INFORMATION CONTAINED IN THIS FORM 6-K REPORT

Set forth herein are a copy of the Company's report for the six months ended June 30, 2003, containing certain unaudited financial information and a Management's Discussion and Analysis of Financial Condition and Results of Operations.

ULTRAPETROL (BAHAMAS) LIMITED

## Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K/A

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION FOR THE SIX MONTHS ENDED JUNE 30, 2003 AND 2002

The following discussion and analysis should be read in conjunction with the unaudited condensed consolidated financial statements of Ultrapetrol (Bahamas) Limited ("the Company") and subsidiaries for the six months ended June 30, 2003 and 2002 included elsewhere in this report.

#### General

-----

The Company was formed on December 23, 1997 to hold all the capital stock of Princely International Finance Corporation (a Panamanian Company) and Ultrapetrol S.A. (an Argentine Company). The following discussion covers the unaudited financial results of the consolidated entity for the six months period ended June 30, 2003 with a comparison to the unaudited consolidated financial results for the same six months period in 2002.

Currently the Company owns and operates fourteen oceangoing vessels primarily in South America with additional operations between the Caribbean, United States, Europe, Far East and West Africa. One of our vessels is owned by Ultracape (Holdings) Ltd. ("Ultracape"), an affiliate company that was formed through an association between us and the AIG-GE Capital Latin America Infrastructure Fund L.P. ("LAIF") in 2002 of which we own 60%. The Company also charters three push boats and 69 wet and dry barges to UABL (Bahamas) Limited ("UABL"), a company that we formed in a joint venture with ACBL Hidrovias, Ltd. in October 2000 and of which we own 50%.

During the first half of 2003 the Company employed a significant part of its fleet on time charter for different customers.

During the first six months of 2003, the international freight market maintained rates above those experienced in 2002.

The Princess Susana and the Princess Marina were out of service undergoing mayor repairs during 15 days and 61 days and the Princess Pia and Princess Eva were out of service due to accidents for 42 days and 124 days, respectively, in the first half of 2003.

In January 2003 the Company renewed the employment of its vessel Princess Katherine for another 11 months on a time charter contract.

On March 13th the Princess Marina was delivered under a time charter for three years to the National Petroleum Company of Chile. As a requirement of this transaction the vessel was re-flagged and registered under the ownership of a related company. The ownership of the vessel will revert to us upon expiration of the charter. All the arrangements with DVB Nedship Bank (America) N.V. regarding the vessel's financing, remain in place.

On March 11th, 2003 we entered into a Memorandum of Agreement, or MOA, under the standard format NSF 1993 to sell the Princess Sofia for a total price of \$2.3 million. The vessel was delivered to its new owners on April 25th, 2003.

On April 18th, 2003, the Alianza G1 suffered an accident in her main engine while the vessel was in transit from Argentina to Chile as a result of this accident the crankshaft of the vessel was damaged requiring a significant repair to restore the engine to its full operational power. The Company settled with its hull and machinery insurers for a total compensation of \$1.9 million in addition to which the Company agreed to receive \$0.2 million from its loss of hire underwriters and entered into an agreement to sell the vessel for \$2.5 million on August 11th, 2003.

## Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K/A

On May 22th, 2003 we entered into a Memorandum of Agreement, or MOA, to sell the Princess Veronica for a total price of \$2.0 million. The vessel was delivered to its new owners on June 5th, 2003.

Our affiliate UABL (50% of which we hold through our unrestricted subsidiary UP River Holdings Ltd.) entered into loan agreements on February 27, 2003 with the International Finance Corporation ("IFC"), and Kreditanstalt Fur Wiederaufbau ("KFW") with a repayment schedule that starts in June 2005 and continues until December 2011 in the case of the (A) of the IFC tranche of the IFC Loan and until December 2009 in the case of the (B) tranche of the IFC Loan. IFC and KFW have agreed to provide a total of \$40 million to finance the capital expenditures of UABL Limited over the next 3 years. The loans are provided under two separate agreements to wholly owned subsidiaries of UABL: UABL Barges (Panama) Inc. \$30 million and UABL Paraguay S.A. \$10 million. The agreements in connection with this financing impose restrictions on the ability of UABL to pay dividends or make other payments to its shareholders if UABL is in default of its obligations under the loan and require that in conjunction with ACBLH the Company retain control of UABL

On June 11th, 2003 the Company entered into a share purchase agreement with International Finance Corporation "IFC" through which is has agreed to sell 357shares representing 7.14% of the total stock capital of its unrestricted subsidiary Up River Holdings for a total price of \$5.0 million

### Revenue

-----

The majority of the Company's oceangoing vessels are employed on time charters to affiliated and unaffiliated companies. The revenue from this operation is derived from a daily rate that is paid to the Company for the use of its vessel. Hire revenue accounted for 57% of the Company's total revenues for the six months ended June 30, 2003.

