**LCNB CORP. REPORTS FINANCIAL RESULTS FOR
THE NINE MONTHS ENDED SEPTEMBER 30, 2006**

LCNB Corp. today announced its financial results for the nine months ended September 30, 2006. These results included growth in total loans of \$34.5 million, from \$353.9 million at September 30, 2005 to \$388.4 million at September 30, 2006. The loan growth was primarily due to growth in the commercial loan portfolio and secondarily to growth in the residential real estate mortgage loan portfolio.

The loan growth was funded through a combination of a \$12.2 million increase in total deposits and a \$26.4 million decrease in investment securities. The deposit growth was primarily due to increases in deposits by local and state governmental entities.

Assets under management include LCNB's total assets, the trust and brokerage businesses, mortgage loans serviced for others, and business cash management accounts. Total assets under management grew \$37.9 million, from \$843.1 million at September 30, 2005 to \$881.0 million at September 30, 2006. In addition to a \$10.5 million increase in LCNB's total assets from the loan growth discussed above, trust assets grew by \$8.1 million, business cash management assets grew by \$8.4 million, and assets managed in brokerage accounts grew by \$14.8 million. Brokerage accounts are offered through a partnership with UVEST Financial Services, Inc.

Net income for the nine months ended September 30, 2006 was \$4.72 million, or \$1.45 diluted earnings per share, compared to \$4.92 million, or \$1.48 diluted earnings per share, for the same period in 2005. Return on average assets for the nine months ended September 30, 2006 and 2005 was 1.16% and 1.23%, respectively. Return on average equity for the 2006 period was 12.09%, compared to 12.55% for the 2005 period.

Net interest income for the nine months ended September 30, 2006 was \$168,000 less than for the same period in 2005 primarily due to a decrease in the tax equivalent net interest margin from 3.99% at September 30, 2005 to 3.85% at September 30, 2006. A flat yield curve, meaning that long-term market rates are not significantly above short-term rates, continued to put pressure on the margin. Also contributing to the decline in net income from 2005 to 2006 was a \$491,000 increase in non-interest expense primarily resulting from increased salaries and benefits expense. Partially offsetting these decreases in net income were a \$162,000 decrease in the provision for loan losses due to improvements in credit quality and a \$256,000 increase in non-interest income. The increase in non-interest income was primarily due to a \$186,000 increase in trust and brokerage income, a \$175,000 increase in insurance agency

income, and a \$79,000 increase in service charges on deposit accounts, partially offset by smaller decreases in several other income classifications.
