NOTES TO FINANCIAL STATEMENTS — (Unaudited)

1. *Significant Accounting Policies* — Central Securities Corporation (the “Corporation”) is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end management investment company. The following is a summary of the significant accounting policies consistently followed by the Corporation in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles.

Security Valuation — Marketable common and preferred stocks are valued at the last or closing sale price or, if unavailable, at the closing bid price. Written options are valued at the last quoted asked price. Securities for which no ready market exists are valued at estimated fair value pursuant to procedures adopted by the Board of Directors.

Federal Income Taxes — It is the Corporation’s policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income and net capital gains to its stockholders. Management has analyzed positions taken on the Corporation’s tax returns and has determined that no provision for income taxes is required in the accompanying financial statements.

Use of Estimates — The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported. Actual results may differ from those estimates.

Other — Security transactions are accounted for as of the trade date, and cost of securities sold is determined by specific identification. Dividend income and distributions to stockholders are recorded on the ex-dividend date.

2. *Fair Value Measurements* — The Corporation’s investments are categorized below in three broad hierarchical levels based on market price observability as follows:

• *Level 1* — Quoted prices in active markets for identical investments;

• *Level 2* — Other significant observable inputs obtained from independent sources, for example, quoted prices for similar investments or the use of models or other valuation methodologies;

• *Level 3* — Significant unobservable inputs including the Corporation’s own assumptions based upon the best information available. Investments categorized as Level 3 include securities in which there is little, if any, market activity. The Corporation’s Level 3 investments consist of The Plymouth Rock Company, Inc. and Aerogroup International, Inc.

The designated Level for a security is not necessarily an indication of the risk associated with investing in that security.

NOTES TO FINANCIAL STATEMENTS — continued (unaudited)

The Corporation's investments as of June 30, 2012 are classified as follows:

	Level 1	Level 2	Level 3	Total Value
Common Stocks	\$376,609,648	—	\$167,838,800	\$544,448,448
Preferred Stocks	—	\$948,311	—	948,311
Total	\$376,609,648	\$948,311	\$167,838,800	\$545,396,759

The Corporation's investment in GeoMet, Inc. Series A Preferred Stock will transfer from Level 1 to Level 2 if there are no actual market trades in the security on a valuation date. The security will transfer back to Level 1 if there are market trades on a subsequent valuation date. On June 30, 2012 and on December 31, 2011, this investment was considered Level 2, and its value was based on the closing bid price. There were no other transfers of investments between Levels 1, 2 and 3 during the six months ended June 30, 2012.

The following is a reconciliation of the change in the value of Level 3 investments:

Balance as of December 31, 2011	\$168,126,800
Net realized gains and change in net unrealized appreciation of investments included in net decrease in net assets resulting from operations	91,200
Sales	(379,200)
Balance as of June 30, 2012	\$167,838,800

There was no change in unrealized appreciation of Level 3 investments held at June 30, 2012 included in the above table. In valuing Level 3 investments, the Corporation's management considers the results of various valuation methods. Consideration is also given to corporate governance, marketability, professional appraisals of portfolio companies, company and industry results and outlooks, and general market conditions. Management then recommends a value for each investment that it considers most appropriate in light of all the information available. All of this information is subsequently presented to and discussed with the Corporation's Board of Directors, which selects the value. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the price used by other investors or the price that may be realized upon the actual sale of the security.

In valuing the Plymouth Rock Level 3 investment as of June 30, 2012, management used a number of significant unobservable inputs to develop a range of possible values for the investment. It used a comparable company approach that applied average market multiples from selected publicly traded companies to financial information from each of Plymouth Rock's major business segments. The market multiples used were price-to-book value, price-to-earnings and price-to-revenue. Management also used a discounted cash flow model based on a forecasted earnings growth rate ranging from 2.5%–4% and a weighted average cost of capital of 10%. Transactions in Plymouth Rock's shares were also considered. The values obtained from weighting the three methods described above (with greater weight given to

NOTES TO FINANCIAL STATEMENTS — continued (unaudited)

the comparable company approach) were then discounted by 20% and 40% for the lack of marketability of the shares, which represent the range of rates management believes market participants would apply in estimating fair value. The resulting range of values, together with the underlying support, other information about Plymouth Rock's financial condition and results of operations and its industry outlook, were considered by management, which recommended a value for the investment. All of this information was subsequently considered by the Corporation's directors, who selected the value.

