Corporate Governance

FranklinCovey upholds a set of basic values and principles to guide our actions and we are committed to maintaining the highest standards of business conduct and corporate governance. Our emphasis on corporate governance begins at the top, with our directors, who are elected by, and are accountable to you, our shareholders. This commitment to governance extends to our management team and to all of our employees. We have adopted a Code of Business Conduct and Ethics for our directors, officers, and senior financial officers that include the Chief Executive Officer (CEO) and Chief Financial Officer (CFO) and other members of our financial leadership team. The Corporate Governance Guidelines and Code of Business Conduct and Ethics are available on our website at www.franklincovey.com. In addition, each of the Corporate Governance Guidelines and the Code of Business Conduct and Ethics are available in print free of charge to any shareholder by making a written request to Investor Relations, Franklin Covey Co., 2200 West Parkway Boulevard, Salt Lake City, Utah 84119-2331. The Code of Business Conduct and Ethics applies to all directors, officers, and employees of FranklinCovey.

A feature of our corporate governance is that our standing committees are comprised of independent directors, as discussed below. We believe this structure allows for a collective focus by the majority of our independent directors on the various complex matters that come before Board committees. The overlap inherent in this structure assists these independent directors in the execution of their responsibilities.

Board Oversight

Our Board is responsible for and committed to the independent oversight of the business and affairs of our Company, including financial performance, CEO performance, succession planning, strategy, risk management, and compensation. In carrying out this responsibility, our Board advises our CEO and other members of our senior management team to help drive success for our clients and long-term value creation for our shareholders.

Affirmative Determination Regarding Board Independence

The Board of Directors has determined each of the following directors to be an “independent director” under the listing standards of the New York Stock Exchange (NYSE): Clayton M. Christensen, Robert H. Daines, Michael Fung, E.J. “Jake” Garn, Dennis G. Heiner, Donald J. McNamara, and E. Kay Stepp.

In assessing the independence of the directors, the Board of Directors determines whether or not any director has a material relationship with us (either directly, or as a partner, shareholder, or officer of an organization that has a relationship with us). The Board of Directors considers all relevant facts and circumstances in making independence determinations, including the director independence standards adopted by the Board of Directors and the existence of related party transactions as described in the section entitled “Certain Relationships and Related Transactions” found in this report.

Board Leadership Structure

Under our current leadership structure, we have a combined position of Chairman and CEO and an independent director serving as a Lead Independent Director. The Board of Directors does not have a policy on whether the roles of Chairman and CEO should be separate or combined. Our Board

assesses these roles and deliberates the merits of its leadership structure to ensure that the most efficient and appropriate structure is in place. In addition, our Board has determined that if the Chairman is not an independent director, then there should also be a Lead Independent Director.

Our Board believes that combining the roles of Chairman and CEO is currently the most effective leadership structure for our Company. Combining these roles ensures that our Company has a single leader who speaks with one voice to our shareholders, clients, employees, regulators, other stakeholders, and to the broader public. Our current CEO, Mr. Whitman, has significant knowledge of, and experience in, our business, industry, operations, and risks, which affords him the insight necessary to guide discussions at Board meetings. Mr. Whitman also provides our Board with updates on significant business developments and other time-sensitive matters.

As CEO, Mr. Whitman is directly accountable to our Board and, through our Board, to our shareholders. His role as Chairman is both counterbalanced and enhanced by the overall independence of the Board and independent leadership provided by our Lead Independent Director, Mr. Heiner. Mr. Heiner, as Chairman of our Nominating and Governance Committee, was designated as the Lead Independent Director by our Board. Our independent directors may elect another independent director as Lead Independent Director at any time. Mr. Whitman and Mr. Heiner meet and speak frequently regarding our Board and our Company.

The Board of Director's Role in Risk Management Oversight

The Audit Committee of our Board of Directors has responsibility for the oversight of risk management, while the management team is responsible for the day-to-day risk management process. With the oversight of the Board of Directors, management has developed an enterprise risk management strategy, whereby management identifies the top individual risks that we face with respect to our business, operations, strategy, and other factors that were recognized after discussions with key business and functional leaders and reviews of external information. In addition to evaluating various key risks, management identifies ways to manage and mitigate such risks. During fiscal 2013, management met with the Audit Committee to discuss the identified risks and the efforts that are designed to mitigate and manage these risks. These risks are allocated to the various committees of the Board of Directors to allow the committees to examine a particular risk in detail and assess its potential impact to our operations. For example, the Audit Committee reviews compliance and risk management processes and practices related to accounting and financial reporting matters; the Nominating Committee reviews the risks related to succession planning and the independence of the Board of Directors; and the Compensation Committee reviews the risks related to our various compensation plans. In the event that a committee is allocated responsibility for examining and analyzing a specific risk, such committee reports on the relevant risk exposure during its regular reports to the entire Board of Directors.

As part of its responsibilities, the Compensation Committee periodically reviews our compensation policies and programs to ensure that the compensation programs offer appropriate performance incentives for employees, including executive officers, while mitigating excessive risk taking. We believe that our various compensation programs contain provisions that discourage excessive risk taking. These provisions include:

- An appropriate balance between annual cash compensation and equity compensation that may be earned over several years.
 - Metrics that are weighted between the achievement of overall financial goals and individual objectives.
- Stock ownership guidelines that encourage executive officers to accumulate meaningful levels of equity ownership, which align the interests of executives with those of long-term shareholders.

Based on a review of the nature of our operations by the Compensation Committee, we do not believe that any areas of the Company are incented to take excessive risks that would likely have a material adverse effect on our operations.

BOARD OF DIRECTOR MEETINGS AND COMMITTEES

Overview

During the fiscal year ended August 31, 2013, there were four meetings held by our Board of Directors. All of the members of our Board of Directors were able to attend at least 75 percent of the Board and committee meetings for which they were entitled to participate, except for Dr. Clayton M. Christensen who is continuing to recover from serious health-related issues. Although Dr. Christensen was unable to attend some formal Board meetings due to health issues, Dr. Christensen frequently advises the Company and our CEO on strategic issues and prepared for and lead our Board in its annual strategy session during fiscal 2013. During fiscal 2013, Dr. Christensen was able to attend 50 percent of our board meetings. Although we encourage Board members to attend our Annual Meeting, we do not have a formal policy regarding director attendance at our annual shareholder meetings. Eight members of our Board of Directors attended our most recent annual meeting of shareholders, which was held in January 2013.

Our Lead Independent Director plays an active role on our Board of Directors. Mr. Heiner reviews the agenda, schedule, and materials for each Board and Nominating Committee meeting and presides over executive sessions of the independent directors. Any independent director may call for an executive session and suggest agenda items for Board or committee meetings.

The following table shows the current membership of each of our committees.

The Audit Committee

The Audit Committee functions on behalf of the Board of Directors in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (the Exchange Act), and met eight times during the fiscal year ended August 31, 2013. The Audit Committee's primary functions are to:

- assist our Board in its oversight of our financial statements, legal and regulatory compliance, independent auditors' qualification, independence, and performance, internal audit function performance, and internal control over financial reporting;
 - decide whether to appoint, retain, or terminate our independent auditors;

- pre-approve all audit, audit-related, tax, and other services, if any, to be provided by the independent auditors; and
 - prepare the Audit Committee Report.

The audit committee is chaired by Mr. Fung and each of the members of the Audit Committee is independent as described under NYSE rules. The Board of Directors has determined that two of the Audit Committee members, Robert H. Daines and Michael Fung, are “financial experts” as defined in Item 407(d)(5)(ii) of Regulation S-K.

The Nominating Committee

The Corporate Governance and Nominating Committee (the Nominating Committee) is chaired by Mr. Heiner and met four times during fiscal 2013. The primary purposes of the Nominating Committee are to:

- recommend individuals for nomination, election, or appointment as members of our Board and its committees;
 - oversee the evaluation of the performance of our Board and its committees and our management;
 - ensure that our committees are comprised of qualified and experienced independent directors;
 - review and concur in the succession plans for our CEO and other members of senior management; and
- take a leadership role in shaping our corporate governance, including developing, recommending to the Board, and reviewing on an ongoing basis the corporate governance principles and practices that apply to our Company.

