February 13, 2004

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D. C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended December 31, 2003

Commission File Number I-4383

ESPEY MFG. & ELECTRONICS CORP.
(Exact name of registrant as specified in charter)

NEW YORK
(State of Incorporation)

14-1387171
(I.R.S. Employer's Identification No.)

233 Ballston Avenue, Saratoga Springs, New York
(Address of principal executive offices)

12866
(Zip Code)

Registrant's telephone number, including area code 518-584-4100

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant is an accelerated filer (as defined in Rule 12b-2 of the Exchange Act). YES NO

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding at February 14, 2004

Notes to Financial Statements (Unaudited)

Note 1. Basis of Presentation

In the opinion of management the accompanying unaudited financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary for a fair presentation of the results for such periods. The results for any interim period are not necessarily indicative of the results to be expected for the full fiscal year. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These financial statements should be read in conjunction with the Company's most recent audited financial statements included in its Annual Report on Form 10-K for the year ended June 30, 2003.

Note 2. Net Income per Share

Basic net income per share excludes dilution and is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted net income per share reflects the potential dilution that could occur if securities or other contracts to issue Common Stock were exercised or converted into Common Stock or resulted in the issuance of Common Stock that then shared in the Income of the Company.

Note 3. Employee Stock Ownership Plan

In fiscal 1989 the Company established an Employee Stock Ownership Plan (ESOP) for eligible non-union employees. The ESOP used the proceeds of a loan from the Company to purchase 316,224 shares of the Company's common stock for approximately \$8.4 million and the Company contributed approximately \$400,000 to the ESOP which was used by the ESOP to purchase an additional 15,000 shares of the Company's common stock.

As of December 31, 2003 there were 219,737 shares allocated to participants.

Note 4. Other Comprehensive Income

Total comprehensive income consists of:

5

Note 5. Stock Based Compensation

In December 2002, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 148, Accounting for Stock Based Compensation. SFAS No. 148 provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation and amends the disclosure requirements of SFAS No. 123, Accounting for Stock Based Compensation, to require more prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results.

The Company has elected to account for its stock-based compensation plans under the intrinsic value-based method of accounting as permitted by SFAS No. 123 and as prescribed by Accounting Principles Board ("APB") Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations including FASB Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation - An Interpretation of APB No. 25, in accounting for its fixed stock option plans. Under this method, compensation expense would be recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price. Unearned compensation recognized for restricted stock awards is shown as a separate component of stockholders' equity and is amortized to expense over the vesting period of the stock award using the straight-line method. The Company adopted the disclosure requirements of SFAS No. 123 and SFAS No. 148, as required.

The following table illustrates the effect on net income and net income per share if the Company had applied the fair value recognition provisions of SFAS No. 123, to stock-based employee compensation.

Note 6. Foreign Sales Corporation

During the quarter the Company dissolved Espey International, Inc., a wholly owned subsidiary. The subsidiary was an inactive foreign sales corporation.

Note 7. Recently Issued Accounting Standards

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity. SFAS No. 150 requires issuers to classify as liabilities (or assets in some circumstances) three classes of freestanding financial instruments that embody obligations for the issuer. Generally, SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003 and is otherwise effective at the beginning of the first interim period beginning after June 15, 2003. The adoption of SFAS No. 150 did not have an impact on the Company's results of operations and financial condition.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

6

Overview

Espey Mfg. & Electronics Corp. (the "Company") located in Saratoga Springs, New York, is engaged principally in the development, design, production and sale of specialized electronic power supplies, a wide variety of transformers and other types of iron-core components, and electronic system components. In some cases, the Company manufactures such products in accordance with pre-developed mechanical and electrical requirements ("build to print"). In other cases, the Company is responsible for both the overall design and manufacture of the product. The Company does not generally manufacture standardized components.

The products manufactured by the Company find application principally in (i) shipboard and land based radar, (ii) locomotives, (iii) aircraft, (iv) short and medium range communication systems, (v) navigation systems, and (vi) land based military vehicles.

