THE VALSPAR CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

JANUARY 27, 2012

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

NOTE 1: BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of The Valspar Corporation have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the quarter ended January 27, 2012 are not necessarily indicative of the results that may be expected for the year ending October 26, 2012.

Certain amounts in the 2011 financial statements have been reclassified to conform to the 2012 presentation. Such reclassifications had no effect on net income or stockholders' equity as previously reported.

The Condensed Consolidated Balance Sheet at October 28, 2011 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in our annual report on Form 10-K for the year ended October 28, 2011.

NOTE 2: ACCOUNTS PAYABLE

Trade accounts payable includes \$25,336 at January 27, 2012, \$42,502 at October 28, 2011 and \$24,077 at January 28, 2011, of issued checks that had not cleared our bank accounts.

**NOTE 3: ACQUISITIONS AND DIVESTITURES**

In February 2011, we acquired Isocoat Tintas e Vernizes Ltda. (Isocoat), a Brazilian powder coatings business serving customers in Brazil, Argentina and Colombia. The acquisition strengthened our manufacturing, marketing and distribution in a growing region. Isocoat had 2010 sales of approximately \$35,000. The acquisition was recorded at fair value in the second quarter of fiscal year 2011. The purchase price allocation was completed in the third quarter of fiscal year 2011. Accordingly, the net assets and operating results are included in our financial statements from the date of acquisition.

In September 2010, we acquired all the outstanding shares of Australian paint manufacturer Wattyl Limited (ASX:WYL) for approximately AUD 142,000 and assumed Wattyl's existing debt. The acquisition was paid for primarily through the use of existing cash and cash equivalents. Wattyl's fiscal year 2010 net sales were approximately AUD 386,500. Wattyl distributes leading paint brands through independent dealers, hardware chains, home centers and approximately 135 company-owned stores. The acquisition was recorded at fair value in the fourth quarter of fiscal year 2010. The purchase price allocation was completed in the first quarter of fiscal year 2011. Accordingly, the net assets and operating results are included in our financial statements from the date of acquisition.

Pro forma results of operations for the acquisitions noted above have not been presented, as they were immaterial to the reported results on an individual and combined basis.

**NOTE 4: INVENTORIES**

The major classes of inventories consist of the following:

	January 27, 2012	October 28, 2011	January 28, 2011
Manufactured products	\$231,330	\$189,754	\$261,375
Raw materials, supplies and work-in-progress	149,614	146,996	143,402

Accumulated Other Comprehensive Income (Loss)	\$ 60,200	\$ 62,779	\$ 103,480

NOTE 6: GOODWILL AND OTHER INTANGIBLE ASSETS

The carrying amount of goodwill as of January 27, 2012 decreased from the end of fiscal year 2011 by \$1,998 to \$1,056,008. The decrease is due to foreign currency translation.

Total intangible asset amortization expense for the three months ended January 27, 2012 was \$1,661, compared to \$1,843 for the same period last year. Estimated amortization expense for each of the five succeeding fiscal years based on the intangible assets as of January 27, 2012 is expected to be approximately \$7,000 annually.

NOTE 7: SEGMENT INFORMATION

Based on the nature of our products, technology, manufacturing processes, customers and regulatory environment, we aggregate our operating segments into two reportable segments: Coatings and Paints. We are required to report segment information in the same way that management internally organizes its business for assessing performance and making decisions regarding allocation of resources. We evaluate the performance of operating segments and allocate resources based on profit or loss from operations before interest expense and taxes (EBIT).

The Coatings segment aggregates our industrial and packaging product lines. Industrial products include a broad range of decorative and protective coatings for metal, wood and plastic. Packaging products include both interior and exterior coatings used in metal packaging containers, principally food containers and beverage cans. The products of this segment are sold throughout the world.

The Paints segment aggregates our consumer paints and automotive refinish product lines. Consumer paint products include interior and exterior decorative paints, primers, varnishes, high performance floor paints and specialty decorative products, such as enamels, aerosols and faux varnishes for the do-it-yourself and professional markets primarily in Australia, China and North America. Automotive paint products include refinish paints and aerosol spray paints sold through automotive refinish distributors, body shops and automotive supply distributors and retailers.

