SECURITIES AND EXCHANGE COMMISSION**

Washington, DC 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED JUNE 30, 2005

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 000-50015

TierOne Corporation

(Exact name of Registrant as specified in its charter)

Wisconsin

04-3638672

(State or Other Jurisdiction of Incorporation or Organization)

(I.R.S. Employer Identification No.)

1235 "N" Street
Lincoln, Nebraska

68508

(Address of Principal Executive Offices)

(Zip Code)

(402) 475-0521

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is an accelerated filer (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of August 5, 2005, there were 18,143,740 issued and outstanding shares of the Registrant's common stock.

TierOne Corporation and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

Note 1 Basis of Presentation

TierOne Corporation (Company) is a Wisconsin corporation headquartered in Lincoln, Nebraska. TierOne Corporation is the holding company for TierOne Bank (Bank). At June 30, 2005, the Bank operated from 68 banking offices located in Nebraska, Iowa and Kansas and eight loan production offices located in Arizona, Colorado, Florida, Minnesota and North Carolina.

Note 2 Basis of Consolidation

The accompanying unaudited consolidated financial statements include the accounts of the Bank and its wholly owned subsidiaries TMS Corporation of the Americas (TMS) and United Farm & Ranch Management, Inc. (UFARM). TMS is the holding company of TierOne Investments and Insurance, Inc., a wholly owned subsidiary that administers the sale of securities and insurance products, and TierOne Reinsurance Company, a wholly owned subsidiary that reinsures credit life and disability insurance policies. UFARM provides agricultural

customers professional farm and ranch management and real estate brokerage services.

The accompanying interim consolidated financial statements as of June 30, 2005 and for the three and six months ended June 30, 2005 and June 30, 2004 have not been audited by independent auditors. All significant intercompany accounts and transactions have been eliminated in consolidation. In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position and operating results for interim periods. The unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information, in accordance with instructions to Form 10-Q and Article 10 of Regulation S-X promulgated by the Securities and Exchange Commission (SEC), and do not include all of the information and notes required for complete, audited financial statements. The unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2004. The results of operations for the three and six months ended June 30, 2005 are not necessarily indicative of the results which may be expected for the entire calendar year 2005.

Note 3 Significant Accounting Policies

Allowance for Loan Losses. We have identified the evaluation of the allowance for loan losses as a critical accounting policy where amounts are sensitive to material variation. This policy is significantly affected by our judgment and uncertainties and there is a likelihood that materially different amounts could be reported under different, but reasonably plausible, conditions or assumptions. The allowance for loan losses is considered a critical accounting estimate because there is a large degree of judgment in:

- Assigning individual loans to specific risk levels (pass, special mention, substandard, doubtful and loss);
- Valuing the underlying collateral securing the loans;
- Determining the appropriate reserve factor to be applied to specific risk levels for special mention loans and those adversely classified (substandard, doubtful and loss); and
- Determining reserve factors to be applied to pass loans based upon loan type.

We establish provisions for loan losses, which are charges to our operating results, in order to maintain a level of total allowance for loan losses that, in management's belief, covers all known and inherent losses that are both probable and reasonably estimable at each reporting date. Management reviews the loan portfolio no less frequently than quarterly in order to identify those inherent losses and to assess the overall collection probability of the loan portfolio. Management's review includes a quantitative analysis by loan category, using historical loss experience, classifying loans pursuant to a grading system and consideration of a series of qualitative loss factors. The evaluation process includes, among other things:

- An analysis of delinquency trends;
- Nonperforming loan trends;
- Levels of charge-offs and recoveries;
- Prior loss experience;
- Total loans outstanding;
- Volume of loan originations;
- Type, size, terms and geographic concentration of loans held by us;
- Value of collateral securing loans;
- Number of loans requiring heightened management oversight; and
- General economic conditions.

This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available or as future events change.

TierOne Corporation and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

The allowance for loan losses consists of two elements. The first element is an allocated allowance established for specific loans identified by the credit review function that are evaluated individually for impairment and are considered to be impaired. A loan is considered impaired when, based on current information and events, it is probable that we will be unable to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. Impairment is measured by:

- The fair value of the collateral if the loan is collateral dependent;
- The present value of expected future cash flows; or
- The observable market price of the loan.

The second element is an estimated allowance established for losses which are probable and reasonable to estimate on each category of outstanding loans. While management uses available information to recognize probable losses on loans inherent in the portfolio, future additions to the allowance may be necessary based on changes in economic conditions and other factors. In addition, various regulatory agencies, as an integral part of their examination process, periodically review our allowance for loan losses. Such agencies may require us to recognize additions to the allowance based on their judgment of information available to them at the time of their examination.

Goodwill and Other Intangible Assets. Goodwill represents the excess price paid over the fair value of the tangible and intangible assets and liabilities acquired in connection with the August 27, 2004 acquisition of United Nebraska Financial Co. (UNFC). In accordance with Statement of Financial Accounting Standard (SFAS) No. 142, *Goodwill and Other Intangible Assets*, goodwill and indefinite-lived intangible balances are not being amortized, but are tested for impairment annually in accordance with the provisions of SFAS No. 142. SFAS No. 142 also requires the intangible assets with estimated useful lives be amortized over their respective estimated useful lives to their residual values and reviewed for impairment in accordance with SFAS No. 144, *Accounting for Impairment or Disposal of Long-Lived Assets*.

In addition to annual testing, the impairment of identifiable intangibles and long-lived assets is assessed when events or changes in circumstances indicate their carrying value may not be recoverable through expected future undiscounted cash flows.

Our only identifiable intangible asset is the value of the core deposits acquired as part of the UNFC transaction. Determining the amount of identifiable intangible assets and their average lives involves multiple assumptions and estimates and is typically determined by performing a discounted cash flow analysis, which involves a combination of any or all of the following assumptions: customer attrition, account runoff, alternative funding costs, deposit servicing costs and discount rates. The core deposit intangible has been estimated to have a 10-year life with an accelerated rate of amortization.

TierOne Corporation and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

Our policy is to evaluate annually the carrying value of the reporting unit goodwill and identifiable assets not subject to amortization. Goodwill was established as part of the UNFC acquisition and supported by third-party valuations as of August 27, 2004. If the carrying value of the goodwill exceeded the implied fair value of the goodwill, an impairment loss would be recorded in an amount equal to that excess.

There have been no changes in the carrying amount of goodwill during the six months ended June 30, 2005 due to impairment and we are not aware of any facts or circumstances that would indicate our carrying value exceeded fair value.