In carrying out the responsibilities of the Nominating Committee, Mr. Heiner frequently met or had discussions with our CEO during the fiscal year. All of the members of the Nominating Committee are “independent” as defined under NYSE rules.

The Compensation Committee

We are in a business that relies heavily on our people for our competitive advantage. As a result, our Organization and Compensation Committee (the Compensation Committee) plays a pivotal role in enabling us to attract and retain the best talent.

The Compensation Committee is chaired by Ms. Stepp and regularly met without any employees present to discuss executive compensation matters, including Mr. Whitman’s compensation package during fiscal 2013. The primary functions of the Compensation Committee are to:

- determine and approve the compensation of our CEO and other executive officers;
- review and make recommendations to the Board for any incentive compensation and equity-based plans that are subject to Board approval;

- assist our Board in its oversight of the development, implementation, and effectiveness of our policies and strategies relating to our human capital management, including recruiting, retention, career development and progression, diversity and employment practices;
- review management development plans and succession plans to ensure business continuity (other than that within the purview of the Nominating Committee); and
 - provide risk oversight of all Company compensation plans.

The Compensation Committee met five times during fiscal 2013. All of the Compensation Committee members are “independent” as defined under NYSE rules. As described below in “Compensation Committee Interlocks and Insider Participation” and “Certain Relationships and Related Transactions,” none of the Compensation Committee members had any material business relationships with the Company.

The Compensation Committee administers all elements of our executive compensation program, including our stock-based long-term incentive plans. In consultation with the Compensation Committee, Mr. Whitman annually reviews and establishes compensation for the other Named Executive Officers (as defined below). The Compensation Committee reports quarterly to the full Board on decisions related to the executive compensation program.

Compensation Consultants

Within its charter, the Compensation Committee has the authority to engage the services of outside advisors, experts, and others to assist the committee. During fiscal 2013 the Compensation Committee engaged Mercer as compensation consultants. These compensation consultants provided information to the Compensation Committee regarding share-based compensation plans, executive compensation, and director compensation that were used as components of the overall mix of information used to evaluate our compensation plans. The Compensation Committee reviewed its relationship with Mercer and has determined that their work has not raised any conflicts of interest. Further information regarding the role of these compensation consultants can be found in the Compensation Discussion and Analysis.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee was or is an officer or employee of the Company or any of our subsidiaries.

Director Nomination Process

As indicated above, the Nominating Committee of the Board of Directors oversees the director nomination process. The Nominating Committee is responsible for identifying and evaluating candidates for membership on the Board of Directors and recommending to the Board of Directors nominees to stand for election. Each candidate to serve on the Board of Directors must be able to fulfill the responsibilities for directors set out in the Corporate Governance Guidelines approved by the Board of Directors. These Corporate Governance Guidelines may be found on our website at www.franklincovey.com. In addition to the qualifications set forth in the Corporate Governance Guidelines, nominees for director will be selected on the basis of such attributes as their integrity, experience, achievements, judgment, intelligence, personal character, ability to make independent analytical inquiries, willingness to devote adequate time to Board duties, and the likelihood that he or she will be able to serve on the Board for a sustained period. In connection with the selection of nominees for director, consideration will be given to the Board’s overall balance of diversity of perspectives, backgrounds, and experiences. We believe it is important to have an

appropriate mix

11

of diversity for the optimal functionality of the Board of Directors. Although we do not have a formal diversity policy relating to the identification and evaluation of nominees for director, the Nominating Committee considers all of the criteria described above in identifying and selecting nominees and in the future may establish additional minimum criteria for nominees.

Although not an automatically disqualifying factor, the inability of a candidate to meet independence standards of the NYSE will weigh negatively in any assessment of a candidate's suitability.

The Nominating Committee intends to use a variety of means of identifying nominees for director, including outside search firms and recommendations from current Board members and from shareholders. In determining whether to nominate a candidate, the Nominating Committee will consider the current composition and capabilities of serving Board members, as well as additional capabilities considered necessary or desirable in light of existing Company needs and then assess the need for new or additional members to provide those capabilities.

Unless well known to one or more members of the Nominating Committee, normally at least one member of the Nominating Committee will interview a prospective candidate who is identified as having high potential to satisfy the expectations, requirements, qualities, and capabilities for Board membership.

Shareholder Nominations

The Nominating Committee, which is responsible for the nomination of candidates for appointment or election to the Board of Directors, will consider, but shall not be required to nominate, candidates recommended by our shareholders who beneficially own at the time of the recommendation not less than one percent of our outstanding stock (Qualifying Shareholders).

Generally speaking, the manner in which the Nominating Committee evaluates nominees for director recommended by a Qualifying Shareholder will be the same as for nominees from other nominating sources. However, the Nominating Committee will seek and consider information concerning the relationship between a Qualifying Shareholder's nominee and that Qualifying Shareholder to determine whether the nominee can effectively represent the interests of all shareholders.

Qualifying Shareholders wishing to make such recommendations to the Nominating Committee for its consideration may do so by submitting a written recommendation, including detailed information on the proposed candidate, including education, professional experience and expertise, via mail addressed as follows:

The Amended and Restated Shareholders Agreement also provides that we are obligated, if requested by Knowledge Capital, and to the extent permitted by law and applicable rules of the New York Stock Exchange, to ensure that at least one designee of Knowledge Capital is a member of all committees of the Board other than any special committee of directors formed as a result of any conflict of interest arising from any Knowledge Capital designee's relationship with Knowledge Capital. Knowledge Capital has not requested that its designee serve on any committees of the Board and Donald J. McNamara does not currently serve on any Board committees.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Review and Approval of Related Party Transactions

We review all relationships and transactions in which the Company and certain related persons, including our directors, Named Executive Officers, and their immediate family members, are participants, to determine whether such persons have a direct or indirect material interest. Our legal and accounting departments have responsibility for the development and implementation of processes and controls to obtain information from the directors and Named Executive Officers with respect to related party transactions and for then determining, based upon the facts and circumstances, whether the Company or a related party has a direct or indirect material interest in the transaction. As

required under SEC rules, transactions that are determined to be directly or indirectly material to us or the related party are disclosed in our Proxy Statement. In addition, a

disinterested majority of the full Board of Directors or Compensation Committee reviews and approves any related party transaction that is required to be disclosed.

Related Party Transactions

We pay M. Sean Covey, who is also an officer of the Company, a percentage of the royalty proceeds received from the sales of certain books authored by him in addition to his salary. During the fiscal year ended August 31, 2013, we expensed \$0.3 million for these royalty payments.

To help facilitate and accelerate his transition from a primarily speaking and teaching role, to an enhanced publishing and thought-leadership position, we signed a contract in fiscal 2012 with Dr. Stephen R. Covey that guarantees him \$0.5 million per year for three years. The payments to Dr. Covey were designed to be recovered by the collection of royalties and other revenues generated by new and existing publications as well as continuing revenue streams generated by his office. This contract remains in place following his death and the Company anticipates the continued receipt of royalties and revenues from Dr. Covey's work.

In fiscal 2009, we acquired the assets of CoveyLink Worldwide, LLC (CoveyLink). CoveyLink conducts seminars and training courses and provides consulting based upon the book *The Speed of Trust* by Stephen M.R. Covey, who is the brother of M. Sean Covey. The purchase price was \$1.0 million in cash plus or minus an adjustment for specified working capital and the costs necessary to complete the transaction, which resulted in a total initial purchase price of \$1.2 million. The previous owners of CoveyLink, which includes Stephen M.R. Covey, are also entitled to earn annual contingent payments based upon earnings growth over the five years following the acquisition. Based on earnings performance during the measurement period, we paid the former owners of CoveyLink \$2.2 million for the fourth contingent earnout payment. Prior to the acquisition date, CoveyLink had granted a non-exclusive license to us related to *The Speed of Trust* book and related training courses for which we paid CoveyLink specified royalties. As part of the CoveyLink acquisition, an amended and restated license of intellectual property was signed that granted us an exclusive, perpetual, worldwide, transferable, royalty-bearing license to use, reproduce, display, distribute, sell, prepare derivative works of, and perform the licensed material in any format or medium and through any market or distribution channel. The amount expensed for these royalties due to Stephen M.R. Covey under the amended and restated license agreement totaled \$1.4 million during the fiscal year ended August 31, 2013. In connection with the CoveyLink acquisition, we also signed a speaking services agreement that pays Stephen M.R. Covey a portion of the speaking revenues received for his presentations. During fiscal 2013, we expensed \$0.7 million for payment on these presentations.

