between holding shares as a stockholder of record and holding shares as a beneficial owner?

A: If your shares are registered directly in your name with our transfer agent, American Stock Transfer & Trust Company, you are considered the stockholder of record with respect to those shares, and these proxy materials are being sent directly to you by us. As the stockholder of record, you have the right to grant your voting proxy directly to us by completing, signing, dating and returning a proxy card, or to vote in person at the Annual Meeting. Many of our stockholders hold their shares through a broker, bank or other nominee rather than directly in their own name. If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of your shares. We have sent these proxy materials to your broker or bank. As the beneficial owner, you have the right to direct your broker, bank or nominee on how to vote and you are also invited to attend the Annual Meeting. However, since you are not the stockholder of record, you may not vote these shares in person at the Annual Meeting unless you request and obtain a proxy from your broker, bank or nominee. Your broker, bank or nominee will provide a voting instruction card for you to use in directing the broker, bank or nominee regarding how to vote your shares.

Q: What is a quorum?

A: A quorum is the minimum number of our shares of common stock that must be represented at a duly called meeting in person or by proxy to legally conduct business at the meeting. For the Annual Meeting, the presence, in person or by proxy, of the holders of at least 22,731,119 shares, which is a simple majority of the 45,462,237 shares outstanding as of the record date, will be considered a quorum allowing votes to be taken and counted for the matters before the stockholders.

If you are a stockholder of record, you must deliver your vote by internet, phone or mail or attend the Annual Meeting in person and vote to be counted in the determination of a quorum.

Abstentions and broker “non-votes” will be counted as present or represented at the Annual Meeting for purposes of determining the presence or absence of a quorum. A broker “non-vote” occurs when a broker or other nominee who holds shares for a beneficial owner withholds its vote on a proposal with respect to which it does not have discretionary voting power or instructions from the beneficial owner.

Q: What is the difference between a routine matter and a non-routine matter?

A: Brokers cannot vote on their customers’ behalf on “non-routine” proposals such as Proposal One, the election of directors and Proposal Two, the advisory vote on the compensation of our named executive officers (say-on-pay vote). Because brokers require their customers’ direction to vote on such non-routine matters, it is critical that stockholders provide their brokers with voting instructions. Proposal Three, the ratification of the appointment of our independent registered public accounting firm, will be a “routine” matter for which your broker does not need your voting instruction to vote your shares.

Q: How do I vote?

If you are a stockholder of record, you have the option of submitting your proxy card by internet, phone or mail or attending the meeting and delivering the proxy card. The designated proxy will vote per your instructions. You may also attend the meeting and personally vote by ballot.

If you are a beneficial owner of shares, to vote at the meeting, you will need to obtain a signed proxy from the broker or nominee that holds your shares. If you have the broker's proxy, you may vote by ballot or you may complete and deliver another proxy card in person at the meeting.

When you vote, you are giving your "proxy" to the individuals we have designated to vote your shares at the meeting as you direct. If you do not make specific choices, they will vote your shares to:

elect the eight individuals nominated by our Board of Directors;

approve the advisory vote on the compensation of our named executive officers (say-on-pay vote); and

approve the ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending November 30, 2018.

If any matter not listed in the Notice of Meeting is properly presented at the meeting, the proxies will vote your shares in accordance with their best judgment. As of the date of this proxy statement, we knew of no matters that needed to be acted on at the meeting other than as discussed in this proxy statement.

Q: How does the Board of Directors recommend that I vote?

A: The Board recommends that you vote your shares as follows:

FOR Proposal One — elect the eight nominees to the Board of Directors.

FOR Proposal Two — approve the advisory vote on the compensation of our named executive officers (say-on-pay vote).

FOR Proposal Three— approve the ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending November 30, 2018.

Q: Can I change or revoke my vote?

A: You may revoke your vote at any time before the proxy is exercised by filing with our Secretary a written notice of revocation or by signing and duly delivering a proxy bearing a later date. At the meeting, you may revoke or change your vote by submitting a proxy to the inspector of elections or voting by ballot. Your attendance at the meeting will not by itself revoke your vote.

Q: How many votes are required to elect directors (Proposal One)?

A: The nominees who receive the most votes (also known as a “plurality” of the votes cast) will be elected. You may vote either FOR the nominee or WITHHOLD your vote from the nominee. Votes that are withheld will not be included in the vote tally for the election of the directors. Brokerage firms do not have authority to vote customers’ unvoted shares held by the firms in street name for the election of the director. As a result, any shares not voted by a customer will be treated as a broker non-vote. These broker non-votes will have no effect on the results of this vote.

In an uncontested election, if a nominee receives a greater number of votes “withheld” from his or her election than votes “for” such election, that nominee will submit his or her offer of resignation for consideration by our Nominating and Corporate Governance Committee in accordance with our majority voting policy discussed in more detail on page 10 of this proxy statement.

Q: How many votes are required to adopt the other proposals (Proposals Two and Three)?

A: The other proposals will be approved if these proposals receive the affirmative vote of a majority of the shares present or represented and voting on these proposals. Abstentions will not be counted towards the vote totals and will have no effect on the results of the vote. Brokerage firms do not have authority to vote customers’ unvoted shares held by the firms in street name on Proposal Two. As a result, any shares not voted by a customer will be treated as a broker non-vote. Those broker non-votes will have no effect on the results of the vote with respect to this Proposal.

Brokerage firms do have authority to vote customers’ unvoted shares held by the firms in street name on Proposal Three (Ratification of the Selection of Independent Registered Public Accounting Firm). If a broker does not exercise this authority, such broker non-votes will have no effect on the results of this vote. We are not required to obtain the approval of our stockholders to appoint Deloitte & Touche LLP as our independent registered public accounting firm. However, if our stockholders do not ratify the selection of Deloitte & Touche LLP as our independent registered public accounting firm for our fiscal year ending November 30, 2018, the Audit Committee of our Board will consider the results of this vote when selecting auditors in the future.

Q: Who will pay for the cost of this proxy solicitation?

A: We will pay the cost of preparing, mailing and soliciting proxies, including preparation, assembly, printing and mailing of this proxy statement and any additional information furnished to stockholders. We may reimburse banks, brokerage houses, fiduciaries and custodians for their out-of-pocket expenses for forwarding solicitation materials to beneficial owners.

Q: What is “householding” of proxy materials?

In some cases, stockholders holding their shares in a brokerage or bank account who share the same surname and address and have not given contrary instructions received only one copy of the proxy materials. This practice is designed to reduce duplicate mailings and save printing and postage costs. If you would like to have a separate A: copy of our Annual Report and/or proxy statement mailed to you or to receive separate copies of future mailings, please contact Broadridge Financial Solutions, Inc. by mail at Broadridge Financial Solutions, Inc., Householding Department, 51 Mercedes Way, Edgewood, New York 11717 or by phone at (866) 540-7095. Such additional copies will be delivered promptly upon receipt of such request.

In other cases, stockholders receiving multiple copies at the same address may wish to receive only one. If you now receive more than one copy, and would like to receive only one copy, please submit your request to Broadridge Financial Solutions, Inc. at the address or phone number listed above.

Q: Who will count the votes and where can I find the voting results?

Broadridge Financial Solutions, Inc. will tabulate the voting results. We will announce the voting results at the A: Annual Meeting and we will publish the results by filing a Current Report on Form 8-K with the Securities and Exchange Commission (the “SEC”) within four business days of the Annual Meeting.

CORPORATE GOVERNANCE

Our Corporate Governance Framework

We believe we have in place corporate governance procedures and practices that are designed to promote and enhance the long-term interests of stockholders, solidify board oversight processes, strengthen management accountability and foster responsible decision making. We regularly monitor developments in corporate governance and review our processes and procedures in light of such developments.

Our Board of Directors has adopted Corporate Governance Guidelines that deal with the following matters:

- director qualifications;
- director voting policy;
- executive sessions and leadership roles;
- conflicts of interest;
- Board Committees;
- director access to officers and employees;
- director orientation and continuing education;
- director and executive officer stock ownership;
- stockholder communications with the Board; and
- performance evaluation of the Board and its committees.

Our Corporate Governance Documents

- Certificate of Incorporation
- Amended and Restated Bylaws
- Audit Committee Charter
- Nominating and Corporate Governance Committee Charter
- Compensation Committee Charter
- Code of Conduct and Business Ethics
- Finance Code of Ethics
- Corporate Governance Guidelines
- Stock Option Grant Policy

Our certificate of incorporation and our bylaws are filed with the SEC and are available electronically at www.sec.gov. The other documents listed above can be found on our website at www.progress.com under the heading “Corporate Governance” located on the “Investor Relations” page.

Our
Corporate
Governance
Practices

Our Board is Independent

7 of 8 nominees are independent – If the director nominees are elected at the Annual Meeting, the Board will continue to be composed of one employee director (Mr. Gupta, our CEO) and seven non-employee directors (Messrs. Egan, Dacier, Gawlick, Kane and Krall and Mses. King and Tucci).

Board refreshment – We believe it is important to maintain a mix of longer-tenured, experienced directors, who can help to preserve continuity and institutional knowledge, and new directors, who can provide fresh perspectives. In furtherance of this objective, the Board elected Messrs. Dacier and Gawlick in June 2017 and Mses. King and Tucci in February 2018. While we do not impose director tenure limits, our Corporate Governance Guidelines do impose a mandatory retirement age of eighty-five. We believe our current Board composition strikes an appropriate balance between directors with deep historical knowledge of the Company and those with a fresh viewpoint.

Regular executive sessions of independent directors – Our independent directors meet in executive session without the Chief Executive Officer at every regularly scheduled Board meeting to discuss, among other matters, the performance of the Chief Executive Officer.

Committees are independent – Each of the Board's committees are strictly comprised of independent directors.

Independent compensation consultant – The compensation consultant retained by the Compensation Committee is independent of the Company and management.

We Have an Independent Chairman of the Board

We currently have an independent Chairman of the Board (Mr. Egan). We believe the current Board leadership structure serves us and our stockholders well by having a strong independent Chairman of the Board to provide independent leadership of the Board and because it allows our CEO to focus primarily on the Company's business strategy, operations and corporate vision. This leadership structure, coupled with a strong emphasis on Board independence, provides effective independent oversight of management. Board members have complete access to and are encouraged to utilize members of our senior management regularly, and they have the authority to retain independent advisors as they deem necessary. The Board believes this leadership structure affords our company an effective combination of internal and external experience, continuity and independence.

Key responsibilities of the independent Chairman of the Board include:

- o calling meetings of the Board and independent directors;
- o setting the agenda for Board meetings in consultation with the CEO and our corporate secretary;
- o chairing executive sessions of the independent directors;
- o leading the full Board in the annual CEO performance evaluation;
- o engaging with stockholders;
- o acting as an advisor to Mr. Gupta on strategic aspects of the CEO role with regular consultations on major developments and decisions likely to interest the Board; and
- o performing other duties specified in the Corporate Governance Guidelines or assigned by the Board.

Our Corporate Governance Guidelines do not require the separation of the roles of Chairman of the Board and Chief Executive Officer, as our Board believes that it is important that the Board retain flexibility to determine whether these roles should be separate or combined based upon the Board's assessment of the Company's needs and Progress's leadership at a

given point in time. We believe that an effective board leadership structure is highly dependent on the experience, skills and personal interaction between those in leadership roles. In prior years, we have had, alternately, an independent Chairman of Board and a non-independent Chairman of the Board with a Lead Independent Director. Our policy is to have a Lead Independent Director if the Chairman of the Board is not independent.

We Value Diversity

The Board and the Nominating and Corporate Governance Committee value diversity of backgrounds, experience, perspectives and leadership in different fields when identifying nominees. We believe that we have assembled a diverse set of directors with the varied backgrounds, experiences and perspectives critical to our long-term success. Presently, 50% of our Board members are diverse in gender, ethnicity or nationality. To help us maintain broad diversity and to continually assess the effectiveness of this diversity policy, our Board of Directors conducts an annual self-evaluation and survey. The survey questions include an assessment of whether the composition of the Board is appropriately diverse and possesses the skills and experience consistent with achieving our short and long-term corporate goals.

Our Commitment to Corporate Responsibility

Community Engagement – We engage in the global community and support our employees that do so as well. We have a program to match our employees’ charitable donations, including supporting communities impacted by disasters through corporate donations to relief organizations. We also provide our employees with paid time off to volunteer with community organizations.

Diversity and Inclusion – Inclusion and diversity are key to our success. We seek employees with diverse backgrounds and viewpoints and are committed to creating a culture of innovation and inspiration where employees feel a strong sense of community and collective pride in our success.

Sustainability – Progress’s products help companies run more efficiently. Each of our solutions is created with these principles of action in mind:

- oResponsible citizenship
- oProtection of the earth
- oSustainable use of natural resources
- oReduction of waste
- oEnergy conservation
- oSafe and healthy work environment

Our sustainability initiatives include recycling programs and energy and resource conservation programs. Our corporate headquarters in Bedford, Massachusetts has received LEED Gold certification.

Stockholder Rights

Each of our directors stands for election every year. We do not have a classified or staggered board.

We have adopted a majority voting policy for directors, as described below under “Our Majority Voting Policy.”

¶ Holders of 80% of outstanding shares can call a special meeting.

¶ We have no stockholders rights plan (“poison pill”) in place.

Strong Stockholder Support on Say-On-Pay

98% say-on-pay support at our 2017 Annual Meeting. We believe the vote indicates strong support for our executive compensation program, including enhancements made over prior years.

We Proactively Engage with our Stockholders

We actively engage with our stockholders as part of our corporate governance cycle. During fiscal year 2017, independent members of our Board and members of senior management met with a cross-section of stockholders owning approximately 55% of our shares.

Our Majority Voting Policy

Our Corporate Governance Guidelines set forth our majority voting policy for directors, which provides that any nominee for election to the Board in an uncontested election who receives a greater number of votes “withheld” from his or her election than votes “for” such election is to submit his or her offer of resignation for consideration by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee is to consider all relevant facts and circumstances and recommend to the Board the action to be taken with respect to that offer of resignation. The Board will then act on the Nominating and Corporate Governance Committee’s recommendation. Promptly following the Board’s decision, the Company will disclose that decision and an explanation of such decision in a filing with the SEC or a press release.

