Report on Executive Compensation

The Human Resources and Compensation Committee of the Board of Directors oversees the compensation of executive officers of the Corporation. The members of the Human Resources and Compensation Committee for the the financial year ending December 31, 2006 were Dr. Roger Guy, Paul McDonald and Randall Lanham.

The Corporation's current compensation policy for its executive officers, including the Chief Executive Officer and the Named Executive Officers, emphasizes the granting of options over base salary as a means of attracting, motivating and retaining talented individuals. Such a policy is believed to better further the Corporation's business goals by allocating more financial resources to the Corporation's ongoing product development programs.

The Corporation's policy is designed and administered in a manner that is intended to link corporate performance with executive compensation while maximizing shareholder value. The stock option plan provides long-term incentives to the Corporation's officers and employees to advance the Corporation's drug development programs towards commercialization and to enhance shareholder value. The Corporation endeavors to provide salaries and option grants that are internally equitable and that are consistent with both job performance and ongoing progress towards corporate goals. The amount of option grants is determined in part by the amount and terms of outstanding options, the experience and expertise of each executive officer and the needs of the Corporation, among other factors.

5

The Corporation's policy at present is not to provide annual performance bonuses or salary increases and the associated performance criteria and reviews, given the current stage of the Corporation's development.

Performance Graph

The following graph compares the cumulative total shareholder return for a \$100 investment in common shares of the Corporation made December 31, 2000 on the NASDAQ market and the cumulative total return of the NASDAQ Biotechnology Index for the period ending April 23, 2007.

8) STOCK OPTION PLAN

The Corporation has created a stock option plan (the Plan) for key employees, officers and directors and certain consultants of the Corporation and its subsidiaries. The Plan was adopted by the Board of Directors of the Corporation on November 27, 1995. On May 15, 1998, the Board of Directors amended the Plan in order to increase the maximum number of common shares, which may be issued under the Plan from 2,000,000 to 2,500,000 shares. As an item of special business, the shareholders will be asked at the Meeting to adopt a resolution, as set out in Schedule B attached to this Circular, to approve two amendments to the Plan approved by the Board on March 16, 2007. To be adopted, the resolution must be approved by a majority of the votes cast on the matter at the Meeting. The first amendment to the Plan increases the maximum number of common shares, which may be issued under the Plan from 2,500,000 to 5,500,000 shares; the second amendment increases the maximum number of common shares that may be optioned to any one individual from 5% to 15%. Under the current Plan, the total number of common shares to be optioned to any one individual cannot exceed 5% of the total of the issued and outstanding shares of the Corporation.

The Plan is administered by the Board of Directors of the Corporation. The Board of Directors may from time to time designate individuals to whom options to purchase common shares of the capital stock of the Corporation may be granted and the number of shares to be optioned to each. The option price per share for common shares which are the subject of any option is fixed by the Board of Directors when such option is granted. The option price cannot involve a discount to the market price of the common shares at the time the option is granted. The period during which an option is exercisable cannot exceed 10 years from the date the option is granted. The options may not be assigned, transferred or pledged and expire after the termination of the optionee's employment or office with the Corporation or any of its subsidiaries or upon the death of the optionee.

6

As at April 23, 2007, options granted by the Board of Directors to purchase up to 2,181,000 common shares of the Corporation are outstanding, the details of which are listed in the table below. Of these, 158,750 options are not vested. A total of 287,900 options have been exercised from the date of the Plan's adoption (November 27, 1995) to April 23, 2007.

These options vest over a period of five years, commencing on August 24, 2007. In order to be effective, the grant requires approval by the shareholders of the Company of an amendment of the Plan to increase the maximum number of shares that may be issued under the Plan.

On March 16, 2007, the Board of Directors amended the Plan, subject to shareholder approval, in order to increase the maximum number of common shares may be issued under the Plan from 2,500,000 to 5,500,000 shares, to increase the maximum total number of common shares that may be optioned to any one individual from 5% to 15% of the total of issued and outstanding shares and to clarify that the number of common shares represented by expired, lapsed or terminated options or by exercised options will be available for subsequent option grants under the Plan. As an item of special business at this Meeting, the shareholders will be asked to adopt a resolution, as set out in Schedule B attached to this Circular, to approve these amendments to the Plan. In accordance with the rules of the NASDAQ stock market, the amendment to the Plan must be approved by a majority of the votes cast at the Meeting, other than votes attaching to common shares beneficially owned by insiders to whom common shares may be issued pursuant to the Plan and their associates. The other two directors are not independent: Dr. Paul Averback is the President and CEO of the Corporation and Mr. Jack Gemmell is a member of the senior management of the Corporation.