Also, the Company's vessels are employed from time to time on a contract of affreightment ("COA") basis either for single or repetitive voyages. For a COA, the vessel owner or operator generally pays all voyage and vessel operating expenses and has the right to substitute one vessel for another. The rate is generally expressed in dollars per metric ton of cargo. Revenues earned under COA's are referred to as "freight". COA revenue accounted for 43% of the Company's total revenues for the six months ended June 30, 2003

From the total revenues obtained from COA's during the first half of 2003 36% were in respect of repetitive voyages for the Company's regular customers and 64% in respect of single voyages for occasional customers.

### Expenses

-----

When vessels are operated on a COA basis (as well as any time when they are not operating under time or bareboat charter), all costs relating to a given voyage, including port charges, canal dues and fuel costs, are paid by the vessel owner and are recorded as voyage expenses.

The Company's operating expenses, or running expenses, are generally paid through Ravenscroft Shipping Inc., a Miami based affiliate of the Company, which provides ship management services for the Company's vessels ("Ravenscroft"). Operating expenses include the cost of all ship management, crewing, spares and stores, insurance, lubricants, repairs and maintenance. The most significant of these expenses are maintenance and repairs, wages paid to marine personnel and marine insurance costs. In the case of our river barges chartered to UABL Ltd. the Company has contracted the shipmanagement responsibilities to Lonehort Inc, an affiliate of UABL Ltd.

## Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K/A

Vessels are depreciated to an estimated scrap value on a straight-line basis over their estimated useful lives. The Company follows the deferral method of accounting for survey and dry-dock costs, whereby actual survey and dry-dock costs are capitalized and amortized over a period of two and one-half years until the date of the next dry-dock or special survey.

The Company's other primary operating expenses include general and administrative expenses as well as ship management and administration fees paid to Ravenscroft and Oceanmarine S.A., another affiliate of the Company, which provides certain administrative services. The Company pays Oceanmarine ("Oceanmarine") a monthly fee of \$9,000 per vessel for administrative services including general administration and accounting (financial reporting, preparation of tax returns), use of office premises, a computer network, secretarial assistance and other general duties. The Company pays Ravenscroft a monthly ship management fee of \$12,500 per vessel for services including technical management, crewing, provisioning, superintendence and related accounting functions. The Company does not expect to pay fees to any affiliated entity other than those described here for management and administration functions.

The Company does not own any buildings and does not pay any rental expense other than as a portion of the administration fees paid to Oceanmarine.

### Foreign Currency Transactions

-----

Substantially all of the Company's revenues are denominated in U.S. dollars, but 4% of the Company total revenues is denominated in US dollars but collected in Argentine pesos at the equivalent amount of US dollars at the payment date and 12% of our total out of pocket operating expenses are paid in Argentine pesos. However, the Company's operating results, which are reported in U.S. dollars, may be affected by fluctuations in the exchange rate between the U.S. dollar and the Argentinean peso. For accounting purposes, revenue and expense accounts are translated into U.S. dollars at the exchange rate prevailing on the date of each transaction. The Company does not hedge its exposure to foreign currency fluctuations.

### Inflation

-----

The Company does not believe that inflation has had a material impact on the Company's operations, although certain of the Company's operating expenses (e.g., crewing, insurance and dry docking costs) are subject to fluctuations as a result of market forces.

Inflationary pressures on bunker costs are not expected to have a material effect on the Company's future operations since freight rates for voyage charters are generally sensitive to the price of ship's fuel. A sharp rise in bunker prices may have a temporary negative effect on results since freights generally adjust after prices settle at a higher level.