Mortgage Servicing Rights. The Bank capitalizes the estimated value of mortgage servicing rights upon the sale of loans. The Bank's estimated value takes into consideration contractually known amounts, such as loan balance, term and interest rate. These estimates are impacted by loan prepayment speeds, servicing costs and discount rates used to compute a present value of the cash flow stream. Management evaluates the fair value of mortgage servicing rights on a quarterly basis using current prepayment speed, cash flow and discount rate estimates. Changes in these estimates impact fair value, and could require the Bank to record a valuation allowance or recovery. The fair value of mortgage servicing rights is highly sensitive to changes in assumptions. Changes in prepayment speed assumptions have the most significant impact on the fair value of mortgage servicing rights. Generally, as interest rates decline, prepayments accelerate with increased refinance activity, which

results in a decrease in the fair value of mortgage servicing rights. As interest rates rise, prepayments generally slow, which results in an increase in the fair value of mortgage servicing rights. All assumptions are reviewed for reasonableness on a quarterly basis and adjusted as necessary to reflect current and anticipated market conditions. Thus, any measurement of fair value is limited by the conditions existing and the assumptions utilized as of a particular point in time, and those assumptions may not be appropriate if applied at a different point in time.

Derivatives and Commitments. We account for our derivatives and hedging activities in accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activity*, as amended by SFAS No. 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities* and SFAS No. 149, *Amendment of Statement No. 133 on Derivative Instruments and Hedging Activities*.

11

TierOne Corporation and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

In the normal course of business, we enter into contractual commitments, including loan commitments and rate lock commitments to extend credit to finance residential mortgages. These commitments, which contain fixed expiration dates, offer the borrower an interest rate guarantee provided the loan meets underwriting guidelines and closes within the time frame established by us. Interest rate risk arises on these commitments and subsequently closed loans if interest rates increase or decrease between the time of the interest rate lock and the delivery of the loan to the investor. Loan commitments related to mortgage loans that are intended to be sold are considered derivatives in accordance with the guidance of SEC Staff Accounting Bulletin (SAB) No. 105, *Application of Accounting Principles to Loan Commitments*. Accordingly, the fair value of these derivatives at the end of the reporting period is based on a quoted market price that closely approximates the amount that would have been recognized if the loan commitment was funded and sold.

To mitigate the effect of interest rate risk inherent in providing loan commitments, we hedge our commitments by entering into forward sale contracts. These forward contracts are marked-to-market through earnings and are not designated as accounting hedges under SFAS No. 133. The change in the fair value of loan commitments and the change in the fair value of forward sales contracts generally move in opposite directions and, accordingly, the impact of changes in these valuations on net income during the loan commitment period is generally inconsequential.

Although the forward loan sale contracts also serve as an economic hedge of loans held for sale, forward contracts have not been designated as accounting hedges under SFAS No. 133 and, accordingly, loans held for sale are accounted for at the lower of cost or market in accordance with SFAS No. 65, *Accounting for Certain Mortgage Banking Activities*.

Investment Securities. We evaluate available for sale and held to maturity investment securities for impairment on a quarterly basis. An impairment charge in the Consolidated Statements of Income is recognized when the decline in the fair value of investment securities below their cost basis is judged to be other-than-temporary. We consider various factors in determining whether we should recognize an impairment charge, including, but not limited to, the length of time and extent to which the fair value has been less than its cost basis and our ability and intent to hold the investment security for a period of time sufficient to allow for any anticipated recovery in market value.

12

TierOne Corporation and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

Income Taxes. We use the asset and liability method of accounting for income taxes. Under the asset and liability method, we recognize deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period that includes the enactment date. If necessary, a valuation allowance would be established to adjust deferred tax assets to an amount for which realization is more likely than not.

(Unaudited)

Note 4 Earnings Per Share

Basic and diluted earnings per share (EPS) data are based on the weighted average number of common shares outstanding during each reporting period. Employee Stock Ownership Plan (ESOP) and 2003 Management Recognition and Retention Plan (MRRP) shares not committed to be released are not considered to be outstanding for purposes of EPS calculations. The basic EPS calculation excludes the dilutive effect of all common stock equivalents. Diluted EPS is further adjusted for potential common shares that were dilutive and outstanding during the reporting periods. The Company's potentially dilutive common shares at June 30, 2005 represent shares issuable under its 2003 Stock Option Plan and MRRP computed using the treasury stock method. All stock options awarded are assumed to be 100% vested for purposes of the EPS computations.

	Three Months Ended June 30, 2005		Six Months Ended June 30, 2005	
	Basic	Diluted	Basic	Diluted
<i>(Dollars in thousands, except per share data)</i>				
Net income	\$ 7,608	\$ 7,608	\$ 14,786	\$ 14,786

Note 5 Goodwill and Other Intangible Assets

Goodwill had a net carrying amount of \$42.3 million at June 30, 2005. This amount represents the excess price paid by the Company over the fair value of the tangible and intangible assets and liabilities assumed in the acquisition of UNFC on August 27, 2004. The Company evaluates goodwill for impairment annually in accordance with SFAS No. 142, *Goodwill and Other Intangible Assets*. There have been no changes in the carrying amount of goodwill during the six months ended June 30, 2005 due to impairment and we are not aware of any facts or circumstances that would indicate our carrying value exceeded fair value.

The Company's only identifiable other intangible asset is the value of core deposits acquired as part of the UNFC acquisition. The core deposit intangible has been estimated to have a 10-year life, with an accelerated rate of amortization.

The changes in the net carrying amounts of other intangible assets for the three and six months ended June 30, 2005 are as follows:

Edgar Filing: TIERONE CORP - Form 10-Q

<i>(Dollars in thousands)</i>	Three Months Ended June 30, 2005	Six Months Ended June 30, 2005

Note 9 Nonperforming Assets

The following table sets forth information with respect to nonperforming assets and troubled debt restructurings at the dates indicated. It is the Bank's policy to cease accruing interest on loans 90 days or more past due and to charge off accrued interest. Total impaired loans amounted to approximately \$4.5 million and \$6.1 million at June 30, 2005 and December 31, 2004, respectively. There was an allowance for loan loss specifically allocated to impaired loans of \$25,000 and \$464,000 at June 30, 2005 and December 31, 2004, respectively.