None of the directors are presently a director of another reporting issuer.

Since the last Annual Meeting of Shareholders held on June 8, 2006, in order to facilitate open and candid discussion among its independent directors, the independent directors arranged to meet at least three times both informally (in person and by telephone) and in executive sessions following Audit Committee meetings when non-independent directors and members of management were not in attendance.

The Board appoints the Chairman of the Board. The current Chairman of the Board, Dr. Paul Averback, is not independent as he is the President and CEO of the Corporation. The Corporation's Lead Director is Randall Lanham.

The following table sets out the attendance record of each director for all Board of Directors meetings since the Corporation's last Annual Meeting of the Shareholders:

Name of Director	Board of Directors (4 meetings)
Dr. Paul Averback	4/4
Mr. Jack Gemmell	3/4
Randall Lanham	4/4
Paul McDonald	4/4
Dr. Roger Guy	4/4
Dr. David Morse	4/4

2. Board Mandate

The Board's written mandate is as follows:

The Board of Directors of Nymox Pharmaceutical Corporation is responsible for supervising the management of the business and affairs of the company with a view to the best interests of the company and its shareholders generally.

The Board reviews and approves matters relating to the strategic direction, business and operations and the organizational structure of the company. The Board's specific responsibilities include submitting any matter requiring shareholder approval to the shareholders, recommending candidates for election or appointment to the Board, approving the issuance of any securities and any related transactions, reviewing financings, investments, acquisitions, dispositions and other transactions not in the ordinary course of business, reviewing the compensation and

performance of the company's officers, approving the issuance of any stock options pursuant to the company's stock option plan, reviewing, approving and supervising the company's accounting principles and practices, financial statements and security filings, approving the annual budget, ensuring the proper and timely disclosure of material matters and appropriate communications with the shareholders, reviewing the corporate governance of the company and the Board, including compliance with relevant legal and ethical standards, and reviewing management practices and processes with respect to risk assessment and management and internal controls and audit functions.

¹ This Statement is made pursuant to National Instrument 58-101 Disclosure of Corporate Governance Practices and Form 58-101F1 thereto.

12

The Board appoints the Chairman of the Board, establishes its Committees and appoints directors to serve as members of those Committees. The Board meets regularly as scheduled by the Board. Special meetings of the Board may be called by the Board, the Chairman of the Board, the President or CEO of the company or by any two Directors.

3. Position Descriptions

The Board has adopted formal written position descriptions for the Chairman of the Board and the Chair of each Board committee. The Board has also adopted a formal written position description for the CEO.

4. Orientation and Continuing Education

It is anticipated that the Board will address in the current financial year what measures are needed to orient new directors regarding the role of the Board, its committees and its directors and the nature and operation of the Corporation's business. Orientation is currently provided on an informal basis through discussions with senior management about the nature and operation of the Corporation's business areas in the pharmaceutical and diagnostic industry and with other Board members about the role of the Board. The nature and extent of each director's orientation in these areas will depend on the extent to which director's experience, skills and training relate to the industry in general and the specific areas of research and product development the Corporation is engaged in. The Board has also developed written mandates for the Board and its committees, a Code of Business Conduct for directors, officers and employees of the Corporation and a Code of Ethics for Senior Financial Officers, which are available as guidance for new directors. Extensive information about the Corporation's business and financial situation is available through the Corporation's annual and quarterly reports and press releases.

The Board has relied on the prior experience and expertise of each director brought to the Board. It is anticipated that director training programs and continuing education will be provided for new directors to ensure that the directors acquire or maintain the necessary skill and knowledge to meet their obligations as directors and, where applicable, as members of the Audit Committee.

5. Ethical Business Conduct

The Board has adopted written codes for the directors, officers and employees in its Code of Ethics for Senior Financial Officers and its Code of Business Conduct for Officers, Directors and Employees. A copy is available at www.nymox.com/company/corporate_governance or by written request to the Corporation and has been filed on EDGAR and on SEDAR. The Board monitors compliance with these codes by requiring Board approval of waivers of the code by directors and executive officers and by adopting complaint procedures. Only the Audit Committee of the Board of Directors may authorize or approve any waiver of the Code of Ethics for Senior Financial Officers to the CEO and CFO and then only when truly necessary and warranted, and subject to any limitations and qualifications designed as to protect the Corporation to the greatest extent possible. Any such waiver must be disclosed promptly to the shareholders and the public. Similarly, any waivers of the Code of Business Conduct for directors and executive officers must be approved by the Board of Directors. To promote and monitor compliance with its Codes, the Corporation operates an "open door" policy with respect to the reporting of violations of the Codes or of legal or ethical standards with reporting up to the CEO and the Board where appropriate. The Board has also adopted a specific complaints procedure for reports or complaints of questionable accounting, internal accounting controls or auditing matters to be handled by the Audit Committee, including the submission of anonymous and confidential complaints. This procedure is outlined in the Code of Business Conduct in Appendix A, Policies and Procedures about Handling Complaints Regarding Accounting, Internal Accounting Controls or Auditing Matters. Since the beginning of the most recently completed financial year, no material change report has been filed that pertains to the conduct of a director or executive officer that constitutes a departure from either Code.

