**PROXY STATEMENT FOR 2001
ANNUAL MEETING OF STOCKHOLDERS**

INFORMATION CONCERNING SOLICITATION AND VOTING

GENERAL

The enclosed proxy is solicited on behalf of the Board of Directors of SOCKET COMMUNICATIONS, INC., a Delaware corporation (the "Company"), for use at the Annual Meeting of Stockholders to be held Wednesday, June 20, 2001 at 9:00 a.m., local time, or at any adjournment thereof, for the purposes set forth herein and in the accompanying Notice of the Annual Meeting. The Annual Meeting will be held at the Company's headquarters at 37400 Central Court, Newark, California 94560. The Company's telephone number at that location is (510) 744-2700.

These proxy solicitation materials and the Annual Report on Form 10-KSB for the year ended December 31, 2000, including financial statements, were first mailed on or about May 10, 2001 to all stockholders entitled to vote at the meeting.

RECORD DATE AND PRINCIPAL SHARE OWNERSHIP

Stockholders of record at the close of business on April 23, 2001 (the "Record Date") are entitled to notice of and to vote at the meeting. At the Record Date, 23,448,893 shares of the Company's authorized Common Stock were issued and outstanding and held by approximately 300 stockholders of record and by approximately 11,000 beneficial holders. The Company has no other classes of stock outstanding.

The only person known by the Company to beneficially own more than 5% of the Company's Common Stock as of the Record Date was Charlie Bass, the Chairman of the Company. See "Management Security Ownership of Certain Beneficial Owners and Management".

REVOCABILITY OF PROXIES

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by delivering to the Secretary of the Company a written notice of revocation or a duly executed proxy bearing a later date or by attending the meeting and voting in person.

VOTING AND SOLICITATION

Each stockholder is entitled to one vote for each share of Common Stock held in all matters to be voted on by the stockholders. If any stockholder at the Annual Meeting gives notice of his or her intention to cumulate votes on the election of directors, then each stockholder voting for the election of directors (Proposal One) may cumulate such stockholder's votes and give one candidate a number of votes equal to the number of directors to be elected multiplied by the number of shares that such stockholder is entitled to vote, or distribute such stockholder's votes on the same principle among as many candidates as the stockholder may select, provided that votes cannot be cast for more than seven candidates. However, no stockholder shall be entitled to cumulate votes for a candidate unless the candidate's name has been placed in nomination prior to the voting and the stockholder, or any other stockholder, has given notice at the meeting, prior to the voting, of the intention to cumulate the stockholder's votes. On all other matters, stockholders may not cumulate votes.

This solicitation of proxies is made by the Company, and all related costs will be borne by the Company. In addition, the Company may reimburse brokerage firms and other persons representing beneficial owners of stock for their expenses in forwarding solicitation material to such beneficial owners. Proxies may also be solicited by certain of the Company's directors, officers and regular employees, without additional compensation, personally or by telephone, email or telefacsimile. The Company may engage the services of a professional proxy solicitation firm to aid in the solicitation of

proxies from certain brokers, bank nominees and other institutional investors. The Company's costs for such services, if retained, are not expected to be material.

QUORUM; ABSTENTIONS; BROKER NON-VOTES

The required quorum for the transaction of business at the Annual Meeting is a majority of the votes eligible to be cast by holders of shares of Common Stock issued and outstanding on the Record Date. Shares that are voted "FOR," "AGAINST" or "WITHHELD FROM" a matter are treated as being present at the meeting for purposes of establishing a quorum and are also treated as shares entitled to vote at the Annual Meeting (the "Votes Cast") with respect to such matter.

Edgar Filing: SOCKET COMMUNICATIONS INC - Form DEF 14A

While there is no definitive statutory or case law authority in Delaware as to the proper treatment of abstentions, the Company believes that abstentions should be counted for purposes of determining both (i) the presence or absence of a quorum for the transaction of business and (ii) the total number of Votes Cast with respect to a proposal (other than the election of directors). In the absence of controlling precedent to the contrary, the Company intends to treat abstentions in this manner. Accordingly, abstentions will have the same effect as a vote against the proposal.

Broker non-votes will be counted for purposes of determining the presence or absence of a quorum for the transaction of business. Broker non-votes will not be counted for purposes of determining the number of Votes Cast with respect to the particular proposal on which the broker has expressly not voted. Accordingly, the Company intends to treat broker non-votes in this manner. Thus, a broker non-vote will not affect the outcome of the voting on a proposal (other than the proposal to amend the Certificate of Incorporation of the Company to create a classified Board of Directors).