Business is solicited from large industrial manufacturers and defense companies, United States and foreign governments and major foreign electronic equipment companies. In certain countries the Company has external sales representatives to help solicit and coordinate foreign contracts. The Company is also on the eligible list of contractors of the United States Department of Defense and generally is automatically solicited by such agencies for procurement needs falling within the major classes of products produced by the Company. In addition, the Company directly solicits bids from the United States Department of Defense for prime contracts.

There is competition in all classes of products manufactured by the Company, from divisions of the largest electronic companies, as well as many small

Edgar Filing: ESPEY MFG & ELECTRONICS CORP - Form 10-Q

companies. The Company's sales do not represent a significant share of the industry's market for any class of its products. The principal methods of competition for electronic products of both a military and industrial nature include, among other factors, price, product performance, the experience of the particular company and history of its dealings in such products. The Company, as well as other companies engaged in supplying equipment for military use, is subject to various risks, including, without limitation, dependence on U.S. and foreign government appropriations and program allocations, the competition for available military business, and government termination of orders for convenience.

Business Outlook

During the first six months of fiscal year 2004, while net sales increased, new orders received by the Company did not keep pace with backlog relieved. Thus, while the sales backlog of \$17.3 million at December 31, 2003 gives the Company a solid base of future sales, the Company anticipates that the reduction of backlog may result in a reduction of sales during the first half of fiscal year 2005. Management believes that existing customers have delayed in placing orders for additional products, but anticipates that new orders will be received in the current calendar year which should result in an increase in backlog at December 31, 2004 as compared to December 31, 2003. In addition to the backlog, the Company currently has outstanding quotations representing in excess of \$32 million in the aggregate for both repeat and new programs. Based on management's communications with customers, the Company also expects to receive substantial orders for spare parts on the various types of transmitters which are already in service, a number of contracts for further development and manufacture of power supplies, transformers and additional contracts for pre-engineered hardware.

The outstanding quotations encompass various new and previously manufactured power supplies, transformers, and subassemblies. However, there can be no assurance that the Company will acquire any or all of the anticipated orders described above, many of which are subject to allocations of the United States defense spending and factors affecting the defense industry and military procurement generally.

Critical Accounting Policies and Estimates

We believe our most critical accounting policies include revenue recognition and cost estimation on our contracts.

Revenue recognition and cost estimation

A significant portion of our business is comprised of development and production contracts. Generally revenue on long-term fixed-price contracts is recorded on a percentage of completion basis using units of delivery as the measurement basis for progress toward completion.

Percentage of completion accounting requires judgment relative to expected sales, estimating costs and making assumptions related to technical issues and delivery schedule. Contract costs include material, subcontract costs, labor and an allocation of indirect costs. The estimation of cost at completion of a contract is subject to numerous variables involving materials and other contract costs and estimates as to the length of time to complete the contract. Given the significance of the estimation processes and judgments described above, it is possible that materially different amounts of contract costs could be recorded if different assumptions were used. When a change in contract value, contract performance status, or estimated cost is determined, changes are reflected in current period earnings.

Edgar Filing: ESPEY MFG & ELECTRONICS CORP - Form 10-Q

Results of Operations

Net sales for the six months ended December 31, 2003 were \$10,966,992 as compared to \$9,865,815 for the same period in 2002, an 11.2% increase. Net sales for the three months ended December 31, 2003 were \$5,871,675 as compared to \$5,374,456 for the same period in 2002, a 9.3% increase. The Company's increase in sales for the three and six month periods ended December 31, 2003, as compared to December 31, 2002, is due primarily to an increase in radar transmitter component shipments.

During the first six months of fiscal 2003 gross profits increased to \$1,628,049 as compared with \$713,967 for the first six months of fiscal 2002. For the three months ended December 31, 2003 gross profit (loss) increased to \$727,876 as compared to a loss of \$(75,254) for the same period in 2002.

Net income for the six months ended December 31, 2003 was \$342,395 or \$.34 per share compared to a loss of \$(110,789) or \$(.11) per share for the corresponding period ended December 31, 2002. For the three months ended December 31, 2003 the net income was \$61,430 or \$.06 per share as compared to a net loss of \$(417,334) or \$(.41) per share for the same period in 2002.