(Dollars in thousands)

June 30, 2005 December 31, 2004

Nonperforming loans:

One-to-four family residential	\$	1,349	\$	1,914

Note 11 Stock-Based Benefit Plans

Management Recognition and Retention Plan. The Company has in effect the MRRP, which is a stock-based incentive plan. The following table summarizes shares of the Company's common stock which were subject to award and have been granted pursuant to the MRRP:

	June 30, 2005
Common shares authorized to be awarded by the Management Recognition and Retention Plan	903,003
Common shares awarded by Management Recognition and Retention Plan	(797,350)
Common shares forfeited	--
Shares available for award at June 30, 2005	105,653

The shares awarded by the MRRP vest to participants at the rate of 20% per year. As a result, expense for this plan is being recorded over a 60-month period and is based on the market value of the Company's stock as of the date the awards were made. The remaining unamortized cost of the MRRP shares acquired to date is reflected as a reduction in stockholders' equity. Expense under the MRRP for the three and six months ended June 30, 2005 was \$719,000 and \$1.4 million, respectively, compared to \$682,000 and \$1.4 million for the three and six months ended

Edgar Filing: TIERONE CORP - Form 10-Q

June 30, 2004, respectively.

Stock Option Plan. The Company established the 2003 Stock Option Plan (SOP) under which shares of Company common stock are reserved for the grant of common stock options to directors, officers and employees. Stock options awarded under the SOP vest to participants at the rate of 20% per year. The exercise price of the options is equal to the fair market value of the common stock on the grant date.

	June 30, 2005		
	Options Outstanding	Remaining Contractual Life	Options Exercisable
Stock options issued and outstanding at an exercise price of \$17.83	1,838,750	7.8 years	734,600
Stock options issued and outstanding at an exercise price of \$22.40	45,000	9.3 years	--
Stock options outstanding, end of period	1,883,750	--	--
Stock options remaining for future grants	359,758		

21

**TierOne Corporation and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)**

The Company accounts for its stock options in accordance with Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB No. 25). Under the provisions of APB No. 25, since the exercise price of the Company's employees' stock options equals the market price of the underlying stock on the date of grant, no compensation expense is recognized. See Note 14 for additional information regarding stock options.

Pursuant to SFAS No. 123, *Accounting for Stock-Based Compensation*, pro forma net income and pro forma EPS are presented in the following table as if the fair value method of accounting for stock-based compensation plans had been utilized:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
<i>(Dollars in thousands, except per share data)</i>				
Net income (as reported)	\$ 7,608	\$ 5,575	\$ 14,786	\$ 11,635
Add: stock-based employee compensation expense included in reported net income, net of related tax effects	467	443	934	887
Deduct: total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(749)	(715)	(1,498)	(1,430)
Pro forma net income	\$ 7,326	\$ 5,303	\$ 14,222	\$ 11,092
Basic earnings per share (as reported)	\$ 0.47	\$ 0.33	\$ 0.91	\$ 0.67
Pro forma basic earnings per share	0.45	0.31	0.88	0.64
Diluted earnings per share (as reported)	0.46	0.32	0.89	0.66
Pro forma diluted earnings per share	0.45	0.31	0.86	0.63

The pro forma results above may not be representative of the effect on net income in future periods.

The fair value of each option grant is estimated using the Black-Scholes option-pricing model with the following weighted-average assumptions used for grants during the years ended December 31, 2004 and December 31, 2003, respectively: dividend yield of 1.0% and 1.0%; expected volatility of 22.6% and 13.2%; risk-free interest rates of 4.0% and 3.5%; and an expected life of 8.0 years and 10.0 years.

Note 13 Federal Home Loan Bank Advances and Other Borrowings

At June 30, 2005 and December 31, 2004, the Company was indebted on notes as shown in the following table:

<i>(Dollars in thousands)</i>	June 30, 2005	December 31, 2004
Permanent fixed-rate notes payable to the Federal Home Loan Bank	\$ 83,407	\$ 83,819
Convertible fixed-rate notes payable to the Federal Home Loan Bank	520,935	426,045

<i>(Dollars in thousands)</i>	June 30, 2005	December 31, 2004
Line of credit with the Federal Home Loan Bank	229,500	261,200
Adjustable-rate note payable to the Federal Home Loan Bank	10,000	10,000
Retail repurchase agreements	35,520	22,674
Junior subordinated debentures	37,928	37,928
Total Federal Home Loan Bank advances and other borrowings	\$ 917,290	\$ 841,666
Weighted average interest rate	3.65%	3.25%

The convertible fixed-rate notes are convertible to adjustable-rate notes at the option of the Federal Home Loan Bank (FHLB). The line of credit with the FHLB expires in November 2005. The Company expects the line of credit agreement with the FHLB to be renewed in the ordinary course of business.

Note 14 Current Accounting Pronouncements

For discussion regarding accounting pronouncements, interpretations, exposure drafts and other formal accounting guidance and the impact on the Company, reference is made to the Company's Annual Report on Form 10-K for the year ended December 31, 2004. The following discussion identifies certain recently issued accounting guidance.

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement No. 123 (revised 2004), *Share-Based Payment*, (SFAS No. 123(R)), which requires that the cost resulting from stock options be measured at fair value and recognized in earnings. SFAS No. 123(R) replaces Statement No. 123, *Accounting for Stock-Based Compensation*, (SFAS No. 123) and supersedes APB No. 25 which permitted the recognition of compensation expense using the intrinsic value method. SFAS No. 123(R) became effective July 1, 2005. However, on April 15, 2005, the SEC issued a press release announcing the amendment of the compliance date for SFAS No. 123(R) to be no later than the beginning of the first fiscal year beginning after June 15, 2005. The Company presently plans to adopt SFAS No. 123(R) on January 1, 2006. The method for adoption of this statement is yet to be determined. See Note 11 for SFAS No. 123 pro forma disclosures.

In June 2005, FASB issued SFAS No. 154, *Reporting Accounting Changes and Error Corrections* (SFAS No. 154). SFAS No. 154 requires retrospective application for voluntary changes in accounting principle unless it is impracticable to do so. SFAS No. 154's retrospective application requirement replaces Accounting Principles Board Opinion 20's requirement to recognize most voluntary changes in accounting principle by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. If the cumulative effect of the change in accounting principle can be determined, but it is impracticable to determine the specific effects of an accounting change on one or more prior periods presented, the change in accounting policy will have to be applied to balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable, with a corresponding adjustment made to the opening balance of retained earnings or other components of equity (e.g., accumulated other comprehensive income) for that period. If it is impracticable to determine the cumulative effect of applying a change in accounting principle, the new accounting principle is to be applied prospectively from the earliest date practicable. If retrospective application for all prior periods is impracticable, the method used to report the change and the reason that retrospective application is impracticable are to be disclosed. The requirements of SFAS No. 154 are effective for accounting changes made in fiscal years beginning after December 15, 2005.

**TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations**

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations.