DEADLINE FOR RECEIPT OF STOCKHOLDER PROPOSALS TO BE INCLUDED IN THE COMPANY'S PROXY MATERIALS

The Company currently intends to hold its 2002 Annual Meeting of Stockholders in June 2002 and to mail proxy statements relating to such meeting in May 2002. Proposals of stockholders of the Company that are intended to be presented by such stockholders at the 2002 Annual Meeting must be received by the Company no later than January 10, 2002 and must otherwise be in compliance with applicable laws and regulations in order to be considered for inclusion in the proxy statement and form of proxy relating to that meeting.

If a stockholder intends to submit a proposal at the 2002 Annual Meeting that is not intended to be included in the proxy statement and proxy for that meeting, the stockholder must do so no later than March 26, 2002. If such a stockholder fails to comply with the foregoing notice provision, the proxy holders will be allowed to use their discretionary authority to vote against the proposal when it is raised at the 2002 Annual Meeting.

The attached proxy card grants the persons named as proxies discretionary authority to vote on any matter raised at the Annual Meeting that is not included in this Proxy Statement. The Company has not been notified by any stockholder of his or her intent to present a new stockholder proposal at the Annual Meeting.

2

PROPOSAL ONE

ELECTION OF DIRECTORS

The persons named in the enclosed proxy will vote to elect as directors the seven nominees named below, unless the proxy is marked otherwise. All nominees are currently directors of the Company. If a person other than a management nominee is nominated, the proxy holders may choose to cumulate their votes and allocate them among such nominees of management as the proxy holders shall determine in their discretion in order to elect as many nominees of management as possible. The seven candidates receiving the highest number of votes will be elected. The proxy holders have also advised that, in the event any nominee is unavailable for election, which is not currently anticipated, they may vote in accordance with their judgment for the election of substitute nominees designated by the Board.

At the Annual Meeting, stockholders are being asked to approve a proposed amendment to the Company's Amended and Restated Certificate of Incorporation which would classify the Board of Directors into three classes. Please see "Proposal Two" below for a description of that proposal. In the event that the proposal to institute a classified Board of Directors is approved by the stockholders, two Class I Directors (Charlie Bass and Burnett W. Donoho) will be elected for a one-year term expiring at the 2002 Annual Meeting of Stockholders, three Class II Directors (Micheal L. Gifford, Kevin J. Mills and Enzo Torresi) will be elected for a two-year term expiring at the 2003 Annual Meeting of Stockholders, and two Class III Directors (Leon Malmed and Gianluca Rattazzi) will be elected for a three-year term expiring at the 2004 Annual Meeting of Stockholders, in all cases subject to the election and qualification of their successors and to their earlier death, resignation or removal. If the stockholders do not approve the proposal to adopt a classified Board of Directors, all seven directors will be elected for a one-year term expiring at the 2002 Annual Meeting of Stockholders, subject to the election and qualification of their successors and to their earlier death, resignation or removal.

The following table sets forth information concerning the nominees for director.

BOARD MEETINGS AND COMMITTEES

The Board of Directors of Socket Communications held a total of four regular meetings and acted by written consent four times during fiscal 2000. No director attended fewer than 75% of the meetings of the Board of Directors and committees thereof, if any, upon which such director served. The Board of Directors has a Compensation Committee and an Audit Committee. The Board of Directors has no nominating committee or any committee performing such functions.

The Compensation Committee, which consisted of Enzo Torresi and Gianluca Rattazzi, held three telephonic meetings during fiscal 2000. The Compensation Committee is responsible for determining salaries, incentives and other forms of compensation for directors and officers of the Company and administers various incentive compensation and benefit plans.

The Audit Committee, which consisted of Charlie Bass, Jack Carsten and Leon Malmed, met once during the year ended December 31, 2000. If elected as a director at the Annual Meeting, Burnett Donoho will replace Jack Carsten on the Audit Committee, effective June 2001. The Audit Committee is responsible for overseeing actions taken by the Company's independent auditors and reviews the Company's internal financial controls and financial statements. In connection with the completion of the annual audit of the Company's financial statements for the year ended December 31, 1999, the Audit Committee met in March 2000 with management and with the independent auditors to review the financial statements and the annual audit results, including an assessment of internal controls and procedures, and discussed the matters with the independent auditors denoted as required communications by Statement of Auditing Standards 61. The Audit Committee met in March 2001 with management and with the independent auditors to review the financial statements for the year ended December 31, 2000 and the annual audit results. The meeting included review of internal accounting controls, discussion and review of auditor independence, review with management and discussion with the independent auditors of the annual financial statements (Form 10-KSB), other matters included in required communications with the independent auditors (SAS61), and a recommendation to the Board to approve the issuance of the financial statements

for the year ended December 31, 2000.

