Edgar Filing: REDHOOK ALE BREWERY INC - Form 10-K/A

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting Company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the Common Stock held by non-affiliates of the registrant as of the last day of the registrant's most recently completed second quarter on June 30, 2007 (based upon the closing sale price of the registrant's Common Stock, as reported by The Nasdaq Stock Market) was \$40,499,151.(1)

The number of shares of the registrant's Common Stock outstanding as of March 14, 2008 was 8,354,239.

(1) Excludes shares held of record on that date by directors and executive officers and greater than 10% shareholders of the registrant. Exclusion of such shares should not be construed to indicate that any such person directly or indirectly possesses the power to direct or cause the direction of the management of the policies of the registrant.

EXPLANATORY NOTE

Redhook Ale Brewery, Incorporated (the Company or Redhook) is filing this Amendment No. 3 (Amendment No. 3) to its Annual Report on Form 10-K for the fiscal year ended December 31, 2007, originally filed with the Securities and Exchange Commission (SEC) on March 26, 2008 (the Original Filing) and amended by Amendment No. 1 filed on April 3, 2008 and Amendment No. 2 filed on April 29, 2008. The Company is filing this Amendment No. 3 to address comments made by the SEC in connection with the commission s review of the Original Filing. Amendment No. 3 reflects revisions to the following items:

Part I., Item 1. Business Brewing Operations

Part I., Item 1A. Risk Factors

Part I., Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations

Part I., Item 8. Financial Statements and Supplementary Data.

Part III., Item 11. Executive Compensation

In addition, in connection with the filing of this Amendment No. 3 and pursuant to Rules 12b-15 and 13a-14 under the Securities Exchange Act of 1934, as amended (the Exchange Act), the Company is including with this Amendment No. 3 certain currently dated certifications required by Part IV, Item 15.

Except as described above, no other changes have been made to the Original Filing, as amended by Amendment No. 1 and Amendment No. 2. This Amendment No. 3 does not reflect events occurring after the Original Filing or modify or update those disclosures affected by subsequent events. Accordingly, this Amendment No. 3 should be read in conjunction with the Company s SEC filings made subsequent to the Original Filing.

INFORMATION REGARDING FORWARD-LOOKING STATEMENTS

This annual report on Form 10-K includes forward-looking statements. Generally, the words believe, expect, intend, estimate, anticipate, project, will and similar expressions or their negatives identify forward-looking statements, which generally are not historical in nature. These statements are based upon assumptions and projections that the Company believes are reasonable, but are by their nature inherently uncertain. Many possible events or factors could affect the Company's future financial results and performance, and could cause actual results or performance to differ materially from those expressed, including those risks and uncertainties described in Item 1A. Risk Factors and those described from time to time in the Company's future reports filed with the Securities and Exchange Commission. Caution should be taken not to place undue reliance on these forward-looking statements, which speak only as of the date of this quarterly report.

PART I.

Item 1. Business

Redhook Ale Brewery, Incorporated (Redhook or the Company) has been an independent brewer of craft beers in the U.S. since the Company's formation in 1981 and is considered to be one of the pioneers of the domestic craft brewing segment. Redhook produces its specialty bottled and draft products in two Company-owned breweries, one in the Seattle suburb of Woodinville, Washington (the Washington Brewery) and the other in Portsmouth, New Hampshire (the New Hampshire Brewery). By operating its own small-batch breweries, the Company believes that it is better able to control the quantities, types and flavors of beer produced, while optimizing the quality and consistency of its products. Management believes that the Company's production capacity is of high quality and that Redhook is the only domestic craft brewer that owns and operates substantial production facilities in both the western region and eastern region of the U.S.

The Company currently produces nine styles of beer, marketed under distinct brand names. The Company's flagship brand is *Redhook ESB* and its other principal products include *Long Hammer IPA*, *Redhook Blonde Ale*, *Blackhook Porter*, and its seasonal offerings *Sunrye*, *Late Harvest Autumn*, *Winterhook* and *Copperhook Ales*. The Company also produces and sells *Widmer Hefeweizen* in the midwest and eastern U.S. under a 2003 licensing agreement with Widmer Brothers Brewing Company (Widmer). In addition to its principal products, the Company periodically develops and markets new products to test and measure consumer response to varying styles and flavors.

Since July 2004, the Company has distributed its products in the western U.S. through Craft Brands Alliance LLC (Craft Brands), a joint venture between the Company and Widmer. See Product Distribution Relationship with Craft Brands Alliance LLC below. In the midwest and eastern U.S., the Company has continued to distribute its products through a distribution agreement with Anheuser-Busch, Incorporated (A-B). See Product Distribution Relationship with Anheuser-Busch, Incorporated below.

Proposed Merger with Widmer Brothers Brewing Company

On November 13, 2007, the Company entered into an Agreement and Plan of Merger (the Merger Agreement) with Widmer Brothers Brewing Company, an Oregon corporation (Widmer), pursuant to which Widmer will merge with and into Redhook, and each outstanding share of capital stock of Widmer (other than any dissenting shares entitled to statutory dissenters' rights under Oregon law) will be converted into the right to receive 2.1551 shares of Redhook common stock (Common Stock). The merger will result in Widmer shareholders and existing Redhook shareholders each holding approximately 50% of the outstanding shares of the combined company (assuming that no Widmer shareholder exercises statutory dissenters' rights, and that currently outstanding options held by employees, officers, directors and former directors to acquire shares of Redhook Common Stock are not exercised prior to the

consummation of merger). In connection with the merger, the Company will change its name to Craft Brewers Alliance, Inc.

Table of Contents

The Company and Widmer have made customary representations, warranties and covenants in the Merger Agreement, including, among others, a covenant by Redhook to cause a meeting of Redhook shareholders to be held to approve issuance of the shares of Common Stock issuable in the merger. The merger is subject to customary conditions to closing, including (i) regulatory approval from the Alcohol and Tobacco Tax and Trade Bureau and state licensing agencies, (ii) approval of A-B, (iii) approval by the requisite vote of Redhook shareholders of the issuance of the shares of Common Stock issuable in the merger, (iv) approval of the merger by the requisite vote of Widmer shareholders, (v) accuracy of the representations and warranties made by the parties under the Merger Agreement, (vi) compliance by the parties with their covenants, and (vii) the absence of any material adverse change to either Redhook or Widmer.

The Merger Agreement was filed as Exhibit 2.1 to the Company's current report on Form 8-K filed on November 13, 2007.

Except where specifically indicated, this Annual Report on Form 10-K does not address the effects of the potential merger on the Company, its customers, suppliers, or employees, Craft Brands Alliance, or any of the Company's other material contractual arrangements.

Industry Background

The Company is a brewer in the relatively small craft brewing segment of the U.S. brewing industry. The domestic beer market is comprised of ales and lagers produced by large domestic brewers, international brewers and craft brewers. Although shipments of craft beer in the United States in 2007 are estimated by industry sources to have increased by approximately 12% over 2006 shipments, and industry sources estimated a similar increase in 2006 shipments over 2005, the share of the domestic beer sales market held by the craft beer segment remains small. Craft beer shipments in 2007, 2006 and 2005 were approximately 3.8%, 3.4% and 3.5%, respectively, of total beer shipped in the U.S. Approximately 8.0 million, 7.1 million and 6.0 million barrels were shipped in the U.S. by the craft beer segment during 2007, 2006 and 2005, while total beer sold in the U.S., including imported beer, was approximately 211 million, 210 million and 205 million barrels, respectively. The number of craft brewers in the U.S. grew dramatically between 1994 and 2000, increasing from 627 participants at the end of 1994 and peaking at nearly 1,500 in 2000. At the end of 2007 and 2006, the number of craft brewers was estimated to be 1,406 and 1,394, respectively.

From a peak of 4,131 U.S. breweries in 1873, the number of breweries had dropped to 1,500 by 1910 as a result of improved production and distribution. Approximately 760 of these breweries reopened following Prohibition. During the ensuing decades, the beer industry concentrated its resources primarily on marketing pale lagers and pilsners for various reasons, including: the desire to appeal to the broadest possible segment of the population; to benefit from economies of scale through large-scale production techniques; to prolong shelf life through use of pasteurization processes; and to take advantage of mass-media advertising reaching consumers nationwide. At the same time that the beer industry was narrowing its product offerings to compete more effectively, there was also extensive consolidation occurring in the industry, still apparent in today's market composition. According to industry sources, the three largest domestic brewers accounted for nearly 80% of total beer shipped in the U.S., including imports, in 2007.

Annual per capita domestic beer consumption has declined from the highs experienced in the early 1980s, the result of an elevated concern over health and safety issues, changing tastes, and evolving affluence and consumption attitudes of a maturing generation of beer drinkers born after World War II. Since the early 1980s, a sizable number of consumers have migrated away from the major domestic products toward a broader taste and variety in their malt beverages, mirroring similar trends in other beverage and cuisine categories. Foreign brewers initially benefited from these evolving consumption patterns. Despite also being produced by large brewers, European, Canadian and Mexican imported beers offered a fuller-flavored alternative to the national brands produced in the U.S.

By the latter half of the 1980s, a new domestic industry segment had developed in response to the increasing consumer demand for specialty beers. Across the country, a proliferation of regional specialty brewers (annually selling more than 15,000 barrels but less than two million barrels of craft beer brewed at their own facilities), contract brewers (selling craft beer brewed by a third party to the contract brewer s

Table of Contents

specifications), microbreweries (selling less than 15,000 barrels per year), and brewpubs (combination restaurant/breweries) emerged to form the craft beer industry. This new segment was able to deliver the fuller flavored products presented by the imported beers while still offering a fresher product than most imports and one that could appeal to local taste preferences. Craft beer producers tend to concentrate on fuller flavors and less on appealing to mass markets. The strength of consumer demand has enabled certain craft brewers, such as the Company, to evolve from microbreweries into regional and national specialty brewers by constructing larger breweries while still adhering to the traditional European brewing methods that typically characterize the craft brewing segment. Industry sources estimate that craft beer produced by regional specialty brewers, such as the Company, accounts for approximately two-thirds of total craft beer sales. Other craft brewers have sought to take advantage of growing consumer demand and excess industry capacity, when available, by contract brewing at underutilized facilities.

Since its formation in the 1980s, the rate at which the craft beer segment has grown has fluctuated. The late 1980s and early 1990s were years of significant growth for the segment, only to be followed by several years of minimal growth in the late 1990s and early 2000s. Recent industry reports for 2005, 2006 and 2007 performance, however, indicate favorable trends once again. The craft beer segment's success has been impacted, both positively and negatively, by the success of the larger specialty beer category as well as the domestic alcoholic beverage market. Imported beers have enjoyed resurgence in demand since the mid-1990s. Certain national domestic brewers have increased the competition by producing their own fuller-flavored products to compete against craft beers. In 2001 and 2002, flavored malt beverages were introduced to the market, initially gaining significant interest but recently experiencing smaller returns. Finally, the wine and spirits market has seen a surge in recent years, attributable to competitive pricing, television advertising, increased merchandising, and increased consumer interest in wine and spirits.

Business Strategy

The Company strives to be the preeminent specialty craft brewing company in the U.S., producing the highest quality ale products in company-owned facilities, and marketing and selling them responsibly through its three-tier distribution system.

The central elements of the Company's business strategy include:

Production of High-Quality Craft Beers. The Company is committed to the production of a variety of distinctive, flavorful craft beers. The Company brews its craft beers according to traditional European brewing styles and methods, using only high-quality ingredients to brew in company-owned and operated brewing facilities. As a symbol of quality, the Company's products are Kosher certified by the Orthodox Union, a certification rarely sought by other brewers. The Company does not intend to compete directly in terms of production style, pricing or extensive mass-media advertising typical of large national brands.

Control of Production in Company-Owned Breweries. The Company builds, owns and operates its own brewing facilities to optimize the quality and consistency of its products and to achieve the greatest control over its production costs. Management believes that its ability to engage in ongoing product innovation and to control product quality provides critical competitive advantages. The Company's highly automated breweries are designed to produce beer in small batches, while attaining production economies through automation rather than scale. The Company believes that its investment in technology enables it to optimize employee productivity, to contain related operating costs, to produce innovative beer styles and tastes, and to achieve the production flexibility afforded by small-batch brewing, with minimal loss of efficiency and process reliability.

Strategic Distribution Relationship with Industry Leader. Since October 1994, the Company has benefited from a distribution relationship with A-B, pursuant to which the Company distributes its products in substantially all of its markets through A-B's wholesale distribution network. A-B's domestic network consists of more than 560 independent

wholesale distributors, most of which are geographically contiguous and independently owned and operated, and 13 branches owned and operated by A-B. This distribution relationship with A-B has offered efficiencies in product delivery, state reporting and licensing, billing and collections. The distribution relationship with A-B has also provided the Company

Table of Contents

with access to A-B distributors at A-B s distributor conventions, communications about the Company in printed distributor materials, and A-B-supported opportunities for the Company to educate A-B distributors about the Company s specialty products. The Company believes that these opportunities to access A-B distributors has benefited the Company by creating increased awareness of and demand for Redhook products among A-B distributors. The Company is able to reap the benefits of this distribution relationship with A-B while, as an independent company, maintaining control over the production and marketing of its products.

Sales and Marketing Relationship with Craft Brands Alliance LLC. On July 1, 2004, the Company entered into agreements with Widmer, headquartered in Portland, Oregon, to form a joint sales and marketing organization that serves both companies operations in the western U.S. The joint organization, named Craft Brands Alliance LLC, advertises, markets, sells and distributes both Redhook s and Widmer s products to wholesale outlets through a distribution agreement between Craft Brands and A-B. Management believes that, in addition to achieving certain synergies, Craft Brands capitalizes on both companies sales and marketing skills and complementary product portfolios. The Company believes that the combination of the two brewers complementary brand portfolios, led by one focused sales and marketing organization, not only delivers financial benefits, but also delivers greater impact at the point of sale.

Operation of Regional Brewing Facilities. Management believes that, by locating its production facilities in proximity to the key regional markets it serves, the Company is able to enjoy distinct competitive advantages. Shortened delivery times maximize product freshness and reduce shipping costs. Established brand awareness of the Company s products and enhanced familiarity with local consumer tastes enable the Company to offer select products that appeal to regional preferences. By pursuing this strategy, the Company believes that it will be able to preserve its reputation and prestige as a regional craft brewer.

Promotion of Products. The Company promotes its products through a variety of advertising programs with its wholesalers, by training and educating wholesalers and retailers about the Company s products, through promotions at local festivals, venues, and pubs, by utilizing its pubs located at the Company s two breweries, through price discounting, and, more recently, through Craft Brands. In the midwest and eastern U.S., the Company s principal advertising programs include radio, billboards and print advertising (magazines, newspapers, industry publications). The Company also markets its products to distributors, retailers and consumers through a variety of specialized training and promotional methods, including training sessions for distributors and retailers in understanding the brewing process, the craft beer segment and Redhook products. Promotional methods directed towards consumers include introducing Redhook products on draft in pubs and restaurants, using promotional items including tap handles, glassware and coasters, and participating in local festivals and sports venues to increase brand name recognition. In addition, the Company s prominently located breweries feature pubs and retail outlets and offer guided tours to further increase consumer awareness of Redhook. Craft Brands is responsible for promotion, advertising and marketing in the western U.S. and uses methods similar to the Company s in its promotion of Redhook products.

The Company will occasionally enter into advertising and promotion programs where the entire program is funded by the Company; however, in recent years, the Company has favored co-operative programs where the Company s spending is matched with an investment by a local distributor. Co-operative programs align the interests of the Company with those of the wholesaler whose local market knowledge contributes to more effective promotions. Sharing these efforts with a wholesaler helps the Company to leverage their investment in advertising programs and gives the participating wholesaler a vested interest in the program s success.

Table of Contents

Products

The Company produces a variety of specialty craft beers using traditional European brewing methods. The Company brews its beers using only high-quality hops, malted barley, wheat, rye and other natural ingredients, and does not use any rice, corn, sugar, syrups or other adjuncts. The Company's beers are marketed on the basis of freshness and distinctive flavor profiles. To help maintain full flavor, the Company's products are not pasteurized. As a result, it is appropriate that they be kept cool so that oxidation and heat-induced aging will not adversely affect the original taste, and that they be distributed and served as soon as possible, generally within three months after packaging, to maximize freshness and flavor. The Company distributes its products only in glass bottles and kegs, and its products are freshness dated for the benefit of wholesalers and consumers.

The Company currently produces nine principal brands, each with its own distinctive combination of flavor, color and clarity:

Redhook ESB (*ESB*). The Company's flagship brand, *ESB*, which accounted for approximately 28%, 36% and 47% of the Company's shipments in 2007, 2006 and 2005, respectively, is a rich, copper-colored ale styled by a complex balance between the bitterness of the hops and the sweetness of a heavier caramel malting.. Shipments of *ESB*, as a percentage of total Company shipments, have declined over the past three years as a result of increases in sales of Redhook's other products, particularly *Redhook Long Hammer IPA*, seasonal offerings, variety packs, licensed *Widmer Hefeweizen* as well as beer brewed on a contract basis for Widmer.

Long Hammer IPA (*Long Hammer*). A premium English, pub-style bitter ale, *Long Hammer*, accounted for approximately 19%, 16% and 17% of the Company's shipments in 2007, 2006 and 2005, respectively. *Long Hammer* has a strong hop profile that takes advantage of dry-hopping and Cascade hops because they impart a wonderful aroma without an overpowering hop taste.

Redhook Blonde Ale. A delicious, thirst-quenching golden ale, the combination of lightly roasted barley, subtle hops, and a touch of wheat creates a perfectly balanced and distinctively drinkable ale.

Blackhook Porter (*Blackhook*). A London-style porter, *Blackhook* has an ebony tone, a pleasant toasted character produced by highly roasted barley, and a dark malt flavor suggesting coffee and chocolate, balanced by lively hopping.

Copperhook Ale (*Copperhook*). This ale is cold fermented so beer drinkers can enjoy the full flavor characteristics. With its brilliant copper color, *Copperhook* has a light maltiness, pleasant hop aroma, and distinctive citrus flavor.

Redhook Sunrye Ale (*Sunrye*). Gently roasted barley, delicate hops and a touch of rye combine for a very balanced lighter style ale. Slightly unfiltered to exude a pearl glow, *Sunrye* is styled for warm weather refreshment. *Sunrye* is available from April through September in western markets and April through July in midwest and eastern markets.

Late Harvest Autumn Ale (*Autumn Ale*). A roasted malt aroma and distinct flavors of the Northern Brewer and Saaz hops mark this full-bodied ale. The two row barley foundation malt gives *Autumn Ale* its full body. The specialty malts Crystal, German Smoked Munich, Caramel and Roasted give it a rich complexity. *Autumn Ale* is available August to September in midwest and eastern markets.

Winterhook. A rich, seasonal holiday ale formulated specially each year for cold-weather enjoyment, *Winterhook* typically is deep in color and rich in flavor, with complex flavors and a warm finish. Typically, the Company changes the style of this ale each year. *Winterhook* is available during fall and winter months.

The Company also sells *Widmer Hefeweizen* in the midwest and eastern U.S. under license from Widmer. *Widmer Hefeweizen* is a golden unfiltered wheat beer and is one of the leading American style Hefeweizens sold in the U.S. In 2003, the Company entered into a licensing agreement with Widmer to produce and sell

Table of Contents

the *Widmer Hefeweizen* brand in states east of the Mississippi River. In March 2006, the *Widmer Hefeweizen* distribution territory was expanded to include all of the Company's midwest and eastern markets. In the fourth quarter of 2006, the *Widmer Hefeweizen* distribution territory was again modified when Widmer exercised its contractual right to eliminate Texas from the Company's *Widmer Hefeweizen* distribution territory. Brewing of this product is conducted at the New Hampshire Brewery under the supervision and assistance of Widmer's brewing staff to insure the brand's quality and matching taste profile. The licensing agreement automatically renewed on February 1, 2008 for an additional one-year term expiring on February 1, 2009. The agreement provides for additional one-year automatic renewals unless either party notifies the other of its desire to have the agreement expire at the end of the then existing term at least 150 days prior to such expiration. The agreement may also be terminated by either party at any time without cause pursuant to 150 days notice or for cause by either party under certain conditions. Additionally, the Company and Widmer have entered into a secondary agreement providing that if Widmer terminates the licensing agreement or causes it to expire before December 31, 2009, Widmer will pay the Company a lump sum payment to partially compensate the Company for capital equipment expenditures made at the New Hampshire Brewery to support Widmer's growth. During the term of this agreement, Redhook will not brew, advertise, market, or distribute any product that is labeled or advertised as a Hefeweizen or any similar product in the agreed upon midwest and eastern territory. Brewing and selling of Redhook's Hefe-weizen was discontinued in conjunction with this agreement. The Company believes that this agreement increases capacity utilization and has strengthened the Company's product portfolio. The Company shipped 28,800, 30,600 and 25,600 barrels of *Widmer Hefeweizen* during the years ended December 31, 2007, 2006 and 2005, respectively. A licensing fee of \$432,000, \$437,000 and \$399,000 due to Widmer is reflected in the Company's statement of operations for the years ended December 31, 2007, 2006 and 2005, respectively. If the Widmer licensing agreement were terminated early, the Company would need to look to replace the lost volume, either through new or existing Redhook products or alternative brewing relationships. If the Company were unable to replace the lost Widmer volume, the loss of revenue and the resulting excess capacity in the New Hampshire Brewery would have an adverse effect on the Company's financial performance.

The Company also sells *Pacific Ridge* in the western U.S. In 2003, the Company entered into a purchase and sale agreement with A-B for the purchase of the *Pacific Ridge* brand, trademark and related intellectual property. In consideration, the Company agreed to pay A-B a fee for 20 years based upon the Company's sales of the brand. The Company shipped 5,100, 5,900, and 6,000 barrels of *Pacific Ridge* during 2007, 2006 and 2005, respectively. A fee of \$71,000, \$80,000 and \$83,000 due to A-B is reflected in the Company's statement of operations for the years ended December 31, 2007, 2006 and 2005, respectively.

In an effort to be responsive to varying consumer style and flavor preferences, the Company periodically engages in the development and testing of new products. The Company believes that the continued success of craft brewers will be affected by their ability to be innovative and attentive to consumer desires for new and distinctive taste experiences while maintaining consistently high product quality. The Company's breweries allow it to produce small-batch experimental ales within three weeks. Experimental products are periodically developed and typically produced in draft form only for on-premise test marketing at the Company's pubs and selected retail sites. If the initial consumer reception of an experimental brew is sufficiently positive, then its taste and formula are refined, as necessary, and a new Redhook brand may be created. *Long Hammer*, *Redhook Blonde Ale* and many of the Company's seasonal offerings are examples of products that were developed in this manner.

Brewing Operations

The Brewing Process. Beer is made primarily from four natural ingredients: malted grain, hops, yeast and water. The grain most commonly used in brewing is barley, owing to its distinctive germination characteristics that make it easy to ferment. The Company uses the finest barley malt, using strains of barley having two rows of grain in each ear. A wide variety of hops may be used to add seasoning to the brew; some varieties best confer bitterness, while others are chosen for their ability to impart distinctive aromas to the beer. Nearly all the yeasts used to induce or augment

fermentation of beer are of the species *Saccharomyces*

Table of Contents

cerevisiae, which includes both the top-fermenting yeasts used in ale production and the bottom-fermenting yeasts associated with lagers.

The brewing process begins when the malt supplier soaks the barley grain in water, thereby initiating germination, and then dries and cures the grain through kilning. This process, known as malting, breaks down complex carbohydrates and proteins so that they can be easily extracted. The malting process also imparts color and flavor characteristics to the grain. The cured grain, referred to as malt, is then sold to the brewery. At the brewery, various malts are cracked by milling, and mixed with warm water. This mixture, or mash, is heated and stirred in the mash tun, allowing the simple carbohydrates and proteins to be converted into fermentable sugars. Naturally occurring enzymes help facilitate this process. The mash is then strained and rinsed in the lauter tun to produce a residual liquid, high in fermentable sugars, called wort, which then flows into a brew kettle to be boiled and concentrated. Hops are added during the boil to impart bitterness, balance and aroma. The specific mixture of hops and the brewing time and temperature further affect the flavor of the beer. After the boil, the wort is strained and cooled before it is moved to a fermentation cellar, where specially cultured yeast is added to induce fermentation. During fermentation, the wort's sugars are metabolized by the yeast, producing carbon dioxide and alcohol. Some of the carbon dioxide is recaptured and absorbed back into the beer, providing a natural source of carbonation. After fermentation, the beer is cooled for several days while the beer is clarified and full flavor develops. Filtration, the final step for a filtered beer, removes unwanted yeast. At this point, the beer is in its peak condition and ready for bottling or keg racking. The entire brewing process of ales, from mashing through filtration, is typically completed in 14 to 21 days, depending on the formulation and style of the product being brewed.

Brewing Equipment. The Company uses highly automated small-batch brewing equipment. The Washington Brewery employs a 100-barrel mash tun, lauter tun, wort receiver, wort kettle, whirlpool kettle, five 70,000-pound, one 35,000-pound and two 25,000-pound grain silos, two 100-barrel, fifty-four 200-barrel, and ten 600-barrel fermenters, and two 300-barrel and four 400-barrel bright tanks. The New Hampshire Brewery employs a 100-barrel mash tun, lauter tun, wort receiver, wort kettle, whirlpool kettle, four 70,000-pound grain silos, including one that was added in May 2007, two 35,000-pound grain silos, nine 100-barrel, two 200-barrel and twenty-six 400-barrel fermenters, including four that were added in June 2007, two 200-barrel and two 400-barrel bright tanks, and an anaerobic waste-water treatment facility which completes the process

Table of Contents

cycle. Both breweries use advanced micro filtration technology, including a diatomaceous earth pad filter and sterile filtration.

Packaging. The Company packages its craft beers in both bottles and kegs. Both of the Company's breweries have fully automated bottling and keg lines. The bottle filler at both breweries utilizes a carbon dioxide environment during bottling that is designed to ensure that minimal oxygen is dissolved in the beer, thereby extending product shelf life.

Quality Control. The Company monitors production and quality control at both of its breweries, with central coordination at the Washington Brewery. Both the Washington and New Hampshire breweries have an on-site laboratory where microbiologists and lab technicians supervise on-site yeast propagation, monitor product quality, test products, measure color and bitterness, and test for oxidation and unwanted bacteria. The Company also regularly utilizes outside laboratories for independent product analysis.

Ingredients and Raw Materials. The Company currently purchases approximately 85% to 90% of its malted barley from a single supplier and its premium-quality select hops, grown in the Pacific Northwest, Germany and Czech Republic, from competitive sources. The Company also periodically purchases small lots of European hops that it uses to achieve a special hop character in certain of its beers. In order to ensure the supply of the hop varieties used in its products, the Company enters into supply contracts for its hop requirements. The Company believes that comparable quality malted barley and hops are available from alternate sources at competitive prices, although there can be no assurance that pricing would be consistent with the Company's current arrangements. The Company currently cultivates its own *Saccharomyces cerevisiae* yeast supply and maintains a separate, secure supply in-house. The Company has access to multiple competitive sources for packing materials, such as bottles, labels, six-pack carriers, crowns and shipping cases.

Product Distribution

The Company's products are available for sale directly to consumers in draft and bottles at restaurants, bars and liquor stores, as well as in bottles at supermarkets, warehouse clubs, convenience stores and drug stores. Like substantially all craft brewers, the Company's products are delivered to these retail outlets through a network of local distributors whose principal business is the distribution of beer and, in some cases, other alcoholic beverages, and who traditionally have distribution relationships with one or more national beer brands. To promote and educate the public on Redhook's products, the Company offers its products directly to consumers at the Company's two on-premise retail establishments located at the Company's breweries, the Forecasters Public House in Woodinville, Washington and the Cataqua Public House in Portsmouth, New Hampshire.

Prior to establishing a distribution relationship with A-B in 1994, the Company distributed its products regionally through multiple distributors, many of which were part of the A-B distribution network, in eight western states: Washington, California (northern), Oregon, Idaho, Montana, Wyoming, Colorado and Alaska. In October 1994, the Company entered into a distribution agreement with A-B (the Distribution Alliance) pursuant to which the Company began distributing its products, for any new markets entered, exclusively through this agreement. Existing wholesalers continued to distribute the Company's products outside of the Distribution Alliance. By 2003, 72% of the Company's sales volume was through Alliance distributors.

On July 1, 2004, the Company entered into a new distribution agreement with A-B (the A-B Distribution Agreement) pursuant to which the Company continues to sell its product in the midwest and eastern U.S. through sales to A-B and distribute its product through the A-B distribution network.

On July 1, 2004, the Company also entered into agreements with Widmer with respect to the operation of their joint venture sales and marketing entity, Craft Brands. Under their agreements with Craft Brands, the Company

manufactures and sells its product to Craft Brands at a price substantially below wholesale pricing levels; Craft Brands, in turn, advertises, markets, sells and distributes the product to wholesale outlets in the western U.S. through a distribution agreement between Craft Brands and A-B.

Currently, there are no Company products distributed in the U.S. by a wholesaler that are not distributed pursuant to the A-B Distribution Agreement or the distribution agreement between Craft Brands and A-B.

Table of Contents

For additional information regarding the Company's relationship with A-B and Craft Brands, see "Relationship with Anheuser-Busch, Incorporated" and "Relationship with Craft Brands Alliance LLC" below.

A-B, whose products accounted for approximately 48.5% of total beer shipped by volume in the U.S. in 2007, including imports, distributes its products throughout the U.S. through a network of more than 560 independent wholesale distributors, most of whom are geographically contiguous and independently owned and operated, and 13 branches owned and operated by A-B. The Company believes that the typical A-B distributor is financially stable and has both a long-standing presence and a substantial market share of beer sales in its territory.

The Company chose to align itself with A-B through the 1994 Distribution Alliance, and again through the 2004 A-B Distribution Agreement and Craft Brands' distribution agreement with A-B, to gain access to quality distribution throughout the U.S. The Company was the first and is the largest independent craft brewer to have a formal distribution agreement with a major U.S. brewer. Management believes that the Company's competitors in the craft beer segment generally negotiate distribution relationships separately with distributors in each locality and, as a result, typically distribute through a variety of wholesalers representing differing national beer brands with uncoordinated territorial boundaries. Because A-B's distributors are assigned territories that generally are contiguous, the distribution relationship with A-B enables the Company to reduce the gaps and overlaps in distribution coverage often experienced by the Company's competitors.

In 2007, 2006 and 2005, the Company sold approximately 107,900, 101,400 and 85,100 barrels, respectively, to A-B through the A-B Distribution Agreement, accounting for approximately 34%, 37% and 38%, respectively, of the Company's sales volume for the period. During these same periods, the Company shipped approximately 121,900, 122,600 and 126,500 barrels, or 38%, 45% and 56% of the Company's sales volume, to Craft Brands.

The Company's most significant wholesaler, K&L Distributors, Inc. ("K&L"), is responsible for distribution of the Company's products in most of King County, Washington, including Seattle, Washington. K&L accounted for approximately 8%, 11% and 12%, respectively, of total sales volume in 2007, 2006 and 2005, respectively. Shipments of the Company's product to K&L during these years were marketed through Craft Brands. Due to state liquor regulations, the Company sells its product in Washington State directly to third-party beer distributors and returns a portion of the revenue to Craft Brands based upon a contractually determined formula.

Relationship with Anheuser-Busch, Incorporated

On July 1, 2004, the Company completed the restructuring of its ongoing relationship with A-B. Pursuant to an exchange and recapitalization agreement between the Company and A-B (the "Exchange and Recapitalization Agreement"), the Company issued 1,808,243 shares of its Common Stock to A-B in exchange for 1,289,872 shares of Series B Preferred Stock held by A-B. The Series B Preferred Stock, reflected in the Company's July 1, 2004 balance sheet at approximately \$16.3 million, was subsequently cancelled. In connection with the exchange, the Company also paid \$2.0 million to A-B in November 2004. A-B was also granted certain contractual registration rights with respect to its shares of the Company's Common Stock. As of December 31, 2007 and 2006, A-B owned approximately 33.1% and 33.3%, respectively, of the Company's Common Stock.

Additionally, pursuant to the Exchange and Recapitalization Agreement, A-B is entitled to designate two members of the board of directors of the Company. A-B also generally has the contractual right to have one of its designees sit on each committee of the board of directors of the Company. The Exchange and Recapitalization Agreement also contains limitations on the Company's ability to take certain actions without A-B's prior consent, including but not limited to the Company's ability to issue equity securities or acquire or sell assets or stock, amend its Articles of Incorporation or bylaws, grant board representation rights, enter into certain transactions with affiliates, distribute its products in the U.S. other than through A-B, Craft Brands or as provided in the A-B Distribution Agreement,

voluntarily delist or terminate its listing on the Nasdaq Stock Market, or dispose any of its interest in Craft Brands. Further, if the A-B Distribution Agreement or the distribution agreement between Craft Brands and A-B is terminated, or the distribution of Redhook products is

Table of Contents

terminated by Craft Brands under the distribution agreement between Craft Brands and A-B, A-B has the right to solicit and negotiate offers from third parties to purchase all or substantially all of the assets or securities of the Company or to enter into a merger or consolidation transaction with the Company and the right to cause the board of directors of the Company to consider any such offer.

On July 1, 2004, the Company also entered into the A-B Distribution Agreement. The A-B Distribution Agreement provides for the distribution of the Company's products in the midwest and eastern U.S. (the Eastern Territory), which represents those states not covered by the Supply, Distribution and Licensing Agreement between the Company and Craft Brands. The structure of the new A-B Distribution Agreement is substantially similar to the Company's prior arrangement with A-B. Under the A-B Distribution Agreement, the Company has granted A-B the first right to distribute Redhook products, including future new products, in the Eastern Territory. The Company is responsible for marketing its products to A-B's distributors in the Eastern Territory, as well as to retailers and consumers. The A-B distributors then place orders with the Company, through A-B, for Redhook products. The Company separately packages and ships the orders in refrigerated trucks to the A-B distribution center nearest to the distributor or, under certain circumstances, directly to the distributor.

The A-B Distribution Agreement has a term that expires on December 31, 2014, subject to automatic renewal for an additional ten-year period unless A-B provides written notice of non-renewal to the Company on or prior to June 30, 2014. The A-B Distribution Agreement is also subject to early termination, by either party, upon the occurrence of certain events. The A-B Distribution Agreement may be terminated immediately, by either party, upon the occurrence of any one or more of the following events:

1) a material default by the other party in the performance of any of the provisions of the A-B Distribution Agreement or any other agreement between the parties, which default is either:

i) curable within 30 days, but is not cured within 30 days following written notice of default; or

ii) not curable within 30 days and either:

(1) the defaulting party fails to take reasonable steps to cure as soon as reasonably possible following written notice of such default; or

(2) such default is not cured within 90 days following written notice of such default;

2) default by the other party in the performance of any of the provisions of the A-B Distribution Agreement or any other agreement between the parties, which default is not described in (1) above and which is not cured within 180 days following written notice of such default;

3) the making by the other party of an assignment for the benefit of creditors; or the commencement by the other party of a voluntary case or proceeding or the other party's consent to or acquiescence in the entry of an order for relief against such other party in an involuntary case or proceeding under any bankruptcy, reorganization, insolvency or similar law;

4) the appointment of a trustee or receiver or similar officer of any court for the other party or for a substantial part of the property of the other party, whether with or without the consent of the other party, which is not terminated within 60 days from the date of appointment thereof;

5) the institution of bankruptcy, reorganization, insolvency or liquidation proceedings by or against the other party without such proceedings being dismissed within 90 days from the date of the institution thereof;

6) any representation or warranty made by the other party under or in the course of performance of the A-B Distribution Agreement that is false in material respects; or

7) the distribution agreement between Craft Brands and A-B is terminated or the distribution thereunder of the products of Redhook is terminated pursuant to its terms.

Table of Contents

Additionally, the A-B Distribution Agreement may be terminated by A-B, upon six months prior written notice to the Company, in the event:

- 1) the Company engages in certain Incompatible Conduct which is not curable or is not cured to A-B's satisfaction (in A-B's sole opinion) within 30 days. Incompatible Conduct is defined as any act or omission of the Company that, in A-B's determination, damages the reputation or image of A-B or the brewing industry;
- 2) any A-B competitor or affiliate thereof acquires 10% or more of the outstanding equity securities of the Company, and one or more designees of such person becomes a member of the board of directors of the Company;
- 3) the current chief executive officer of the Company ceases to function as chief executive officer and within six months of such cessation a successor satisfactory in the sole, good faith discretion of A-B is not appointed;
- 4) the Company is merged or consolidated into or with any other person or any other person merges or consolidates into or with the Company; or
- 5) A-B or its corporate affiliates incur any liability or expense as a result of any claim asserted against them by or in the name of the Company or any shareholder of the Company as a result of the equity ownership of A-B or its affiliates in the Company, or any equity transaction or exchange between A-B or its affiliates and the Company, and the Company does not reimburse and indemnify A-B and its corporate affiliates on demand for the entire amount of such liability and expense.

Fees

Generally, the Company pays the following fees to A-B in connection with the sale of the Company's products:

Margin. In connection with all sales through the July 1, 2004 A-B Distribution Agreement, the Company pays a Margin fee to A-B. The Margin does not apply to sales from the Company's retail operations or to dock sales. The Margin also does not apply to the Company's sales to Craft Brands because Craft Brands pays a comparable fee to A-B on its resale of the product. The A-B Distribution Agreement also provides that the Company shall pay an additional fee to A-B on all shipments that exceed fiscal year 2003 shipments in the same territory (the Additional Margin).

During the year ended December 31, 2007, the Margin was paid to A-B on shipments totaling 107,900 barrels to 532 distribution points. During the year ended December 31, 2006, the Margin was paid to A-B on shipments totaling 101,400 barrels to 503 distribution points. During the year ended December 31, 2005, the Margin was paid to A-B on shipments totaling 85,100 barrels to 472 distribution points. Because 2007, 2006 and 2005 shipments in the midwest and eastern U.S. each exceeded 2003 shipments in the same territory, the Company paid A-B the Additional Margin on 30,000, 23,000 and 7,000 barrels, respectively. The Margin and Additional Margin is reflected as a reduction of sales in the Company's statements of operations.

Invoicing Cost. Since July 1, 2004, the invoicing cost is payable on sales through the A-B Distribution Agreement. The fee does not apply to sales by the Company's retail operations or to dock sales. The fee also does not apply to the Company's sales to Craft Brands because Craft Brands pays a comparable fee to A-B. The basis for this charge is number of pallet lifts.

According to the terms of the A-B Distribution Agreement, the fee per pallet lift is generally adjusted on January 1 of each year.

Staging Cost and Cooperage Handling Charge. The Staging Cost is payable on all sales through the A-B Distribution Agreement that are delivered to an A-B brewery or A-B distribution facility. The fee does not apply to product shipped directly to a wholesaler or wholesaler support center. The Cooperage Handling Charge is payable on all draft sales through the A-B Distribution Agreement that are delivered to a wholesaler support center or directly to a wholesaler. The basis for these fees is number of pallet lifts. According to the

Table of Contents

terms of the A-B Distribution Agreement, the Staging Cost and Cooperage Handling Charge fees are generally adjusted on January 1 of each year.

Inventory Manager Fee. The Inventory Manager Fee is paid to reimburse A-B for a portion of the salary of a corporate inventory management employee, a substantial portion of whose responsibilities are to coordinate and administer logistics of the Company's product distribution to wholesalers. This fee has remained relatively constant since 2004.

The Invoicing Cost, Staging Cost, Cooperage Handling Charge and Inventory Manager Fee are reflected in cost of sales in the Company's statement of operations. These fees totaled approximately \$150,000, \$129,000 and \$249,000 for the years ended December 31, 2007, 2006 and 2005, respectively. These fees were lower in 2006 compared to 2005 and 2007 as the Company recognized a refund of \$124,000 from A-B in 2006 from over billed invoicing costs from 1995 through 2005.

Wholesaler Support Center Fee. In certain instances, the Company may ship its product to A-B wholesaler support centers rather than directly to the wholesaler. Wholesaler support centers assist the Company by consolidating small wholesaler orders with orders of other A-B products prior to shipping to the wholesaler. A wholesaler support center fee of \$171,000, \$158,000 and \$32,000 is reflected in the Company's statements of operations for the years ended December 31, 2007, 2006 and 2005, respectively.

Management believes that the benefits of the distribution arrangement with A-B, particularly the increased sales volume and efficiencies in delivery, state reporting and licensing, billing and collections, are significant to the Company's business. The Company believes that the existence of the A-B Distribution Agreement, presentations by Redhook's management at A-B's distributor conventions, A-B communications about Redhook in printed distributor materials, and A-B supported opportunities for Redhook to educate A-B distributors about its specialty products have resulted in increased awareness of and demand for Redhook products among A-B's distributors.