In fiscal 2013, we paid Joshua M.R. Covey, who is the brother of M. Sean Covey, compensation totaling \$130,227. We employ John Covey, an uncle of M. Sean Covey, and paid him compensation totaling \$102,240 during fiscal 2013.

Robert A. Whitman, our Chairman of the Board of Directors and CEO, beneficially owns a partnership interest in Knowledge Capital. Donald J. McNamara, a member of our Board of Directors, also beneficially owns a partnership interest in Knowledge Capital. Knowledge Capital beneficially owns 3,212,805 shares of our Common Stock at October 31, 2013.

Each of these listed transactions was approved according to the procedures cited above.

COMPENSATION DISCUSSION AND ANALYSIS

Our Compensation Committee, comprised of four independent directors, determined the fiscal 2013 compensation for Robert A. Whitman, our CEO; Stephen D. Young, our CFO; M. Sean Covey, our Executive Vice President for Global Solutions and Partnerships; Shawn D. Moon, our Executive Vice President for Domestic and Global Sales and Delivery; and Scott J. Miller, our Executive Vice President of Global Business Development and Marketing. We refer to these executives collectively as our Named Executive Officers, or NEOs. The material elements of our executive compensation programs and policies, including program objectives, reasons why we paid each element and the specific amounts of our NEOs' compensation for fiscal 2013 are explained below. Following this description, you will find a series of tables containing more specific information about the compensation earned by, or awarded to, our NEOs. We begin with an executive summary to provide a framework for analysis of this information.

Executive Summary

We believe that the executive compensation paid to our NEOs for fiscal 2013 was directly linked to: (1) the strength of our operating performance demonstrated by revenue growth (growth of \$20.5 million or +12.0%) and Adjusted EBITDA1 (growth to \$31.4 million or + 16.0%), (2) significant progress toward our major strategic objectives, and (3) significant increases in shareholder value. We hold our NEOs accountable for our performance and for executing key strategies by tying a major portion of their compensation to the achievement of key annual and multi-year performance objectives. This accountability includes setting what we believe to be "stretch" goals. The achievement of these goals requires commitment to achieving these results and exceptional performance, especially when the external environment changes. Our compensation philosophy contemplates that in years when the stretch targets are not achieved, our NEOs do not receive their total targeted cash compensation including their goal-targeted incentives. This applies even when there has been significant improvement in our performance despite economic challenges. However, when performance exceeds the goals, our philosophy rewards our NEOs and, we believe, our shareholders.

Historical Context: 2009-2012

The global financial crisis affected our business adversely in fiscal year 2009. We kept base salaries flat in fiscal 2009 and, despite having established fiscal 2009 performance goals just two months prior to the crisis, did not lower the financial measures on which our NEOs' short-term incentive pay was based. We also chose not to grant equity awards to our NEOs in fiscal 2009. As a result, while our NEOs oversaw a substantial reconstruction of our business model and successfully grew key portions of our business, they received minimal short-term incentive payouts and no long-term incentive awards in fiscal 2009. These steps were taken consistent with our approach in prior years to limit pay as we reconfigured the Company's business, including granting only very limited equity awards in the periods prior to fiscal 2010, despite our management's implementation during those years of steps that significantly improved the operating results of our business, increased the Company's market value and established the foundation for the creation of long-term shareholder value in subsequent years.

The actions that management took to reposition our business in fiscal 2009 allowed us to gain substantial traction in fiscal 2010. Despite severe economic instability and volatility, our fiscal 2010 revenue grew \$13.7 million, or 11.2%, to \$136.9 million and our fiscal 2010 Adjusted EBITDA grew 363%, from \$3.1 million in fiscal 2009 to \$14.4 million in fiscal 2010. We also continued to execute on key strategic initiatives, resulting in a streamlined business model in which 82% of every incremental dollar of revenue flowed through to Adjusted EBITDA in fiscal 2010. In response to our significant revenue growth and increased profitability in fiscal 2010, our NEOs received a larger portion of their potential short-term incentive payouts (but not maximum payouts, as we had established what were even more

aggressive performance goals for fiscal 2010) and earned more of their long-term incentive equity awards.

- 1 Throughout this section, we refer to Adjusted EBITDA, a non-GAAP financial measure, which we believe is relevant to understanding our results of operations and compensation performance measures. See the annex attached to this proxy statement for a discussion of Adjusted EBITDA and a reconciliation of Adjusted EBITDA to GAAP Net Income for fiscal years 2009, 2010, 2011, 2012 and 2013.

The growth we experienced in fiscal 2010 continued throughout fiscal 2011. Despite a challenging economy and an ongoing uncertain economic environment, our fiscal 2011 revenue grew \$23.9 million, or 17.5%, to \$160.8 million, and our fiscal 2011 Adjusted EBITDA grew 46.5%, from \$14.4 million in fiscal 2010 to \$21.2 million. Additionally, our Adjusted EBITDA as a percentage of revenue expanded from 10.5% in fiscal 2010 to 13.2% in fiscal 2011 driven by our continued execution on our key operating and strategic initiatives.

The Company's positive momentum continued throughout fiscal 2012. Our fiscal 2012 revenue grew \$9.7 million, or 6.0%, to \$170.5 million, and our fiscal 2012 Adjusted EBITDA grew 27.9%, from \$21.2 million in fiscal 2011 to \$27.1 million in fiscal 2012. Additionally, our Adjusted EBITDA as a percentage of revenue expanded from 13.2% in fiscal 2011 to 15.9% in fiscal 2012 driven by our continued execution on our key operating and strategic initiatives. As a result of our significant revenue growth and increased profitability in fiscal 2011 and fiscal 2012, our NEOs received the maximum payout of the short-term incentive and earned more of their long-term incentive equity awards.

Fiscal 2013 Performance

During fiscal 2013, our revenue, profitability and operating margins all grew significantly compared to fiscal 2012, and we exceeded the overall company performance targets we had set for the year:

- **Revenue Growth:** The Company's fiscal 2013 revenue grew \$20.5 million (+12%) to \$190.9 million. Over the past two years, revenue grew from \$160.8 million to \$190.9 million, an increase of \$30.1 million (+18.7%). Over the past three years, revenue grew from \$136.9 million to \$190.9 million, an increase of \$54.0 million (+39.5%).
- **Adjusted EBITDA Growth:** Over the past three years, Adjusted EBITDA, the key performance metric for our short-term incentive awards, grew at a compounded annual rate of 29.6%, from \$14.4 million in fiscal 2010 to \$31.4 million in fiscal 2013. Our two-year Adjusted EBITDA increased from \$21.2 million in fiscal 2011 to \$31.4 million in fiscal 2013, and represents a compounded annual growth rate of 21.8%. Our Adjusted EBITDA increased from \$27.1 million in fiscal 2012 to \$31.4 million in fiscal 2013, an increase of 16.1%. FranklinCovey is one of the companies included in the Russell 2000 Index. The Company's percentage growth in Adjusted EBITDA exceeded the percentage EBITDA growth achieved by 74.8% of Russell 2000 small cap companies for their most recent trailing four quarter period, by 82.6% for their most recent eight quarter period, and by 89.4% for their most recent trailing twelve quarter period.
- **Operating Income Growth:** Our operating income grew from \$17.6 million in fiscal 2012 to \$21.6 million in fiscal 2013, an increase of \$4.0 million (+23.0%). Our two-year operating income grew from \$11.1 million in fiscal 2011 to \$21.6 million in fiscal 2013, an increase of \$10.5 million (+94.5%). Our three-year operating income grew from \$4.0 million in fiscal 2010 to \$21.6 million in fiscal 2013, an increase of \$17.6 million.
- **Adjusted EBITDA Margin Expansion:** Our Adjusted EBITDA margin, or Adjusted EBITDA as a percentage of sales, expanded from 15.9% in fiscal 2012 to 16.4% in fiscal 2013. Over the past two years, our Adjusted EBITDA margin increased from 13.2% to 16.4%, and over the past three years, our Adjusted EBITDA margin increased from 10.5% to 16.4%.
- **Shareholder Gains:** The strong operating performance discussed above has been reflected in gains in the market value of our stock. As shown in the graphs below, our stock price for the one year ended November 1, 2013, as well as for the three-year and five-year periods ended November 1, 2013, has increased significantly overall and has significantly outperformed the major indices shown.