If the Board accepts a director’s resignation, then the Board may fill any resulting vacancy or may decrease the size of the Board, in each case pursuant to our Bylaws. If a director’s resignation is not accepted by the Board, such director will continue to serve until the next Annual Meeting of Stockholders or special meeting in lieu of such Annual Meeting or until his or her successor has been duly elected and qualified, or until his or her earlier death, resignation or removal.

Through this policy, the Board seeks to be accountable to all stockholders and respects the rights of stockholders to express their views through their votes for directors. At the same time, the policy allows the Board sufficient flexibility to make sound evaluations based on the relevant circumstances and to act in the best interest of the Company and its stockholders in the event of a greater than or equal to 50% “withhold” vote against a specific director.

Board Annually Evaluates Its Effectiveness

The Board conducts annual self-evaluations to determine whether it is functioning effectively and whether any changes are necessary to improve its performance. This process is developed and overseen by the Nominating and Corporate Governance Committee and conducted with the help of our outside counsel. Among other things, members assess the effectiveness of the Board and its committees, director performance and Board dynamics. The results of these self-evaluations, and action items, if any, are reported to and discussed by the Board.

Our Board of Directors Has a Significant Role in Risk Oversight

Our Board of Directors believes that its oversight responsibility with respect to the various risks confronting our company is one of its most important areas of responsibility and provides further checks and balances on our leadership structure. Our Board of Directors views its oversight of risk as an ongoing process that occurs throughout the year while

evaluating the strategic direction and actions of our company. A fundamental aspect of risk management is not only understanding the risks a company faces and what steps management is taking to manage those risks, but also determining what level of risk is appropriate for the company. We believe that having an independent Chairman of the Board enhances our Board's ability to oversee our risks.

In carrying out this critical function, our Board is involved in risk oversight through direct decision-making authority with respect to significant matters and the oversight of management directly by our Board and through its committees. Each committee's specific area of responsibility is as follows:

| Audit Committee | Compensation Committee | Nominating and Corporate Governance Committee |
|---|---|--|
| <p>Primarily responsible for overseeing risk management as it relates to our financial condition, financial statements, financial reporting process, internal controls and accounting matters. The Audit Committee also assists our Board of Directors in fulfilling its oversight responsibilities with respect to conflict of interest issues that may arise.</p> | <p>Responsible for overseeing our overall compensation practices, policies and programs and assessing the risks arising from those policies and programs.</p> | <p>Considers risks related to our corporate governance practices and leadership structure of the Board, including evaluating and considering evolving corporate governance best practices and director and management succession planning.</p> |

Our Board of Directors receives reports from members of senior management on the functional areas for which they are responsible. These reports may include operational, financial, sales, competitive, legal and regulatory, strategic and other risks, as well as any related management and mitigation. In addition, the Board plays an active oversight and risk mitigation role through its regular review of the Company's strategic direction.

Our Code of Conduct and Business Ethics

Our Board of Directors has adopted a Code of Conduct and Business Ethics that applies to all officers, directors and employees. Copies of the Code of Conduct and Business Ethics can be found on our website at www.progress.com under the heading "Corporate Governance" located on the "Investor Relations" page.

How to Communicate with Our Board

Our Board of Directors welcomes communications from stockholders. Any stockholder may communicate either with our Board of Directors as a whole, or with any individual director, by sending a written communication addressed to the Board of Directors or to such director at our offices located at 14 Oak Park, Bedford, Massachusetts 01730, or by submitting an email communication to BOD@progress.com. All communications sent to our Board of Directors will be forwarded to the Board of Directors or to the individual director to whom such communication was addressed.

PROPOSAL ONE: ELECTION OF DIRECTORS

Nominees

Eight individuals have been nominated for election at the Annual Meeting to hold office until the 2019 Annual Meeting. Michael L. From and after the Annual Meeting, Mr. Mark will serve as a non-voting Director Emeritus and as an advisor to Mr. Gupta on an as-needed basis.

The nominees were evaluated and recommended by the Nominating and Corporate Governance Committee in accordance with its charter and our Corporate Governance Guidelines. For additional information about the nominees and their qualifications, please see the sections of this proxy statement entitled “Director Nomination Process - Key Board Qualifications, Expertise and Attributes” and “Nominees for Directors.”

Our Board of Directors recommends a vote FOR the election to the Board of each of the following nominees:

| Nominee | Age | Director Since | Occupation |

Each director elected at the Annual Meeting will hold office until the next Annual Meeting of Stockholders or special meeting in lieu of such Annual Meeting or until his or her successor has been duly elected and qualified, or until his or her earlier death, resignation or removal. There are no family relationships among any of our executive officers or directors.

Each of the director nominees named in this proxy statement has agreed to serve as a director if elected, and we have no reason to believe that any nominee will be unable to serve. If, before the Annual Meeting, one or more nominees named in this proxy statement should become unable to serve or for good cause will not serve, the persons named in the enclosed proxy will vote the shares represented by any proxy received by our Board of Directors for such other person or persons as may thereafter be nominated for director by the Nominating and Corporate Governance Committee and our Board of Directors.

The Board of Directors and Nominating and Corporate Governance Committee believe the eight Board nominees possess the skills, experience and diversity to effectively monitor performance, provide oversight, and advise management on the Company’s long-term strategy.

Director Nomination Process

Board Membership Criteria

Our Board of Directors has delegated the search for, and recommendation of, director nominees to the Nominating and Corporate Governance Committee. When considering a potential candidate for membership on our Board of Directors, the Nominating and Corporate Governance Committee will consider any criteria it deems appropriate, including, among other things, the experience and qualifications of any candidate as well as such candidate's past or anticipated contributions to our Board of Directors and its Committees. At a minimum, each nominee is expected to have:

| | | |
|---|---|---|
| Highest personal and professional integrity | Demonstrated exceptional ability and judgment | Effectiveness, with the other directors, in collectively serving the long-term interests of our stockholders. |
|---|---|---|

In addition, the Nominating and Corporate Governance Committee has established the following minimum requirements:

- at least five years of business experience;
- no identified conflicts of interest as a prospective director of our company;
- no convictions in a criminal proceeding (aside from traffic violations) during the five years prior to the date of selection; and
- willingness to comply with our Code of Conduct and Business Ethics.

The Board of Directors retains the right to modify these minimum qualifications from time to time, and exceptional candidates who do not meet these criteria may still be considered.

In addition to any other standards the Nominating and Corporate Governance Committee may deem appropriate from time to time for the overall structure and composition of our Board of Directors, the Nominating and Corporate Governance Committee also considers numerous other qualities, skills and characteristics when evaluating director nominees such as:

- direct experience in the software industry or in the markets in which we operate;
- an understanding of, and experience in, accounting, legal, finance, product, sales and/or marketing matters;
- experience on other public or private company boards;
- leadership experience with public companies or other major organizations; and
- diversity of the Board, considering the business and professional experience, educational background, reputation, and industry expertise across various market segments and technologies relevant to our business, as well as other relevant attributes of the candidates.

The Nominating and Corporate Governance Committee does not assign specific weights to criteria and no criterion is necessarily applicable to all prospective nominees.

Director Nomination Process

Generally, the Nominating and Corporate Governance Committee identifies candidates for director nominees in consultation with the other directors and management, using search firms or other advisors, through recommendations submitted by stockholders or through other methods that the Nominating and Corporate Governance Committee deems to be helpful to identify candidates. In the case of incumbent directors, the Nominating and Corporate Governance Committee reviews each incumbent director's overall past service to us, including the number of meetings attended, level of participation, quality of performance, and whether the director continues to meet applicable independence standards.

In the case of a new director candidate, the Nominating and Corporate Governance Committee confirms that the candidate meets the minimum qualifications for a director nominee established by the Nominating and Corporate Governance Committee. The candidate will also be interviewed by the Nominating and Corporate Governance Committee and other Board members. The Nominating and Corporate Governance Committee then meets to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and considering the overall composition and needs of our Board of Directors. The same procedures apply to all candidates for director nomination, including candidates submitted by stockholders.

Based on the results of the evaluation process, the Nominating and Corporate Governance Committee recommends candidates for our Board of Directors' approval as director nominees for election to our Board of Directors. The Nominating and Corporate Governance Committee also recommends candidates to our Board of Directors for appointment to its Committees.

Stockholder Recommendations

The Nominating and Corporate Governance Committee will consider director nominee candidates who are recommended by stockholders of our company. Recommendations sent by stockholders must provide the following information:

- the name and address of record of the stockholder;
- a representation that the stockholder is a record holder of our common stock, or if the stockholder is not a record holder, evidence of ownership in accordance with Rule 14a-8(b)(2) of the Securities Exchange Act of 1934, as amended (the "Exchange Act");
- the name, age, business and residential address, educational background, current principal occupation or employment, and principal occupation or employment for the preceding five full fiscal years of the proposed director candidate;
- a description of the qualifications and background of the proposed director candidate which addresses the minimum qualifications described above;
- a description of all arrangements or understandings between the stockholder and the proposed director candidate; and
- any other information regarding the proposed director candidate that is required to be included in a proxy statement filed under SEC rules.

The submission must be accompanied by a written consent of the individual to be named in our proxy statement as standing for election if nominated by our Board of Directors and to serve if elected by the stockholders. Stockholder

recommendations of candidates for election as directors at an Annual Meeting of Stockholders must be given at least 120 days prior to the anniversary date of the mailing of our proxy statement for the previous year's Annual Meeting.

THE BOARD OF DIRECTORS AND COMMITTEES OF THE BOARD

Board of Directors

Director Independence

Having an independent Board is a core component of our governance philosophy. Our Corporate Governance Guidelines provide that, as a matter of policy and consistent with applicable laws, rules and regulations, a majority of the Board should be independent.

Based on the review and recommendation of our Nominating and Corporate Governance Committee, our Board has determined that all current directors except Yogesh Gupta (our current President and Chief Executive Officer) are independent within the meaning of the director independence standards of NASDAQ and the applicable rules of the SEC. In making this determination, we solicited information from each of the directors regarding whether that director, or any member of his immediate family, had a direct or indirect material interest in any transactions involving our company, was involved in a debt relationship with our company or received personal benefits outside the scope of the director's normal compensation. We considered the responses of the directors, and independently considered the commercial agreements, acquisitions and other material transactions entered by us during 2017, and determined that none of our non-employee directors had a material interest in those transactions. Our Board similarly determined that former director Ram Gupta, who resigned from the Board in February 2017, was independent within the meaning of the director independence standards of NASDAQ and the applicable rules of the SEC, but that Philip M. Pead, our former President and Chief Executive Officer, who did not stand for re-election at the 2017 Annual Meeting, was not.

There are no family relationships between any director, executive officer or director nominee.

Director Attendance

Our Board of Directors met nineteen times during the fiscal year ended November 30, 2017. During 2017, each director nominee attended at least 75% of the aggregate of the total number of meetings of our Board of Directors and the total number of meetings of all committees of our Board of Directors on which he or she served from and after his or her election to the Board. Ms. King and Ms. Tucci were appointed to the Board in February 2018.

In January 2018, the Board of Directors adopted a policy requiring members of our Board of Directors to attend the Annual Meeting of Stockholders. One of the members of our Board of Directors attended the 2017 Annual Meeting of Stockholders.

 Committees of the Board of Directors

Our Board of Directors has standing Audit, Compensation, and Nominating and Corporate Governance Committees.

 Audit Committee

The Audit Committee of our Board of Directors during 2017 consisted of Messrs. Egan, Kane and Mark, and, until February 2017, Mr. Ram Gupta, with Mr. Kane serving as Chairman. In February 2017, Mr. Gupta resigned from our Board of Directors. The Audit Committee met eight times during 2017.

Our Board of Directors has determined that each member of the Audit Committee meets the independence requirements promulgated by NASDAQ and the SEC, including Rule 10A-3(b)(1) under the Exchange Act. In addition, our Board of Directors has determined that each member of the Audit Committee is financially literate and that Mr. Kane qualifies as an “audit committee financial expert” under the rules of the SEC.

The Audit Committee operates under a written charter adopted by our Board of Directors, a copy of which can be found on our website at www.progress.com under the heading “Corporate Governance” located on the “Investor Relations” page.

The Audit Committee assists our Board of Directors in fulfilling its oversight responsibilities for accounting and financial reporting compliance. The Audit Committee meets with management and with our independent registered public accounting firm to discuss our financial reporting policies and procedures, our internal control over financial reporting, the results of the independent registered public accounting firm’s examinations, our critical accounting policies and the overall quality of our financial reporting, and the Audit Committee reports on these matters to our Board of Directors. The Audit Committee meets with the independent registered public accounting firm with and without our management present.

DIRECTOR COMPENSATION

Director Compensation Plan—Fiscal 2017

We pay our directors a mix of cash and equity compensation. Employee directors receive no compensation for their service as directors.

In accordance with the 2017 Director Compensation Plan adopted by the Board, for 2017, our non-employee directors were paid an annual retainer of \$250,000. This annual retainer was paid \$50,000 in cash and \$200,000 in equity, in the form of deferred stock units (“DSUs”). The independent Chairman of the Board was paid an additional cash retainer of \$50,000.

Prior to adopting the 2017 Director Compensation Plan, the Compensation Committee received market data from its external compensation consultant and considered whether any changes in director compensation were required. Based on the market data, the Compensation Committee recommended to the Board no changes to director compensation except the adoption of DSUs as the exclusive form of equity to be awarded to non-employee directors under the plan. The number of DSUs was determined by dividing the equity retainer by the grant date closing price of our common stock as reported by NASDAQ. Upon issuance, the DSUs vest in a single installment on the date of the Annual Meeting, subject to continued service on our Board of Directors. DSUs do not convert to shares of common stock until a director terminates service on the Board of Directors or upon a change in control, whichever occurs first.