General

TierOne Bank (Bank), a subsidiary of TierOne Corporation (Company), is a \$3.2 billion federally chartered stock savings bank headquartered in Lincoln, Nebraska. Established in 1907, the Bank offers customers a wide variety of full-service consumer, commercial and agricultural banking products and services through a network of 68 banking offices located in Nebraska, Iowa and Kansas and eight loan production offices located in Arizona, Colorado, Florida, Minnesota and North Carolina. Product offerings include residential, commercial and agricultural real estate loans; consumer, construction, business and agricultural operating loans; warehouse mortgage lines of credit; consumer and business checking and savings plans; investment and insurance services; and telephone and internet banking.

The Company's results of operations depend primarily on the results of operations of the Bank. The Bank's results of operations depend, to a large extent, on net interest income, which is the difference between the income earned on its loan and investment securities portfolios and the cost of funds, consisting of the interest paid on deposits and borrowings. Noninterest income, noninterest expense and provisions for loan losses also affect results of operations. Noninterest income consists primarily of fees and service charges related to deposit and lending activities and gains on loans held for sale. Noninterest expense consists of compensation and employee benefits, office occupancy and equipment, data processing, advertising and other operating expense. The Company's results of operations are also significantly affected by general economic and competitive conditions, particularly changes in interest rates, government policies and actions of regulatory authorities. Future changes in applicable law, regulations or government policies may materially impact the Company's financial condition and results of operations.

As used in this report, unless the context otherwise requires, the terms we, us, or our refer to the Company and the Bank.

Management's Discussion and Analysis of Financial Condition
and Results of Operations**

Forward-Looking Statements

Statements contained in this quarterly report on Form 10-Q which are not historical facts may be forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are subject to risks and uncertainties which could cause actual results to differ materially from those currently anticipated due to a number of factors. Factors which could result in material variations include, but are not limited to:

Changes in interest rates which could affect net interest margins and net interest income;

Competitive factors which could affect net interest income and noninterest income;

Changes in demand for loans, deposits and other financial services in the Company's market area;

Changes in asset quality and general economic conditions;

Unanticipated issues associated with the execution of the Company's strategic plan;

Other factors discussed in documents filed by the Company with the Securities and Exchange Commission from time to time.

These factors should be considered in evaluating the forward-looking statements and undue reliance should not be placed on such statements. The Company undertakes no obligation, and disclaims any obligation, to update information contained in this quarterly report on Form 10-Q, including these forward-looking statements, to reflect events or circumstances that occur after the date of the filing of this quarterly report on Form 10-Q.

TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations

Comparison of Financial Condition at June 30, 2005 and December 31, 2004

Assets

General. Our total assets were \$3.2 billion at June 30, 2005, a \$156.2 million, or 5.1%, increase compared to \$3.0 billion at December 31, 2004. We continue to realign our balance sheet to focus our efforts on attracting loans with relatively higher yields, adjustable interest rates and/or shorter terms to maturity while seeking to maintain a loan portfolio with a high level of asset quality.

Investment Securities. Our available for sale investment securities amounted to \$116.5 million at June 30, 2005, an \$11.3 million, or 8.8%, decrease compared to \$127.8 million at December 31, 2004. The decrease in our available for sale investment securities was primarily due to \$13.8 million in proceeds from maturing and sold investment securities partially offset by a security purchase of \$3.0 million. Our mortgage-backed securities portfolio, all of which are recorded as available for sale, amounted to \$27.7 million at June 30, 2005, an \$8.5 million, or 23.5%, decrease compared to \$36.2 million at December 31, 2004. The decrease in our mortgage-backed securities portfolio was primarily the result of \$8.2 million of principal payments received during the six months ended June 30, 2005.

Loans Receivable. Net loans (after allowance for loan losses) totaled \$2.8 billion at June 30, 2005, a \$178.6 million, or 6.8%, increase compared to December 31, 2004. This increase was primarily attributable to increased originations in our residential construction, commercial construction, warehouse mortgage lines of credit and commercial real estate and land loan portfolios partially offset by a decline in our second mortgage residential loan portfolio. Residential construction loans totaled \$745.0 million at June 30, 2005, a \$143.9 million, or 23.9%, increase compared to \$601.1 million at December 31, 2004. During the six months ended June 30, 2005, we originated \$283.3 million and purchased through correspondents \$250.6 million of residential construction loans which were partially offset by \$390.9 million of payoffs. Commercial real estate and land loans amounted to \$622.5 million at June 30, 2005, a \$25.4 million, or 4.3%, increase compared to \$597.1 million at December 31, 2004. Commercial construction loans increased \$78.1 million, or 27.7%, to \$360.5 million at June 30, 2005 compared to \$282.4 million at December 31, 2004. The increase was primarily attributable to increased origination of commercial construction loans in our primary lending market area (Nebraska, Iowa, Kansas, Arizona, Colorado, Florida, Minnesota and North Carolina). Warehouse mortgage lines of credit increased \$47.8 million, or 36.0%, to \$180.7 million at June 30, 2005 compared to \$132.9 million at December 31, 2004. The increase in warehouse mortgage lines of credit was primarily attributable to increased lending volume in June 2005. Second mortgage residential loans totaled \$204.7 million at June 30, 2005, a \$50.5 million, or 19.8%, decrease compared to \$255.2 million at December 31, 2004. The decrease in our second mortgage residential loans at June 30, 2005 was primarily attributable to principal payments and prepayments.

TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations

The Bank's focus on loans with relatively higher yields, adjustable interest rates and/or shorter terms to maturity, as well as our expanded loan origination capabilities, contributed to \$842.3 million of gross loan originations, exclusive of warehouse mortgage lines of credit and loan purchases, for the six months ended June 30, 2005. Gross originations do not directly correlate to net loans due to timing of construction loan advances, repayments and undisbursed lines of credit but reflect in part future loan commitments.

Allowance for Loan Losses. Our allowance for loan losses increased \$1.5 million, or 5.7%, to \$28.3 million at June 30, 2005 compared to \$26.8 million at December 31, 2004. Charge-offs, net of recoveries, were \$1.2 million during the six months ended June 30, 2005, an increase of \$456,000, or 61.7%, compared to \$739,000 for the six months ended June 30, 2004. The increase was primarily the result of the charge-off of a multi-family residential loan acquired in the United Nebraska Financial Co. (UNFC) transaction during the three months ended June 30, 2005. Our ratio of the allowance for loan losses to net loans was 1.00% and 1.01% at June 30, 2005 and December 31, 2004, respectively.