Share Price Performance	Share Price Performance	Share Price Performance
1 year ended 11/01/13	3 years ended 11/01/13	5 years ended 11/01/13

In addition to strong overall performance, we continued to make substantial progress toward key strategic objectives last year:

- All five of the practice areas in which we have made significant investments over the past few years continued to achieve significant growth in fiscal 2013, with revenue growth of +64% in our Education Practice, +31% growth in our Speed of Trust Practice, +27% growth in our Execution Practice, +22% growth in our Productivity Practice and +12% growth in our Sales Performance Practice. Over the past two years, these practices achieved revenue growth as follows: +129% in our Education Practice, +33% in our Speed of Trust Practice, +33% in our Execution Practice, +51% in our Productivity Practice and +21% growth in our Sales Performance Practice.
- The growth achieved in these practice areas came as a result of our investments in R&D, development of new content and solutions, practice leadership and marketing. Because of this success, we are making similar investments in our Leadership and Customer Loyalty practice areas, which experienced revenue declines of -11% and -7%, respectively, in fiscal 2013, and revenue declines of -12% and -14% respectively in fiscal 2012. The Customer Loyalty Practice decrease in fiscal 2013 reflects a decline in revenue related to one large contract partially offset by expansion of other clients and winning new accounts. The Leadership Practice decrease in fiscal 2013 reflects the emphasis on our Trust Practice during the year, the decline in Leadership practice revenue related to the expected decline in revenue from a large government agency contract, and the focus of our Leadership Practice leadership team on the refinement and pending launch of our new leadership offerings beginning in this year's second fiscal quarter.

As a result of investments made in fiscal 2013 in these two practices, we expect the launch of our new leadership offerings in March of fiscal 2014 to drive significant growth in Leadership Practice revenues during the second half of fiscal 2014, and to also result in growth in our Customer Loyalty practice in fiscal 2014.

- Our xQ score (a measure of the level of employment engagement and execution practices which we use in our work with clients) increased from 77 to 78, which is among the highest scores achieved amidst hundreds of companies participating in our xQ survey.

Key Fiscal 2013 Compensation Decisions and Actions

In the context of the performance results described above, the Compensation Committee made the following executive compensation decisions and took the following executive compensation actions for fiscal 2013:

Salaries:

- **CEO's Salary:** Mr. Whitman's salary has been fixed at \$500,000 since fiscal 2000. At his election, he did not receive any salary, bonus or other compensation for fiscal 2002 and fiscal 2003. Even in a year in which we believe he continued his excellent personal performance and the Company generated outstanding operating results, we have kept Mr. Whitman's salary fixed so that any increase in his total compensation would come from the variable and at-risk components. Consistent with this philosophy, and consistent with his recommendation, our CEO did not receive a base salary increase for fiscal 2013.

Other NEO Salaries: Fiscal 2013 salaries for our NEOs remained at the levels that were previously determined by the Compensation Committee and reflect the responsibilities given to our NEOs as we streamlined our top management group. Based on results from a market analysis performed by Mercer, the Compensation Committee's compensation consultant, the Compensation Committee expects to slightly adjust salaries for some of our NEOs, including our CEO, for fiscal 2014 to remain competitive within the market for talent.

Annual Incentive Payments: We set financial and strategic targets for fiscal 2013 at the beginning of the year that required the Company to achieve what we believed was an aggressive year-over-year increase in Adjusted EBITDA, as well as specific strategic goals, in order for each NEO to achieve 100% of his targeted annual incentive opportunity. An even higher year-over-year increase in Adjusted EBITDA was required in order for each NEO to achieve the maximum possible annual incentive of up to 200%. Our Adjusted EBITDA increased 16.1%, from \$27.1 million in fiscal 2012 to \$31.4 million, in fiscal 2013. In keeping with the company's philosophy of pay for performance, although our Adjusted EBITDA increased by such a significant amount, management had set even higher stretch goals that weren't fully met. Therefore, our NEOs received less than the maximum payout of their variable pay.

The potential dollar amounts of annual incentive pay remained constant in 2012 and 2013, while Adjusted EBITDA grew at a compounded growth rate of 21.8% for these two years.

Long-Term Incentive Awards: We again developed a two-part, long-term and performance-based equity award program for fiscal 2013. In particular:

- **Stock Price-Based RSUs:** We made special restricted stock unit (or RSU) awards to 25 key executives, including our NEOs other than our CEO and CFO, which will be earned in full, if at all, in the event that the five-day average closing price for our stock increases to at least \$22.00 per share during the next five years. More particularly, 100% of these performance-based RSUs will vest if, during the next three years, the five-day average closing price for our stock is at least \$22.00 per share. If the five-day average closing price of our stock increases to \$22.00 per share, but not until between three and five years from the date of this grant, one-half of the granted RSUs would vest and one-half would be forfeited. If it takes more than five years for the five-day average closing price of our stock to get to \$22.00 per share, none of the RSUs would vest, and all would be forfeited.
- **Other Performance-Based RSUs:** We awarded performance-based RSUs to our CEO and CFO during fiscal 2013 to both recognize their significant contributions to our strong financial performance and encourage the achievement of continued extraordinary performance in the future. Seventy percent of this award is subject to the achievement of

rolling four quarter Adjusted EBITDA targets, with the award opportunity divided equally into three tranches subject to different levels of achievement. Thirty percent of this RSU award is subject to the achievement of our rolling four quarter Productivity Practice revenue target amounts, with the award opportunity also divided equally into three tranches subject to different levels of achievement. Each of these six tranches will vest automatically if the applicable performance targets are achieved.

Similar RSU awards were granted to our CEO and CFO during fiscal 2012. During fiscal 2013, three of six performance targets for the 2012 RSU awards to our CEO and CFO (related to the Adjusted EBITDA portion of the award) were achieved, and one performance target for the 2013 RSU awards to our CEO and CFO (related to the Productivity Practice portion of the award) was achieved, and portions of the awards corresponding to these performance goals automatically vested and were settled in shares for our CEO and CFO. Despite the financial performance of the Company in fiscal 2013, because the award targets were set at even higher, “big stretch” performance levels, the three Adjusted EBITDA targets and the remaining two Productivity Practice revenue targets remain unachieved with respect to the 2013 RSU awards to our CEO and CFO. Regarding the 2012 RSU awards to our CEO and CFO, the two remaining Adjusted EBITDA targets and one Productivity Practice revenue target remain unachieved.

The special RSUs that we granted to our other NEOs require significant increases in the market price of our shares in order for the awards to have value to the recipients. We believe that, taken together, these actions demonstrate that the Company pays for performance and satisfies the philosophy and objectives of our executive compensation program.