Our remaining activities are included in All Other. These activities include specialty polymers and colorants that are used internally and sold to other coatings manufacturers, as well as gelcoats and related products and furniture protection plans. Also included within All Other are our corporate administrative expenses. The administrative expenses include amortization expense, certain environmental-related expenses and other expenses not directly allocated to any other operating segment.

It is not practicable to obtain the information needed to disclose revenues attributable to each of our identified product lines within our reportable segments.

JANUARY 27, 2012

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

In the following table, sales between segments are recorded at selling prices that are below market prices, generally intended to recover internal costs. Segment EBIT includes income realized on inter-segment sales. Comparative first quarter results on this basis are as follows:

	Three Months Ended	
	January	January
	27,	28,
	2012	2011

NOTE 8: DERIVATIVE FINANCIAL INSTRUMENTS

We use derivative financial instruments to manage well-defined interest rate and foreign currency exchange risks. We enter into derivative financial instruments with high-credit-quality counterparties and diversify our positions among such counterparties to reduce our exposure to credit losses. We do not have any credit-risk-related contingent features in our derivative contracts as of January 27, 2012.

At January 27, 2012, we had \$10,010 notional amount of foreign currency contracts that mature during fiscal year 2012. These foreign currency contracts have been designated as cash flow hedges with unrealized gains or losses recorded in accumulated other comprehensive income (loss). Realized gains and losses were recognized in other expense (income) when they occurred. At January 28, 2011, we had \$9,256 notional amount of foreign currency contracts maturing in fiscal year 2011. There was no ineffectiveness for these hedges during the quarters ended January 27, 2012 or January 28, 2011.

During the first quarter of 2012, we settled \$200,000 notional amount of treasury locks as a result of issuing \$400,000 of Senior Notes on January 13, 2012, yielding a pretax loss of \$27,875. This loss is reflected, net of tax, in accumulated other comprehensive income (loss) in our Condensed Consolidated Balance Sheets as of January 27, 2012. The unamortized loss will be reclassified ratably to our Condensed Consolidated Statements of Operations as an increase to interest expense over the term of the related debt. The unamortized loss will be partially offset by previously settled contracts with unamortized net gains. There was no material ineffectiveness of these hedges for the quarters ended January 27, 2012 and January 28, 2011.

At January 27, 2012, we had no interest rate derivative contracts. We had \$50,000 notional amount of interest rate derivative contracts in place as of January 28, 2011. These contracts were designated as cash flow hedges, to pay fixed rates of interest and receive a floating interest rate based on LIBOR. Prior to maturity, the interest rate derivative contracts were reflected at fair value in the Condensed Consolidated Balance Sheets. Unrealized gains and losses were recorded in accumulated other comprehensive income (loss). Amounts to be received or paid under the contracts were recognized as interest expense over the life of the contracts. There was no ineffectiveness for these derivatives during the quarter January 28, 2011.

#### NOTE 9: DEBT AND MONEY MARKET SECURITIES

The tables below summarize the carrying value and fair market value of our outstanding debt. The fair market value of our publicly traded debt is based on observable market prices. The fair market value of our non-publicly traded debt was estimated using a discounted cash flow analysis based on our current borrowing costs for debt with similar maturities, and the carrying values approximate the fair values as the maturities are less than three months for any commercial paper outstanding.

On January 13, 2012, we issued \$400,000 of unsecured Senior Notes that mature on January 15, 2022 with a coupon rate of 4.20%. The net proceeds were \$396,816. The public offering was made pursuant to a registration statement filed with the U.S. Securities and Exchange Commission. We used a portion of the net proceeds to pay down our commercial paper borrowings in the first quarter of 2012 and intend to use the remaining funds to retire our \$200,000 of 5.625% Senior Notes that mature on May 1, 2012.

Our credit facilities have covenants that require us to maintain certain financial ratios. We were in compliance with these covenants as of January 27, 2012. Our debt covenants do not limit, nor are they reasonably likely to limit, our ability to obtain additional debt or equity financing.

