June 30, 2005

Glencairn Gold Corporation
Interim Management's Discussion and Analysis
June 30, 2005

The following discussion and analysis should be read in conjunction with the Company's unaudited consolidated interim financial statements and related notes thereto for the six months ended June 30, 2005 and 2004 which have been prepared in United States dollars and in accordance with Canadian generally accepted accounting principles. The reader should also refer to the audited consolidated financial statements for the years ended December 31, 2004 and 2003, and Management's Discussion and Analysis for those years. All dollar amounts are US dollars unless otherwise indicated.

Overview

Glencairn Gold Corporation (Glencairn or the Company) is a gold mining company that operates the Limon Mine in Nicaragua, and the Bellavista Mine in Costa Rica. Gold production from the Bellavista Mine is expected to reach commercial quantities in 2005. The Company owns exploration properties in Nicaragua and is exploring for gold on certain of these properties. The Company's objective is to become a mid-tier gold producer through development of existing mines and acquisition of operating mines and advanced development projects.

Results of Operations

All reported sales and cost of sales to June 30, 2005 were derived from the Limon Mine. Sales and production costs from the Bellavista Mine in the period before commercial production is achieved are netted and capitalized as property, plant and equipment until the mine reaches commercial production.

Key Statistics

	Three months ended June 30		Six months ended June 30	
	2005	2004	2005	2004
Gold ounces sold	9,657	12,119	21,892	22,555
Average spot gold price per ounce	\$427	\$393	\$427	\$401
Realized gold price per ounce	\$429	\$397	\$428	\$401
Cash operating costs per ounce sold	\$347	\$319	\$319	\$332
Total cash costs per ounce sold	\$374	\$341	\$344	\$355
Tonnes milled	76,647	83,747	162,874	163,535
Ore grade (grams per tonne)	4.8	4.5	4.9	4.8
Recovery (%)	82.5	81.8	82.7	84.5
Gold ounces produced	9,669	9,524	21,053	20,562
Cost per tonne milled	\$46	\$40	\$41	\$41

Three months ended June 30, 2005

Sales decreased by \$663,000 or 14% in 2005, compared with 2004. In 2005, the Company sold 9,657 ounces of gold at an average realized price of \$429 per ounce. Sales in 2004 were 12,119 ounces of gold at an average price of \$397 per ounce. Decreased sales resulted from selling 2,462 ounces less in 2005 compared with 2004 as fewer ounces were available for sale. In 2005, 11,096 ounces were available for sale from inventory and production and the Company sold 9,657 ounces or 87% of the available for sale ounces. In 2004, 14,251 ounces were available for sale from inventory and production and the Company sold 12,229 ounces or 86% of the available for sale ounces.

Cost of sales decreased by \$522,000 in 2005, compared with 2004. The volume of gold sold was 2,462 ounces less in 2005 than 2004 and this lower volume reduced cost of sales by \$785,000. Higher prices for electricity, oil and steel increased cost of sales by \$263,000. Cash operating costs per ounce sold increased during 2005 to \$347 from \$319 in 2004.

General and administrative expense decreased by \$231,000 in 2005, or 23%, compared with 2004. The decrease resulted from reductions in capital tax of \$181,000, investor relations expenses of \$59,000 and travel expenses of \$55,000, offset by an increase in listing fees of \$76,000 due to the recent American Stock Exchange listing. Capital tax expense in 2004 included \$74,000 related to the reassessment of 2002 and prior years' capital taxes.

Stock option expense decreased by \$17,000 or 23% in 2005 compared with 2004, as fewer options were granted in 2005.

Exploration expense decreased by \$1,228,000 or 78% in 2005 compared with 2004. In Canada, there was no exploration on the Vogel Property in 2005, compared with \$880,000 in 2004. The Vogel Property was sold in March 2005. In Nicaragua, exploration expense was \$347,000 in 2005, compared with \$695,000 in 2004.

Other expense was \$305,000 in 2005. Interest and gains on the sales of assets totalled \$226,000, foreign exchange loss was \$433,000 and interest and finance fees were \$98,000. The gains on sale of assets were realized from the sale of certain mineral properties at the Keystone Mine. Other expense in 2004 was \$570,000 which consisted of interest income of \$97,000 offset by a foreign exchange loss of \$46,000, interest and finance fees of \$3,000 and municipal taxes for the Keystone Mine of \$618,000.

Six months ended June 30, 2005

Sales increased by \$329,000 or 4% in 2005, compared with 2004. In 2005, the Company sold 21,892 ounces of gold at an average realized price of \$428 per ounce. Sales in 2004 were 22,555 ounces of gold at an average price of \$401 per ounce. Increased sales resulted from the 7% increase in realized prices per ounce despite the decrease in sales of 663 ounces.