COMPENSATION OF DIRECTORS

Directors who are not employees of the Company receive \$1,500 per regular Board meeting attended. These outside directors are also entitled to participate in Socket's 1995 and 1999 Stock Option Plans, and during fiscal 2000 Messrs. Bass, Carsten, Rattazzi, Malmel, Torresi and Donoho

5

were each granted options to purchase 50,000 shares of Socket's Common Stock, each at an option exercise price of \$3.38 per share, the fair market value of the Company's Common Stock on the date of grant. These options vest in equal monthly installments over four years from June 21, 2000.

VOTE REQUIRED AND RECOMMENDATION OF THE BOARD

If a quorum is present and voting, the seven nominees receiving the highest number of votes will be elected to the Board of Directors. Votes withheld from any nominee are counted for purposes of determining the presence or absence of a quorum.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE COMPANY'S NOMINEES FOR DIRECTOR.

6

PROPOSAL TWO

AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO CLASSIFY THE BOARD OF DIRECTORS

The Board of Directors of the Company proposes to amend Article X of the Company's Certificate of Incorporation to provide that the Board of Directors be divided into three classes of directors serving staggered three-year terms. Currently, directors are elected annually to serve one-year terms.

This Proposal would create three classes of directors, each consisting as nearly as possible of one-third of the members of the Board, with one class to be elected each year. Members of all three classes would be elected initially at the 2001 Annual Meeting. If this Proposal is approved and the slate of seven directors proposed for election at the 2001 Annual Meeting is elected, they would be elected in three separate classes as follows: two "Class I Directors" would be elected for a term expiring at the 2002 Annual Meeting; three "Class II Directors" would be elected for a term expiring at the 2003 Annual Meeting; and two "Class III Directors" would be elected for a term expiring at the 2004 Annual Meeting. At each annual meeting after the 2001 Annual Meeting, only directors of the class whose term is expiring that year would be required to stand for election, and upon election each such director would serve a three-year term.

The number of directors to be elected at the 2001 Annual Meeting is seven, which is the number of directors currently specified in the Company's Bylaws for the size of the Board. The Board of Directors has no present plans, arrangements, commitments or understandings with respect to increasing or decreasing the size of the Board or any class of directors. If this Proposal is approved, the Company's Certificate of Incorporation will be amended to revise Article X as set forth above. The text of Article X, as proposed to be revised, is set forth in Appendix A.

The Board of Directors of the Company believes that the adoption of this Proposal is advantageous to the Company and its stockholders for a number of reasons. Public companies are potentially subject to attempts by various individuals and entities to acquire significant minority positions with the intent either of obtaining actual control by electing their own slate of directors, or of achieving some other goal, such as the repurchase of their shares by the company at a premium. Public companies also are potentially subject to inadequately priced or coercive bids for control through majority share ownership. These prospective acquirors may be in a position to elect the majority of a company's Board of Directors through a proxy contest or otherwise, even though they do not actually own a majority of a company's outstanding shares at the time. If this Proposal is approved, a majority of the Company's directors could not be replaced by such persons until at least two annual meetings of stockholders have occurred, unless the proponent of removal achieved sufficient votes to remove the entire Board of Directors pursuant to the

provisions of Delaware General Corporation Law Section 141. By eliminating the possibility of the sudden removal of the Board, the incumbent Board will be given the time and opportunity to evaluate any proposals for acquisition of control of the Company and assess and develop alternatives without the pressure created by the threat of imminent removal or loss of control, in a manner consistent with the Board's responsibility to the Company's stockholders.

In addition, by allowing directors to serve three-year terms rather than one-year terms, this Proposal will enhance the continuity and stability of both the composition of the Company's Board of Directors and the policies formulated by the Board. This will enhance the Board's ability to adopt and implement long term business strategies aimed at increasing stockholder value. The Board believes, therefore, that removing the threat of sudden removal will permit it to represent the interests of all stockholders more effectively, including responding to demands or actions by any stockholder or group.

7

This Proposal may discourage persons from attempting to acquire control of the Company without the consent of the Board of Directors, because its provisions would operate to delay such persons' ability to obtain control of the Board of Directors. This Proposal may deter mergers, tender offers or other takeover attempts which some or a majority of holders of the Company's voting stock may deem to be in their best interests. In addition, this Proposal would similarly delay stockholders who do not approve of policies of the Board to replace a majority of the directors.

The Board of Directors of the Company has no knowledge of any current effort to gain control of the Company or to organize a proxy contest. In addition, the Company has not experienced any problems in the past or at the present time with the Board's continuity or stability. However, the Board believes that adopting this Proposal is prudent, advantageous and in the best interests of stockholders because it will give the Board more time to fulfill its responsibilities to stockholders and it will provide greater assurance of continuity and stability in the composition and policies of the Board of Directors. The Board also believes such advantages outweigh any disadvantages relating to discouraging potential acquirors from attempting to obtain control of the Company.