With respect to service on the committees of our Board of Directors, the following fees were paid:

• Audit Committee - \$25,000 for the Chairman and \$20,000 for the other members;

• Compensation Committee - \$20,000 for the Chairman and \$15,000 for the other members; and

• Nominating and Corporate Governance Committee - \$12,500 for the Chairman and \$10,000 for the other members.

The fees paid for service on the committees of our Board of Directors were paid in cash in March 2017.

In March 2017, our Board of Directors adopted revised stock retention guidelines for non-employee directors. These guidelines provide for all non-employee directors to hold an amount of our common stock, restricted shares, stock options and/or deferred stock units having a value equal to at least five times the annual cash retainer. Directors have five years to attain this ownership threshold.

Each newly elected director receives an initial director appointment grant of \$300,000 of deferred stock units at the first April or October grant date following his or her election to our Board of Directors. Deferred stock units vest over a 60-month period, beginning on the first day of the month following the month the director joins our Board of Directors, with full acceleration of vesting upon a change in control.

Director Compensation Table—Fiscal 2017

The following table sets forth a summary of the compensation earned by or paid to our non-employee directors in 2017. For 2017, compensation was paid to our current directors except Ms. King and Ms. Tucci, who joined our Board in February 2018. In addition, compensation was paid to Philip M. Pead, who did not stand for re-election to our Board at the 2017 Annual Meeting and Michael L. Mark, who will not stand for re-election to our Board at the 2018 Annual Meeting.

| Name | Fees Earned or Stock Awards | | Option | Total |
|--------------------------------|-----------------------------|-----------------|--------------------|---------|
| | Paid in Cash (\$) | (1) (2) (\$) | Awards (3) (\$) | |
| Paul T. Dacier ⁽⁴⁾ | 56,250 | 400,026 | — | 456,276 |

| Rainer Gawlick ⁽⁶⁾ | 57,500 | 400,026 | — | 457,526 |
| Charles F. Kane | 90,000 | 200,009 | — | 290,009 |
| David A. Krall | 85,000 | 200,009 | — | 285,009 |
| Michael L. Mark ⁽⁷⁾ | 80,000 | 200,009 | — | 280,009 |
| Philip M. Pead ⁽⁸⁾ | 50,000 | 125,040 | — | 175,040 |

(1) Represents DSUs issued to the named directors in the following amounts:

| Name | Total RSUs Granted in 2017 |
|-------------|----------------------------|
| Mr. Dacier | 12,950 |
| Mr. Egan | 6,885 |
| Mr. Gawlick | 12,950 |
| Mr. Kane | 6,885 |
| Mr. Krall | 6,885 |
| Mr. Mark | 6,885 |
| Mr. Pead | 3,443 |

In the case of Mr. Pead, he was also issued 810 full value shares having a value of \$25,021 on March 31, 2017 relating to the pro-rated portion of the fiscal 2016 equity retainer for the period from October 12, 2016 until November 30, 2017 following his retirement as our Chief Executive Officer.

Represents the fair value of DSUs on June 30, 2017. In the case of Messrs. Egan, Kane, Krall, Mark and Pead, DSUs were originally granted on March 31, 2017. However, in June 2017, the Compensation Committee amended (2) these DSU grants to provide that such DSUs vest on the date of the 2018 Annual Meeting rather than December 1, 2017, so the fair value measurement date changed accordingly. The grant date fair value is equal to the number of DSUs granted multiplied by \$30.89, the closing price on the date of grant.

(3) Each non-employee director had the following unexercised stock options outstanding as of the record date:

| Name | Unexercised Stock Options Outstanding at Record Date |

| Mr. Gawlick | — |
| Mr. Kane | — |
| Mr. Krall | — |
| Mr. Mark | 100,583 |

(4) Mr. Dacier was elected to the Board of Directors at the 2017 Annual Meeting and received 50% of the annual retainer for service on our Board in fiscal 2017. Mr. Dacier also received an award of DSUs in connection with his initial appointment to our Board. Mr. Dacier served as Chairman of the Nominating and Corporate Governance Committees for one-half of fiscal 2017.

(5) Mr. Egan served as a member of the Compensation and Nominating and Corporate Governance Committee for one-half of fiscal 2017.

(6) Mr. Gawlick was elected to the Board of Directors at the 2017 Annual Meeting and received 50% of the annual retainer for service on our Board in fiscal 2017. Mr. Gawlick served as a member of the Compensation and the Nominating and Corporate Governance Committees for one-half of fiscal 2017.

(7) Mr. Mark was a director during fiscal 2017 but will not stand for re-election at the 2018 Annual Meeting.

(8) Mr. Pead was our Chief Executive Officer until October 12, 2016. Following his retirement as Chief Executive Officer, Mr. Pead remained on our Board, although he did not stand for re-election at the 2017 Annual Meeting. Mr. Pead was paid a pro-rata portion of the annual retainer for the period from December 1, 2016 until June 12, 2017.

Stock Ownership Guidelines

Non-employee members of our Board and senior executive officers are required to own shares of Progress common stock. The Board of Directors sets and periodically reviews and makes changes to these ownership requirements. In March 2017, our Board of Directors adopted revised stock ownership guidelines for non-employee directors and in January 2018, our Board of Directors adopted revised stock ownership guidelines for our senior executive officers. These guidelines are summarized in the table below:

| CEO | All Other Executive Officers | Directors |
|--------------------------------|--------------------------------|---|
| 3x Annual Base Salary Required | 1x Annual Base Salary Required | 5x Annual Cash Retainer (\$50,000) Required |

Directors and executive officers have five years to attain this ownership threshold.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Review, Approval or Ratification of Transactions with Related Persons

Pursuant to the Audit Committee's Charter, which can be found at www.progress.com under the Corporate Governance page located on the "Investor Relations" page, the Audit Committee is responsible for the review and approval of related person transactions. A related person is a director, executive officer, nominee for director or certain stockholders of our company since the beginning of the last fiscal year and their respective immediate family members. A related person transaction is a transaction involving: (1) our company and any related person when the amount involved exceeds \$120,000, and (2) the related person has a material direct or indirect interest.

We identify transactions for review and approval through our Code of Ethics and Business Conduct which can be found at www.progress.com under the Corporate Governance page located on the "Investor Relations" page. The Code of Ethics and Business Conduct requires our employees to disclose any potential or actual conflicts of interest to his or her manager, our human capital department or our Chief Compliance Officer. This disclosure also applies to potential conflicts involving immediate family members of employees. We require our directors to complete a questionnaire intended to identify any transactions or potential transactions that must be reported per SEC rules and regulations. This questionnaire also requires our directors to promptly notify us of any changes during the year.

Transactions with Related Persons

During fiscal 2017, we acquired 100% of the outstanding securities of MightyMeeting, Inc. ("MightyMeeting"), a mobile collaboration and social publishing platform, for \$1.5 million. Dmitri Tcherevik, our Chief Technology Officer, was the founder and 50% owner of MightyMeeting. The aggregate value of Mr. Tcherevik's and his immediate family members' interest in the transaction was approximately \$1 million. We recorded an intangible asset of \$2.4 million, which includes a deferred tax liability of \$0.9 million that will be amortized over five years beginning in the fourth quarter of fiscal 2017. Our Audit Committee approved the acquisition in accordance with the Audit Committee's Charter.

Except as described above, neither the company nor its subsidiaries engaged in any transactions or series of similar transactions in which the amount involved exceeded \$120,000 and in which any of our directors or executive officers, any holder of more than 5% of any class of our voting securities or any member of the immediate family of any of the foregoing persons had a direct or indirect material interest, nor are any such transactions currently proposed.

PROPOSAL TWO: ADVISORY VOTE ON COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

We are asking our stockholders to approve, on an advisory basis, the compensation of our named executive officers as disclosed in this proxy statement. We urge you to read the “Compensation Discussion and Analysis” and “Executive Compensation” sections of this proxy statement which describe in more detail how our executive compensation policies and procedures operate and are designed to achieve our compensation objectives, as well as the related compensation tables and narrative, which provide detailed information on the 2017 compensation of our named executive officers. We believe our executive compensation programs demonstrate our pay for performance philosophy, which creates alignment with our stockholders and drives the creation of sustainable long-term stockholder value.

Required Vote and Board Recommendation

We are asking our stockholders to indicate their support for the compensation of our named executive officers, as described in this proxy statement. This proposal, commonly known as a “say-on-pay” proposal, is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies and practices described in this proxy statement. Accordingly, we ask our stockholders to vote “FOR” the following resolution at our Annual Meeting:

“RESOLVED, that the company’s stockholders approve, on an advisory basis, the compensation of the named executive officers, as disclosed in the company’s proxy statement for the 2018 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the SEC, including the “Compensation Discussion and Analysis,” the “Summary Compensation Table - Fiscal Years 2017 and 2016” and the other related tables and narrative disclosure.”

This say-on-pay vote is advisory only and not binding on the company, the Compensation Committee or our Board of Directors. Although the vote is advisory, our Board of Directors and our Compensation Committee value the opinions of our stockholders and expect to take the outcome of this vote into account when considering future compensation arrangements for our executive officers.

Our Board of Directors recommends that you vote FOR the approval of the compensation of our named executive officers.

PROPOSAL THREE: RATIFICATION OF THE SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Proposal Three is to ratify the selection by the Audit Committee of Deloitte & Touche LLP as our independent registered public accounting firm for the current fiscal year ending November 30, 2018. Deloitte & Touche LLP was the independent registered public accounting firm for our company for the fiscal year ended November 30, 2017. Based on the Audit Committee’s assessment of Deloitte & Touche’s qualifications and performance, our Board believes Deloitte & Touche’s retention for fiscal year 2018 is in the best interests of the Company.

Although ratification by stockholders is not required by law or by our bylaws, the Audit Committee believes that submission of its selection to stockholders is a matter of good corporate governance. Even if the selection is ratified, the Audit Committee, in its discretion, may select a different independent registered public accounting firm at any time if the Audit Committee believes that such a change would be in the best interests of our company and its stockholders. If our stockholders do not ratify the selection of Deloitte & Touche LLP, the Audit Committee will take that fact into consideration, together with such other factors it deems relevant, in determining its next selection of an independent registered public accounting firm.

We have been advised that a representative of Deloitte & Touche LLP will be present at the Annual Meeting. This representative will have the opportunity to make a statement if he or she desires and will be available to respond to appropriate questions presented at the meeting.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Registered Public Accounting Firm

The Audit Committee is responsible for appointing, setting compensation, and overseeing the work of our independent registered public accounting firm. The Audit Committee has established a policy regarding pre-approval of all audit and permissible non-audit services provided by the independent registered public accounting firm.

Requests for specific services by the independent registered public accounting firm which comply with the auditor services policy are reviewed by our Finance, Tax, and Internal Audit departments. Executive Summary

Business Overview

We are a global leader in application development, empowering enterprises to build mission-critical business applications to succeed in an evolving business environment. With offerings spanning web, mobile and data for on-premise and cloud environments, we power startups and industry titans worldwide, promoting success one application at a time. Our solutions are used across a variety of industries.

Fiscal 2017-A Transformative Year

Fiscal 2017 was a transformative year for our company. The catalyst for our transformation occurred in October 2016, when Yogesh Gupta became our new Chief Executive Officer. Mr. Gupta brought to Progress more than twenty-five years of software experience, with a proven track record as chief executive officer of delivering outstanding investor returns through

innovative growth strategies and strong execution. Mr. Gupta also served in several executive-level roles during his more than fifteen years at CA, Inc., a publicly-traded software company with businesses and technologies that have similar growth profiles as our company.

Immediately after the end of fiscal 2016, Mr. Gupta conducted a thorough review of our strategy. Following this strategy review, our Board of Directors and Mr. Gupta concluded that we should undertake a new strategy that leverages our application development platform capabilities, and enables our customers and partners to build next generation applications that drive their businesses. We will accomplish this by providing the platform and tools enterprises need to build “Cognitive Applications,” which are the future of application development. This new strategy builds on our inherent DNA and vast experience in application development established over 35 years.

At the same time, Mr. Gupta also reviewed our operations. Our budget and operating plan for 2016 reflected our optimism about the growth prospects of our business segments. However, as fiscal 2016 ended, our financial results fell short of our aggressive expectations. Following this operational review, our Board of Directors and Mr. Gupta concluded that because our core products competed in mature market segments with limited growth opportunities, we needed to moderate our view of their growth prospects. We shifted our organization and operating principles for these product lines, with the goal of serving our core customer base more profitably and with a focus on retention rather than the pursuit of new customers. We recognized that our prospects for future growth would be tied to our new strategy.

Following these extensive reviews, in January 2017, we launched a new strategic plan and operating model, with three major elements:

In consultation with our Board, Mr. Gupta also concluded that changes to our senior management team were required to transform our company. To execute our new strategy, Mr. Gupta recruited several new senior leaders with a track record of success in executing the type of strategies and operational changes that the transformation we began in 2017 would require. Mr. Gupta also shifted the responsibilities of existing senior leaders to better align with our new operating model. As shown in the table below seven of our ten management team members were new to their positions in fiscal 2017.

Our New Strategic Plan is Delivering Results...and Enhancing Stockholder Value

As shown in the chart below, we made significant progress in executing on our new strategic plan. Our budget and operating plan for 2017 reflected our modest growth expectations with respect to our core products and our focus on managing our business as efficiently as possible. Although we projected that our total revenues would decline year-over-year, by reducing our operating expenses through headcount and spending reductions, we anticipated that we would achieve growth in non-GAAP operating income and non-GAAP earnings per share.

Our 2017 financial results exceeded our original expectations with respect to total revenue, operating income, operating margin, earnings per share and free cash flow. The strength of our overall business enabled us to return almost \$100 million of capital to stockholders in fiscal 2017 in the form of share repurchases and dividends. Ultimately, our better-than-expected performance throughout the year generated strong returns for our stockholders.