If the A-B Distribution Agreement were terminated early, as described above, it would be extremely difficult for the Company to rebuild its distribution network without a severe negative impact on the Company's sales and results of operations. In such an event, Redhook would be faced with finding another national distribution partner similar to A-B, and entering into a complex distribution and investment arrangement with that entity, or with negotiating separate distribution agreements with individual distributors throughout the U.S. Currently, Redhook distributes its product through a network of more than 560 independent wholesale distributors, most of whom are geographically contiguous and independently owned and operated, and 13 branches owned and operated by A-B. If we had to negotiate separate agreements with individual distributors, such an undertaking would necessarily take a significant amount of time to complete, during which time Redhook's products would not be distributed. It would also be extremely difficult to build a seamless and contiguous distribution network similar to the one we currently enjoy through A-B. Additionally, we would need to raise significant capital to fund the development of a new distribution network and continue operations. There can be no guarantee that financing would be available when needed, either from our current lender or from the capital markets, or that any such financing would be on commercially reasonable terms. Given the difficulty that we would face if we needed to rebuild our distribution network, if the current distribution arrangement with AB were to be terminated, it is unlikely Redhook would be able to continue as a going concern.

Relationship with Craft Brands Alliance LLC

On July 1, 2004, the Company entered into agreements with Widmer with respect to the operation of Craft Brands. Craft Brands is a joint venture between the Company and Widmer that purchases products from the Company and Widmer and markets, advertises, sells and distributes these products in the Western Territory pursuant to a distribution

agreement with A-B (the Craft Brands Distribution Agreement). The Western Territory includes the following western states: Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, New Mexico, Nevada, Oregon, Washington and Wyoming. The Company and Widmer are each a 50% member of Craft Brands and each has the right to designate two directors to its six member board. A-B is entitled to designate the remaining two directors.

Table of Contents

The Company and Widmer have entered into an operating agreement with Craft Brands (the Operating Agreement) that governs the operations of Craft Brands and the obligations of its members, including capital contributions, loans and allocation of profits and losses.

The Operating Agreement requires the Company to make certain capital contributions to support the operations of Craft Brands. Contemporaneous with the execution of the Operating Agreement, the Company made a 2004 sales and marketing capital contribution in the amount of \$250,000. The agreement designated this sales and marketing capital contribution to be used by Craft Brands for expenses related to the marketing, advertising and promotion of the Company s products. In February 2007 and in February 2008, the Company and Widmer amended the Operating Agreement to require an additional sales and marketing contribution in 2009 if the volume of sales of Redhook products in 2008 in the Western Territory is less than 92% of the volume of sales of Redhook products in 2003 in the Western Territory. Under these amendments, Redhook s maximum 2009 sales and marketing contribution was reduced to \$310,000, reflecting the Company s commitment to expand the production capacity of its Washington and New Hampshire breweries to produce more Widmer products. Widmer also has a sales and marketing contribution under the amended Operating Agreement with similar terms that is capped at \$750,000. If required, the 2009 sales and marketing contribution is due by February 1, 2009. Because sales in the craft beer industry generally reflect a degree of seasonality and the Company has historically operated with little or no backlog, the Company s ability to predict sales for future periods is limited. Accordingly, the Company cannot predict to what degree, if at all, the Company will be required to make this 2009 sales and marketing contribution. If the Company is required to make this additional sales and marketing contribution in 2009, the Company s available cash will decrease and income from Craft Brands will decrease by the amount of the contribution, which will be allocated 100% to the Company. The Operating Agreement also obligates the Company and Widmer to make other additional capital contributions only upon the request and consent of the Craft Brands board of directors.

The Operating Agreement also requires the Company and Widmer to make loans to Craft Brands to assist Craft Brands in conducting its operations and meeting its obligations. To the extent cash flow from operations and borrowings from financial institutions is not sufficient for Craft Brands to meet its obligations, the Company and Widmer are obligated to lend to Craft Brands the funds the president of Craft Brands deems necessary to meet such obligations. Contemporaneous with the execution of the Operating Agreement, the Company made a member loan to Craft Brands of \$150,000. Craft Brands repaid this loan plus accrued interest in December 2004.

The Operating Agreement additionally addresses the allocation of profits and losses of Craft Brands. After giving effect to the allocation of the sales and marketing capital contribution, if any, and after giving effect to income attributable to the shipments of the Kona Brewery LLC (Kona) brand, which was shared differently between the Company and Widmer through 2006, the remaining profits and losses of Craft Brands are allocated between the Company and Widmer based on the cash flow percentages of 42% and 58%, respectively. Net cash flow, if any, will generally be distributed monthly to the Company and Widmer based upon the cash flow percentages. No distribution will be made to the Company or Widmer unless, after the distribution is made, the assets of Craft Brands will be in excess of its liabilities, with the exception of liabilities to members, and Craft Brands will be able to pay its debts as they become due in the ordinary course of business.

The Company also entered into a Supply, Distribution and Licensing Agreement with Craft Brands (the Supply and Distribution Agreement). Under the Supply and Distribution Agreement, the Company is required to manufacture and sell its product directly to Craft Brands (except in states where laws require sales to be made directly from Redhook to wholesalers) and Craft Brands advertises, markets and distributes the products to wholesale outlets in the Western Territory through the Craft Brands Distribution Agreement with A-B. The Company has granted Craft Brands a license to use Redhook intellectual property in connection with these efforts to advertise, market, sell and distribute the Company s products in the Western Territory. The Supply and Distribution Agreement also gives the Company the right to manufacture certain products of Widmer for sale to Craft Brands if Widmer is unable to manufacture the

quantity ordered by Craft Brands. In addition, if sales of the Company's products decrease as compared to previous year sales, the Company has an option to manufacture Widmer products in an amount equal to the lower of (i) the Company's product decrease or (ii) the Widmer product increase.

Table of Contents

The Supply and Distribution Agreement also provides that Craft Brands may elect to discontinue distributing a Redhook product if sales volume of such product declines to less than 20% of the total volume of all Redhook products and the volume of Redhook's product in the prior year decreased by more than 10% as compared to the year prior.

The territory covered by the Supply and Distribution Agreement may be expanded to cover one or more of the following states, at Craft Brands' request: Arkansas, Iowa, Kansas, Louisiana, Minnesota, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota and Texas.

Widmer has also entered into a Supply, Distribution and Licensing Agreement with Craft Brands upon substantially similar terms.

The Supply and Distribution Agreement has an indefinite term, subject to early termination upon the occurrence of certain events. The Supply and Distribution Agreement may be terminated immediately, by either party, upon the occurrence of any one or more of the following events:

- 1) the other party fails to timely make any payment required under the Supply and Distribution Agreement for a period of 60 days following written notice thereof;
- 2) the other party fails to perform any other material obligation under the Supply and Distribution Agreement and such failure remains uncured for a period of 60 days following written notice thereof;
- 3) the other party becomes the subject of insolvency or bankruptcy proceedings, ceases doing business, makes an assignment of assets for the benefit of creditors, dissolves, or has a trustee appointed for all or a substantial portion of such party's assets;
- 4) any government authority makes a final decision invalidating a substantial portion of the Supply and Distribution Agreement;
- 5) either party finds that complying with any law or regulation relating to fulfilling its obligations under the Supply and Distribution Agreement would be commercially unreasonable and failure to comply with the law or regulation would subject such party or any of its personnel to a monetary or criminal penalty;
- 6) the Craft Brands Distribution Agreement with A-B terminates for any reason; or
- 7) the Operating Agreement terminates for any reason.

Additionally, Craft Brands may, upon notice to the Company, terminate the Supply and Distribution Agreement if the Company causes Craft Brands to be in default in its obligations under the Craft Brands Distribution Agreement with A-B and the Company either (a) fails to take all actions necessary to cause Craft Brands to cure such default or (b) fails to pay on demand certain direct or indirect costs arising out of or related to such default. Craft Brands may also terminate the Supply and Distribution Agreement and cease advertising, marketing, or distributing one or more of the Company's products if an event of default occurs under the Craft Brands Distribution Agreement that gives A-B the right to terminate that agreement and the Company caused such event of default.

If the Supply and Distribution Agreement were terminated early, as described above, it would be extremely difficult for the Company to rebuild its distribution network and re-launch its marketing and advertising activities in the Western Territory without a severe negative impact on the Company's sales and results of operations. It is likely that the Company would need to raise additional funds to develop a new distribution network. There cannot be any

guarantee that the Company would be able to successfully rebuild all, or part, of its distribution network or that any additional financing would be available when needed, or that any such financing would be on commercially reasonable terms. Additionally, termination of the Supply and Distribution Agreement could cause a default under the Craft Brands Distribution Agreement, which could in turn cause the Company to be in default under the A-B Distribution Agreement.

The Company has assessed its investment in Craft Brands pursuant to the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 46 Revised, *Consolidation of Variable Interest*

Table of Contents

Entities an Interpretation of ARB No. 51, (FIN 46R) and has concluded that its investment in Craft Brands meets the definition of a variable interest entity but that the Company is not the primary beneficiary. In accordance with FIN 46R, the Company has not consolidated the financial statements of Craft Brands with the financial statements of the Company, but instead accounted for its investment in Craft Brands under the equity method, as outlined by Accounting Principle Board (APB) Opinion No. 18, *The Equity Method of Accounting for Investments in Common Stock*. The Company recognized \$2,826,000, \$2,655,000 and \$2,392,000 of undistributed earnings related to its investment in Craft Brands for the years ended December 31, 2007, 2006 and 2005, respectively. The Company received cash distributions of \$2,538,000, \$2,621,000 and \$2,769,000, representing its share of the net cash flow of Craft Brands for the years ended December 31, 2007, 2006 and 2005, respectively. The Company's share of the earnings of Craft Brands contributed a significant portion of income to the Company's results of operations. Separate financial statements for Craft Brands are filed with this Annual Report on Form 10-K in Part IV., Item 15. *Exhibits and Financial Statement Schedules*, in accordance with Rule 3-09 of Regulation S-X.

Sales and Marketing

The Company promotes its products through a variety of advertising programs with its wholesalers, by training and educating wholesalers and retailers about the Company's products, through promotions at local festivals, venues, and pubs, by utilizing the pubs located at the Company's two breweries, through price discounting, and, most recently, through Craft Brands.

The Company advertises its products by utilizing radio, billboard and print advertising in key markets and by participating in a co-operative program with its distributors whereby the Company's spending is matched by the distributor. Since 2000, the Company has allocated a larger share of its advertising budget each year to these co-operative programs. The Company believes that the financial commitment by the distributor helps align the Company's interests with those of its distributor, and the distributor's knowledge of the local market results in an advertising and promotion program that is targeted in a manner that will best promote Redhook and its products. In 2005, the Company reduced its co-op advertising, but continued its promotion program and limited media advertising in select eastern U.S. markets. Expenditures for the co-op program and media advertising program totaled \$443,000, \$365,000 and \$533,000 in 2007, 2006 and 2005, respectively. Craft Brands served the operations of Redhook in the Western Territory for advertising and marketing for all of 2007, 2006 and 2005.

The Company's sales and marketing staff offers education, training and other support to wholesale distributors of the Company's products. Because the Company's wholesalers generally also distribute much higher volume national beer brands and commonly distribute other specialty brands, a critical function of the sales and marketing staff is to elevate each distributor's awareness of the Company's products and to maintain the distributor's interest in promoting increased sales of these products. This is accomplished primarily through personal contact with each distributor, including on-site sales training, educational tours of the Company's breweries, and promotional activities and expenditures shared with the distributors. The Company's sales representatives also provide other forms of support to wholesale distributors, such as direct contact with restaurant and grocery chain buyers, direct involvement in the design of grocery store displays, stacking and merchandising of beer inventory and supply of point-of-sale materials.

The Company's sales representatives devote considerable effort to the promotion of on-premise consumption at participating pubs and restaurants. The Company believes that educating retailers about the freshness and quality of the Company's products will in turn allow retailers to assist in educating consumers. The Company considers on-premise product sampling and education to be among its most effective tools for building brand awareness with consumers and establishing word-of-mouth reputation. On-premise marketing is also accomplished through a variety of other point-of-sale tools, such as neon signs, tap handles, coasters, table tents, banners, posters, glassware and menu guidance. The Company seeks to identify its products with local markets by participating in or sponsoring cultural and community events, local music and other entertainment venues, local craft beer festivals and cuisine events, and local

sporting events.

Table of Contents

The Company's breweries also play a significant role in increasing consumer awareness of the Company's products and enhancing Redhook's image as a craft brewer. Many visitors take tours at the Company's breweries. Both of the Company's breweries have a retail pub on-site where the Company's products are served. In addition, the breweries have meeting rooms that the public can rent for business meetings, parties and holiday events, and that the Company uses to entertain and educate distributors, retailers and the media about the Company's products. See Item 2.

Properties. The Company also sells various items of apparel and memorabilia bearing the Company's trademarks at its pubs, which creates further awareness of the Company's beers and reinforces the Company's quality image.

To further promote retail bottled product sales and in response to local competitive conditions, the Company regularly offers post-offs, or price discounts, to distributors in most of its markets. Distributors and retailers usually participate in the cost of these price discounts.

The Craft Brands joint sales and marketing organization serves the operations of Redhook and Widmer in the Western Territory by advertising, marketing, selling and distributing both companies' products to wholesale outlets through a distribution agreement between Craft Brands and A-B. Similar to the Company, Craft Brands promotes its products through a variety of advertising programs with its wholesalers, through training and education of wholesalers and retailers, through promotions at local festivals, venues, and pubs, by utilizing the pubs located at the Company's two breweries, and through price discounting. Management believes that, in addition to achieving certain synergies by combining sales and marketing forces, Craft Brands is able to capitalize on both companies' sales and marketing skills and complementary product portfolios. The Company believes that the combination of the two brewers' complementary brand portfolios, led by one focused sales and marketing organization, will not only deliver financial benefits, but will also deliver greater impact at the point-of-sale.

Seasonality

Sales of the Company's products generally reflect a degree of seasonality, with the first and fourth quarters historically being the slowest and the rest of the year typically demonstrating stronger sales. The volume of sales may also be affected by weather conditions. Therefore, the Company's results for any quarter may not be indicative of the results that may be achieved for the full fiscal year.

Competition

The Company competes in the highly competitive craft brewing market as well as in the much larger specialty beer market, which encompasses producers of import beers, major national brewers that have introduced fuller-flavored products, and large spirit companies and national brewers that produce flavored alcohol beverages. Beyond the beer market, craft brewers have also faced competition from producers of wines and spirits. See *Industry Background* above.

Competition within the domestic craft beer segment and the specialty beer market is based on product quality, taste, consistency and freshness, ability to differentiate products, promotional methods and product support, transportation costs, distribution coverage, local appeal and price.

The craft beer segment is highly competitive due to the proliferation of small craft brewers, including contract brewers, and the large number of products offered by such brewers. Craft brewers have also encountered more competition as their peers expand distribution. Just as the Company expanded distribution of its products to markets outside of its home in the Pacific Northwest, so have other craft brewers expanded distribution of their products to other regions of the country, leading to an increase in the number of craft brewers in any given market. Competition also varies by regional market. Depending on the local market preferences and distribution, the Company has encountered strong competition from microbreweries, from other regional specialty brewers such as Sierra Nevada

Brewing Company, Deschutes Brewery, Pyramid Breweries and New Belgium Brewing Company, as well as from national brewers such as Boston Beer Company. Because of the large number of participants and number of different products offered in this segment, the competition for bottled product placements and especially for draft beer placements has intensified. Although certain of these competitors distribute their products nationally and may have greater

Table of Contents

financial and other resources than the Company, management believes that the Company possesses certain competitive advantages, including its Company-owned production facilities and its relationships with A-B and Craft Brands.

The Company also competes against producers of imported brands, such as Heineken, Corona Extra, Bass and Guinness. Most of these foreign brewers have significantly greater financial resources than the Company. Although imported beers currently account for a greater share of the U.S. beer market than craft beers, the Company believes that craft brewers possess certain competitive advantages over some importers, including lower transportation costs, no importation costs, proximity to and familiarity with local consumers, a higher degree of product freshness, eligibility for lower federal excise taxes and absence of currency fluctuations.

In response to the growth of the craft beer segment, most of the major domestic brewers have introduced fuller-flavored beers. While these product offerings are intended to compete with craft beers, many of them are brewed according to methods used by the major national brewers. Although increased participation by the major national brewers increases competition for market share and can heighten price sensitivity within the craft beer segment, the Company believes that their participation tends to increase advertising, distribution and consumer education and awareness of craft beers, and thus may contribute to further growth of this industry segment.

In the past few years, several major distilled spirits producers and national brewers have introduced flavored alcohol beverages. Products such as Smirnoff Ice, Bacardi Silver and Mike's Hard Lemonade demonstrate continued growth. The Company believes sales of these products, along with strong growth in the import and craft beer segments of the malt beverage industry, contributed to an increase in the overall U.S. alcohol market. The producers of these products have significantly greater financial resources than the Company and these products appear to draw a portion of overlapping consumers away from imports and craft beers. The success of the flavored alcohol beverages will likely subject the Company to increased competition.

Competition for consumers of craft beers has also come from wine and spirits. Some of the growth in the past five years in the wine and spirits market, industry sources believe, has been drawn from the beer market. This growth appears to be attributable to competitive pricing, television advertising, increased merchandising, and increased consumer interest in wine and spirits.

A significant portion of the Company's sales continue to be in the Pacific Northwest region, which the Company believes is one of the most competitive craft beer markets in the U.S., both in terms of number of participants and consumer awareness. The Company faces extreme competitive pressure in Washington State, which is not only the Company's largest market, but is also its oldest market. Since 2003, the Company has experienced an 18.5% decline in sales volume in Washington state. The Company believes that the Pacific Northwest, and Washington State in particular, offers significant competition to its products, not only from other craft brewers but also from the growing wine market and from flavored alcohol beverages. This intense competition is magnified because the Company's brand is viewed as being relatively mature. Focus studies in late 2004 indicated that, while the Company's brand does possess brand awareness among target consumers, it also appeared to not attract key consumers who seem to be more interested in experimenting with new products. These studies resulted in Craft Brands focusing its 2005 marketing efforts on updating the Redhook brand image to stimulate demand. In the first half of 2005, Craft Brands introduced in the western U.S. several major marketing initiatives, including a proprietary Redhook bottle, a new packaging design and a new marketing campaign, aimed at updating the Redhook brand image. In the second half of 2005, the new packaging design was introduced in the midwest and eastern U.S.

Management believes that the beer industry is influenced, both positively and negatively, by individual relationships with retailers. In Washington State, where some of those relationships have existed for many years, the transition to Craft Brands appears to have had some negative impact on those relationships. The transition took longer than

anticipated, and nearly all Company sales staff responsible for the Washington State market left the Company in 2004. Since 2004, sales of the Company's products in the Western Territory have declined by approximately 3.6%. Pricing of the Company's products has increased and the level of promotion and discounting has declined, allowing the Company to achieve higher revenue per barrel; however, management believes there is a direct correlation to lower sales caused by higher net pricing. During this same

Table of Contents

period, Craft Brands has continued to experience success in selling Widmer and Kona products. Although the Company enjoys the benefits of those successes through its profit-sharing arrangement with Craft Brands, the Company believes it is critical for Craft Brands to deliver success with Redhook products in addition to other products. The Company has communicated this concern to Craft Brands and is working with Craft Brands management to establish new brand management throughout the portfolio of Redhook products. Craft Brands also responded to this concern by re-emphasizing its commitment to Redhook products and focusing its sales efforts on the Company's *Long Hammer IPA*. This attention has resulted in an increase in shipments of *Long Hammer IPA* over 2006; however, shipments of the Company's other products in the Craft Brands territory have not shown improvement in 2007 over 2006. The Company continues to work with Craft Brands management to improve performance.

Regulation

The Company's business is highly regulated at federal, state and local levels. Various permits, licenses and approvals necessary to the Company's brewery and pub operations and the sale of alcoholic beverages are required from various agencies, including the U.S. Treasury Department, Alcohol and Tobacco Tax and Trade Bureau (the TTB) (formerly the Bureau of Alcohol, Tobacco and Firearms), the U.S. Department of Agriculture, the U.S. Food and Drug Administration, state alcohol regulatory agencies in the states in which the Company sells its products, and state and local health, sanitation, safety, fire and environmental agencies. In addition, the beer industry is subject to substantial federal and state excise taxes, although the Company benefits from favorable treatment granted to brewers producing less than two million barrels per year.

Management believes that the Company currently has all licenses, permits and approvals necessary for its current operations. However, existing permits or licenses could be revoked if the Company failed to comply with the terms of such permits or licenses. Additional permits or licenses could be required in the future for the Company's existing or expanded operations. If licenses, permits or approvals necessary for the Company's brewery or pub operations were unavailable or unduly delayed, or if any such permits or licenses were revoked, the Company's ability to conduct its business could be substantially and adversely affected.

Alcoholic Beverage Regulation and Taxation

Both of the Company's breweries and pubs are subject to licensing and regulation by a number of governmental authorities. The Company operates its breweries under federal licensing requirements imposed by the TTB. The TTB requires the filing of a Brewer's Notice upon the establishment of a commercial brewery. In addition, commercial brewers are required to file an amended Brewer's Notice every time there is a material change in the brewing process or brewing equipment, change in the brewery's location, change in the brewery's management or a material change in the brewery's ownership. The Company's operations are subject to audit and inspection by the TTB at any time.

In addition to the regulations imposed by the TTB, the Company's breweries are subject to various regulations concerning retail sales, pub operations, deliveries and selling practices in states in which the Company sells its products. Failure of the Company to comply with applicable federal or state regulations could result in limitations on the Company's ability to conduct its business. TTB permits can be revoked for failure to pay taxes, to keep proper accounts, to pay fees, to bond premises, to abide by federal alcoholic beverage production and distribution regulations, or if holders of 10% or more of the Company's equity securities are found to be of questionable character. Permits from state regulatory agencies can be revoked for many of the same reasons.

The U.S. federal government currently imposes an excise tax of \$18 per barrel on beer sold for consumption in the U.S. However, any brewer with annual production under two million barrels instead pays federal excise tax in the amount of \$7 per barrel on sales of the first 60,000 barrels. While the Company is not aware of any plans by the federal government to reduce or eliminate this benefit to small brewers, any such reduction in a material amount could

have an adverse effect on the Company. In addition, the Company would lose the benefit of this rate structure if it exceeded the two million barrel production threshold. Individual states also impose excise taxes on alcoholic beverages in varying amounts, which have also been subject to

Table of Contents

change. It is possible that excise taxes will be increased in the future by both the federal government and several states. In addition, increased excise taxes on alcoholic beverages have in the past been considered in connection with various governmental budget-balancing or funding proposals. Any such increases in excise taxes, if enacted, could adversely affect the Company.

State and Federal Environmental Regulation

The Company's brewery operations are subject to environmental regulations and local permitting requirements and agreements regarding, among other things, air emissions, water discharges and the handling and disposal of wastes. While the Company has no reason to believe the operations of its facilities violate any such regulation or requirement, if such a violation were to occur, or if environmental regulations were to become more stringent in the future, the Company could be adversely affected.

Dram Shop Laws

The serving of alcoholic beverages to a person known to be intoxicated may, under certain circumstances, result in the server being held liable to third parties for injuries caused by the intoxicated customer. The Company's pubs have addressed this concern by establishing early closing hours and regularly scheduled employee training. Large uninsured damage awards against the Company could adversely affect the Company's financial condition.

Trademarks

The Company has obtained U.S. trademark registrations for its numerous products including its proprietary bottle design. Trademark registrations generally include specific product names, marks and label designs. The Redhook mark and certain other Company marks are also registered in various foreign countries. The Company regards its Redhook and other trademarks as having substantial value and as being an important factor in the marketing of its products. The Company is not aware of any infringing uses that could materially affect its current business or any prior claim to the trademarks that would prevent the Company from using such trademarks in its business. The Company's policy is to pursue registration of its marks in its markets whenever possible and to oppose vigorously any infringement of its marks.

Employees

At December 31, 2007, the Company had 221 employees, including 67 in production, 113 in the pubs, 25 in sales and marketing, and 16 in administration. Of these, 2 in production, 76 in the pubs and 1 in administration and were part-time employees. The Company believes its relations with its employees to be good.

Item 1A. Risk Factors

The risks described below, together with all of the other information included in this report, should be carefully considered in evaluating our business and prospects. The risks and uncertainties described herein are not the only ones facing us. We operate in a market environment that is difficult to predict and that involves significant risks, many of which are beyond our control. If any of the events, contingencies, circumstances or conditions described in the following risks actually occur, our business, financial condition or results of operations could be seriously harmed. If that happens, the trading price of our Common Stock could decline and you may lose part or all of the value of any shares held by you. Solely for purposes of the risk factors in this Item 1A., the terms *we*, *our* and *us* refer to Redhook Ale Brewery, Incorporated.

We are dependent upon our continuing relationship with Anheuser-Busch, Incorporated. Substantially all of our products will be sold and distributed through the A-B Distribution Agreement and through Craft Brands. Craft Brands distributes Redhook products through a separate distribution arrangement with A-B. If our relationship with A-B, our relationship with Craft Brands or the relationship between A-B and Craft Brands were to deteriorate, distribution of our products would suffer significant disruption and such event would have a long-term severe negative impact on our sales and results of operations, as it would be extremely difficult for us to rebuild our own distribution network. In such an event, we would be faced with finding another

Table of Contents

national distribution partner similar to A-B, and entering into a complex distribution and investment arrangement with that entity, or with negotiating separate distribution agreements with individual distributors throughout the U.S. Currently, Redhook distributes its product through a network of more than 560 independent wholesale distributors, most of whom are geographically contiguous and independently owned and operated, and 13 branches owned and operated by A-B. If we had to negotiate separate agreements with individual distributors, such an undertaking would necessarily take a significant amount of time to complete, during which our products would not be distributed. It would also be extremely difficult to build a seamless and contiguous distribution network similar to the one we currently enjoy through A-B. Additionally, we would need to raise significant capital to fund the development of a new distribution network and continue operations. There can be no guarantee that financing would be available when needed, either from our current lender or from the capital markets, or that any such financing would be on commercially reasonable terms. Given the difficulty that we would face if we needed to rebuild our distribution network, if the current distribution arrangement with A-B were to be terminated, it is unlikely Redhook would be able to continue as a going concern. We believe that the benefits of the A-B Distribution Agreement and our relationship with A-B and Craft Brands, in particular the distribution and material cost efficiencies, offset the costs associated with the relationship. However, there can be no assurance that these costs will not have a negative impact on our sales and results of operations in the future.

Our agreement with A-B contains limitations on our ability to engage in or reject certain transactions, including acquisitions and changes of control. The Exchange and Recapitalization Agreement with A-B contains limitations on our ability to take certain actions without the prior consent of A-B, or without offering to A-B a right of first refusal, including the following:

- issuing equity securities;
- acquiring or selling assets or stock;
- amending our Articles of Incorporation or bylaws;
- granting board representation rights;
- entering into certain transactions with affiliates;
- distributing our products in the U.S. other than through A-B, Craft Brands or as provided in the A-B Distribution Agreement;
- distributing or licensing the production of any malt beverage product in any country outside of the U.S.;
- voluntarily delisting or terminating our listing on the Nasdaq Stock Market; or
- disposing of any of our interest in Craft Brands.

Additionally, A-B has the right to terminate the Distribution Agreement in the event any competitor of A-B acquires more than 10% of the outstanding common stock of Redhook.

Further, if the A-B Distribution Agreement is terminated, or the distribution of Redhook products is terminated by Craft Brands, A-B has the right to solicit and negotiate offers from third parties to purchase all or substantially all of the assets or securities of Redhook or to enter into a merger or consolidation transaction with our Company and the right to cause our board of directors to consider any such offer.

The practical effect of the foregoing restrictions is to grant to A-B the ability to veto certain transactions that management may believe to be in the best interest of Redhook and our shareholders, including expansion of the Company through acquisitions of other craft brewers or new brands, merger with other brewing companies or distribution of Redhook products outside the U.S. As a result, the results of operations and the trading price of our Common Stock may be adversely affected.

A-B's ownership of our Common Stock may allow A-B to exercise significant control and influence over our Company. As of December 31, 2007 and 2006, A-B owned approximately 33.1% and 33.3%, respectively, of our Common Stock and, under the Exchange and Recapitalization agreement, has the right to appoint two designees to our board of directors. As a result, A-B may be able to exercise significant control

Table of Contents

and influence over the Company and matters requiring approval of our shareholders, including the election of directors and approval of significant corporate transactions, such as a merger or other sale of our company or its assets. This could limit the ability of other shareholders to influence corporate matters and may have the effect of delaying or preventing a third party from acquiring control of the Company. In addition, A-B may have actual or potential interests that diverge from the rest of our shareholders. The securities markets may also react unfavorably to A-B's ability to control certain matters involving our Company, which could have a negative impact on the trading price of our common stock.

Our investment in Craft Brands Alliance LLC may not provide anticipated benefits. We believe that Craft Brands combined sales and marketing organization creates synergies and capitalizes on both Redhook's and Widmer's sales and marketing experience and complementary product portfolios. We have realized a decrease in selling, general and administrative expenses when compared to levels prior to the formation of Craft Brands and we have recognized income of \$2,826,000 in 2007, \$2,655,000 in 2006 and \$2,392,000 in 2005 from our investment in Craft Brands. However, Craft Brands has only been operational since July 2004 and predicting future benefits from Crafts Brands is difficult. There can be no assurance that we will see any further or anticipated benefits from the joint venture. Shipments of our products in the Western Territory have declined since the formation of Craft Brands; 2007 shipments were approximately 7.5% lower than 2004 shipments in the same territory and approximately 0.6% lower than 2006 shipments. Pricing of our products has increased and the level of promotion and discounting has declined, allowing us to achieve higher revenue per barrel. However, management believes there is a direct correlation to lower sales caused by higher net pricing. During this same period, Craft Brands has been very successful selling the Widmer and Kona products. Although we enjoy the benefits of those successes through our profit-sharing arrangement with Craft Brands, we believe it is critical for Craft Brands to deliver success with the Redhook products in addition to the other products. We have communicated this concern to Craft Brands, and we are working with Craft Brands to establish new brand management throughout the portfolio of Redhook products. Craft Brands also responded to this concern by re-emphasizing their commitment to Redhook products and focusing its sales efforts on our Long Hammer IPA. Although this attention has resulted in an increase in shipments of Long Hammer IPA in 2007 over 2006 levels, shipments of other Redhook products in the Western Territory have not shown similar improvement. We continue to work with Craft Brands management to improve performance. If Craft Brands is unable to increase shipments of our products in the west, our operations will become more dependent on lower margin contract brewing and profit margins will suffer.

The Operating Agreement requires us to make certain capital contributions to support the operations of Craft Brands. In 2004, we made a sales and marketing capital contribution to Craft Brands in the amount of \$250,000. The Operating Agreement designated this sales and marketing capital contribution be used by Craft Brands for expenses related to the marketing, advertising and promotion of Redhook products. In February 2007 and in February 2008, we entered into an amendment to the Operating Agreement to require an additional sales and marketing contribution in 2009 if the volume of sales of Redhook products in 2008 in the Craft Brands territory is less than 92% of the volume of sales of Redhook products in 2003 in the Craft Brands territory. Under these amendments, our maximum 2009 sales and marketing contribution was reduced to \$310,000, reflecting our commitment to expand the production capacity of our Washington and New Hampshire breweries to produce more Widmer products. Widmer also has a sales and marketing contribution under the amended Operating Agreement with similar terms that is capped at \$750,000. If required, the 2009 sales and marketing contribution is due by February 1, 2009. Because sales in the craft beer industry generally reflect a degree of seasonality and we have historically operated with little or no backlog, our ability to predict sales for future periods is limited. Accordingly, we cannot predict to what degree, if at all, we will be required to make this 2009 sales and marketing contribution. If we are required to make this additional sales and marketing contribution in 2009, our available cash will decrease and income from Craft Brands will decrease by the amount of the contribution, which will be allocated 100% to us. The Operating Agreement also obligates us and Widmer to make other additional capital contributions only upon the request and consent of the Craft Brands' board of directors.

The proposed Merger with Widmer Brothers Brewing Company may not occur, and failure to complete the transaction may have a negative impact on our stock price or our future business and financial results. On

Table of Contents

November 13, 2007, we entered into the Merger Agreement with Widmer, pursuant to which Widmer will merge with and into Redhook. In connection with the merger, each holder of shares of common or preferred stock of Widmer will receive, in exchange for each share held, 2.1551 shares of our Common Stock. Redhook security holders will continue to own their existing shares of Redhook Common Stock. The shares of Redhook Common Stock that Widmer security holders will be entitled to receive pursuant to the merger are expected to represent approximately 50% of the outstanding shares of the combined company immediately following the consummation of the merger (assuming that no security holder of Widmer exercises dissenters' rights in connection with the merger, and that currently outstanding options held by our employees, officers, directors and former directors to acquire shares of Redhook Common Stock are not exercised prior to the consummation of merger). The merger is subject to customary conditions to closing, including regulatory approval, approval of A-B, approval by our shareholders of the issuance of the shares of Common Stock issuable in the merger and approval of the merger by the requisite vote of Widmer shareholders. If the merger with Widmer is not completed for any reason, our business may be adversely affected and will be subject to a number of risks, including:

failure to pursue other beneficial opportunities as a result of the focus of management on the merger, without realizing any of the anticipated benefits of completing the transaction;

the market price of our Common Stock might decline; and

our costs related to the merger, such as legal and accounting fees, which total approximately \$738,000 through December 31, 2007, must be paid even if the merger is not completed.

In addition, if the Merger Agreement is terminated and our board of directors decides to pursue another business combination, there can be no assurance that it will be able to find a partner willing to provide equivalent or more attractive consideration than the consideration to be provided in the merger.

Additionally, our current employees may experience uncertainty about their future as employees of the combined company until strategies with regard to the combined company are announced or executed. This may adversely affect our ability to attract and retain key personnel, and may affect their performance during the period of uncertainty. We have attempted to address this concern through the adoption of a Company-wide severance plan that requires the payment of six months of severance benefits to all full-time employees, other than executive officers, in the event an employee is terminated as a result of a combination with Widmer. We have also entered into amended employment agreements and severance arrangements with several of our executive officers which provide for severance payments to such officers upon termination of employment. However, these severance arrangements may not be sufficient to adequately address employee concerns.

We are dependent on our distributors for the sale of our products. Although substantially all of our products will be sold and distributed through A-B and Craft Brands, we continue to rely heavily on distributors, most of which are independent wholesalers, for the sale of our products to retailers. K&L is responsible for distribution of our products in one of our largest markets—Seattle, Washington. K&L accounted for approximately 8%, 11% and 12% of total sales volume in 2007, 2006 and 2005, respectively. A disruption of our ability, or the ability of Craft Brands, the wholesalers, or A-B to distribute products efficiently due to any significant operational problems, such as wide-spread labor union strikes, the loss of K&L as a customer, or the termination of the A-B Distribution Agreement or the Craft Brands Supply and Distribution Agreement could hinder our ability to get our products to retailers and could have a material adverse impact on our sales and results of operations.

Changes in state laws regarding distribution arrangements may adversely impact our operations. In 2006, the Washington State legislature passed a bill that removes the long-standing requirement that small producers of wine and beer distribute their products through wholesale distributors, thus permitting these small producers to distribute

their products directly to retailers. The law further provides that any in-state or out-of-state brewery that produces more than 2,500 barrels annually may distribute its products directly to retailers if it does so from a facility located in the state that is physically separate and distinct from its production facilities. The new legislation stipulates that prices charged by a brewery must be uniform to all distributors and retailers, but does not restrict prices retailers may charge consumers. While it is too soon to predict what

Table of Contents

impact, if any, this law will have on our operations, the beer and wine market may experience an increase in competition and cause our future sales and results of operations to be adversely affected. This law may also impact the financial stability of Washington State wholesalers on which we rely.

Increased competition could adversely affect sales and results of operations. We compete in the highly competitive craft brewing market as well as in the much larger specialty beer market, which encompasses producers of import beers, major national brewers that produce fuller-flavored products, and large spirit companies and national brewers that produce flavored alcohol beverages. Beyond the beer market, craft brewers also face competition from producers of wines and spirits. Primarily as a result of this increased competition, we have experienced inconsistent sales results. From 1997 through 1999, our sales volumes declined. From 2000 to 2003 we experienced annual increases in shipments, excluding shipments of beer brewed on a contract basis, but experience a decline in shipments again in 2004. Although we have seen annual increases in shipments since 2004, these increases have been modest compared to the performance of the craft brewing segment as a whole. Increasing competition could cause our future sales and results of operations to be adversely affected. We have historically operated with little or no backlog and, therefore, our ability to predict sales for future periods is limited.

Future price promotions to generate demand for our products may be unsuccessful. Future prices that we charge for our products may decrease from historical levels, depending on competitive factors in our various markets. In order to stimulate demand for our products, we have participated in price promotions with our wholesalers and retail customers in most of our markets. The number of markets in which we participate in price promotions and the frequency of such promotions may increase in the future. There can be no assurance however that our price promotions will be successful in increasing demand for our products.

Due to our concentration of sales in the Pacific Northwest, our results of operations and financial condition are subject to fluctuations in regional economic conditions. A significant portion of our sales continue to be in the Pacific Northwest region and, consequently, our business may be adversely affected by changes in economic and business conditions nationally and, particularly, within the Northwest region. We believe this region is also one of the most competitive craft beer markets in the U.S., both in terms of number of market participants and consumer awareness. We believe that the Pacific Northwest offers significant competition to our products, not only from other craft brewers but also from the growing wine market and from flavored alcohol beverages. We face extreme competitive pressure in Washington State which is our largest and oldest market. Since 2003, we have experienced a decline in sales volume in Washington State of approximately 18.5%.

The competition that we face in the Pacific Northwest is magnified because our brand is viewed as being relatively mature. Focus studies in late 2004 indicated that, while our brand possesses brand awareness among target consumers, it also appears to not attract key consumers who seem to be more interested in experimenting with new products. These focus studies have resulted in Craft Brands focusing its marketing efforts over the past several years on updating the Redhook brand image to stimulate demand. Despite these efforts, sales in the Pacific Northwest continued to decline in 2006 and 2007. Craft Brands has informed us that they are committed to addressing this negative trend in the western territory, but there can be no assurance that Craft Brands will be successful in increasing shipments and sales of Redhook product. If shipments of our products in the highly competitive Pacific Northwest markets do not increase, our market share and profit margins will continue to suffer.

Our business is seasonal in nature, and we are likely to experience fluctuations in our results of operations and financial condition. Sales of our products are somewhat seasonal, with the first and fourth quarters historically being the slowest and the rest of the year generating stronger sales. As well, our sales volume may also be affected by weather conditions. Therefore, our results for any quarter may not be indicative of the results that may be achieved for the full fiscal year. If an adverse event such as a regional economic downturn or poor weather conditions should occur during the second and third quarters, the adverse impact to our revenues would likely be greater as a result of our

seasonal business.

Our gross margins may fluctuate while our expenses remain constant. We anticipate that our future gross margins will fluctuate and may even decline as a result of many factors, including shipments to Craft

Table of Contents

Brands at a fixed price substantially below wholesale pricing levels, disproportionate depreciation and other fixed and semivariable operating costs, and the level of production at our breweries in relation to current production capacity. Our high level of fixed and semivariable operating costs causes gross margin to be especially sensitive to relatively small increases or decreases in sales volume. In addition, other factors beyond our control that could affect cost of sales include changes in freight charges, the availability and prices of raw materials and packaging materials, the mix between draft and bottled product sales, the sales mix of various bottled product packages, and federal or state excise taxes.

An increase in lower margin contract brewing could negatively impact our overall profit margins. In connection with our Supply and Distribution Agreement with Craft Brands, if shipments of Redhook products in the western territory decrease as compared to the previous year's shipments, we have the contractual right to brew Widmer products in an amount equal to the lower of (i) our product shipment decrease or (ii) the Widmer product shipment increase. We refer to this contractual right as our Contractual Obligation. In 2007, we brewed and shipped 3,500 barrels of Widmer beer from our Washington Brewery under this Contractual Obligation. At Widmer's discretion, we may also brew more beer for Widmer than the Contractual Obligation amount pursuant to a Manufacturing and Licensing Agreement with Widmer. Our Manufacturing and Licensing Agreement with Widmer expires on December 31, 2008. In 2007, we brewed and shipped 78,400 barrels of Widmer product under this agreement. Driven by the Contractual Obligation, as well as Widmer's production needs, we anticipate that contract brewing in 2008 will decrease over 2007 levels. Contract brewing has lower margins compared to sales of Redhook products.