VOTE REQUIRED AND RECOMMENDATION OF THE BOARD

Approval of the amendment to the Certificate of Incorporation requires the affirmative vote of the holders of a majority of the outstanding shares of the Common Stock as of the Record Date.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE AMENDMENT OF THE CERTIFICATE OF INCORPORATION.

8

PROPOSAL THREE

AMENDMENT OF THE 1995 STOCK PLAN

At the Annual Meeting, stockholders are being asked to approve an amendment to the Company's 1995 Stock Plan (the "1995 Plan"), which would increase the number of shares of Common Stock reserved for issuance thereunder by 900,000 shares for a total of 5,035,000 shares.

The foregoing amendment was approved by the Board of Directors in March 2001. The 1995 Plan was originally approved by the Board of Directors in April 1995 and by the stockholders in May 1995. As of April 23, 2001, 1,432,631 shares of Common Stock had been issued pursuant to option exercises under the 1995 Plan, options to purchase an aggregate of 2,420,413 shares were outstanding, and 281,956 shares (exclusive of the 900,000 shares subject to stockholder approval at the Annual Meeting) were available for future grant under the 1995 Plan.

Non-employee directors, consultants and employees also are eligible to receive nonstatutory option grants of the Company's Common Stock under the Company's 1999 Stock Option Plan (the "1999 Plan"). As of April 23, 2001, 88,020 shares of Common Stock had been issued pursuant to option exercises under the 1999 Plan, options to purchase an aggregate of 1,385,204 shares were outstanding, and 26,776 shares were available for future grant under the 1999 Plan.

Edgar Filing: SOCKET COMMUNICATIONS INC - Form DEF 14A

The 1995 Plan is structured to allow the Board of Directors broad discretion in creating equity incentives in order to assist the Company in attracting, retaining and motivating the best available personnel for the successful conduct of the Company's business. The Company believes that linking employee compensation to corporate performance motivates employees to improve stockholder value. The Company has, therefore, consistently included equity incentives as a significant component of compensation for its employees. This practice has enabled the Company to attract and retain the talent that it continues to require. In order to attract the service of valuable employees as the Company continues to grow, it will be necessary to continue to offer these equity incentives, particularly in the extremely competitive job market of the San Francisco Bay Area. In addition, in order to retain the services of the Company's current employees, it will be necessary to grant additional options to these employees as older options become vested. Because demand for highly skilled employees continues to be high, in spite of recent workforce reductions by some technology companies, the Board believes it is critical to the Company's success to maintain competitive employee compensation programs. The Board believes that the number of shares presently reserved under the 1995 Plan and the 1999 Plan will be inadequate to satisfy the other equity needs of the Company, and that the proposed increase in the number of shares of Common Stock reserved under the 1995 Plan would be in the best interests of the Company and its stockholders.

SUMMARY OF THE 1995 PLAN

Purpose. The purpose of the 1995 Plan is to attract and retain the best available personnel for positions of substantial responsibility with the Company, to provide additional incentive to the employees, directors and consultants of the Company and to promote the success of the Company's business. Options and stock purchase rights may be granted under the 1995 Plan. Options granted under the 1995 Plan may be either "incentive stock options," as defined in Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"), or nonstatutory stock options.

Administration. The 1995 Plan is administered by the Compensation Committee of the Board (the "Administrator"). The Administrator may make any determinations deemed necessary or advisable for the 1995 Plan.

Eligibility. Nonstatutory stock options and stock purchase rights may be granted under the 1995 Plan to employees, directors and consultants of the Company and any parent or subsidiary of the Company. Incentive stock options may be granted only to employees. The Administrator, in its

9

discretion, selects the employees, directors and consultants to whom options and stock purchase rights may be granted, the time or times at which such options and stock purchase rights shall be granted, and the number of shares subject to each grant.

Limitations. Section 162(m) of the Code places limits on the deductibility for federal income tax purposes of compensation paid to certain executive officers of the Company. In order to preserve the Company's ability to deduct the compensation income associated with options and stock purchase rights granted to such persons, the 1995 Plan provides that no employee, director or consultant may be granted, in any fiscal year of the Company, options to purchase more than 750,000 shares of Common Stock.

Terms and Conditions of Options. Each option is evidenced by a stock option agreement between the Company and the optionee, and is subject to the following additional terms and conditions:

(a) *Exercise Price.* The Administrator determines the exercise price of options at the time the options are granted. The exercise price of an incentive stock option may not be less than 100% of the fair market value of the Common Stock on the date such option is granted; provided, however, the exercise price of an incentive stock option granted to a 10% stockholder may not be less than 110% of the fair market value of the Common Stock on the date such option is granted. The fair market value of the Common Stock is generally determined with reference to the closing sale price for the Common Stock (or the closing bid if no sales were reported) on the date the option is granted.