13

The Board has taken steps to ensure that directors exercise independent judgment in considering transactions and agreements in respect of which a director or executive officer has a material interest. Under the terms of the Conflict of Interest provision of the Corporation's by-laws, a director is required to disclose the nature and extent of his or her interest in any material contract or proposed material contract with the Corporation if he or she is a party to the contract, is a director or officer of such a party or has a material interest in such a party. Under the Board's policy, any

Director with such an interest or similar conflict of interest is required to excuse him or herself from participating in any discussion about the matter and to abstain from voting on it. As well, the Corporation's Code of Business Conduct requires officers of the Corporation to advise the CEO of any actual or potential conflict of interest situation. The CEO and CFO must advise the Audit Committee of the Board in accordance with the Code of Ethics for Senior Financial Officers.

The Board has taken other steps to encourage and promote a culture of ethical business conduct. Every officer, director and employee has received a copy of the Code of Business Conduct. The Corporation has made it a positive duty for each employee and officer to report violations of the Code or the law and to investigate any reports of such violations.

6. Nomination of Directors

The Board has not established specific procedures for the identification of new candidates for nomination to the Board. As a matter of practice, new candidates for board nomination may be proposed by a director, by management, or by a shareholder. Under the Canada Business Corporations Act, a shareholder or group of shareholders owning or controlling 5% or more of the Corporation's shares may submit a proposal to nominate a director to be included in the management proxy circular, subject to certain time limits. Nominations may also be made at the annual meeting of shareholders.

The Corporate Governance Committee which consists of the independent directors of the Board acts as the nominating committee. Under its mandate, the Corporate Governance Committee is to review and approve director nominations to ensure each nominee meets the requisite requirements under applicable corporate and securities laws, rules and regulations and otherwise possesses the skills, judgment and independence appropriate for a director of a public corporation.

7. Compensation

The Board has not established specific procedures or guidelines for the determination of compensation for the Corporation's directors and officers. As a matter of practice, the Board's Human Resources and Compensation Committee determines the compensation arrangements for directors, executive officers and key employees. The compensation arrangements for the directors sitting on the Human Resources and Compensation Committee are determined by the other directors of the Board. It is anticipated that this is an area that the Board will be addressing in the current financial year.

The Human Resources and Compensation Committee of the Board consists of three independent directors of the Board. This Committee establishes and reviews overall policy and structure with respect to compensation and employment matters, including the determination of compensation arrangements for directors, executive officers and key employees of the Corporation. When considering the compensation arrangements for the CEO, the Committee's mandate requires the committee members to meet in executive session without the presence of the CEO. The Committee is also responsible for the administration and award of options to purchase shares pursuant to the Corporation's stock option plan.

14

Since the beginning of the Corporation's most recently completed financial year, no compensation consultant or advisor has been retained to assist in determining the compensation for any of the Corporation's directors and officers.

8. Other Board Committees

The Board has established two other committees other than the Audit Committee and the Human Resources and Compensation Committee. These are the Corporate Governance Committee (which also acts as the nominating committee) and the Communications Committee.

The Corporate Governance Committee consists of three independent directors of the Board. This Committee has the general mandate of providing an independent and regular review of the management, business and affairs of the Corporation and has regularly scheduled meetings in executive session. This Committee also reviews the corporate governance of the Corporation to ensure compliance, relevance and effectiveness.

The Corporate Governance Committee also reviews and approves director nominations to ensure each nominee meets the requisite requirements under applicable corporate and securities laws, rules and regulations and otherwise possesses the skills, judgment and independence appropriate for a director of a public corporation.

The Communications Committee establishes and reviews overall policy, practices and controls as they relate to the Corporation's communications to the public and its shareholders about its business and affairs other than financial statements and related security filings within the mandate of the Audit Committee.

8. Other Board Committees

9. Assessments

Currently, the Board, its Committees and individual directors are not regularly assessed with respect to their effectiveness and contribution. The Corporation relies on the individual experience, competence and expertise of each director, the written mandates of the Board and its committees, and informal assessments in gauging a director's effectiveness and contribution in light of the needs of the Board and the Corporation.