We are dependent on contract brewing to keep our production facilities operating at an efficient capacity; a decrease in contract brewing could have an unfavorable and significant financial impact on our financial statements and results of operations. Widmer has notified us that they will be bringing additional brewing capacity on line in the first half of 2008, which will significantly reduce our level of contract brewing for Widmer out of our Washington Brewery. We are currently evaluating alternatives to utilize the capacity that will become available upon the termination of the contract brewing, including entering into new contract brewing arrangements with other parties. If we are unable to replace the Widmer contract brewing, or achieve significant growth through our own products, the resulting loss of revenue and the resulting excess capacity and unabsorbed overhead in the Washington Brewery would have an adverse effect on our financial performance.

Changes in consumer preferences or public attitudes about our products could reduce demand. If consumers were unwilling to accept our products, or if general consumer trends caused a decrease in the demand for beer, including craft beer, it would adversely impact our sales and results of operations. If the flavored alcohol beverage market, the wine market, or the spirits market continues to grow, they could draw consumers away from our products and have an adverse effect on our sales and results of operations. Further, the alcoholic beverage industry has become the subject of considerable societal and political attention in recent years due to increasing public concern over alcohol-related social problems, including drunk driving, underage drinking and health consequences from the misuse of alcohol. If beer consumption in general were to come into disfavor among domestic consumers, or if the domestic beer industry were subjected to significant additional governmental regulation, our operations could be adversely affected.

We are subject to governmental regulations affecting our breweries and pubs; the costs of complying with governmental regulations, or our failure to comply with such regulations, could affect our financial condition and results of operations. Our breweries and our pubs are subject to licensing and regulation by a number of governmental authorities, including the U.S. Treasury Department, Alcohol and Tobacco Tax and Trade Bureau, or the TTB, the U.S. Department of Agriculture, the U.S. Food and Drug Administration, state alcohol regulatory agencies in the states in which we sell our products, and state and local health, sanitation, safety, fire and environmental agencies. Our failure to comply with applicable federal, state or local regulations could result in limitations on our ability to conduct business. TTB permits can be revoked for failure to pay taxes, to keep proper accounts, to pay fees, to bond premises, to abide by federal alcoholic beverage production and distribution regulations,

or if holders of 10% or more of our equity securities are found to be of questionable character. TTB permits are also required in connection with establishing a commercial brewery, expanding or modifying existing brewing operations, entering into a contract brewing arrangement, and entering into an

Table of Contents

alternating brewery agreement. Other permits or licenses can be revoked if we fail to comply with the terms of such permits or licenses, and additional permits or licenses could be required in the future for our existing or expanded operations. If licenses, permits or approvals necessary for our brewery or pub operations were unavailable or unduly delayed, or if any such permits or licenses were revoked, our ability to conduct business could be substantially and adversely affected.

Our brewery operations are also subject to environmental regulations and local permitting requirements and agreements regarding, among other things, air emissions, water discharges, and the handling and disposal of wastes. We have no reason to believe the operations of our facilities violate any such regulation or requirement. However, if such a violation were to occur, or if environmental regulations became more stringent in the future, our business could be adversely affected.

We are also subject to dram shop laws, which generally provide a person injured by an intoxicated person the right to recover damages from an establishment that wrongfully served alcoholic beverages to the intoxicated person. Our pubs have addressed this concern by establishing early closing hours and regularly scheduled employee training. However, large uninsured damage awards against our Company could adversely affect our financial condition.

We may experience material losses in excess of insurance coverage. We believe that we maintain insurance coverage that is customary for businesses of our size and type. There are, however, certain types of catastrophic losses that are not generally insured because it is not economically feasible to insure against such losses. Should an uninsured loss or a loss in excess of insured limits occur, such loss could have an adverse effect on our results of operations and financial condition.

Declining sales trends could adversely affect brewery efficiency and our financial results. Our breweries have been operating at production levels substantially below their current and maximum designed capacities. Operating our breweries at low capacity utilization rates negatively impacts our gross margins and operating cash flows generated by the production facilities. We periodically evaluate whether we expect to recover the costs of our production facilities over the course of their useful lives. If facts and circumstances indicate that the carrying value of these long-lived assets may be impaired, we will perform an evaluation of recoverability in accordance with FASB Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. This evaluation will encompass a comparison of the carrying value of the assets to a projection of future undiscounted cash flows from the assets in addition to an analysis of other quantitative and qualitative factors. If our management believes that the carrying value of such assets may not be recoverable, we will recognize an impairment loss by a charge against current operations.

An increase in excise taxes could adversely affect our financial condition. The U.S. federal government currently imposes an excise tax of \$18 per barrel on beer sold for consumption in the U.S. However, any brewer with annual production under two million barrels instead pays federal excise tax in the amount of \$7 per barrel on sales of the first 60,000 barrels. While we are not aware of any plans by the federal government to reduce or eliminate this benefit to small brewers, any such reduction in a material amount could have an adverse effect on our financial condition and results of operations. In addition, we would lose the benefit of this rate structure if we exceeded the two million barrel production threshold. Individual states also impose excise taxes on alcoholic beverages in varying amounts, which have also been subject to change. It is possible that excise taxes will be increased in the future by both federal and state governments in connection with various governmental budget-balancing or funding proposals or for other reasons. Any such increases in excise taxes, if enacted, could adversely affect our financial condition.

We may experience a shortage in kegs necessary to distribute draft beer. We distribute our draft beer in kegs that are owned by us as well as leased from A-B and a third-party vendor. During periods when we experience stronger sales, we may need to rely on kegs leased from A-B and the third-party vendor to address the additional demand. If

shipments of draft beer increase, we may experience a shortage of available kegs to fill sales orders. If we cannot meet our keg requirements through either lease or purchase, we may be required to delay some draft shipments. Such delays could have an adverse impact on sales and relationships with wholesalers and A-B. In addition, we may decide to pursue other alternatives for leasing or purchasing kegs. There is no assurance, though, that we will be successful in securing additional kegs.

Table of Contents

Our key raw materials may become significantly more costly and adequate supplies may be difficult to secure. According to industry and media sources, the price of barley, a primary ingredient in most of our beers, increased 48% from August 2006 through June 2007. The significant price increase is apparently driven by a lower supply of barley as farmers shift their focus to growing corn, a key component of biofuels. While we have historically utilized fixed price contracts to secure adequate supplies of key raw materials, including barley, recent fixed price contracts reflect current market pricing that is significantly higher than historical pricing. In addition to a decline in the supply of barley, the beer industry also appears to be experiencing a decline in the supply of hops driven by a number of factors, including: excess supply in the 1990s led some growers to switch to more lucrative crops, resulting in an estimated 40% decrease in worldwide hop-growing acreage; poor weather in eastern Europe and Germany caused substantial hops crop losses in 2007; hops crop production in England has declined approximately 85% since the mid-1970s; and 2007 U.S., New Zealand, and Australia hops crop yields were only average. On average, we have experienced cost increases of approximately 27%, 1%, and 8% for 2008 purchases of malted barley, hops, and wheat, respectively. We estimate that these higher raw materials costs will result in an increase in 2008 cost of sales of approximately \$3.23 per barrel. If our 2008 production levels remained unchanged from 2007 levels, our cost of sales will likely increase by approximately \$1,030,000 for the full year. If we experience difficulty in securing our key raw materials or continue to experience increases in the cost of these materials, it will have a material impact on our gross margins and results of operations. We have also entered into fixed price purchase contracts for our specialty hops, both to assure the necessary supply for current and future production needs, but also to obtain favorable pricing. However, if we experience difficulty in securing key raw materials or experience an increase in the cost of these materials, our gross margins and results of operations will be negatively affected.

Loss of income tax benefits could negatively impact results of operations. As of December 31, 2007, our Company's deferred tax assets were primarily comprised of federal net operating loss carryforwards, which we refer to as NOLs, of \$24.7 million, or \$8.4 million tax-effected; federal and state alternative minimum tax credit carryforwards of \$185,000; and state NOL carryforwards of \$196,000 tax-effected. We may be unable to realize these deferred tax assets before they expire. Accordingly, we established a valuation allowance in 2002, increased it further in 2003, 2004, and 2005 and decreased it in 2006 to cover certain federal and state NOLs that may expire before we are able to utilize the tax benefit. As of December 31, 2007 and 2006, we had a valuation allowance of \$1,059,000. The valuation allowance reduces the benefit of our deferred tax asset on our balance sheet. To the extent that we continue to be unable to generate adequate taxable income in future periods, we will not be able to recognize additional tax benefits and may be required to record a greater valuation allowance covering potentially expiring NOLs.

The loss of the services of certain key personnel could have a material adverse effect on operations. We depend on the services of our key management personnel, including Paul Shipman, our chief executive officer, and David Mickelson, our president. If we lose the services of any members of our senior management or key personnel for any reason, we may be unable to replace them with qualified personnel, which could have a material adverse effect on our operations. Additionally, the loss of Paul Shipman as our chief executive officer, and our failure to find a replacement satisfactory to A-B, would be a default under the A-B Distribution Agreement. We do not carry key person life insurance on any of our executive officers.

Litigation risks could have a material adverse effect on our financial condition and operations. At any given time, we are subject to claims and actions incidental to the operation of our business. The outcome of these proceedings cannot be predicted. If a plaintiff were successful in a claim against our Company, we could be faced with the payment of a material sum of money. If this were to occur, it could have an adverse effect on our financial condition.

Our common stock price could be subject to significant fluctuations and/or may decline. The market price of our common stock could be subject to significant fluctuations. Among the factors that could affect our stock price are:

the entry into, or termination of, key agreements;

the loss of key employees;

Table of Contents

the introduction of new products by us or our competitors;

changes in estimates or recommendations by securities analysts, if any, who cover our common stock

future sales of our common stock;

variations in our operating results;

changes in the market values of public companies that operate in our business segment;

general market conditions; and

domestic economic factors unrelated to our performance.

The stock markets in general have recently experienced volatility that has sometimes been unrelated to the operating performance of particular companies. These broad market fluctuations may cause the trading price of our common stock to decline.

Item 1B. *Unresolved Staff Comments*

None.

Item 2. *Properties*

The Company currently operates two highly automated small-batch breweries, one in the Seattle suburb of Woodinville, Washington and the other in Portsmouth, New Hampshire. See Notes 5 and 11 to the Financial Statements included elsewhere herein.

The Washington Brewery. The Washington Brewery, located on approximately 22 acres (17 of which are developable) in Woodinville, Washington, a suburb of Seattle, is across the street from the Chateau Ste. Michelle Winery, next to the Columbia Winery and visible from a popular bicycle path. The Washington Brewery is comprised of an approximately 88,000 square-foot building, a 40,000 square-foot building and an outdoor tank farm. The two buildings house a 100-barrel brewhouse, fermentation cellars, filter rooms, grain storage silos, a bottling line, a keg filling line, dry storage, two coolers and loading docks. The brewery includes a retail merchandise outlet and the Forecasters Public House, a 4,000 square-foot family-oriented pub that seats 200 and features an outdoor beer garden that seats an additional 200. Additional entertainment facilities include a 4,000 square-foot special events room accommodating up to 250 people. The brewery also houses office space, a portion of which is occupied by the Company's corporate office and the remainder of which is leased through October 2009. The Company purchased the land in 1993 and believes that its value has appreciated. The brewery's theoretical production capacity as of year end 2007 is approximately 250,000 barrels per year, which would be under ideal brewing conditions. An example of ideal brewing conditions would be brewing one particular flavor seven days a week during the whole year with minimal filtration loss. The theoretical production capacity in 2007 is also expected to be approximately 250,000 barrels per year.

The New Hampshire Brewery. The New Hampshire Brewery is located on approximately 23 acres in Portsmouth, New Hampshire. The land is subleased, the term of which expires in 2047, and contains two seven-year extension options. The New Hampshire Brewery is modeled after the Washington Brewery and is similarly equipped, but is larger in design, covering 125,000 square feet to accommodate all phases of the Company's brewing operations under

one roof. Also included is a retail merchandise outlet, the Cataqua Public House, a 4,000 square-foot family-oriented pub with an outdoor beer garden, and a special events room accommodating up to 250 people. Production began in late October 1996, with an initial brewing capacity of approximately 100,000 barrels per year. In order to accommodate anticipated sales growth, additional brewing capacity was installed in 2002, 2003, 2006 and 2007, bringing the total theoretical production capacity as of year end 2007 to approximately 235,000 barrels per year. The Company has the ability to phase in additional brewing capacity as needed, up to the maximum designed production capacity of approximately 250,000 barrels per year under ideal brewing conditions.

Table of Contents

Item 3. *Legal Proceedings*

The Company is involved from time to time in claims, proceedings and litigation arising in the normal course of business. The Company believes that, to the extent that any pending or threatened litigation involving the Company or its properties exists, such litigation will not likely have a material adverse effect on the Company's financial condition or results of operations.

Item 4. *Submission of Matters to a Vote of Security Holders*

None.

Item 4A. *Executive Officers of the Company*

Paul S. Shipman (55) Chief Executive Officer and Chairman of the Board

Mr. Shipman is one of the Company's founders and has served as the Company's Chairman of the Board since November 1992 and Chief Executive Officer since June 1993. From September 1981 to November 2005, Mr. Shipman served as the Company's President. Prior to founding the Company, Mr. Shipman was a marketing analyst for the Chateau Ste. Michelle Winery from 1978 to 1981. Mr. Shipman received his Bachelor's degree in English from Bucknell University in 1975 and his Master's degree in Business Administration from the Darden Business School, University of Virginia, in 1978. Since July 2004, Mr. Shipman has served as a director of Craft Brands.

If the proposed merger with Widmer is consummated, Mr. Shipman will cease to be Chief Executive Officer and a director, but he will serve as Chairman Emeritus and be available to provide services as a consultant to the Company's board of directors for a term of approximately one year.

David J. Mickelson (48) President and Chief Operating Officer

Mr. Mickelson has served as President of the Company since December 2005 and Chief Operating Officer since March 1995. From December 2005 until March 2007, he also served as Chief Financial Officer. From August 2000 through November 2005, Mr. Mickelson served as Executive Vice President and Chief Financial Officer. From April 1994 to March 1995, he was the Company's Vice President and General Manager. From July 1992 to December 1994, he served as its Chief Financial Officer, and was also named General Manager in January 1994. He served as the Company's Controller from 1987 to July 1992, and additionally was elected Treasurer in 1989. From 1985 to 1987, he was the Controller for Certified Foods, Inc. and from 1981 to 1985, he served as a loan officer with Barclays Bank PLC. Mr. Mickelson received his Bachelor's degree in Business Administration from the University of Washington in 1981.

Gerard C. Prial (53) Vice President, Sales and Eastern Operations

Mr. Prial has served as the Company's Vice President, Sales and Eastern Operations since December 2005. Mr. Prial served as Vice President, East Coast Operations from November 2001 through November 2005. From 1996 to November 2001, Mr. Prial served as the General Manager of the Company's New Hampshire Brewery. He served as the Company's Southern California Field Sales Manager from August 1994 to March 1996. From April 1993 to April 1994, Mr. Prial served as Vice President of Sales for Brewski Brewing Company of Culver City, California. From 1979 to 1993, he served in various positions for Wisdom Import Sales Company in Irvine, California. From 1977 to 1979, Mr. Prial worked for the Miller Brewing Company as an Area Manager in the Pacific Northwest. He received his Bachelor's degree in Management and Economics from Marietta College in Marietta, Ohio in 1977.

In February 2008, Mr. Prial resigned as Vice President, Sales and Eastern Operations of the Company. Mr. Prial is expected to continue his employment with the Company to assist with sales and business development through August 31, 2008.

Table of Contents**Allen L. Triplett (49) Vice President, Brewing**

Mr. Triplett has served as Vice President, Brewing since March 1995. From 1987 to March 1995, he was the Company's Production Manager. He has worked in virtually every facet of production since joining the Company in 1985. Mr. Triplett has taken coursework at the Siebel Institute of Brewing and the University of California at Davis. He is a member of the Master Brewers Association of America and is currently serving as its Vice President in the Northwest district and formerly as its Secretary and Treasurer. He is also a member of the American Society of Brewing Chemists and a past and founding board member of National Ambassadors at the University of Wyoming. He received his Bachelor's degree in Petroleum Engineering from the University of Wyoming in 1985.

In February 2008, Mr. Triplett resigned as Vice President, Brewing of the Company. Mr. Triplett is expected to continue his employment with the Company to assist production and brewing operations through June 30, 2008.

Jay T. Caldwell (55) Chief Financial Officer and Treasurer

Mr. Caldwell has served as the Company's Chief Financial Officer and Treasurer since March 2007. From June 2006 until March 2007, Mr. Caldwell was the Company's Controller, Treasurer and Principal Accounting Officer. During the first half of 2006, he performed financial consulting for Captaris, Inc. in Bellevue, Washington. From 2001 to 2005, Mr. Caldwell served as the General Manager of Arena Sports in Redmond, WA, where his primary responsibilities were running all aspects of retail arena operations. From 1997 to 2003, he owned Caldwell Resource Group, a consulting firm focused on evaluating acquisitions and negotiating service contracts in the telecommunications industry. Since beginning his career as a CPA with Haskins & Sells in 1977, Mr. Caldwell has also served in high level finance and accounting roles with manufacturing and software companies.

It is anticipated that, following the closing of the proposed merger with Widmer, the combined company accounting and information systems functions will be relocated to Portland, Oregon and a new Chief Financial Officer will be appointed. Mr. Caldwell is expected to continue his employment with the Company through August 15, 2008.

There is no family relationship between any of the directors or executive officers of the Company.

PART II.**Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

The Company's Common Stock trades on the Nasdaq Stock Market under the trading symbol HOOK. The table below sets forth, for the fiscal quarters indicated, the reported high and low sale prices of the Company's Common Stock, as reported on the NASDAQ Stock Market:

	High	Low
2007		
First quarter	\$ 7.80	\$ 5.00
Second quarter	\$ 8.08	\$ 6.17
Third quarter	\$ 8.21	\$ 5.68
Fourth quarter	\$ 7.11	\$ 5.84
2006		
First quarter	\$ 3.74	\$ 3.10

Second quarter	\$ 4.00	\$ 3.43
Third quarter	\$ 4.18	\$ 3.31
Fourth quarter	\$ 5.31	\$ 3.76

Table of Contents

As of March 14, 2008, there were 673 Common Stockholders of record, although the Company believes that the number of beneficial owners of its Common Stock is substantially greater.

The Company has not paid any dividends since 1994. The Company anticipates that for the foreseeable future, all earnings, if any, will be retained for the operation and expansion of its business and that it will not pay cash dividends. The payment of dividends, if any, in the future will be at the discretion of the board of directors and will depend upon, among other things, future earnings, capital requirements, restrictions in future financing agreements, the general financial condition of the Company and general business conditions.

Comparative Performance Graph

Set forth below is a graph comparing the cumulative total return to shareholders on the Company's Common Stock with the cumulative total return of the Russell 2000 Index and an index comprised of other publicly-traded craft beer companies (the Peer Group) for the period beginning on December 31, 2002 and ended on December 31, 2007. The total return on the Company's Common Stock, the Russell 2000 Index and the Peer Group Index assumes the value of each investment was \$100 on December 31, 2002, and that any dividends were reinvested. The points represent fiscal year-end index levels based on the last trading day in each fiscal year. Return information is historical and not necessarily indicative of future performance.

	2002	2003	2004	2005	2006	2007
Redhook	\$ 100	\$ 126	\$ 171	\$ 154	\$ 253	\$ 323
Peer Group Index	\$ 100	\$ 136	\$ 166	\$ 190	\$ 254	\$ 268
Russell 2000 Index	\$ 100	\$ 145	\$ 170	\$ 176	\$ 215	\$ 200

The Company's Peer Group is comprised of three publicly traded craft beer companies. As required, the returns of each of the component companies in the Peer Group Index are calculated and weighted according to their respective market capitalization at the beginning of the period. The Peer Group is composed of: Big Rock Brewery Income Trust (formerly Big Rock Brewery Ltd.) (Toronto Stock Exchange: BR.UN-T); The Boston Beer Company, Inc. (NYSE: SAM); and Pyramid Breweries Inc. (NASDAQ: PMID).

Table of Contents**Item 6. Selected Financial Data**

The following selected financial data should be read in conjunction with the Company's Financial Statements and the Notes thereto and *Management's Discussion and Analysis of Financial Condition and Results of Operations* included elsewhere in this Form 10-K. The selected statement of operations and balance sheet data for, and as of the end of, each of the five years in the period ended December 31, 2007, are derived from the financial statements of the Company. The operating data are derived from unaudited information maintained by the Company.

	Year Ended December 31,				
	2007	2006	2005	2004	2003

(1) Based on the Company's estimate of theoretical production capacity of brewing equipment, assuming ideal brewing conditions, in service as of the end of such period. Amounts do not reflect maximum designed production capacity. See *Management's Discussion and Analysis of Financial Condition and Results of Operations*.

(2) Includes term loan and capital lease obligations. See Note 7 to the Financial Statements included elsewhere herein.

Table of Contents

Item 7. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

The following discussion and analysis should be read in conjunction with the Company's Financial Statements and Notes thereto included herein. The discussion and analysis includes period-to-period comparisons of the Company's financial results. Although period-to-period comparisons may be helpful in understanding the Company's financial results, the Company believes that they should not be relied upon as an accurate indicator of future performance.

Overview

Since its formation, the Company has focused its business activities on the brewing, marketing and selling of craft beers in the U.S. The Company produces its specialty bottled and draft products in two Company-owned breweries, one in the Seattle suburb of Woodinville, Washington and the other in Portsmouth, New Hampshire. Prior to July 1, 2004, the Company's sales consisted predominantly of sales of beer to third-party distributors and A-B through the Company's Distribution Alliance with A-B. Since July 1, 2004, the Company's sales consisted of sales of product to Craft Brands and A-B. The Company and Widmer manufacture and sell their product to Craft Brands at a price substantially below wholesale pricing levels; Craft Brands, in turn, advertises, markets, sells and distributes the product to wholesale outlets in the western U.S. through a distribution agreement between Craft Brands and A-B. (Due to state liquor regulations, the Company sells its product in Washington State directly to third-party beer distributors and returns a portion of the revenue to Craft Brands based upon a contractually determined formula.) Profits and losses of Craft Brands are generally shared between the Company and Widmer based on the cash flow percentages of 42% and 58%, respectively. The Company continues to sell its product in the midwest and eastern U.S. through sales to A-B pursuant to the July 1, 2004 A-B Distribution Agreement. For additional information regarding Craft Brands and the A-B Distribution Agreement, see Item 1., Product Distribution Relationship with Anheuser-Busch, Incorporated and Relationship with Craft Brands Alliance LLC. See also Results of Operations *Craft Brands Alliance LLC* below. In addition to sales of beer, the Company derives other revenues from sources including the sale of retail beer, food, apparel and other retail items in its two brewery pubs.

For the year ended December 31, 2007, the Company had gross sales and a net loss of \$46,544,000 and \$939,000, respectively, compared to gross sales and net income of \$40,007,000 and \$516,000, respectively, for the year ended December 31, 2006. As of December 31, 2007, the net amount due from A-B was \$1,098,000. As of December 31, 2006, the net amount due to A-B was \$247,000.

The Company's sales volume (shipments) increased 16.7% to 316,900 barrels in 2007 as compared to 271,600 barrels in 2006. Sales in the craft beer industry generally reflect a degree of seasonality, with the first and fourth quarters historically being the slowest and the rest of the year typically demonstrating stronger sales. The Company has historically operated with little or no backlog, and its ability to predict sales for future periods is limited.

The Company's sales are affected by several factors, including consumer demand, price discounting and competitive considerations. The Company competes in the highly competitive craft brewing market as well as in the much larger specialty beer market, which encompasses producers of import beers, major national brewers that produce fuller-flavored products, and large spirit companies and national brewers that produce flavored alcohol beverages. Beyond the beer and flavored alcohol markets, craft brewers also face competition from producers of wines and spirits. The craft beer segment is highly competitive due to the proliferation of small craft brewers, including contract brewers, and the large number of products offered by such brewers. Imported products from foreign brewers have enjoyed resurgence in demand since the mid-1990s. Certain national domestic brewers have also sought to appeal to this growing demand for craft beers by producing their own fuller-flavored products. In recent years, the specialty segment has seen the introduction of flavored alcohol beverages, the consumers of which, industry sources generally believe, correlate closely with the consumers of the import and craft beer products. Sales of these flavored alcohol beverages were initially very strong, but growth rates have slowed in subsequent years. While there appears to be

fewer participants in this category than at its peak, there is still significant volume associated with these beverages. The wine and spirits market has also experienced a surge in the past several years, attributable to competitive pricing, increased merchandising, and increased consumer interest in wine and spirits. Because the number of participants and

Table of Contents

number of different products offered in this segment have increased significantly in the past ten years, the competition for bottled product placements and especially for draft beer placements has intensified.

The Company is required to pay federal excise taxes on sales of its beer. The excise tax burden on beer sales increases from \$7 to \$18 per barrel on annual sales over 60,000 barrels and thus, if sales volume increases, federal excise taxes would increase as a percentage of sales.

Under normal circumstances, the Company operates its brewing facilities up to seven days per week with multiple shifts per day. Under ideal brewing conditions (which would include, among other factors, production of a single brand in a single package), the theoretical production capacity is approximately 250,000 barrels per year at the Washington Brewery and 235,000 barrels per year at the New Hampshire Brewery. Because of various factors, including the following two, the Company does not believe that it is likely that actual production volume will approximate theoretical production capacity: (1) the Company's brewing process, which management believes is similar to its competitors' brewing processes, inherently results in some level of beer loss attributable to filtering, bottling, and keg filling; and (2) the Company routinely brews and packages various brands and package sizes during the year.

In order to accommodate volume growth in the markets served by the New Hampshire Brewery, the Company has expanded fermentation capacity during the last several years. In May 2007, the Company completed process control automation upgrades to the brewery and added one 70,000 pound grain silo. In June 2007, the Company completed the installation of four additional 400-barrel fermenters. Installation cost for this expansion totaled \$1.3 million and added approximately 25,000 barrels of capacity to the New Hampshire Brewery, bringing the brewery's theoretical production capacity to approximately 235,000 barrels per year. As with the previous expansions, production capacity at the New Hampshire Brewery can be added in phases until the facility reaches its maximum designed production capacity of approximately 250,000 barrels per year, under ideal brewing conditions. Driven by various considerations including seasonality, production schedules of various draft products and bottled products and packages, and losses attributable to filtering, bottling and keg filling, actual production capacity will be less than theoretical production capacity. In order to reduce the spread between actual and theoretical production capacity, additional capital expenditures will be required. The decision to add capacity is affected by the availability of capital, construction constraints and anticipated sales in new and existing markets.

The Company's capacity utilization has a significant impact on gross profit. Generally, when facilities are operating at their maximum designed production capacities, profitability is favorably affected because fixed and semi-variable operating costs, such as depreciation and production salaries, are spread over a larger sales base. Because current period production levels have been below the Company's current production capacity, gross margins have been negatively impacted. This negative impact could be reduced if actual production increases.

In addition to capacity utilization, other factors that could affect cost of sales and gross margin include sales to Craft Brands at a price substantially below wholesale pricing levels, sales of contract beer at a pre-determined contract price, changes in freight charges, the availability and prices of raw materials and packaging materials, the mix between draft and bottled product sales, the sales mix of various bottled product packages, and fees related to the A-B Distribution Agreement.

For additional information about risks and uncertainties facing the Company, see Item 1A. *Risk Factors* above.

Proposed Merger with Widmer Brothers Brewing Company

On November 13, 2007, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with Widmer Brothers Brewing Company, an Oregon corporation ("Widmer"), pursuant to which Widmer will merge with

and into Redhook, and each outstanding share of capital stock of Widmer (other than any dissenting shares entitled to statutory appraisal rights under Oregon law) will be converted into the right to receive 2.1551 shares of Redhook Common Stock. The merger will result in Widmer shareholders and existing Redhook shareholders each holding approximately 50% of the outstanding shares of the combined company

Table of Contents

(assuming that no Widmer shareholder exercises statutory appraisal rights and that currently outstanding options held by Redhook employees, officers, directors and former directors to acquire share of Redhook Common Stock are not exercised prior to consummation of the merger). In connection with the merger, the Company will change its name to Craft Brewers Alliance, Inc.

The Company and Widmer have made customary representations, warranties and covenants in the Merger Agreement, including, among others, a covenant by the Company to cause a meeting of Redhook shareholders to be held to approve issuance of the shares of Common Stock issuable in the merger. The merger is subject to customary conditions to closing, including (i) regulatory approval from the Alcohol and Tobacco Tax and Trade Bureau and state licensing agencies, (ii) approval of Anheuser-Busch, Incorporated, (iii) approval by the requisite vote of Redhook shareholders of the issuance of the shares of Common Stock issuable in the merger, (iv) approval of the merger by the requisite vote of Widmer shareholders, (v) accuracy of the representations and warranties made by the parties under the Merger Agreement, (vi) compliance by the parties with their covenants, and (vii) the absence of any material adverse change to either Redhook or Widmer.

The Merger Agreement was filed as Exhibit 2.1 to the Company's current report on Form 8-K filed on November 13, 2007.

In connection with the discussions leading up to the Merger Agreement, the Company has incurred approximately \$738,000 in legal, consulting, meeting and severance costs during the year ended December 31, 2007, respectively. Of the total, approximately \$584,000 is reflected in the statement of operations as selling, general and administrative expenses and \$154,000 has been capitalized, reflected as other current assets in the balance sheet, in accordance with FASB Statement of Financial Accounting Standards (SFAS) No. 141, *Business Combinations*.

The Company adopted a Company-wide severance plan that requires the payment of severance benefits to all full-time employees, other than executive officers, in the event that an employee is terminated as a result of a merger or other business combination with Widmer. The Company is also party to employment arrangements with its executive officers which provide for severance payments to such officers upon termination of employment. If the proposed merger with Widmer is consummated, the Company anticipates that the integration of the finance, accounting and information technology functions of Redhook and Widmer will result in such functions, including the Chief Financial Officer position held by Mr. Caldwell, no longer being performed by the Redhook finance, accounting and information technology departments. In addition, Mr. Shipman will cease to be Chief Executive Officer, and Mr. Prial and Mr. Triplett will leave the Company. The Company estimates that severance benefits totaling approximately \$2.0 million will be paid to all affected employees including executive officers in connection with the successful closing of the proposed merger.

Table of Contents

The following table sets forth a comparison of sales (in dollars) for the periods indicated:

	Sales for the Year Ended December 31,		Increase / (Decrease)	% Change
	2007	2006		
A-B	\$ 18,879,182	\$ 17,158,964	\$ 1,720,218	10.0%
Craft Brands	13,884,725	13,953,208	(68,482)	(0.5)
Contract brewing	7,363,214	3,264,120	4,099,094	125.6
International and non-wholesalers	87,588	108,902	(21,314)	(19.6)
Pubs and other	6,328,792	5,521,514	807,278	14.6
Total shipped	\$ 46,543,501	\$ 40,006,708	\$ 6,536,794	16.3%

Sales. Total sales increased \$6,537,000 in 2007 compared to 2006, primarily impacted by the following factors:

An increase in pricing and an increase in shipments in the midwest and eastern U.S. resulted in a \$1,942,000 increase in 2007 sales;

An overall decrease in pricing and an overall decrease in shipments in the western U.S. (not including beer brewed on a contract basis) resulted in a \$68,000 decrease in sales in 2007;

An increase in shipments of beer brewed on a contract basis, slightly offset by a decrease in pricing of these shipments, contributed to a \$4,099,000 increase in sales in 2007; and

An increase of \$807,000 in pub and other sales in 2007.

Shipments. The following table sets forth a comparison of shipments (in barrels) for the periods indicated:

	Year Ended December 31,						Increase / (Decrease)	% Change
	2007			2006				
	Draft Shipments	Bottle Shipments	Total Shipments	Draft Shipments	Bottle Shipments	Total Shipments		
A-B	46,100	61,800	107,900	44,600	56,800	101,400	6,500	6.4%
Craft Brands	35,300	86,600	121,900	37,200	85,400	122,600	(700)	(0.6)
Contract brewing	48,300	33,600	81,900	43,000		43,000	38,900	90.5
Pubs and other	3,900	1,300	5,200	3,400	1,200	4,600	600	13.0
Total shipped	133,600	183,300	316,900	128,200	143,400	271,600	45,300	16.7%

Total Company shipments increased 16.7% in 2007 as compared to 2006, primarily driven by a substantial increase in shipments of beer brewed on a contract basis. Total 2007 sales volume increased to 316,900 barrels from 271,600 barrels in 2006. Shipments of the Company's packaged products increased 27.8% while shipments of the Company's draft products increased 4.2%. Excluding the impact of shipments of beer brewed on a contract basis, the Company's shipments of bottled beer have steadily increased as a percentage of total beer shipments since the mid-1990's. In 2007, 63.7% of total shipments, excluding beer brewed under a contract brewing arrangement, were shipments of bottled beer versus 62.7% in 2006.

Contributing significantly to the 45,300 barrel increase in the Company's total shipments is an increase of 38,900 barrels of beer brewed under contract brewing arrangements with Widmer. In connection with the Supply, Distribution and Licensing Agreement with Craft Brands, if shipments of the Company's products in the Craft Brands territory decrease as compared to the previous year's shipments, the Company has the right to brew Widmer products in an amount equal to the lower of (i) the Company's product shipment decrease or (ii) the Widmer product shipment increase (the "Contractual Obligation"). In addition, pursuant to a Manufacturing and Licensing Agreement with Widmer, the Company may, at Widmer's request, brew more

Table of Contents

beer for Widmer than the Contractual Obligation. This Manufacturing and Licensing Agreement with Widmer, as amended, expires on December 31, 2008. Under these contract brewing arrangements, the Company brewed and shipped 81,900 barrels and 43,000 barrels of Widmer beer in 2007 and 2006, respectively. Of these shipments, approximately 96% of the 2007 barrels were in excess of the Contractual Obligation and 77% of the 2006 barrels were in excess of the Contractual Obligation. Through 2006, these contract brewing arrangements were limited to brewing draft beer at the Washington Brewery. However, the Company began brewing and shipping packaged beer from the Washington Brewery during the first quarter of 2007 and the New Hampshire Brewery began brewing and shipping draft beer during the second quarter of 2007. During 2007, approximately 41% of the 81,900 barrels shipped was packaged product and approximately 4,400 barrels of the total 81,900 barrels shipped was brewed and shipped by the New Hampshire Brewery. The Company does not anticipate that the New Hampshire Brewery will be utilized in conjunction with the contract brewing arrangement with Widmer in future periods. Excluding shipments under these contract brewing arrangements, 2007 shipments of the Company's draft and bottled products increased modestly, or 2.8%, as compared to 2006. Driven by the Contractual Obligation as well as Widmer's production needs, the Company anticipates that beer brewed and shipped in 2008 under the contract brewing arrangements with Widmer will be lower than 2007 levels. The Company is evaluating alternatives to utilize the capacity that will become available, if the proposed merger with Widmer does not close, upon the termination of the contract brewing arrangement. If the Company is unable to achieve significant growth through its own products or other alternative products, the Company may have significant unabsorbed overhead that would generate unfavorable financial results.

Included in the Company's total shipments (as shipments through A-B in the table above) are shipments of *Widmer Hefeweizen*, a golden unfiltered wheat beer that is one of the leading American style Hefeweizens sold in the U.S. The Company brews *Widmer Hefeweizen* at the New Hampshire Brewery and distributes the beer through A-B in the midwest and eastern U.S. under license from Widmer. In 2003, the Company entered into a licensing agreement with Widmer to produce and sell the *Widmer Hefeweizen* brand in states east of the Mississippi River. In March 2005, the *Widmer Hefeweizen* distribution territory was expanded to include all of the Company's midwest and eastern markets. In the fourth quarter of 2006, the *Widmer Hefeweizen* distribution territory was again modified when Widmer exercised its contractual right to eliminate Texas from the Company's *Widmer Hefeweizen* distribution territory. The licensing agreement automatically renewed on February 1, 2008 for an additional one-year term expiring February 1, 2009. The agreement provides for additional one-year automatic renewals unless either party notifies the other of its desire to have the agreement expire at the end of the then existing term at least 150 days prior to such expiration. The agreement may also be terminated by either party at any time without cause pursuant to 150 days notice or for cause by either party under certain conditions. Additionally, Redhook and Widmer have entered into a secondary agreement providing that if Widmer terminates the licensing agreement or causes it to expire before December 31, 2009, Widmer will pay the Company a lump sum payment to partially compensate the Company for capital equipment expenditures made at the New Hampshire Brewery to support Widmer's growth. During the term of this agreement, the Company will not brew, advertise, market, or distribute any product that is labeled or advertised as a Hefeweizen or any similar product in the agreed upon midwest and eastern territory. Brewing and selling of Redhook's Hefe-weizen was discontinued in conjunction with this agreement. The Company shipped 28,800 barrels and 30,600 barrels of *Widmer Hefeweizen* in 2007 and 2006, respectively. The Company believes that this agreement increases capacity utilization and has strengthened the Company's product portfolio. If the Widmer licensing agreement were terminated, the Company would evaluate alternatives to utilize the excess capacity, either through new and existing Redhook products or alternative brewing relationships. If the Company is unable to utilize the capacity, the loss of revenue and the resulting excess capacity in the New Hampshire Brewery would have an adverse effect on the Company's financial performance.

Excluding shipments of beer brewed under the contract brewing arrangement with Widmer and under the *Widmer Hefeweizen* licensing agreement, total Company shipments in the U.S. increased nearly 8,100 barrels, or 4.1% in 2007 as compared to 2006.

Table of Contents

During 2007 and 2006, the Company's products were distributed in 48 states. Shipments in the midwest and eastern United States increased by 6.4% compared to 2006 while shipments in the western United States served by Craft Brands decreased 0.6% during 2007 as compared to 2006.

Sales to Craft Brands in 2007 represented 38% of total shipments, or 121,900 barrels, compared to 45%, or 122,600 barrels in 2006. Comparing 2007 to 2003, shipments of Redhook products in the Craft Brands territory have declined 15.8% and shipments in Washington state, the Company's largest and oldest market, have declined 16.3%. In addition, consumer and retailer demand for Redhook branded products has lagged the demand for Widmer and Kona products in the Craft Brand territory in recent years. Beginning in 2004, Craft Brands initiated a five-year plan to strengthen the Redhook brand by improving the volume trend through targeted distribution growth, systematic pricing increases to enhance perceived value and bolster brand profitability, and focused marketing programs to attract and retain Redhook drinkers. Since these efforts were initiated, the Redhook brand sales trends in the Craft Brands territory has shown a slowing in the rate of decline and, recently, some growth. In 2004, the brand experienced an 8% decline over 2003 shipments the Craft Brands territory. In 2005, 2006 and 2007, the year over year losses were 4%, 3% and 1%, respectively. The improvement in shipments in the Craft Brands territory was driven by a reversal of the negative trend in Washington state. Shipments of the Redhook brand declined 12% in 2004 in Washington when compared to 2003, 2% in 2005 when compared to 2004, and 5% in 2006 when compared to 2005. In 2007, though, shipments in Washington increased 2% over 2006. In Washington state, Redhook has been a market leader for many years and has in-market pricing that is consistent with other top selling craft brands. Consequently, management believes that the trend reversal is more likely a result of additional focus in the form of distribution drives and brand awareness programs and less likely a result of pricing.

In 2007, Colorado, Hawaii and New Mexico reported double digit declines in shipments of Redhook product. In select markets, including Colorado, Hawaii and New Mexico, Redhook had historically elected to price its products below the market leaders. Over the past four years, Craft Brands has systematically raised Redhook's in-market pricing to levels comparable to the market leaders. This strategy is intended to strengthen the perceived value of the Redhook brand over the long term. However, in the short term, it is expected that Redhook may continue to experience volume declines in certain markets.

In addition to strengthening the perceived value of the Redhook brand, Craft Brands management has focused on enhancing value through re-branding efforts and this is achieving some positive results. Craft Brand's initiative to re-brand *Redhook IPA* into *Long Hammer IPA* has resulted in positive momentum for the Company's fastest growing national brand. Management at Craft Brands recognizes this effort is necessary and is reviewing packaging and marketing campaign changes that are expected to be introduced in 2008 and 2009 to build on the *Long Hammer IPA* success.