The primary factor in determining gross profit and net income is product mix. The gross profits on mature products and build to print contracts are higher than with respect to the products which are still in the engineering development stage or in the early stages of production. In any given accounting period the mix of product shipments between higher margin mature programs and less mature programs has a significant impact on gross profit and net income. For the three and six months ended December 31, 2003 gross profit and net income were higher as shipments were made on more mature programs and build to print contracts with higher gross margins as compared to the three and six month periods ended December 31, 2002. In addition, gross margins for the three and six months ended December 31, 2003 and 2002 were lower than anticipated due to higher than expected development costs associated with customer specific products which caused the net loss for the three and six months ended December 31, 2002. Management continues to evaluate the Company's workforce to ensure that production and overall execution of the backlog orders and additional anticipated orders are successfully performed. Employment at December 31, 2003 and 2002 was approximately 190 people.

The backlog at December 31, 2003 was approximately \$17.3 million as compared to \$25.5 million at December 31, 2002. New orders for the six-month period ended December 31, 2003 were approximately \$6.9 million. New orders for the three months ended December 31, 2003 were approximately \$2.3 million.

Selling, general and administrative expenses were \$1,234,397 for the six months ended December 31, 2003, an increase of \$267,744 as compared to the six months ended December 31, 2002. Selling, general and administrative expenses were \$684,594 for the three months ended December 31, 2003, an increase of \$147,248 as compared to the three months ended December 31, 2002. The increase is primarily due to an increase in insurance costs, professional fees and administrative salaries.

Other income for the six months ended December 31, 2003 decreased compared to the corresponding period ended December 31, 2002 primarily due to lower interest rates on the Company's money market accounts and the sale of a higher yielding preferred security held for investment in January, 2003. For the three months ended December 31, 2003 other income decreased due to lower interest rates on money market accounts as compared to the same period in 2002. The Company does not believe there is any significant risk associated with its investment policy, since at December 31, 2003 all of the investments are primarily represented by

Edgar Filing: ESPEY MFG & ELECTRONICS CORP - Form 10-Q

short-term liquid investments including certificates of deposit and money market accounts.

Liquidity and Capital Resources

As of December 31, 2003, the Company had working capital of \$24.4 million compared to \$23.2 million at December 31, 2002. The Company meets its short-term financing needs through cash flow from operations and when necessary, from its existing cash and short term investments.

The table below presents the summary of cash flow for the periods indicated:

	Six Months Ended December 31, 2003	2002
	-----	-----
Net cash provided by (used in) operating activities	\$ 194,337	\$(126,448)
Net used in investing activities	(174,924)	(247,117)
Net cash used in financing activities	(973,909)	(445,214)

Net cash provided by operating activities fluctuates between periods primarily as a result of differences in net income, the timing of shipments and the collection of accounts receivable, changes in inventory, level of sales and payment of accounts payable. The decrease in net cash used in investing activities is due to lower fixed asset purchases. The increase in net cash used in financing activities is due to an increase in dividends paid to shareholders.

The Company currently believes that the cash flow generated from operations and when necessary, from cash and cash equivalents, will be sufficient to meet its funding requirements for the foreseeable future. The Company has a

8

\$3,000,000 line of credit with a bank which could be utilized, if required, to fund growth of the Company's business. The line of credit had no outstanding balance at December 31, 2003. For the first half of fiscal 2004 capital expenditures were approximately \$175,000.

Since the debt of the Company's ESOP is not to an outside party the Company has eliminated from the Statements of Operations the offsetting items of interest income and interest expenses relating to the ESOP.

During the six months ended December 31, 2003 the Company repurchased 13,625 shares of common stock for \$272,329. Under existing Board authorizations, as of December 31, 2003, approximately \$540,000 could be utilized to repurchase the Company's common stock.

CAUTIONARY STATEMENT FOR PURPOSES OF THE "SAFE HARBOR" PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This report contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The terms "believe," "anticipate," "intend," "goal," "expect," and similar expressions may identify forward-looking statements. These forward-looking statements represent the Company's current expectations or beliefs concerning future events. The matters covered by these statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those set forth in the

Edgar Filing: ESPEY MFG & ELECTRONICS CORP - Form 10-Q

forward-looking statements, including the Company's dependence on timely development, introduction and customer acceptance of new products, the impact of competition and price erosion, supply and manufacturing constraints, potential new orders from customers and other risks and uncertainties. The foregoing list should not be construed as exhaustive, and the Company disclaims any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events. The Company wishes to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made.