To ensure availability of funds, we maintain uncommitted bank lines of credit sufficient to cover outstanding short-term borrowings. These arrangements are reviewed periodically for renewal and modification.

We invest in short-term securities, including money market funds, with high-credit quality financial institutions and diversify our holdings among such financial institutions to reduce our exposure to credit losses. The fair values of our short-term securities are \$145,441, \$38,005 and \$13,959 as of January 27, 2012, October 28, 2011 and January 28, 2011, respectively. The money market funds are included in our cash and cash equivalents and restricted cash balances with the carrying values approximating the fair values as the maturities are less than three months. These assets are classified as Level 1 inputs under the fair value hierarchy. See Note 1 in Notes to Consolidated Financial Statements in our Form 10-K for more information on fair value measurements.

Restricted cash represents cash that is restricted from withdrawal. As of January 27, 2012, October 28, 2011 and January 28, 2011, we had restricted cash of \$20,108, \$20,378 and \$12,679, respectively. The restricted cash primarily serves as collateral for our liability insurance programs.

### NOTE 10: GUARANTEES AND CONTRACTUAL OBLIGATIONS

We are required to disclose information about certain guarantees and contractual obligations in our periodic financial statements.

We sell extended furniture protection plans and offer warranties for certain products. Revenue related to furniture protection plans is deferred and recognized over the contract life. Historical claims data is used to forecast claims payments over the contract period and revenue is recognized based on the forecasted claims payments. Actual claims costs are reflected in earnings in the period incurred. Anticipated losses on programs in progress are charged to earnings when identified. For product warranties, we estimate the costs that may be incurred under these warranties based on historical claims data and record a liability in the amount of such costs at the time revenue is recognized.

We periodically assess the adequacy of these recorded amounts and adjust as necessary. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses can be estimated. The extended furniture protection plans that we enter into have fixed prices. To the extent the actual costs to complete contracts are higher than the amounts estimated as of the date of the financial statements, gross margin would be negatively affected in future quarters when we revise our estimates. Our practice is to revise estimates as soon as such changes in estimates become known.

Changes in the recorded amounts included in other liabilities, both short-term and long-term, during the period are as follows:

	Three Months Ended	
	January 27, 2012	January 28, 2011
Beginning balance, October	\$73,679	\$74,907
Additional net deferred revenue/accrual made during the period	7,839	3,981
Payments made during the period	(2,104 )	(2,220 )
Ending Balance	\$79,414	\$76,668

NOTE 11: STOCK-BASED COMPENSATION

Compensation expense associated with our stock-based compensation plans was \$2,462 (\$1,615 after tax) for the three-month period ended January 27, 2012, compared to \$1,988 (\$1,283 after tax) for the three-month period ended January 28, 2011.

NOTE 12: PENSIONS AND OTHER POSTRETIREMENT BENEFITS

We sponsor a number of defined benefit pension plans for certain hourly and salaried employees. The benefits for most of these plans are generally based on stated amounts for each year of service. We fund the plans in amounts consistent with the limits of allowable tax deductions.

The net periodic benefit cost of the pension benefits is as follows:

	Three Months Ended	
	January 27, 2012	January 28, 2011
Service cost	\$ 1,052	\$ 1,106

NOTE 13: INCOME TAXES

At October 28, 2011, we had a \$12,948 liability recorded for gross unrecognized tax benefits (excluding interest and penalties). Of this total, \$12,203 represents the amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate.

We recognize interest and penalties related to unrecognized tax benefits in income tax expense. As of October 28, 2011, we had accrued approximately \$4,620 of interest and penalties relating to unrecognized tax benefits.

During the first quarter of fiscal year 2012, we recorded a \$3,600 benefit to income tax expense related to an increase in the tax basis of assets for a foreign subsidiary. In the same period of fiscal year 2011, we recorded a \$1,250 benefit to income tax expense for the retroactive extension of the U.S. federal research and development tax credit.