Different products within brand families go through different life cycles at different times. Although *Redhook ESB* has historically been a larger percentage of Redhook's volume, the Company has experienced a decline in shipments of this product over the last five years as this product has matured. *Long Hammer IPA* has now become the Company's primary growth product and its growth has more than offset the loss of *Redhook ESB* volume in the last two years. During the same five-year period that Redhook shipments declined in the Craft Brands territory, sales of Kona and Widmer products have increased. Kona is a relatively new product, recently introduced into many of the states served by Craft Brands. Although this product has experienced the rapid growth of a new brand that benefits from growing distribution and new trial from consumers, it is still much smaller in volume than the Redhook or Widmer brands. The growth experienced by the Widmer brand during this five-year period has been led by the popular consumer response to the Hefeweizen category within the craft beer segment and the role *Widmer Hefeweizen* has enjoyed in being a leader in this category. This category continues to experience very positive trends nationally, but in recent years has seen a significant increase in competitive products from other craft brewers as well as offerings from large domestic brewers attempting to participate in the same category.

In the eastern half of the United States serviced by the Redhook sales force, the Redhook brand growth has been fueled by increased distribution led by the growth of *Long Hammer IPA*. The craft beer market in the

Table of Contents

east has not been as developed as in the west until recently and Redhook has benefited from increased interest in the category, the re-branding efforts described above and its strong distribution network.

Sales in the midwest and eastern United States in 2007 represented approximately 34% of total shipments, or 107,900 barrels, compared to 37%, or 101,400 barrels in 2006. Contributing most significantly to the sales growth in 2007 were increased sales to states in the southeastern U.S., offset by declines in sales in several New England and midwestern states.

Pricing and Fees. The Company sells its product at wholesale pricing levels in the midwest and eastern U.S., at lower than wholesale pricing levels to Craft Brands in the western U.S., and at agreed-upon pricing levels for beer brewed on a contract basis.

The Company continues to sell its product at wholesale pricing levels in the midwest and eastern U.S. through sales to A-B. Average wholesale revenue per barrel for draft products, net of discounts, improved more than 4% in 2007 compared to 2006. This increase in pricing accounted for an increase of approximately \$254,000 in total sales. Average wholesale revenue per barrel for bottle products, net of discounts, increased nearly 4% in 2007 compared to 2006. This increase in pricing accounted for an increase of approximately \$444,000 in total sales. Management believes that most, if not all, craft brewers are reviewing their pricing strategies in response to recent increases in the costs of raw materials and the weak dollar. Seldom, if ever, have pricing changes in recent years been driven by an inflationary period. Instead, pricing changes implemented by the Company have generally followed pricing changes initiated by large domestic or import brewing companies. While the Company has implemented modest price increases during the past few years, some of the benefit has been offset by competitive promotions and discounting. The Company may experience a decline in sales in certain regions following a price increase.

The Company sells its product to Craft Brands at a price substantially below wholesale pricing levels pursuant to the Supply, Distribution and Licensing Agreement with Craft Brands; Craft Brands, in turn, advertises, markets, sells and distributes the product to wholesale outlets in the western U.S. through a distribution agreement between Craft Brands and A-B. The prices that the Company charges for draft product and for bottled product are determined by contractually defined formulas and are based on the twelve month average pricing ending September of the previous year for all Redhook and Widmer draft and bottled product sold by Craft Brands. The prices are adjusted on January 1st of each year. Average revenue per barrel for draft products sold to Craft Brands increased nearly 2% in 2007 compared to 2006. This increase in pricing accounted for an increase of approximately \$60,000 in total sales. Average revenue per barrel for bottle products sold to Craft Brands decreased nearly 1% in 2007 compared to 2006 resulting in a decrease of \$95,000 in total sales.

Average revenue per barrel on beer brewed on a contract basis for Widmer pursuant to the Supply, Distribution and Licensing Agreement with Craft Brands is generally at a price substantially lower than wholesale pricing levels. After the Contractual Obligation has been fulfilled pursuant to the Supply, Distribution and Licensing Agreement with Craft Brands, the price charged Widmer for any additional barrels brewed declines pursuant to the Manufacturing and Licensing Agreement with Widmer, as amended. Average revenue per barrel for draft beer brewed on a contract basis decreased approximately 4% in 2007 compared to 2006 resulting in a decrease of \$132,000 in total sales. In the first quarter of 2007, the Company began shipping bottled beer under this contract brewing arrangement.

In connection with all sales through the July 1, 2004 A-B Distribution Agreement, the Company pays a Margin fee to A-B. The Margin does not apply to sales from the Company's retail operations or to dock sales. The Margin also does not apply to the Company's sales to Craft Brands because Craft Brands pays a comparable fee to A-B on its resale of the product. The A-B Distribution Agreement also provides that the Company shall pay the Additional Margin on shipments that exceed shipments in the same territory during fiscal 2003. During the year ended December 31, 2007, the Margin was paid to A-B on shipments totaling 107,900 barrels to 532 distribution points. During the year ended

December 31, 2006, the Margin was paid to A-B on shipments totaling 101,400 barrels to 503 distribution points. Because 2007 and 2006 shipments in the midwest and eastern U.S. each exceeded 2003 shipments in the same territory, the Company paid A-B the

Table of Contents

Additional Margin on 30,000 and 23,000 barrels, respectively. The Margin is reflected as a reduction of sales in the Company's statements of operations.

Retail Operations and Other Sales. Sales through the Company's retail operations and other sales increased \$807,000 to \$6,329,000 in 2007 from \$5,522,000 in 2006, primarily as the result of an increase in beer and food sales.

Excise Taxes. Excise taxes increased \$781,000 to \$5,074,000 for 2007 compared to \$4,292,000 for 2006, primarily as a result of the overall increase in shipments. The Company continues to be responsible for federal and state excise taxes for all shipments, including those to Craft Brands and brewed under contract. The comparability of excise taxes as a percentage of net sales is impacted by: average revenue per barrel; the mix of sales in the midwest and eastern United States, sales to Craft Brands, sales of beer brewed on contract basis, and pub sales; and the estimated annual average federal and state excise tax rates.

Cost of Sales. Cost of sales is comprised of direct and overhead costs incurred to produce the Company's package and draft products, as well as expenses associated with the Company's pub operations. Comparing 2007 to 2006, cost of sales increased by \$5,867,000, increased as a percentage of net sales and increased on a per barrel basis. The increase in cost of sales was driven by an increase in the production of lower margin beer brewed on a contract basis, an increase in the cost of some raw materials and packaging materials, a higher proportion of packaged product, and an increase in production losses.

In 2007, the Company shipped an additional 38,900 barrels of beer brewed on a contract basis. In addition to the overall increase in shipments of contract beer, approximately 41% of the 2007 shipments were packaged product while 2006 shipments were entirely draft product.

Redhook experienced a 4% increase, or \$2.10 per barrel, in the cost of packaging compared to 2006 costs. This increase, assuming no change in the mix of package versus draft sales, resulted in an increase in cost of sales of approximately \$300,000. This per barrel cost increase was compounded by an increase in 2007 year-to-date shipments of packaged product relative to total shipments. Shipments of packaged product, excluding shipments of beer brewed on a contract basis, increased to 63.7% of total shipments in 2007 from 62.6% in 2006. In 2007, the gross margin on wholesale shipments of bottled product was approximately 37% while the gross margin on wholesale shipments of draft product was approximately 57%. Even though average revenue per barrel, net of excise taxes, on shipments of bottled product is generally 40% to 50% higher than average revenue per barrel on shipments of draft product, the 2007 gross profit per barrel for bottled product was lower than the 2007 gross profit per barrel for draft product. Because wholesale sales price increases have not increased at the same rate as packaging costs have increased in recent years, the 2007 gross profit per barrel for bottled product has been negatively impacted. If wholesale pricing does not increase at the rate of packaging cost increases, the Company's gross profit and results of operations will be negatively impacted.

According to industry and media sources, the price of barley, a primary ingredient in most beers, has increased 48% over the past 18 months. The significant price increase is apparently driven by a lower supply of barley as farmers shift their focus to growing corn, a key component of biofuels. While the Company has experienced an increase in the cost of barley over the past year, the Company's fixed price contracts had limited that increase through August 2007 to less than 10%. The Company's existing barley purchase contracts expired during the third quarter of 2007; the Company's new barley supply contracts reflect current market pricing that is significantly higher than the pricing in the expired contracts. In addition to a decline in the supply of barley, the beer industry appears to also be experiencing a decline in the supply of hops, driven by a number of factors: excess supply in the 1990s led some growers to switch to more lucrative crops, resulting in an estimated 40% decrease in worldwide hop-growing acreage; poor weather in eastern Europe and Germany caused substantial hops crop losses in 2007; hops crop production in England has declined approximately 85% since the mid-1970s; and 2007 U.S., New Zealand, and Australia hops crop yields were

only average. As with malted barley, the Company has fixed price purchase contracts for its specialty hops, both to assure that the Company will have the necessary supply for current and future production needs, but also to obtain favorable pricing. In 2007 and early 2008, the Company entered into fixed price purchase contracts for the Company's key specialty hops; the Company believes that these contracts will provide a substantial portion of the requirements for this hop for the next five years. While the cost of these hops is significantly higher in some

Table of Contents

cases than the Company's cost in prior years, management believes that securing an adequate supply is crucial in the current environment. On average, Redhook experienced cost increases of approximately 51%, 16% and 1% for 2007 purchases of malted barley, wheat and hops, respectively. These increases in the cost of malted barley, wheat and hops resulted in an increase in 2007 cost of sales of approximately \$5.20 per barrel. At 2006 production levels, these raw material cost increases resulted in an increase in cost of sales of approximately \$1,415,000. If the Company experiences difficulty in securing its key raw materials or continues to experience increases in the cost of these materials, it will have a material impact on the Company's gross margins and results of operations. The Company will continue to seek opportunities to secure favorable pricing for its key materials.

The Company's cost of sales includes a licensing fee of \$432,000 and \$437,000 for 2007 and 2006, respectively, in connection with the Company's shipment of 28,800 barrels and 30,600 barrels of *Widmer Hefeweizen* in the midwest and eastern United States pursuant to a licensing agreement with Widmer.

Additionally, cost of sales for 2006 reflect a payment of \$124,000 from A-B for invoice costs collected by A-B from 1994 through 2005 in excess of amounts due under the 1994 A-B Distribution Alliance and the 2004 A-B Distribution Agreement.

Based upon the breweries' combined theoretical production capacity under optimal year-round brewing conditions of 475,000 barrels and 445,000 barrels for 2007 and 2006, the utilization rates were 67% and 61%, respectively. Capacity utilization rates are calculated by dividing the Company's total shipments by the combined theoretical production capacity.

Selling, General and Administrative Expenses. Selling, general and administrative expenses for 2007 increased \$1,993,000 to \$8,841,000 from expenses of \$6,848,000 for 2006. The increase is primarily attributable to costs related to the proposed merger with Widmer, salaries and related expense, sales and marketing expenditures, costs associated with Sarbanes-Oxley and SEC compliance, and stock-based compensation expense. In 2007, the Company incurred approximately \$738,000 in legal, consulting, meeting and severance costs in connection with the merger discussions. Of the total, approximately \$584,000 is reflected in the statement of operations as selling, general and administrative expenses, and \$154,000 is attributable to payments to third parties and has been capitalized, reflected as other current assets in the balance sheet, in accordance with FASB SFAS No. 141, *Business Combinations*. Salaries and related expenses also increased \$463,000 for 2007 as compared to 2006, and sales and marketing promotional expenditures were up \$552,000 for 2007. Driven by the 2007 requirement that management must assess and report on the effectiveness of the Company's internal control over financial reporting under Section 404(a) of the Sarbanes Oxley Act of 2002, the Company incurred additional consulting and accounting-related fees of approximately \$227,000 in 2007. In May 2007, the Company issued 24,200 shares of the Company's Common Stock to independent, non-employee directors and certain executive officers and recognized stock-based compensation expense of \$169,400. Stock-based compensation expense recognized in 2006 totaled \$54,000 and was attributable to stock options granted to independent, non-employee directors.

The Company promotes its products through a variety of advertising programs with its wholesalers and downstream retailers, by training and educating wholesalers and retailers about the Company's products, through promotions and point of sale displays at local festivals, venues, and pubs, by utilizing its pubs located at the Company's two breweries, through price discounting, and, more recently, through Craft Brands. These advertising and promotional activities frequently involve the local wholesaler sharing in the cost of the program, as permitted by law, because management believes that these cost-sharing arrangements align the interests of the Company with those of the wholesaler or retailer whose local market knowledge contributes to more effective promotions. Sharing these efforts with a wholesaler helps the Company to leverage its investment in advertising programs and gives the participating wholesaler a vested interest in the program's success. Reimbursements from wholesalers for advertising and promotion activities are recorded as a reduction to selling, general and administrative expenses in the Company's statements of

operations. Reimbursements for pricing discounts to wholesalers are recorded as a reduction to sales. For 2007 and 2006, the wholesalers contribution toward these activities totaled approximately 1.25% and 1.0% of net sales, respectively.

Table of Contents

Depending on the industry and market conditions, the Company may adjust its advertising and promotional efforts in a wholesaler's market if a change occurs in a cost-sharing arrangement.

Income from Equity Investment in Craft Brands. After giving effect to income attributable to the Kona brand, which was shared differently between the Company and Widmer through 2006, the Craft Brands operating agreement dictates that remaining profits and losses of Craft Brands are allocated between the Company and Widmer based on the cash flow percentages of 42% and 58%, respectively. For 2007, the Company's share of Craft Brands' net income totaled \$2,826,000 compared to \$2,655,000 for 2006. Net cash flow of Craft Brands, if any, is generally distributed monthly to the Company based on the Company's cash flow percentage of 42%. In 2007, the Company received cash distributions of \$2,538,000, representing its share of the net cash flow of Craft Brands. In 2006, the Company received cash distributions of \$2,621,000.

Interest Expense. Interest expense declined approximately \$44,000 to \$302,000 in 2007 from \$346,000 in 2006. A declining term loan balance and a repayment of the \$4.3 million balance in early December 2007 resulted in a decline in interest expense.

Other Income, net. Other income, net increased by \$134,000 to \$518,000 for 2007 from \$384,000 for 2006, primarily attributable to an \$87,000 increase in interest income earned on interest-bearing deposits.

Income Taxes. The Company's provision for income taxes was a benefit of \$176,000 for 2007 and an expense of \$125,000 for 2006. Both periods include a provision for current state taxes. The tax benefit for 2007 and the expense for 2006 are driven by pre-tax results relative to other components of the tax provision calculation, such as the exclusion of a portion of meals and entertainment expenses from tax return deductions. In 2006, the Company decreased the valuation allowance that covers net tax operating loss carryforwards and other net deferred tax assets. The valuation allowance covers a portion of the Company's deferred tax assets, specifically certain federal and state NOLs that may expire before the Company is able to utilize the tax benefit. Realization of the benefit is dependent on the Company's ability to generate future U.S. taxable income. To the extent that the Company is unable to generate adequate taxable income in future periods, the Company will not be able to recognize additional tax benefits and may be required to record a greater valuation allowance covering potentially expiring NOLs.

Craft Brands Alliance LLC

The Company has accounted for its investment in Craft Brands under the equity method, as outlined by APB No. 18, *The Equity Method of Accounting for Investments in Common Stock*. Pursuant to APB No. 18, the Company has recorded its share of Craft Brands' net income in the Company's statement of operations as income from equity investment in Craft Brands. Separate financial statements for Craft Brands are included in this Annual Report on Form 10-K in Part IV., Item 15. *Exhibits and Financial Statement Schedules*, in accordance with Rule 3-09 of Regulation S-X. The following summarizes a comparison of certain items from Craft Brands' statements of operations for the years ended December 31, 2007 and 2006. Certain reclassifications have been made to the prior year's financial statements to conform to the current year presentation. The effects of the reclassifications did not affect net income or the profit allocation.

Sales. Sales totaled \$65,358,000 for 2007 compared to \$58,664,000 for 2006. In addition to selling 121,900 barrels of the Company's product to wholesalers in the western United States in 2007 and 122,600 barrels in 2006, Craft Brands also sold Widmer and Kona products. Total Craft Brands shipments increased approximately 5.9% in 2007 as compared to shipments in 2006. Average wholesale revenue per barrel for all draft products sold by Craft Brands, net of discounts, increased nearly 4% in 2007 as compared to 2006. Average wholesale revenue per barrel for all bottle products sold by Craft Brands, net of discounts, increased approximately 4% in 2007 as compared to 2006. For 2007, average wholesale revenue per barrel for all products sold by Craft Brands was approximately 1% lower than average

wholesale revenue per barrel on direct sales to wholesalers by the Company during 2007. Craft Brands also pays fees to A-B in connection with sales to A-B that are comparable to fees paid by the Company.

Cost of Sales. Cost of sales totaled \$44,088,000 for 2007 compared to \$40,454,000 for 2006. The increase in cost of sales over 2006 is attributable to the 5.9% increase in shipments, an increase in prices

Table of Contents

charged by the Company and Widmer for draft product sold to Craft Brands, and a \$1,060,000 increase in freight and logistics costs, slightly offset by a decrease in prices charged by the Company for bottled product sold to Craft Brands. The disproportionate increase in freight expense was attributable to an increase in fuel surcharges over 2006 as well as sales growth in Craft Brands more distant markets where the freight cost per barrel is generally higher than the average. Craft Brands purchases product from the Company and Widmer at a price substantially below wholesale pricing levels pursuant to the Supply, Distribution, and Licensing Agreement between Craft Brands and each of the Company and Widmer.

Selling, General and Administrative Expenses. Selling, general and administrative expenses totaled \$14,559,000 for 2007 compared to \$11,879,000 for 2006, reflecting all advertising, marketing and promotion efforts for the Redhook, Widmer and Kona brands. During 2007, sales and marketing costs increased approximately \$2.6 million, attributable to a \$687,000 reduction in the value at which Craft Brands promotional inventories are stated, an increase in salaries resulting from the addition of several new positions, an increase in long-term executive bonuses, and an expansion of the use of promotional materials and media in certain markets. Administrative expenses were approximately \$71,000 higher than in 2006.

Net Income. Net income totaled \$6,728,000 for 2007 compared to \$6,339,000 for 2006. The Company's share of Craft Brands net income totaled \$2,826,000 for 2007 compared to \$2,655,000 for 2006. After giving effect to income attributable to the Kona brand, which was shared differently between the Company and Widmer through 2006, the Craft Brands operating agreement dictates that remaining profits and losses of Craft Brands are allocated between the Company and Widmer based on the cash flow percentages of 42% and 58%, respectively.

Year Ended December 31, 2006 Compared to Year Ended December 31, 2005

The following table sets forth, for the periods indicated, a comparison of certain items from the Company's Statements of Operations:

	Year Ended December 31,		Increase /	%
	2006	2005	(Decrease)	Change
Sales	\$ 40,006,708	\$ 34,520,401	\$ 5,486,307	15.9%
Less excise taxes	4,292,324	3,421,494	870,830	25.5
Net sales	35,714,384	31,098,907	4,615,477	14.8
Cost of sales	30,918,137	27,543,639	3,374,498	12.3
Gross profit	4,796,247	3,555,268	1,240,979	34.9
Selling, general and administrative expenses	6,848,050	6,783,821	64,229	0.9
Income from equity investment in Craft Brands	2,655,248	2,391,936	263,312	11.0
Operating income (loss)	603,445	(836,617)	1,440,062	172.1
Interest expense	346,455	271,460	74,995	27.6
Other income, net	384,025	125,308	258,717	206.5
Income (loss) before income taxes	641,015	(982,769)	1,623,784	165.2
Income tax provision (benefit)	124,850	217,674	(92,824)	42.6

Net income (loss)	\$	516,165	\$	(1,200,443)	\$	1,716,608	143.0%
-------------------	----	---------	----	-------------	----	-----------	--------

Sales. Total sales increased \$5,487,000 in 2006 compared to 2005, impacted primarily by the following factors:

An increase in pricing and increase in shipments in the midwest and eastern U.S. resulted in a \$3,035,000 increase in sales in 2006;

An increase in pricing and decrease in shipments in the western U.S. (not including beer brewed on a contract basis) resulted in a \$345,000 decrease in sales in 2006;

Table of Contents

An increase in shipments of beer brewed on a contract basis, partially offset by a decrease in pricing of these shipments, contributed to a \$2,483,000 increase in sales in 2006; and

Pub and other sales increased \$204,000 in 2006.

The following table sets forth a comparison of sales (in dollars) for the periods indicated:

	Sales for the Year Ended December 31,		Increase / (Decrease)	% Change
	2006	2005		
A-B	\$ 17,158,964	\$ 14,037,635	\$ 3,121,329	22.2%
Craft Brands	13,953,208	14,298,215	(345,007)	(2.4)
Contract brewing	3,264,120	780,831	2,483,289	318.0
International and non-wholesalers	108,902	86,481	22,420	25.9
Pubs and other	5,521,514	5,317,239	204,275	3.8
Total shipped	\$ 40,006,708	\$ 34,520,401	\$ 5,486,307	15.9%

Shipments. The following table sets forth a comparison of shipments (in barrels) for the periods indicated:

	Year Ended December 31,						Increase / (Decrease)	% Change
	2006			2005				
	Draft Shipments	Bottle Shipments	Total Shipments	Draft Shipments	Bottle Shipments	Total Shipments		
A-B	44,600	56,800	101,400	39,700	45,400	85,100	16,300	19.2%
Craft Brands	37,200	85,400	122,600	39,900	86,600	126,500	(3,900)	(3.1)
Contract brewing	43,000		43,000	8,900		8,900	34,100	383.1
Pubs and other	3,400	1,200	4,600	3,500	1,300	4,800	(200)	(4.2)
Total shipped	128,200	143,400	271,600	92,000	133,300	225,300	46,300	20.6%

At December 31, 2006 and 2005, the Company's products were distributed in 48 states. Total shipments increased 21% to 271,600 barrels in 2006 from 225,300 barrels in 2005, primarily driven by a substantial increase in beer brewed on a contract basis and an increase in shipments of Redhook products and *Widmer Hefeweizen* in the midwest and eastern U.S. Shipments of the Company's packaged products increased 8% while shipments of the Company's draft products increased 39%. Since the mid 1990s, the Company's sales of bottled beer have steadily increased as a percentage of total beer sales, excluding sales related to contract brewing. This migration toward increasing bottled beer sales has continued over the past two years, with 63% of total shipments, excluding contract brewing shipments, as bottle

shipments versus 62% in 2005.

Contributing significantly to the 46,300 barrel increase in the Company's total shipments is an increase of 34,100 barrels of beer brewed at the Washington Brewery under a contract brewing arrangement with Widmer. In connection with the Supply and Distribution Agreement with Craft Brands, if shipments of the Company's products in the Craft Brands territory decrease as compared to the previous year's shipments, the Company has the right to brew Widmer products in an amount equal to the lower of (i) the Company's product shipment decrease or (ii) the Widmer product shipment increase. In addition, the Company may, pursuant to a Manufacturing and Licensing Agreement with Widmer, brew more beer for Widmer than the Contractual Obligation. This Manufacturing and Licensing Agreement with Widmer expires December 31, 2007 but may be extended for an additional one-year term. Under these contract brewing arrangements, the Company brewed and shipped 43,000 barrels and 8,900 barrels of Widmer draft beer in 2006 and 2005, respectively. Of these shipments, approximately 77% of 2006 barrels were in excess of the Contractual Obligation and 20% of 2005 barrels were in excess of the Contractual Obligation. Excluding shipments under this arrangement, shipments of the Company's draft products increased 3% in the 2006 and total Company shipments increased 6%. Driven by the Contractual Obligation as well as Widmer's production needs, the Company anticipates that

Table of Contents

beer brewed and shipped in 2007 under the contract brewing arrangement with Widmer will increase significantly over 2006 levels. The Company expects this level of contract brewing for Widmer to end in the first half of 2008 as Widmer brings its own additional brewing capacity on line. The Company is evaluating alternatives to utilize the capacity that will become available upon the termination of the contract brewing arrangement. If the Company is unable to achieve significant growth through its own products or other alternative products, the Company may have significant unabsorbed overhead that would generate unfavorable financial results.

Also included in the Company's total shipments is *Widmer Hefeweizen* brewed at the New Hampshire Brewery under a licensing arrangement with Widmer and distributed through A-B. *Widmer Hefeweizen* is a golden unfiltered wheat beer and is one of the leading American style Hefeweizens sold in the U.S. In 2003, the Company entered into a licensing agreement with Widmer to produce and sell the *Widmer Hefeweizen* brand in states east of the Mississippi River. In March 2005, the *Widmer Hefeweizen* distribution territory was expanded to include all of the Company's midwest and eastern markets. Brewing of this product is conducted at the New Hampshire Brewery under the supervision and assistance of *Widmer's* brewing staff to insure their brand's quality and matching taste profile. The term of this agreement expires February 1, 2008, with additional one-year automatic renewals unless either party notifies the other of its desire to have the term expire at the end of the then existing term at least 150 days prior to such expiration. The agreement may be terminated by either party at any time without cause pursuant to 150 days notice or for cause by either party under certain conditions. Additionally, the Company and Widmer have entered into a side agreement providing that if Widmer terminates the licensing agreement or causes it to expire before December 31, 2009, Widmer will pay the Company a lump sum payment to partially compensate the Company for capital equipment expenditures made at the New Hampshire Brewery to support Widmer's growth. During the term of this agreement, the Company will not brew, advertise, market, or distribute any product that is labeled or advertised as a Hefeweizen or any similar product in the agreed upon midwest and eastern territory. Brewing and selling of Redhook's Hefe-weizen was discontinued in conjunction with this agreement. The Company believes that the agreement increases capacity utilization and has strengthened the Company's product portfolio. The Company shipped 30,600 barrels and 25,600 barrels of *Widmer Hefeweizen* during 2006 and 2005, respectively; these shipments are included in the A-B and Non-wholesalers line in the table above. If the Widmer licensing agreement were terminated early, or if Widmer gave notice of its election to terminate the agreement according to its term on February 1, 2008, the Company would need to look to replace the lost volume, either through new and existing Redhook products or alternative brewing relationships. If the Company is unable to replace the lost Widmer volume, the loss of revenue and the resulting excess capacity in the New Hampshire Brewery would have an adverse effect on the Company's financial performance.

Excluding shipments of beer brewed under the contract brewing arrangement with Widmer and under the *Widmer Hefeweizen* licensing agreement, total Company shipments, in the U.S., increased by 7,200 barrels, or 4% in 2006 as compared to 2005.

Sales in 2006 to Craft Brands represented approximately 45% of total shipments, or 122,600 barrels, compared to 56%, or 126,500 barrels in 2005. Contributing most significantly to the decline in shipments in the western U.S. were a 7% decline in shipments to California, a 3% decline in shipments to Washington State, and a 14% decline in shipments to Colorado. A significant portion of the Company's sales continue to be in the Pacific Northwest region, which the Company believes is one of the most competitive craft beer markets in the U.S., both in terms of number of market participants and consumer awareness. The Company continues to face extreme competitive pressure in Washington State, which is not only the Company's largest market but is also its oldest market. From 2000 through 2006, the Company has experienced a 24% decline in sales volume in Washington State. In 2006, sales of the Company's products in the Craft Brands territory declined by 3% compared to 2005. Pricing of the company's products has increased and the level of promotion and discounting has declined, allowing the Company to achieve higher revenue per barrel, however, management believes there is a direct correlation to lower sales caused by higher net pricing. During this same period, Craft Brands has been very successful selling the Widmer and Kona products.

Although the Company enjoys the benefits of those successes through its profit-sharing arrangement with Craft Brands, the Company believes it is critical for Craft Brands to deliver success with the Redhook products in addition to the others.

Table of Contents

The Company has communicated this concern to Craft Brands, and is working with Craft Brands to establish new brand management throughout the portfolio of Redhook products. Craft Brands also responded to this concern by re-emphasizing their commitment to Redhook products and Craft Brands has set goals and objectives to improve performance of the Redhook products in 2007.

Pricing and Fees. The Company sells its product at wholesale pricing levels in the midwest and eastern U.S., at lower than wholesale pricing levels to Craft Brands in the western U.S., and at agreed-upon pricing levels for beer brewed on a contract basis.

The Company continues to sell its product at wholesale pricing levels in the midwest and eastern U.S. through sales to A-B. Average wholesale revenue per barrel for draft products, net of discounts, increased approximately 1% in 2006 compared to 2005. This increase in pricing accounted for an increase of approximately \$60,000 in total sales. Average wholesale revenue per barrel for bottle products, net of discounts, increased approximately 1% in 2006 compared to 2005. This increase in pricing accounted for an increase of approximately \$74,000 in total sales. Seldom, if ever, are pricing changes driven by an inflationary period. Instead, pricing changes implemented by the Company generally follow pricing changes initiated by large domestic or import brewing companies. While the Company has implemented modest price increases during the past few years, some of the benefit has been offset by competitive promotions and discounting. Additionally, the Company may experience a decline in sales in certain regions following a price increase.

The Company sells its product to Craft Brands at a price substantially below wholesale pricing levels pursuant to the Supply, Distribution and Licensing Agreement with Craft Brands; Craft Brands, in turn, advertises, markets, sells and distributes the product to wholesale outlets in the western U.S. through a distribution agreement between Craft Brands and A-B. The prices that the Company charges Craft Brands for draft product and for bottled product are determined by contractually defined formulas and are based on the twelve month average pricing ending September of the previous year for all Redhook and Widmer draft product and for all Redhook and Widmer bottled product sold by Craft Brands. The prices are adjusted on January 1st of each year. Average revenue per barrel for draft products sold to Craft Brands decreased approximately 2% in 2006 compared to 2005. This decrease in pricing accounted for a decrease of approximately \$81,000 in total sales. Average revenue per barrel for bottle products sold to Craft Brands increased 1% in 2006 compared to 2005 resulting in an increase of \$121,000 in total sales.

Average revenue per barrel on beer brewed on a contract basis for Widmer pursuant to the Supply, Distribution and Licensing Agreement with Craft Brands is generally at a price substantially lower than wholesale pricing levels. After the Contractual Obligation has been fulfilled pursuant to the Supply, Distribution and Licensing Agreement with Craft Brands, the price charged Widmer for any additional barrels brewed declines pursuant to the Manufacturing and Licensing Agreement with Widmer. This decline in price contributed to an overall 14% decline in price for beer brewed on a contract basis for Widmer in 2006.

In connection with all sales through the July 1, 2004 A-B Distribution Agreement, the Company pays a Margin fee to A-B. The Margin does not apply to sales to the Company's retail operations or to dock sales. The Margin also does not apply to the Company's sales to Craft Brands because Craft Brands pays a comparable fee to A-B on its resale of the product. The A-B Distribution Agreement also provides that the Company shall pay an additional fee on shipments that exceed shipments in the same territory during fiscal 2003 (the Additional Margin). For 2006, the Margin was paid to A-B on shipments totaling 101,400 barrels to approximately 503 distribution points. For 2005, the Margin was paid to A-B on shipments totaling 85,100 barrels to approximately 472 distribution points. The Margin and Additional Margin is reflected as a reduction of sales in the Company's statement of operations.

Retail Operations and Other Sales. Sales in the Company's retail operations and other sales increased \$204,000 to \$5,521,000 in 2006 from \$5,317,000 in 2005, primarily the result of an increase in special event and food sales.

Excise Taxes. Excise taxes increased \$871,000 to \$4,292,000 in 2006 compared to \$3,421,000 in 2005, primarily the result of the overall increase in 2006 shipments compared to 2005. The Company continues to be responsible for federal and state excise taxes for all shipments, including those to Craft Brands and those

Table of Contents

brewed under contract. The comparability of excise taxes as a percentage of net sales is impacted by average revenue per barrel, the mix of sales in the midwest and eastern U.S., sales to Craft Brands, sales of beer brewed on a contract basis, pub sales, and the estimated annual average federal and state excise tax rates.

Cost of Sales. Comparing 2006 and 2005, cost of sales increased 12%, or \$3,374,000, yet declined on a per barrel basis. The decline on a per barrel basis is primarily attributable to a larger sales volume in 2006 than in 2005 being spread over approximately the same base of fixed and semi-variable costs. The Company's fixed and semi-variable costs included in cost of sales are depreciation, insurance, rent on the New Hampshire Brewery, utilities, and repair and maintenance charges.

The Company's cost of sales also includes a licensing fee of \$437,000 and \$399,000 for 2006 and 2005, respectively, in connection with the Company's shipment of 30,600 and 25,600 barrels of Widmer Hefeweizen in the midwest and eastern U.S. pursuant to a licensing agreement with Widmer. Shipments of Widmer Hefeweizen to states that were included in the expanded territory in 2005 are excluded from the computation of the licensing fee due to Widmer.

Based upon the breweries' combined theoretical production capacity under optimal year-round brewing conditions of 460,000 barrels and 375,000 barrels for 2006 and 2005, the utilization rates were 60% for each year. Capacity utilization rates are calculated by dividing the Company's total shipments by the combined theoretical production capacity.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased \$64,000 to \$6,848,000 for 2006, primarily due to an increase in salary expenses resulting from staff turnover and a highly competitive job market for employers. Selling, general and administrative expenses for 2006 also include \$54,000 for stock-based compensation expense incurred in the second quarter of 2006. On January 1, 2006, the Company adopted SFAS No. 123R, *Share-Based Payment*, which requires all share-based payments to employees and directors be recognized as expense in the statement of operations based on their fair values and vesting periods. This second quarter 2006 expense is solely attributable to stock options granted to the independent members of the board of directors in May 2006 as part of their director compensation package. No compensation expense was recognized in 2006 for stock options outstanding as of December 31, 2005 because these options were fully vested prior to the January 1, 2006 adoption of SFAS No. 123R.

The Company promotes its products through a variety of advertising programs with its wholesalers and downstream retailers, by training and educating wholesalers and retailers about the Company's products, through promotions and point of sales displays at local festivals, venues, and pubs, by utilizing its pubs located at the Company's two breweries, through price discounting, and, more recently, through Craft Brands. These advertising and promotional activities frequently involve the local wholesaler sharing in the cost of the program, as permitted by law, because management believes that these cost-sharing arrangements align the interests of the Company with those of the wholesaler or retailer whose local market knowledge contributes to more effective promotions. Sharing these efforts with a wholesaler helps the Company to leverage its investment in advertising programs and gives the participating wholesaler a vested interest in the program's success. Reimbursements from wholesalers for advertising and promotion activities are recorded as a reduction to selling, general and administrative expenses in the Company's statements of operations. Reimbursements for pricing discounts to wholesalers are recorded as a reduction to sales. For 2006 and 2005, the wholesalers' contribution toward these activities totaled approximately 1.0% and 1.1% of net sales, respectively. Depending on the industry and market conditions, the Company may adjust its advertising and promotional efforts in a wholesaler's market if a change occurs in a cost-sharing arrangement.

Income from Equity Investment in Craft Brands. In accordance with the Craft Brands operating agreement, the Company made a \$250,000 sales and marketing capital contribution to Craft Brands in 2004; the capital contribution was used by Craft Brands for expenses related to the marketing, advertising, and promotion of Redhook products

(Special Marketing Expense). After giving effect to the allocation of the Special Marketing Expense, which was allocated 100% to the Company, and giving effect to income attributable to the Kona brand, which is shared differently between the Company and Widmer through 2006, the operating agreement dictates that remaining profits and losses of Craft Brands are allocated between the Company and Widmer based on the cash flow percentages of 42% and 58%, respectively. For the year ended

Table of Contents

December 31, 2006, the Company's share of Craft Brands net income totaled \$2,655,000. For the year ended December 31, 2005, the Company's share of Craft Brands net income totaled \$2,392,000. The Company's 2005 share of Craft Brands' profit was net of \$135,000 of the Special Marketing Expense that had been incurred by Craft Brands during the same period and was fully allocated to the Company. As of December 31, 2005, the entire \$250,000 2004 sales and marketing capital contribution made by the Company had been used by Craft Brands for designated Special Marketing Expenses and netted against Craft Brands' profits allocated to the Company. Net cash flow of Craft Brands, if any, is generally distributed monthly to the Company based on the Company's cash flow percentage of 42%. During 2006 and 2005, the Company received cash distributions of \$2,621,000 and \$2,769,000, respectively, representing its share of the net cash flow of Craft Brands.

Interest Expense. Interest expense was \$347,000 in 2006, up from \$271,000 in 2005. Higher average interest rates in 2006, partially offset by a declining term loan balance, resulted in an increase in interest expense.

Other Income, Net. Other income, net increased by \$259,000 to \$384,000 in 2006 compared to income of \$125,000 in 2005. Results for 2006 include approximately \$295,000 of interest income, an increase of \$169,000 over 2005. Results for 2005 include approximately \$126,000 in interest income and \$26,000 resulting from loss on the disposal of brewing equipment.

Income Taxes. The Company's effective income tax rate was a 19.5% expense for 2006 and a 22.0% expense for 2005. Both periods include a provision for current state taxes. In 2006, the Company decreased the valuation allowance that covers net tax operating loss carryforwards and other net deferred tax assets by \$597,000. In 2005, the Company increased the valuation allowance by \$502,000. The valuation allowance covers a portion of the Company's deferred tax assets, specifically certain federal and state NOLs that may expire before the Company is able to utilize the tax benefit. Realization of the benefit is dependent on the Company's ability to generate future U.S. taxable income. To the extent that the Company is unable to generate adequate taxable income in future periods, the Company will not be able to recognize additional tax benefits and may be required to record a greater valuation allowance covering potentially expiring NOLs.

Craft Brands Alliance LLC

The Company has accounted for its investment in Craft Brands under the equity method, as outlined by APB No. 18, *The Equity Method of Accounting for Investments in Common Stock*. Pursuant to APB No. 18, the Company has recorded its share of Craft Brands' net income in the Company's statement of operations as income from equity investment in Craft Brands. Separate financial statements for Craft Brands are included in this Annual Report on Form 10-K in Part IV., Item 15. *Exhibits and Financial Statement Schedules*, in accordance with Rule 3-09 of Regulation S-X. The following summarizes a comparison of certain items from Craft Brands' statements of operations for the years ended December 31, 2006 and 2005. Certain reclassifications have been made to the prior year's financial statements to conform to the current year presentation. The effects of the reclassifications did not affect net income or the profit allocation.

Sales. Sales totaled \$58,664,000 and \$50,787,000 for the years ended December 31, 2006 and 2005. In addition to selling 122,600 barrels of the Company's product to wholesalers in the western United States during for the year ended December 31, 2006 and 126,500 barrels for the year ended December 31, 2005, Craft Brands also sold products brewed by Widmer and Kona. Average wholesale revenue per barrel for all draft products sold by Craft Brands, net of discounts, increased approximately 3% during 2006 as compared to 2005. Average wholesale revenue per barrel for all bottle products sold by Craft Brands, net of discounts, in 2006 remained relatively unchanged as compared to 2005. For 2006, average wholesale revenue per barrel for all products sold by Craft Brands was approximately the same in comparison to 2005. Craft Brands' sales efforts during 2006 and 2005 included a reduction in discounting on the Company's products. Craft Brands also pays a fee to A-B in connection with sales to

A-B that are comparable to fees paid by the Company.

Cost of Sales. Cost of sales totaled \$40,454,000 for the year ended December 31, 2006 and \$35,030,000 for the year ended December 31, 2005. On a per barrel basis, cost of sales decreased modestly due to prices at

Table of Contents

which Craft Brands purchased product from the Company and Widmer. Craft Brands purchases product from the Company and Widmer at prices substantially below wholesale pricing levels pursuant to the Supply and Distribution Agreement between Craft Brands and each of the Company and Widmer. Craft Brands has realized a slight increase in its average freight cost per barrel over the Company's historical costs, largely as a result of increased fuel costs. This has been somewhat offset by the use of A-B wholesaler support centers and increased Washington shipments of *Widmer Hefeweizen* from the Company's facility.

Selling, General and Administrative Expenses. Selling, general and administrative expenses totaled \$11,879,000 for the year ended December 31, 2006 and \$9,708,000 for the year ended December 31, 2005, reflecting all advertising, marketing and promotion efforts for the Redhook, Widmer and Kona brands. Higher sales and marketing costs contributed to the increase from 2005 to 2006 as a result of the hiring for several new positions, the development and implementation of a web-based ordering system for wholesaler support items, the development of new packaging materials, and increased promotional activities. Selling, general and administrative expenses of Craft Brands for the first quarter of 2005 include approximately \$135,000 of designated Special Marketing Expenses.

Net Income. Net income totaled \$6,339,000 for the year ended December 31, 2006 and \$5,924,000 for the year ended December 31, 2005. The Company's share of Craft Brands' net income totaled \$2,655,000 and \$2,392,000 for these respective periods. After giving effect to the allocation of the Special Marketing Expense, which is allocated 100% to the Company, and giving effect to income attributable to the Kona brand, which is shared differently between the Company and Widmer through 2006, the Operating Agreement dictates that remaining profits and losses of Craft Brands are allocated between the Company and Widmer based on the cash flow percentages of 42% and 58%, respectively.