### Legal proceedings

-----

On February 21, 2003, Ursa Shipping Ltd. ("Ursa") brought suit in the United States District Court for the District of New Jersey against the Princess Susana and Noble Shipping Ltd. seeking damages arising out of the delay in delivery of a cargo of Kirkuk crude oil to the Valero terminal in Paulsboro, New Jersey. (Ursa Shipping v. the Princess Susana, et al. Civil Action No. 03-CV-747 (FLW).) The Princess Susana (the "Vessel") was detained by the United States Coast Guard prior to her arrival in Paulsboro when, during a routine

## Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K/A

Coast Guard tank vessel examination, a small amount of cargo was found to have leaked from one of the cargo tanks into one of the void spaces aboard the Vessel. On or about February 25, 2003, Valero Marketing and Supply Co. ("Valero") commenced an action against Noble Shipping Ltd. (Valero Marketing and Supply Co. v. Noble Shipping Ltd., Civil Action No. 03-CV-843 (FLW)). The Valero and Ursa complaints seek damages in excess of \$9 million. Noble has taken the position that the claims are overstated.

In connection with the above complaints, the Vessel was arrested. Security was posted by the Vessel owners' protection and indemnity insurers in the amount of \$11.2 million and the Vessel was released from arrest (insurance coverage is in place). Both the Ursa and the Valero complaints have been answered, defenses have been raised, and a counterclaim has been raised in the Ursa action seeking, inter alia, unpaid freight and demurrage.

Subsequently, Valero impleaded the seller of the cargo, Taurus Petroleum Ltd. ("Taurus"), into the action by way of an amended complaint. Noble has answered the amended complaint, raised defenses, and brought a cross claim against Taurus for indemnity.

Discovery is presently underway and the parties have exchanged documents. It is too early in the course of the litigations to form an opinion as to their ultimate outcome.

We believe this claim is covered by insurance. The insurer is actively participating in its defense and has not asserted any objections or defenses to the claim. We would expect any damages arising from this action (less our policy deductible) to be covered by the proceeds of such insurance.

### Results of Operations

-----

Six months ended June 30, 2003 compared to the six months ended June 30, 2002.

The following table sets forth certain historical income statement data for the periods indicated derived from the Company's statements of operations expressed in thousands of dollars.

	2*	Six month ended June 30,	2*	Six month ended June 30,
	Quarter'03	2003	Quarter'02	2002

Revenues

-----

Total revenues from freight net of commissions increased from \$10.9 million in the first half 2002 to \$16.1 million in 2003, or an increase of 48%. This increase is primarily attributable to the Princess Susana and Princess Veronica COA's employment instead of time charter operation of the Princess Marisol .

Hire revenues net of commissions, decreased by 14% from \$24.8 to \$21.3 million. This decrease is attributable to the Princess Susana and Princess Veronica COA's employment instead of time charter employment partially compensated by the time charter employment of the Princess Marisol and Cape Pampas, a new vessel incorporated in July 2002.

The total of 76 days out of service experienced by our Princess Marina and Princess Susana due to major repairs, Princess Eva and Princess Pia which were out of service due to accidents for 170 days during the first six months of 2003 affected negatively our revenues in this period. Part of this off hire time is compensated by our loss of hire insurance for which a total of \$1.5 million has been included as other income (outside our operational result)

Operating profit for the first half of 2003 was \$ 0.2 million, an increase of \$0.7 million from the same period in 2002. Operating profit for the second quarter of 2003 was 1.0 million an increase of \$1.6 million from the same period of 2002 In comparing the results of the first quarter 2003 with the same period 2002 in addition to the factors mentioned above it should also be considered that during the first quarter of 2002 our Suezmax vessels were all under comparatively higher time charters fixed in 2001. While during the first quarter of 2003 a number of our Suezmax vessels remained employed under comparatively low time charter fixed in 2002 these contracts came to an end in the first quarter allowing this fleet to fix alternative employment at higher levels in the second quarter.

Voyage expenses

-----

## Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K/A

The first six months of 2003 voyage expenses were \$6.7 million, as compared to \$4.3 million for the first half of 2002, an increase of \$2.4 million, or 56%. The increase is primarily attributable to the Princess Susana and Princess Veronica COA's employment instead of time charter employment.

### Running costs

-----

Running costs increased by about 7%, to \$15.0 million in the first half of 2003 as compared to \$13.4 million in the equivalent 2002 period. This increase is mainly attributable to the new vessel incorporated in July 2002 the Cape Pampas and additional expenses incurred in our Panamax fleet.