Goodwill and Other Intangible Assets. Our goodwill at June 30, 2005 was \$42.3 million and relates to our acquisition of UNFC in 2004. Goodwill is subject to periodic impairment analysis which will be completed during the third quarter of 2005. Other intangible assets totaled \$10.9 million at June 30, 2005, a decrease of \$935,000, or 7.9%, compared to \$11.9 million at December 31, 2004 and relates to the core deposits recorded as a result of the UNFC acquisition. The decrease was attributable to amortization during the six months ended June 30, 2005.

Other Assets. Our other assets increased \$2.4 million, or 10.2%, to \$26.0 million at June 30, 2005 compared to \$23.6 million at December 31, 2004. At June 30, 2005, the largest item recorded in other assets was mortgage servicing assets of \$10.7 million. The remainder consisted of

prepaid expenses, miscellaneous receivables and other miscellaneous assets.

Liabilities and Stockholders' Equity

General. Our total liabilities were \$2.9 billion at June 30, 2005, an \$143.6 million, or 5.2%, increase compared to December 31, 2004. We utilized Federal Home Loan Bank (FHLB) advances and other borrowings and increased deposits to fund our lending activities.

**TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations**

Deposits. Our total deposits increased by \$71.6 million, or 3.8%, to \$1.9 billion at June 30, 2005. Time deposits increased \$90.8 million, or 9.4%, to \$1.1 billion at June 30, 2005 compared to \$967.8 million at December 31, 2004. The increase in our time deposits was primarily the result of two promotions held during the six months ended June 30, 2005 to attract new deposit accounts and establish new customer relationships. The weighted average rate of our time deposits was 3.21% at June 30, 2005 compared to 2.77% at December 31, 2004. Money market accounts totaled \$331.3 million at June 30, 2005, an increase of \$40.2 million, or 13.8%, compared to \$291.1 million at December 31, 2004. The increase in our money market accounts was attributable to customers transitioning to this product from other transaction accounts due to the rising interest rate environment. The weighted average rate of our money market accounts was 1.61% at June 30, 2005 compared to 1.09% at December 31, 2004. Our interest-bearing checking accounts totaled \$369.8 million at June 30, 2005, a \$44.3 million, or 10.7%, decrease compared to \$414.1 million at December 31, 2004. Noninterest-bearing checking accounts totaled \$107.8 million at June 30, 2005, a decrease of \$4.4 million, or 4.0%, compared to \$112.2 million at December 31, 2004. The decrease in interest-bearing and noninterest-bearing checking accounts was primarily the result of customer migration to money market and time deposit accounts due to a rising interest rate environment. Brokered time deposits (included in our time deposits) amounted to \$70.1 million at June 30, 2005, a decrease of \$54.5 million, or 43.7% compared to \$124.6 million at December 31, 2004. Brokered time deposits maturing during the six months ended June 30, 2005 totaled \$94.2 million which was partially offset by the purchase of \$40.0 million of brokered time deposits. We utilize brokered time deposits as an additional funding source for loan origination and purchase activity.

FHLB Advances and Other Borrowings. Our FHLB advances and other borrowings amounted to \$917.3 million at June 30, 2005, a \$75.6 million, or 9.0%, increase compared to \$841.7 million at December 31, 2004. The increase in FHLB advances and other borrowings at June 30, 2005 was primarily attributable to \$125.0 million of convertible fixed-rate advances from the FHLB partially offset by the repayment of \$30.4 million of FHLB advances and a \$31.7 million reduction in our outstanding line of credit with the FHLB. We have utilized FHLB advances to augment deposits as a funding source for loan origination and purchase activity. Our outstanding line of credit with the FHLB was \$229.5 million at June 30, 2005 compared to \$261.2 million at December 31, 2004. The weighted average rate of our FHLB advances and other borrowings was 3.65% at June 30, 2005, an increase of 40 basis points compared to 3.25% at December 31, 2004. The increase in the weighted average rate of our FHLB advances and other borrowings was primarily attributable to rising interest rates on our short-term advances and a change in the composition of our FHLB advances and other borrowings during the six months ended June 30, 2005.

**TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations**

Stockholders' Equity. At June 30, 2005, stockholders' equity totaled \$289.6 million, an increase of \$12.6 million, or 4.5%, from December 31, 2004. The increase in stockholders' equity primarily reflects net income of \$14.8 million during the six months ended June 30, 2005, \$1.8 million related to common stock earned by participants in the Employee Stock Ownership Plan (ESOP) and \$1.6 million related to amortization of awards under the 2003 Management Recognition and Retention Plan (MRRP) partially offset by the purchase of 147,289 shares of common stock at a cost of \$3.6 million and \$1.8 million in cash dividends paid to the Company's stockholders. The Company paid cash dividends of \$0.05 per common share on March 31, 2005 to shareholders of record on March 15, 2005 and \$0.06 per common share on June 30, 2005 to shareholders of record on June 15, 2005. For further discussion regarding the Company's common stock repurchases, see Part II, Item 2 Unregistered Sales of Equity Securities and Use of Proceeds .

**TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations**

Comparison of Operating Results for the Three and Six Months Ended June 30, 2005 and June 30, 2004

Net Income. Net income for the three months ended June 30, 2005 was \$7.6 million, or \$0.46 per diluted share (\$0.47 per basic share), compared to net income of \$5.6 million, or \$0.32 per diluted share (\$0.33 per basic share), for the three months ended June 30, 2004. Net income for the six months ended June 30, 2005 was \$14.8 million, or \$0.89 per diluted share (\$0.91 per basic share), compared to net income of \$11.6 million, or \$0.66 per diluted share (\$0.67 per basic share), for the six months ended June 30, 2004.

Net Interest Income. Net interest income is the principal source of earnings for the Company, and consists primarily of interest income on loans receivable and investment and mortgage-backed securities, offset by interest expense on deposits and borrowed funds. Net interest income is determined by interest rate spread (i.e., the difference between the yields earned on interest-earning assets and the rates paid on interest-bearing liabilities) and also by the amount of interest-earning assets relative to interest-bearing liabilities. Generally, we are able to increase our net interest income at a faster pace when the spread between short-term and long-term U.S. Treasury rates is positive, due to funding costs being more directly tied to shorter-term rates, while loan rates are tied to intermediate to longer-term rates. Net interest income before provision for loan losses was \$25.7 million for the three months ended June 30, 2005, an increase of \$8.6 million, or 50.0%, compared to \$17.1 million for the three months ended June 30, 2004. For the six months ended June 30, 2005, our net interest income totaled \$50.0 million, an increase of \$15.2 million, or 43.4%, compared to \$34.9 million for the six months ended June 30, 2004. The increases in net interest income were attributable to the continued growth of our loan portfolio and increased yields on interest-earning assets.

**TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations**

Our average interest rate spread for the three months ended June 30, 2005 and June 30, 2004 was 3.32% and 2.84%, respectively. Our average interest rate spread increased to 3.28% for the six months ended June 30, 2005 compared to 2.92% for the six months ended June 30, 2004. The average yield on interest-earning assets for the three months ended June 30, 2005 was 5.92%, a 77 basis point increase compared to 5.15% for the three months ended June 30, 2004. The average yield on interest-earning assets for the six months ended June 30, 2005 was 5.77% compared to 5.22% for the six months ended June 30, 2004, an increase of 55 basis points. Our net interest margin (net interest income divided by average interest-earning assets) for the three and six month periods ended June 30, 2005 was 3.56% and 3.51%, respectively, compared to 3.15% and 3.25% for the three and six month periods ended June 30, 2004, respectively. The increase in our average interest rate spread and net interest margin was primarily due to an increase in the average balance of interest-earning assets coupled with the increase in the average yield earned on interest-earning assets. The ratio of average interest-earning assets to average interest-bearing liabilities declined to 110.02% and 110.13% for the three and six months ended June 30, 2005, respectively, compared to 116.04% and 116.63% for the three and six months ended June 30, 2004, respectively. This decrease was the result of a \$37.7 million and \$44.1 million decline in the average balance of net interest earning assets for the three and six months ended June 30, 2005, respectively, resulting primarily from recognition of goodwill associated with the UNFC acquisition and funding of the Company's stock repurchase program.

Interest Income. Our total interest income for the three months ended June 30, 2005 was \$42.7 million, a \$14.7 million, or 52.7%, increase compared to \$28.0 million for the three months ended June 30, 2004. Interest income on loans receivable increased \$13.6 million, or 50.1%, to \$40.6 million for the three months ended June 30, 2005 compared to \$27.1 million for the three months ended June 30, 2004. The average balance of loans receivable during the three months ended June 30, 2005 was \$2.7 billion, an increase of \$593.3 million, or 28.4%, compared to \$2.1 billion for the three months ended June 30, 2004. The average yield earned on the loan portfolio was 6.07% and 5.19% for the three months ended June 30, 2005 and June 30, 2004, respectively.

For the six months ended June 30, 2005 our interest income totaled \$82.2 million, a \$26.2 million, or 46.7%, increase compared to \$56.1 million for the six months ended June 30, 2004. The average balance of loans receivable totaled \$2.6 billion for the six months ended June 30, 2005, an increase of \$584.2 million, or 28.4%, compared to \$2.1 billion for the six months ended June 30, 2004. The average yield earned on the loan portfolio was 5.92% and 5.28% for the six months ended June 30, 2005 and June 30, 2004, respectively.

The increase in interest income for the three and six month periods ended June 30, 2005 was primarily attributable to increases in the average balances of loans receivable and average yield earned on the loan portfolio. The increase in the average balance of loans receivable was the result of loans acquired from the UNFC acquisition and our loan origination and purchase activities. The increase in the average yield earned on loans receivable was the result of our strategy to sustain our loan portfolio holdings of loans with relatively higher yields, adjustable interest rates and/or shorter terms to maturity.

TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations

Interest Expense. Our total interest expense for the three months ended June 30, 2005 was \$17.0 million, a \$6.2 million, or 57.0%, increase compared to \$10.8 million for the three months ended June 30, 2004. Interest expense on deposits totaled \$9.9 million for the three months ended June 30, 2005, an increase of \$4.1 million, or 69.0%, compared to \$5.9 million for the three months ended June 30, 2004. The average balance of interest-bearing deposits totaled \$1.8 billion for the three months ended June 30, 2005, an increase of \$581.2 million, or 46.4%, compared to \$1.3 billion for the three months ended June 30, 2004. The average rate paid on interest-bearing deposits was 2.17% for the three months ended June 30, 2005 compared to 1.88% for the three months ended June 30, 2004. Interest expense on FHLB advances and other borrowings increased \$2.1 million, or 42.8%, to \$7.1 million for the three months ended June 30, 2005 compared to \$5.0 million for the three months ended June 30, 2004. The average balance of our FHLB advances and other borrowings increased \$167.0 million, or 26.9%, to \$787.9 million for the three months ended June 30, 2005 compared to \$620.8 million for the three months ended June 30, 2004. The average rate paid on our FHLB advances and other borrowings was 3.60% and 3.20% for the three months ended June 30, 2005 and June 30, 2004, respectively.

Our total interest expense for the six months ended June 30, 2005 totaled \$32.2 million, an \$11.0 million, or 51.9%, increase compared to \$21.2 million for the six months ended June 30, 2004. Interest expense on deposits amounted to \$18.8 million for the six months ended June 30, 2005, an increase of \$7.3 million, or 63.3%, compared to \$11.5 million for the six months ended June 30, 2004. The average balance of interest-bearing deposits totaled \$1.8 billion for the six months ended June 30, 2005, an increase of \$588.3 million, or 47.7%, compared to \$1.2 billion for the six months ended June 30, 2004. The average rate paid on interest-bearing deposits was 2.07% for the six months ended June 30, 2005 compared to 1.87% for the six months ended June 30, 2004. Interest expense on FHLB advances and other borrowings totaled \$13.4 million for the six months ended June 30, 2005, an increase of \$3.7 million, or 38.4%, compared to \$9.7 million for the six months ended June 30, 2004. The average balance of our FHLB advances and other borrowings totaled \$765.8 million for the six months ended June 30, 2005, an increase of \$157.3 million, or 25.9%, compared to \$608.5 million for the six months ended June 30, 2004. The average rate paid on our FHLB advances and other borrowings was 3.49% and 3.17% for the six months ended June 30, 2005 and June 30, 2004, respectively.

The primary reason for the increase in interest expense for the three and six month periods ended June 30, 2005 was the increase in the average balance of interest-bearing deposits which was attributable to deposits acquired in the UNFC transaction. Additionally, the increase in interest expense was also attributable to an increase in the average balance of FHLB advances and other borrowings and increased interest rates.

and Results of Operations

Rate/Volume Analysis. The following table shows the extent to which changes in interest rates and changes in the volume of interest-related assets and liabilities affected our interest income and expense during the periods indicated. For each category of interest-earning assets and interest-bearing liabilities, information is provided on changes attributable to (i) changes in rate (change in rate multiplied by prior year volume) and (ii) changes in volume (change in volume multiplied by prior year rate). The combined effect of changes in both rate and volume has been allocated proportionately to the change due to rate and the change due to volume.

