Internet Gold Ranked 17th in Dun & Bradstreet Israeli Companies Performance Index

Monday June 14, 7:00 am ET

PETACH TIKVA, Israel, June 14 /PRNewswire-FirstCall/ --

Internet Gold (Nasdaq: IGLD - News) today announced that it has joined the Dun & Bradstreet Israeli Performance Index and was ranked 17th. The prominent and closely watched D&B Performance Index evaluates companies by assessing 10 financial ratios related to their operations. The measures include liquidity ratios, capital structure ratios, profitability ratios, operational efficiency measures and price-earnings multiple.

D&B ranked 320 leading Israeli companies including: Teva Pharmaceutical Industries (Nasdaq: TEVA - News), Check Point Software Technologies (Nasdaq: CHKP - News) and Lipman Electronic Engineering (Nasdaq: LPMA - News). All Israeli companies with publicly released financial results, except for financial institutions, were included. This is the first time that Internet Gold has entered the Performance Index ranking. The financial measures are based on Internet Gold's full-year 2003 financial results.

"We are proud to be ranked in the D&B Performance Index along with Israel's leading companies," said Internet Gold CEO Eli Holtzman. "Our ranking reflects our continuing efforts to increase revenues and our ongoing actions to ensure efficiency and optimize our operations. We are a sharply focused business, relying on our tripod strategy: multi-type connectivity services, MSN Israel's portal business and Gold Trade's e-commerce sales. I believe that the synergy among our three business sectors, along with our strict control of expenses and enhanced efficiency measures, have contributed substantially to our improved financial results and have established a strong foundation for future growth. Our D&B ranking, number 17 out of 320, is further evidence that our strategy is bearing fruit for our shareholders."

About Internet Gold

Internet Gold is a leading Internet service provider in Israel. The Company provides a wide array of Internet services tailored to the needs of residential and business subscribers, including Internet access and related value-added services, as well as content through its portals. The Company provides the full variety of Internet access services including Broadband access via DSL lines and Cables, dial-up and private lines. Internet Gold operates the leading portal in Israel through its MSN Israel subsidiary (50.1%) with Microsoft Corp. and is a leading e-Commerce provider in Israel through its e-Commerce joint venture, Gold Trade (48.3%). In addition, Internet Gold has two wholly owned subsidiaries, Gold Mind focusing on Internet value added services and Internet Gold International specializing in international internet and communication services.