Shareholder-Minded Compensation Practices

Our Compensation Committee recognizes its responsibility to oversee our compensation practices and plans. The Compensation Committee reviews and considers the views of institutional shareholders and proxy rating firms on corporate pay practices generally and in respect to the Company. In this regard, we reach out to key shareholders to solicit their views on executive compensation and consider the results on annual “say-on-pay” voting. In order to maintain best practices for compensation, the Compensation Committee has implemented the following policies:

- **Clawback Policy** - The Board is empowered to require reimbursement of any annual incentive payment or long-term incentive payment to an executive officer where: (1) the payment was predicated upon achieving certain financial results that were subsequently the subject of a substantial restatement of Company financial statements filed with the SEC; (2) the Board determines the executive engaged in misconduct that caused the need for the substantial restatement; and (3) a lower payment would have been made to the executive based upon the restated financial results. In such instance, the Company will, to the extent practicable, seek to recover from the individual executive the amount by which the individual executive’s incentive payments for the relevant period exceeded the lower payment that would have been made based on the restated financial results.
- **Hedging Policy** – Our directors and executive officers are prohibited from trading in publicly traded options, puts, calls or other derivative instruments related to Franklin Covey stock or debt. All other employees are discouraged from engaging in hedging transactions related to Company stock.
- **No Repricing Without Shareholder Approval** – Our equity plans expressly prohibit option repricing without shareholder approval.
 - **No Excise Tax Gross-ups** – Excise tax gross-ups for our NEOs are prohibited.
- **Stock Ownership Guidelines** – Our stock ownership guidelines require an ownership threshold of five times base salary for our CEO, three times base salary for our CFO and two times base salary for our other NEOs, with all NEOs expected to reach these applicable thresholds within five years. In addition, a Board policy requires that each director who is not an employee of the Company must maintain beneficial ownership of at least four times the Board cash retainer of the Company’s common stock and/or fully vested restricted stock units at all times during his or her tenure on the Board. New directors have up to three years of service on the Board to meet this ownership requirement.

- No Significant Perquisites – “Corporate perquisites” such as country club memberships or automobile allowances to our NEOs are not provided.

- No Employment Agreements for NEOs and Limited Change-in-Control Benefits – The Company does not enter into employment agreements with its NEOs, and has a change-in-control policy for its NEOs that provides for a potential severance benefit of only one times total targeted annual cash compensation without any tax gross-ups.

The performance-based awards we made in fiscal 2013 were designed to incentivize even greater improvements in the Company's results of operations, and payout only if there are significant increases in total shareholder return. In addition, the Compensation Committee believes that the Company's historical utilization of shares for compensation purposes has been low and is expected to remain low in the future.

Consideration of 2013 Say-On-Pay Voting Results

At our 2013 shareholder meeting, we held our annual advisory "say-on-pay" vote with respect to the compensation of our NEOs. More than 97% of the votes cast were in favor of the compensation of our NEOs. Our Board of Directors and the Compensation Committee considered and discussed this shareholder vote result during fiscal 2013 and, given the level of shareholder support, determined not to make any changes to the existing program for fiscal 2013 based solely on the 2013 say-on-pay voting results. The Compensation Committee will, from time to time, continue to explore various executive pay and corporate governance changes to the extent appropriate in an effort to keep our executive compensation program aligned with best practices in our competitive market and the company's particular circumstances, and will consider shareholder views in so doing. The Compensation Committee intends to continue holding say-on-pay votes with shareholders on an annual basis, and the next such vote is expected at the 2014 annual meeting of shareholders.

Guiding Philosophy, Principles and Objectives of Our Executive Compensation Program

To fulfill our mission, FranklinCovey must attract, motivate and retain highly qualified employees; we achieve this, in part, through a competitive performance-based total compensation program. We align our executives' interests with those of our shareholders by reducing executive pay if performance targets are not met, and also by providing our executives with the potential to earn additional compensation when superior, above-target financial results and returns are achieved.

Our NEOs and other members of FranklinCovey's senior management have high potential to impact business results. Therefore, we believe variable, performance-based compensation should constitute a significant percentage of our executives' overall potential compensation. All executive base, short-term incentive and long-term incentive pay compensation is market-based, and variable pay and long-term incentive pay is linked to, and designed to reward the achievement of, specific performance targets.

The philosophy and objectives of our executive compensation program are reflected in the compensation principles listed below, which guide the Compensation Committee in its oversight of our compensation practices and plans. The specific objectives of our executive compensation program are to reward achievement of our strategic and annual business plans and link a major portion of pay directly to performance. The key principles the Compensation Committee employs are:

- **Reflect Performance:** To align compensation with performance over both the short and long term, we establish multi-year objectives for the Company relating both to growth and to the achievement of strategic objectives. Annual performance targets are established in the context of these multi-year objectives, and for fiscal 2013 consisted primarily of goals for growth in Adjusted EBITDA. NEO pay levels for the year are determined by assessing both the individual's performance and that of the Company against these objectives. Since our NEOs have responsibility for our overall Company performance against these objectives, their compensation can vary, and has

varied, significantly from year to year.

- Encourage Long-Term Company-Wide Focus: We believe that compensation should encourage and reward both the achievement of annual objectives and longer-term Company-wide performance improvement. Our share price is a key indicator of performance and value received by our shareholders. We therefore

implemented a new performance-based RSU program to focus NEO efforts on long-term growth in shareholder value. We believe that paying a significant portion of variable compensation to our NEOs in the form of equity-based compensation that vests over a period of time, only based on performance, also encourages a long-term, Company-wide focus. Value is realized through delivering results today, but in a way which builds the foundation for delivering even stronger results in the future. We believe that this practice will lead to our NEOs having a considerable investment in our shares over time. This investment in turn advances both a culture of teamwork and partnership, and encourages a stewardship mentality for the Company among our key leaders.

- **Attract and Retain Talent:** We believe that we have a deep understanding of the importance of hiring and retaining the very best people. Retention of talented employees is critical to successfully executing our business strategy. We seek to be what we refer to internally as “the workplace of choice for achievers with heart.” Successful execution of our business strategy requires that our management team be in place, engaged and focusing their best energy and talents on achieving our business goals and strategies. For us, compensation is not just an overhead expense, it is a key component of the investments we make and costs we incur to generate our revenues. A portion of this cost is reflected as cost of goods sold. In determining the compensation of our NEOs and in reviewing the effectiveness of our compensation program for attracting and retaining talent, the Compensation Committee generally considers the competitive market for talent. We believe that our compensation programs should enable us to attract and retain talented people, and incentivize them to contribute their finest talents to achieving our objectives. We are pleased that our NEOs have an average tenure of over 18 years with our Company.

In addition to working to align our compensation programs with the achievement of objectives that drive shareholder value, the Compensation Committee also considers the consistency of our compensation programs and works to ensure that our variable compensation does not encourage imprudent risk-taking. We have determined that our Company’s approach to the compensation process addresses shareholder concerns regarding prudence and pay-for-performance through a combination of:

- controls on the allocation and overall management of risk-taking;
- comprehensive profit and loss and other management information which provides ongoing performance feedback;
- rigorous, multi-party performance assessments and compensation decisions; and
- a Company-wide compensation structure that strives to meet industry best practice standards, including a business model that is based on compensating our associates in direct proportion to the revenue and profit-contribution they generate.

Our compensation framework seeks to achieve balance between risk and reward. Our executive team is involved in identifying relevant risks and performance metrics for our business. We create a cadence of accountability within our organization through continuous evaluation and measurement of performance compared to what we refer to internally as our “Wildly Important Goals” of achieving profitable growth, meeting strategic objectives and building a winning culture. Based on the considerations discussed above, in connection with its compensation decisions for fiscal 2013, our Compensation Committee concluded that our Company’s compensation program and policies are structured so that they do not encourage imprudent risk-taking and that there are no risks arising from such programs and policies that are reasonably likely to have a material adverse effect on the Company.

2013 Executive Compensation Program

Our fiscal 2013 executive compensation program incorporated five main elements:

- Base salary;

- Short-term Performance-Based Variable Pay Plan;
- Long-term incentive equity awards in the form of ongoing four-year performance-based shares, newly granted performance-based RSUs, and executive performance awards;
- Other benefits (primarily insurance, as discussed below) are generally available to all employees on similar terms. The exceptions are certain CEO benefits provided at the time he proposed the termination of his prior employment agreement and in recognition of the years in which he received no compensation from us; and
- Severance and change-in-control benefits which are substantially the same for our NEOs as they are for other employees.

Analysis of Fiscal 2013 Compensation Decisions and Actions

Fiscal 2013 Executive Compensation Determination Process

The Compensation Committee determined the form and amount of fixed compensation and established specific performance metrics for determining year-end variable compensation to be awarded to our NEOs for fiscal 2013. In so doing, our Compensation Committee considered (1) our financial performance over the prior year and past several years and expectations for fiscal 2013, (2) the individual and collective performance of our NEOs relative to the achievement of metric-based strategic objectives related to growth in our key practice areas, and (3) in connection with our goal of attracting and retaining the best talent, a general understanding of market compensation practices. In particular, the Compensation Committee reviewed the following financial metrics and related growth rates in connection with making its key compensation decisions:

- Revenue;
- Adjusted EBITDA and Operating Income; and
- Multi-year increases in Operating Income, Adjusted EBITDA and specific revenue targets.