The company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and numerous state and foreign jurisdictions. With few exceptions, we are no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2006. The IRS has notified us that our fiscal 2010 U.S. federal tax return will be audited. We are currently under audit in several state and foreign jurisdictions. We also expect various statutes of limitation to expire during the next 12 months. Due to the uncertain response of taxing authorities, a range of outcomes cannot be reasonably estimated at this time.

#### NOTE 14: RESTRUCTURING

During the 2011 fiscal year, we initiated restructuring actions in our Coatings segment, primarily in our wood product line, which further rationalized our manufacturing capacity and reduced our overall global headcount. We also initiated restructuring actions to improve the profitability of our Australian acquisition in the Paints segment, which include facility consolidations in manufacturing and distribution, store rationalization and other related costs. These restructuring activities resulted in pre-tax charges of \$5,097 or \$0.04 per share after tax in the first quarter of fiscal year 2012. There were no restructuring charges for these actions in the first quarter of fiscal year 2011. We expect the total cost of these activities, which began in fiscal year 2011 and are anticipated to be completed in 2012, to be \$0.30 to \$0.35 per share after tax. The restructuring charges for the full year 2011 were \$0.24 per share after tax.

In fiscal year 2008, we initiated a comprehensive series of restructuring activities which were completed in fiscal year 2011. These restructuring initiatives included plant closures, reductions to research and development and selling, general and administrative expenses, manufacturing consolidation and relocation, and our exit from non-strategic product lines in certain geographies. We rationalized our manufacturing capacity and reduced our overall global headcount to lower our costs in light of the challenging global economic conditions. Pre-tax restructuring charges for these initiatives were \$0 and \$1,396 in the three months ended January 27, 2012 and January 28, 2011, respectively.

Our total restructuring activities for the three months ended January 27, 2012 resulted in pre-tax charges of \$5,097 or \$0.04 per share after tax, compared to \$1,396 for the three months ended January 28, 2011.

The total resulting expenses included severance and employee benefits, asset impairments, professional services and site clean-up.

NOTE 15: NET INCOME PER COMMON SHARE

The following table presents the net income per common share calculations for the three months ended January 27, 2012 and January 28, 2011:

	Three Months Ended	
	January 27, 2012	January 28, 2011
Basic		
Net income	\$55,782	\$33,427
Weighted-average common shares outstanding - basic	92,861,129	96,859,667
Net income per common share - basic	\$0.60	\$0.35
Diluted		
Net income	\$55,782	\$33,427
Weighted-average common shares outstanding - basic	92,861,129	96,859,667
Dilutive effect of stock options and unvested restricted stock	2,624,225	2,740,747
Equivalent average common shares outstanding - diluted	95,485,354	99,600,414
Net income per common share - diluted	\$0.58	\$0.34

Basic earnings per share are based on the weighted-average number of common shares outstanding during each period. In computing diluted earnings per share, the number of common shares outstanding is increased by common stock options with exercise prices lower than the average market prices of common shares during each period and reduced by the number of shares assumed to have been purchased with proceeds from the exercised options. If we are in a net loss position, these shares are excluded as they are antidilutive. Potential common shares of 326,044 and 365,563 related to our outstanding stock options were excluded from the computation of diluted earnings per share for the three months ended January 27, 2012 and January 28, 2011, respectively, as inclusion of these shares would have been antidilutive.

NOTE 16: RECENTLY ISSUED ACCOUNTING STANDARDS

In May 2011, the Financial Accounting Standards Board (FASB) amended the guidance on fair value measurement to expand certain disclosure requirements and converge United States General Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS) measurement and reporting requirements. The change is effective for interim and annual periods beginning after December 15, 2011, which means the second quarter of our fiscal year 2012, and is to be applied prospectively. We do not expect the adoption of this accounting guidance to have a material effect on our consolidated financial statements.

In June 2011, the Financial Accounting Standards Board (FASB) updated the disclosure requirements for comprehensive income. The update requires companies to disclose total comprehensive income, the components of net income and the components of other comprehensive income, either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The change is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, which means the first quarter of our fiscal year 2013, and is to be applied retrospectively. We do not expect the adoption of these updated disclosure requirements to have an effect on our consolidated results of operations, financial condition or liquidity.