Provision for Loan Losses. We made a provision for loan losses of \$1.9 million for the three months ended June 30, 2005 compared to \$1.1 million for the three months ended June 30, 2004, an increase of \$818,000, or 74.0%. For the six months ended June 30, 2005 our provision for loan losses totaled \$2.7 million, an increase of \$672,000, or 33.0%, compared to \$2.0 million for the six months ended June 30, 2004. We have made provisions in order to maintain the allowance for loan losses at a level we believe, to the best of our knowledge, covers all known and inherent losses in the portfolio that are both probable and reasonable to estimate at the relevant date. At June 30, 2005, our total nonperforming loans amounted to \$7.7 million, or 0.27% of net loans, compared to \$10.2 million, or 0.39% of net loans, at December 31, 2004. Our total nonperforming assets totaled \$9.9 million, or 0.31%, of total assets at June 30, 2005, compared to \$10.6 million, or 0.35%, of total assets at December 31, 2004. During the three months ended June 30, 2005 and June 30, 2004, we charged-off, net of recoveries, \$828,000 and \$305,000, respectively. During the six months ended June 30, 2005 and June 30, 2004, we charged-off, net of recoveries, \$1.2 million and \$739,000, respectively. Charge-offs during the six months ended June 30, 2005 consisted primarily of one multi-family residential loan acquired in the UNFC transaction combined with automobile and other consumer-related loans. At June 30, 2005, December 31, 2004 and June 30, 2004, our allowance for loan losses amounted to 1.00%, 1.01% and 1.00%, respectively, of net loans.

Noninterest Income. Total noninterest income for the three months ended June 30, 2005 was \$6.3 million and was essentially unchanged from the three months ended June 30, 2004. Noninterest income for the three months ended June 30, 2005 included a \$993,000 increase in deposit account fees, a \$497,000 increase in non-deposit and lending related fees and a \$231,000 reduction in mortgage servicing rights amortization expense. These increases were offset by a \$515,000 reduction in gains on the sale of investment securities and loans held for sale combined with a \$123,000 mortgage servicing right impairment for the three months ended June 30, 2005 rather than the \$1.2 million recapture of previous mortgage servicing right impairments recorded during the three months ended June 30, 2004.

For the six months ended June 30, 2005, total noninterest income was \$12.3 million, a \$577,000, or 4.9%, increase compared to \$11.7 million for the six months ended June 30, 2004. The increase was primarily attributable to increases of \$1.7 million in deposit account fees, \$1.5 million in non-deposit and lending related fees and a \$209,000 reduction in mortgage servicing right amortization expense. These increases were partially offset by a \$1.5 million reduction in other operating income related almost entirely to a one-time gain in early 2004 associated with the Bank's merger of its defined benefit pension plan with an unrelated third party plan. Additionally, a \$1.2 million recapture of previous mortgage servicing right impairments was recorded during the six months ended June 30, 2004 which we did not realize during the six months ended June 30, 2005.

38

**TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations**

Noninterest Expense. Our noninterest expense increased by \$4.3 million, or 32.1%, to \$17.7 million for the three months ended June 30, 2005 compared to \$13.4 million for the three months ended June 30, 2004. The increase in noninterest expense resulted primarily from a \$2.4 million increase in employee compensation and benefits, a \$1.2 million increase in other operating expenses and a \$387,000 increase in

occupancy expense. The increase in noninterest expense for the three months ended June 30, 2005 was primarily attributable to the August 2004 UNFC acquisition.

Our noninterest expense increased by \$9.7 million, or 37.5%, to \$35.7 million for the six months ended June 30, 2005 compared to \$26.0 million for the six months ended June 30, 2004. The increase was primarily the result of a \$4.7 million increase in employee compensation and benefits, a \$3.3 million increase in other operating expenses and a \$1.1 million increase in occupancy expense. The increase in noninterest expense for the six months ended June 30, 2005 was primarily the result of expenses incurred as a result of the UNFC acquisition.

Income Tax Expense. Our income tax expense increased by \$1.5 million, or 43.5%, to \$4.8 million for the three months ended June 30, 2005 compared to \$3.3 million for the same period in 2004. For the six months ended June 30, 2005 our income tax expense totaled \$9.1 million, an increase of \$2.2 million, or 31.2%, compared to \$6.9 million for the six months ended June 30, 2004. The increase in income tax expense for the three and six months ended June 30, 2005 compared to the same periods in 2004 was primarily due to an increase in net income and an increase in our effective income tax rate. The effective income tax rate for the three months ended June 30, 2005 was 38.7% compared to 37.5% for the three months ended June 30, 2004. Our effective income tax rate for the six months ended June 30, 2005 was 38.1% compared to 37.4% for the six months ended June 30, 2004.

and Results of Operations

Liquidity

Our primary sources of funds are deposits, amortization of loans, loan prepayments and maturity of loans, mortgage-backed securities and other investments and other funds provided from operations. While scheduled payments from the amortization of loans and mortgage-backed securities and maturing investment securities are relatively predictable sources of funds, deposit flows and loan and mortgage-backed securities prepayments can be greatly influenced by general interest rates, economic conditions and competition. Additionally, we utilize FHLB advances, brokered time deposits and available for sale loans as additional funding sources.

We use our liquidity to fund existing and future loan commitments, maturing time deposits and demand deposit withdrawals, to invest in other interest-earning assets and to meet operating expenses. At June 30, 2005, we had time deposits maturing within the next 12 months totaling \$555.4 million. Based upon historical experience, we anticipate that a significant portion of the maturing time deposits will be redeposited with us.

In addition to cash flow from loan and securities payments and prepayments, we have additional borrowing capacity available to fund our asset growth. We continue to utilize borrowings as a cost efficient addition to deposits as a source of funds. The average balance of our FHLB advances and other borrowings was \$787.9 million and \$620.8 million for the three months ended June 30, 2005 and June 30, 2004, respectively. The average balance of our FHLB advances and other borrowings was \$765.8 million and \$608.5 million for the six months ended June 30, 2005 and June 30, 2004, respectively. To date, substantially all of our borrowings have consisted of advances from the FHLB, of which we are a member. Pursuant to blanket collateral agreements with the FHLB, the Bank pledged qualifying residential, multi-family residential and commercial real estate mortgages, residential construction, commercial construction and agricultural real estate loans as collateral for such advances. Other qualifying collateral can be pledged in the event additional borrowing capacity is required.