-38-

The table below summarizes our 2017 financial results as compared to fiscal 2016:

| (In millions, except percentages and per share amounts) | Fiscal 2016 Actual | Fiscal 2017 Actual |
|---|--------------------------|--------------------------|
| GAAP | | |
| Revenue | \$405.3 | \$397.6 |
| Income (loss) from operations | (\$29.7) | \$70.6 |
| Diluted earnings (loss) per share | (\$1.13) | \$0.77 |
| Operating Margin | (7)% | 18 % |
| Cash from operations | \$102.8 | \$105.7 |
| Non-GAAP | | |
| Revenue | \$407.4 | \$398.6 |
| Operating income | \$123.1 | \$144.5 |
| Diluted earnings per share | \$1.65 | \$1.91 |
| Operating Margin | 30 % | 36 % |
| Adjusted free cash flow | \$100.6 | \$121.5 |

A reconciliation between the GAAP results and non-GAAP measures is located in Appendix A at the end of this proxy statement.

GAAP Results vs. Non-GAAP Measures

As disclosed in our press releases regarding annual and quarterly earnings and other communications, we provide financial information using methods in addition to those prescribed by generally accepted accounting principles in the United States (“GAAP”), such as non-GAAP revenue, non-GAAP operating income, non-GAAP earnings per share and adjusted free cash flow.

We believe these non-GAAP financial measures enhance the reader's overall understanding of our current financial performance and our prospects for the future by providing more transparency for certain financial measures and providing a level of disclosure that helps investors understand how we plan and measure our business. We believe that providing these non-GAAP measures affords investors a view of our operating results that may be more easily compared to our peer companies and enables investors to consider our operating results on both a GAAP and non-GAAP basis during and following the integration period of our acquisitions. Presenting the GAAP measures on their own may not be indicative of our core operating results. Furthermore, management believes that the presentation of non-GAAP measures when shown in conjunction with the corresponding GAAP measures provide useful information to management and investors regarding present and future business trends relating to our financial condition and results of operations.

Non-GAAP revenue, non-GAAP costs of sales and operating expenses, non-GAAP income from operations and operating margin, non-GAAP net income, and non-GAAP diluted earnings per share exclude the effect of purchase accounting on the fair value of acquired deferred revenue, amortization of acquired intangible assets, impairment of acquired intangible assets, stock-based compensation expense, restructuring charges, acquisition-related expenses, certain identified non-operating gains and losses, and the related tax effects of the preceding items. We also provide guidance on adjusted free cash flow, which is equal to cash flows from operating activities less purchases of property and equipment and capitalized software development costs, plus restructuring payments.

However, this non-GAAP information is not in accordance with, or an alternative to, GAAP information and should be considered in conjunction with our GAAP results as the items excluded from the non-GAAP information often have a material impact on our financial results. We provide a reconciliation of non-GAAP adjustments to our GAAP financial results in our earnings releases and we make this information available on our website at www.progress.com within the "Investor Relations" section.

2017 Executive Compensation Program Design

The Compensation Committee's philosophy is to tie executive pay to company performance, thereby creating alignment with our stockholders and driving the creation of sustainable long-term stockholder value. Our executive compensation programs for 2017 reflected the shift in our strategy following Mr. Gupta's appointment as our CEO, including our revised growth expectations within our core products, the shift in our go-forward product strategy and the restructuring of our organization and operational philosophy we undertook in early January 2017.

A key component of the Compensation Committee's responsibilities during fiscal 2017 was to develop compensation packages sufficient to retain Mr. Jalbert as our Chief Financial Officer, and to attract Mr. Ainsworth, Ms. Jarrett and Mr. Tcherevik to join our company. These compensation packages reflected our pay-for-performance philosophy and alignment of executive officer and stockholder interests, as well as external competitiveness and internal parity considerations.

For each of these individuals, the Compensation Committee issued new hire or promotion equity awards with a value larger than the typical award for which the NEO would be eligible under our annual equity program. In addition to a standard annual award, these new hire or promotion equity awards included a special one-time award of time-based restricted stock units ("RSUs"). See "New NEO Compensation Terms." The amounts shown in the chart below for the NEOs include these one-time RSU awards, which are not part of our NEOs' on-going compensation.

In the case of Mr. Gupta, no RSUs were issued in fiscal 2017 as he received RSUs in October 2016 as part of his new hire award. See "Individual Considerations."

FISCAL 2017 COMPENSATION STRUCTURE

Our executives' target compensation for fiscal 2017 consisted of the components described below:

Alignment of CEO Realizable Pay Value and Performance

The Compensation Committee reviews realizable pay value analyses for the executive officers to inform design and award levels for long-term incentive ("LTI") awards. We calculate realizable pay as the sum of annual base salary, actual corporate bonus plan award paid, the "in-the-money" value of stock options, the value of RSUs and the value of performance-based restricted stock units ("PSUs") (the current value is determined by measuring performance thus far in the performance period and determining the resulting level of assumed payout as of the most-recent fiscal year end).

Given that 2017 was the first full year of Mr. Gupta's tenure as our CEO, the table below focuses on 2017 compensation only:

The aggregate realizable pay value of the total base salary, corporate bonus plan payout and LTI for our CEO at the end of fiscal 2017 was estimated to be \$5.4 million, or approximately 169% of his 2017 compensation values disclosed in the Summary Compensation Table below.

Our corporate bonus plan payout was 115% of target, based on actual company performance versus goals set at the beginning of the fiscal year.

Our stock price increased from \$28.98 (as of Mr. Gupta's LTI grant date of February 23, 2017) to \$41.34 (2017 fiscal year end stock price), which represented a 44% return to stockholders (includes share price performance plus dividends paid during this period).

These findings demonstrate alignment of the CEO's realizable pay with stockholders' investment performance during 2017.

Response to 2017 Say-on-Pay Vote and the Evolution of our Executive Compensation Program

We value the input of our stockholders on our compensation programs. We hold an advisory vote on executive compensation on an annual basis. We also periodically communicate with our stockholders to better understand their opinions on governance issues, including compensation. The Compensation Committee carefully considers stockholder feedback and the outcome of each vote when reviewing our executive compensation programs each year. At our 2017 annual stockholders meeting, approximately 98% of the votes cast approved, on an advisory basis, our executive compensation for fiscal year 2016. As shown in the table below, for each of the past three years, we received more than 95% support with respect to the advisory vote on executive compensation.

However, over the past few years we have made significant changes to our executives' compensation in response to prior say-on-pay votes and feedback from stockholders as shown in the table below. The Committee will continue to consider the outcome of our say-on-pay votes and our stockholder views when making future compensation decisions for our executives.

Executive Compensation Program

Philosophy and Objectives

Our philosophy is to reward executive officers based upon corporate performance, as well as to provide long-term incentives for the achievement of financial and strategic goals. We use a combination of cash compensation, composed of base salary and an annual cash bonus program, long-term equity incentive compensation programs, and a broad-based benefits program to create a competitive compensation package for our executive management team. We tie the payment of cash and equity incentive compensation to executive officers exclusively to the achievement of financial objectives.

The Compensation Committee uses the following principles to guide its decisions regarding the compensation of our executive officers:

Pay for Performance: Total compensation should reflect a “pay for performance” philosophy in which more than 50% of each executive officer’s compensation is tied to the achievement of company financial objectives. Cash compensation for our executive officers is weighted toward short-term incentive bonus awards tied to company financial objectives that are difficult to attain and require achievement closely linked to our annual operating plan and budget. If the targets for total revenue and adjusted free cash flow are not met within 95% of our budget or the target for operating income is not met within 90% of our budget, no bonus is earned.

Alignment with Stockholders’ Interests: Total compensation levels should include performance-based equity awards to align executive officer and stockholder interests.

Internal Parity: To the extent practicable, base salaries and short- and long-term incentive targets for similarly-situated executive officers should be comparable to avoid divisiveness and encourage teamwork, collaboration, and a cooperative working environment.

External Competitiveness: Total compensation should be competitive with peer companies so that we can attract and retain high performing key executive talent. To achieve this goal within market ranges, our Compensation Committee periodically reviews the compensation practices of other companies in our peer group, as discussed in the “Peer Group” section below.

Compensation Review Process

Role of Compensation Committee

Toward the end of each fiscal year, the Compensation Committee begins the process of reviewing executive officer compensation for the next fiscal year. The Compensation Committee is provided with reports from its independent compensation consultant comparing our executive compensation and equity granting practices relative to the market and to our peer group. The Compensation Committee reviews recommendations from management on the current fiscal year annual and long-term incentive compensation programs. The Compensation Committee then reviews and approves changes to executive officers’ total target cash compensation, which includes base salary and target incentive compensation, and long-term equity incentive compensation. The Compensation Committee reviews all recommendations considering our compensation philosophy and seeks input from its independent compensation consultant prior to making any final decisions.

Role of Chief Executive Officer

Our Chief Executive Officer makes recommendations to the Compensation Committee with respect to compensation for his direct reports (including our other named executive officers). In making these recommendations, the factors considered include market data, tenure, individual performance, responsibilities, and experience levels of the executives, as well as the compensation of the executives relative to one another.

These initial CEO recommendations are discussed with the Chairman of the Compensation Committee or presented at Compensation Committee meetings. The Total Rewards group within our Human Capital Department and individuals within our Finance and Legal Departments support the Compensation Committee in the performance of its responsibilities. During 2017, our Chief Financial Officer, Chief Legal Officer and Chief Talent Officer regularly attended the Compensation Committee meetings to provide perspectives on the competitive landscape, the needs of the business, information about our financial performance and relevant legal and regulatory developments.

The Compensation Committee meets in executive session (without management) with its external compensation consultant to deliberate on executive compensation matters. None of our executive officers participate in the Compensation Committee's deliberations or decisions regarding their own compensation.

Role of Compensation Consultant

Our Compensation Committee again retained Pay Governance to advise it on matters related to executive compensation for 2017.

Other than providing limited guidance regarding our broad-based equity plan design for all employees, Pay Governance did not provide any services for management in 2017. Pay Governance consulted with our management when requested by the Compensation Committee and only as necessary to obtain relevant compensation and performance data for the executives as well as essential business information so that it could effectively support the Compensation Committee with appropriate competitive market information and relevant analyses.

During 2017, Pay Governance provided a range of services to the Compensation Committee to support the Compensation Committee's agenda and obligations, including providing advice relating to compensation terms for new or promoted executives, regulatory updates, industry trends and peer group compensation data, so that the Compensation Committee could set compensation for executives and non-employee directors in accordance with our policies and the Compensation Committee's charter, advice on the structure and competitiveness of our compensation programs, and advice on the consistency of our programs with our executive compensation philosophy.

Representatives of Pay Governance attended Compensation Committee meetings and provided advice to the Compensation Committee upon its request. The Compensation Committee assessed the independence of Pay Governance and determined that Pay Governance is independent of our company and has no relationships that could create a conflict of interest with us. As part of its assessment, the Compensation Committee considered the fact that Pay Governance did not provide any other services to us and consults with our management only as necessary to provide the services described above.

Peer Group

To assist the Compensation Committee in making decisions on total compensation for executives and company-wide equity grants, the Compensation Committee utilizes peer and industry group data and analyses. Each year, as necessary, the Compensation Committee reviews with its external compensation consultant the list of peer companies as points of comparison to ensure that comparisons are meaningful.

For 2017, Pay Governance provided recommendations on the composition of our peer group. Based on the facts described in the table below and management's input, for 2017, Pay Governance recommended, and the Compensation Committee approved, the following peer group:

| General Description | Criteria Considered | Peer Group List |
|---|---|---|
| Software and high technology companies which operate in similar or related businesses and with which Progress competes for talent | Publicly-traded and based in U.S. | Aspen Technology, Inc. Avid Technology, Inc. Bottomline Technologies, Inc. CommVault Systems, Inc. Demandware, Inc. Epiq Systems, Inc. Gigamon Inc.* HubSpot Inc.* |
| | Revenues-0.5x to 2.5x of Progress | Interactive Intelligence, Inc.* |
| | Market Cap-0.2x to 3.0x of Progress | Jive Software, Inc. Manhattan Associates, Inc. |

*Added for 2017

For 2017, the Compensation Committee replaced five peer companies utilized in 2016 with four new additions as shown in the table above. Four of the replaced companies (Advent Software, Inc., Demandware, Inc., Qlik Technologies, Inc. and SolarWinds, Inc.) were acquired during 2016. The Compensation Committee replaced NetScout Systems, Inc. because their annual revenues (as a result of an acquisition) had exceeded our criteria. Pay Governance then prepared a compensation analysis based on survey data and data gathered from publicly available information for our peer group companies.

Survey Data

The executive compensation analysis prepared by Pay Governance also included data from Radford's 2016 Global Technology Survey for companies with revenues between \$200 million and \$500 million. The Compensation Committee used this data to compare the current compensation of our named executive officers to the peer group and to determine the relative market value for position, based on direct, quantitative comparisons of pay levels. The survey data was used when there was a lack of public peer data for an executive's position and to obtain a general market understanding of current compensation practices.

Competitive Positioning

The fiscal 2017 target total direct compensation for our named executive officers was set by the Compensation Committee based predominantly on competitive pay practices, as reflected in the peer group and survey data. The Compensation Committee reviews market data at the 25th, 50th, and 75th percentile and, for 2017, sought to target total direct compensation for the named executive officers as a group at the 50th percentile of our peer group in setting

our executive compensation programs. Additional adjustments were considered based on individual importance to our company, anticipated future contributions, internal pay equity, and historical pay levels, as well as the level of an executive officer's unvested equity awards and incentives.

-47-

In determining equity awards related to the recruitment or promotion of executive officers, the Compensation Committee seeks to align the interests of these executives with our stockholders and reviews and considers: market data, forfeited awards at prior employers, importance of role, candidate experience, transitional state of the company and internal positioning. New hire and promotional equity awards are generally one-time in nature and future awards to these executive officers are aligned with our annual equity award structure.