Significant increases (decreases) in the price-to-book value multiple, price-to-earnings multiple, price-to-revenue multiple and earnings growth rate in isolation would result in a higher (lower) range of fair value measurements. Significant increases (decreases) in the discount for lack of marketability or weighted average cost of capital in isolation would result in a lower (higher) range of fair value measurements.

3. *Common Stock Purchases* — The Corporation purchased 98,000 shares of its Common Stock in the first six months of 2012 at an average price of \$20.845 per share representing an average discount from net asset value of 17.5%. It may from time to time purchase Common Stock in such amounts and at such prices as the Board of Directors may deem advisable in the best interests of the stockholders. Purchases will only be made at less than net asset value per share, thereby increasing the net asset value of shares held by the remaining stockholders. Shares so acquired may be held as treasury stock available for stock distributions, or may be retired.

4. *Investment Transactions* — The aggregate cost of securities purchased and the aggregate proceeds of securities sold during the six months ended June 30, 2012, excluding option transactions and other short-term investments, were \$12,524,197 and \$18,979,070, respectively.

As of June 30, 2012, based on cost for Federal income tax purposes, the aggregate gross unrealized appreciation and depreciation for all securities were \$291,869,782 and \$54,427,818, respectively.

5. *Affiliates* — The Plymouth Rock Company, Inc. and GeoMet, Inc., are affiliates as defined in the Investment Company Act of 1940 due to the Corporation's ownership of 5% or more of these companies' outstanding voting securities. During the six months ended June 30, 2012, the Corporation received dividends of \$2,136,843 from Plymouth Rock and sold 120 shares of Plymouth Rock at a gain of \$370,800. The Corporation also received as dividends 15,093 additional shares of GeoMet Preferred Series A stock. Net unrealized appreciation related to affiliates decreased by \$2,936,323 for the six months ended June 30, 2012 to \$151,189,573. The President of the Corporation is a director of Plymouth Rock.

6. *Restricted Securities* — The Corporation from time to time invests in securities the resale of which is restricted. The Corporation does not have the right to demand registration of the restricted securities. On June 30, 2012, such investments had an aggregate value of \$167,838,800, which was equal to 30.2% of the Corporation's net assets. Investments in restricted securities at June 30, 2012, including acquisition dates and cost, were:

<u>Company</u>	Shares	Security	Date Acquired	Cost
Aerogroup International, Inc.	20,000	Common Stock	6/14/05	\$ 11,719
The Plymouth Rock Company, Inc.	60,000	Class A Stock	12/15/82	1,500,000
The Plymouth Rock Company, Inc.	9,780	Class A Stock	6/9/84	684,586

7. *Options Written* — From time to time, the Corporation writes option contracts to generate additional return. When the Corporation writes an option, a liability is recorded in an amount equal to the premium received and is subsequently marked to market in the Statement of Assets and Liabilities, with any related change recorded as an unrealized gain or loss in the Statement of Operations. Upon the exercise of written call option contracts, premiums received are added to the proceeds from the sale of the underlying securities in determining whether there is a realized gain or loss. Upon the exercise of written put options, premiums received are subtracted from the cost of the purchase of the underlying securities. On the expiration date, premiums received from unexercised options are treated as realized gains.

When writing a covered call option, the Corporation forgoes, during the option's life, the opportunity to profit from increases in the market value of the security underlying the call option above the sum of the option premium received and the exercise price of the call, but has retained the risk of loss should the price of the underlying security decline below the exercise price minus the option premium received.

When writing a put option, the Corporation has the obligation during the option's life to purchase the securities underlying the option at an agreed-upon exercise price. The Corporation's obligation is secured by segregating with its custodian liquid investments with a value at least equal to the amount the Corporation would be required to pay if the option were exercised. The Corporation will lose money if the securities purchased decrease in value below the exercise price by more than the premium received by the Corporation for writing the option.