In September 2011, the Financial Accounting Standards Board (FASB) amended the guidance on goodwill impairment testing to allow companies the option of first assessing qualitative factors to determine whether the two-step impairment test is required. If it is more likely than not that the fair value of a reporting unit is less than its carrying value, the two-step impairment test must be performed. Otherwise, the two-step impairment test is not necessary. The change is effective for fiscal years beginning after December 15, 2011, which is our fiscal year 2013, but early adoption is permitted. We do not expect the adoption of this accounting guidance to have an effect on our consolidated financial statements.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

Overview: Net sales growth for the first quarter of 2012 was primarily driven by our selling price increases across all product lines and our Isocoat acquisition. During the quarter, we continued to experience weak demand in our core markets, which was partially offset by new business gains in our Coatings segment. Gross profit as a percent of net sales increased due to pricing, benefits from previously completed restructuring actions and productivity improvements, which more than offset higher raw material costs. Operating expenses as a percent of net sales decreased slightly. Net income increased by 67% due to better operating performance and a lower tax rate.

In the first quarter of 2012, we continued to experience raw material cost increases compared to the same period in the prior year. While sequential raw material cost increases stabilized temporarily in the first quarter, for the remainder of fiscal year 2012, we expect raw material costs to increase both sequentially and compared to the prior year. The ability to maintain our current gross margins will depend on the continued implementation of selling price increases. Historically, there has been a lag between rising raw material costs and the implementation and financial impact of our pricing actions.

We continually evaluate our cost structure in the normal course of our business. During the 2011 fiscal year, we initiated restructuring actions in our Coatings segment, primarily in our wood product line, which further rationalized our manufacturing capacity and reduced our overall global headcount. We also initiated restructuring actions to improve the profitability of our Australian acquisition in the Paints segment, which include facility consolidations in manufacturing and distribution, store rationalization and other related costs. We anticipate these activities to be completed in 2012 and expect the total cost to be \$0.30 to \$0.35 per share after tax. The restructuring activities in the first quarter resulted in pre-tax charges of \$5,097 or \$0.04 per share after tax.

In January 2012, we strengthened our balance sheet by issuing \$400,000 of Senior Notes due January 15, 2022 with a coupon rate of 4.20%. We used a portion of the proceeds to pay down commercial paper. The remaining funds will be used to retire our \$200,000 of 5.625% Senior Notes that mature on May 1, 2012.

Earnings Per Share: Net income per common share - diluted was \$0.58 and \$0.34 for the three-month periods ended January 27, 2012 and January 28, 2011, respectively. The table below presents adjusted net income per common share – diluted, which excludes in the respective periods: (i) restructuring charges and (ii) acquisition-related charges.

	Three Months Ended	
	January 27, 2012	January 28, 2011
Net income per common share - diluted	\$0.58	\$ 0.34
Restructuring charges	0.04	—
Acquisition-related charges	—	0.05
Adjusted net income per common share - diluted	\$0.62	\$ 0.39

“Adjusted net income per common share – diluted” is a non-GAAP financial measure. We disclose this measure because we believe it may assist investors in comparing our results of operations without regard to restructuring and/or acquisition-related charges. The acquisition-related charges are primarily related to the step-up of WattyI inventory to fair value. This non-GAAP measure is provided to enhance investors’ overall understanding of our current financial performance. We believe the non-GAAP measure provides useful information to both management and investors by excluding certain expenses and non-cash charges, which may not be indicative of our core operating results. In addition, because we have historically reported certain non-GAAP results to investors, we believe the inclusion of this non-GAAP measure provides consistency in our presentation of financial information. See Note 14 in Notes to Condensed Consolidated Financial Statements for further information on restructuring.

Critical Accounting Policies: In the first quarter of fiscal year 2012, there were no material changes in our critical accounting policies.

## ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

Operations:

<u>Net Sales</u>	Three Months Ended		
	January 27, 2012	January 28, 2011	% Change
Coatings	\$494,649	\$ 456,389	8.4 %
Paints	339,557	335,951	1.1 %
All Other	51,441	50,064	2.8 %
Consolidated Net Sales	\$885,647	\$ 842,404	5.1 %

**Consolidated Net Sales** – Adjusting for the positive impact of 1.3% from acquisitions and 0.2% from foreign currency, sales for the first quarter of 2012 increased 3.6%. The increase in sales was primarily due to selling price increases in all product lines and new business in our Coatings segment, which more than offset core market volume declines.

**Coatings Segment Net Sales** – Adjusting for the positive impact of 2.4% from acquisitions, and a negative impact of 0.6% from foreign currency, sales for the first quarter of 2012 increased 6.6%. The increase in sales was primarily due to selling price increases in all product lines and new business in our general industrial and coil product lines, which more than offset core market volume declines.

**Paints Segment Net Sales** – Adjusting for the positive impact of 1.3% from foreign currency, sales for the first quarter of 2012 decreased 0.2%. The slight decrease in sales reflects weak market conditions in the U.S. and Australia, slowing growth in China and loss of a major retail customer in Australia, which offset the impact of our selling price increases.

**All Other Net Sales** – The All Other category includes the following product lines: resins, furniture protection plans, colorants and gelcoats. Sales for the first quarter of 2012 period increased 2.8% with an immaterial unfavorable foreign currency impact. The higher sales were primarily due to selling price increases.

Due to the seasonal nature of portions of our business, sales for the first quarter are not necessarily indicative of sales for subsequent quarters or for the full year.

Gross Profit	Three Months Ended			
	January 27, 2012		January 28, 2011	
Consolidated Gross Profit	\$293,316		\$ 258,913	
As a percent of Net Sales	33.1	%	30.7	%

**Gross Profit** – Gross profit as a percent of net sales increased compared to the prior year due to selling price increases, the benefit from previously completed restructuring actions, acquisition-related charges of \$6,507 recognized in 2011 and improved productivity. These improvements were partially offset by higher raw material costs and higher restructuring charges incurred in 2012. Restructuring charges of \$2,954 or 0.3% of net sales and \$1,396 or 0.2% of net sales were included in the first quarter of 2012 and 2011, respectively. There were no acquisition-related charges included in gross profit in the first quarter of 2012.

<b><u>Operating Expenses</u></b> <sup>1</sup>	Three Months Ended			
	January 27, 2012		January 28, 2011	
Consolidated Operating Expenses	\$202,601		\$ 195,525

<sup>1</sup> Includes research and development and selling, general and administrative costs. For breakout see Condensed Consolidated Statements of Operations.

**Consolidated Operating Expenses (dollars)** – Consolidated operating expenses increased 3.6% or \$7,076 compared to the first quarter of last year. Restructuring charges of \$2,143 or 0.2% of net sales were included in the first quarter of 2012. There were no restructuring charges included in operating expenses in the first quarter of 2011.

**Consolidated Operating Expenses (percent of net sales)** – Operating expense as a percent of consolidated net sales decreased 0.3 percentage points compared to the first quarter last year. The decrease was primarily driven by operating leverage on higher sales.

As a percent of Net Sales	10.3	%	7.5	%

<sup>1</sup> We evaluate the performance of operating segments and allocate resources based on profit or loss from operations before interest expense and taxes (EBIT).

**Consolidated EBIT** – EBIT for the first quarter of 2012 increased \$28,413 or 45.2% from the prior year. Restructuring charges of \$5,097 or 0.6% of net sales and \$1,396 or 0.2% of net sales were included in the 2012 and 2011 periods, respectively. The 2011 period included acquisition-related charges of \$6,507 or 0.8% of net sales. There were no acquisition-related charges in the first quarter of 2012. Foreign currency exchange fluctuation had an immaterial effect on Consolidated EBIT, as well as EBIT of the segments discussed below.

**Coatings Segment EBIT** – EBIT as a percent of net sales increased primarily due to our selling price increases, the impact of our previously completed restructuring actions and productivity improvements, which offset higher raw material costs. EBIT included restructuring charges of \$389 or 0.1% of net sales and \$996 or 0.2% of net sales in the 2012 and 2011 periods, respectively.

