TOGETHER, ECHOSTAR(R) AND DIRECTV(R) WILL BRING LOCAL TV CHANNELS AND AFFORDABLE HIGH-SPEED INTERNET TO EVERYONE IN AMERICA--VIA SATELLITE.

The EchoStar/DIRECTV merger will give consumers a real alternative to rising cable rates--it's called "Local Channels, All Americans."

How is this possible? With the combined resources of both EchoStar and DIRECTV, we'll be able to eliminate 500 duplicate channels, freeing up that space on our satellites to offer local TV channels. Plus, we've got two advanced spot-beam satellites already in orbit, two more slated for launch, and a fifth new satellite planned for construction as soon as our merger is approved. So the merged company will be able to offer all Americans access to local broadcast channels with digital-quality picture and sound, as well as high-speed Internet service via satellite.

And under our plan, everyone will pay the same price for the same service, whether they live in a village of five homes or a city of five million.

More choice, more freedom--for all Americans.
