Item 7.01 Regulation FD Disclosure

Following the filing of its Quarterly Report on Form 10-Q for the quarter ended June 30, 2008, Express Scripts, Inc. (the "Company") received notice of a change in the status of a litigation matter involving the Company, as follows:

Multi-District Litigation (Minshew v. Express Scripts (Case No.Civ.4:02-CV-1503, United States District Court for the Eastern District of Missouri) (filed December 12, 2001); New England Health Care Employees Welfare Fund v. Express Scripts, Inc. (Case No.4:05-cv-1081, United States District Court for the Eastern District of Missouri) (filed October 28, 2004)) -- On July 30, 2008, the plaintiffs' motion for class certification of the ERISA plans was denied by the Court in its entirety. Additionally, the Company's motion for partial summary judgment on the issue of our ERISA fiduciary status was granted in part. The Court found that the Company was not a fiduciary with respect to MAC (generic drug) pricing, selecting the source for AWP (Average Wholesale Price) pricing, establishing formularies and negotiating rebates, or interest earned on rebates before the payment of the contracted client share. The Court found that the Company was an ERISA fiduciary only with respect to the payment of certain monies under a therapeutic substitution program called "Optimed" originally implemented by ValueRx and no longer operated by the Company.