Cost of sales decreased by \$496,000 or 7% in 2005, compared with 2004. The volume of gold sold was 663 ounces lower in 2005 compared with 2004 and accounted for \$220,000 of the decrease in cost of sales. Cost reductions resulting from more efficient operations accounted for the balance of \$276,000. Cash operating costs per ounce sold decreased during 2005 to \$319 from \$332 in 2004.

Depreciation and depletion expense decreased by \$331,000 in 2005, or 32%, compared with 2004. The decrease resulted from the increase in mineral reserves of the Limon Mine at December 31, 2004 compared with December 31, 2003. Depreciation and depletion are charged to earnings on a unit of production basis over estimated mineral reserves.

General and administrative expense decreased by \$170,000 in 2005, or 8%, compared with 2004. The decrease resulted from reductions in capital tax of \$243,000 and travel expenses of \$55,000, offset by an increase in listing fees of \$127,000 due to the recent American Stock Exchange listing. Capital tax expense in 2004 included \$74,000 related to the reassessment of 2002 and prior years' capital taxes.

Stock option expense decreased by \$208,000 or 39% in 2005 compared with 2004, as fewer options were granted in 2005.

Exploration expense decreased by \$1,445,000 or 62% in 2005 compared with 2004. In Canada, there was no exploration on the Vogel Property in 2005, compared with \$1,256,000 in 2004. In Nicaragua, exploration expense was \$896,000 in 2005, compared with \$1,085,000 in 2004.

Six months ended June 30, 2005

Edgar Filing: Glencairn Gold CORP - Form 6-K

Other income was \$427,000 in 2005. Interest and gains on the sales of assets totalled \$1,437,000, foreign exchange loss was \$902,000 and interest and finance fees were \$108,000. The gains were realized from the sale of marketable securities, the Vogel Property and the mill and certain mineral properties at the Keystone Mine. Other expense in 2004 was \$1,046,000 which consisted of interest income of \$164,000 offset by a foreign exchange loss of \$587,000, interest and finance fees of \$5,000 and municipal taxes for the Keystone Mine of \$618,000.

Cash Flows

Three months ended June 30, 2005

Operating activities generated \$757,000 in 2005 but required \$1,987,000 in 2004. The change was primarily due to the reduction of the net loss from 2004 to 2005 and the increase in the change in non-cash working capital from 2004 to 2005. The reduction in non-cash working capital generated \$1,919,000 in 2005 and \$533,000 in 2004.

Financing activities generated \$3,564,000 in 2005 compared with \$61,000 in 2004. In 2005, the net proceeds from the issue of long-term debt was \$3,526,000 and the proceeds from the issue of common shares was \$38,000. In 2004, the proceeds from the issue of common shares was \$61,000. The common shares were issued upon the exercise of share options in 2005 and upon the exercise of warrants and agent's options in 2004.

Investing activities used \$7,245,000 in 2005. The purchase of property, plant and equipment of \$9,725,000 (Bellavista Mine \$8,630,000, Limon Mine \$1,094,000 and Corporate \$1,000) was offset by the proceeds from the sale of assets of \$2,480,000. In 2004, investing activities used \$6,287,000 for the purchase of property, plant and equipment (Bellavista Mine \$5,247,000, Limon Mine \$1,034,000 and Corporate \$6,000).

3

Six months ended June 30, 2005

Operating activities generated \$663,000 in 2005, compared with \$2,204,000 used in 2004. The change was primarily due to the reduction of the net loss from 2004 to 2005 and the increase in the change in non-cash working capital from 2004 to 2005. The change in non-cash working capital generated \$2,629,000 in 2005 and \$2,252,000 in 2004.

Financing activities generated \$3,905,000 in 2005 compared with \$21,012,000 in 2004. In 2005, the net proceeds from the issue of long-term debt was \$3,526,000 and the proceeds from the issue of common shares was \$379,000. In 2004, the proceeds from the issue of common shares was \$21,012,000. The common shares were issued upon the exercise of share options, warrants and agent's options in 2005 and under a \$20,488,000 prospectus financing and upon the exercise of warrants and agent's options in 2004.

Investing activities used \$14,352,000 in 2005. The purchase of property, plant and equipment of \$16,829,000 (Bellavista Mine \$14,945,000, Limon Mine \$1,870,000 and Corporate \$14,000) and the increase in restricted cash of \$100,000 was offset by the proceeds from the sale of assets of \$2,577,000. The purchase of property, plant and equipment for the Bellavista Mine included \$6,807,000 for production costs that were incurred prior to June 30, 2005. Until commercial production is achieved, production costs less gold sales at Bellavista are allocated to property, plant and equipment. In 2004, investing activities used \$12,622,000 for the purchase of property, plant and equipment (Bellavista Mine \$10,685,000, Limon Mine \$1,891,000 and Corporate \$46,000).