(b) *Exercise of Option; Form of Consideration.* The Administrator determines when options become exercisable, and may in its discretion, accelerate the vesting of any outstanding option. The means of payment for shares issued upon exercise of an option is specified in each option agreement. The 1995 Plan permits payment to be made by cash, check, promissory note, other shares of Common Stock of the Company (with some restrictions), cashless exercises, a reduction in the amount of any Company liability to the optionee, any other form of consideration permitted by applicable law, or any combination thereof.

(c) *Term of Option.* The term of an incentive stock option may be no more than ten (10) years from the date of grant; provided that in the case of an incentive stock option granted to a 10% stockholder, the term of the option may be no more than five (5) years from the date of grant. No option may be exercised after the expiration of its term.

Edgar Filing: SOCKET COMMUNICATIONS INC - Form DEF 14A

(d) *Termination of Employment.* If an optionee's employment or consulting relationship terminates for any reason (including death or disability), then all options held by the optionee under the 1995 Plan expire on the earlier of (i) the date set forth in his or her notice of grant or (ii) the expiration date of such option. The 1995 Plan and the option agreement may provide for a longer period of time for the option to be exercised after the optionee's death or disability than for other terminations. To the extent the option is exercisable at the time of such termination, the optionee (or the optionee's estate or the person who acquires the right to exercise the option by bequest or inheritance) may exercise all or part of his or her option at any time before termination.

(e) *Nontransferability of Options:* Unless otherwise determined by the Administrator, options granted under the 1995 Plan are not transferable other than by will or the laws of descent and distribution, and may be exercised during the optionee's lifetime only by the optionee.

(f) *Other Provisions:* The stock option agreement may contain other terms, provisions and conditions not inconsistent with the 1995 Plan as may be determined by the Administrator.

Stock Purchase Rights. In the case of stock purchase rights, unless the Administrator determines otherwise, the restricted stock purchase agreement shall grant the Company a repurchase option exercisable upon the voluntary or involuntary termination of the purchaser's service to the Company for any reason (including death or disability). The purchase price for Shares repurchased pursuant to the

10

restricted stock purchase agreement shall be the original price paid by the purchaser and may be paid by cancellation of any indebtedness of the purchaser to the Company. The repurchase option shall lapse at a rate determined by the Administrator.

Adjustments Upon Changes in Capitalization. In the event that the stock of the Company changes by reason of any stock split, reverse stock split, stock dividend, combination, reclassification or other similar change in the capital structure of the Company effected without the receipt of consideration, appropriate adjustments shall be made in the number and class of shares of stock subject to the 1995 Plan, the number and class of shares of stock subject to any option or stock purchase right outstanding under the 1995 Plan, and the exercise price of any such outstanding option or stock purchase right.

In the event of a liquidation or dissolution, any unexercised options or stock purchase rights will terminate.

Change of Control. In the event of a "change of control," any options granted under the 1995 Plan outstanding on the date of such change in control will vest and become fully exercisable and any Company repurchase right with respect to restricted stock will lapse if (i) a successor corporation fails to assume all obligations with respect to such options and restricted stock, (ii) the optionees or holders of restricted stock do not or will not receive the same consideration as received by other shareholders in such change of control, (iii) an optionee or holder of restricted stock is terminated in an "involuntary termination" following the change of control or (iv) the optionee does not voluntarily resign from the Company during the twelve (12) month period following such change of control. A "change of control" is defined as (i) any "person" (as defined in Sections 13(d) and 14(d) of the Securities Exchange Act of 1934) becoming the "beneficial owner" (as defined under Rule 13d-3 of the Securities Exchange Act of 1934) of 50% or more of the total voting power of the Company, (ii) certain changes in the composition of the board of directors, (iii) a merger or consolidation where the Company's stockholders do not own at least 50% of the voting power of the combined company after the transaction or (iv) stockholder approval of a plan of complete liquidation of the Company. An "involuntary termination" is defined as (i) a termination of an optionee for other the "Cause," (ii) a reduction of duties, authority or responsibilities following a change of control, (iii) certain reductions of an optionee's base salary, (iv) certain reductions of an optionee's employee benefits, (v) certain relocations of an optionee, (vi) the failure of the Company to obtain the assumption of optionee's option agreement by any successor and (vii) any act or set of facts that would constitute a constructive termination of optionee under applicable law. "Cause" is defined as (i) certain acts of dishonesty, fraud or misrepresentation in connection with such optionee's employment responsibilities, (ii) an optionee's arrest for a felony, fraud or an act or moral turpitude, or (iii) an optionee's failure to perform his or her employment obligations or follow the Company's employee policies.