Components of Executive Officer Compensation

Compensation for our named executive officers currently consists of three primary components that are designed to reward performance in a simple and straightforward manner—base salaries, annual cash bonuses, and long-term equity awards. The purpose and key characteristics of each of these components and how each element accomplishes the goals and objectives of our program are summarized below.

| Compensation Element | Objective | Key Features |
|--|---|--|
| Cash Compensation | To attract, motivate and reward executives whose knowledge, skills, and performance are critical to our success | |
| • Base Salary | To secure and retain services of key executive talent by providing a fixed level of cash compensation for performing essential elements of position | Adjustments may be made to reflect market conditions for a position, changes in the status or duties associated with a position, individual performance or internal pay equity |
| • Annual Cash Bonus | To encourage and reward annual corporate performance that enhances short and long-term stockholder value | Cash bonuses are based on percentage of base salary, with actual awards based exclusively on attainment of objective corporate financial goals |
| Equity Compensation | To align executives' interests with those of stockholders | |
| • PSUs under the Long-Term Incentive Plan ("LTIP") | To align interests of management with those of our stockholders with the goal of creating long-term growth and value | Three-year performance period Performance metric utilized is relative total stockholder return ("TSR") in comparison to NASDAQ Software Index |
| • Restricted Stock Units (RSUs) | To retain executive talent | Service-based vesting over three-year period |
| • Stock Options | To align interests of management with those of our stockholders with the goal of creating long-term growth and value | Service-based vesting over four-year period Exercise price equal to fair market value on date of grant |

| | | |
|--|---|--|
| Other Compensation | To provide benefits that promote employee health and welfare, which assists in attracting and retaining our executive officers | Indirect compensation element consisting of programs such as medical, dental, and vision insurance, a 401(k) plan with up to a 3% matching contribution, an employee stock purchase plan program, and other plans and programs generally made available to employees |
| Severance and Change in Control Benefits | To serve our retention and motivational objectives helping our named executive officers maintain continued focus, dedication to their responsibilities and objectivity to maximize stockholder value, including in the event of a transaction that could result in a change in control of our company; particularly important in a time of increased consolidation in our industry and increased competition for executive talent | Provides protection in the event of an involuntary termination of employment under specified circumstances, including following a change in control of our company as described below under “Potential Payments Upon Termination or Change in Control” and “Executive Compensation-Severance and Change in Control Agreements” |

2017 Executive Compensation Decisions

2017 Program Design

Consistent with its pay-for-performance philosophy, the Compensation Committee emphasized alignment with our long-term business goals in designing our executive compensation programs for 2017. Our executive compensation programs for 2017 reflected the shift in our strategy, the change in our go-forward product strategy and the restructuring of our organization and operational philosophy we undertook in early 2017.

The chart below summarizes the key attributes of each pay element for fiscal 2017.

| Element | Key Attributes |

New NEO Compensation Terms

As described above, a key component of the Compensation Committee's responsibilities during fiscal 2017 was to develop compensation packages sufficient to attract and retain Mr. Jalbert, Mr. Ainsworth, Ms. Jarrett and Mr. Tcherevik as well as other new members of senior management. In each case, the Compensation Committee designed these compensation packages in consultation with its external compensation consultant.

In the table below, we describe the responsibilities and unique experiences brought to our company by each of such named executive officers.

| NEO | Role | Responsibilities | Experience |
|------------------|--------------------------|--|---|
| Paul Jalbert | Chief Financial Officer | Finance & accounting | Thirty years of experience as finance executive at publicly and private-held companies, including UnitedHealth, Picis, Keane, Genuity and Verizon |
| John Ainsworth | SVP, Core Products | Product management, engineering and technical support for all core products except Dev Tools | Twenty-five years at CA, Inc. running large teams responsible for products with similar profiles and growth characteristics as our core products |
| Loren Jarrett | Chief Marketing Officer | Product and marketing strategy | Track record of creating successful product and marketing strategies at companies as diverse as CA, Inc., Oracle, American Express and Acquia |
| Dmitri Tcherevik | Chief Technology Officer | Leading our vision and technology strategy across our product portfolio | Successful track record of devising and implementing technology strategy for emerging markets as founder of two successful technology start-ups as well as for CA, Inc. |

In developing compensation terms for the new NEOs, the Compensation Committee took into account the following factors, among others:

- in the case of Mr. Jalbert, the compensation terms negotiated with Mr. Abkemeier approximately six months earlier following the lengthy search process for a new Chief Financial Officer during fiscal 2016;
- in the case of Mr. Ainsworth, his experience at CA, Inc. leading product teams with characteristics similar to our core products;
- in the case of Ms. Jarrett, the fact that developing a product and marketing strategy would be a key part of her role as Chief Marketing Officer;
- in the case of Mr. Tcherevik, the substantial experience he had with strategies and technologies similar to our cognitive applications product strategy;
- internal pay equity; and
- the significant turnover we had experienced in the executive ranks during fiscal 2017 and the need for greater stability in the management team to execute the new strategic plan.

As described above, in determining equity awards related to the recruitment or promotion of executive officers, the Compensation Committee seeks to align the interests of these executives with our stockholders and reviews and considers: market data, forfeited awards at prior employers, importance of role, candidate experience, transitional state of the company and internal positioning. New hire and promotional equity awards are generally one-time in nature and future awards to these executive officers are aligned with our annual equity award structure.

In the case of Mr. Jalbert, Mr. Ainsworth and Ms. Jarrett, the new hire equity awards consisted of two components, an annual equity award and a special equity award. For Mr. Jalbert, Mr. Ainsworth and Ms. Jarrett, the annual equity award consisted of 50% performance stock units under our Long-Term Incentive Plan, 30% time-based restricted stock units and 20% stock options. Mr. Jalbert received an annual equity award with a value of \$1,000,000 and Mr. Ainsworth and Ms. Jarrett each received an annual equity award with a value of \$700,000. The vesting of these annual equity awards is identical to our annual equity program described below.

The Compensation Committee issued special one-time equity awards consisting of time-based restricted stock units to each of Mr. Jalbert (\$1,000,000), Mr. Ainsworth (\$300,000) and Ms. Jarrett (\$300,000). Mr. Jalbert's special equity award vests in March 2020 if he remains our Chief Financial Officer on such date. The vesting of the special awards issued to Mr. Ainsworth and Ms. Jarrett is identical to RSUs issued under our annual equity program.

In the case of Mr. Tcherevik, he received a new hire equity award of \$1,000,000, consisting of 50% performance stock units under our Long-Term Incentive Plan, 30% time-based restricted stock units and 20% stock options. The vesting of Mr. Tcherevik's new hire award is identical to the annual equity program.

In January 2018, consistent with the Compensation Committee's philosophy, each of the NEOs received awards under our annual equity program that did not include a new hire or special equity award.

Pay Mix

In setting the mix among the different elements of executive compensation, we do not target specific allocations, but generally weight target compensation more heavily toward performance-based compensation, both cash and equity. The percentage of performance-based compensation for our executive officers and other employees increases with job responsibility, reflecting our view of internal pay equity and the ability of a given employee to contribute to our results. We also generally align our compensation mix with the practices of our peer group when possible and to the extent consistent with our compensation strategy and business plan.

As shown in the tables below, the total direct compensation mix for Mr. Gupta and our other named executive officers in fiscal 2017 was consistent with our peer group.

These allocations reflect our belief that a significant portion of our named executive officers' compensation should be performance-based and therefore "at risk" based on company performance, as well as subject to service requirements. Since our cash incentive opportunities and equity incentive awards have both upside opportunities and downside risks and our actual performance can deviate from the target goals, the amount of compensation earned will differ from the target allocations.

Individual Considerations

Below is a summary of the fiscal 2017 compensation decisions and, where applicable, changes for each named executive officer from fiscal 2016.

(1) Mr. Gupta became our Chief Executive Officer in October 2016. We entered into an employment agreement with Mr. Gupta setting forth the terms of his compensation described above.

(2) Represents cash payable upon achievement of target performance under our Corporate Bonus Plan. Based on company performance, Mr. Gupta earned 15% of his bonus for fiscal 2016 prorated to reflect his employment commencement date.

(3) 70% of Mr. Gupta's fiscal 2016 annual equity award was to be in the form of PSUs based on one-year performance objectives and 30% in the form of time-based RSUs. Mr. Gupta was issued RSUs with a grant date value of \$375,000 in October 2016, which vest in equal installments every six months over three years beginning on April 1, 2017, subject to continued employment. The PSUs were to be issued in early 2017 and based on FY17 financial objectives. In February 2017, the Compensation Committee eliminated the practice of awarding PSUs based on one-year performance objectives and in lieu of his new hire PSUs, Mr. Gupta was awarded \$875,000 of stock options in February 2017. These stock options are shown in the 2017 Target Pay column under "Target Annual Stock Options".

(4) Mr. Gupta was to receive PSUs as part of his new hire award but, in February 2017, the Compensation Committee eliminated the practice of awarding PSUs based on one-year performance objectives, and in lieu of his new hire PSUs, Mr. Gupta was awarded \$875,000 of stock options in February 2017. These options vest in equal installments every six months over four years beginning on October 1, 2017, subject to continued employment.

(5) Represents PSUs issued to our executive officers under our Long-Term Incentive Plan with a grant date value of two times base salary and subject to three-year relative total stockholder return performance measures.

(6) Represents a one-time award of RSUs subject to three-year vesting as follows: 25% on October 10, 2017, 25% on October 10, 2018, and 50% on October 10, 2019, subject, in each case, to continued employment. The vesting of all or part of this award may be accelerated in the event of a change in control or involuntary termination.

(7) We evaluated Mr. Gupta's fiscal 2016 total target compensation against our compensation peer group, as to individual elements and as to total compensation to determine whether any changes should be made. We determined that Mr. Gupta's target cash compensation was in line with the market data.

(8) Represents cash payable upon achievement of target performance under our Corporate Bonus Plan. Based on company performance, Mr. Gupta earned 115% of his bonus for fiscal 2017.

(9) Mr. Gupta did not receive an award of time-based RSUs in fiscal 2017 because he received time-based RSUs in October 2016 as part of his new hire award.

(10) Represents PSUs issued to our executive officers under our Long-Term Incentive Plan that are subject to three-year relative total stockholder return performance measures.

We also took into consideration the compensation terms we entered into with Kurt Abkemeier, who was our Chief Financial Officer until March 2017, and who had joined our company in September 2016. - (1) Mr. Abkemeier became our Chief Financial Officer in September 2016. We entered into an employment agreement with Mr. Abkemeier setting forth the terms of his compensation described above. In March 2017, Mr. Abkemeier's employment with our company terminated. Upon his termination, we paid Mr. Abkemeier the severance benefits described in the section of this proxy statement entitled, "Severance and Change in Control Benefits."

- Represents cash payable upon achievement of target performance under our Corporate Bonus Plan. Based on (2) company performance, Mr. Abkemeier earned 15% of his bonus for fiscal 2016 prorated to reflect his employment commencement date.

- 60% of Mr. Abkemeier's fiscal 2016 annual equity award was to be in the form PSUs based on one-year performance objectives and 40% in the form of time-based RSUs. Mr. Abkemeier was issued RSUs with a grant date value of \$240,000 in September 2016, which vest in equal installments every six months over three years beginning on April 1, 2017. Upon termination of Mr. Abkemeier's employment, the vesting of two installments of (3) these RSUs was accelerated. The PSUs were to be issued in early 2017 and based on FY17 financial objectives. In February 2017, the Compensation Committee eliminated the practice of awarding PSUs based on one-year performance objectives and, in lieu of his new hire PSUs, Mr. Abkemeier was awarded \$360,000 of stock options in February 2017. These stock options are shown in the 2017 Target Pay column under "Target Annual Stock Options".

- (4) Mr. Abkemeier was to receive PSUs as part of his new hire award but, in February 2017, the Compensation Committee eliminated the practice of awarding PSUs based on one-year performance objectives, and in lieu of his new hire PSUs, Mr. Abkemeier was awarded \$360,000 of stock options in February 2017. These options vest in equal installments every six months over four years beginning on October 1, 2017, subject to continued employment. Upon termination of Mr. Abkemeier's employment, the vesting of two installments of these options was accelerated.

Represents PSUs issued to our executive officers under our Long-Term Incentive Plan with a grant date value of (5) two times base salary and subject to three-year relative total stockholder return performance measures. Upon Mr. Abkemeier's termination of employment in March 2017, these PSUs were canceled.

Represents a one-time award of RSUs subject to three-year cliff vesting, subject to continued employment. The (6) vesting of all or part of this award may be accelerated in the event of a change in control or involuntary termination. Upon termination of Mr. Abkemeier's employment, the vesting of one-third of this one-time award of RSUs was accelerated.

We evaluated Mr. Abkemeier's fiscal 2016 total target compensation against our compensation peer group, as to (7) individual elements and as to total compensation to determine whether any changes should be made. We determined that Mr. Abkemeier's target cash compensation was in line with the market data.

Represents cash payable upon achievement of target performance under our Corporate Bonus Plan. Mr. Abkemeier (8) did not receive any portion of his FY17 target bonus as a result of his termination of employment in March 2017.

Mr. Abkemeier did not receive an award of time-based RSUs in fiscal 2017 because he received time-based RSUs (9) in September 2016 as part of his new hire award.

Represents PSUs issued to our executive officers under our Long-Term Incentive Plan that are subject to (10) three-year relative total stockholder return performance measures. Upon Mr. Abkemeier's termination of employment in March 2017, these PSUs were canceled.