The Corporation's activity in written options during the six months ended June 30, 2012 is summarized as follows:

	Number of Shares	Premiums Received
Options outstanding at December 31, 2011	—	—
Options written	20,000	\$28,499
Options terminated in closing transactions	(20,000)	(28,499)
Options outstanding at June 30, 2012	—	—

NOTES TO FINANCIAL STATEMENTS — continued (unaudited)

8. *Bank Line of Credit* — The Corporation has entered into a \$25 million uncommitted, secured revolving line of credit with UMB Bank, n.a. (“UMB”), the Corporation’s custodian. All borrowings are payable on demand of UMB. Interest on any borrowings is payable monthly at a rate based on the federal funds rate, subject to a minimum annual rate of 2.50%. During the six months ended June 30, 2012, there were no outstanding borrowings.

9. *Compensation and Benefit Plans* — The aggregate remuneration paid during the six months ended June 30, 2012 to all officers was \$905,000. Officers and other employees participate in a 401(k) and profit sharing plan. Effective April 1, 2012, the Corporation has agreed to contribute at least 3% of each participant’s qualifying compensation to the plan, which is immediately vested. Contributions in excess of 3% may be made at the discretion of the Board of Directors. Contributions made prior to April 1, 2012 and any contributions in excess of the 3% amount vest after three years of service. During the six months ended June 30, 2012, the Corporation accrued \$14,708 related to the plan.

The Corporation has adopted and its stockholders have approved an incentive compensation plan (the “2012 Plan”) that is administered by the Corporation’s Compensation and Nominating Committee. The 2012 Plan permits the grant of awards of unrestricted stock, restricted stock, restricted stock units and cash to full-time employees and non-employee directors of the Corporation. The 2012 Plan provides for the issuance of up to 1,000,000 shares of the Corporation’s Common Stock over the ten-year life of the 2012 Plan, with limitations on the amount of shares or cash that can be awarded to any one person in total or within a certain time period. Any award made under the 2012 Plan may be subject to performance conditions.

Pursuant to the terms of the 2012 Plan, each non-employee director is awarded 500 shares of vested unrestricted Common Stock at his initial election to the Board of Directors or at his continuation of service as a director after the Corporation’s annual meeting. The aggregate value of these awards of 3,000 shares made during the six months ended June 30, 2012 was \$64,827. This amount plus cash payments of \$76,500 made to all non-employee directors are included in Directors’ Fees expense in the accompanying Statement of Operations. No other awards were made under the 2012 Plan during the six months ended June 30, 2012.

10. *Operating Lease Commitment* — The Corporation has entered into an operating lease for office space which expires in 2014 and provides for future minimum rental payments in the aggregate amount of \$683,612 as of June 30, 2012. The lease agreement contains escalation clauses relating to operating costs and real property taxes. Future minimum rental commitments under the lease are \$170,903 remaining for 2012, \$341,806 in 2013 and \$170,903 in 2014.

FINANCIAL HIGHLIGHTS

The following table shows per share operating performance data, total returns, ratios and supplemental data for the six months ended June 30, 2012 and each year in the five-year period ended December 31, 2011. This information has been derived from information contained in the financial statements and market price data for the Corporation's shares.

The Corporation's total returns reflect changes in market price or net asset value, as applicable, and assume reinvestment of all distributions. Distributions that are payable only in cash are assumed to be reinvested at the market price or net asset value, as applicable, on the payable date of the distribution. Distributions that may be taken in shares are assumed to be reinvested at the price designated by the Corporation.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of
Central Securities Corporation

We have reviewed the accompanying statement of assets and liabilities, including the statement of investments, of Central Securities Corporation as of June 30, 2012, and the related statements of operations, changes in net assets, cash flows and financial highlights for the six-month period ended June 30, 2012. These interim financial statements and financial highlights are the responsibility of Central Securities Corporation's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements and financial highlights referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of changes in net assets for the year ended December 31, 2011 and financial highlights for each of the years in the five-year period ended December 31, 2011, and in our report, dated February 3, 2012, we expressed an unqualified opinion on such statement of changes in net assets and financial highlights.