Amendment and Termination of the 1995 Plan. The Board may amend, alter, suspend or terminate the 1995 Plan, or any part thereof, at any time and for any reason. However, the Company shall obtain stockholder approval for any amendment to the 1995 Plan to the extent necessary and desirable to comply with applicable law. No such action by the Board or stockholders may alter or impair the rights of any optionee without the written consent of the optionee. Unless terminated earlier, the 1995 Plan shall terminate ten years from the date of its approval by the stockholders or the Board of the Company, whichever is earlier.

FEDERAL INCOME TAX INFORMATION

Incentive Stock Options. An optionee who is granted an incentive stock option does not recognize taxable income at the time the option is granted or upon its exercise, although the exercise is an adjustment item for alternative minimum tax purposes and may subject the optionee to

the alternative minimum tax. Upon a disposition of the shares more than two years after grant of the option and one year after exercise of the option, any gain or loss is treated as long-term capital gain or loss. Net

capital gains on shares held for more than 12 months may be taxed at a maximum federal rate of 20%. Capital losses are allowed in full against capital gains and up to \$3,000 against other income. If these holding periods are not satisfied, the optionee recognizes ordinary income at the time of disposition equal to the difference between the exercise price and the lower of (i) the fair market value of the shares at the date of the option exercise or (ii) the sale price of the shares. Any gain or loss recognized on such a premature disposition of the shares in excess of the amount treated as ordinary income is treated as long-term or short-term capital gain or loss, depending on the holding period. A different rule for measuring ordinary income upon such a premature disposition may apply if the optionee is also an officer, director, or 10% stockholder of the Company. Unless limited by Section 162(m) of the Code, the Company is entitled to a deduction in the same amount as the ordinary income recognized by the optionee.

Nonstatutory Stock Options. An optionee does not recognize any taxable income at the time he or she is granted a nonstatutory stock option. Upon exercise, the optionee recognizes taxable income generally measured by the excess of the then fair market value of the shares over the exercise price. Any taxable income recognized in connection with an option exercise by an employee of the Company is subject to tax withholding by the Company. Unless limited by Section 162(m) of the Code, the Company is entitled to a deduction in the same amount as the ordinary income recognized by the optionee. Upon a disposition of such shares by the optionee, any difference between the sale price and the optionee's exercise price, to the extent not recognized as taxable income as provided above, is treated as long-term or short-term capital gain or loss, depending on the holding period. Net capital gains on shares held more than 12 months may be taxed at a maximum federal rate of 20%. Capital losses are allowed in full against capital gains and up to \$3,000 against other income.

Stock Purchase Rights. Stock purchase rights will generally be taxed in the same manner as nonstatutory stock options. However, restricted stock is generally purchased upon the exercise of a stock purchase right. At the time of purchase, restricted stock is subject to a "substantial risk of forfeiture" within the meaning of Section 83 of the Code, because the Company may repurchase the stock when the purchaser ceases to provide services to the Company. As a result of this substantial risk of forfeiture, the purchaser will not recognize ordinary income at the time of purchase. Instead, the purchaser will recognize ordinary income on the dates when the stock is no longer subject to a substantial risk of forfeiture (i.e., when the Company's right of repurchase lapses). The purchaser's ordinary income is measured as the difference between the purchase price and the fair market value of the stock on the date the stock is no longer subject to right of repurchase.

The purchaser may accelerate to the date of purchase his or her recognition of ordinary income, if any, and begin his or her capital gains holding period by timely filing (i.e. within thirty days of the purchase), an election pursuant to Section 83(b) of the Code. In such event, the ordinary income recognized, if any, is measured as the difference between the purchase price and the fair market value of the stock on the date of purchase, and the capital gain holding period commences on such date. The ordinary income recognized by a purchaser who is an employee will be subject to tax withholding by the Company. Different rules may apply if the purchaser is also an officer, director, or 10% stockholder of the Company.

The foregoing is only a summary of the effect of federal income taxation upon optionees, holders of stock purchase rights, and the Company with respect to the grant and exercise of options and stock purchase rights under the 1995 Plan. It does not purport to be complete, and does not discuss the tax consequences of the employee's or consultant's death or the provisions of the income tax laws of any municipality, state or foreign country in which the employee or consultant may reside.

VOTE REQUIRED AND RECOMMENDATION OF THE BOARD

Approval of the amendment to the 1995 Plan to increase the number of shares reserved by 900,000 shares requires the affirmative vote of a majority of the Votes Cast at the Annual Meeting.

PROPOSAL FOUR

AMENDMENT OF THE 1995 STOCK PLAN TO PROVIDE FOR ANNUAL INCREASES

The Board of Directors has approved an additional amendment to the 1995 Plan that provides for an automatic increase in the number of shares of Common Stock reserved thereunder on the first day of each fiscal year equal to the lesser of (a) 2,000,000 shares, (b) 4% of the outstanding shares of Common Stock of the Company on that date or (c) a lesser amount as determined by the Board of Directors (the "Renewal Feature"). The stockholders are being requested to approve this amendment at the Annual Meeting.