Cash Incentive Compensation

Annual Cash Bonus

It is our philosophy to base a significant portion of each executive officer's total compensation opportunity on performance incentives. Our annual bonus plan is intended to motivate eligible participants toward overall business results, to tie their goals and interests to those of the company and its stockholders, and to enable the company to attract and retain highly qualified executives. Our bonus plan is administered by our Compensation Committee. The Compensation Committee set the target annual cash incentive opportunity for 2017 (expressed as a percentage of base salary earned during the year) for each named executive officer in January 2017, in the case of Mr. Gupta and Mr. Abkemeier, and at the time of promotion or hire, in the case of the other named executive officers. In setting the target levels, the Compensation Committee considered each named executive officer's 2017 target total cash opportunity against the peer group data provided by our independent compensation consultant, internal pay equity and the roles and responsibilities of the named executive officers. The Compensation Committee set Mr. Gupta's and Mr. Abkemeier's 2017 cash bonus target at the same percentage as his respective target opportunity in 2016. Mr. Jalbert's cash bonus target was increased to 60% as part of his promotion to Chief Financial Officer in March 2017. The cash bonus targets for Ms. Jarrett, Mr. Ainsworth and Mr. Tcherevik were set at 50% consistent with the target levels of other senior executives. The Compensation Committee believes that the target annual cash bonus opportunity should make up a larger portion of an executive officer's total target cash compensation as the executive's level of responsibility increases.

2017 Plan Design

In January 2017, the Compensation Committee approved the 2017 Corporate Bonus Plan. Our named executive officers participated in the Corporate Bonus Plan.

For 2017, the Compensation Committee adopted three plan metrics for the Corporate Bonus Plan, all of which would be utilized to determine funding and payout under the cash bonus plans. These three plan metrics were non-GAAP corporate revenue, non-GAAP operating income and adjusted free cash flow. These three plan metrics were the same metrics utilized by the Compensation Committee in fiscal 2016.

Non-GAAP corporate revenue was weighted at 40%, non-GAAP operating income was weighted at 40%, and the

adjusted free cash flow metric was weighted at 20%. Each metric was measured separately and not impacted by performance with respect to the other metrics. The performance measures selected for our cash bonus plan were designed to support our goals of expanding our non-GAAP operating income, which would result in increased stockholder value, while at the same time preserving our strong cash flow. Our revenue targets reflected our more modest view of the growth prospects of our core products. For further detail about our use of non-GAAP measures, refer to the paragraph entitled, “GAAP Results vs. non-GAAP Measures” above.

For 2017, the Compensation Committee determined that, for purposes of earning any award under the Corporate Bonus Plan, it was necessary to achieve threshold total non-GAAP revenue and adjusted free cash flow of at least 95% of the corresponding target in our 2017 operating plan and budget. With respect to the total non-GAAP total operating income metric, the Compensation Committee set the threshold at 90% of the corresponding target in our 2017 operating plan and budget. Although the Compensation Committee retained the funding percentage for threshold-level achievement at 25% for bonus plan participants below the senior executive level, for Mr. Gupta and the other named executive officers, the Compensation Committee adopted a funding percentage for threshold-level achievement at 50% with respect to the revenue and free cash flow metrics. The rationale for this difference was that the Compensation Committee determined that no funding should occur with respect to a metric for which the performance was below our publicly-announced expectations for fiscal 2017 performance.

The targets established with respect to the total revenue goal reflected the challenge we faced in growing our core revenues while implementing a new strategy. The targets established with respect to the non-GAAP operating income metric were consistent with our new operational model for our core business. The targets established with respect to the adjusted free cash flow goal reflected the importance of maintaining a strong cash balance to enable us to execute a capital allocation strategy in the best interests of stockholders.

Corporate Bonus Plan Criteria and Achievement

The table below shows the funding percentages based on our performance under the three metrics. For the named executive officers, none of the annual bonus under the Corporate Bonus Plan would be earned unless we achieved at least \$388 million in total non-GAAP revenue, \$130 million in total non-GAAP operating income or \$95 million in adjusted free cash flow, in which case a portion of the bonus would be earned based on the level of achievement and weighting of the metrics.

2017 Annual Bonus Plan Criteria and Achievement

| Metric (\$ millions) | (1) Weighting | Threshold (25%) | 50% Funding | Target (100%) | Maximum (150%) | Actual Achievement | Funding Percentage |
|---------------------------|---------------|--------------------|----------------|------------------|-------------------|-----------------------|-----------------------|
| Non-GAAP Corp. Revenue | 40% | \$382 | \$388 | \$396 | \$414 | \$392 | 74% |
| Non-GAAP Operating Income | 40% | \$130 | \$136 | \$141 | \$159 | \$154 | 137% |
| Adjusted Free Cash Flow | 20% | \$93 | \$95 | \$98 | \$104 | \$122 | 150% |
| Total | 100% | | | | | | 115% |

Targets and actual achievement figures shown in the table above are based on budgeted exchange rates. For (1) purposes of computing non-GAAP Operating Income, bonus expense is added back to the Threshold, Target, Maximum, and Actual achievement amounts.

Amounts Earned under the 2017 Corporate Bonus Plan

As a result of our financial performance during fiscal 2017, we exceeded the target level of performance under our bonus plan, which resulted in a payout percentage of 115% with respect to the annual cash bonus. For Mr. Gupta and the other executive officers, the actual bonuses earned were based 100% on the financial metrics described above and no portion of the annual bonuses are based on subjective measures.

The following table shows the bonuses earned by our named executive officers under the Corporate Bonus Plan in 2017.

| NEO | Target Annual Bonus (\$) | Amount Earned (\$) |
|---------------------------------|--------------------------|--------------------|
| Yogesh Gupta | 575,000 | 661,250 |
| Paul Jalbert | 225,000 | 258,750 |

| Loren Jarrett ⁽²⁾ | 167,500 | 168,349 |
| Dmitri Tcherevik ⁽³⁾ | 167,500 | 127,713 |
| Kurt Abkemeier ⁽⁴⁾ | 300,000 | — |

(1) Mr. Ainsworth became our SVP, Core Products in January 2017 and received a pro-rated payout of his 2017 actual bonus.

(2) Ms. Jarrett became our Chief Marketing Officer in January 2017 and received a pro-rated payout of her 2017 actual bonus.

(3) Mr. Tcherevik became our Chief Technology Officer in April 2017 and received a pro-rated payout of his 2017 actual bonus.

(4) Because Mr. Abkemeier's employment as our Chief Financial Officer terminated in March 2017, he earned no portion of his 2017 target bonus.

Other Cash Incentives

As part of his new hire compensation package, Mr. Ainsworth received a signing bonus of \$150,000.

As part of her new hire compensation package, Ms. Jarrett received a signing bonus of \$125,000.

Equity Compensation

We use equity compensation to attract, retain, motivate and reward our named executive officers. We issue annual and new hire equity awards based on guidelines for awards commensurate with position levels and that reflect grant practices within our peer group and the broader software industry generally. The Compensation Committee reviews the mix of equity awards to our named executive officers on an annual basis.

PSUs are subject to performance criteria aligned with our business plan and are earned only to the extent the performance criteria are achieved, with any PSUs earned being subject to subsequent time-based vesting (one-third vests upon determination of achievement of the performance goals established for that year and one-third in each of the next two years if the executive remains employed on the vesting date).

RSUs typically vest in six equal installments over three years beginning six months after issuance. In a volatile stock market, RSUs continue to provide value when other forms of equity such as stock options may not, which the Compensation Committee believes is useful in retaining talented executives in unpredictable economic times.

Stock option awards provide individuals with the right to purchase shares of our common stock at a fixed exercise price, typically for a period of seven years, subject to continued employment with our company. Stock options vest in six-

month increments over a four-year period. We believe that meaningful vesting periods encourage recipients to remain with our company over the long-term and, because the value of the awards is based on our stock price, stock options encourage recipients to focus on achievement of longer-term goals, such as strategic growth, business innovation and stockholder return. In general, employees whose employment terminates (other than for death or disability) before the award fully vests forfeit the unvested portions of these awards.

Beginning in 2014, the Compensation Committee made fundamental changes to the equity program applicable to our named executive officers. In January 2014, the Compensation Committee approved a new long-term equity incentive compensation plan consisting of the grant of PSUs, which would be earned entirely based on performance over a three-year measurement period. The Compensation Committee approved awards of PSUs under the LTIP in fiscal 2015, 2016 and 2017.

Prior to fiscal 2017, the number of PSUs awarded was equal to two times each recipient's base salary. For fiscal 2017, the Compensation Committee determined that 50% of the total annual equity award to executive officers should be in the form of PSUs under the LTIP. The number of shares earned is determined by comparing our relative TSR for the relevant period to the relative TSR of the component companies of the NASDAQ Software Index.

Under the LTIP, participants can earn between 0% and 200% (the payout cap under the LTIP) of the target number of PSUs. The cumulative three-year TSR measure compares the TSR of our common stock against the TSR of companies included in the NASDAQ Software Index during the three-year period. Regardless of our relative position with respect to the NASDAQ Software Index, the award will be reduced by 50% if our absolute TSR over the measurement period is negative.

The three-year performance period with respect to the LTIP awarded in 2014 expired on November 30, 2016. Based on the price of our common stock for the thirty-day trading period ending November 30, 2016, our TSR compared to the NASDAQ Software Index for the same period placed us below the 50th percentile, meaning that none of the 2014 PSUs awarded as the LTIP were earned. As a result, all of the 2014 PSUs awarded as the LTIP were canceled. The three-year performance period with respect to the LTIP awarded in 2015 expired on November 30, 2017. Based on the price of our common stock for the thirty-day trading period ending November 30, 2017, our TSR compared to the NASDAQ Software Index for the same period placed us below the 50th percentile, meaning that none of the 2015 PSUs awarded as the LTIP were earned. As a result, all of the 2015 PSUs awarded as the LTIP were canceled.

Target Value and Award Determination

The Compensation Committee's decisions regarding the amount and type of equity incentive compensation, the allocation of equity and relative weighting of these awards within total executive compensation have been based on advice provided by our external compensation consultant and the Compensation Committee's understanding and individual experiences with market practices of similarly-situated companies. Equity-based incentive awards are intended to be the longer-term components of our overall executive compensation program and are designed to encourage performance by our executive officers over several years.

To determine the size of the equity awards, the Compensation Committee first determined the total number of shares that would be available for the annual equity awards to all proposed recipients. The total number of shares was determined by consideration of the potential dilution to our stockholders and average burn rate of other companies in our industry. The Compensation Committee utilized the grant data from the peer group and other information provided by Pay Governance to assist it in determining the size of the overall equity pool for our company as well as the individual grants to the named executive officers.

To determine the size of the individual annual equity awards, the Compensation Committee, utilizing data provided by Pay Governance, compared the long-term equity incentive compensation levels of our executives with similar positions within our peer group and survey data to determine the long-term equity incentive compensation amount for each executive. The Compensation Committee reviews market data at the 25th, 50th, and 75th percentile. In finalizing the amounts of the annual equity awards, the Compensation Committee considers this market data, the CEO's recommendations, the burn rate of the executive grants, and the degree to which those amounts would be aligned with our goals of motivating and retaining key employees.

| Frequency of Grant | Annual | Annual |

For fiscal 2017, the Compensation Committee altered the type and mix of equity awards to our named executive officers. In fiscal 2016, the Compensation Committee utilized an equity mix comprised of PSUs tied to a one-year financial objective, time-based RSUs and LTIP PSUs tied to three-year relative total stockholder return. The Compensation Committee placed a much higher emphasis on PSUs than our peer companies. In addition, the LTIP was designed as an outperformance plan and had a payout schedule that was more challenging than those similar plans utilized by our peers and the market generally. As a result of this mix and LTIP design, the Compensation Committee had issued equity awards to the named executive officers that approximated the 75th percentile of our historical peer group.

As fiscal 2016 ended, the Compensation Committee determined that changes to the design of the equity awards to our named executive officers were necessary because of the significant shift in our strategy and operations being implemented for

fiscal 2017. For fiscal 2017, the Compensation Committee eliminated PSUs in which the performance metric was tied to a one-year financial objective. In fiscal 2016, the Compensation Committee had utilized earnings per share as the one-year performance metric but for fiscal 2017, the Compensation Committee determined that utilizing earnings per share as the metric would place too much focus on the short-term to the detriment of long-term strategy. Ultimately, the Compensation Committee concluded that setting one-year financial goals for equity awards that would be meaningful to stockholders and different than the metrics utilized under the Corporate Bonus Plan would be challenging.

Therefore, for fiscal 2017, the Compensation Committee eliminated PSUs in which the performance metric was tied to a one-year financial objective and replaced annual PSUs with stock options. Stock option grants are intended to correlate executive compensation to our long-term success as measured by our stock price. Stock options are tied to our future success because options granted have an exercise price equal to the closing market value at the date of grant and will only provide value to the extent that the price of our stock increases above the exercise price. As a result, the Compensation Committee viewed stock options as a form of performance equity, but with a longer-term focus than PSUs tied to an annual performance metric.

The Compensation Committee retained the use of time-based RSUs as part of the equity mix for fiscal 2017. In a volatile stock market, RSUs continue to provide value when other equity vehicles may not, which the Compensation Committee believes is useful in retaining talented executives in unpredictable economic times.

In addition, the Compensation Committee modified the terms of the LTIP to revise the relative TSR payout scale to reflect emerging trends and stockholder-friendly practices (e.g., above-median performance required to achieve target payout).

Under the revised LTIP design, participants can still earn between 0% and 200% (the payout cap under the LTIP) of the target amount of PSUs. The cumulative three-year TSR measure compares the TSR of our common stock against the TSR of companies included in the NASDAQ Software Index during the three-year period. Our relative TSR performance must be at the 55th percentile of the index group in order for the target award to be earned. For the February 2017 award under the LTIP, the three-year comparison period commenced on December 1, 2016 and will end on November 30, 2019.

| Relative Performance (TSR Percentile Rank) | % of Target PSU Earned |
|--|------------------------|
| Less than 35 th Percentile | 0% |
| 35 th Percentile | 50% |
| 50 th Percentile | 90% |
| 55 th Percentile | 100% |
| 65 th Percentile | 125% |
| 75 th Percentile | 150% |
| 90 th Percentile | 200% (Maximum) |

Awards interpolated for performance within stated percentiles

Additionally, regardless of our relative position with respect to the NASDAQ Software Index, the award will be reduced by 50% if our absolute TSR over the measurement period is negative.

The Compensation Committee then determined the mix of the fiscal 2017 equity compensation program to the named executive officers. Consistent with the Compensation Committee's philosophy that a significant portion of the equity mix to named executive officers should be tied to our long-term performance, the Compensation Committee determined that the equity mix should be 50% LTIP PSUs, 30% RSUs and 20% stock options.