Outlook

Shipments in January 2008, including shipments of beer brewed on a contract basis and shipments of *Widmer Hefeweizen* in the midwest and east under the licensing agreement with Widmer, increased 4.7% to 23,900 barrels as compared to shipments of 22,850 barrels in January 2007. Excluding shipments of beer brewed on a contract basis at the Washington Brewery and shipments of *Widmer Hefeweizen* in the midwest and east under the licensing agreement with Widmer, shipments of Redhook products increased 1.0% in January 2008 compared to January 2007, reflecting an increase of approximately 9.3% in shipments in the midwest and eastern United States and a decrease of approximately 5.7% in the Craft Brands territory. The Company believes that sales volume for the first month of a quarter should not be relied upon as an accurate indicator of results for future periods. Sales in the craft beer industry generally reflect a degree of seasonality, with the first and fourth quarters historically being the slowest and the rest of the year typically demonstrating stronger sales. The Company has historically operated with little or no backlog and, therefore, its ability to predict sales for future periods is limited.

Liquidity and Capital Resources

The Company has required capital principally for the construction and development of its production facilities. Historically, the Company has financed its capital requirements through cash flow from operations, bank borrowings and the sale of common and preferred stock. The Company expects to meet its future financing needs and working capital and capital expenditure requirements through cash on hand, operating cash flow and bank borrowings, and to the extent required and available, offerings of debt or equity securities.

The Company had \$5,527,000 and \$9,435,000 of cash and cash equivalents at December 31, 2007 and 2006, respectively. At December 31, 2007, the Company had working capital of \$5,714,000. The Company's long-term debt as a percentage of total capitalization (long-term debt and common stockholders' equity) was 0.05% at December 31, 2007 compared to 6.6% at December 31, 2006. Cash provided by operating activities totaled \$1,597,000 and

\$4,661,000 for the years ended December 31, 2007 and 2006, respectively. Cash provided by operating activities was lower in 2007 as a result of the decline in operating results, after adjustments, and normal fluctuations in operating assets and liabilities.

Table of Contents

When draft beer is shipped to the wholesaler, the Company collects a refundable deposit, reflected as a current liability in the Company's balance sheets. Upon return of the keg to the Company, the deposit is refunded to the wholesaler. In conjunction with an industry trend and a policy change initiated by A-B, the Company also modified its policy, effective December 1, 2007, to increase the refundable deposit charged for each keg. The Company collected the higher refundable deposit for all shipments in December 2007 and for all kegs held by wholesalers on December 1, 2007, A-B collected the incremental deposit from the wholesaler on behalf of the Company. Although the incremental deposit was not remitted to the Company until 2008, the deposit increase was reflected in accounts receivable and refundable deposits on the Company's balance sheet as of December 31, 2007.

The Company's balance sheet as of December 31, 2007 reflects an increase in other current assets of approximately \$839,000 as compared to December 31, 2006, primarily attributable to a \$656,000 increase in refundable deposits paid to a third party vendor for leased kegs and \$154,000 in legal, consulting and meeting costs incurred in connection with the proposed merger with Widmer.

During 2007, the Company's capital expenditures totaled \$1,410,000, including approximately \$951,000 related to the expansion of fermentation capacity in the New Hampshire Brewery. In June 2007, the Company brought an additional 25,000 barrels of fermentation capacity on line at the New Hampshire Brewery at a cost of nearly \$1.3 million. Planned capital expenditures for fiscal year 2008 are expected to total approximately \$8.8 million. Major 2008 projects include a two phase expansion of brewing and fermentation capacity at the New Hampshire Brewery for approximately \$6.1 million, the purchase of additional kegs totaling approximately \$1.5 million, improvements to the refrigeration, water and yeast handling systems totaling approximately \$600,000. Capital expenditures will be funded with operating cash flows and debt. If the merger does not close, the Company anticipates that some of the planned capital expenditures will be delayed.

Since 1997, the Company has had an outstanding credit arrangement and term loan (the Term Loan) with U.S. Bank N.A. Although the Term Loan did not mature until June 2012, the Company elected to repay the outstanding Term Loan balance of \$4,275,000 on December 3, 2007 in anticipation of entering into a new credit arrangement with Bank of America N.A. (see discussion below). The new credit arrangement with Bank of America provides the Company with more favorable terms than the prior Term Loan, and includes additional flexibility with respect to 2008 planned capital equipment expenditures. Additionally, because Widmer also has a prior banking relationship with Bank of America, the Company determined that changing their banking relationship prior to the closing of the merger would permit a smoother post-merger transition.

The terms of the Company's old Term Loan with U.S. Bank required the Company to meet certain financial covenants, computed as of the end of each quarter. The Company was in compliance with all covenants through September 30, 2007, the last quarterly period in which the Company was required to comply prior to repaying the balance.

On February 15, 2008, the Company entered into a credit arrangement with Bank of America, N.A. pursuant to which a \$5 million revolving line of credit is provided (the Line of Credit). The Line of Credit accrues interest at a rate equal to, at the Company's option, the bank's prime rate minus 0.50 percentage points or the 14-30 day LIBOR plus 1.25%. The Company must pay a fee of 0.20% on the unused portion of the Line of Credit. The Line of Credit is secured by the Company's equipment and fixtures, inventory, accounts and receivables. The terms of the Line of Credit require the Company to meet certain customary financial and non-financial covenants, including a financial covenant that the Company must maintain an EBITDA of at least \$2 million, as measured on a rolling 4 quarter basis. As of February 28, 2008, there was no balance outstanding on the Line of Credit, and the Company was in compliance with all covenants.

Table of Contents

Contractual Commitments. The Company has certain commitments, contingencies and uncertainties relating to its normal operations. As of December 31, 2007, contractual commitments associated with the Company's long-term debt, operating leases and raw material purchase commitments are as follows (*in thousands*):

	Year Ended December 31,						
	2008	2009	2010	2011	2012	Thereafter	Total
Long-term debt(1)	\$ 18	\$ 18	\$ 12	\$ 3	\$	\$	\$ 51
Operating leases(2)	275	269	276	277	278	11,268	12,643
Malt and hop commitments(3)	4,024	1,889	1,613	1,245	1,042	885	10,698
Other operational commitments(4)	120	36	20	2			178
	\$ 4,437	\$ 2,212	\$ 1,921	\$ 1,527	\$ 1,320	\$ 12,153	\$ 23,570

- (1) Represents annual lease payments (including portion of payments imputed as interest) on capital lease obligations. Interest on capital leases is calculated at the Company's incremental borrowing rate at the inception of each lease.
- (2) Represents minimum aggregate future lease payments under noncancelable operating leases.
- (3) Represents purchase commitments to ensure that the Company has the necessary supply of malted barley and specialty hops to meet future production requirements. Payments for malted barley are made as deliveries are received. Hop contracts generally provide for payment upon delivery of the product with the balance due on any unshipped product during the year following the harvest year. The Company believes that, based upon its relationships with its hop suppliers, the risk of non-delivery is low and that if non-delivery of its required supply of hops were to occur, the Company would be able to purchase hops to support its operations from other competitive sources. Malt and hop commitments in excess of future requirements, if any, will not materially affect the Company's financial condition or results of operations.
- (4) Represents legally-binding production and operating purchase commitments.

Certain Considerations: Issues and Uncertainties

The Company does not provide forecasts of future financial performance or sales volumes, although this Annual Report contains certain other types of forward-looking statements that involve risks and uncertainties. The Company may, in discussions of its future plans, objectives and expected performance in periodic reports filed by the Company with the Securities and Exchange Commission (or documents incorporated by reference therein) and in written and oral presentations made by the Company, include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements are based on assumptions that the Company believes are reasonable, but are by their nature inherently uncertain. In all cases, there can be no assurance that such assumptions will prove correct or that projected events will occur. Actual results could differ materially from those projected depending on a variety of factors, including, but not limited to, the successful execution of market development and other plans, the availability of financing and the issues discussed in Item 1A. *Risk Factors* above. In the event of a negative outcome of any one

these factors, the trading price of the Company's Common Stock could decline and an investment in the Company's Common Stock could be impaired.

Critical Accounting Policies and Estimates

The Company's financial statements are based upon the selection and application of significant accounting policies that require management to make significant estimates and assumptions. Management believes that the following are some of the more critical judgment areas in the application of the Company's accounting policies that currently affect its financial condition and results of operations. Judgments and uncertainties affecting the application of these policies may result in materially different amounts being reported under different conditions or using different assumptions.

Table of Contents

Income Taxes. The Company records federal and state income taxes in accordance with FASB SFAS No. 109, *Accounting for Income Taxes*. Deferred income taxes or tax benefits reflect the tax effect of temporary differences between the amounts of assets and liabilities for financial reporting purposes and amounts as measured for tax purposes as well as for tax net operating loss and credit carryforwards.

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109*. FIN 48 clarifies the accounting and disclosure requirements for uncertainty in income taxes recognized in an entity's financial statements in accordance with SFAS No. 109. The interpretation prescribes the minimum recognition threshold and measurement attribute required to be met before a tax position that has been taken or is expected to be taken is recognized in the financial statements. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition, and clearly excludes uncertainty in income taxes from guidance prescribed by FASB No. 5, *Accounting for Contingencies*. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted this interpretation on January 1, 2007. The adoption of FIN 48 did not have a material impact on the Company's balance sheet or statement of operations.

As of December 31, 2007 and 2006, the Company's deferred tax assets were primarily comprised of federal NOLs, federal and state alternative minimum tax credit carryforwards, and state NOL carryforwards. As of December 31, 2007, the Company had federal NOLs of \$24.7 million, or \$8.4 million tax-effected; federal and state alternative minimum tax credit carryforwards of \$185,000; and state NOL carryforwards of \$196,000 tax-effected. The federal NOLs expire from 2012 through 2023; the alternative minimum tax credit can be utilized to offset regular tax liabilities in future years and has no expiration date; and the state NOLs expire from 2008 through 2023. In assessing the realizability of the deferred tax assets, the Company considered both positive and negative evidence when measuring the need for a valuation allowance. The ultimate realization of deferred tax assets is dependent upon the existence of, or generation of, taxable income during the periods in which those temporary differences become deductible. The Company considered the scheduled reversal of deferred tax liabilities, projected future taxable income and other factors in making this assessment. The Company's estimates of future taxable income take into consideration, among other items, estimates of future taxable income related to depreciation. Based upon the available evidence, the Company does not believe that all of the deferred tax assets will be realized. Accordingly, the Company's balance sheets as of December 31, 2007 and 2006 include a valuation allowance of \$1,059,000 to cover certain federal and state NOLs that may expire before the Company is able to utilize the tax benefit. To the extent that the Company continues to be unable to generate adequate taxable income in future periods, the Company will not be able to recognize additional tax benefits and may be required to record a greater valuation allowance covering potentially expiring NOLs.

There were no unrecognized tax benefits as of January 1, 2007 or December 31, 2007.

Tax years that remain open for examination by the Internal Revenue Service include 2004, 2005, 2006 and 2007. In addition, tax years from 1997 to 2003 may be subject to examination by the Internal Revenue Service to the extent that the Company utilizes the NOLs from those years in its current year or future year tax returns.

Long-Lived Assets. The Company evaluates potential impairment of long-lived assets in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. SFAS No. 144 establishes procedures for review of recoverability and measurement of impairment, if necessary, of long-lived assets, goodwill and certain identifiable intangibles. When facts and circumstances indicate that the carrying values of long-lived assets may be impaired, an evaluation of recoverability is performed by comparing the carrying value of the assets to projected future undiscounted cash flows in addition to other quantitative and qualitative analyses. Upon indication that the carrying value of such assets may not be recoverable, the Company will recognize an impairment loss by a charge against current operations. Fixed assets are grouped at the lowest level for which there are identifiable cash

flows when assessing impairment. During 2007, the Company performed an analysis of its brewery assets to determine if an impairment might exist. The Company's estimate of future undiscounted cash flows indicated that such carrying values were expected to be recovered.

Table of Contents

Nonetheless, it is possible that the estimate of future undiscounted cash flows may change in the future, resulting in the need to write down those assets to their fair value.

Investment in Craft Brands Alliance LLC. The Company has assessed its investment in Craft Brands pursuant to the provisions of FASB Interpretation No. 46 Revised, *Consolidation of Variable Interest Entities – an Interpretation of ARB No. 51*. FIN 46R clarifies the application of consolidation accounting for certain entities that do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties or in which equity investors do not have the characteristics of a controlling financial interest; these entities are referred to as variable interest entities. Variable interest entities within the scope of FIN 46R are required to be consolidated by their primary beneficiary. The primary beneficiary of a variable interest entity is determined to be the party that absorbs a majority of the entity's expected losses, receives a majority of its expected returns, or both. FIN 46R also requires disclosure of significant variable interests in variable interest entities for which a company is not the primary beneficiary. The Company has concluded that its investment in Craft Brands meets the definition of a variable interest entity but that the Company is not the primary beneficiary. In accordance with FIN 46R, the Company has not consolidated the financial statements of Craft Brands with the financial statements of the Company, but instead accounted for its investment in Craft Brands under the equity method, as outlined by APB No. 18, *The Equity Method of Accounting for Investments in Common Stock*. The equity method requires that the Company recognize its share of the net earnings of Craft Brands by increasing its investment in Craft Brands on the Company's balance sheet and recognizing income from equity investment in the Company's statement of operations. A cash distribution or the Company's share of a net loss reported by Craft Brands is reflected as a decrease in investment in Craft Brands on the Company's balance sheet. The Company does not control the amount or timing of cash distributions by Craft Brands. For the years ended December 31, 2007 and 2006, the Company recognized \$2,826,000 and \$2,655,000, respectively, of undistributed earnings related to its investment in Craft Brands, and received cash distributions of \$2,538,000 and \$2,621,000, respectively, representing its share of the net cash flow of Craft Brands. The Company's share of the earnings of Craft Brands contributed a significant portion of income to the Company's results of operations. The Company periodically reviews its investment in Craft Brands to insure that it complies with the guidelines prescribed by FIN 46R.

Refundable Deposits on Kegs. The Company distributes its draft beer in kegs that are owned by the Company as well as in kegs that have been leased from third parties. Kegs that are owned by the Company are reflected in the Company's balance sheets at cost and are depreciated over the estimated useful life of the keg. When draft beer is shipped to the wholesaler, regardless of whether the keg is owned or leased, the Company collects a refundable deposit, reflected as a current liability in the Company's balance sheets. Upon return of the keg to the Company, the deposit is refunded to the wholesaler. When a wholesaler cannot account for some of the Company's kegs for which it is responsible, the wholesaler pays the Company, for each keg determined to be lost, a fixed fee and also forfeits the deposit. For the years ended December 31, 2007 and 2005, the Company reduced its brewery equipment by \$716,000 and \$305,000, respectively, comprised of lost keg fees and forfeited deposits.

Because of the significant volume of kegs handled by each wholesaler and retailer, the similarities between kegs owned by most brewers, and the relatively low deposit collected on each keg when compared to the market value of the keg, the Company has experienced some loss of kegs and anticipates that some loss will occur in future periods. The Company believes that this is an industry-wide problem and the Company's loss experience is typical of the industry. In order to estimate forfeited deposits attributable to lost kegs, the Company periodically uses internal records, A-B records, other third party records, and historical information to estimate the physical count of kegs held by wholesalers and A-B. These estimates affect the amount recorded as fixed assets and refundable deposits as of the date of the financial statements. The actual liability for refundable deposits could differ from estimates. For the year ended December 31, 2007, the Company decreased its refundable deposits and brewery equipment by \$48,000. For the year ended December 31, 2006, the Company reduced its refundable deposits and brewery equipment by \$643,000. As of December 31, 2007 and 2006, the Company's balance sheets include \$3,114,000 and \$1,962,000,

respectively, in refundable deposits on kegs and \$655,000 and \$1,534,000 in keg fixed assets, net of accumulated depreciation.

Table of Contents

Revenue Recognition. The Company recognizes revenue from product sales, net of excise taxes, discounts and certain fees the Company must pay in connection with sales to A-B, when the products are shipped to customers. Although title and risk of loss do not transfer until delivery of the Company's products to A-B or the A-B distributor, the Company recognizes revenue upon shipment rather than when title passes because the time between shipment and delivery is short and product damage claims and returns are immaterial. The Company recognizes revenue on retail sales at the time of sale. The Company recognizes revenue from events at the time of the event.

Recent Accounting Pronouncements

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109*. FIN 48 clarifies the accounting and disclosure requirements for uncertainty in income taxes recognized in an entity's financial statements in accordance with SFAS No. 109. The interpretation prescribes the minimum recognition threshold and measurement attribute required to be met before a tax position that has been taken or is expected to be taken is recognized in the financial statements. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition, and clearly excludes uncertainty in income taxes from guidance prescribed by FASB No. 5, *Accounting for Contingencies*. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted this interpretation on January 1, 2007. The adoption of FIN 48 did not have a material impact on the Company's balance sheet or statement of operations.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and enhances disclosures about fair value measurements required under other accounting pronouncements, but does not change existing guidance as to whether or not an instrument is carried at fair value. SFAS No. 157 applies whenever other standards require, or permit, assets or liabilities to be measured at fair value. FASB No. 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. In November 2007, FASB agreed to a one-year deferral of the effective date for nonfinancial assets and liabilities that are recognized or disclosed at fair value on a nonrecurring basis. Early adoption is permitted. The adoption of SFAS No. 157 as of December 31, 2006 did not have a material impact on the Company's results of operations or financial condition.

In February 2007, FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115*. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 is expected to expand the use of fair value measurement, which is consistent with the FASB's long-term measurement objectives for accounting for financial instruments. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007 but early adoption is permitted. The Company is currently evaluating the requirements and impact, if any, of SFAS No. 159 and has not yet determined the impact on the Company's financial statements.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations*. SFAS No. 141(R), which replaces SFAS No. 141, *Business Combinations*, requires an acquirer to recognize the assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree at the acquisition date, measured at their fair values as of that date, with limited exceptions. SFAS No. 141(R) also requires the acquirer in a business combination achieved in stages to recognize the identifiable assets and liabilities, as well as the non-controlling interest in the acquiree, at the full amounts of their fair values. SFAS No. 141(R) makes various other amendments to authoritative literature intended to provide additional guidance or to confirm the guidance in that literature to that provided in this statement. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The objective of

SFAS No. 141(R) is to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial reports about a business combination and its effects. The Company is currently evaluating the impact

Table of Contents

that SFAS No. 141(R) would have on the proposed merger with Widmer and has not yet determined the impact on the Company's financial statements.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51*. The objective of SFAS No. 160 is to improve the relevance, comparability, and transparency of the financial information that a reporting entity provides in its consolidated financial statements. SFAS No. 160 establishes accounting and reporting standards that require the ownership interests in subsidiaries not held by the parent to be clearly identified, labeled and presented in the consolidated statement of financial position within equity, but separate from the parent's equity. This statement also requires the amount of consolidated net income attributable to the parent and to the non-controlling interest to be clearly identified and presented on the face of the consolidated statement of income. Changes in a parent's ownership interest while the parent retains its controlling financial interest must be accounted for consistently, and when a subsidiary is deconsolidated, any retained non-controlling equity investment in the former subsidiary must be initially measured at fair value. The gain or loss on the deconsolidation of the subsidiary is measured using the fair value of any non-controlling equity investment. SFAS No. 160 also requires entities to provide sufficient disclosures that clearly identify and distinguish between the interests of the parent and the interests of the non-controlling owners. This Statement applies prospectively to all entities that prepare consolidated financial statements and applies prospectively for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. The Company is currently evaluating the impact that SFAS No. 160 would have on the proposed merger with Widmer and has not yet determined the impact on the Company's financial statements.

In December 2007, the Emerging Issues Task Force (EITF) of the FASB reached a consensus on issue No. 07-1, *Accounting for Collaborative Arrangements*. The EITF concluded on the definition of a collaborative arrangement and that revenues and costs incurred with third parties in connection with collaborative arrangements would be presented gross or net based on the criteria in EITF No. 99-19 and other accounting literature. Based on the nature of the arrangement, payments to or from collaborators would be evaluated and its terms, the nature of the entity's business, and whether those payments are within the scope of other accounting literature would be presented. Companies are also required to disclose the nature and purpose of collaborative arrangements along with the accounting policies and the classification and amounts of significant financial statement balances related to the arrangements. Activities in the arrangement conducted in a separate legal entity should be accounted for under other accounting literature; however required disclosure under EITF No. 07-1 applies to the entire collaborative agreement. EITF No. 07-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years, and is to be applied retrospectively to all periods presented for all collaborative arrangements existing as of the effective date. The Company does not expect this will have a significant impact on the financial statements of the Company.

Item 7A. *Quantitative and Qualitative Disclosures about Market Risk*

The Company has assessed its vulnerability to certain market risks, including interest rate risk associated with financial instruments included in cash and cash equivalents and long-term debt. Due to the nature of these investments and the Company's investment policies, the Company believes that the risk associated with interest rate fluctuations related to these financial instruments does not pose a material risk.

The Company did not have any derivative financial instruments as of December 31, 2007.

Item 8. *Financial Statements and Supplementary Data*

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Redhook Ale Brewery, Incorporated

We have audited the accompanying balance sheets of Redhook Ale Brewery, Incorporated (the Company) as of December 31, 2007 and 2006 and the related statements of operations, common stockholders equity and cash flows for each of the years in the three year period ended December 31, 2007. These financial statements are the responsibility of the Company s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Redhook Ale Brewery, Incorporated as of December 31, 2007 and 2006, and the results of its operations and its cash flows for each of the years in the three year period ended December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

As described in Note 3 to the financial statements, effective January 1, 2006, the Company changed its method of accounting for share-based payment arrangements to conform to Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*.

Table of Contents

REDHOOK ALE BREWERY, INCORPORATED

NOTES TO FINANCIAL STATEMENTS

1. Nature of Operations

Redhook Ale Brewery, Incorporated (the Company or Redhook) was formed in 1981 to brew and sell craft beer. The Company produces its specialty bottled and draft products in its two Company-owned breweries. The Washington Brewery, located in the Seattle suburb of Woodinville, Washington, began limited operations in late 1994 and became fully operational after additional phases of construction were completed in 1996 and 1997. The Company's New Hampshire Brewery, located in Portsmouth, New Hampshire, began brewing operations in late 1996 and expanded its operations in 2002, 2003, 2006 and 2007 by increasing its fermentation capacity. Each brewery also operates a pub on the premises, promoting the Company's products, offering dining and entertainment facilities, and selling retail merchandise.

Since 1997, the Company's products have been distributed in the U.S. in 48 states. Prior to establishing a distribution relationship with Anheuser-Busch, Incorporated (A-B) in 1994, the Company distributed its products regionally through distributors in eight western states: Washington, California (northern), Oregon, Idaho, Montana, Wyoming, Colorado and Alaska. In October 1994, the Company entered into a distribution alliance (the Distribution Alliance) with A-B, consisting of a national distribution agreement and an investment by A-B in the Company (the A-B Investment Agreement). The Distribution Alliance gave the Company access to A-B's national distribution network to distribute its products while existing wholesalers, many of which were part of the A-B distribution network, continued to distribute the Company's products outside of the Distribution Alliance. Pursuant to the A-B Investment Agreement, A-B invested approximately \$30 million to purchase 1,289,872 shares of the Company's convertible redeemable Series B Preferred Stock (the Series B Preferred Stock) and 953,470 shares of the Company's common stock (Common Stock), including 716,714 shares issued concurrent with the Company's initial public offering.

In August 1995, the Company completed the sale of 2,193,492 shares of Common Stock through an initial public offering in addition to the 716,714 common shares purchased by A-B. The net proceeds of the offerings totaled approximately \$46 million.

On July 1, 2004, the Company completed a restructuring of its ongoing relationship with A-B by executing two new agreements: an exchange and recapitalization agreement and a distribution agreement. The terms of the exchange and recapitalization agreement provided that the Company issue 1,808,243 shares of Common Stock to A-B in exchange for 1,289,872 shares of Series B Preferred Stock held by A-B. The Series B Preferred Stock, reflected on the Company's balance sheet at approximately \$16.3 million, was cancelled. In connection with the exchange, the Company also paid \$2.0 million to A-B in November 2004. The terms of the new distribution agreement with A-B (the A-B Distribution Agreement) provided for the Company to continue to distribute its product in the midwest and eastern U.S. through A-B's national distribution network by selling its product to A-B. The A-B Distribution Agreement has a term that expires on December 31, 2014, subject to automatic renewal for an additional ten-year period unless A-B provides written notice of non-renewal to the Company on or prior to June 30, 2014. The A-B Distribution Agreement is subject to early termination, by either party, upon the occurrence of certain events.

On July 1, 2004, the Company also entered into definitive agreements with Widmer Brothers Brewing Company (Widmer) with respect to the operation of a joint venture, Craft Brands Alliance LLC (Craft Brands). Pursuant to these agreements, the Company and Widmer manufacture and sell their product to Craft Brands at a price substantially below wholesale pricing levels; Craft Brands, in turn, advertises, markets, sells and distributes the Company's and Widmer's products to wholesale outlets in the western U.S. through a distribution agreement between Craft Brands and A-B.

Table of Contents

REDHOOK ALE BREWERY, INCORPORATED

NOTES TO FINANCIAL STATEMENTS (Continued)

2. Agreement and Plan of Merger

On November 13, 2007, the Company entered into an Agreement and Plan of Merger (the Merger Agreement) with Widmer, pursuant to which Widmer will merge with and into Redhook. In connection with the merger, each holder of shares of common or preferred stock of Widmer will receive, in exchange for each share held, 2.1551 shares of Redhook Common Stock. Redhook security holders will continue to own their existing shares of Redhook Common Stock. The shares of Redhook Common Stock that Widmer security holders will be entitled to receive pursuant to the merger are expected to represent approximately 50% of the outstanding shares of the combined company immediately following the consummation of the merger (assuming no security holder of Widmer exercises statutory dissenters rights and that currently outstanding options held by Redhook employees, officers, directors, and former directors to acquire shares of Redhook Common Stock are not exercised prior to the consummation of the merger). In connection with the merger, Redhook will change its name to Craft Brewers Alliance, Inc.

Redhook and Widmer have made customary representations, warranties and covenants in the Merger Agreement, including, among others, a covenant by Redhook to cause a meeting of Redhook shareholders to be held to approve issuance of the shares of Common Stock issuable in the merger. Redhook has also agreed to use commercially reasonable efforts to cause the following individuals to be appointed to the following indicated positions immediately after consummation of the merger: Kurt Widmer, Chairman of the Board; Paul Shipman, Chairman Emeritus and Consultant to the Board; David Mickelson, current President and Chief Operating Officer of Redhook, as Co-Chief Executive Officer; and Terry Michaelson, current President of Craft Brands Alliance LLC, as Co-Chief Executive Officer. Redhook has also agreed to appoint certain other officers of Widmer as officers of Redhook following consummation of the merger.

The merger is subject to customary conditions to closing, including (i) regulatory approval from the Alcohol and Tobacco Tax and Trade Bureau and state licensing agencies, (ii) approval of A-B, (iii) approval by the requisite vote of Redhook shareholders of the issuance of the shares of Common Stock issuable in the merger, (iv) approval of the merger by the requisite vote of Widmer shareholders, (v) accuracy of the representations and warranties made by the parties under the Merger Agreement, (vi) compliance by the parties with their covenants, and (vii) the absence of any material adverse change to either Redhook or Widmer.

The Merger Agreement was filed as Exhibit 2.1 to the current report on Form 8-K filed on November 13, 2007.

In connection with the discussions leading up to the Merger Agreement, the Company has incurred approximately \$738,000 in legal, consulting, meeting and severance costs during the year ended December 31, 2007. Of the total, approximately \$584,000 is reflected in the statement of operations as selling, general and administrative expenses and \$154,000 has been capitalized, reflected as other current assets in the balance sheet, in accordance with Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 141, *Business Combinations*.

The Company adopted a Company-wide severance plan that requires the payment of severance benefits to all full-time employees, other than executive officers, in the event that an employee s employment is terminated as a result of a merger or other business combination with Widmer Brothers Brewing Company. The Company is also party to employment arrangements with its executive officers which provide for severance payments to such officers upon termination of employment.

Table of Contents**REDHOOK ALE BREWERY, INCORPORATED****NOTES TO FINANCIAL STATEMENTS (Continued)****3. Significant Accounting Policies*****Cash and Cash Equivalents***

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. The Company maintains cash and cash equivalent balances with financial institutions that exceed federally insured limits. The carrying amount of cash equivalents approximates fair value because of the short-term maturity of these instruments.

Accounts Receivable

Accounts receivable is comprised of trade receivables due from wholesalers and A-B for beer and promotional product sales. Because of state liquor laws and each wholesaler's agreement with A-B, the Company does not have collectibility issues related to the sale of its beer products. Accordingly, the Company does not regularly provide an allowance for doubtful accounts for beer sales. The Company has provided an allowance for promotional merchandise that has been invoiced to the wholesaler. This allowance for doubtful accounts reflects the Company's best estimate of probable losses inherent in the accounts receivable balance. The Company determines the allowance based on historical customer experience and other currently available evidence. When a specific account is deemed uncollectible, the account is written off against the allowance. Accounts receivable on the Company's balance sheets includes an allowance for doubtful accounts of \$95,000 and \$69,000 as of December 31, 2007 and 2006, respectively.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the first-in, first-out method. The Company regularly reviews its inventories for the presence of obsolete product attributed to age, seasonality and quality. Inventories that are considered obsolete are written off or adjusted to carrying value. Inventories on the Company's balance sheets are reduced by a \$109,000 and \$12,000 reserve for obsolescence as of December 31, 2007 and 2006, respectively. The Company records as a non-current asset the cost of inventory for which it estimates it has more than a twelve month supply.

Fixed Assets

Fixed assets are carried at cost less accumulated depreciation and accumulated amortization. The cost of repairs and maintenance are expensed when incurred, while expenditures for improvements that extend the useful life of an asset are capitalized. When assets are retired or sold, the asset cost and related accumulated depreciation or accumulated amortization are eliminated with any remaining gain or loss reflected in the statement of operations. Depreciation and amortization of fixed assets is provided on the straight-line method over the following estimated useful lives:

Buildings	31 - 40 years
Brewery equipment	10 - 25 years
Furniture, fixtures and other equipment	2 - 10 years
Vehicles	5 years

Investment in Craft Brands Alliance LLC

The Company has assessed its investment in Craft Brands pursuant to the provisions of FASB Interpretation No. 46 Revised, *Consolidation of Variable Interest Entities – an Interpretation of ARB No. 51* (FIN 46R). FIN 46R clarifies the application of consolidation accounting for certain entities that do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties or in which equity investors do not have the characteristics of a controlling financial

Table of Contents

REDHOOK ALE BREWERY, INCORPORATED

NOTES TO FINANCIAL STATEMENTS (Continued)

interest; these entities are referred to as variable interest entities. Variable interest entities within the scope of FIN 46R are required to be consolidated by their primary beneficiary. The primary beneficiary of a variable interest entity is determined to be the party that absorbs a majority of the entity's expected losses, receives a majority of its expected returns, or both. FIN 46R also requires disclosure of significant variable interests in variable interest entities for which a company is not the primary beneficiary. The Company has concluded that its investment in Craft Brands meets the definition of a variable interest entity but that the Company is not the primary beneficiary. In accordance with FIN 46R, the Company has not consolidated the financial statements of Craft Brands with the financial statements of the Company, but instead accounted for its investment in Craft Brands under the equity method, as outlined by Accounting Principle Board Opinion (APB) No. 18, *The Equity Method of Accounting for Investments in Common Stock*. The equity method requires that the Company recognize its share of the net earnings of Craft Brands by increasing its investment in Craft Brands on the Company's balance sheet and recognizing income from equity investment in the Company's statement of operations. A cash distribution or the Company's share of a net loss reported by Craft Brands is reflected as a decrease in investment in Craft Brands on the Company's balance sheet. The Company does not control the amount or timing of cash distributions by Craft Brands. The Company will periodically review its investment in Craft Brands to ensure that it complies with the guidelines prescribed by FIN 46R.

Long-Lived Assets

The Company evaluates potential impairment of long-lived assets in accordance with FASB SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. SFAS No. 144 establishes procedures for review of recoverability and measurement of impairment, if necessary, of long-lived assets, goodwill and certain identifiable intangibles. When facts and circumstances indicate that the carrying values of long-lived assets may be impaired, an evaluation of recoverability is performed by comparing the carrying value of the assets to projected future undiscounted cash flows in addition to other quantitative and qualitative analyses. Upon indication that the carrying value of such assets may not be recoverable, the Company recognizes an impairment loss by a charge against current operations. Fixed assets are grouped at the lowest level for which there are identifiable cash flows when assessing impairment. During 2007, the Company performed an analysis of its brewery assets to determine if impairment might exist. The Company's estimate of future undiscounted cash flows indicated that such carrying values were expected to be recovered.

Refundable Deposits on Kegs

The Company distributes its draft beer in kegs that are owned by the Company as well as in kegs that have been leased from third parties. Kegs that are owned by the Company are reflected in the Company's balance sheets at cost and are depreciated over the estimated useful life of the keg. When draft beer is shipped to the wholesaler, regardless of whether the keg is owned or leased, the Company collects a refundable deposit, reflected as a current liability in the Company's balance sheets. Upon return of the keg to the Company, the deposit is refunded to the wholesaler. When a wholesaler cannot account for some of the Company's kegs for which it is responsible, the wholesaler pays the Company, for each keg determined to be lost, a fixed fee and also forfeits the deposit. For the years ended December 31, 2007 and 2005, the Company reduced its brewery equipment by \$716,000 and \$305,000, respectively, comprised of lost keg fees and forfeited deposits. The Company did not receive lost keg fees during the year ended December 31, 2006.

Because of the significant volume of kegs handled by each wholesaler and retailer, the similarities between kegs owned by most brewers, and the relatively low deposit collected on each keg when compared to the market value of the keg, the Company has experienced some loss of kegs and anticipates that some loss will occur in future periods. The Company believes that this is an industry-wide problem and the Company's loss experience is typical of the industry. In order to estimate forfeited deposits attributable to lost kegs, the Company periodically uses internal records, A-B records, other third party records, and historical information to estimate the physical count of kegs held by wholesalers and A-B. These estimates affect the amount

Table of Contents

REDHOOK ALE BREWERY, INCORPORATED

NOTES TO FINANCIAL STATEMENTS (Continued)

recorded as fixed assets and refundable deposits as of the date of the financial statements. The actual liability for refundable deposits could differ from estimates. For the year ended December 31, 2007, the Company decreased its refundable deposits and brewery equipment by \$48,000. For the year ended December 31, 2006, the Company reduced its refundable deposits and brewery equipment by \$643,000. As of December 31, 2007 and 2006, the Company's balance sheets include \$3,114,000 and \$1,962,000, respectively, in refundable deposits on kegs and \$655,000 and \$1,534,000 in keg fixed assets, net of accumulated depreciation.

Revenue Recognition

The Company recognizes revenue from all product sales when the product is shipped to the customer. Product sales include: shipments of Redhook products to A-B in the midwest and eastern U.S., shipments of *Widmer Hefeweizen* to A-B in the midwest and eastern U.S. pursuant to the 2003 licensing agreement, shipments of Redhook products to Craft Brands in the western U.S., and shipments of Widmer products to Widmer pursuant to the contract brewing arrangements. Product sales are recorded net of excise taxes, discounts and, when applicable, certain fees that the Company must pay in connection with sales to A-B. Although title and risk of loss do not transfer until delivery of the Company's products to A-B or the A-B distributor, the Company recognizes revenue upon shipment rather than when title passes because the time between shipment and delivery is short and product damage claims and returns are immaterial. The Company recognizes revenue on retail sales at the time of sale. The Company recognizes revenue from events at the time of the event.

Excise Taxes

The federal government levies excise taxes on the sale of alcoholic beverages, including beer. For brewers producing less than two million barrels of beer per calendar year, the federal excise tax is \$7 per barrel on the first 60,000 barrels of beer removed for consumption or sale during the calendar year, and \$18 per barrel for each barrel in excess of 60,000 barrels. Individual states also impose excise taxes on alcoholic beverages in varying amounts. As presented in the Company's statements of operations, sales reflect the amount invoiced to A-B, wholesalers and other customers. Excise taxes due to federal and state agencies are not collected from the Company's customers, but rather are the responsibility of the Company. Net sales, as presented in the Company's statements of operations, are reduced by applicable federal and state excise taxes.

Shipping and Handling Costs

Costs incurred to ship the Company's product are included in cost of sales in the Company's statements of operations.

Income Taxes

The Company records federal and state income taxes in accordance with SFAS No. 109, *Accounting for Income Taxes*. Deferred income taxes or tax benefits reflect the tax effect of temporary differences between the amounts of assets and liabilities for financial reporting purposes and amounts as measured for tax purposes as well as for tax net operating loss and credit carryforwards. These deferred tax assets and liabilities are measured under the provisions of the currently enacted tax laws. The Company will establish a valuation allowance if it is more likely than not that these items will either expire before the Company is able to realize their benefits or that future deductibility is uncertain.

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an interpretation of *FASB Statement No. 109*, (FIN 48). FIN 48 clarifies the accounting and disclosure requirements for uncertainty in income taxes recognized in an entity s financial statements in accordance with SFAS No. 109. The interpretation prescribes the minimum recognition threshold and measurement attribute required to be met before a tax position that has been taken or is expected to be taken is recognized in the financial statements. FIN 48 also provides guidance on derecognition, classification, interest and penalties,

Table of Contents

REDHOOK ALE BREWERY, INCORPORATED

NOTES TO FINANCIAL STATEMENTS (Continued)

accounting in interim periods, disclosure and transition, and clearly excludes uncertainty in income taxes from guidance prescribed by FASB No. 5, *Accounting for Contingencies*. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted this interpretation on January 1, 2007. The adoption of FIN 48 did not have a material impact on the Company's balance sheet or statement of operations. There were no unrecognized tax benefits as of January 1, 2007 or December 31, 2007.

Penalties incurred in connection with tax matters are classified as general and administrative expenses, and interest assessments incurred in connection with tax matters are classified as interest expense.

Advertising Expenses

Advertising costs, comprised of radio, print and outdoor advertising, sponsorships and printed product information, as well as costs to produce these media, are expensed as incurred. For the years ended December 31, 2007, 2006 and 2005, advertising expenses totaling \$443,000, \$365,000 and \$533,000, respectively, are reflected as selling, general and administrative expenses in the Company's statements of operations.

The Company incurs costs for the promotion of its products through a variety of advertising programs with its wholesalers and downstream retailers. These costs are included in selling, general and administrative expenses and frequently involve the local wholesaler sharing in the cost of the program. Reimbursements from wholesalers for advertising and promotion activities are recorded as a reduction to selling, general and administrative expenses in the Company's statements of operations. Reimbursements for pricing discounts to wholesalers are recorded as a reduction to sales.

Segment Information

The Company operates in one principal business segment as a manufacturer of beer and ales across domestic markets. The Company believes that its pub operations and brewery operations, whether considered individually or in combination, do not constitute a separate segment under SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*. The Company believes that its two brewery operations are functionally and financially similar. The Company operates its two pubs as an extension of its marketing of the Company's products and views their primary function to be promotion of the Company's products.

Stock-Based Compensation

The Company maintains several stock incentive plans under which non-qualified stock options, incentive stock options and restricted stock have been granted to employees and non-employee directors. On January 1, 2006, the Company adopted SFAS No. 123R, *Share-Based Payment*, which revises SFAS No. 123 and supersedes APB No. 25. SFAS No. 123R requires all share-based payments to employees and directors be recognized as expense in the statement of operations based on their fair values and vesting periods. The Company is required to estimate the fair value of share-based payment awards on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods in the Company's statement of operations.

Earnings (Loss) per Share

The Company follows SFAS No. 128, *Earnings per Share*. Basic earnings (loss) per share is calculated using the weighted average number of shares of Common Stock outstanding. The calculation of adjusted weighted average shares outstanding for purposes of computing diluted earnings (loss) per share includes the dilutive effect of all outstanding stock options for the periods when the Company reports net income. The calculation uses the treasury stock method and the as if converted method in determining the resulting incremental average equivalent shares outstanding as applicable.

Table of Contents

REDHOOK ALE BREWERY, INCORPORATED

NOTES TO FINANCIAL STATEMENTS (Continued)

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Fair Value of Financial Instruments

The Company's balance sheets include the following financial instruments: cash and cash equivalents, accounts receivable, inventory, accounts payable, accrued expenses, capital lease obligations and long-term debt. The Company believes the carrying amounts of current assets and liabilities and indebtedness in the balance sheets approximate the fair value.

Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and enhances disclosures about fair value measurements required under other accounting pronouncements, but does not change existing guidance as to whether or not an instrument is carried at fair value. SFAS No. 157 applies whenever other standards require, or permit, assets or liabilities to be measured at fair value. FASB No. 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. In November 2007, FASB agreed to a one-year deferral of the effective date for nonfinancial assets and liabilities that are recognized or disclosed at fair value on a nonrecurring basis. Early adoption is permitted. The adoption of SFAS No. 157 as of December 31, 2006 did not have a material impact on the Company's results of operations or financial condition.

In February 2007, FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115*. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 is expected to expand the use of fair value measurement, which is consistent with the FASB's long-term measurement objectives for accounting for financial instruments. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007 but early adoption is permitted. The Company is currently evaluating the requirements and impact, if any, of SFAS No. 159 and has not yet determined the impact on the Company's financial statements.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations*. SFAS No. 141(R), which replaces SFAS No. 141, *Business Combinations*, requires an acquirer to recognize the assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree at the acquisition date, measured at their fair values as of that date, with limited exceptions. SFAS No. 141(R) also requires the acquirer in a business combination achieved in stages to recognize the identifiable assets and liabilities, as well as the non-controlling interest in the acquiree, at the full amounts of their fair values. SFAS No. 141(R) makes various other amendments to authoritative literature intended to provide additional guidance or to confirm the guidance in that literature to that provided in this statement. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The objective of

SFAS No. 141(R) is to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial reports about a business combination and its effects. The Company is currently evaluating the impact that SFAS No. 141(R) would have the proposed merger with Widmer and has not yet determined the impact on the Company's financial statements.

Table of Contents**REDHOOK ALE BREWERY, INCORPORATED****NOTES TO FINANCIAL STATEMENTS (Continued)**

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51*. The objective of SFAS No. 160 is to improve the relevance, comparability, and transparency of the financial information that a reporting entity provides in its consolidated financial statements. SFAS No. 160 establishes accounting and reporting standards that require the ownership interests in subsidiaries not held by the parent to be clearly identified, labeled and presented in the consolidated statement of financial position within equity, but separate from the parent's equity. This statement also requires the amount of consolidated net income attributable to the parent and to the non-controlling interest to be clearly identified and presented on the face of the consolidated statement of income. Changes in a parent's ownership interest while the parent retains its controlling financial interest must be accounted for consistently, and when a subsidiary is deconsolidated, any retained non-controlling equity investment in the former subsidiary must be initially measured at fair value. The gain or loss on the deconsolidation of the subsidiary is measured using the fair value of any non-controlling equity investment. SFAS No. 160 also requires entities to provide sufficient disclosures that clearly identify and distinguish between the interests of the parent and the interests of the non-controlling owners. This Statement applies prospectively to all entities that prepare consolidated financial statements and applies prospectively for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. The Company is currently evaluating the impact that SFAS No. 160 would have the proposed merger with Widmer and has not yet determined the impact on the Company's financial statements.

In December 2007, the Emerging Issues Task Force (EITF) of the FASB reached a consensus on issue No. 07-1, *Accounting for Collaborative Arrangements*. The EITF concluded on the definition of a collaborative arrangement and that revenues and costs incurred with third parties in connection with collaborative arrangements would be presented gross or net based on the criteria in EITF No. 99-19 and other accounting literature. Based on the nature of the arrangement, payments to or from collaborators would be evaluated and its terms, the nature of the entity's business, and whether those payments are within the scope of other accounting literature would be presented. Companies are also required to disclose the nature and purpose of collaborative arrangements along with the accounting policies and the classification and amounts of significant financial-statement balances related to the arrangements. Activities in the arrangement conducted in a separate legal entity should be accounted for under other accounting literature; however required disclosure under EITF No. 07-1 applies to the entire collaborative agreement. EITF No. 07-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years, and is to be applied retrospectively to all periods presented for all collaborative arrangements existing as of the effective date. The Company does not expect this will have a significant impact on the financial statements of the Company.

4. Inventories

Inventories consist of the following:

	December 31,	
	2007	2006
Raw materials	\$ 537,695	\$ 666,938
Work in process	922,157	622,352
Finished goods, net	510,461	247,333

Edgar Filing: REDHOOK ALE BREWERY INC - Form 10-K/A

Promotional merchandise, net	469,995	538,339
Packaging materials	487,210	496,770
	\$ 2,927,518	\$ 2,571,732

Table of Contents**REDHOOK ALE BREWERY, INCORPORATED****NOTES TO FINANCIAL STATEMENTS (Continued)**

Work in process is beer held in fermentation tanks prior to the filtration and packaging process. Promotional merchandise and finished goods are reduced by a \$109,000 and \$12,000 reserve for obsolescence as of December 31, 2007 and 2006, respectively.

5. Fixed Assets

Fixed assets consist of the following:

	December 31,	
	2007	2006
Brewery equipment	\$ 47,081,696	\$ 46,387,322
Buildings	35,846,181	35,838,145
Land and improvements	4,604,130	4,601,427
Furniture, fixtures and other equipment	2,339,430	2,284,062
Vehicles	81,730	81,730
Construction in progress	314,363	460,389
	90,267,530	89,653,075
Less accumulated depreciation and amortization	34,405,233	31,576,641
	\$ 55,862,297	\$ 58,076,434

As of December 31, 2007 and 2006, brewery equipment included property acquired under a capital lease with a cost of \$77,000 and accumulated amortization of \$34,000 and \$18,000, respectively. The Company's statement of operations for the years ended December 31, 2007 and 2006 includes \$15,000 and \$12,000 in amortization expense related to this leased property.

6. Craft Brands Alliance LLC

On July 1, 2004, the Company entered into agreements with Widmer with respect to the operation of a joint venture sales and marketing entity, Craft Brands. Pursuant to these agreements, the Company manufactures and sells its product to Craft Brands at a price substantially below wholesale pricing levels; Craft Brands, in turn, advertises, markets, sells and distributes the product to wholesale outlets in the western U.S. pursuant to a distribution agreement between Craft Brands and A-B.

The Company and Widmer have entered into a restated operating agreement with Craft Brands, as amended (the Operating Agreement), that governs the operations of Craft Brands and the obligations of its members, including capital contributions, loans and allocation of profits and losses.

The Operating Agreement requires the Company to make certain capital contributions to support the operations of Craft Brands. Contemporaneous with the execution of the Operating Agreement, the Company made a 2004 sales and

marketing capital contribution in the amount of \$250,000. The agreement designated that this sales and marketing capital contribution be used by Craft Brands for expenses related to the marketing, advertising and promotion of the Company's products (Special Marketing Expense). In February 2007 and in February 2008, the Company and Widmer amended the Operating Agreement to require an additional sales and marketing contribution in 2009 if the volume of sales of Redhook products in 2008 in the Craft Brands territory is less than 92% of the volume of sales of Redhook products in 2003 in the Craft Brands territory. Under these amendments, Redhook's maximum 2009 sales and marketing contribution was reduced to \$310,000, reflecting the Company's commitment to expand the production capacity of its Washington and New Hampshire breweries to produce more Widmer products. Widmer also has a sales and marketing contribution under the amended Operating Agreement with similar terms that is capped at \$750,000. If required, the 2009 sales and marketing contribution is due by February 1, 2009. Because sales in

Table of Contents

REDHOOK ALE BREWERY, INCORPORATED

NOTES TO FINANCIAL STATEMENTS (Continued)

the craft beer industry generally reflect a degree of seasonality and the Company has historically operated with little or no backlog, the Company's ability to predict sales for future periods is limited. Accordingly, the Company cannot predict to what degree, if at all, the Company will be required to make this 2009 sales and marketing contribution. If the Company is required to make this additional sales and marketing contribution in 2009, the Company's available cash will decrease and income from Craft Brands will decrease by the amount of the contribution, which will be allocated 100% to the Company. The Operating Agreement also obligates the Company and Widmer to make other additional capital contributions only upon the request and consent of the Craft Brands' board of directors.

The Operating Agreement also requires the Company and Widmer to make loans to Craft Brands to assist Craft Brands in conducting its operations and meeting its obligations. To the extent that cash flow from operations and borrowings from financial institutions is not sufficient for Craft Brands to meet its obligations, the Company and Widmer are obligated to lend to Craft Brands the funds the president of Craft Brands deems necessary to meet such obligations. As of December 31, 2007 and 2006, there were no loan obligations due to the Company.

The Operating Agreement also addresses the allocation of profits and losses of Craft Brands. After giving effect to the allocation of the sales and marketing capital contribution, if any, and after giving effect to income attributable to the shipments of the Kona brand, which was shared differently between the Company and Widmer through 2006, the remaining profits and losses of Craft Brands are allocated between the Company and Widmer based on the cash flow percentages of 42% and 58%, respectively. Net cash flow, if any, will generally be distributed monthly to the Company and Widmer based upon these cash flow percentages. No distribution will be made to the Company or Widmer unless, after the distribution is made, the assets of Craft Brands will be in excess of its liabilities, with the exception of liabilities to members, and Craft Brands will be able to pay its debts as they become due in the ordinary course of business.

For the years ended December 31, 2007, 2006 and 2005, the Company's share of Craft Brands net income totaled \$2,826,000, \$2,655,000 and \$2,392,000, respectively. The 2005 share of Craft Brands' profit was net of \$135,000 of the Special Marketing Expense that had been incurred by Craft Brands during the same period and was fully allocated to the Company. As of December 31, 2005, the entire \$250,000 2004 sales and marketing capital contribution made by the Company had been used by Craft Brands for designated Special Marketing Expenses and netted against Craft Brands' profits allocated to the Company.

During 2007, 2006 and 2005, the Company received cash distributions of \$2,538,000, \$2,621,000 and \$2,769,000, respectively, representing its share of the net cash flow of Craft Brands. As of December 31, 2007 and 2006, the Company's investment in Craft Brands totaled \$416,000 and \$128,000, respectively.

In connection with shipments of the Company's products to Craft Brands, the Company recognized sales of \$13,885,000, \$13,953,000 and \$14,298,000 in the statements of operations during the years ended December 31, 2007, 2006 and 2005, respectively. For the year ended December 31, 2007, shipments of the Company's products to Craft Brands represented approximately 38% of total Company shipments, or 121,900 barrels. For the year ended December 31, 2006, shipments of the Company's products to Craft Brands represented 45% of total Company shipments, or 122,600 barrels. For the year ended December 31, 2005, shipments of the Company's products to Craft Brands represented 56% of total Company shipments, or 126,500 barrels.

In conjunction with the sale of Redhook product to Craft Brands, the Company's balance sheets as of December 31, 2007 and 2006 reflect a trade receivable due from Craft Brands of approximately \$670,000 and \$855,000, respectively. In conjunction with the sale of Redhook products in Washington state, where state liquor regulations require that the Company sell its product directly to third-party beer distributors, the Company's balance sheets as of December 31, 2007 and 2006 reflect a trade payable to Craft Brands, based upon a contractually determined formula, of approximately \$416,000 and \$325,000, respectively.

Table of Contents**REDHOOK ALE BREWERY, INCORPORATED****NOTES TO FINANCIAL STATEMENTS (Continued)**

Separate financial statements for Craft Brands are filed with the Company's Form 10-K for the year ended December 31, 2007, Part IV, in Item 15. *Exhibits and Financial Statement Schedules*, in accordance with Rule 3-09 of Regulation S-X.

7. Debt and Capital Lease Obligations

Long-term debt and capital lease obligations consist of the following:

	December 31,	
	2007	2006
Term loan, payable to bank monthly at \$37,500 plus accrued interest; balance repaid December 2007	\$	\$ 4,725,000
Various capital lease obligations	46,616	61,264
	46,616	4,786,264
Less current portion, term loan		(450,000)
Less current portion, capital leases	(15,498)	(14,648)
Less total current portion of term loan and capital leases	(15,498)	(464,648)
Long-term portion of term loan and capital leases	\$ 31,118	\$ 4,321,616

The Company made interest payments totaling \$332,000, \$344,000, and \$263,000, for the years ended December 31, 2007, 2006 and 2005, respectively.

Term Loan

Since 1995, the Company has had a credit agreement with a bank under which a term loan, which originated in 1997 (the Term Loan), had been provided. Although the credit agreement was amended in June 2006 to extend the maturity date from June 2007 to June 2012, the Company elected to repay the outstanding Term Loan balance of \$4,275,000 on December 3, 2007. The Term Loan was secured by substantially all of the Company's assets. Interest on the Term Loan accrued at London Inter Bank Offered Rate (LIBOR) plus 1.75% and the Company had the option to fix the applicable interest rate for up to twelve months by selecting LIBOR for one- to twelve- month periods as a base. The credit agreement provided that the termination of the A-B Distribution Agreement for any reason would have constituted an event of default under the credit agreement and the bank would have had the option to declare the entire outstanding loan balance immediately due and payable. The terms of the credit agreement required the Company to meet certain financial covenants, computed as of the end of each quarter. The Company was in compliance with all covenants through September 30, 2007, the last quarterly period in which the Company was required to comply prior to repaying the balance.

Table of Contents**REDHOOK ALE BREWERY, INCORPORATED****NOTES TO FINANCIAL STATEMENTS (Continued)*****Capital Leases Obligations***

The Company has acquired small production equipment under various capital leases. As of December 31, 2007, future minimum lease payments under capital leases are as follows:

2008	\$ 17,854
2009	17,854
2010	11,710
2011	3,669
Thereafter	
Total minimum lease payments	51,087
Less amount representing interest	(4,471)
Present value of minimum lease payments	\$ 46,616

Interest on each capital lease is calculated at the Company's incremental borrowing rate at the inception of each lease.

8. Common Stockholders' Equity***Issuance of Common Stock***

In August 1995, the Company completed the sale of 2,193,492 shares of Common Stock through an initial public offering and 716,714 common shares in a concurrent private placement to A-B (collectively, the Offerings) at a price of \$17.00 per share. The net proceeds of the Offerings totaled approximately \$46 million. All of the 1,242,857 shares of Series A convertible preferred stock automatically converted to an equal number of common shares upon closing of the Offerings.

On July 1, 2004, the Company issued 1,808,243 shares of Common Stock to A-B in exchange for 1,289,872 shares of Series B Preferred Stock held by A-B. The Series B Preferred Stock was cancelled. A-B was also granted certain contractual registration rights with respect to the shares of Common Stock held by A-B. In connection with the exchange, the Company paid \$2,000,000 to A-B in November 2004. The impact of this exchange and recapitalization on the balance sheet as of December 31, 2004 was to reduce convertible preferred stock by \$16,300,000, increase Common Stock by \$9,000, increase additional paid-in capital by \$14,200,000 and reduce cash by \$2,000,000. As of December 31, 2007 and 2006, A-B held 33.1% and 33.3% of the Company's outstanding shares of Common Stock, respectively.

In conjunction with the exercise of stock options granted under the Company's stock option plans, the Company issued 48,550 shares of the Company's Common Stock and received proceeds on exercise totaling \$157,000 during the year ended December 31, 2007. During the year ended December 31, 2006, the Company issued 58,880 shares of Common Stock and received proceeds on exercise totaling \$150,000.

Following shareholder approval of the 2007 Stock Incentive Plan at the May 22, 2007 Annual Meeting of Shareholders, the board of directors approved the following fully-vested stock grants under the 2007 Plan: 2,300 shares of Common Stock to each independent, non-employee director, 10,000 shares of Common Stock to the Chief Executive Officer Paul Shipman, and 5,000 shares of Common Stock to President David Mickelson. In conjunction with these stock grants, the Company issued 24,200 shares of Common Stock and recognized stock-based compensation expense of \$169,000 in the year ended December 31, 2007.

Shareholder Rights Agreement

The Company's shareholder rights agreement, which was adopted by the board of directors in September 1995 and subsequently amended in May 1999 and May 2004, expired on September 22, 2005.

NOTES TO FINANCIAL STATEMENTS (Continued)

Stock Plans

The Company maintains several stock incentive plans under which non-qualified stock options, incentive stock options and restricted stock are granted to employees and non-employee directors. The Company issues new shares of Common Stock upon exercise of stock options.

The Company maintains the 1992 Stock Incentive Plan, as amended (the 1992 Plan) and the Amended and Restated Directors Stock Option Plan (the Directors Plan) under which non-qualified stock options and incentive stock options were granted to employees and non-employee directors through October 2002. Employee options were generally designated to vest over a five-year period while director options became exercisable six months after the grant date. Vested options are generally exercisable for ten years from the date of grant. Although the 1992 Plan and the Directors Plan both expired in October 2002, preventing further option grants, the provisions of these plans remain in effect until all options terminate or are exercised.

The Company's shareholders approved the 2002 Stock Option Plan (the 2002 Plan) in May 2002. The 2002 Plan provides for granting of non-qualified stock options and incentive stock options to employees, non-employee directors and independent consultants or advisors. The compensation committee of the board of directors administers the 2002 Plan, determining to whom options are to be granted, the number of shares of Common Stock for which the options are exercisable, the purchase prices of such shares, and all other terms and conditions. Options granted to employees of the Company in 2002 under the 2002 Plan were designated to vest over a five-year period, and options granted to the Company's directors in 2002, 2003, 2004 and 2005 under the 2002 Plan became exercisable six months after the grant date. Options were granted at an exercise price equal to fair market value of the underlying Common Stock on the grant date and terminate on the tenth anniversary of the grant date. Options granted in 2006 under the 2002 Plan were granted to the Company's directors (other than A-B designated directors) at an exercise price less than the fair market value of the underlying Common Stock on the grant date. These options were immediately exercisable and each grantee exercised his option to purchase this Common Stock on the same day as the grant. The maximum number of shares of Common Stock for which options may be granted during the term of the 2002 Plan is 346,000.

The 2007 Stock Incentive Plan (the 2007 Plan) was adopted by the board of directors and approved by the shareholders in May 2007. The 2007 Plan provides for stock options, restricted stock, restricted stock units, performance awards and stock appreciation rights. While incentive stock options may only be granted to employees, awards other than incentive stock options may be granted to employees and directors. The 2007 Plan is administered by the compensation committee of the board of directors. A maximum of 100,000 shares of Common Stock are authorized for issuance under the 2007 Plan.

The Company has reserved approximately 865,000 shares of Common Stock for future issuance in connection with the exercise of outstanding options to purchase Common Stock as well as grants of Common Stock under the 2007 Plan.

Accounting for Stock-Based Compensation

Overview

Prior to the January 1, 2006 adoption of SFAS No. 123R, *Share-Based Payment*, the Company accounted for its employee and director stock-based compensation plans using the intrinsic value method, as prescribed by APB No. 25, *Accounting for Stock Issued to Employees*. Under the intrinsic value method, no stock-based compensation expense was recognized in the Company's statement of operations because the exercise price of the Company's stock options granted to employees and directors equaled the fair market value of the underlying Common Stock on the date of grant. As permitted, for all periods prior to January 1, 2006, the Company elected to adopt the disclosure only provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, as amended by SFAS No. 148.

Table of Contents

REDHOOK ALE BREWERY, INCORPORATED

NOTES TO FINANCIAL STATEMENTS (Continued)

On November 29, 2005, the board of directors of the Company approved an acceleration of vesting of all of the Company's unvested stock options (the Acceleration). The Acceleration was effective for stock options outstanding as of December 30, 2005. These options were granted under the 1992 Plan and 2002 Plan. As a result of the Acceleration, options to acquire approximately 136,000 shares of the Company's Common Stock, or 16% of total outstanding options, became exercisable on December 30, 2005. Of the approximately 136,000 shares subject to the Acceleration, options to acquire approximately 70,000 shares of the Company's Common Stock at an exercise price of \$1.865 would have otherwise fully vested in August 2006, and options to acquire approximately 66,000 shares of the Company's Common Stock at an exercise price of \$2.019 would have otherwise vested in August 2006 and August 2007. The Acceleration did not have a material impact on 2006 or 2007 results of operations.

On January 1, 2006, the Company adopted SFAS No. 123R, *Share-Based Payment*, which revises SFAS No. 123 and supersedes APB No. 25. SFAS No. 123R requires all share-based payments to employees and directors be recognized as expense in the statement of operations based on their fair values and vesting periods. The Company is required to estimate the fair value of share-based payment awards on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods in the Company's statement of operations. The Company elected to follow the modified prospective transition method, one of two methods prescribed by the standard, for implementing SFAS No. 123R. Under the modified prospective method, compensation cost is recognized beginning with the effective date (i) based on the requirements of SFAS No. 123R for all share-based payments granted after the effective date and (ii) based on the requirements of SFAS No. 123 for all awards granted to employees prior to the effective date of SFAS No. 123R that remain unvested on the effective date. No compensation expense was recognized in 2007 or 2006 for stock options outstanding as of December 31, 2005 because these options were fully vested prior to the January 1, 2006 adoption of SFAS No. 123R.

Stock-Based Compensation Expense

On May 25, 2005, each non-employee director (other than A-B designated directors) was granted an option to purchase 4,000 shares of Common Stock at an exercise price of \$3.15 per share. The options were granted at an exercise price equal to the fair market value on the grant date, became exercisable six months after the grant date, and will terminate on the tenth anniversary of the grant date. The options were granted under the Company's 2002 Plan. There were no other grants of options to purchase Common Stock in 2005.

On May 23, 2006, following the Company's Annual Meeting of Shareholders, each non-employee director (other than A-B designated directors) was granted an immediately exercisable option to purchase 3,500 shares of Common Stock at \$0.01 per share (the Options). The Options expired on June 30, 2006 and were granted under the Company's 2002 Plan. On May 23, 2006, each grantee exercised his option to purchase 3,500 shares of Common Stock. The option grant resulted in stock compensation expense of \$54,000. There were no other grants of options to purchase Common Stock in 2006.

On May 22, 2007, the board of directors approved a grant of 2,300 shares of fully-vested Common Stock to each independent, non-employee director, 10,000 shares of fully-vested Common Stock to the Chief Executive Officer Paul Shipman, and 5,000 shares of fully-vested Common Stock to President David Mickelson under the 2007 Plan. In conjunction with these stock grants, the Company issued 24,200 shares of Common Stock and recognized stock-based compensation expense of \$169,000 in the Company's statement of operations for the year ended December 31, 2007. There were no other grants of Common Stock or options to purchase Common Stock in 2007.

Table of Contents**REDHOOK ALE BREWERY, INCORPORATED****NOTES TO FINANCIAL STATEMENTS (Continued)**

The following table illustrates the effect on net loss and loss per share for the year ended December 31, 2005 had compensation cost for the Company's stock options been recognized based upon the estimated fair value on the grant date under the fair value methodology as prescribed by the disclosure only provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, as amended by SFAS No. 148. Stock compensation disclosure for the years ended December 31, 2007 and 2006 is not presented below because, in accordance with SFAS No. 123R, any expense is required to be recognized in the financial statements.

	Year Ended December 31, 2005
Net loss as reported	\$ (1,200,443)
<i>Add:</i> Stock compensation as reported under APB 25	
<i>Less:</i> Stock-based employee compensation expense determined under the fair value based method for all options, net of related tax effects	(244,585)
Pro forma net loss	\$ (1,445,028)
Net loss per share	
Basic	
As reported	\$ (0.15)
Proforma	\$ (0.18)
Diluted	
As reported	\$ (0.15)
Proforma	\$ (0.18)

The fair value of options granted (which is amortized to expense over the option vesting period in determining the pro forma impact) was estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions:

	2006	2005
Expected life (years)	0 yrs.	5 yrs.
Risk-free interest rate	4.70%	3.88%
Expected volatility rate	0.00%	46.0%
Expected dividend yield	0.00%	0.0%

The fair value of Common Stock and options granted in 2006 and 2005 was estimated on the date of grant using the Black-Scholes single option pricing model with the following weighted average assumptions:

	2006	2005
--	-------------	-------------

Total number of options granted	14,000	16,000
Estimated fair value of each option granted	\$ 3.84	\$ 1.24
Total estimated fair value of all options granted	\$ 54,000	\$ 20,000

The expected term of the options represents the estimated period of time until exercise and was based on historical experience of similar awards, giving consideration to the contractual terms, vesting schedules and expectations of future employee behavior. The risk-free interest rate was based on the implied yield currently available on U.S. Treasury securities with an equivalent remaining term. Prior to the adoption of SFAS No. 123R, expected stock price volatility was estimated using only historical volatility. The Company has not paid dividends in the past and does not plan to pay any dividends in the near future. Because the 2006 grant of options to purchase Common Stock were immediately exercised by the director grantees, the expected life of the option and the stock price volatility were known and not estimated. Refer to the table of options currently outstanding below for the weighted average exercise price for options granted during 2007, 2006 and 2005.

Table of Contents**REDHOOK ALE BREWERY, INCORPORATED****NOTES TO FINANCIAL STATEMENTS (Continued)***Stock Option Plan Activity*

Presented below is a summary of stock option plans activity for the years shown:

	Shares Subject to Options	Weighted Average Exercise Price per Share	Weighted Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Outstanding at January 1, 2005	1,054,530	\$ 3.43	5.89	\$ 624,841
Granted	16,000	\$ 3.15		
Exercised	(34,410)	\$ 1.93		
Canceled	(189,800)	\$ 4.92		
Outstanding at December 31, 2005	846,320	\$ 3.15	5.08	\$ 700,258
Granted	14,000	\$ 0.01		
Exercised	(58,880)	\$ 1.63		
Canceled	(18,000)	\$ 17.04		
Outstanding at December 31, 2006	783,440	\$ 2.89	4.10	\$ 1,950,534
Granted		\$		
Exercised	(48,550)	\$ 3.24		
Canceled	(45,750)	\$ 7.23		
Outstanding at December 31, 2007	689,140	\$ 2.57	3.33	\$ 2,809,485
Exercisable at December 31, 2007	689,140	\$ 2.57	3.33	\$ 2,809,485

The aggregate intrinsic value of the outstanding stock options is calculated as the difference between the stock closing price as reported by Nasdaq on of the last day of the period and the exercise price of the shares. The applicable stock closing prices as of December 31, 2007, 2006, 2005 were \$6.65, \$5.20 and \$3.17, respectively. The applicable stock closing price as of January 1, 2005 was \$3.51. For 2007 and 2006, there was no unrecognized stock-based compensation expense related to unvested stock options. The total intrinsic value of stock options exercised in 2007, 2006 and 2005 was \$168,000, \$125,000 and \$38,000, respectively. The total fair value of options vested in 2006 was \$54,000.

The following table summarizes information for options currently outstanding and exercisable at December 31, 2007:

Average Weighted

Range of Exercise Prices	Number Outstanding & Exercisable	Remaining Contractual Life (Yrs)	Average Exercise Price
\$ 1.485 to \$1.815	8,000	2.89	\$ 1.650
\$ 1.816 to \$1.865	322,540	3.59	\$ 1.865
\$ 1.866 to \$2.180	142,434	4.69	\$ 2.028
\$ 2.181 to \$3.150	34,666	6.46	\$ 2.768
\$ 3.151 to \$5.730	181,500	1.21	\$ 4.263
\$ 1.485 to \$5.730	689,140	3.33	\$ 2.573

Under the terms of the Company's incentive stock option plans, employees and directors may be granted options to purchase the Company's Common Stock at the market price on the date the option is granted. Under these stock option plans, stock options granted at less than the fair market value on the date of grant

Table of Contents**REDHOOK ALE BREWERY, INCORPORATED****NOTES TO FINANCIAL STATEMENTS (Continued)**

are considered to be non-qualified stock options rather than incentive stock options. At December 31, 2007, 2006 and 2005, a total of 99,959, 95,959 and 109,559 options, respectively, were available for future grants under the 2002 plan.

9. Earnings (Loss) Per Share

The following table sets forth the computation of basic and diluted earnings (loss) per common share:

	Year Ended December 31,		
	2007	2006	2005
Numerator for basic and diluted net income (loss) per share net income (loss)	\$ (939,486)	\$ 516,165	\$ (1,200,443)
Denominator for basic net income (loss) per share weighted average common shares outstanding	8,331,445	8,250,613	8,206,219
Dilutive effect of stock options on weighted average common shares		274,542	
Denominator for diluted net income (loss) per share	8,331,445	8,525,155	8,206,219
Basic net income (loss) per share	\$ (0.11)	\$ 0.06	\$ (0.15)
Diluted net income (loss) per share	\$ (0.11)	\$ 0.06	\$ (0.15)

The outstanding stock options have been excluded from the calculation of diluted loss per share for the years ended December 31, 2007 and 2005 because their effect is antidilutive.

10. Income Taxes

The components of income tax expense (benefit) are as follows:

	Year Ended December 31,		
	2007	2006	2005
Current	\$ 47,952	\$ 29,432	\$ 41,077
Deferred	(223,746)	95,418	176,597
Income tax provision (benefit)	\$ (175,794)	\$ 124,850	\$ 217,674

Current tax expense is attributable to state taxes and the federal alternative minimum tax. The Company paid income, equity and franchise taxes totaling \$53,000, \$52,000 and \$42,000 during 2007, 2006 and 2005, respectively.

Table of Contents**REDHOOK ALE BREWERY, INCORPORATED****NOTES TO FINANCIAL STATEMENTS (Continued)**

A reconciliation between the U.S. federal statutory tax rate and the Company's effective tax rate is presented below:

	Year Ended December 31,		
	2007	2006	2005
Federal statutory rate	(34.0)%	34.0%	(34.0)%
State taxes, net of federal benefit	(2.3)	2.9	(2.9)
Permanent differences, primarily meals and entertainment	7.2	11.6	6.8
Merger expenses	13.3		
Other items, net		11.7	1.1
Adjustment to deferred tax asset tax rate		52.4	
Valuation allowance		(93.1)	51.1
Effective income tax rate	(15.8)%	19.5%	22.1%

The Company assessed the tax rate utilized to record its deferred tax assets and liabilities during 2006. As a result of this assessment the deferred tax assets and liabilities were adjusted by \$337,000 for a 52.4% effect on the net effective income tax rate.

Significant components of the Company's deferred tax liabilities and assets are as follows:

	Year Ended December 31,	
	2007	2006
Deferred tax liabilities:		
Tax-over-book depreciation	\$ 9,058,807	\$ 9,760,169
Other		
	9,058,807	9,760,169
Deferred tax assets:		
NOL and AMT credit carryforwards	8,781,504	9,405,515
Other	518,558	372,163
Valuation allowance	(1,059,322)	(1,059,322)
	8,240,740	8,718,356
Net deferred tax liability	\$ 818,067	\$ 1,041,813
Deferred income tax liability, net	\$ 1,762,428	\$ 1,548,699
Deferred income tax asset, net	944,361	506,886

Net deferred tax liability	\$ 818,067	\$ 1,041,813
----------------------------	------------	--------------

As of December 31, 2007 and 2006, the Company's deferred tax assets were primarily comprised of federal net operating loss carryforwards (NOLs), federal and state alternative minimum tax credit carryforwards, and state NOL carryforwards. As of December 31, 2007, the Company had federal NOLs of \$24.7 million, or \$8.4 million tax-effected; federal and state alternative minimum tax credit carryforwards of \$185,000; and state NOL carryforwards of \$196,000 tax-effected. The federal NOLs expire from 2012 through 2023; the alternative minimum tax credit can be utilized to offset regular tax liabilities in future years and has no expiration date; and the state NOLs expire from 2008 through 2023. In assessing the realizability of the deferred tax assets, the Company considered both positive and negative evidence when measuring the need for a valuation allowance. The ultimate realization of deferred tax assets is dependent upon the existence of, or

Table of Contents**REDHOOK ALE BREWERY, INCORPORATED****NOTES TO FINANCIAL STATEMENTS (Continued)**

generation of, taxable income during the periods in which those temporary differences become deductible. The Company considered the scheduled reversal of deferred tax liabilities, projected future taxable income and other factors in making this assessment. The Company's estimates of future taxable income take into consideration, among other items, estimates of future taxable income related to depreciation. Based upon the available evidence, the Company does not believe that all of the deferred tax assets will be realized. Accordingly, the Company's balance sheets as of December 31, 2007 and 2006 include a valuation allowance of \$1,059,000 to cover certain federal and state NOLs that may expire before the Company is able to utilize the tax benefit. To the extent that the Company continues to be unable to generate adequate taxable income in future periods, the Company will not be able to recognize additional tax benefits and may be required to record a greater valuation allowance covering potentially expiring NOLs.

There were no unrecognized tax benefits as of January 1, 2007 or December 31, 2007.

Historically, the Company has not incurred any interest or penalties associated with tax matters and no interest or penalties were recognized during the year ended December 31, 2007. However, the Company has adopted a policy whereby penalties incurred in connection with tax matters will be classified as general and administrative expenses, and interest assessments incurred in connection with tax matters will be classified as interest expense.

Tax years that remain open for examination by the Internal Revenue Service include 2004, 2005, 2006 and 2007. In addition, tax years from 1997 to 2003 may be subject to examination by the Internal Revenue Service to the extent that the Company utilizes the NOLs from those years in its current year or future year tax returns.

11. Commitments

The Company's non-cancelable operating lease arrangements include a lease of the land on which the New Hampshire Brewery sits as well as leases of various small equipment. The land lease began in May 1995 and runs through April 2047. The lease arrangement may be extended at the Company's option for two additional seven-year terms. Monthly lease payments did not commence until completion of construction of the New Hampshire Brewery facility in July 1996. The lease agreement also includes an escalation clause, allowing for a 5% increase in the monthly lease payment at the end of every five-year period. The first five-year period expired in May 2005 and the lessor increased the monthly lease payment by the 5% as provided for in the agreement. Escalating rent expense is recorded on a straight-line basis over the term of the lease. The land lease also provides the Company with the first right of refusal to purchase the property should the lessor receive an offer to sell the property to a third party. The Company's leases of various equipment generally have a term of five years.

Minimum aggregate future lease payments under non-cancelable operating leases as of December 31, 2007 are as follows:

2008	\$ 274,621
2009	268,921
2010	275,730
2011	278,154
2012	277,520

Thereafter

11,267,525

\$ 12,642,471

Table of Contents**REDHOOK ALE BREWERY, INCORPORATED****NOTES TO FINANCIAL STATEMENTS (Continued)**

Rent expense under all operating leases, including short-term rentals as well as cancelable and noncancelable operating leases, totaled \$686,000, \$558,000 and \$508,000 for the years ended December 31, 2007, 2006 and 2005, respectively.

The Company periodically enters into commitments to purchase certain raw materials in the normal course of business. Furthermore, the Company has entered into purchase commitments to ensure it has the necessary supply of malt and hops to meet future production requirements. Certain of the malt and hop commitments are for crop years through 2012. The Company believes that malt and hop commitments in excess of future requirements, if any, will not have a material impact on its financial condition or results of operations.

Aggregate payments under unrecorded, unconditional purchase commitments as of December 31, 2007 are as follows:

2008	\$ 4,024,461
2009	1,888,969
2010	1,613,170
2011	1,245,150
2012	1,041,990
Thereafter	884,490
	\$ 10,698,230

The Company leases corporate office space to an unrelated party. The lease agreement expires in 2009. The Company recognized rental income for the years ended December 31, 2007, 2006 and 2005 of \$193,000, \$194,000 and \$167,000, respectively. Future minimum lease rentals under the agreement total \$386,000.

12. Employee Benefit Plan

The Company maintains a 401(k) savings plan for employees age 21 years or older with at least six months of service. Employee contributions may not exceed a specific dollar amount determined by law and rules of the Internal Revenue Service. The Company matches 100% of each dollar contributed by a participant, with a maximum matching contribution of 4% of a participant's eligible compensation. In order to be eligible for the matching contribution, the participant must have been employed by the Company on the last day of the calendar year and worked 1,000 or more hours. The Company's matching contributions to the plan vest incrementally over five years of service by the employee. The Company's contributions to the plan totaled \$216,000, \$195,000 and \$167,000 for the years ended December 31, 2007, 2006 and 2005, respectively.

13. Financial Instruments, Major Customers, and Related-Party Transactions

Financial instruments that potentially subject the Company to credit risk consist principally of trade receivables and interest-bearing deposits. While wholesale distributors, A-B and Craft Brands account for substantially all accounts receivable, this concentration risk is limited due to the number of distributors, their geographic dispersion, and state laws regulating the financial affairs of distributors of alcoholic beverages. The Company's interest-bearing deposits are

placed with major financial institutions.

The Company's most significant wholesaler, K&L Distributors, Inc. (K&L), is responsible for distribution of the Company's products in most of King County, Washington, which includes Seattle. K&L accounted for approximately 8%, 11% and 12% of total sales volume in 2007, 2006 and 2005, respectively. Shipments of the Company's product to K&L during 2007, 2006 and 2005 were marketed through Craft Brands. Due to state liquor regulations, the Company sells its product in Washington State directly to third-party beer distributors and returns a portion of the revenue to Craft Brands based upon a contractually determined formula.

Table of Contents

REDHOOK ALE BREWERY, INCORPORATED

NOTES TO FINANCIAL STATEMENTS (Continued)

For the year ended December 31, 2007, sales to A-B through the A-B Distribution Agreement represented 41% of total sales during the same period, or \$18,879,000. For the year ended December 31, 2006, sales to A-B through the A-B Distribution Agreement represented 43% of total sales during the same period, or \$17,159,000. For the year ended December 31, 2005, sales to A-B through the A-B Distribution Agreement represented 41% of total sales during the same period, or \$14,038,000.

In connection with all sales through the July 1, 2004 A-B Distribution Agreement, the Company pays a Margin fee to A-B. The Margin does not apply to sales to the Company's retail operations or to dock sales. The Margin also does not apply to the Company's sales to Craft Brands because Craft Brands pays a comparable fee on its resale of the product. The A-B Distribution Agreement also provides that the Company shall pay an additional fee on shipments that exceed shipments for the same territory during fiscal 2003 (the Additional Margin). During the year ended December 31, 2007, the Margin was paid to A-B on shipments totaling 107,900 barrels to 532 distribution points. During the year ended December 31, 2006, the Margin was paid to A-B on shipments totaling 101,400 barrels to 503 distribution points. During the year ended December 31, 2005, the Margin was paid to A-B on shipments totaling 85,100 barrels to 472 distribution points. Because 2007, 2006 and 2005 shipments in the midwest and eastern U.S. each exceeded 2003 shipments in the same territory, the Company paid A-B the Additional Margin on 30,000, 23,000 and 7,000 barrels, respectively. The Margin is reflected as a reduction of sales in the Company's statements of operations.

In connection with all sales through the A-B Distribution Agreement since July 1, 2004, the Company also pays additional fees to A-B related to administration and handling. Invoicing costs, staging costs, cooperage handling charges and inventory manager fees are reflected in cost of sales in the Company's statement of operations. These fees collectively totaled approximately \$150,000, \$129,000, and \$249,000 for the years ended December 31, 2007, 2006 and 2005, respectively. These fees were lower in 2006 compared to prior years as the Company recognized a refund of \$124,000 from A-B in 2006 from overbilled invoicing costs from 1995 through 2005.

In certain instances, the Company may ship its product to A-B wholesaler support centers rather than directly to the wholesaler. Wholesaler support centers assist the Company by consolidating small wholesaler orders with orders of other A-B products prior to shipping to the wholesaler. A wholesaler support center fee of \$171,000, \$158,000 and \$32,000 is reflected in cost of sales in the Company's statements of operations for the years ended December 31, 2007, 2006 and 2005, respectively.

The Company purchased certain materials through A-B totaling \$9,608,000, \$7,308,000 and \$5,942,000 in 2007, 2006 and 2005, respectively.

In December 2003, the Company entered into a purchase and sale agreement with A-B for the purchase of the *Pacific Ridge* brand, trademark and related intellectual property. In consideration, the Company agreed to pay A-B a fee for 20 years based upon the shipments of the brand by the Company. A fee of \$71,000, \$80,000, \$83,000 is reflected in cost of sales in the Company's statements of operations for the years ended December 31, 2007, 2006 and 2005, respectively.

In conjunction with the shipment of its products to wholesalers, the Company collects refundable deposits on its pallets. In certain circumstances when the pallets are returned to the Company, A-B may return the deposit to the wholesaler. In May 2005, the Company reimbursed A-B approximately \$881,000 for these pallet deposits.

The Company periodically leases kegs from A-B pursuant to an October 2001 letter of agreement. A lease and handling fee of \$88,000, \$79,000 and \$32,000 is reflected in cost of sales in the Company's statements of operations for the years ended December 31, 2007, 2006 and 2005, respectively.