### Amortization of dry-dock expense

-----

Amortization of dry docking and special survey costs decreased by \$0.3 million, or 7%, to \$4.1 million in the first half of 2003 as compared to \$4.4 million in 2002. The decrease is primarily attributable to the portion of dry-docks accrued in the vessel Princess Fatima sold in September 2002.

### Depreciation of property and equipment

-----

Depreciation and amortization decreased by \$0.2 million, or 2%, to \$8.0 million in the first six months of 2003 as compared to \$8.2 million in 2002. This decrease is primarily due to the sale of the Princess Fatima partially compensated by an increase attributable to the purchase of the Cape Pampas.

### Management fees and administrative expenses

-----

Management fees and administrative expenses were \$3.3 million in the first six months of 2002 as compared to \$3.4 million in 2003 this increase \$0.1 million is attributable mainly to an increase in administrative expenses.

### Interest expense

-----

Interest expense decreased by \$0.3 million, or 4%, to \$8.0 million in the first half of 2003 as compared to \$8.3 million in 2002. The decrease is primarily attributable to the lower level of financial debt and consequential interest costs associated

### Liquidity and Capital Resources

-----

The Company is a holding company with no material assets other than those of its subsidiaries. Consequently, it must fund its capital requirements through other sources, including cash dividends from subsidiaries, borrowings and shareholder contributions. The Company operates in a capital-intensive industry requiring substantial ongoing investments in revenue producing assets. The Company's subsidiaries have historically funded their vessel acquisitions through a combination loan notes of bank indebtedness, shareholder loans, cash flow from operations and equity contributions. As of June 30, 2003, the Company had total indebtedness of \$165.7 million, \$135 million from the proceeds of the Note Issue, \$2.0 million drawn under a revolving credit facilities from M&T Bank, the trustee of the Company's Notes, for Majestic Maritime Ltd., a wholly owned subsidiary, \$5.5 million in a senior loan facility with Nedship Bank (America) N.V. for Kattegat Shipping Inc., a wholly owned subsidiary, for the purchase of the vessel Princess Marina, \$8.1 million in a senior loan facility

## Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K/A

with M&T Bank for Majestic Maritime Ltd, a wholly owned subsidiary, for the purchase of the vessel Princess Katherine, \$10.5 million in a senior loan facility with Credit Agricole Indosuez for Braddock Shipping Inc, a 60% owned subsidiary, for the purchase of the vessel Cape Pampas. The Company has a revolving credit facilities of \$0.8 million from the M&T Bank for Stanmore Shipping Inc., a wholly owned subsidiary and accrued interest expenses for these loans of \$ 3.8 million.

At June 30, 2003, the Company had cash and cash equivalents on hand of \$5.9 million.

The Company believes, based upon current levels of operation, cash flow from operations, together with other sources of funds, that it will have adequate liquidity to make required payments of principal and interest on the Company's debt, including obligations under the Notes, complete anticipated capital expenditures and fund working capital requirements.

### Operating Activities

-----

In the first six months of 2003, the Company generated a positive \$5.7 million in cash flow from operations compared to \$9.5 million for in the same period in 2002. Net losses for the first half of 2003 were \$ 3.5 million which is \$2.7 million less than net losses in the first six months of 2002.

Net cash provided by operating activities consists of our net income increased by non-cash expenses, such as depreciation and amortization of deferred, and adjusted by changes in working capital.

### Investing Activities

-----

During the first six months of 2003 the Company disbursed \$3.2 million in dry dock and major repair expenses compared to \$5.5 million in the same period of 2002. Also during the first half of 2003 the Company received from the process of vessels sale a net of \$4.0 million.

### Financing Activities

-----

Net cash provided by financing activities decreased by \$5.1 million. The decrease in cash provided by financing activities in first half 2003 is mainly attributable to capital payments made during the first six month for \$3.5 million

### Recent Developments

-----

On April 18, 2003, the Company's vessel Alianza G-1 suffered a casualty to its main engine while in transit from Argentina to San Antonio, Chile with a cargo of grain. We effected temporary repairs on the vessel to enable it to continue its voyage. After the discharge of the vessel's cargo the vessel was inspected to ascertain the full extent of the damage and what costs would need to be incurred to restore it to full working order. The engine's manufacturers advised that a new crankshaft was needed and that the delivery time for a crankshaft of the vessel's specifications was eight months. After consultations with the engine's manufacturer we determined that the cost of the repair and fabrication of a new crankshaft would be approximately \$3.2 million, an amount nearly equal to the vessel's current market value as determined by appraisers retained by us.