Management Input Regarding Compensation Decisions: Our Compensation Committee meets in executive session to discuss the performance of our CEO and each of the other NEOs. Our CEO submitted year-end variable compensation calculations (certified by our CFO) to the Committee for our other NEOs. These calculations and recommendations precisely followed the payout guidelines established for incentive compensation relating to financial performance.

Market Assessment: Our Compensation Committee evaluates our existing NEO compensation program against market practices. In so doing, the Committee asked Mercer, the Committee's current compensation consulting firm, to assess our compensation program for the NEOs, identify considerations that could inform compensation decisions for fiscal 2013 and advise as to current market practices, trends and plan designs related to executive compensation. In connection with its work, Mercer reviewed data from their own research and databases. This information was used primarily as supplemental data to assist the Compensation Committee in understanding current market practices related to executive compensation, and not for specific or mathematical benchmarking. In its assessment of our compensation program for our NEOs, Mercer confirmed that the amounts of compensation are consistent with market compensation for similar-sized and comparable professional services and content companies, and that the program has been aligned with and is sensitive to corporate performance. Further, Mercer advised that the compensation program contains features that reinforce significant alignment with shareholders and a long-term focus, and blends subjective assessment and policies in a way that addresses known and perceived risks.

The Compensation Committee has assessed Mercer's independence, as required under NYSE rules. The Compensation Committee has also considered and assessed all relevant factors, including those required by the SEC, that could give rise to a potential conflict of interest with respect to Mercer during fiscal 2013. Based on this review, the Compensation Committee did not identify any conflict of interest raised by the work performed by Mercer.

In making executive compensation decisions for fiscal 2013, the Compensation Committee considered our targeted business model and how executive compensation could and should drive desired performance toward that model. The Compensation Committee also took into consideration the specific business opportunities and challenges facing the Company as compared to those of known competitors and similar sized companies. However, the Compensation Committee did not specifically benchmark elements of compensation when making its fiscal 2013 executive compensation decisions. Finally, the Compensation Committee considered the past performance of our NEOs, including performance against previous individual and corporate objectives, expected contribution to future corporate objectives, and whether the NEOs' performance was achieved consistent with our governing values. The Compensation Committee made final judgments regarding the appropriate compensation level for each NEO based on these additional inputs.

The following peer group was adopted for fiscal 2014. This peer group is one of many tools used by the Compensation Committee for assessing executive compensation; we do not specifically benchmark pay to that of the peer group. These companies were selected based on size, industry and types of professional services offered.

Decisions on Key Elements of Fiscal 2013 Executive Compensation

Total Compensation: In addition to the specific elements of compensation discussed below, we consider the total compensation provided our NEOs and establish annual targets for them. Our fiscal 2013 total compensation target for

our CEO was approximately \$1.7 million and for our other NEOs averaged \$674,000, in each case assuming achievement of targeted results under our short-term incentive payment plan. This average excludes any premium-priced option award. It also excludes book royalty payments made to Mr. Sean Covey as noted in the Fiscal 2013 Summary Compensation Table.

Base Salaries: In connection with its review described above, our Compensation Committee, consistent with our compensation philosophy, determined to maintain NEO base salaries for fiscal 2013 at levels established in prior years. The Compensation Committee annually reviews market data and may increase base salaries in the future. The Committee's overall goal is to increase variable pay as a percentage of total pay.

Performance-Based Variable Pay – Financial Objectives: Despite continued volatile and generally challenging economic conditions, we achieved what we believe to be significant growth in both revenue and operating income in fiscal 2010, 2011, 2012, and 2013. We believe that we achieved this growth while prudently managing risk.

In fiscal 2013, the performance-based variable pay plans for all NEOs included two components for the payout calculation: (1) the annual financial performance of the Company (70% of payout) and (2) metric-based executive team performance objectives (30% of payout). The target variable performance payout opportunities for our NEOs are as follows: \$500,000 for Mr. Whitman; \$175,000 for Mr. Young; \$200,000 for each of Mr. Covey and Mr. Moon; and \$100,000 for Mr. Miller. The performance-based variable pay plan reinforces our strong pay-for-performance philosophy and rewards the achievement of specific stretch business and financial goals achieved during the fiscal year that we believe drive shareholder value. Consistent with our practice of setting what we believe are aggressive performance goals for our NEO's, the financial performance threshold necessary for an NEO to earn 100% of his targeted short-term incentive payout opportunity for financial performance in fiscal 2013 was \$29.4 million of Adjusted EBITDA. NEOs would have received no short-term incentive payout for the financial performance if our fiscal 2013 Adjusted EBITDA had been less than \$27.1 million (100% of our fiscal 2012 Adjusted EBITDA). A corresponding pro-rata calculation of the financial performance payout would be received if Adjusted EBITDA was greater than \$27.1 million but less than the target amount of \$29.4 million.

As indicated above, 70% of the NEOs' performance-based variable pay was tied to achievement of this financial metric. The financial performance threshold for an NEO to earn his maximum possible short-term incentive payout on this component of his variable pay was Adjusted EBITDA of \$31.4 million, a 16.1% increase over that achieved in fiscal 2012. Based on achievement of this result, compensation for this 70% component tied to Adjusted EBITDA was paid out at the maximum level. Despite our significant performance achievements in recent years, we note that fiscal 2013 was only the third year in which our NEOs received short-term incentive payouts in excess of 100%.

Performance-Based Variable Pay-Executive Team Performance Objectives: As described above, 70% of short-term incentives was based on achievement of specific Adjusted EBITDA targets. An additional 30% of targeted short-term incentive compensation for our NEOs depended on the achievement of specific metric-based performance objectives related to the achievement of key strategic milestones. These milestones were determined at the beginning of fiscal 2013. Because these goals were strategic in nature, and we believe that disclosing specifics could cause potential competitive harm, they are not disclosed.

However, these objectives were individually weighted based on difficulty and on the effort required to achieve the goal, with most goals weighted between 30% and 40% of this portion of the short-term variable pay award. We believe that the goals established for each NEO were “stretch” goals tied to achieving our annual plan in support of

the Company’s long-term strategy. Each goal was typically linked to what we refer to internally as our “Wildly Important Goals” that are cascaded throughout the Company, and progress toward each of these goals was tracked regularly. For NEOs to receive the maximum payout on this portion of their incentive required meeting each one of these aggressive goals, including achieving \$33.0 million in Adjusted EBITDA. For fiscal 2013, NEOs were paid less than the maximum of the 30% of their short-term variable pay tied to these executive team performance objectives (actual payout was at 70% for this portion of the short-term variable pay award) since despite exceeding budget, the “big stretch” goal of \$33.0 million in Adjusted EBITDA was not reached.

Equity Awards Generally: As mentioned above, we believe that, historically, we have been conservative with respect to our equity grants to senior management. Based on our significant fiscal 2010, 2011, 2012, and 2013 performance, we decided to increase our use of equity awards for our current NEOs by developing a two-part, long-term and performance-based equity award program that we believe will serve to further align the interests of our NEOs with the Company’s long range objectives. The following subsections describe the two types of equity awards provided by us in fiscal 2013.

RSUs – Shares At Risk Under the Stock Performance Share Plan: On July 18, 2013, the Compensation Committee approved a special performance-based RSU program that allows NEOs (other than our CEO and CFO) and other plan participants to receive shares of common stock upon achievement of certain goals as further described below. This program is designed to further incentivize management personnel to take those actions likely to lead to a significant increase in the share price of the Company’s common stock over the next three to five years, and to allow them to share in this increase in shareholder value. The Company believes this program will serve to further align the interests of management and other shareholders. The Company received advice regarding the program design and structure from Mercer.