In connection with the shipment of its draft products to wholesalers through the A-B Distribution Agreement, the Company collects refundable deposits on its kegs. Because wholesalers generally hold an inventory of the Company's kegs at their warehouse and in retail establishments, A-B assists in monitoring the

Table of Contents

REDHOOK ALE BREWERY, INCORPORATED

NOTES TO FINANCIAL STATEMENTS (Continued)

inventory of kegs to insure that the wholesaler can account for all kegs shipped. When a wholesaler cannot account for some of the Company's kegs for which it is responsible, the wholesaler pays the Company, for each keg determined to be lost, a fixed fee and also forfeits the deposit. For the years ended December 31, 2007 and 2005, the Company reduced its brewery equipment by \$716,000 and \$305,000, respectively, comprised of lost keg fees and forfeited deposits. The Company did not receive lost keg fees during the year ended December 31, 2006.

In 2005, the Company began using a proprietary A-B production planning system, customized for the Company's processes. Fees of \$269,000 for the customization, implementation and use of the system were paid to A-B and reflected in the statement of operations for the year ended December 31, 2005.

As of December 31, 2007, the net amount due from A-B was \$1,098,000. As of December 31, 2006, the net amount due to A-B was \$247,000. As of December 31, 2005, the net amount due from A-B was \$163,000. The unusually large 2007 balance due from A-B was largely attributable to keg deposits collected by A-B from wholesalers in connection with a December 1, 2007 deposit increase.

In 2003, the Company entered into a licensing agreement with Widmer to produce and sell the *Widmer Hefeweizen* brand in states east of the Mississippi River. In March 2005, the *Widmer Hefeweizen* distribution territory was expanded to include all of the Company's midwest and eastern markets. Brewing of this product is conducted at the New Hampshire Brewery under the supervision and assistance of Widmer's brewing staff to insure their brand's quality and matching taste profile. The term of this agreement automatically renewed on February 1, 2008 for an additional one-year term expiring on February 1, 2009. The agreement term provides for additional one-year automatic renewals unless either party notifies the other of its desire to have the term expire at the end of the then existing term at least 150 days prior to such expiration. The agreement may be terminated by either party at any time without cause pursuant to 150 days notice or for cause by either party under certain conditions. Additionally, Redhook and Widmer have entered into a secondary agreement providing that if Widmer terminates the licensing agreement or causes it to expire before December 31, 2009, Widmer will pay the Company a lump sum payment to partially compensate the Company for capital equipment expenditures made at the New Hampshire Brewery to support Widmer's growth. During the term of this agreement, Redhook will not brew, advertise, market, or distribute any product that is labeled or advertised as a Hefeweizen or any similar product in the agreed upon midwest and eastern territory. Brewing and selling of Redhook's Hefe-weizen was discontinued in conjunction with this agreement. The Company believes that the agreement increases capacity utilization and has strengthened the Company's product portfolio. The Company shipped 28,800, 30,600 and 25,600 barrels of *Widmer Hefeweizen* during the years ended December 31, 2007, 2006 and 2005, respectively. A licensing fee of \$432,000, \$437,000 and \$399,000 is reflected in cost of sales in the Company's statement of operations for the years ended December 31, 2007, 2006 and 2005, respectively.

In connection with a contract brewing arrangement, the Company brewed and shipped 81,900, 43,000 and 8,900 barrels of Widmer draft and bottled product and recognized sales of \$7,363,000, \$3,264,000, and \$781,000 during the years ended December 31, 2007, 2006 and 2005, respectively. Pursuant to the Supply, Distribution and Licensing Agreement with Craft Brands, if shipments of the Company's products in the western U.S. decrease as compared to the previous year's shipments, the Company has the right to brew Widmer products in an amount equal to the lower of (i) the Company's product shipment decrease or (ii) the Widmer product shipment increase. In addition, the Company may, pursuant to a Manufacturing and Licensing Agreement with Widmer, brew more beer for Widmer than the amount obligated by the Supply, Distribution and Licensing Agreement with Craft Brands. The Manufacturing and Licensing Agreement, as amended, has an expiration date of December 31, 2008.

In 2007, the Company leased Company-owned kegs to Widmer. Approximately \$16,000 is reflected in the Company's statement of operation for the year ended December 31, 2007.

Table of Contents**REDHOOK ALE BREWERY, INCORPORATED****NOTES TO FINANCIAL STATEMENTS (Continued)**

As of December 31, 2007 and 2006, the net amount due from Widmer was \$93,000 and \$30,000, respectively.

14. Subsequent Events

On February 15, 2008, the Company entered into a credit arrangement with Bank of America, N.A. pursuant to which a \$5 million revolving line of credit is provided (the Line of Credit). The Line of Credit accrues interest at a rate equal to, at the Company's option, the bank's prime rate minus 0.50 percentage points or the 14-30 day LIBOR plus 1.25%. The Company must pay a fee of 0.20% on the unused portion of the Line of Credit. The Line of Credit is secured by the Company's equipment and fixtures, inventory, accounts and receivables. The terms of the Line of Credit require the Company to meet certain customary financial and non-financial covenants, including a financial covenant that the Company must maintain an EBITDA of at least \$2 million, as measured on a rolling 4 quarter basis. As of February 28, 2008, there was no balance outstanding on the Line of Credit.

15. Quarterly Financial Data (Unaudited)

	2007 Quarter Ended				2006 Quarter Ended			
	Dec. 31	Sept. 30	Jun. 30	Mar. 31	Dec. 31	Sept. 30	Jun. 30	Mar. 31

Because the quarterly financial data computations reflect rounding, the sum of the quarters may not equal the full year results.

Seasonality

Sales of the Company's products generally reflect a degree of seasonality, with the first and fourth quarters historically being the slowest and the rest of the year typically demonstrating stronger sales. The Company's sales volume may also be affected by weather conditions. Therefore, the Company's results for any quarter may not be indicative of the results that may be achieved for the full fiscal year.

Table of Contents

Item 9. *Changes In and Disagreements With Accountants on Accounting and Financial Disclosure*

None.

Item 9A(T). *Controls and Procedures*

Disclosure Controls and Procedures

The Company has carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e) or 15d-15(e)) as of the end of the period covered by this Annual Report on Form 10-K. Based upon that evaluation, the Chief Executive Officer, President and Chief Operating Officer, and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer, President and Chief Operating Officer, and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Management believes that key controls are in place and the disclosure controls are functioning properly as of December 31, 2007.

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, cannot provide absolute assurance of achieving the desired control objectives. In addition, because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control Over Financial Reporting

During the fourth quarter of 2007, no changes in the Company's internal control over financial reporting were identified in connection with the evaluation required by Exchange Act Rule 13a-15 or 15d-15 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Report of Management on Internal Control over Financial Reporting

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting in accordance with Exchange Act Rule 12a-15. Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of the Company's financial reporting for external purposes in accordance with accounting principles generally accepted in the United States of America. Internal control over financial reporting includes maintaining records that in reasonable detail accurately and fairly reflect the Company's transactions; providing reasonable assurance that transactions are recorded as necessary for preparation of the Company's financial statements; providing reasonable assurance that receipts and expenditures are made in accordance with management authorization; and providing reasonable assurance that unauthorized acquisition, use or disposition of Company assets that could have a material effect on the Company's financial statements would be prevented or detected on a timely basis. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of the Company's financial statements would be prevented or detected.

Management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework and criteria established in *Internal Control – Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission. This evaluation included review of the documentation of controls, evaluation of the design effectiveness of controls, testing of the operating effectiveness of controls and a conclusion on this evaluation. Based on this evaluation, management concluded that the Company’s internal control over financial reporting was effective as of December 31, 2007.

Table of Contents

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Security and Exchange Commission that permit the Company to provide only management's report in this annual report.

Item 9B. *Other Information*

None.

PART III.

Item 10. *Directors, Executive Officers and Corporate Governance*

Board of Directors

Set forth below is biographical information about the nominees for director whose terms expire at the 2008 Annual Meeting of Shareholders.

Frank H. Clement (66). Mr. Clement has served as a director of Redhook since March 1989. He is a retired Vice President of Investments at UBS Financial Services (formerly UBS Paine Webber), a registered broker dealer, in Seattle, Washington, where he was employed from 1975 to March 2002. From 1995 through 1999, he served on the Advisory Board of the Institute of Brewing Studies in Boulder, Colorado. Mr. Clement serves on the Dean's Advisory Board for the School of Management and on the National Alumni Association Board, both for S.U.N.Y. at Buffalo, Buffalo, New York. Since July 2004, Mr. Clement has served as a director of Craft Brands Alliance LLC.

John W. Glick (44). Mr. Glick has served as a director of Redhook since September 2005. Mr. Glick has worked with the Business and Wholesaler Development group at A-B since April 2000, serving as Senior Director, Business Development since December 1, 2006 and Senior Manager of Business Development since September 2005. He has also held positions in the Business Planning and Brewery Operations groups at A-B. Prior to joining A-B's Executive Development Program in 1992, Mr. Glick held multiple engineering and manufacturing operations positions at General Motors. He received a Master's degree in Business Administration from Indiana University and a Bachelor of Science from GMI Engineering & Management Institute in Flint, Michigan. Mr. Glick has served as a director of Widmer and as a director for Kirin Brewery of America since April 2004. Mr. Glick is one of two directors on Redhook's board of directors designated by A-B; see "Certain Related Party Transactions" Below.

Michael Loughran (50). Mr. Loughran has served as a director of Redhook since May 2005. Mr. Loughran is the President of Kiket Bay Group, LLC, a financial consulting and independent equity research firm formed by him in November 2003. From March 2005 to March 2006, Mr. Loughran served as Senior Vice President and equity analyst for First Washington Corporation, a registered broker dealer in Seattle, Washington. From August 2002 to March 2005, Mr. Loughran was employed by Crown Point Group and its affiliate, the Robins Group, a registered broker dealer in Portland, Oregon, serving most recently as Vice President and equity analyst for the Robins Group. From November 2001 to August 2002, Mr. Loughran served as a financial consultant. Mr. Loughran received a Bachelor's degree in Economics from Princeton University in 1980 and a Master's degree in Business Administration from the University of Pennsylvania, Wharton School, in 1986.

David R. Lord (59). Mr. Lord has served as a director of Redhook since May 2003. He has been the President of Pioneer Newspapers, Inc., headquartered in Seattle, Washington, since 1991. Pioneer Newspapers owns seven daily newspapers and nine weekly, semi-weekly and monthly publications in the western United States. Prior to joining Pioneer Newspapers, Mr. Lord practiced law at Ferguson and Burdell, a Seattle firm specializing in business

litigation, and was a criminal deputy prosecuting attorney for King County, Washington. Mr. Lord is president elect of the PAGE Co-op board of directors, a director on the Associated Press board of directors, the Job Network LLC board of directors, the Newspaper Association of America

Table of Contents

board of directors, American Press Institute board of directors, and a former chairman of the Inland Press Association.

John D. Rogers, Jr. (64). Mr. Rogers has served as a director of Redhook since May 2004. He currently serves as Managing Partner of J4 Ranch LLC. Mr. Rogers served as President, Chief Executive Officer and director of Door to Door Storage, Inc. in Kent, Washington from June 2004 to June 2007. Mr. Rogers was a director of NW Parks Foundation from November 2003 to December 2006. From 1996 to 2002, he was President and Chief Operating Officer of AWC, Inc. From 1993 to 1996, he was General Manager of British Steel Alloys and from 1986 to 1992, he was President of Clough Industries. Previous positions held by Mr. Rogers include President and Chief Executive Officer of Saab Systems Inc., NA, and National Industry Manager for Martin Marietta Aluminum of Bethesda, Maryland, following an appointment as a Sloan Fellow to M.I.T. Graduate School of Business where he graduated with a Masters of Science in Business Administration. Mr. Rogers earned a Master's degree in Business Administration from Southern Methodist University and a Bachelor's degree from the University of Washington.

Paul S. Shipman (55). Mr. Shipman is one of Redhook's founders and has served as its Chairman of the Board since November 1992, and as its Chief Executive Officer since June 1993. From September 1981 to November 2005, Mr. Shipman served as Redhook's President. Prior to founding Redhook, Mr. Shipman was a marketing analyst for the Chateau Ste. Michelle Winery from 1978 to 1981. Mr. Shipman received his Bachelor's degree in English from Bucknell University in 1975 and his Master's degree in Business Administration from the Darden Business School, University of Virginia, in 1978. Since July 2004, Mr. Shipman has served as a director of Craft Brands Alliance LLC.

Anthony J. Short (48). Mr. Short has served as a director of Redhook since May 2000. Mr. Short has been Vice President, Business and Wholesaler Development at A-B since September 2002. In this capacity, he is responsible for domestic business development and various initiatives involving A-B's sales and distribution system. From March 2000 to September 2002, Mr. Short was Director of Business and Wholesaler Development. Previously, Mr. Short was Director of Wholesaler System Development. He began his career at A-B in 1986 in the Corporate Auditing Department. Prior to joining A-B, Mr. Short held positions at Schowalter & Jabouri, a regional firm of Certified Public Accountants. Mr. Short has served as a director of Widmer since October 1997 and as a director of Craft Brands Alliance LLC since July 2004. Mr. Short is one of two directors on Redhook's board of directors designated by A-B; see Certain Related Party Transactions below.

Executive Officers

The names, ages, titles and biographies of the Company's executive officers are set forth herein in Part I., Item 4A, under the caption Executive Officers of the Company.

Audit Committee of the Board of Directors

The Redhook audit committee is responsible for the engagement of and approval of the services provided by Redhook's independent registered public accountants. The audit committee assists Redhook's board of directors in fulfilling its oversight responsibilities by reviewing (i) the financial reports and other pertinent financial information provided by Redhook to the public and the Securities and Exchange Commission, (ii) Redhook's systems of internal controls established by management and the Board, and (iii) Redhook's auditing, accounting and financial reporting processes generally.

The Redhook audit committee is currently composed of Messrs. Clement, Loughran (Chairman), and Rogers, all of whom are independent directors as defined by Nasdaq Marketplace Rule 4200(a)(15) and 4350(d)(2). The Board has also determined that Mr. Loughran, an independent director, qualifies as an audit committee financial expert as defined by the Securities and Exchange Commission. Mr. Anthony J. Short is currently A-B's designee to the audit committee and participates in an advisory capacity only. The audit committee met five times during 2007. The board

of directors has adopted a written charter for the audit committee. A copy of the audit committee charter is available on Redhook's website at www.redhook.com (select About Redhook Investor Relations Governance Highlights).

Table of Contents

Section 16(a) Beneficial Ownership Reporting Compliance

Based solely on its review of the copies of such reports received by Redhook, and on written representations by Redhook's officers and directors regarding their compliance with the applicable reporting requirements under Section 16(a) of the Exchange Act, Redhook believes that, with respect to its fiscal year ended December 31, 2007, all filing requirements applicable to its officers and directors, and all of the persons known to Redhook to own more than ten percent of its common stock were complied with by such persons.

Code of Conduct

The Company has adopted a Code of Conduct (code of ethics) applicable to all employees, including the principal executive officer, principal financial officer, principal accounting officer and directors. A copy of the Code of Conduct is available on the Company's website at www.redhook.com (select About Redhook Investor Relations Governance Highlights). Any waivers of the code for the Company's directors or executive officers must be approved by the Board of Directors. The Company will disclose any such waivers on a current report on Form 8-K within four business days after the waiver is approved.

Item 11. *Executive Compensation*

Compensation Discussion and Analysis

Overview

The Redhook compensation committee of the board of directors, (the Committee), is responsible for establishing and administering the overall compensation policies applicable to Redhook's senior management, which includes Redhook's Chief Executive Officer, President and Chief Operating Officer, Vice Presidents, and Chief Financial Officer. The Committee is also responsible for establishing the general policies applicable to the granting, vesting and other terms of stock options and stock grants granted to employees under Redhook's stock option and stock incentive plans, and for determining the size and terms of stock and option grants made to Redhook's executive officers, among others.

The Committee is composed entirely of independent directors. Mr. Glick, A-B's designee to the compensation committee, participates on the committee in an advisory capacity only. The compensation committee oversees Redhook's executive compensation programs pursuant to a written charter, a copy of which is available on Redhook's website at www.redhook.com (select About Redhook Investor Relations Governance Highlights Compensation Committee).

Compensation Objectives

The Committee's responsibility is to insure that Redhook's compensation programs are structured and implemented in a manner that attracts and retains the caliber of executives and other key employees required for Redhook to compete in a highly competitive and rapidly evolving business sector, while also recognizing and emphasizing the importance and value of achieving targeted performance objectives and enhancing long-term shareholder value.

Redhook's executive compensation programs include five primary components:

Base salary. Base salary is the guaranteed element of an executive's annual cash compensation. The level of base salary reflects the employee's long-term performance, skill set and the market value of that skill set.

Bonuses. Discretionary bonus payments are intended to reward executives for achieving specific financial and operational goals.

Long-term incentive payments. Long term incentives, such as stock options, restricted stock and performance units, are intended to focus the executives on taking steps that they believe are necessary to ensure Redhook's long-term success, as reflected in increases to Redhook's stock price over a period of several years and growth in its earnings per share.

Table of Contents

Severance and Change of Control payments. Severance and change of control payments are competitive measures intended to recruit and retain top quality executives, by offering executives compensation in the event their employment is involuntarily terminated without defined cause or as a result of a merger or other change in control transaction.

These primary components and their amounts for each of the Redhook executives are intended to be fair in relation to compensation received by other executives at similarly sized public and private companies and to reward Redhook's executives for performance.

Role of the Redhook Compensation Committee, Management and External Compensation Consultants

The Committee has the ultimate authority to determine matters of compensation for Redhook's senior management, and is responsible for establishing annual compensation for Redhook's senior management, setting Redhook's policies with respect to stock options and stock grants granted to employees under Redhook's incentive plans, and for determining the size and terms of grants made to Redhook's executive officers and employees. In setting compensation amounts, the Committee relies upon recommendations from Redhook's Chief Executive Officer and President and Chief Operating Officer with respect to compensation involving other executive officers and with respect to stock options and other stock grants to employees. Additionally, the Committee takes into account reports from the Chief Executive Officer regarding whether payment targets for incentive awards were met. However, no executive officer participates directly in establishing the amount of any component of his own compensation package.

In addition, the Committee has solicited input from the Committee's independent executive compensation consultant, MBL Group, LLC, ("MBL"). The Committee recognizes that executive compensation consultants can play an important and valuable role in the executive compensation process. Therefore, in 2004, and again in 2007, the Committee retained MBL to advise it on executive compensation matters, including advice on base salary levels and incentive programs. MBL looked at a variety of sources to determine the competitive compensation range for Redhook's CEO and other executive officers. These included formal executive salary surveys, data from several Redhook competitors, and data from selected MBL manufacturing clients who produce and sell retail products. MBL focused on manufacturing companies that were similar in size to Redhook and, where appropriate, located in the western half of the U.S. Their analysis included both publicly traded and privately held companies. The Committee believes that the MBL reports are an important point of reference for the Committee in measuring and setting executive compensation. The Committee relies on the reports from MBL to ensure that Redhook's compensation levels are comparable to compensation levels at other publicly-traded companies in similar industries. The Committee does not, however, directly examine the compensation paid to executives at specific peer companies in setting executive compensation.

Compensation Analysis

In determining executive compensation, the committee analyzes the following factors:

Redhook's performance relative to goals set forth by the Board of Directors at the beginning of the year and in comparison to past years;

MBL reports from 2004 and 2007 setting out data points for executive compensation, which included comparisons to similarly-situated executives at peer companies;

individual performance by each executive officer; and

historical compensation for each executive officer.

Determining the Amount and Mix of Compensation

In determining both the amount and mix of compensation, the Committee, after reviewing reports from MBL, compared each executive's pay to market data for that named executive's position and set compensation levels for salary, bonus and long-term compensation at levels around the 50th percentile of such market data for each position. Additionally, the Committee believes that incentive pay should be significant enough to

Table of Contents

properly reward the executives if the company met certain financial and operational objectives, therefore, it is the policy of the Committee that approximately 10% to 30% of the total compensation package should be at risk in order to motivate the executives to achieve financial and operational objectives set by the board. The Committee does not have a pre-established policy for allocating between either cash and non-cash or short-term or long-term compensation. However, as discussed below, since 2003, the Committee has not awarded stock options to its executive officers, and only added back a long-term incentive component to its executive compensation structure in 2007. Future awards of stock based compensation may be limited by the amount of shares available for grant under Redhook's stock incentive plans.

Redhook's compensation program is designed to balance the need to provide Redhook executives with incentives to achieve short-and long-term performance goals with the need to pay competitive base salaries. The Committee considers the amount of prior salary increases, performance of the executive, and the financial goals of the company in determining the mix of base salary and performance based compensation. For 2007, the allocation of compensation between base salary, estimated target performance bonus, estimated discretionary bonus and estimated long-term compensation for Redhook's named executives was as follows:

	Paul S. Shipman	David J. Mickelson	Jay T. Caldwell	Gerard C. Prial(1)	Allen L. Triplett(1)
Base Salary	59%	68%	83%	87%	87%
Est. Performance Bonus	22%	17%	0%	0%	0%
Est. Discretionary Bonus	4%	3%	17%	13%	13%
Est. Long-Term Incentive	15%	12%	0%	0%	0%

(1) Mr. Prial and Mr. Triplett resigned as executive officers of Redhook in February 2008.

Base Salaries. Base salaries for all executives, including the Chief Executive Officer, are set by the Committee using the MBL reports as a guideline and after a review of job responsibilities and individual contributions over the past year. The principal factors considered in decisions to adjust base salary are Redhook's recent and projected financial performance, individual performance measured against pre-established goals and objectives and changes in compensation in Redhook's general industry. The ultimate split between base salary and performance incentives in 2007 reflected the desire of the Committee to improve the cash flow of the company, as well as achieve certain strategic goals.

For 2007, base salary for Mr. Shipman, Chief Executive Officer, increased by 4%, compared to his base salary in 2006. Aggregate base salaries for Messrs. Mickelson, Prial and Triplett increased by 4% in 2007 as compared to 2006. The modest increases approved by the Committee for 2007 were cost-of-living increases. In 2007, Mr. Caldwell's base salary was increased from \$110,000 to \$125,000 in connection with his appointment to serve as the Chief Financial Officer and Treasurer.

Base salaries are reviewed by the Committee during the first quarter of each year and increases typically take effect in April or May of the same year. Base salaries are also reviewed at the time of a promotion or other changes in responsibilities. Mr. Caldwell's base salary was increased to \$180,000 effective October 1, 2007 to recognize the crucial role Mr. Caldwell would play in the closing of the proposed merger with Widmer, and for his continuing efforts in bringing together the accounting and finance functions of the two companies.

Performance Based Incentive Payments and Bonuses. Incentive payments and bonuses are based on the accomplishments of the executive team, Redhook's results relative to financial and operational objectives set at the beginning of the year, and other relevant and significant accomplishments of the company as a whole. Target bonus amounts have been established for each executive officer per the terms of such officers' agreement regarding employment and include both a discretionary bonus and nondiscretionary component. In determining what these performance based incentive payments and bonus payments should be, the Committee examined the historical relationship between salary and incentive pay for the Redhook executives to gain some perspective. The incentive pay had to be significant enough to properly reward the executives if the company met certain financial and operational objectives. It was agreed by the Committee that approximately 10% to

Table of Contents

30% of the total compensation package should be at risk in order to motivate the executives to achieve these financial and operational objectives.

The incentive pay awards are divided into discretionary and nondiscretionary portions.

Bonus (Discretionary) Awards: Discretionary incentives reward specific financial and operational goals achieved. Some examples of specific goals tied to a discretionary incentive award might be an increase in focus on brand management or the development of new business. In setting and awarding these discretionary bonuses, the Committee focuses on more long-term, strategic objectives in order to obtain new sources of revenue and to manage brands in different ways. The Committee has discretion to increase or decrease the award, regardless of whether financial and operational goals are achieved.

For 2007, the Committee established the operational goals of (i) developing new business, (ii) managing brands to maturity and (iii) maximizing shareholder value. The target (maximum) bonus amounts for 2007 for which each executive was eligible were as follows: Mr. Shipman, \$20,000, Mr. Mickelson, \$10,000, Mr. Caldwell, \$27,750, Mr. Prial, \$25,000 and Mr. Triplett, \$25,000.

Performance Based (Nondiscretionary) Awards: The nondiscretionary incentive component is paid to the executive if the company achieves certain performance targets set forth by the Committee. The Committee sets the incentive targets for the executive officers at the beginning of each fiscal year. Incentive targets usually relate to increasing revenues and cash flows in the short-term in order to lay a stronger foundation for long-term growth. Nondiscretionary awards have historically been limited to the CEO and the President.

The incentive targets for 2007 were as follows:

Earnings before interest, taxes and depreciation and amortization (EBITDA) greater than or equal to budgeted EBITDA of \$4,252,000 (weighted at 50% of the total nondiscretionary award),

Sales growth of 4% or greater for the Washington Brewery and Forecasters Public House over the prior year (weighted at 25% of the total nondiscretionary award), and

EBITDA growth of 4% or greater for the New Hampshire Brewery and Cataqua Public House over the prior year (weighted at 25% of the total nondiscretionary award).

The target (maximum) amounts to be awarded for achieving these performance targets for 2007 were: Mr. Shipman, \$100,000, Mr. Mickelson, \$50,000.

2007 Awards. In 2007, Mr. Shipman and Mr. Mickelson were awarded nondiscretionary performance bonuses of \$25,000 and \$12,500, respectively, as a result of achieving sales growth of greater than 4% at the Washington Brewery. The Committee believes it would have been relatively difficult for these executives to earn the target bonuses established in 2007, which were four times as much as the bonuses actually paid. The Committee also awarded discretionary bonuses of \$10,000 and \$5,000 bonus to Mr. Shipman and Mr. Mickelson, respectively, for their success in meeting the brand management targets established for Redhook ESB and Long Hammer IPA. Upon the recommendation of the CEO and the President, the Committee awarded Mr. Caldwell a discretionary bonus of \$27,000 in consideration for his extra efforts associated with the planned merger with Widmer and in bringing together the finance and accounting functions at the two companies. Mr. Prial was awarded a discretionary bonus of \$20,000 in consideration for his assistance with the transition to a new sales force on the east coast in anticipation of the merger.

Table of Contents

A summary of the incentive payments awarded to Redhook's executive officers for 2007 performance is set forth below:

Named Executive Officer	Target Performance Award	Target Discretionary Bonus	Performance Award Received	Discretionary Bonus Received	Total Awarded
Paul S. Shipman	\$ 100,000	\$ 20,000	\$ 25,000	\$ 10,000	\$ 35,000
David J. Mickelson	50,000	10,000	12,500	5,000	\$ 17,500
Jay T. Caldwell		27,750		27,000	\$ 27,000
Gerard C. Prial		25,000		20,000	\$ 20,000
Allen L. Triplett		25,000			\$

The Committee has set the following performance incentive targets for its executive officers for 2008:

	Incentive Target	Amount
Paul S. Shipman, <i>Chief Executive Officer</i>	Delivering the Company in good financial condition at closing of merger with Widmer	Up to 10% of base salary paid to date of merger
	Closing of merger with Widmer	Up to 10% of base salary paid to date of merger
David J. Mickelson, <i>President and Chief Operating Officer</i>	Delivering the Company in good financial condition at closing of merger with Widmer	Up to 10% of base salary paid to date of merger
	Closing of merger with Widmer	Up to 10% of base salary paid to date of merger
	EBITDA greater than or equal to budgeted EBITDA	10% of base salary
	Demonstrating leadership during the first half of 2008 during the merger negotiations with Widmer	10% of base salary
	Successfully directing the search and hiring of a controller and a CFO for the combined company	\$20,000
Jay T. Caldwell, <i>Chief Financial Officer and Treasurer</i>	Delivering the Company in good financial condition at closing of merger with Widmer	Up to 10% of base salary paid to date of merger
	Closing of merger with Widmer	Up to 10% of base salary paid to date of merger

All of the above listed incentive awards are discretionary. Achievement of these performance goals is dependent on the closing of the merger with Widmer. The Committee felt that for 2008 it was important to incentivize its executive team to keep Redhook in good financial condition while at the same time focusing the team on the successful closing of the merger with Widmer. While there can be no assurance that the proposed merger with Widmer will occur, the Committee believes that the likelihood that these incentive payments will be made in 2008 is high.

Long-Term Incentives. Prior to 2003, Redhook provided long-term incentives to executives through the grant of stock options. The options generally vested over five years and had an exercise price equal to the fair market value of Redhook's stock at the time of the grant, with the number of options awarded based on the executive's position. Since fair market value stock options can only produce value to an executive if the price of Redhook's stock increases above the exercise price, these option grants provided a direct link between executive compensation and Redhook's stock price performance. The Committee believed that stock options directly motivated an executive to maximize long-term shareholder value. The options were also utilized, through the option's vesting terms, to encourage key executives to continue in the employment of the company. Options were granted under Redhook's 1992 Stock Incentive Plan and 2002 Stock Option Plan. In

Table of Contents

2003, the Committee decided to stop awarding option grants to its executive officers. The Committee determined that the level of total pay, and the split between base salary and incentive payments, was sufficient to compensate its executives as compared with the compensation paid to executives of comparably sized and similarly situated craft beer companies and other similarly sized public companies. The Committee further felt that the number of vested stock options already held by executive officers and their direct ownership of company stock was sufficient to foster the long-term perspective necessary to ensure that the executive team stays properly focused on shareholder value. In addition, the Committee's decision to stop the option program was based on a recommendation by management to the Committee that the granting of new stock options should be discontinued because the legal and accounting cost related to any new option grants was not deemed to be worth the investment.

In 2007, the Committee determined that adding back a long-term incentive component to Redhook's executive compensation plan was appropriate. The Committee believes that granting long-term incentives, such as restricted stock and performance units, will focus its executives on taking steps that they believe are necessary to ensure the long-term success of the company, as reflected in increases to Redhook's stock prices over a period of several years, growth in its earnings per share and other elements. The Committee determines actual award levels based on its review of individual performance, the amount of past rewards granted to an executive, and any change in responsibility.

In March 2007, the Committee granted a bonus of 10,000 shares of common stock to Mr. Shipman, and 5,000 shares of common stock to Mr. Mickelson under Redhook's 2007 Stock Incentive Plan. The grant was made to reward the executives for achievement of their performance goal of increasing EBITDA at least 32% year over year, and to provide an incentive for continued focus on revenue growth and growth in Redhook's earnings per share.

No stock awards were granted to Redhook's executive officers in 2008 for 2007 performance. The Committee felt, given the proposed merger with Widmer and the changes in Redhook's executive team that will result from the merger, long-term incentive payments were not necessary at this time. The Committee anticipates that the executive compensation packages offered to the new executive officers of the combined company will include an appropriate long-term incentive component.

The Committee has no policy, plan or practice regarding timing long-term incentive grants to executives, and does not time its grants or its release of material non-public information for the purpose of affecting the value of executive compensation.

Severance and Change of Control Arrangements. The current employment agreements with Redhook's executive officers contain provisions for severance payments in the event an officer's employment is involuntarily terminated without defined cause. The terms of each employment agreement was set through the course of arms-length negotiations with each of the named executive officers, and each employment agreement (other than Mr. Mickelson's employment agreement) was re-negotiated in 2007 or the first quarter of 2008 in anticipation of the proposed merger with Widmer. In entering into these agreements, the Committee wished to ensure that Redhook would have the continued dedication of its executive team and the availability of their advice and counsel, notwithstanding the uncertainty which would surround such executive's employment when faced with the possibility of the merger transaction. The Committee believes their severance arrangements are comparable with severance arrangements offered to executives at similarly-situated companies.

Generally, in the event of termination of employment, each officer is entitled to severance equal to one month of base salary for each year of the officer's service with the company, capped at a severance payment equal to 24 months of base salary. The officer is additionally entitled to be reimbursed for COBRA premiums to maintain the same health benefits provided to the officer for the term of the severance period paid by the company, not to exceed 18 months. The specific terms of these arrangements, including an estimate of compensation that would have been payable if they

had been triggered at December 31, 2007 are described in detail under Employment Arrangements; Severance and Change of Control Arrangements below.

Table of Contents

Other Policies and Considerations:

Benefits. Redhook offers employee benefits coverage in order to provide employees with a reasonable level of financial support in the event of illness or injury, and to enhance productivity and job satisfaction through programs that focus on work/life balance. The benefits available are the same for all employees and executive officers and include medical and dental coverage, disability insurance, and life insurance. In addition, the company has a 401(k) plan, which includes a company match, as described further in *Other Compensation* below. All employees who meet certain plan eligibility requirements, including executive officers, are eligible to participate in these plans. The cost of employee benefits is partially borne by the employee, including each executive officer.

Perquisites. Redhook does not provide significant perquisites or personal benefits to executive officers. Executive officers are entitled to receive a car allowance of \$850 per month. Additionally, all employees of Redhook, including executive officers, are entitled to receive a substantial discount on purchases made at any of Redhook's pub operations.

Other Compensation. Redhook's 401(k) plan currently provides for the company to match eligible participants contributions dollar-for-dollar up to 4% of the employee's gross earnings. Redhook's match is discretionary and determined annually. In order to be eligible for a matching contribution in any particular year, a participant must be an employee on the last day of that year and must have worked at least 1,000 hours during that year. All company matching contributions vest as follows: (i) 20% after one Year of Service (a Year of Service is one in which the employee worked at least 1,000 hours) and (ii) an additional 20% vests for each additional Year of Service completed. Executive officers are permitted to participate in Redhook's matching program.

Redhook made the following matching contributions to executive officers under its 401(k) plan for 2007 service: Mr. Shipman, \$9,000; Mr. Mickelson, \$9,000; Mr. Triplett, \$7,869; Mr. Prial, \$7,869 and Mr. Caldwell, \$5,758.

Redhook Compensation Committee Report

The compensation committee, comprised of independent directors, has reviewed and discussed the above Compensation Discussion and Analysis, (CD&A), with Redhook's management. Based on the review and discussions, the compensation committee recommended to Redhook's board of directors that the CD&A be included in this joint proxy statement/prospectus.

Table of Contents**Summary Compensation Table**

The following table sets forth information regarding compensation earned during Redhook's fiscal years ended December 31, 2007, 2006 and 2005 (a) by the Chief Executive Officer, (b) by the Chief Financial Officer and (c) by the three other most highly compensated executive officers for the fiscal year ended December 31, 2007. The individuals included in the table will be collectively referred to as the named executive officers.

Name of Executive Officer	Year	Salary	Bonus(1)	Stock Awards(2)	Option Awards(2)	Non-Equity Incentive Compensation(3)	Change in Pension Value and Nonqualified Deferred Compensation(4)	All Other Compensation(4)	Total
Paul S. Shipman <i>Chief Executive Officer and Chairman of the Board</i>	2007	\$ 267,800	\$ 10,000	\$ 70,000	\$	\$ 25,000	\$	\$ 56,892	\$ 429,692
	2006	257,500	8,000			100,000		19,000	384,500
David J. Mickelson <i>President and Chief Operating Officer</i>	2007	\$ 199,243	\$ 5,000	\$ 35,000	\$	\$ 12,500	\$	\$ 38,046	\$ 289,789
	2006	191,580	4,000			50,000		18,404	263,984
Jay T. Caldwell(5) <i>Chief Financial Officer and Treasurer</i>	2007	\$ 138,750	\$ 27,000	\$	\$	\$	\$	\$ 15,958	\$ 181,708
	2006	53,778	10,000						63,778
Gerard C. Prial(6) <i>Vice President, Sales and Eastern Operations</i>	2007	\$ 171,990	\$ 20,000	\$	\$	\$	\$	\$ 18,069	\$ 210,059
	2006	165,375	25,000					17,215	207,590
Allen L. Triplett(6) <i>Vice President, Brewing</i>	2007	\$ 171,990	\$	\$	\$	\$	\$	\$ 18,069	\$ 190,059
	2006	165,375	25,000					17,215	207,590

(1) Represents bonuses awarded at the discretion of the Compensation Committee.

(2) Represents compensation expense recognized in 2007 for financial reporting purposes under Statement of Financial Accounting Standards No. 123(R). Stock awards for 2007 were granted upon shareholder approval of the Redhook 2007 Stock Incentive Plan at the 2007 Annual Meeting of Shareholders, and represent awards for 2006 performance. No stock awards were granted in 2007 or 2008 for 2007 performance.

(3) Represents performance based incentive awards. Performance based incentive awards earned in a fiscal year are paid in the following fiscal year, after confirmation that performance goals were met.

(4) Amounts shown for 2007 represent a car allowance of \$10,200 and 401(k) employer matching contributions for each officer. Also includes cash compensation of \$37,692 and \$18,846 paid to Messrs. Shipman and Mickelson, respectively, to approximate the federal income tax obligation resulting from the stock award.

(5) Mr. Caldwell joined Redhook as Controller in July 2006 and was appointed Chief Financial Officer and Treasurer in March 2007.

(6) Mr. Prial and Mr. Triplett resigned as executive officers of Redhook in February 2008.

Grants of Plan-Based Awards for Fiscal Year 2007

Name	Grant Date	Estimated Future Payments under Non-Equity Incentive Plan Awards			All Other Stock Awards Number of Shares of Stock (#)(3)		Grant Date Fair Value of Stock Awards
		Threshold(1)	Target(1)(2)	Maximum(2)			
Paul S. Shipman	May 22, 2007	\$ 25,000	\$ 100,000	\$ 100,000	10,000	\$ 70,000	
David J. Mickelson	May 22, 2007	\$ 12,500	\$ 50,000	\$ 50,000	5,000	\$ 35,000	

(1) The Compensation Committee of the Board of Directors sets target payouts for Redhook's Chief Executive Officer and President and COO at the beginning of the fiscal year. For 2007, the Committee chose three specific performance criteria, for which fixed amounts were payable if the specific performance criteria were achieved by the executive officer. Payment for the achievement of one performance criteria was not

Table of Contents

dependent on the success of the executive in meeting the other criteria. Therefore, the threshold number in the table above represents the minimum amount the executive officer could receive if only one specific performance criteria was met.

- (2) The Target and Maximum column above represent total payout if all three specific performance criteria are met. Actual award payments are reflected in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.
- (3) Represents stock grants awarded under Redhook's 2007 Stock Incentive Plan. The shares were fully vested upon grant. Cash compensation paid to Messrs. Shipman and Mickelson to approximate the federal income tax obligation resulting on the stock award is reflected in the All Other Compensation column of the Summary Compensation Table.

Outstanding Equity Awards Value at Fiscal Year End

The following table shows information concerning the number and value of unexercised options held by the named executive officers on December 31, 2007.

Name of Executive Officer	Number of Securities Underlying Unexercised Options Exercisable (#)	Number of Securities Underlying Unexercised Options Unexercisable (#)	Option Exercise Price	Option Expiration Date
Paul S. Shipman	49,250		\$ 3.97	May 20, 2009
	76,500		\$ 1.87	August 3, 2011
David J. Mickelson		30,000	\$ 2.02	August 27, 2012
	29,500		\$ 3.97	May 20, 2009
	76,500		\$ 1.87	August 3, 2011
		27,500	\$ 2.02	August 27, 2012
Jay T. Caldwell	19,750		\$ 3.97	May 20, 2009
Gerard C. Prial	76,500		\$ 1.87	August 3, 2011
		27,500	\$ 2.02	August 27, 2012
	19,750		\$ 3.97	May 20, 2009
Allen L. Triplett	76,500		\$ 1.87	August 3, 2011
		27,500	\$ 2.02	August 27, 2012
		19,750	\$ 3.97	May 20, 2009

Option Exercises and Stock Vested. No stock options were exercised by the named executive officers during Redhook's fiscal year ended December 31, 2007. On November 29, 2005 the board of directors of Redhook approved an acceleration of vesting of all of Redhook's unvested stock options, including those held by executive officers, (the Acceleration). The Acceleration was effective for stock options outstanding as of December 30, 2005. These options were granted under Redhook's 1992 Stock Incentive Plan and 2002 Stock Option Plan. As a result of the Acceleration,

options to acquire approximately 136,000 shares of Redhook's common stock, or 17% of total outstanding options, became exercisable on December 31, 2005. Of the options that were subject to the Acceleration, options to acquire approximately 106,200 shares of Redhook's common stock were held by executive officers, as follows:

Executive Officer	Number of Options	Exercise Price	Original Vesting Date
Paul S. Shipman	15,300	\$ 1.87	August 2006
	12,000	\$ 2.02	August 2006 and August 2007
David J. Mickelson	15,300	\$ 1.87	August 2006
	11,000	\$ 2.02	August 2006 and August 2007
Gerard C. Prial	15,300	\$ 1.87	August 2006
	11,000	\$ 2.02	August 2006 and August 2007
Allen L. Triplett	15,300	\$ 1.87	August 2006
	11,000	\$ 2.02	August 2006 and August 2007

Table of Contents

Employment Arrangements; Severance and Change of Control Arrangements

Employment Agreements

Each of Messrs. Shipman, Mickelson, Caldwell, Prial and Triplett has executed a letter of agreement with Redhook regarding employment. Under their letter of agreement, each executive officer is provided with an annual compensation plan under which they receive a specified minimum base compensation plus the opportunity to earn bonus amounts depending on attainment of various performance goals.