Edgar Filing: SOCKET COMMUNICATIONS INC - Form DEF 14A

As discussed above under Proposal Three, the Company believes that the 1995 Plan is a key component of its strategy to attract, retain and motivate skilled employees and quality management for the successful conduct of the Company's business. The Board believes that the Renewal Feature will provide the Company with the needed flexibility to maximize the value of the 1995 Plan as a tool to motivate employees to increase stockholder value. The Board of Directors believes it is in the Company's best interests to adopt the Renewal Feature to the 1995 Plan so that the Company may continue to attract and retain the services of key employees by granting options to purchase the Company's Common Stock. Four percent of the outstanding shares of Common Stock of the Company on April 23, 2001 was 937,955 shares.

See "Proposal Three Amendment of the 1995 Stock Plan to increase the number of shares reserved by 900,000" for a description of the 1995 Plan and participation in the 1995 Plan.

VOTE REQUIRED AND RECOMMENDATION OF THE BOARD

Approval of the amendment to the 1995 Plan to provide for automatic annual increases requires the affirmative vote of a majority of the Votes Cast at the Annual Meeting.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE AMENDMENT OF THE COMPANY'S 1995 STOCK PLAN TO PROVIDE FOR AUTOMATIC ANNUAL INCREASES.

If the stockholders fail to ratify the selection, the Audit Committee and the Board will reconsider its selection. EMPLOYMENT CONTRACTS AND CHANGE-IN-CONTROL AGREEMENTS

In February 1998, the Company adopted a bonus plan pursuant to which a bonus pool in the amount of 10% of any consideration payable by a buyer in any acquisition of Socket is to be allocated to the executive officers and such other employees as the Board of Directors determines in its discretion.

In December 2000, the Company renewed separate employment agreements with Micheal Gifford, Kevin Mills and David Dunlap and entered into employment agreements with John Adams, Jr. and Leonard Ott. In October 2000, and in connection with the Company's acquisition of 3rd Rail Engineering, the Company entered into employment agreements with Paul T. Hughes and Robert J. Miller. The agreements with Messrs. Gifford, Mills, Dunlap, Adams, Ott, Hughes and Miller each expire on December 31, 2003 and are terminable at will by each of the officers. If the Company terminates any officer's employment without cause, the Company is obligated to pay the officer (i) six months' base salary regardless of whether he secures other employment during those six months, (ii) health insurance until the earlier of the date of the officer's eligibility for the health insurance benefits provided by another employer or the expiration of six months, (iii) the full bonus amount to which he would have been entitled for the first quarter following termination and one-half of such bonus amount for the second quarter following termination, and (iv) certain other benefits including the ability to purchase at book value certain items of the Company's property, which may include a personal computer, a cellular phone, and other similar items. See also "Certain Transactions and Related Transactions" below.

REPORT OF THE COMPENSATION COMMITTEE

Notwithstanding anything to the contrary set forth in any of the Company's previous filings under the Securities Act of 1933, as amended, or the Securities Act of 1934, as amended, that might incorporate future filings, including this Proxy Statement, in whole or in part, the following report and the Performance Graph (set forth below) shall not be incorporated by reference into any such filings.

Introduction

The Compensation Committee of the Board of Directors establishes the general compensation policies of the Company, and establishes the compensation plans and specific compensation levels for executive officers. The Committee strives to ensure that the Company's executive compensation programs will enable the Company to attract and retain key people and motivate them to achieve or exceed certain key objectives of the Company by making individual compensation directly dependent on the Company's achievement of certain financial goals, such as profitability and asset management and by providing rewards for exceeding those goals.

Compensation Programs

The three major components of the Company's executive officer compensation are: (i) base salary, (ii) variable incentive awards, and (iii) long-term equity-based incentive awards.

Base Salary. The Committee establishes base salaries for executive officers, normally within ten percent of the average paid for comparable positions at other similarly sized companies as set forth in national and local compensation surveys. Base pay increases vary according to individual contributions to the Company's success and comparisons to similar positions within the Company and at other comparable companies.

Variable Incentive Awards. To reinforce the importance of Company goals, the Committee believes that a substantial portion of the quarterly compensation of each executive officer should be in the form of variable incentive pay. The variable incentive award set aside for each executive officer is determined in part on the basis of the Company's achievement of the quarterly financial performance targets established at the beginning of the fiscal year and also on individual quarterly objective. The incentive plan requires a threshold level of Company performance that must be attained before any financial performance incentives are awarded. Once the threshold is reached, specific formulas are in place to calculate the actual incentive payment for each officer. A target is set for each executive officer based on targets for similar positions at comparable companies. In fiscal 2000, the Company met many of its performance targets. Consequently the variable incentive awards were accrued each quarter in 2000 and paid out in the following quarters.