In connection with this casualty we have agreed a claim with our insurers

## Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K/A

for the temporary repairs. We have also reached agreement with our insurers for the value of the unrepaired damage amounting to \$1.9 million. In addition, we have agreed to sell the vessel for a total of \$ 2.5 million. The total of insurance plus net sale proceeds equals or exceeds the fair market value of the vessel in repaired condition.

The option to repurchase 25,212 shares by the Company for a total price of \$0.9 million which expired in July 2003 was extended till July 31st 2004.

ULTRAPETROL (BAHAMAS) LIMITED AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

AS OF JUNE 30, 2003 AND 2002

(Unaudited)

(stated in thousands of U.S. dollars)

1. BASIS OF PRESENTATION

The condensed consolidated financial statements for the six months periods ended June 30, 2003 and 2002, were prepared by the Company without audit. In the opinion of management, all normal recurring nature adjustments necessary to present fairly the financial position, results of operations, and cash flows for the interim periods were made.

Certain information and footnote disclosures, normally included in financial statements prepared in accordance with generally accepted

## Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K/A

accounting principles, were condensed or omitted. Accordingly, these condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the consolidated financial statements for the years ended December 31, 2002, 2001 and 2000.

### 2. SHARE SALE AGREEMENTS SIGNED BY THE COMPANY

On June 28, 2001, the Company issued 138,443 new shares for 5,295 which were totally subscribed by Los Avellanos, one of the Company's original shareholders and was paid 3,297 in 2001 and 1,104 in 2002 and the balance are payable in July 2003.

### 3. LONG-TERM DEBT AND OTHER FINANCIAL PAYABLES

On March 30, 1998, the Company successfully completed its offering of 135,000 principal amount of its 10.5% First Preferred Ship Mortgage Notes due 2008 ("the Notes"). In accordance with the terms provided in such Offering, the Notes to be issued are fully and unconditionally guaranteed on a joint and several basis by certain subsidiaries of the Company, and are secured by first ship mortgage on vessels already owned by the guarantors and on additional vessels that the Company purchased with the proceeds obtained from the Offering.

As of June 30, 2002, the Company's noncurrent portion of long-term debt amounts to 135,000. It exclusively comprises the debt principal amount of the Notes. The related interest expense, totaling 3,544 is accrued in other financial payables.

	Financial institution / other	Agreement year	Nominal value		Accrued expenses
			Current	Noncurrent	
Total 2002			11,610	148,600	3,861

Total 2003			7,432	154,398	3,837

## Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K/A

### 4. PROPERTY AND EQUIPMENT

On July, 2002, the Company purchased the Cape Pampas, a second hand capsized bulk carrier through its wholly owned subsidiary, Braddock. The amount of the acquisition was financed by a mortgage loan agreement with Credit Agricole Indosuez.

On August 26, 2002, the Company entered into a Memorandum of Agreement (MOA) through which it committed to sell its vessel Princess Fatima, to an unrelated company for 1,867, net of associated expenses. On September 19, 2002 the Company delivered the Princess Fatima pursuant to the MOA and received the purchase price.

The proceeds from the sale of the Princess Fatima Vessel were deposited in a restricted cash account and can only be used to buy another vessel to guarantee the Notes. Subsequently, the Princess Sofia was bought with part of these proceeds and the remainder of the proceeds are included in restricted cash as of March 31, 2003.

On March 11th, 2003 we entered into a Memorandum of Agreement, or MOA, under the standard format NSF 1993 to sell the Princess Sofia for a total price of \$2.3 million. The vessel was delivered to its new owners on April 25th, 2003.

On May 22th, 2003 we entered into a Memorandum of Agreement, or MOA, to sell the Princess Veronica for a total price of \$2.0 million. The vessel was delivered to its new owners on June 5th, 2003.

The proceeds from the sale of the Princess Veronica and the Princess Sofia Vessel were deposited in a restricted cash account and can only be used to buy another vessel to guarantee the Notes.

### 5. COMMON AND TREASURY STOCK

Ultrapetrol Bahamas has an authorized capital of 21, and one class of shares of one series comprising 2,134,451 (2,065,760 paid-in and 68,691 not yet paid-in) as of June 30, 2002 and 2001 respectively, common shares with a par value of 0.01 each.