Contractual Obligations, Commitments, Contingent Liabilities and Off-Balance Sheet Arrangements

We use our liquidity to fund existing and future loan commitments, to fund maturing time deposits and demand deposit withdrawals, to invest in other interest-earning assets and to meet operating expenses. At June 30, 2005, we had the following contractual obligations (excluding bank deposits and interest) and lending commitments:

Due In

<i>(Dollars in thousands)</i>	Due In				
	Total at June 30, 2005	1 Year	1-3 Years	3-5 Years	After 5 Years
Contractual obligations:					
Federal Home Loan Bank advances and other borrowings	\$ 917,290	\$ 367,026	\$ 42,014	\$ 80,330	\$ 427,920

Business loans	141,986	141,986	--	--	--
Consumer loans	125,620	125,620	--	--	--
Total lending commitments and unused lines of credit	\$ 1,264,352	\$ 1,264,352	\$ --	\$ --	\$ --

41

**TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations**

We have not used any significant off-balance sheet financing arrangements for liquidity purposes or otherwise. Our primary financial instruments with off-balance sheet risk are limited to loan servicing for others, our obligations to fund loans to customers pursuant to existing commitments and commitments to purchase and sell mortgage loans. In addition, we have certain risks due to limited recourse arrangements on loans serviced for others and recourse obligations related to loan sales. At June 30, 2005, the maximum total dollar amount of such recourse was approximately \$14.5 million. Based on historical experience, at June 30, 2005, we had established a liability of \$738,000 with respect to this recourse obligation. In addition, we have not had, and have no intention to have, any significant transactions, arrangements or other relationships with any unconsolidated, limited purpose entities.

Regulatory Capital

At June 30, 2005, the Bank's regulatory capital exceeded regulatory limits set by the Office of Thrift Supervision. The current regulatory requirements and the Bank's actual levels at June 30, 2005 are set forth in the following table:

<i>(Dollars in thousands)</i>	Required Capital		Actual Capital		Excess Capital	
	Amount	Percent	Amount	Percent	Amount	Percent
Tangible capital	\$ 47,213	1.50%	\$ 249,327	7.92%	\$ 202,114	6.42%
Tier 1 (core) capital	125,901	4.00%	249,327	7.92%	123,426	3.92%
Total risk-based capital	218,192	8.00%	277,674	10.18%	59,482	2.18%

Required Capital

Actual Capital

Excess Capital

The Bank remains classified as a well capitalized financial institution under Federal regulatory guidelines.

Selected Operating Ratios

Selected operating and other ratios (annualized where appropriate) at or for the three and six months ended June 30, 2005 and June 30, 2004 are presented in the following table:

	At or for the Three Months Ended June 30,		At or for the Six Months Ended June 30,	
	2005	2004	2005	2004
Selected Operating Ratios:				
Average yield on interest-earning assets	5.92%	5.15%	5.77%	5.22%
Average rate on interest-bearing liabilities	2.60	2.31	2.49	2.30
Average interest rate spread	3.32	2.84	3.28	2.92
Net interest margin	3.56	3.15	3.51	3.25
Average interest-earning assets to average interest-bearing liabilities	110.02	116.04	110.13	116.63
Net interest income after provision for loan losses to noninterest expense	134.32	119.61	132.43	126.33
Total noninterest expense to average assets	2.30	2.37	2.35	2.32
Efficiency ratio (1)	53.79	57.20	55.82	55.77
Return on average assets	0.99	0.98	0.97	1.04
Return on average equity	10.68	7.93	10.45	8.05
Average equity to average assets	9.26	12.42	9.29	12.92
Other Ratios:				
Nonperforming loans as a percent of net loans	0.27	0.17	0.27	0.17
Nonperforming assets as a percent of total assets	0.31	0.21	0.31	0.21
Allowance for loan losses as a percent of nonperforming loans	367.24	589.33	367.24	589.33
Allowance for loan losses as a percent of net loans	1.00	1.00	1.00	1.00

(1) Efficiency ratio is calculated as total noninterest expense, less amortization expense of intangible assets, as a percentage of the sum of net interest income and noninterest income.

43

Item 3 Quantitative and Qualitative Disclosures About Market Risk.

For a discussion of our asset and liability management policies as well as the methods used to manage our exposure to the risk of loss from adverse changes in market prices and rates market, see Management's Discussion and Analysis of Financial Condition and Results of Operations How We Manage Our Risks and Quantitative and Qualitative Disclosures About Market Risk in the Company's Annual Report on Form 10-K for the year ended December 31, 2004. There has been no material change in our market risk position since our prior disclosures.

Item 4 Controls and Procedures.

Our management evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of the date of such evaluation to ensure that material information relating to us, including our consolidated subsidiaries, was made known to them by others within those entities, particularly during the period in which this report was being prepared. There was no change in our internal control over financial reporting that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

44

PART II OTHER INFORMATION**Item 1 Legal Proceedings.**

There have been no substantive changes with respect to legal proceedings during the three and six months ended June 30, 2005. Disclosures regarding legal proceedings are incorporated by reference to Part I, Item 3, Legal Proceedings in the Company's Annual Report on Form 10-K for the year ended December 31, 2004.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds.

The following table details the Company's purchases of common stock during the three months ended June 30, 2005:

	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs*	Maximum Number of Shares that May Yet Be Purchased Under Plans or Programs
April 2005				
Beginning Date - April 1, 2005				
Ending Date - April 30, 2005	6,489	\$ 22.80	6,489	1,681,292
May 2005				
Beginning Date - May 1, 2005				
Ending Date - May 31, 2005	--	--	--	1,681,292
June 2005				
Beginning Date - June 1, 2005				
Ending Date - June 30, 2005	--	--	--	1,681,292
Total shares purchased during the three months ended June 30, 2005	6,489	\$ 22.80		

* Information related to the Company's publicly announced plan authorizing purchases of its common stock during the three months ended June 30, 2005, is as follows:

Date Purchase Plan Announced	Number of Shares Approved for Purchase	Expiration Date of Purchase Plan
July 27, 2004	1,828,581	No stated expiration date

45

Item 3 Defaults Upon Senior Securities.

There are no matters required to be reported under this item.

Item 4 Submission of Matters to a Vote of Security Holders.

At the Company's Annual Meeting of Shareholders held on May 2, 2005, the following individuals were elected to the Company's Board of Directors:

Proposal	For	Withheld / Against	Abstain	Broker Non-Votes
James A. Laphen	13,745,582	676,255	N/A	N/A
Campbell R. McConnell, Ph.D	13,545,537	876,300	N/A	N/A

The terms of office for the following directors continued after the Company's Annual Meeting of Shareholders: Gilbert G. Lundstrom, Esq. and Joyce Person Pocras (terms expire in 2006) and Ann Lindley Spence and Charles W. Hoskins (terms expire in 2007).

Item 5 Other Information.

There are no matters required to be reported under this item.

Item 6 Exhibits.

The exhibits filed or incorporated as part of this Form 10-Q are specified in the Exhibit Index.