Long-Term, Equity-Based Incentive Awards. The goal of the Company's long-term equity-based incentive awards is to align the interests of executive officers with stockholders and to provide each executive officer with a significant incentive to manage the Company from the

perspective of an owner with an equity stake in the business. The Committee determines the size of long-term, equity-based incentives according to each executive's position within the Company and sets a level it considers appropriate to create a meaningful opportunity for stock ownership. In addition, the Committee takes into account an individual's recent performance, his or her potential for future responsibility and promotion, comparable awards made to individuals in similar positions with comparable companies, and the number of unvested options held by each individual at the time of the new grant. The relative weight given to each of these factors varies among individuals at the Committee's discretion.

During fiscal 2000, the Board made option grants to Messrs. Bass, Mills, Gifford, Dunlap, Adams, Ott, Hughes and Miller under the Company's 1995 Stock Plan and/or 1999 Stock Plan. Each grant allows the officer to acquire shares of the Company's Common Stock at a fixed price per share (the

market price on the grant date) over a specified period of time. Generally, each option granted under the 1995 and 1999 Stock Plan vests in periodic installments over a four-year period, contingent upon the executive officer's continued employment with the Company. Accordingly, the option will provide a return only if the officer remains with the Company and only if the market price appreciates over the option term.

Compensation of Chief Executive Officer

The factors considered by the Compensation Committee in determining the compensation of the Chief Executive Officer, in addition to survey data, include the Company's operating and financial performance, as well as his leadership and establishment and implementation of strategic direction for the Company.

The Compensation Committee considers stock options to be an important component of the Chief Executive Officer's compensation as a way to reward performance and motivate leadership for long term growth and profitability. In 2000, Mr. Mills was granted options to purchase 300,000 shares, each with an exercise price equal to the fair market value at date of grant. These options vest monthly in forty-eight equal installments.

Compensation Limitations

Under Section 162(m) of the Internal Revenue Code, adopted in August 1993, and regulations adopted thereunder by the Internal Revenue Service, publicly-held companies may be precluded from deducting certain compensation paid to an executive officer in excess of \$1.0 million in a year. The regulations exclude from this limit performance-based compensation and stock options provided certain requirements, such as stockholder approval, are satisfied. The Company plans to take actions, as necessary, to insure that its stock option plans and executive annual cash bonus plans qualify for exclusion.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

None of the members of the Compensation Committee of the Board was at any time during fiscal 2000 an officer or employee of the Company. No executive officer of the Company serves as a member of the Board of Directors or Compensation Committee of any entity that has one or more executive officers serving on the Board or the Compensation Committee of the Board.

REPORT OF THE AUDIT COMMITTEE

The Board of Directors maintains an Audit Committee comprised of three of the Company's outside directors. The Board of Directors and the Audit Committee believe that the Audit Committee's composition satisfies the rule of the National Association of Securities Dealers, Inc.

Edgar Filing: SOCKET COMMUNICATIONS INC - Form DEF 14A

("NASD") that governs audit committee composition, including the requirement that audit committee members all be "independent directors" as that term is defined by NASD Rule 4200(a)(14).

The Audit Committee oversees the Company's financial process on behalf of the Board of Directors. Management has the primary responsibility for preparing the financial statements and maintaining the Company's financial reporting process including the system of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements in the Annual Report to the Securities and Exchange Commission on Form 10-KSB for the year ended December 31, 2000 with management including a discussion of the quality of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. The Board has adopted a written Audit Committee Charter, a copy of which is attached to this Proxy Statement as Appendix B.

The Committee reviewed with the Company's independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards, including Statement on Auditing Standards No. 61, "Communication with Audit Committees". In addition, the Committee discussed with the independent auditors the auditors' independence from management and the Company including the matters in the written disclosures and the letter from the independent auditors required by the Independence Standards Board, Standard No. 1.

The Committee also discussed with the Company's independent auditors the overall scope and results of their audit. The Committee met periodically with the independent auditors, with and without management present, to discuss the results of their examination, their evaluation of the Company's internal controls, and the overall quality of the Company's financial reporting. The Committee held one meeting with the auditors in regards to their audit of the annual financial statements for the year ended December 31, 2000. In addition, a conference call between a member of the Committee, the auditors and management was held each quarter during fiscal 2000 to review quarterly financial reports prior to their issue.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2000. The Committee and the Board also recommended, subject to stockholder approval, the reappointment of Ernst & Young, LLP as the Company's independent auditors for the year ending December 31, 2001.