In June 2005, Redhook executed a letter of agreement with Mr. Shipman regarding employment. The agreement became effective on August 1, 2005 following the July 2005 expiration of the previous employment agreement. The letter of agreement provided for a minimum base salary of \$250,000, subject to annual review by the compensation committee, and stipulates that Mr. Shipman is an at-will employee. Mr. Shipman's current base salary under this agreement is \$267,800 per year. Under the agreement, Mr. Shipman is eligible for a yearly bonus, of which 50% is discretionary and 50% is to be paid upon achieving certain targets per terms set forth by, and as approved by, the Compensation Committee or the Board. Mr. Shipman's target bonus for 2007 was \$100,000 and the Compensation Committee awarded Mr. Shipman a bonus of \$35,000, \$10,000 of which was discretionary. Mr. Shipman is also entitled to severance payments under the agreement in the event his employment is terminated by Redhook for any reason, other than for cause, including upon termination of his employment in connection with the merger. For additional information about severance, see [Severance and change of control arrangements](#) and the table entitled [Table of Severance Payments and Benefits](#) below.

In June 2005, Redhook executed a letter of agreement with Mr. Mickelson regarding employment. The agreement became effective on August 1, 2005 following the July 2005 expiration of the previous employment agreement. The letter of agreement provided for a minimum base salary of \$186,000, subject to annual review by the compensation committee, and stipulates that Mr. Mickelson is an at-will employee. Mr. Mickelson's current base salary under this agreement is \$199,243 per year. Under the agreement, Mr. Mickelson is eligible for a yearly bonus, of which 50% is discretionary and 50% is to be paid upon achieving certain targets per terms set forth by, and as approved by, the Compensation Committee or the Board. Mr. Mickelson's target bonus for 2007 was \$50,000 and the Compensation Committee awarded Mr. Mickelson a bonus of \$17,500, \$5,000 of which was discretionary. Mr. Mickelson is also entitled to severance payments under the agreement in the event his employment is terminated by Redhook for any reason, other than for cause, including upon termination of his employment in connection with the merger. For additional information about severance, see [Severance and change of control arrangements](#) and the table entitled [Table of Severance Payments and Benefits](#) below.

On December 7, 2007, Redhook executed a letter of agreement with Mr. Caldwell regarding employment. The letter of agreement provided for a minimum base salary of \$180,000, retroactive to October 1, 2007, subject to annual review by the compensation committee. Under the agreement, Mr. Caldwell will be eligible for a yearly bonus equal to 20% of base salary, to be paid in the discretion of the compensation committee or the board. Mr. Caldwell's target bonus for 2007 was \$27,750 and the compensation committee awarded Mr. Caldwell a bonus of \$27,000, all of which was discretionary. The letter of agreement also anticipated that Mr. Caldwell would remain in the employ of the Company to assist with the proposed merger through June 30, 2008, and later extended this date by mutual agreement to August 15, 2008. In the event that Redhook requires assistance past June 30, 2008, Redhook will pay Mr. Caldwell \$20,000.00 per month for his service. Mr. Caldwell is also entitled to severance payments under the agreement in the event his employment is terminated by Redhook for any reason, other than for cause, including upon termination of his employment in connection with the merger. For additional information about severance, see [Severance and change of control arrangements](#) and the table entitled [Table of Severance Payments and Benefits](#) below.

The Company also executed letters of agreement regarding employment with Messrs. Prial and Triplett that were in effect for the fiscal year ended December 31, 2007. The letters of agreement provide the officers with the following minimum base salaries: Mr. Prial \$171,990; and Mr. Triplett \$171,990. Messrs. Prial and Triplett were also eligible for a yearly bonus, all of which was to be paid in the discretion of the compensation committee or the board. The 2007 target bonuses established for each of Messrs. Prial and Triplett were \$25,000 and the Compensation Committee awarded Mr. Prial \$20,000 and Mr. Triplett \$0.

Table of Contents

On February 12, 2008 Redhook executed a revised letter of agreement with Mr. Prial regarding employment, in connection with Mr. Prial's resignation as Vice President, Sales and Eastern Operations of the Company. The letter of agreement provided for the continuation of Mr. Prial's annual base salary of \$171,990, subject to annual review by the compensation committee. Under the agreement, Mr. Prial is eligible for a yearly bonus equal to 20% of base salary, to be paid in the discretion of the compensation committee or the board. The letter of agreement anticipated that Mr. Prial would remain as an employee of Redhook to assist with the proposed merger through August 31, 2008. Mr. Prial is also entitled to severance payments under the agreement in the event his employment is terminated by Redhook for any reason, other than for cause, including upon termination of his employment in connection with the merger. For additional information about severance, see *Severance and change of control arrangements* and the table entitled *Table of Severance Payments and Benefits* below.

On February 25, 2008, Redhook executed a revised letter of agreement with Mr. Triplett regarding employment, in connection with Mr. Triplett's resignation as Vice President, Brewing of the Company. The letter of agreement provided for the continuation of Mr. Triplett's annual base salary of \$171,990, subject to annual review by the compensation committee. The letter of agreement anticipated that Mr. Triplett would remain as an employee of Redhook to assist with the proposed merger through June 30, 2008. Mr. Triplett is also entitled to severance payments under the agreement in the event his employment is terminated by Redhook for any reason, other than for cause, including upon termination of his employment in connection with the merger. For additional information about severance, see *Severance and change of control arrangements* and the table entitled *Table of Severance Payments and Benefits* below.

Severance and change of control arrangements

Each of Messrs. Shipman, Mickelson, Caldwell, Prial and Triplett has executed a letter of agreement with Redhook regarding employment, which agreements provide for certain payments if the officer is terminated by Redhook for any reason, other than for cause, including termination that results from proposed merger with Widmer. In general, in the event that an officer's employment is terminated by Redhook other than for cause, the officer is entitled to severance equal to one month of base salary for each year of such officer's service, plus accrued vacation and sick pay, capped at a severance payment equal to 24 months of base salary. Severance is to be paid in accordance with Redhook's standard payroll policies then in effect. Additionally, the officer is entitled to be reimbursed for COBRA premiums to maintain the same health benefits provided to the officer, then in place, for the term of the severance period paid by the company or until the officer finds new employment with comparable health care coverage, not to exceed 18 months.

Mr. Mickelson's letter of agreement regarding employment provides for severance equal to twenty-one months base salary, plus accrued vacation and sick pay, and reimbursement of COBRA premiums for eighteen months or until Mr. Mickelson finds new employment with comparable health care coverage. This severance policy is subject to revision at any time by the Board of Directors upon six months written notice.

Mr. Caldwell's letter of agreement regarding employment provides for a lump-sum severance payment equal to twelve months base salary, plus accrued vacation and sick pay, and reimbursement of COBRA premiums for twelve months or until Mr. Caldwell finds new employment with comparable health care coverage. Payment of severance is subject to Mr. Caldwell signing a release in a form satisfactory to the company. The release will also include a non-competition component for employment in the craft beer brewing business for six months post employment. Redhook expects to pay the severance amounts to Mr. Caldwell on or before August 15, 2008 in connection with the merger with Widmer.

Mr. Prial's letter of agreement regarding employment provides for a lump-sum severance payment equal to sixteen months base salary, plus accrued vacation and sick pay, and reimbursement of COBRA premiums for sixteen months or until Mr. Prial finds new employment with comparable health care coverage. Payment of severance is subject to

Mr. Prial signing a separation and release agreement in a form satisfactory to the company. The release will also include a non-competition component for employment in the craft beer brewing business for twelve months post employment. Redhook expects to pay the severance amounts to Mr. Prial on or before August 31, 2008 in connection with the merger with Widmer.

Table of Contents

Mr. Triplett's letter of agreement regarding employment provides for a lump-sum severance payment equal to twenty-three months base salary, plus accrued vacation and sick pay, and reimbursement of COBRA premiums for eighteen months or until Mr. Triplett finds new employment with comparable health care coverage. Payment of severance is subject to Mr. Triplett signing a separation and release agreement in a form satisfactory to the company. The release will also include a non-competition component for employment in the craft beer brewing business for twelve months post employment. Redhook expects to pay the severance amounts to Mr. Triplett on or before June 30, 2008 in connection with the merger with Widmer.

Mr. Shipman has executed an amended and restated employment agreement dated February 13, 2008, which is effective as of the effective date of the merger with Widmer. Under this employment agreement, Mr. Shipman's employment as Chief Executive Officer of Redhook will terminate as of the effective date of the merger, and on such date Mr. Shipman will be entitled to receive all salary and bonuses due under his current letter of agreement with Redhook. On the one year anniversary of the effective date of the merger with Widmer, Mr. Shipman will be entitled to receive a severance payment equal to two additional years of his current base salary, which is \$267,800, plus any accrued vacation and sick leave. The severance payment shall be paid in accordance with Redhook's standard payroll policies then in effect. In addition, Mr. Shipman will be entitled to be reimbursed for COBRA premiums to maintain the same health benefits under Redhook's health care plans for a period of 18 months, or until Mr. Shipman finds new employment with comparable health care coverage. The agreement requires execution of a general release of claims against the company as a condition to payment of severance, and, unless the company materially breaches the agreement or is declared bankrupt or insolvent, also prohibits Mr. Shipman from participating in any other business which brews, packages, markets or distributes craft alcoholic malt beverages in the continental U.S. or any foreign country where Redhook brews, packages, markets or distributes its products. The non-compete does not apply to providing consulting services in the Canadian market to Canadian business entities.

For purposes of Redhook's severance arrangements, "for cause" is generally defined as: (i) conduct which, if the officer were to remain employed by Redhook, would substantially and adversely impair the interests of Redhook, (ii) fraud, dishonesty or self-dealing relating to or arising out of his employment with Redhook, (iii) the violation of any criminal law relating to his employment or to Redhook, (iv) material failure to perform required duties, or the repeated refusal to obey lawful directions of Redhook's Board of Directors, or (v) a material breach of the officer's employment agreement.

The following table describes the potential payments and benefits under Redhook's compensation and benefit plans and arrangements to which the named executive officers would have been entitled upon termination of employment other than "for cause," assuming the termination had taken place as of December 31, 2007. The actual amounts to be paid out can only be determined at the time of such executive's separation from the company, and such amounts may be subject to re-negotiation at the time of actual termination. The information presented in this table assumes that the current terms of the employment agreements with Messrs. Shipman, Caldwell, Prial and Triplett were in effect as of the end of Redhook's fiscal year ended December 31, 2007. However, with the exception of severance payable to Mr. Caldwell, the amount of severance payable to Redhook's executive officers under their original letters of agreement are the same amount as the amounts shown below.

Table of Severance and Benefits

Years of	Monthly Base	Cash	Continuation of		Value of	
			Medical/Welfare	Pro-rata Bonus	Unexercised Stock	Total Potential

Named Executive	Service	Salary	Severance(6)	Benefits	Payments(7)	Options(8)	Payments
Paul S. Shipman	26(1)	\$ 22,317	\$ 605,784	\$ 17,008	\$ 53,560	\$ 637,022	\$ 1,313,374
David J. Mickelson	21(2)	16,604	393,393	17,008	99,697	572,495	1,082,593
Jay T. Caldwell	2(3)	15,000	194,693	8,310	36,000		239,003
Gerard C. Prial	16(4)	14,333	263,622	15,118	34,398	546,355	859,493
Allen L. Triplett	23(5)	14,333	349,395	5,941	34,398	546,355	936,089

Table of Contents

- (1) Mr. Shipman's employment agreement provides for severance of \$267,800 per year for two years, plus Mr. Shipman will also be paid for any vacation and sick leave that accrues during the term but is not used, plus reimbursement of COBRA premiums for up to eighteen months.
- (2) Mr. Mickelson's letter of employment provides for severance equal to one month of base salary for each year of service with the company, capped at a severance payment equal to twenty-four months of base salary, plus reimbursement of COBRA premiums for the term of the severance period, not to exceed eighteen months.
- (3) Mr. Caldwell's letter of employment provides for severance equal to twelve months base salary, plus reimbursement of COBRA premiums for the severance period. Prior to the execution of his letter of employment in December 2007, Mr. Caldwell served without an employment agreement. Therefore, if his employment had terminated prior to that date, he would not have been entitled to severance.
- (4) Mr. Prial's letter of employment provides for severance equal to sixteen months base salary, plus reimbursement of COBRA premiums for the severance period.
- (5) Mr. Triplett's letter of employment provides for severance equal to twenty-three months base salary, plus reimbursement of COBRA premiums for up to eighteen months.
- (6) Includes value of accrued but unpaid vacation and sick leave as of December 31, 2007.
- (7) Assumes performance targets for the executive set forth by the Compensation Committee were met.
- (8) Represents the number of unexercised stock options held by the executive, multiplied by \$6.65, the closing price of the Company's common stock on December 31, 2007, less the aggregate exercise price of the stock options. All outstanding stock options held by the Company's executive officers are fully vested and exercisable.

Redhook Director Compensation

Non-employee directors of Redhook are currently entitled to receive both stock-based and cash compensation for their service on the Redhook board:

Stock-based Compensation:

Each non-employee Redhook director, other than A-B designated directors, is entitled to receive a grant of 3,500 shares of Redhook common stock upon his/her election to the board of directors at the annual meeting of shareholders. In lieu of receiving 3,500 shares of Redhook common stock, directors may elect to receive a lesser number of shares plus a cash payment equal to the taxes to be paid on his/her stock grant.

Cash Compensation:

Each non-employee Redhook director is entitled to receive annual compensation of \$10,000, which will be paid quarterly.

The chairs of each of the Redhook nominating and governance, audit, marketing and compensation committees are entitled to receive additional annual compensation of \$4,000, which will be paid following the Redhook annual meeting of shareholders.

Redhook audit committee members are each entitled to receive an additional annual payment of \$1,000, which will be paid following the Redhook annual meeting of shareholders.

Members of the Redhook corporate strategy committee are entitled to receive, for service through March 31, 2008, compensation of \$7,500 per quarter. The chair of the corporate strategy committee is also entitled to receive an additional quarterly payment of \$2,500 for service through March 31, 2008.

Redhook's Chief Executive Officer, Mr. Shipman, does not receive any additional compensation for his service as a director.

Table of Contents

The following table sets forth certain information regarding the compensation earned by or awarded to each non-employee director who served on Redhook's board of directors in 2007.

Name	Fees Earned or Paid in Cash	Stock Awards(1)	Option Awards	Total
Frank H. Clement	\$ 53,400	\$ 16,100	\$	\$ 69,500
John W. Glick	\$ 10,000	\$	\$	\$ 10,000
David R. Lord	\$ 52,400	\$ 16,100	\$	\$ 68,500
Michael Loughran	\$ 63,400	\$ 16,100	\$	\$ 79,500
John D. Rogers, Jr.	\$ 53,400	\$ 16,100	\$	\$ 69,500
Anthony J. Short	\$ 10,000	\$	\$	\$ 10,000

(1) On May 22, 2007, Messrs. Clement, Lord, Loughran and Rogers were each granted 2,300 shares of fully-vested Redhook common stock and a cash payment of \$8,400. The fair value of each stock grant was computed in accordance with FASB SFAS No. 123R, *Share-Based Payment*.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters**Securities Authorized for Issuance Under Equity Compensation Plans**

The following is a summary as of December 31, 2007 of all equity compensation plans of the Company that provide for the issuance of equity securities as compensation. See Note 8 to the Financial Statements - Common Stockholders Equity for additional discussion.

Plan Category	Number to be Issued Upon Exercise of Outstanding Options and Rights (a)	Weighted Average Exercise Price of Outstanding Options and Rights (b)	Number of Securities Remaining Available for Future Issuance
			Under Equity Compensation Plans (Excluding Securities Reflected in Column (a))(c)
Equity compensation plans approved by security holders	689,140	\$ 2.57	175,759
Equity compensation plans not approved by security holders			
Total	689,140	\$ 2.57	175,759

Security Ownership of Certain Beneficial Owners and Management

The following table and the related notes show information known to Redhook with respect to the beneficial ownership of Redhook's common stock as of February 29, 2008 by:

each person or group of affiliated persons who is known by Redhook to own beneficially more than 5% of Redhook's common stock;

each of Redhook's current directors;

each of Redhook's named executive officers identified below; and

all of Redhook's directors and executive officers as a group.

Table of Contents

As of February 29, 2008, there were 8,354,239 shares of Redhook common stock issued and outstanding. The number of shares beneficially owned includes shares of common stock that the listed beneficial owners have the right to acquire within 60 days of February 29, 2008 upon the exercise of options beneficially owned on that date. Unless otherwise noted, Redhook believes that all persons named in the table have sole voting and investment power with respect to all the shares beneficially owned by them.

Name and Address	Number of Shares of Common Stock Beneficially Owned(1)	Percent of Common Stock Outstanding(1)
Busch Investment Corporation(2)	2,761,713	33.06%
Dimensional Fund Advisors LP(3)	705,338	8.44%
Paul S. Shipman(4)	316,550	3.72%
Frank H. Clement(5)	281,070	3.35%
David J. Mickelson(6)	180,500	2.13%
Allen L. Triplett(7)	133,750	1.58%
Gerard C. Prial(7)	125,750	1.48%
David R. Lord(8)	18,073	*
John D. Rogers, Jr.(9)	16,800	*
Michael Loughran(10)	14,900	*
Jay T. Caldwell		*
John W. Glick		*
Anthony J. Short		*
All executive officers and directors as a group (11 individuals)(11)	1,087,393	12.15%

* Less than 1%

- (1) Includes shares of common stock subject to options currently exercisable or exercisable within 60 days of February 29, 2008. Shares subject to an option are not deemed outstanding for purposes of computing the percentage ownership of any person other than the person holding the option.
- (2) The business address of Busch Investment Corporation is 1220 N. Market Street, Suite 606, Wilmington, Delaware 19801.
- (3) The business address of Dimensional Fund Advisors LP is 1299 Ocean Avenue, 11th Floor, Santa Monica, California 90401. The number of shares shown as beneficially owned is based entirely on information contained in the Schedule 13G/A filed by Dimensional Fund Advisors LP on February 6, 2008. As noted in the Schedule 13G/A, Dimensional Fund Advisors LP disclaims beneficial ownership of these shares.
- (4) Includes 155,750 shares subject to options. Also includes 650 shares held by Mr. Shipman's spouse.
- (5) Includes 32,000 shares subject to options, 33,436 shares held by Mr. Clement's spouse, and 28,430 shares held by Mr. Clement as trustee for his children.
- (6) Includes 133,500 shares subject to options.

- (7) Includes 123,750 shares subject to options.
- (8) Includes 12,000 shares subject to options.
- (9) Includes 8,000 shares subject to options. Also includes 3,000 shares held by Mr. Roger's spouse.
- (10) Includes 4,000 shares subject to options.
- (11) Includes 592,750 shares subject to options.

Table of Contents

Item 13. *Certain Relationships and Related Transactions, and Director Independence*

Statement of Policy on Related Party Transactions

Redhook has adopted a policy of not engaging in business transactions with its officers, directors, nominees for director, beneficial owners of more than 5% of its common stock and immediate family members or affiliates of the foregoing, each of which we refer to as a related party, except upon terms that are deemed to be fair and reasonable by Redhook's audit committee. Nevertheless, Redhook recognizes that there may be situations where such transactions with a related party may be in, or may not be inconsistent with, the best interests of Redhook and its shareholders. Therefore, Redhook has adopted a statement of policy with respect to such related party transactions that guides the review and approval or ratification of these related party transactions by Redhook.

Under the statement of policy, a related party transaction is a transaction between Redhook and any related party (including any transactions requiring disclosure under Item 404 of Regulation S-K under the Exchange Act), other than transactions available to all employees generally and transactions involving less than \$10,000 when aggregated with all similar transactions. The Redhook audit committee has been tasked with the review and approval of all related party transactions. The audit committee considers all relevant facts and circumstances available in making its determination as to a related party transaction, including (if applicable) but not limited to: the benefits to Redhook; the impact on a director's independence in the event the related party is a director, an immediate family member of a director or an entity which is owned or controlled in substantial part by a director; the availability of other sources for comparable products or services; the terms of the transaction; and the terms available to unrelated third parties or to employees generally. The audit committee will approve only those related party transactions that are in, or are not inconsistent with, the best interests of Redhook and its shareholders, as the committee determines in good faith. A copy of Redhook's statement of policy with respect to related party transactions is available on Redhook's website at www.redhook.com (select About Redhook Investor Relations Governance Highlights).

Certain Related Party Transactions

Transactions with A-B. Since October 1994, Redhook has been party to an exchange and recapitalization agreement with A-B, as well as a master distributor agreement pursuant to which Redhook distributes its products in substantially all of its markets through A-B's wholesale distribution network.

Exchange and Recapitalization Agreement

On July 1, 2004, Redhook completed a restructuring of its relationship with A-B and entered into an exchange and recapitalization agreement and a new distribution agreement. The terms of the exchange and recapitalization agreement provided that Redhook issue 1,808,243 shares of common stock to A-B in exchange for 1,289,872 shares of Series B Preferred Stock held by A-B. The Series B Preferred Stock, reflected on Redhook's balance sheet at approximately \$16.3 million, was cancelled. In connection with the exchange, Redhook also paid \$2.0 million to A-B in November 2004.

Board representation. The exchange and recapitalization agreement provides that A-B is entitled to designate two members of the board of directors of Redhook. A-B also generally has the contractual right to have one of its designees sit on each committee of the board of directors of Redhook. Messrs. Glick and Short are the A-B designated nominees and are both currently employees of A-B.

Restrictive covenants. The exchange and recapitalization agreement also contains certain covenants restricting the ability of Redhook to enter into certain transactions. Without the prior consent of A-B, Redhook has agreed that it will

not:
issue equity securities exceeding 20% of its outstanding common stock as of January 1, 2008 (other than securities issued to employees or directors for compensatory purposes) or with more than one vote per share or with a class vote on any matter;

Table of Contents

issue any stock to any person engaged in the malt beverage or alcoholic beverage business;

acquire any assets related to the production or distribution of malt beverages which exceed 50% of the book value of its assets as of the date of such acquisition, or acquire any assets unrelated to the production or distribution of malt beverages which exceed 10% of the book value of its assets as of the date of such acquisition;

sell any assets which have a book value in excess of 30% of the aggregate book value of its assets;

dispose of any of its interest in Craft Brands;

amend its articles of incorporation or bylaws,

grant board representation rights to any party,

enter into certain transactions with affiliates, except upon fair and reasonable terms that are no less favorable to Redhook than would be obtained in a comparable arm's-length transaction with a non-affiliate and that has been approved by a majority of the independent directors of the Board of Directors;

distribute its products in the United States other than through A-B, Craft Brands or as provided in the A-B distribution agreement,

voluntarily delist or terminate its listing on the NASDAQ Stock Market.

Additionally, A-B has the right to terminate the distribution agreement in the event any competitor of A-B acquires more than 10% of the outstanding common stock of Redhook.

The practical effect of these restrictions is to grant to A-B the ability to veto certain transactions that management may believe to be in the best interest of Redhook and its shareholders, including expansion of the combined company through acquisitions of other craft brewers or new brands, merger with other brewing companies or distribution of Redhook's products outside the U.S. As a result, the results of operations and the trading price of Redhook's common stock may be adversely effected.

Master Distributor Agreement

Under the master distributor agreement with A-B, which we refer to as the A-B distribution agreement, Redhook is required to sell its product in the midwest and eastern United States through sales to A-B. Redhook has also granted A-B the first right to distribute Redhook products, including future new products, in the midwest and eastern territory. Redhook is responsible for marketing its products to A-B's distributors in the midwest and eastern territory, as well as to retailers and consumers. A-B distributors then place orders with Redhook, through A-B, for Redhook products. Redhook separately packages and ships the orders in refrigerated trucks to the A-B distribution center nearest to the distributor or, under certain circumstances, directly to the distributor.

For the year ended December 31, 2007, sales to A-B through the A-B distribution agreement represented 41% of total sales during the same period, or \$18,879,000.

Termination. The A-B distribution agreement has a term that expires on December 31, 2014, subject to automatic renewal for an additional ten-year period unless A-B provides written notice of non-renewal to Redhook on or prior to

June 30, 2014. The A-B distribution agreement is also subject to early termination, by either party, upon the occurrence of certain events. The A-B distribution agreement may be terminated immediately, by either party, upon the occurrence of any one or more of the following events:

1) a material default by the other party in the performance of any of the provisions of the A-B distribution agreement or any other agreement between the parties, which default is either:

i) curable within 30 days, but is not cured within 30 days following written notice of default; or

Table of Contents

ii) not curable within 30 days and either:

(1) the defaulting party fails to take reasonable steps to cure as soon as reasonably possible following written notice of such default; or

(2) such default is not cured within 90 days following written notice of such default;

2) default by the other party in the performance of any of the provisions of the A-B distribution agreement or any other agreement between the parties, which default is not described in (1) above and which is not cured within 180 days following written notice of such default;

3) the making by the other party of an assignment for the benefit of creditors; or the commencement by the other party of a voluntary case or proceeding or the other party's consent to or acquiescence in the entry of an order for relief against such other party in an involuntary case or proceeding under any bankruptcy, reorganization, insolvency or similar law;

4) the appointment of a trustee or receiver or similar officer of any court for the other party or for a substantial part of the property of the other party, whether with or without the consent of the other party, which is not terminated within 60 days from the date of appointment thereof;

5) the institution of bankruptcy, reorganization, insolvency or liquidation proceedings by or against the other party without such proceedings being dismissed within 90 days from the date of the institution thereof;

6) any representation or warranty made by the other party under or in the course of performance of the A-B distribution agreement that is false in material respects; or

7) the distribution agreement between Craft Brands and A-B is terminated or the distribution thereunder of the products of Redhook is terminated pursuant to its terms.

Additionally, the A-B distribution agreement may be terminated by A-B, upon six months prior written notice to Redhook, in the event:

1) Redhook engages in certain incompatible conduct which is not curable or is not cured to A-B's satisfaction (in A-B's sole opinion) within 30 days. Incompatible conduct is defined as any act or omission of Redhook that, in A-B's determination, damages the reputation or image of A-B or the brewing industry;

2) any A-B competitor or affiliate thereof acquires 10% or more of Redhook's outstanding equity securities of Redhook, and one or more designees of such person becomes a member of Redhook's board of directors;

3) Redhook's current chief executive officer ceases to function as chief executive officer and within six months of such cessation a successor satisfactory in the sole, good faith discretion of A-B is not appointed;

4) Redhook is merged or consolidated into or with any other person or any other person merges or consolidates into or with Redhook; or

5) A-B or its corporate affiliates incur any liability or expense as a result of any claim asserted against them by or in the name of Redhook or any shareholder of Redhook as a result of the equity ownership of A-B or its affiliates in Redhook, or any equity transaction or exchange between A-B or its affiliates and Redhook, and Redhook does not reimburse and indemnify A-B and its corporate affiliates on demand for the entire amount of such liability and

expense.

In the agreement Redhook and Widmer are currently negotiating with A-B, which is described in more detail under Agreements Related to the Merger Agreements with Anheuser-Busch, A-B will consent to the consummation of the transactions contemplated by the merger agreement and thereby waive its right to terminate the A-B distribution agreement upon the merger of Redhook and Widmer and the termination of the Craft Brands distribution agreement.

Table of Contents

Redhook believes that the benefits of the distribution arrangement with A-B, particularly the increased sales volume and efficiencies in delivery, state reporting and licensing, billing and collections, are significant to Redhook's business and in the best interests of its shareholders. Redhook and Widmer believe that the benefits of the relationship that both companies have enjoyed with A-B, in particular distribution and material cost efficiencies, have offset the costs associated with the relationship. However, there can be no assurance that these costs will not have a negative impact on the sales and results of operations of the combined company.

Additionally, if the relationship between Redhook and A-B were to deteriorate, distribution of Redhook's products would suffer significant disruption and such event will have a long-term severe negative impact on sales and results of operations, as it would be extremely difficult for Redhook to rebuild a distribution network. In such an event, Redhook would be faced with finding another national distribution partner similar to A-B, and entering into a complex distribution and investment arrangement with that entity, or with negotiating separate distribution agreements with individual distributors throughout the U.S. Currently, Redhook distributes its product through a network of more than 560 independent wholesale distributors, most of whom are geographically contiguous and independently owned and operated, and 13 branches owned and operated by A-B. If Redhook had to negotiate separate agreements with individual distributors, such an undertaking would necessarily take a significant amount of time to complete, during which Redhook's products would not be distributed. It would also be extremely difficult for Redhook to build a seamless and contiguous distribution network as the one it currently enjoys through A-B. Additionally, Redhook would need to raise significant capital to fund the development of its new distribution network and continue operations. There can be no guarantee that financing would be available when needed, either from Redhook's current lender or from the capital markets, or that any such financing would be on commercially reasonable terms. Given the difficulty that Redhook would face if it needed to rebuild its distribution network, if the current distribution arrangement with AB were to be terminated, it is unlikely Redhook would be able to continue as a going concern.

Fees and costs

The A-B distribution agreement provides that A-B is entitled to collect a margin fee on all payments to Redhook for sales through A-B as well as an additional amount, which we refer to as the additional margin, on shipments that exceed shipments for the same territory during fiscal 2003. During the year ended December 31, 2007, the margin was paid to A-B on shipments totaling 107,900 barrels to 532 A-B distribution points. Because 2007 shipments in the midwest and eastern United States exceeded 2003 shipments in the same territory, Redhook paid A-B the additional margin on 30,000 barrels.

In connection with all sales through the A-B distribution agreement, Redhook also paid additional fees related to A-B administration and handling. Invoicing costs, staging costs, cooperage handling charges and inventory manager fees collectively totaled approximately \$150,000 for the year ended December 31, 2007.

In certain instances, Redhook may ship its product to A-B wholesaler support centers rather than directly to the wholesaler. Wholesaler support centers assist Redhook by consolidating small wholesaler orders with orders of other A-B products prior to shipping to the wholesaler. A wholesaler support center fee of \$171,000 is reflected in Redhook's statement of operations for the year ended December 31, 2007.

Other agreements

Pursuant to a purchasing agreement dated November 21, 2002, Redhook purchased certain materials through A-B totaling \$9,608,000 in 2007.

In December 2003, Redhook entered into a purchase and sale agreement with A-B for the purchase of the *Pacific Ridge* brand, trademark and related intellectual property. In consideration, Redhook agreed to pay A-B a fee for

20 years based upon the shipments of the brand by Redhook. A fee of \$71,000 is reflected in Redhook's statement of operations for the year ended December 31, 2007.

Table of Contents

Redhook periodically leases kegs from A-B pursuant to an October 2001 letter of agreement. A lease and handling fee of \$88,000 is reflected in Redhook's statement of operations for the year ended December 31, 2007.

In connection with the shipment of its draft products to wholesalers through the A-B distribution agreement, Redhook collects refundable deposits on its kegs. Because wholesalers generally hold an inventory of Redhook's kegs at their warehouse and in retail establishments, A-B assists in monitoring the inventory of kegs to insure that the wholesaler can account for all kegs shipped. When a wholesaler cannot account for some of Redhook's kegs for which it is responsible, the wholesaler pays Redhook, for each keg determined to be lost, a fixed fee and also forfeits the deposit. For the year ended December 31, 2007, Redhook reduced its brewery equipment by \$716,000, comprised of lost keg fees and forfeited deposits.

Transactions with Widmer Brothers Brewing Company. On July 1, 2004, Redhook also entered into agreements with Widmer with respect to the operation of Craft Brands. Pursuant to these agreements, Redhook manufactures and sells its product to Craft Brands at a price substantially below wholesale pricing levels; Craft Brands, in turn, advertises, markets, sells and distributes the product to wholesale outlets in the western United States pursuant to a distribution agreement between Craft Brands and A-B. Widmer and Redhook are each 50% members of Craft Brands and A-B is also a major investor in Widmer.

For the year ended December 31, 2007, shipments of Redhook's products to Craft Brands represented 38% of total Redhook shipments, or 121,900 barrels.

Messrs. Shipman and Clement have been designated by Redhook to serve on the board of directors of Craft Brands. A-B and Widmer each have the right to designate two directors to serve on the board of directors of Craft Brands.

Pursuant to a supply, distribution and licensing agreement with Craft Brands, if shipments of Redhook's products in the Craft Brands territory decrease as compared to the previous year's shipments, Redhook has the right to brew Widmer products in an amount equal to the lower of (i) Redhook's product shipment decrease or (ii) the Widmer product shipment increase, which we refer to as the contractual obligation. In addition, Redhook may, pursuant to a manufacturing and licensing agreement with Widmer, brew more beer for Widmer than the contractual obligation. This manufacturing and licensing agreement with Widmer expires December 31, 2008. Under these contractual brewing arrangements, Redhook brewed and shipped 81,900 barrels of Widmer beer during the year ended December 31, 2007. Of these shipments, approximately 96% barrels were in excess of the contractual obligation.

In 2003, Redhook entered into a licensing agreement with Widmer to produce and sell the *Widmer Hefeweizen* brand in midwest and eastern United States markets. Redhook shipped 28,800 barrels of *Widmer Hefeweizen* in 2007 and a licensing fee of \$432,000 is reflected in Redhook's statement of operations for the year ended December 31, 2007.

In 2007, Redhook leased company-owned kegs to Widmer. Approximately \$16,000 is reflected in Redhook's statement of operations for the year ended December 31, 2007.

Director Independence

In November 2003, the National Association of Securities Dealers, (NASD), amended Nasdaq Marketplace Rule 4350(c) to require a majority of the board of directors of a listed company to be comprised of independent directors, as defined in NASDAQ Rule 4200(a)(15). Current board members Messrs. Clement, Lord, Loughran and Rogers are non-executive directors of Redhook, do not have any relationship described in Nasdaq Marketplace Rule 4200(a)(15) that would disqualify them as independent directors and, in the opinion of the Redhook board of directors, do not have any other relationship that would interfere with their exercise of independent judgment in carrying out their responsibilities as directors. Therefore, the Redhook board of directors believes that

Messrs. Clement, Lord, Loughran and Rogers are independent directors as defined by Nasdaq Marketplace Rule 4200(a)(15). The Redhook board of directors believes that Messrs. Glick and Short, who are non-executive directors, have a relationship as A-B designees to the Redhook board of directors that makes them non-independent under the standards of Nasdaq Marketplace Rule 4200(a)(15). All independent

Table of Contents

Redhook directors meet in executive session, at which only independent Redhook directors are present, at least twice a year, in conjunction with a regularly scheduled board meeting.

All members of the audit, compensation, and nominating and governance committees are independent directors as defined by Nasdaq Marketplace Rule 4200(a)(15). Pursuant to an exchange and recapitalization agreement between Redhook and A-B, A-B has the right to designate one of its board designees to sit on each committee of the Redhook board or to join each committee of the board in an advisory capacity, as described more fully in Redhook's Annual Report on Form 10-K for the year ended December 31, 2007, Part I., Item 1. *Business Relationship with Anheuser-Busch, Incorporated*. Mr. Anthony J. Short is currently A-B's designee to the audit committee and the nominating and governance committee and participates in each committee in an advisory capacity only. Mr. Glick is A-B's designee to the compensation committee and participates in an advisory capacity only.

Item 14. *Principal Accountant Fees and Services*

The audit committee of the Redhook board of directors has appointed the firm of Moss Adams LLP, which we refer to as Moss Adams, independent registered public accountants, to audit Redhook's financial statements for the fiscal year ending December 31, 2008.

Fees Paid to the Independent Registered Public Accounting Firm

The following table presents aggregate fees billed to Redhook by Moss Adams for professional services rendered with respect to fiscal years ended December 31, 2007 and 2006. All of these services were approved by the Redhook audit committee:

	2007	2006
Audit Fees	\$ 176,574	\$ 113,891
Audit Related Fees	2,000	
Tax Fees		2,650
All Other Fees		
Total Fees	\$ 178,574	\$ 116,541

Audit fees include the audit of Redhook's annual financial statements, review of the financial statements included in Redhook's quarterly reports on Form 10-Q for such years, services rendered in conjunction with registration statements, and services rendered in connection with the joint proxy statement/prospectus.

Audit related fees in 2007 were due for services rendered in connection with Redhook's assessment and report on the effectiveness of Redhook's internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act of 2002.

The 2006 tax fees relate to professional services rendered by Moss Adams to review Redhook's 2005 tax return and stock option treatment for tax purposes.

Redhook anticipates that 2008 audit fees and audit related fees will exceed 2007 fees, primarily as a result of fees associated with the merger with Widmer.

Auditor Independence

In 2007, there were no other professional services provided by Moss Adams for Redhook that would have required the audit committee of the Redhook board of directors to consider their compatibility with maintaining the independence of Moss Adams.

Pre-Approval Policies and Procedures

The Redhook audit committee is responsible for appointing and overseeing the work of Redhook's independent registered public accounting firm. The Redhook audit committee has established the following

Table of Contents

procedures for the pre-approval of all audit and permissible non-audit services provided by the independent registered public accounting firm:

Before engagement of the independent registered public accounting firm for the next year's audit, the independent registered public accounting firm will submit a detailed description of services expected to be rendered during that year for each of the following categories of services to the audit committee for approval:

Audit services. Audit services include work performed for the audit of Redhook's financial statements and the review of financial statements included in Redhook's quarterly reports on Form 10-Q, as well as work that is normally provided by the independent registered public accounting firm in connection with statutory and regulatory filings.

Audit related services. Audit related services are for assurance and related services that are traditionally performed by the independent registered public accounting firm and reasonably related to the performance of the audit or review of Redhook's financial statements.

Tax services. Tax services include all services performed by the independent registered public accounting firm's tax personnel for tax compliance, tax advice and tax planning.

Other services. Other services are those services not captured in the other categories.

Before engagement, the Redhook audit committee pre-approves these services by category of service. The fees are budgeted and the Redhook audit committee requires the independent registered public accounting firm to report actual fees versus budgeted fees periodically throughout the year by category of service. During the year, circumstances may arise when it may become necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval. In those instances, the Redhook audit committee requires specific pre-approval before engaging the independent registered public accounting firm.

PART IV.

Item 15. *Exhibits and Financial Statement Schedules*

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

To the Members and Board of Directors
Craft Brands Alliance LLC

We have audited the accompanying balance sheets of Craft Brands Alliance LLC as of December 31, 2007 and 2006, and the related statements of income, members' equity and cash flows for the years ended December 31, 2007 and 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Craft Brands Alliance LLC at December 31, 2007 and 2006, and the results of its operations and its cash flows for the years ended December 31, 2007 and 2006, in conformity with accounting principles generally accepted in the United States of America.

CRAFT BRANDS ALLIANCE LLC

NOTES TO FINANCIAL STATEMENTS

NOTE 1 COMPANY OPERATING AGREEMENT

The Operating Agreement was made and entered into effective July 1, 2004, by and between Widmer Brothers Brewing Company, an Oregon corporation (Widmer), Redhook Ale Brewery, Incorporated, a Washington corporation (Redhook), and Craft Brands Alliance LLC (the Company). Widmer and Redhook are referred to hereinafter as the Members.

The Members are both manufacturers of craft malt beverages. The Members each have a distribution agreement with Anheuser-Busch, Inc. (A-B) pursuant to which A-B distributes the malt beverage products of the Members.

The Members products are currently distributed in the following common states: Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, New Mexico, Nevada, Oregon, Utah, Washington, and Wyoming (the Initial Territory). The Members have determined that it would create certain efficiencies and synergies for the Members to consolidate certain marketing, advertising, sales, distribution, and related operations and to jointly market, advertise, sell, and distribute their respective products in the Initial Territory. The Members intend for the Company to market, advertise, sell, and distribute the products in the Initial Territory on an exclusive basis; provided that in the state of Washington, (1) Company will receive orders for products from A-B Wholesalers, (2) Company will assign the orders to Widmer or Redhook, and (3) the products will be sold and distributed directly by Redhook and Widmer to A-B wholesalers located in Washington. The products will continue to be distributed through A-B.

The Operating Agreement may be terminated by either member if A-B no longer distributes the products of the Company.

A-B currently has an equity interest in both the Members.

The Company has the following additional agreements with the Members:

A Supply, Distribution, and Licensing Agreement by and between Widmer and Company, pursuant to which Company purchases Widmer s products from Widmer and has the exclusive right to advertise and market the Widmer products in the Initial Territory and to distribute the Widmer products in the Initial Territory except for Washington.

A Supply, Distribution, and Licensing Agreement by and between Redhook and Company, pursuant to which Company purchases the Redhook products from Redhook and has the exclusive right to advertise and market the Redhook products in the Initial Territory and to distribute the Redhook products in the Initial Territory except for Washington.