The performance-based RSUs vest when the five-day average closing stock price is at least \$22.00 per share, which is the defined target common share price for this award. If this target average common share closing price is achieved by July 17, 2016 (three years from the grant date), then 100% of the RSUs granted to plan participants vest. If the target average common share closing price is achieved between and including July 18, 2016, and July 18, 2018 (five years from the grant date), 50% of the RSUs vest. If the Company’s common share closing price does not average over \$22.00 per share for five days within five years from the grant date, then no shares will be awarded.

The number of RSUs granted to each NEO was determined by dividing an amount equal to three times the sum of the NEO’s base salary and target short-term incentive opportunity by an assumed stock price of \$22.00 per share, and then awarding a percentage of the resulting amount in the form of the performance-based RSUs. Our CEO and CFO were not included in this incentive program at their request because the program was developed to provide additional incentive to other top managers. The numbers of RSUs granted to each NEO are listed below:

Robert A. - Whitman	
Stephen - D. Young	
M. Sean Covey	17,045
Shawn D. Moon	17,045
Scott J. Miller	13,636

The Company utilized a Monte Carlo simulation to determine the fair value of and service period for the award. Although the term of this program is five years, the applicable non-cash compensation expense will be recognized over a seven-month period ending January 2014.

Subsequent to August 31, 2013, we are pleased to report that both the 2011 RSUs and the 2012 RSUs granted to participants in prior years vested as our average stock price exceeded the \$17.00 and \$18.05 respective price thresholds for each of the awards. The 2011 RSUs vested on September 18, 2013 when our stock price closed at \$17.62. The 2012 RSUs vested on October 2, 2013 when our stock price closed at \$19.00. We believe that our RSUs align a significant portion of our executive compensation with shareholder value.

Long-Term Incentive Plan (LTIP) – Performance-Based Equity Grants: In fiscal 2005, the Compensation Committee adopted a new long-term incentive strategy using performance-based shares as a component of total targeted compensation. The LTIP was established as a performance incentive for senior management, including our NEOs, and other key employees to provide incentive to achieve the specific financial objectives included in our long-term financial plan. The number of shares that eventually vest and are issued to LTIP participants is variable and based entirely upon the achievement of specified performance objectives over a defined performance period.

The Compensation Committee approved an LTIP award in fiscal 2010 which included the following:

- Target Number of Shares originally expected to vest at August 31, 2013 – 232,576 shares
 - Vesting Dates – August 31, 2012, March 2, 2013 and August 31, 2013
 - Grant Date Fair Value of Common Stock – \$5.28 per share
 - Performance Measurement Period – 4 years

The 2010 LTIP had a four-year performance period with three potential vesting dates if certain financial measures were achieved during the performance period. These awards were subject to ongoing performance during fiscal 2010, 2011, and 2012.

Consistent with previous LTIP awards, the final number of shares awarded to participants was variable and was based upon the achievement of specified financial goals during the performance measurement period. However, the fiscal 2010 award had multiple vesting or “determination” dates that occur on August 31, 2012, March 2, 2013 (end of second quarter) and August 31, 2013.

Based on financial performance for the three-year period ending August 31, 2013, it was determined that LTIP participants were each entitled to receive 86.4% of the target shares, or 200,910 shares under the fiscal 2010 LTIP award.

Stock Options: The 675,000 stock options outstanding as of August 31, 2013 are from the fiscal 2010 and fiscal 2011 stock option grants to the CEO and CFO. These options vested in the second quarter of 2013 and were related to achieving specific stock price objectives and the extinguishment of the management stock loan program, which resulted in 3.3 million shares coming back into the Company’s treasury. These options were vested and exercisable at August 31, 2013.

Long-Term Incentive Plan Awards – Other Performance-Based RSU Awards: A significant portion of the CEO and CFO’s total targeted compensation is in the form of RSU awards that vest based on the achievement of key financial objectives over a period of years. During the first quarter of fiscal 2013, the Compensation Committee approved a share-based award for the Company’s CEO and CFO to recognize their role in helping the Company achieve strong financial performance.

The target award totaled 63,830 RSUs, which were approved on September 20, 2012. 70% of this award is subject to the achievement of Adjusted EBITDA measures, while 30% of this award is dependent on the revenues achieved in the Productivity Practice. The Adjusted EBITDA portion of this award will be earned when the Company achieves the specific performance targets applicable to three equal award tranches for Adjusted EBITDA (\$33.0 million, \$40.0 million, and \$47.0 million) over a rolling four quarter period. The Productivity Practice portion of this award will be earned when the Company achieves the specific sales performance targets applicable to three equal award tranches for Productivity Practice Revenues (\$23.5 million, \$26.5 million, and \$29.5 million) over a rolling four quarter period. An indication of the extent of the “stretch” in performance required for these awards to vest is that, as of August 31, 2013, despite exceptional performance that exceeded budget, only the requirements for the first tranche of the Productivity

Practice Award had been met and the other five tranches of the award remained unvested.

Qualified Retirement Benefits: Each of our NEOs participates in the Franklin Covey 401(k) plan, which is our tax-qualified retirement plan available to all U.S. employees. As for all employees, we match dollar for dollar the first 1% of salary contributed to the 401(k) plan, and 50 cents on the dollar of the next 4% of salary contributed. Our match for executives is the same match received by all associates who participate in the 401(k) plan. Contributions to the 401(k) plan from highly compensated employees are currently limited to a maximum of 7% of compensation, subject to statutory limits.

Other Benefits: The Compensation Committee evaluated the market competitiveness of the executive benefit package to determine the most critical and essential benefits necessary to retain executives. Based on information on benefits from Mercer, the Compensation Committee determined to include executive life insurance for specific NEOs. In addition, the Company agreed to provide our CEO with supplemental disability insurance after he voluntarily terminated his employment agreement with the Company, and in consideration of the years during which our CEO received no compensation. While our Compensation Committee was provided with the estimated value of these items (which value is included in the Fiscal 2013 Summary Compensation Table below), it determined, as in prior years, that these amounts were not material in determining our NEOs' fiscal 2013 compensation.

- **Term Life Insurance:** Franklin Covey provides a portable 20-year term life policy for the CEO and CFO. The coverage amount is 2.5 times each executive's target cash compensation (base salary + target annual incentive).
- **Supplemental Disability Insurance:** We provide our CEO with long-term disability insurance which, combined with our current group policy, provides, in aggregate, monthly long-term disability benefits equal to 75% of his fiscal 2013 target cash compensation. Executives and other highly compensated associates may purchase voluntary supplemental disability insurance at their own expense.

Consistent with the spirit of partnership at Franklin Covey, no club memberships, automobiles or similar perquisites are provided to NEOs, and we do not allow reimbursement for those costs.

We maintain a number of other broad-based employee benefit plans in which, consistent with our values, our NEOs participate on the same terms as other employees who meet the eligibility requirements, subject to any legal limitations on amounts that may be contributed to or benefits payable under the plans. These benefits include:

- Our High Deductible Health Plans and Health Savings Accounts administered pursuant to Section 125 of the Internal Revenue Code of 1986, as amended (or Code), and Section 223.
 - Our Employee Stock Purchase Plan implemented and administered pursuant to Section 423 of the Code.

Severance Policy: We have implemented a severance policy to establish, in advance, the appropriate treatment for terminated executives and to ensure market competitiveness. The severance policy uses the same benefit formula for our NEOs as it uses for all of our employees. We do not gross-up severance payments to compensate for taxes. For more information about the terms of the severance policy, see the section below entitled "Executive Compensation – Potential Payments Upon Termination or Change-in-Control."

Employment Agreements and Change-in-Control Severance Agreements: We do not have employment agreements with any of our NEOs, but are a party to change-in-control severance agreements with each of our NEOs and other key officers and employees. These agreements are designed to retain our NEOs in the event a change-in-control transaction is proposed. In such situations, the change-in-control benefit may alleviate some of the financial and career concerns normally associated with a change-in-control and assure our NEOs of fair treatment. For more information about the terms of these change-in-control severance agreements, see the section below entitled "Executive Compensation – Potential Payments Upon Termination or Change-in-Control."