•

**Paints Segment EBIT** – EBIT as a percent of net sales increased primarily due to selling price increases and acquisition-related charges of \$6,507 or 1.9% of net sales recognized in the first quarter of 2011, partially offset by higher raw material costs and restructuring charges. EBIT included restructuring charges of \$4,026 or 1.2% of net sales and \$400 or 0.1% of net sales in the 2012 and 2011 periods.

**All Other EBIT** – All Other EBIT includes corporate expenses. EBIT as a percent of net sales improved primarily due to better performance in our Other product lines. EBIT included restructuring charges of \$682 or 1.3% of net sales in the 2012 period. There were no restructuring charges in the 2011 period.

Due to the seasonal nature of portions of our business, EBIT for the first quarter is not necessarily indicative of EBIT for subsequent quarters or for the full year.

Effective Tax Rate	Three Months Ended		
	January 27, 2012	January 28, 2011	
Effective Tax Rate	26.1 %	29.3	%

**Effective Tax Rate** – The lower first quarter 2012 effective tax rate is due to a favorable geographical mix of earnings and a one-time tax benefit. This one-time benefit was anticipated in our full-year effective tax rate guidance of 30% to 31%.

Net Income	Three Months Ended		
	January 27, 2012	January 28, 2011	% Change
Consolidated Net Income	\$55,782	\$ 33,427	66.9 %

**Financial Condition:** The Company's financial condition, cash flow and liquidity remained strong in the first quarter of 2012. Cash used in operations was \$24,484, compared to \$40,270 for the first quarter of 2012 and 2011, respectively. The improvement in cash flow in 2012 was primarily driven by higher earnings and lower working capital requirements, offset by settlement of outstanding derivative contracts.

During the first quarter of 2012, we used our borrowing capacity to fund \$49,012 in share repurchases, \$14,487 in capital expenditures and our seasonal working capital needs. We used cash on hand and \$11,608 in proceeds from the sale of treasury stock to fund \$18,645 in dividend payments. We anticipate capital spending in 2012 to be approximately \$90,000.

See Note 9 in Notes to the Condensed Financial Statements for further discussion on our restricted cash associated with cash collateralization of certain letters of credit.

The ratio of total debt to capital was 51.2% at January 27, 2012, compared to 46.6% at October 28, 2011 and 41.6% at January 28, 2011. In the first quarter of 2012, we issued \$400,000 in unsecured Senior Notes on January 13, 2012 that mature on January 15, 2022 with a coupon rate of 4.20%. The public offering was made pursuant to a registration statement filed with the U.S. Securities and Exchange Commission. We used a portion of the proceeds to pay down commercial paper, and the remaining funds will be used to retire our \$200,000 of 5.625% Senior Notes that mature on May 1, 2012. Our debt classified as current was \$208,760 at January 27, 2012 compared to \$377,319 and \$166,544 at October 28, 2011 and January 28, 2011, respectively. The decline in current debt from October 28, 2011 was primarily due to repayment of commercial paper borrowings with proceeds from our issuance of Senior Notes. We ended our 2012 first quarter with \$893,585 of reserve liquidity that includes \$587,873 of available committed credit facilities and \$305,712 of cash. We will use \$200,000 of cash to retire the Senior Notes due May 1, 2012.

Our credit facilities have covenants that require us to maintain certain financial ratios. We were in compliance with these covenants as of January 27, 2012. Our debt covenants do not limit, nor are they reasonably likely to limit, our ability to obtain additional debt or equity financing.

To ensure availability of funds, we maintain uncommitted bank lines of credit sufficient to cover outstanding short-term borrowings. These arrangements are reviewed periodically for renewal and modification.

We believe future cash flow from operations, existing lines of credit, access to credit facilities and access to debt and capital markets will be sufficient to meet our current and projected financing and liquidity needs. In the current market conditions, we have demonstrated continued access to capital markets. We have committed liquidity and cash reserves in excess of our anticipated funding requirements.