Other Executive Compensation Matters

Timing of Equity Grants

We do not time grants either to take advantage of a depressed stock price or in anticipation of an increase in stock price and have limited the amount of discretion that can be exercised in connection with the timing of awards. We generally make awards only on pre-determined dates to ensure that awards cannot be timed to take advantage of material non-public information.

Equity awards may be made only by the Compensation Committee. The Compensation Committee makes awards only at Committee meetings and awards are generally not effective in trading blackout periods (the period encompassing ten days prior to the end of each fiscal quarter through 48 hours after the earnings for that quarter are announced).

Stock Ownership Guidelines

In January 2018, our Board of Directors adopted revised stock ownership guidelines for our senior executive officers, including our named executive officers. These guidelines provide for the Chief Executive Officer to hold an amount of our common stock, restricted shares, stock options and/or earned performance shares having a value equal to at least three times his or her base salary. For other senior executive officers, the stock ownership requirement is at least one times his or her base salary. Executive officers have five years to attain the applicable ownership threshold.

Compensation Recovery Policy

We have adopted a clawback policy providing that in the event of a material restatement of financial statements triggered by executive-level misconduct, we may require that the bonuses and other incentive compensation paid to that executive be forfeited. The amount of incentive compensation subject to recovery would be the amount in excess of what the executive officer would have earned in accordance with the restatement, as determined by the Compensation Committee.

Hedging and Pledging Policy

Our policies explicitly prohibit our directors and executive officers from “hedging” their ownership by engaging in short sales or trading in any derivatives involving our securities. Our policies also prohibit our directors and executive officers from “pledging” their ownership by holding our stock in a margin account or pledging our stock as collateral for a loan.

Tax and Accounting Considerations and Compensation Recovery Policies

Deductibility of Executive Compensation. Through fiscal 2017, Section 162(m) of the Internal Revenue Code placed a limit of \$1 million on the amount of compensation that public companies may deduct in any one year with respect to certain of their named executive officers. Through fiscal 2017, certain performance-based compensation approved by stockholders was not subject to this deduction limit. The Compensation Committee’s strategy in this regard has been to be cost and tax effective by preserving corporate tax deductions, while maintaining the flexibility to approve arrangements that it deemed to be in our best interests and the best interests of our stockholders where we paid compensation to our executive officers that was not deductible. We believe that the cost associated with these arrangements was justified by the incentive and retention value provided by the award.

Section 409A of the Internal Revenue Code. Section 409A of the Internal Revenue Code imposes additional significant taxes in the event that an executive officer, director or service provider receives “deferred compensation” that does not satisfy the requirements of Section 409A. Our severance and change in control agreements described below, including the Employee Retention and Motivation Agreements we entered into with our named executive officers, contain provisions that are intended

to either avoid the application of Section 409A or, to the extent doing so is not possible, comply with the applicable Section 409A requirements. The Compensation Committee has the sole discretion to change the severance guidelines applicable to executive officers to the extent necessary to avoid the application of Section 409A or comply with applicable Section 409A requirements.

Accounting for Stock-Based Compensation. Stock-based compensation expense reflects the fair value of stock-based awards measured at the grant date and recognized over the relevant service period. We estimate the fair value of each stock-based award on the measurement date using either the current market price of the stock, the Black-Scholes option valuation model, or the Monte Carlo Simulation valuation model.

Compensation Committee Interlocks and Insider Participation

The members of our Compensation Committee during 2017 were Messrs. Egan (until June 2017), Gawlick (from and after June 2017), Kane, and Krall. Messrs. Egan, Gawlick, Kane, and Krall are not, nor have they ever been, an officer or employee of our company or of any of its subsidiaries, or had any relationship with us requiring disclosure in this proxy statement. There are no compensation committee interlocks amongst any of our directors.

Analysis of Risk Associated with Our Compensation Plans

In setting compensation, the Compensation Committee considers the risks to our stockholders and to the achievement of our goals that may be inherent in the compensation plans and programs for all employees, including our executives. When evaluating our executive compensation program, the Compensation Committee considers whether the program is based on the appropriate philosophy, benchmarked against the appropriate peer group and balanced between long and short-term performance targets, company and individual performance. Although a significant portion of our executives' compensation is performance-based and "at-risk," we believe our compensation plans and programs are appropriately structured so as not to encourage our employees to take excessive or unreasonable risks.

We considered the following elements of our compensation plans and policies when evaluating whether such plans and policies are structured to encourage our employees to take unreasonable risks:

- A detailed planning process with executive or Compensation Committee oversight exists for all compensation programs.

- The proportion of an employee's performance-based pay increases as the responsibility and potential impact of the employee's position increases, which structure is in line with market practices.

- Compensation consists of both fixed and variable components. The fixed portion (i.e., base salary) and variable portion (i.e., performance-based bonus and equity awards) provide a mix of compensation intended to produce corporate performance without encouraging excessive risks.

- We set performance goals that we believe are aggressive and consistent with building long-term stockholder value.

- We use consistent corporate performance metrics from year-to-year rather than changing the metric to take advantage of changing market conditions.

- Our short-term incentive plans are capped as to the maximum potential payout, which we believe mitigates excessive risk taking by limiting bonus payments even if we dramatically exceed the performance targets.

- The time-based vesting for RSUs and stock options ensures that our executives' interests align with those of our stockholders for the long-term performance of our company.

- Assuming achievement of at least a minimum level of performance, payouts under our performance-based plans result in some compensation at levels below full target achievement, rather than an "all-or-nothing" approach.

- In accordance with our written stock option grant policy, all equity grants must occur at a meeting of the Compensation Committee and management has no authority to issue equity.

- The Compensation Committee retains and does not delegate any of its power to determine matters of executive compensation.

- We maintain a system of controls and procedures designed to ensure that amounts are earned and paid in accordance with our plans and programs.

- We do not allow our executives and directors to hedge their exposure to ownership of, or interest in, our stock. We also do not allow them to engage in speculative transactions with respect to our stock.

Summary of Executive Compensation

The following table sets forth certain information with respect to compensation for the fiscal years ended November 30, 2017 and 2016, earned by:

(a) Mr. Gupta;

These amounts do not reflect the actual economic value realized by the named executive officer. In accordance with FASB ASC Topic 718, we estimate the fair value of each stock-based award on the measurement date using (1) either the current market price of the stock or the Monte Carlo Simulation valuation model, assuming the probable outcome of related performance conditions at target levels. See the description of our 2017 Annual Equity Program described in “Compensation Discussion and Analysis” in this proxy statement.

Represents the grant date fair value of options on the date of grant. The grant date fair value of our options is equal to the number of shares subject to the option multiplied by the fair value of our options on the date of grant (2) determined using the Black-Scholes option valuation model. The methodology and assumptions used to calculate the Black-Scholes value of our options are described in Note 11 of the consolidated financial statements contained in our Annual Report.

The amounts listed reflect the amounts earned under our Corporate Bonus Plan as described in “Compensation Discussion and Analysis” in this proxy statement. For all individuals, bonus payments were accrued and earned in the year indicated and paid in the succeeding fiscal year.

(1) These columns indicate the range of payouts (25%, 100% and 150%) targeted for fiscal 2017 performance under our Corporate Bonus Plan as described in “Compensation Discussion and Analysis” in this proxy statement. The actual payout with respect to fiscal 2017 for each named executive officer is shown in the Summary Compensation Table in the column titled “Non-Equity Incentive Plan Compensation.” Mr. Ainsworth, Ms. Jarrett and Mr. Tcherevik were eligible for a pro-rated bonus payout based on their dates of hire. Mr. Abkemeier’s employment terminated prior to the end of fiscal 2017 and, therefore, he was not eligible for a bonus payout.

The second row of these columns with respect to each named executive officer represents performance share units awarded under our Long-Term Incentive Plan. These columns show the performance share units that could be earned at threshold, target and maximum levels of performance. If we do not achieve the threshold performance (2) metric, no performance share units will be earned. Because the LTIP is based on a three-year performance period, none of the performance share units will be earnable until the performance period closes following our 2019 fiscal year. See “Compensation Discussion and Analysis” section of this proxy statement for additional discussion of the LTIP.

Except as described in the next sentence, represents RSUs that vest, so long as the executive continues to be (3) employed with us, in six equal installments over three years beginning approximately six months after date of issuance. In the case of Mr. Jalbert, 34,424 of the RSUs shown vest on the third anniversary of the date of grant, subject to his continued employment on that date.

(4) Represents stock options that vest, so long as the executive continues to be employed with us, in eight equal installments over four years beginning approximately six months after date of issuance.

(5) Represents the grant date fair value of the award, which, in the case of RSUs, is equal to the number of RSUs granted multiplied by the closing price of our stock on the grant date. In the case of LTIP PSUs, the grant date fair value is equal to

the number of PSUs granted at target performance multiplied by the closing price of our stock on the date awarded. In the case of stock options, the grant date fair value is equal to the number of shares subject to the option multiplied by the fair value of our options on the date of grant determined using the Black-Scholes option valuation model. The methodology and assumptions used to calculate the Black-Scholes value of our options are described in Note 11 of the consolidated financial statements contained in our Annual Report.

The closing price of our stock on (i) February 17, 2017 was \$29.25, (ii) February 23, 2017 was \$28.98, (iii) March 31, 2017 was \$29.05, and (iv) June 30, 2017 was \$30.89.

Narrative Summary to Summary Compensation Table and Grants of Plan-Based Awards in 2017 Table

The material terms of our named executive officers' annual compensation, including base salaries, cash incentive plan, time-based RSUs, stock options and Long-Term Incentive Plan PSUs and the explanations of the amounts of salary, cash incentives, and equity values in proportion to total compensation are described under "Compensation Discussion and Analysis" in this proxy statement.

As discussed in greater detail in "Compensation Discussion and Analysis" in this proxy statement, the 2017 non-equity incentive awards were granted pursuant to the Fiscal 2017 Corporate Bonus Plan, with amounts to be earned based on the achievement of certain financial targets. In fiscal 2017, our financial performance during fiscal 2017 exceeded our expectations with respect to two of the three metrics under the bonus plan, which resulted in a cumulative level of performance under the plan of 115%. Mr. Ainsworth, Ms. Jarrett and Mr. Tcherevik earned a pro-rated bonus payout based on their dates of hire. Mr. Abkemeier's employment terminated prior to the end of fiscal 2017 and, therefore, he was not eligible for a bonus payout.

As discussed in greater detail in "Compensation Discussion and Analysis" in this proxy statement, the PSUs awarded under the Long-Term Incentive Plan will be earned based on the results achieved during the three year performance period as determined following our 2019 fiscal year, contingent upon each named executive officer's continued service.

Except as stated in Note 3, the RSUs granted to our named executive officers in 2017 vest in equal installments every six months over three years, subject to continued employment. There is no purchase price associated with performance share or RSU awards. The stock options granted to our named executive officers in 2017 vest in equal installments every six months over four years, subject to continued employment. The stock options have an exercise price equal to the closing price of our common stock on the date of grant.

The following table sets forth certain information with respect to the outstanding equity awards at November 30, 2017 for each of the named executive officers.

(1) The unvested shares shown in this column are RSU awards that are subject to time-based vesting and PSU awards that are subject to performance-based and time-based vesting.

(2) The market value of unvested RSUs and PSUs was calculated as of November 30, 2017 based on closing price of our common stock on NASDAQ of \$41.34 on that date.

(3) Mr. Abkemeier's employment terminated on March 24, 2017 and all unvested RSU and PSU awards terminated as of that date.

Option Exercises and Stock Vested

The following table sets forth certain information regarding the number of stock options exercised and RSUs that vested in the fiscal year ended November 30, 2017 under our equity incentive plans and the corresponding amounts realized by the named executive officers. The value realized on exercise for stock option awards is calculated as the difference between the closing price of our common stock on the NASDAQ Global Select Market on the exercise date and the exercise price of the applicable stock option award. The value realized on vesting for RSUs is calculated as the product of the number of shares subject to the RSUs that vested and the closing price of our common stock on the NASDAQ Global Select Market on the vesting date.

Severance and Change in Control Agreements

We have agreements with, or guidelines applicable to, our executive officers that provide the benefits described below in connection with certain terminations of employment or a change in control of our company. We do not provide excise tax gross-ups to our executive officers under these or any other agreements.

Mr. Gupta's Executive Employment Agreement

In connection with his appointment as our President and Chief Executive Officer, we and Mr. Gupta entered into an employment agreement, effective as of October 10, 2016, setting forth Mr. Gupta's compensation and certain other terms. Mr. Gupta's employment agreement provides that if his employment is terminated because of an "involuntary termination," he will be entitled to:

- the payment of cash severance equal to 18 months of total target cash compensation as of the date of termination, which will be paid over 18 months;
- the continuation, for a period of 18 months, of benefits that are substantially equivalent to the benefits (medical, dental, and vision) that were in effect immediately prior to termination; and
- 18 months of acceleration of unvested stock options and RSUs (but not unvested performance equity).

Receipt of the severance and benefits is subject to the execution of a standard separation and release agreement. Separation payments upon any involuntary termination within twenty-four months following a change in control would be

governed by the Employee Retention and Motivation Agreement described below and not by Mr. Gupta's employment agreement.

An "involuntary termination" is defined in the employment agreement as a termination of employment by us other than for cause, disability or death or a termination by Mr. Gupta as a result of certain events occurring without his consent such as an assignment to him of duties, a significant reduction of his duties, either of which is materially inconsistent with his position prior to the assignment or reduction, or the removal of Mr. Gupta from that position, a material reduction in Mr. Gupta base salary or target bonus, a relocation of Mr. Gupta to a facility or location more than fifty miles from his then present location, or a material breach of the employment agreement by us.

Mr. Gupta's employment agreement also includes non-competition and related covenants. The non-competition covenant will be in effect for the duration of the period in which severance and other benefits are paid. The non-competition covenant relates to certain businesses with similar product areas and activities as our company.