In addition, as of June 30, 2003 the Company registered \$20,332, in the Treasury Stock account, \$20,000 of which corresponding to the amount payable to SII mentioned in note 2, and \$332 to direct cost of acquisition.

### 6. CLAIMS AGAINST THE COMPANY

On February, 2003, Ursa Shipping Ltd. ("Ursa") brought suit in the United States District Court for the District of New Jersey against M/T Princess Susana and Noble Shipping Ltd. (a wholly owned subsidiary of the Company) seeking damages arising out of the delay in delivery of a cargo of Kirkuk crude oil to the Valero terminal in Paulsboro, New Jersey. Also in February 2003, Valero Marketing and Supply Co. ("Valero") commenced an action against Noble Shipping Ltd. The Valero and Ursa complaints seek damages in excess of 9 million. Noble has taken the position that the claims are overstated.

In connection with the above complaints, the vessel was arrested. Security was posted by the vessel owners' protection and indemnity insurers in the amount of 11.2 million and the vessel was released from arrest (insurance coverage is in place). Both the Ursa and the Valero complaints have been answered, defenses have been raised, and a counterclaim has been raised in

## Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K/A

the Ursa action seeking, inter alia, unpaid freight and demurrage. Subsequently, Valero impleaded the seller of the cargo, Taurus Petroleum Ltd, ("Taurus"), into the action by way of an amended complaint. Noble has answered the amended complaint, raised defenses, and brought a cross claim against Taurus for indemnity.

Discovery is presently underway and the parties have exchanged documents. It is too early in the course of the litigations to form an opinion as to their ultimate outcome.

The Company's management and its legal counsel believe this claim is covered by insurance. The insurer is actively participating in its defense and has not asserted any objections or defenses to the claim. We would expect any damages arising from this action (less our policy deductible) to be covered by the proceeds of such insurance.

### 7. CLAIMS AGAINST INSURANCE COMPANIES

As of June 30, 2003 and 2002, the "Other receivables" account includes 9,139 and 8,953, respectively, related to claims against insurance companies.

Claims for 4,276 have been made by the Company against the insurance companies regarding the repair expenses incurred to date for damage to some vessels in 2003. The "Other net income" account for the period of six months ended June 30, 2003, includes 1,563 related to claims for loss of income (business interruption) corresponding to the Princess Pia, Princess Eva and Alianza G1.

On April 18, 2003, the Alianza G1 suffered an accident in her main engine while the vessel was in transit from Argentina to Chile. The vessel arrived in Talcahuano (Chile) and following the engine manufacturer recommendations proceeded to repair the engine. The vessel's crankshaft had been damaged and cracked but Sulzer considered that if cracks were only superficial the crankshaft could be repaired by grinding and polishing. Unfortunately, by May 30th the maximum allowance grinding of 7 mm. had been completed and the crack continued. Further tests were carried out and it was determined that in one location the crack had a further depth of 12 mm. The engine manufacturers condemned the crankshaft and recommended that the vessel should replace the crankshaft by a new one in order to operate normally.

The "Other net income" account for the period of six months ended June 30, 2002, includes 371, 1,100, 250 and 35 related to claims for loss of income (business interruption) corresponding to the Alianza G3, Princess Marisol, Princess Nadia and Princess Marina, respectively.

### 8. SUPPLEMENTAL DISCLOSURES OF CASH FLOW INFORMATION

	Six months period ended, June 30	
	2003	2002
- Interest	7,683	7,715
- Income taxes	67	68

### 9. SUPPLEMENTAL GUARANTOR INFORMATION

The First Preferred Ship Mortgage Notes issued on March 30, 1998 described in note 3., are fully and unconditionally guaranteed by certain

## Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K/A

subsidiaries of the Company.

The subsidiaries which offered its assets in collateral of the above - mentioned indebtedness are: Ultrapetrol Argentina, Imperial, Cavalier, Regal, Baldwin, Tipton, Kingsway, Oceanview, Kingly, Sovereign, Monarch, Noble, Oceanpar and Parfina ("Subsidiary Guarantors").

Supplemental combining financial information for the Guarantors Subsidiaries is presented below. This information is prepared in accordance with the Company's accounting policies. This supplemental financial disclosure should be read in conjunction with these condensed consolidated financial statements.