Liquidity and Capital Resources

The Company expects commercial gold production from the Bellavista Mine to begin later in 2005 and gold sales for 2005, including ounces produced in the period prior to commercial production, to be 18,000 ounces or 5,000 ounces less than previously planned. Mining and stacking at Bellavista are on plan to date, however, gold production has been delayed due to leaching beginning later than planned, constraints encountered in placing stacked ore under leach and longer than expected leach times due to a coarser initial ore crush. Ultimate leaching recoveries are expected to remain unchanged. Management is reviewing ways to reduce the time required for leaching. The Company, as previously contemplated, is also considering temporarily suspending mining operations during parts of September and October when rainfall is typically at its heaviest, although gold leaching and gold recovery would continue uninterrupted.

The Company expects total gold sales from the Limon Mine to be 43,000 ounces for 2005 or 5,000 ounces less than previously indicated due to poor ground conditions and lower than planned ore grades. Gold production in 2006 is still expected to be over 100,000 ounces as the Bellavista

Edgar Filing: Glencairn Gold CORP - Form 6-K

Mine will be in commercial production for the whole year and the new Santa Pancha deposit will be in operation at the Limon Mine.

4

The Company had cash of \$3,944,000 and working capital of \$7,168,000 at June 30, 2005. On May 12, 2005, the Company entered into a loan agreement with RMB Australia Holdings Limited for a \$6,000,000 secured facility to fund additional exploration, construction and development at its Limon and Bellavista Mines. At June 30, 2005, the Company had borrowed \$4,000,000 under this agreement. In July 2005, an additional \$2,000,000 was borrowed.

At June 30, 2005, the Company's total investment in the Bellavista Mine was \$44.3 million. This amount includes \$6.2 million for property acquisition costs, \$29.7 million for construction costs, \$1.6 million for asset retirement costs and \$6.8 million for pre-production costs. The total construction costs for the Bellavista Mine are expected to be \$35 million. At June 30, 2005, approximately \$5 million remains to be spent and most of this relates to the grinding mill which is planned to be built in 2006.

Cash on hand at June 30, 2005, the loan of \$2 million in July and the cash flow from operations in 2005 and 2006 may not be sufficient to fund the Company's needs. The Company may require approximately \$2 million during the next twelve months due to the delay in production from the Bellavista Mine and lower production from the Limon Mine. The Company is reviewing its options with regard to funding.

Summary of Quarterly Results (in thousands except per share amounts)

	Q3 2003	Q4 2003	Q1 2004	Q2 2004	Q3 2004	Q4 2004	Q1 2005	Q2 2005

Non-GAAP Performance Measures

The Company has included the non-GAAP performance measures below in this document. These non-GAAP performance measures do not have any standardized meaning prescribed by GAAP and, therefore, may not be comparable to similar measures presented by other companies. The Company believes that, in addition to conventional measures prepared in accordance with GAAP, certain investors use this information to evaluate the Company's performance. Accordingly, they are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared with GAAP. The definitions for these performance measures are as follows:

FORWARD-LOOKING STATEMENTS: This management discussion contains certain forward-looking statements within the meaning of Section 21E of the United States Securities Exchange Act of 1934, as amended. Except for statements of historical fact relating to the company, certain information contained herein constitutes forward-looking statements. Forward-looking statements are frequently characterized by words such as plan, expect, project, intend, believe, anticipate, estimate and other similar words, or statements that certain events or conditions may or will occur. Forward-looking statements are based on the opinions and estimates of management at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. These factors include the inherent risks involved in the exploration and development of mineral properties, the uncertainties involved in interpreting drilling results and other ecological data, fluctuating metal prices, the possibility of project cost overruns or unanticipated costs and expenses, uncertainties relating to the availability and costs of financing needed in the future and other factors. The Company undertakes no obligation to update forward-looking statements if circumstances or management's estimates or opinions should change. The reader is cautioned not to place undue reliance on forward-looking statements.

Additional information on the Company, including its annual information form is available on SEDAR at www.sedar.com.

Glencairn Gold Corporation
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2005 and 2004

(unaudited)

(US Dollars unless otherwise noted)

1. BASIS OF PRESENTATION

Glencairn Gold Corporation's (the Company or Glencairn) business is gold mining including exploration, development, extraction, processing and reclamation. The Company's business also includes acquisition of gold properties in operation or in the development stage. The Company owns the Limon Mine in Nicaragua, and the Bellavista Mine in Costa Rica. Gold production from the Bellavista Mine is expected to reach commercial quantities in 2005. Until commercial production is achieved, gold sales less production costs of Bellavista are allocated to property, plant and equipment. The Company also owns the Keystone Mine, a depleted property in Canada, which is currently under reclamation. Cash on hand at June 30, 2005, a \$2,000,000 additional loan drawn subsequently and cash flows in 2005 and 2006 may not be sufficient to fund the Company's needs and it may require approximately \$2,000,000 during the next twelve months. The Company is reviewing its options with respect to funding.

The unaudited consolidated financial statements of the Company, which are expressed in U.S. dollars, have been prepared in accordance with Canadian generally accepted accounting principles for interim financial information and they follow the same accounting policies and methods of application as the audited consolidated financial statements for the year ended December 31, 2004. These unaudited interim consolidated financial statements do not include all the information and note disclosures required by generally accepted accounting principles for annual financial statements and therefore should be read in conjunction with the most recent annual consolidated financial statements and notes thereto. In the opinion of management, all adjustments considered necessary for fair and consistent presentation of interim financial statements have been included.

Glencairn Gold Corporation
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2005 and 2004

(unaudited)

*(US Dollars unless otherwise noted)***3. ACCOUNTS RECEIVABLE AND PREPAIDS**

Accounts receivable and prepaids include advances and deposits of \$463,000 (2004 \$2,213,000) made to suppliers of equipment and services for the Bellavista Mine. These advances and deposits will be charged to property, plant and equipment when the equipment is received and installed and the services are completed.

4. DEFERRED FINANCING COSTS

On May 12, 2005, the Company entered into a facility agreement with RMB Australia Holdings Limited (RMB) (see note 7). The costs incurred in arranging the facility agreement included \$288,000 for 2,994,720 share purchase warrants issued by the Company to RMB, an arrangement fee of \$210,000 paid to RMB and other costs of \$265,000. These costs have been deferred and will be charged to earnings over the term of the loan, which is 25 months.

	<u>\$ 51,902</u>	<u>\$ 35,907</u>

(a) Vogel Project, Canada

On March 31, 2005, the Company sold the Vogel Project to Lake Shore Gold Corp. (Lake Shore) for \$2,480,000 and 100,000 Lake Shore common shares valued at \$65,000. The gain realized on the sale of the property was \$1,046,000. Lake Shore will make a further cash payment to the Company of Cdn\$500,000 if 600,000 ounces of gold are mined from the property or confirmed in a reserve or resource.

(b) Keystone Mine, Canada

On January 28, 2005, the Company sold the mill at the Keystone Mine to Claude Resources Inc. (Claude) for \$82,000. Under the terms of the sale, Claude will remove all equipment from the mill site and demolish and remove the mill buildings. The gain realized on the sale of equipment was \$82,000.

On June 1, 2005, the Company sold certain mining leases and claims at the Keystone Mine to Seymour Exploration Corp. for \$197,000. The gain realized on the sale of mineral properties was \$197,000.

Certain mineral properties, which are not subject to reclamation, are being held for sale.

7. LONG-TERM DEBT

On May 12, 2005, the Company entered into a facility agreement with RMB Australia Holdings Limited that allows the Company to borrow up to \$6,000,000. The facility is secured by a first charge on the Company's assets. Interest on the facility is at the Libor rate plus 8%. The Company incurred costs of \$763,000 in connection with arranging the facility agreement (see note 4).

At June 30, 2005, the Company had drawn down \$4,000,000 from this facility (see note 13). The repayment terms are \$500,000 on March 31, 2006, \$1,000,000 on June 30, 2006, \$1,000,000 on September 30, 2006, \$1,000,000 on December 31, 2006 and \$500,000 on March 31, 2007.

10. STOCK-BASED COMPENSATION

The Company uses the fair value method of accounting and recognized stock option expense of \$329,000 (2004 \$537,000) in the six months ended June 30, 2005 for its stock-based compensation plan

The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

Expected life in years:	3
Risk free interest rate:	3.26%
Expected volatility:	60%
Dividend yield:	0%

12. SEGMENT INFORMATION

The Company is organized into three operating segments: Limon Mine (Nicaragua), Bellavista Mine (Costa Rica) and Corporate (Canada). In 2004, the Vogel Project and the Keystone Mine, which ceased operating in April 2000, were included in the Corporate segment. In 2005, the Vogel Project and certain assets of the Keystone Mine were sold (see note 5). The Company evaluates performance based on net earnings or loss. The Company's segments are summarized in the table below.