Our cash and cash equivalent balances consist of high quality, short-term money market instruments and cash held by our international subsidiaries that are used to fund those subsidiaries' day-to-day operating needs. Those balances have also been used to finance acquisitions. Our investment policy on excess cash is to preserve principal.

We use derivative instruments with a number of counterparties principally to manage well-defined interest rate and foreign currency exchange risks. We evaluate the financial stability of each counterparty and spread the risk among several financial institutions to limit our exposure. We will continue to monitor counterparty risk on an ongoing basis. We do not have any credit-risk related contingent features in our derivative contracts as of January 27, 2012.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

Off-Balance Sheet Financing: We do not have off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Forward Looking Statements: Certain statements contained in "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this report constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements.

Forward-looking statements are based on management's current expectations, estimates, assumptions and beliefs about future events, conditions and financial performance. Forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside our control and could cause actual results to differ materially from such statements. Any statement that is not historical in nature is a forward-looking statement. We may identify forward-looking statements with words and phrases such as "expects," "projects," "estimates," "anticipates," "believes," "could," "may," "will," "plans to," "intend," "should" and similar expressions.

These risks, uncertainties and other factors include, but are not limited to, deterioration in general economic conditions, both domestic and international, that may adversely affect our business; fluctuations in availability and prices of raw materials, including raw material shortages and other supply chain disruptions, and the inability to pass along or delays in passing along raw material cost increases to our customers; dependence of internal sales and earnings growth on business cycles affecting our customers and growth in the domestic and international coatings industry; market share loss to, and pricing or margin pressure from, larger competitors with greater financial resources; significant indebtedness that restricts the use of cash flow from operations for acquisitions and other investments; dependence on acquisitions for growth, and risks related to future acquisitions, including adverse changes in the results of acquired businesses, the assumption of unforeseen liabilities and disruptions resulting from the integration of acquisitions; risks and uncertainties associated with operations and achievement of profitable growth in developing markets, including Asia and Central and South America; loss of business with key customers; damage to our reputation and business resulting from product claims or recalls, litigation, customer perception and other matters; our ability to respond to technology changes and to protect our technology; changes in governmental regulation, including more stringent environmental, health and safety regulations; our reliance on the efforts of

vendors, government agencies, utilities and other third parties to achieve adequate compliance and avoid disruption of our business; unusual weather conditions adversely affecting sales; changes in accounting policies and standards and taxation requirements such as new tax laws or revised tax law interpretations; the nature, cost and outcome of pending and future litigation and other legal proceedings; and civil unrest and the outbreak of war and other significant national and international events.

We undertake no obligation to subsequently revise any forward-looking statement to reflect new information, events or circumstances after the date of such statement, except as required by law.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our foreign sales and results of operations are subject to the impact of foreign currency fluctuations. As most of our underlying costs are denominated in the same currency as our sales, the effect has not been material. We have not hedged our exposure to translation gains and losses; however, we have reduced our exposure by borrowing funds in local currencies. A 10% adverse change in foreign currency rates is not expected to have a material effect on our results of operations or financial position.

We are also subject to interest rate risk. At January 27, 2012, approximately 5.9% of our total debt consisted of floating rate debt. From time to time, we may enter into interest rate swaps to hedge a portion of either our variable or fixed rate debt. Assuming the current level of borrowings, a 10% increase in interest rates from those in effect at the end of the first quarter would not have a material impact on our results of operations or financial position.

ITEM 4: CONTROLS AND PROCEDURES

Disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

We have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of January 27, 2012. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There were no changes in our internal control over financial reporting during the quarter ended January 27, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II. OTHER INFORMATION****ITEM 1: LEGAL PROCEEDINGS**

During the period covered by this report, there were no legal proceedings instituted that are reportable, and there were no material developments in any of the legal proceedings that were previously reported on our Form 10-K for the year ended October 28, 2011.

**ITEM 1A: RISK FACTORS**

There were no material changes to the risk factors disclosed in our Form 10-K for the year ended October 28, 2011.