Section 162(m): Section 162(m) of the Code imposes a \$1.0 million limit on the amount that a public company may deduct for compensation paid to the company's principal executive officer or any of the company's three other most highly compensated executive officers, other than the company's chief financial officer, who are employed as of the end of the year. This limitation does not apply to compensation that meets the requirements under Section 162(m) for "qualifying performance-based" compensation (i.e., compensation paid only if, among other requirements, the

individual's performance meets pre-established objective goals based on performance criteria approved by

shareholders). To maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals, the Compensation Committee reserves the right to recommend and award compensation that is not deductible under Section 162(m).

Stock Ownership Guidelines: We have adopted stock ownership guidelines of at least five times base salary for our CEO, three times base salary for our CFO and two times base salary for our other NEOs. These officers are expected to reach these applicable thresholds within five years. The Compensation Committee annually reviews executives' progress toward meeting these guidelines. Currently, the stock ownership of our CEO, CFO, and of Sean Covey exceeds their respective thresholds. Other NEOs are working towards meeting their thresholds within the allotted time.

Executive Compensation

The Fiscal 2013 Summary Compensation Table below sets forth compensation information for our NEOs relating to fiscal 2013, fiscal 2012 and fiscal 2011, as applicable.

Note on CEO Compensation

As previously noted, our fiscal 2013 total targeted compensation at achievement of goal for our CEO was approximately \$1.7 million, assuming achievement of targeted results under our short-term incentive payment plan plus the LTIP award. A significant percentage of our CEO's compensation is dependent upon (1) performance-based-pay for achieving targeted growth in Adjusted EBITDA and (2) aligning compensation with the interests of our shareholders for long-term growth.

Salary

The amounts reported in the "Salary" column for fiscal 2013 represent base salaries paid to each NEO in fiscal 2013. Our CEO's salary has been fixed at \$500,000 per year since fiscal 2000. Even in a year where he continued his excellent personal performance and the Company generated excellent operating results, at his recommendation, our CEO did not receive a base salary increase for fiscal 2013. The salaries of our other NEOs were moderately increased for fiscal 2011, and remained constant in fiscal 2013 based on the Compensation Committee's consideration of our fiscal 2013 performance.

Bonus

The amount reported in the “Bonus” column for fiscal 2013 represents a discretionary impact bonus paid to Mr. Miller for meeting specific marketing and business development objectives.

Stock Awards

The amounts reported in the “Stock Awards” column for fiscal 2013 represent the aggregate grant date fair value (computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, or FASB ASC Topic 718) for the (1) RSUs issued to Messrs. Whitman and Young as Executive Performance Awards during fiscal 2013 and (2) the market-based RSU awards issued to Messrs. Covey, Moon and Miller under our Stock Performance Share Plan during fiscal 2013. Both the Executive Performance Awards and the Stock Performance Share Plan are discussed previously in the section entitled “Compensation Discussion and Analysis – Analysis of Fiscal 2013 Compensation Decisions and Actions.” For further information regarding these stock awards, refer to Note 13, Share-Based Compensation Plans, to our consolidated financial statements for the three years in the period ended August 31, 2013 included in our Annual Report on Form 10-K for the fiscal year ended August 31, 2013.

The market-based RSU awards were granted when the Company’s share price was \$16.03 per share, and will be earned, if at all, based on significant increase in our share price over the next three to five years (generally, our stock trading above \$22.00 per share). In this sense, our executives will benefit from these awards only if significant shareholder value is created. In addition, the awards to our CEO and CFO were designed to promote the achievement of an aggressive growth target in Adjusted EBITDA and to achieve sales targets in our Productivity Practice.

Option Awards

During fiscal 2013, the Compensation Committee elected not to grant options awards to employees of the Company, including our NEOs, as the decision was made to grant RSUs which are intended to further incentivize our executive compensation with the interest of our shareholders.

Non-Equity Incentive Plan Compensation

The amounts reported in the “Non-Equity Incentive Plan Compensation” column for fiscal 2013 represent the amounts paid to each NEO under the Company’s Performance-Based Variable Pay Plan, which is discussed previously in the section entitled “Compensation Discussion and Analysis – Analysis of Fiscal 2013 Compensation Decisions and Actions.” Payouts are based on achieving objectives established annually and meeting annual financial targets. Incentive amounts were approved by the Compensation Committee and were paid following the conclusion of the fiscal year. Based on our strong performance in fiscal 2013, our NEOs received just slightly below the maximum award payout, which was 191% of their respective target incentive opportunities.

Change in Pension Value and Nonqualified Deferred Compensation Earnings

We do not maintain any pension plans. The Nonqualified Deferred Compensation (or NQDC) plan was frozen to new contributions as of January 1, 2005. Effective August 15, 2005, NQDC balances invested in our stock will be distributable to participants only in the form of shares of our stock. None of the NEOs participates in the NQDC plan.

All Other Compensation

The amounts reported in the “All Other Compensation” column for fiscal 2013 represent the aggregate dollar amount for each NEO, including for Company contributions to 401(k) plan accounts, royalty payments (in the case of Mr. Covey) and insurance premiums. The “Fiscal 2013 All Other Compensation Table” presents the detail of the amounts included in this column for fiscal 2013.

Total Compensation

The amounts reported in the "Total" column reflect the sum of each of the previous columns for each NEO, including all amounts paid and deferred.

(a) We match dollar for dollar the first 1% of salary contributed to the 401(k) plan, and 50 cents on the dollar of the next 4% of salary contributed. Our match for executives is the same match received by all associates who participate in the 401(k) plan.

(b) For the CEO and CFO, we maintain an executive life insurance policy with a face value of approximately 2.5 times their target annual cash compensation. These amounts show the annual premiums paid for each 20-year term executive life insurance policy.

(c) We provide Mr. Whitman with long-term disability insurance which, combined with our current group policy, provides, in aggregate, monthly long-term disability benefits equal to 75 percent of his fiscal 2013 target cash compensation. The amount shows the premiums paid for Mr. Whitman's supplemental long-term disability coverage.

(d) For Mr. Covey, this amount includes royalties from books he authored that are used in our training and education businesses in the amount of \$281,883 earned during fiscal 2013. All NEOs received a travel voucher, similar to the President's Club award given to our top sales professionals for achieving their aggressive sales goals for the year.

Fiscal 2013 Grants of Plan-Based Awards

The following table sets forth the plan-based awards that we granted in fiscal 2013. Despite the multiple entries in the table, we made only three awards in fiscal 2013: annual incentive based cash awards identified in the table as Performance-Based Variable Pay; long-term, market-based RSU awards; and Executive Performance Awards of performance-based RSUs to our CEO and CFO to recognize their contributions to our strong financial performance during fiscal 2013.

Employment and Change-in-Control Severance Agreements

For more information about the terms of these change-in-control severance agreements, see the section below entitled “Executive Compensation – Potential Payments Upon Termination or Change-in-Control.”

- (a) These options had a market vesting condition related to the resolution of the management stock loan program when the share price reached the breakeven amount for participants. In 2013, the stock price exceeded the required threshold and the management stock loan program was extinguished, resulting in these options vesting for both the CEO and CFO. Subsequent to August 31, 2013, Mr. Young exercised a portion of his options which were granted on January 28, 2010.
- (b) These awards are the remaining time-based portion of the Executive Performance Awards granted to Messrs. Whitman and Young. These awards will vest upon the achievement of specified target levels of Adjusted EBITDA and Productivity Practice revenue measures for a rolling four quarter period. These awards are broken into six tranches. For the awards granted in fiscal 2012 (September 28, 2011) three tranches remain unvested. For the awards granted in fiscal 2013 (September 20, 2012) five tranches remain unvested.
- (c) These RSUs Shares at Risk awards will vest when the five-day average closing stock price is at least \$22.00 per share not later than five years from the grant date.
- (d) These RSUs Shares at Risk awards will vest when the five-day average closing stock price is at least \$18.05 per share not later than five years from the grant date. Subsequent to August 31, 2013 the stock price met this vesting threshold and these shares vested to participants.
- (e) These RSUs Shares at Risk awards will vest when the five-day average closing stock price is at least \$17.00 per share not later than five years from the grant date. Subsequent to August 31, 2013 the stock price met this vesting threshold and these shares vested to participants.
- (f) Values were determined by multiplying the target number of RSUs or performance shares by the closing price per share of Common Stock on the NYSE on August 31, 2013.