Mr. Gupta's Employee Retention and Motivation Agreement

We and Mr. Gupta have also entered into an Employee Retention and Motivation Agreement ("Gupta ERMA"), which provides certain compensation and benefits if his employment is involuntarily terminated within 24 months of a change in control of our company. If an involuntary termination of Mr. Gupta's employment occurs under other circumstances, the severance terms of his employment agreement, as described above, would control and not the Gupta ERMA.

Change in Control Benefits. Under the Gupta ERMA, upon a change in control of our company, Mr. Gupta would be entitled to:

- the payment of his annual target cash bonus on a pro-rata basis with respect to the elapsed part of the relevant fiscal year;

- accelerated vesting of all unvested stock options and RSUs, unless the acquirer assumes all such options and restricted equity. If such outstanding stock options and shares of restricted equity held by Mr. Gupta are continued by us or assumed by our successor entity, then vesting will continue in its usual course; and

- accelerated determination of PSUs earned under outstanding LTIPs, unless the acquirer assumes such LTIPs. Upon the change in control, our Compensation Committee will determine the number of PSUs that are eligible to be earned based on the actual attainment of relative total stockholder return as of the change in control. Those PSUs determined to be earned will not become fully vested until the conclusion of the original three-year performance period, subject to the continued employment of Mr. Gupta through such date.

Involuntary Termination Following Change in Control. In the event of an involuntary termination within twenty-four (24) months following a change in control, Mr. Gupta would be entitled to:

- the payment of cash severance equal to 24 months of total target cash compensation as of the date of termination, which will be paid over 24 months;

- the continuation, for a period of 24 months, of benefits that are substantially equivalent to the benefits (medical, dental, and vision) that were in effect immediately prior to termination;

- accelerated vesting of all unvested stock options and RSUs; and

- accelerated payout of PSUs determined to be earned under LTIPs outstanding as of the change in control.

In the event that any amounts provided for under the Gupta ERMA or otherwise payable to Mr. Gupta would

constitute “parachute payments” within the meaning of Section 280G of the Internal Revenue Code and be subject to the related excise tax, Mr. Gupta would be entitled to receive either full payment of the benefits under the agreement or such lesser amount which would result in no portion of the benefits being subject to the excise tax, whichever results in the greatest amount of after-tax benefits to Mr. Gupta.

Mr. Jalbert’s Executive Employment Agreement

In connection with his appointment as our Chief Financial Officer, we and Mr. Jalbert entered into an employment agreement, effective as of March 24, 2017, setting forth Mr. Jalbert’s compensation and certain other terms. Mr. Jalbert’s employment agreement provides that in the event that his employment is terminated as a result of an “involuntary termination,” he will be entitled to:

• the payment of cash severance equal to 12 months of total target cash compensation as of the date of termination, which will be paid over 12 months;

• the continuation, for a period of 12 months, of benefits that are substantially equivalent to the benefits (medical, dental, and vision) that were in effect immediately prior to termination;

• 12 months of acceleration of unvested stock options and RSUs (but not unvested performance equity); and

• one-fourth acceleration of Mr. Jalbert’s special RSU award, if the termination occurs prior to March 24, 2018 and

• one-half acceleration of Mr. Jalbert’s special RSU award, if the termination occurs after March 24, 2018 but prior to March 24, 2019.

Receipt of the severance and benefits is subject to the execution of a standard separation and release agreement.

Separation payments upon any involuntary termination within twelve months following a change in control would be governed by the Employee Retention and Motivation Agreement described below and not by Mr. Jalbert’s employment agreement.

An “involuntary termination” is defined in the employment agreement as a termination of employment by us other than for cause, disability or death or a termination by Mr. Jalbert as a result of certain events occurring without his consent such as an assignment to him of duties, a significant reduction of his duties, either of which is materially inconsistent with his position prior to the assignment or reduction, or the removal of Mr. Jalbert from that position, a material reduction in Mr. Jalbert’s base salary or target bonus, a relocation of Mr. Jalbert to a facility or location more than fifty miles from his then present location, or a material breach of the employment agreement by us.

Mr. Jalbert’s employment agreement also includes non-competition and related covenants. The non-competition covenant will be in effect for the duration of the period in which severance and other benefits are paid. The non-competition covenant relates to certain businesses with similar product areas and activities as our company.

Mr. Abkemeier’s Executive Employment Agreement

In connection with his appointment as our Chief Financial Officer, we and Mr. Abkemeier entered into an employment agreement, effective as of September 28, 2016, setting forth Mr. Abkemeier’s compensation and certain other terms. The terms of Mr. Abkemeier’s employment agreement are substantially identical to the terms of Mr. Jalbert’s employment agreement except that, upon an involuntary termination of employment, one-third of Mr. Abkemeier’s special RSU award would occur, if the termination occurred prior to September 28, 2017, and two-thirds of Mr. Abkemeier’s special RSU award would occur, if the termination occurs after September 28, 2017 but prior to September 28, 2018.

On March 24, 2017, we terminated Mr. Abkemeier’s employment. In connection with his termination, we entered into

a separation and release agreement with Mr. Abkemeier and provided him with the severance and other benefits in accordance with his employment agreement as described above.

Executive Severance Guidelines

We have adopted severance guidelines applicable to our executive officers, including the named executive officers other than Messrs. Gupta and Jalbert. Any severance payable to Messrs. Gupta and Jalbert is governed by the employment agreements described above. Our executive severance guidelines provide that upon an involuntary termination and the execution of a standard release of claims, an executive officer is entitled to:

• the payment of cash severance equal to 12 months of total target cash compensation as of the date of termination, which will be paid over 12 months;

• the continuation, for a period of 12 months, of benefits that are substantially equivalent to the benefits (medical, dental, and vision) that were in effect immediately prior to termination; and

• 12 months of acceleration of unvested stock options and RSUs (but not unvested performance equity).

Severance payments and benefits upon any involuntary termination within 12 months following a change in control are governed by the Employee Retention and Motivation Agreement described below.

The payment of severance and other benefits is conditioned upon the executive agreeing to non-competition, non-disparagement and related covenants. The non-competition covenant would be in effect for one year following the termination of employment. In connection with the termination of employment of an executive officer, all PSUs awarded to that executive officer relating to annual performance or under our Long-Term Incentive Plan are canceled.

Other Employee Retention and Motivation Agreements

We have entered into an ERMA with each of our other named executive officers. Each agreement is substantially identical to the Gupta ERMA except that upon the involuntary termination of the executive officer within 12 months following a change of control, the executive officer will be entitled to receive a lump sum payment equal to 15 months of his total target compensation and his benefits will continue for 15 months. Mr. Jalbert's ERMA contains the same terms with respect to accelerated vesting upon a change in control as the Gupta ERMA. For all ERMAs entered into after October 2014 (other than Mr. Gupta's), accelerated vesting upon a change in control is limited to twelve months of accelerated vesting. Under no circumstances would any of our executive officers be entitled to a gross-up payment under the ERMAs for any excise taxes to which he or she may be subject if any of the above payments and benefits are considered to be "parachute payments."

Estimate of Severance and Change in Control Benefits

The following table indicates the estimated payments and benefits that each of Messrs. Gupta, Jalbert, Ainsworth and Tcherevik and Ms. Jarrett would have received under (a) their respective employment agreements, in the case of Messrs. Gupta and Jalbert, (b) our severance guidelines applicable to executive officers, in the case of Messrs. Ainsworth and Tcherevik and Ms. Jarrett, and (c) their respective ERMAs, assuming that the change of control of our company and/or termination of his employment occurred at November 30, 2017.

Mr. Abkemeier's employment terminated on March 24, 2017 and we provided him the severance benefits described above. As a result, we have omitted Mr. Abkemeier from the table below.

These amounts are estimates only and do not necessarily reflect the actual amounts that would be paid to the named executive officer, which would only be known at the time that he becomes entitled to such payment.

(1) The amounts shown in the first column, with respect to stock options and RSUs, represent the value of certain unvested options and RSUs becoming fully vested and are calculated using the exercise price for each unvested stock option and the closing price of our common stock on November 30, 2017, which was \$41.34. In the event of

an Involuntary Termination, all unvested performance share units awarded to an individual under our Long-Term Incentive Plan are canceled.

In the event of a change in control, there is no accelerated vesting of options or RSUs provided that the acquirer assumes all existing, outstanding stock options and RSUs of the individual. These tables have been prepared under that assumption. However, if the acquirer does not assume all existing, outstanding stock options and RSUs of the (2) individual, all unvested stock options and RSUs become fully vested and the value indicated in the third column would apply upon a change in control. The amounts shown in the third column are calculated using the exercise price for each unvested stock option and the closing price of our common stock on November 30, 2017, which was \$41.34. For purposes of computing amounts

-77-

attributable to accelerated vesting, the second and third columns exclude all unvested performance share units awarded under our Long-Term Incentive Plan as those amounts are undeterminable.

(3) Represents the estimated value (based on the cost as of November 30, 2017) of continuing benefits (medical, dental, and vision) for:

- 18 months in the case of an involuntary termination of Mr. Gupta's employment, 24 months in the case of an involuntary termination in connection with a change in control;
- 12 months in the case of an involuntary termination of employment of Messrs. Jalbert, Ainsworth and Tcherevik and Ms. Jarrett, other than in connection with a change in control; and
- 15 months, in the case of an involuntary termination in connection with a change in control with respect to Messrs. Jalbert, Ainsworth and Tcherevik and Ms. Jarrett.

INFORMATION ABOUT PROGRESS SOFTWARE COMMON STOCK OWNERSHIP

The following table sets forth certain information regarding beneficial ownership as of April 2, 2018:

- by each person who is known by us to beneficially own more than 5% of the outstanding shares of our common stock;
- by each of our directors and nominees for the Board of Directors;
- by each of our named executive officers and
- by all of our directors and executive officers as a group.

We have determined beneficial ownership in accordance with the rules of the SEC. Under such rules, beneficial ownership includes any shares over which the individual has sole or shared voting power or investment power as well as any shares that the individual has the right to acquire within 60 days of April 2, 2018 through the exercise of any stock option, warrants or other rights.

Shares of our common stock subject to options that are currently vested or exercisable or that will become vested or exercisable within 60 days of April 2, 2018, as well as restricted stock units or deferred stock units that vest within 60 days of April 2, 2018, are deemed to be beneficially owned by the person holding such securities for the purpose of computing the percentage of ownership of such person but are not treated as outstanding for the purpose of computing the percentage of any other person.

We have adopted two equity compensation plans, the 2002 Nonqualified Stock Plan and the 2004 Inducement Stock Plan, for which the approval of stockholders was not required. We intend that the 2004 Inducement Stock Plan be reserved for persons to whom we may issue securities as an inducement to become employed by us pursuant to the rules and regulations of NASDAQ. Executive officers and members of the Board of Directors are not eligible for awards under the 2002 Nonqualified Stock Plan. Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors, executive officers, and holders of more than 10% of our common stock to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock. These reporting persons are required by regulations of the SEC to furnish us with copies of all such filings. Based solely on a review of the copies of such forms that we have received, and on written representations from certain reporting persons, we believe that, with respect to the fiscal year ended November 30, 2017, our directors, officers, and 10% stockholders complied with all applicable Section 16(a) filing requirements, with the exceptions noted below.

Due to administrative error:

- a late Form 4 report was filed for Dimitre Taslakov on December 6, 2016 to report three transactions;
- late Form 3 reports were filed for each of Paul T. Dacier and Rainer Gawlick on April 16, 2018; and
- late Form 4 reports were filed for each of Paul T. Dacier and Rainer Gawlick on April 16, 2018 to report three transactions each.

OTHER MATTERS

Our Board of Directors knows of no other matters to be brought before the Annual Meeting. If any other matters are properly brought before the Annual Meeting, the persons appointed as proxies for the meeting intend to vote the shares represented by that proxy in accordance with their best judgment on such matters.

PROPOSALS OF STOCKHOLDERS FOR 2019 ANNUAL MEETING

Proposals of stockholders intended to be presented at the 2019 Annual Meeting must, in order to be included in our proxy statement and the form of proxy for the 2019 Annual Meeting, be received at our principal executive offices by December 18, 2018.

Under our Bylaws, any stockholder intending to present any proposal (other than a proposal made by, or at the direction of, our Board of Directors) at the 2019 Annual Meeting, must give written notice of that proposal (including certain information about any nominee or matter proposed and the proposing stockholder) to our Secretary not later than the close of business on the 90th day (February 18, 2019) nor earlier than the close of business on the 120th day (January 17, 2019) prior to the first anniversary of the preceding year's Annual Meeting. However, in the event that the date of the Annual Meeting is advanced by more than 30 days before or delayed by more than 30 days after that anniversary date, the notice must be delivered not earlier than the close of business on the 120th day prior to the Annual Meeting and not later than the close of business on the later of the 90th day prior to the Annual Meeting or the 10th day following the day on which public announcement of the date of the meeting is first made.

EXPENSES OF SOLICITATION

We will bear the cost of solicitation of proxies. In addition to soliciting stockholders by mail, we will reimburse banks, brokers and other custodians, nominees and fiduciaries for their reasonable out-of-pocket costs in forwarding proxy materials to the beneficial owners of shares held of record by them. Our directors, officers and regular employees may, without additional compensation, solicit stockholders in person or by mail, telephone, facsimile, or otherwise following the original solicitation. We may engage a proxy solicitation firm in connection with the Annual Meeting, in which case, the fees and expenses associated with any such proxy solicitation firm will be paid by us.

(1) Acquisition-related revenue constitutes revenue reflected as pre-acquisition deferred revenue that would otherwise have been recognized but for the purchase accounting treatment of acquisitions. Since GAAP accounting requires the elimination of this revenue, GAAP results alone do not fully capture all of our economic activities. Note that acquisition-related revenue adjustments relate to Progress' OpenEdge and Application Development and Deployment business segments for Kinvey and Telerik, respectively.

(2) Stock-based compensation is included in the GAAP statements of income, as follows:
