TRANSPRO, INC.
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

NOTE 1 - INTERIM FINANCIAL STATEMENTS

The condensed consolidated financial information should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2000 including the financial statements and notes thereto included therein.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments which are of a normal recurring nature, considered necessary for a fair presentation of consolidated financial position, consolidated results of operations and consolidated cash flows have been included in the accompanying unaudited condensed consolidated financial statements.

NOTE 2 - BUSINESS CONSOLIDATION AND CLOSURE COSTS

During the first quarter of 2000, the Company recorded \$0.8 million in closure costs related to actions taken in the Aftermarket Heating and Cooling Systems segment to close the Houston, Texas regional radiator manufacturing facility and to consolidate the Santa Fe Springs, California distribution facility into the existing distribution facility in Memphis, Tennessee. A summary of the associated closure costs is as follows:

NOTE 3 - BORROWING AGREEMENT

For the period April 30, 2001 through June 30, 2001, the Company was in

Edgar Filing: TRANSPRO INC - Form 10-Q

default of the net worth covenant contained in its loan agreement with Congress Financial Corporation ("Congress"). Congress has waived the default by executing the first amendment to the loan agreement. The amendment provides that effective July 1, 2001, borrowings will bear interest at either 1.5% above the prime rate or 4% in excess of the Eurodollar rate, at the Company's option.

On July 30, 2001, the Company entered into a second amendment to the loan agreement. The amendment provides for a lower net worth covenant threshold for periods ending after July 30, 2001.

as the use of weighted average diluted common shares outstanding would have an anti-dilutive effect on loss per share for the periods.

Certain options to purchase common stock were outstanding during the three and six months ended June 30, 2001 and 2000, but were not included in the computation of diluted loss per share because their exercise prices were greater than the average market price of common shares for the period. The anti-dilutive options outstanding and their exercise prices are as follows:

NOTE 6 - SERIES B CONVERTIBLE PREFERRED STOCK

In connection with the acquisition of Evap, Inc., the Company issued 30,000 shares of TransPro, Inc. Series B Convertible Preferred Stock (the "Series B Preferred Stock"). The purchase agreement provides for a potential additional payout for the Evap acquisition based on the earnings performance of the business for the period January 1, 1999 through December 31, 2000 that will take the form of an increase in the liquidation preference of the Series B Preferred Stock. The holder of the Series B Preferred Stock has disputed the calculation of the payout amount and, the Company is attempting to resolve the differences in accordance with the provisions of the Evap stock purchase agreement.

Edgar Filing: TRANSPRO INC - Form 10-Q

NOTE 7 - IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In July 2001, the FASB issued Statement of Financial Accounting Standards No. 141 ("SFAS No. 141"), "Business Combinations" and Statement No. 142 ("SFAS No. 142"), "Goodwill and Other Intangible Assets". SFAS No. 141 deals with accounting for acquisitions while SFAS No. 142 pertains to the accounting for goodwill and other intangibles. SFAS No. 141 is effective for all business combinations initiated after June 30, 2001, while SFAS No. 142 will be effective for fiscal years beginning after December 15, 2001. While the Company is still evaluating the impact of these pronouncements, it does not expect the adoption of SFAS No. 141 to have a material impact on its results of operations or financial position. The adoption of SFAS No. 142 is expected to increase annual pretax income by approximately \$400 thousand, which would reflect the elimination of historical goodwill amortization.

NOTE 8 - RELATED PARTY TRANSACTION

During the second quarter of 2001, the Board of Directors authorized the issuance of 30,175 shares of treasury stock and the payment of \$96,565 to the Chairman of the Board as compensation for serving as interim President of the Company.

10

11

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OPERATING RESULTS

QUARTER ENDED JUNE 30, 2001 VERSUS QUARTER ENDED JUNE 30, 2000

Net sales increased \$1.5 million or 2.7% from a year ago. Sales in the Aftermarket Heating and Cooling Systems segment ("Aftermarket") increased 7.9% as an 11.2% increase in unit volume offset a 3.3% reduction in selling prices. Unit sales of radiators and heaters were higher while air conditioning part sales declined. Sales in the OEM Heat Transfer Systems segment ("OEM") declined by 20.6% as a 21.8% unit volume drop offset the favorable impact of price increases. The overall softness in the heavy-duty truck marketplace continued to adversely impact this segment.

Gross margins declined to 17.3% from 25.7% a year ago. Margins were adversely impacted by 3.1 percentage points as the Company increased an accrual for a warranty program, which commenced during the last quarter of 2000 and settled a vendor dispute. Margins within the Aftermarket segment were lower due to competitive pricing actions, which were taken along with unabsorbed overhead as the Company lowered production levels in order to reduce inventories. A year ago, factories were running at higher levels of production and building inventory, thus absorbing overhead. Lower OEM segment margins reflect lower production levels caused by the drop in market demand and our planned inventory reduction efforts.

Operating expenses increased \$1.9 million or 17% as a result of higher self-insured medical costs associated with the incurrence of several major claims and higher costs associated with the upgrade of the Company's computer system. The second quarter last year benefited from a reduction in bonus and insurance accruals that were no longer required.

Interest expense was 12% above a year ago as higher average debt levels offset the impact of lower interest rates.

Edgar Filing: TRANSPRO INC - Form 10-Q

The Company's income tax benefit includes \$554 thousand due to the recent settlement of an Internal Revenue Service audit. The effective tax rate for the year was increased to 29.7% from the 28.2% rate used in the first quarter.

The Company sold its Specialty Metal Fabrication segment on May 5, 2000. Accordingly, the Specialty Metal Fabrication segment was accounted for as a discontinued operation. As a result of the sale, the Company reported a net gain of \$6.0 million, or \$0.91 per basic common share and \$.85 per diluted common share in the second quarter of 2000.

SIX MONTHS ENDED JUNE 30, 2001 VERSUS SIX MONTHS ENDED JUNE 30, 2000

Six-month sales declined 1.4% from last year's levels reflecting flat unit volume and sales price decreases. Aftermarket sales were 6.1% higher as an 8.4% improvement in unit volume offset a 2.3% reduction in selling prices. Increased demand for heaters and radiators offset lower air conditioning part sales. OEM sales declined 29.4% as a 30.6% reduction in volume offset the 1.2% increase generated by pricing actions.

Gross margin percentages were 17.5% versus 23% a year ago. Margins were reduced by 2 percentage points for the six months due to the warranty and vendor actions, which impacted the second quarter. Aftermarket margins have declined due to cutbacks in production levels in order to reduce inventory and

11

12

lower average selling prices. The OEM segment has experienced reduced margins caused by lower sales volumes and lower production levels caused by the weak heavy-duty truck market.

Operating expenses increased 6.8% to 24.4% of sales versus 22.6% a year ago. Higher self-insured medical costs and higher costs associated with the Company's computer upgrade project accounted for the increase. In the first quarter of 2000, the Company established a provision of \$795 thousand to cover costs associated with the closure of several facilities.

The income tax benefit includes \$554 thousand resulting from the favorable settlement of an IRS audit and the increase of the effective tax rate to 29.7% from the 28.2% rate used in the first quarter.

As a result of the pay down of the old revolving credit agreement during the first quarter of 2001, the Company recorded an extraordinary charge of \$380 thousand, net of tax, to reflect the write-off of unamortized debt issue costs.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

The Company entered into a \$65 million Loan and Security Agreement (the "Loan Agreement") on January 4, 2001 with Congress Financial Corporation (New England), ("Congress") an affiliate of First Union National Bank. The Loan Agreement replaces a \$52 million revolving credit arrangement with five banking institutions.

The Loan Agreement provides for collateralized borrowings or the issuance of letters of credit in an aggregate amount not to exceed \$65 million and is comprised of a \$60 million Revolving Credit Facility and a \$5 million Term Loan. The initial term of the Loan Agreement expires on January 5, 2004, with annual extensions thereafter at the option of Congress.

The Loan Agreement is collateralized by a blanket first perfected

Edgar Filing: TRANSPRO INC - Form 10-Q

security interest in substantially all of the Company's assets plus a pledge of the stock of the Company's subsidiaries. Available borrowings under the Revolving Credit Facility are determined by a borrowing base consisting of the Company's eligible accounts receivable and inventory, as adjusted by an advance rate. Borrowings under the Revolving Credit Facility are classified as short term in the condensed consolidated balance sheet. The Term Loan is payable in 59 consecutive equal monthly installments of \$75 thousand commencing February 1, 2001, with a balloon payment due on January 5, 2004.

Amounts borrowed under the Loan Agreement initially bore interest at variable rates based, at the Company's option, on either the Eurodollar rate plus a margin of 2.0%, 2.25% or 2.50% depending on the Company's pretax profit performance, or the First Union National Bank base lending rate. The Loan Agreement contains covenants regarding working capital and net worth and prohibits the payment of common stock dividends.

For the period April 30, 2001 through June 30, 2001, the Company was in default of the net worth covenant contained in the Loan Agreement. Congress waived the default by executing the first amendment to the Loan Agreement. The amendment provides that effective July 1, 2001, borrowings will bear interest at either 1.5% above the prime rate or 4% in excess of the Eurodollar rate at the Company's option.

On July 30, 2001, the Company entered into a second amendment to the Loan Agreement which provides for a lower net worth covenant threshold for periods ending after July 30, 2001.

Operations used \$3.0 million of cash in the first half of 2001 versus 2000 when \$9.2 million were used. While operations generated a net loss for the period, \$10.9 million of cash was generated by the Company's inventory reduction plan implemented in the second quarter of 2001. In 2001, cash was utilized to pay down trade accounts payable in order to bring outstanding balances in line with stated terms. A year ago inventories rose by \$8.5 million due to increased purchases and higher production levels.

Capital expenditures are running below a year ago due to the Company's efforts to control spending levels. The Company expects that expenditures for the year will approximate depreciation expense.

Funds provided by the new Loan Agreement of \$44.3 million were utilized to pay off the old revolver and provide funds for operating activities. During 2000, the Company utilized the proceeds from the sale of its discontinued operation to pay down \$14.6 of the old revolving credit agreement and fund operating needs. As of June 30, 2001, the Company had \$2.5 million available for future borrowings under the Loan Agreement.

The future liquidity and ordinary capital needs of the Company in the short term are expected to be met from operations. The Company's working capital requirements peak during the second and third quarters, reflecting the normal seasonality of the Aftermarket Heating and Cooling Systems business. The Company believes that, together with borrowings under its current Loan Agreement, its cash flow from operations will be adequate to meet its anticipated ordinary capital expenditure and working capital requirements.

In July 2001, the FASB issued Statement of Financial Accounting Standards No. 141 ("SFAS No. 141"), "Business Combinations" and Statement No. 142 ("SFAS No. 142"), "Goodwill and Other Intangible Assets". SFAS No. 141 deals with accounting for acquisitions while SFAS No. 142 pertains to the accounting

for goodwill and other intangibles. SFAS No. 141 is effective for all business combinations initiated after June 30, 2001, while SFAS No. 142 will be effective for fiscal years beginning after December 15, 2001. While the Company is still evaluating the impact of these pronouncements, it does not expect the adoption of SFAS No. 141 to have a material impact on its results of operations or financial position. The adoption of SFAS No. 142 is expected to increase annual pretax income by approximately \$400 thousand which would reflect the elimination of historical goodwill amortization.

FORWARD-LOOKING STATEMENTS AND CAUTIONARY FACTORS

Statements included in Management's Discussion and Analysis of Financial Condition and Results of Operations which are not historical in nature are forward-looking statements. Such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The Company's Annual Report on Form 10-K contains certain detailed factors that could cause the Company's actual results to materially differ from the forward-looking statements made by the Company. In particular, statements relating to the future financial performance of the Company are subject to business conditions and growth in the general economy and automotive and truck business, the impact of competitive products and pricing, changes in customer product mix, failure to obtain new customers or retain old customers or changes in the financial stability of customers, changes in the cost of raw materials, components or finished products and changes in interest rates.