Item 4. Controls and Procedures

(a) The Company's management, with the participation of the Company's chief executive officer and chief financial officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on such evaluation, our chief executive officer and chief financial officer have concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

(b) There have been no changes in our internal controls over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

ESPEY MFG. & ELECTRONICS CORP. PART II: Other Information and Signatures

Item 1. Legal Proceedings

On January 20, 2004, Franklin Resources, Inc., an investment advisor to Franklin MicroCap Value Fund, which holds a 7.7% ownership interest in the Company, filed a statement on Schedule 13D with the Securities and Exchange Commission stating that it had joined with Michael W. Wool and Paul J. Corr in pursuing contemplated legal action against the Company based on a vote taken at the November 13, 2003 annual meeting of shareholders to remove Messrs. Wool and Corr as directors, described below under Item 4.

On January 29, 2004, the Company announced that its Board of Directors had unanimously determined that such vote was improper. Accordingly, Messrs. Wool and Corr were reinstated as directors, and Mr. Corr was reinstated as Chairman of the Company's Audit Committee.

The Board of Directors also determined to set aside its appointment on November 24, 2003 of Alan D. Kohn to fill a pre-November 13, 2003 vacancy on the Board of Directors on the basis that his appointment had been procedurally improper. Mr. Kohn concurred in this decision. No decision has been made by the Board as to whether Mr. Kohn will be considered again for appointment to the Board. The Board also stated its intention to create a nominating committee comprised of independent directors for future nominations of directors.

The Board's actions followed consultation with special independent counsel who had been retained in connection with the previously announced review that is being conducted by the American Stock Exchange ("AMEX") of the

Edgar Filing: ESPEY MFG & ELECTRONICS CORP - Form 10-Q

vote taken to remove Messrs. Wool and Corr at the November 13, 2003 annual meeting of shareholders, described below under Item 4. The Company has provided information requested by AMEX in connection with such review. The AMEX review has not been concluded.

The Board of Directors has also directed its special counsel to continue its investigation into whether any directors or officers engaged in misconduct or in violation of applicable law in connection with the annual meeting.

On January 29, 2004 the Company also reached an agreement with Messrs. Wool, Corr and Franklin Resources, Inc. that has resulted in such parties' withdrawal of the claims that had been asserted against the Company. In this regard, the Company agreed to reimburse such parties for legal expenses to a maximum of \$19,400 and to pay Messrs. Wool and Corr directors' fees and any other benefits due them during the period November 13, 2003 to January 29, 2004..

Item 4. Submission of Matters to a Vote of Security Holders

- a) The Company's Annual Meeting of Shareholders (the "Annual Meeting") was held on November 13, 2003.
- b) Proxies for the Annual Meeting were solicited pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended. There were no solicitations in opposition to management's nominees listed in the proxy statement. All three nominees listed in the proxy statement were elected.
- c) The following matters were voted upon at the annual meeting:

The election of three Class A directors. The votes were cast as follows:

Nominee: -----	Voted For: -----	Voted Against or Withheld: -----	Broker Non-Vot -----
Howard Pinsley	907,884	82,659	4,131
Alvin O. Sabo	953,170	37,373	4,131
Carl Helmetag	982,084	8,849	4,131

Ratification of KPMG LLP, as independent auditors for the Corporation for the fiscal year ending June 30, 2004. The votes were cast as follows:

Shares IN FAVOR	983,834
Shares AGAINST	6,159
ABSTENTIONS	550
Broker NON-VOTES	4,131

Shareholder, H. Bud Wolf, made a proposal to remove directors Michael W. Wool, Paul J. Corr and William P. Greene, without cause. On the advice of counsel, who was present at the meeting, the proposal was deemed properly before the meeting and the named proxies in the Company's proxy statement were advised that they had

Edgar Filing: ESPEY MFG & ELECTRONICS CORP - Form 10-Q

the discretionary authority to vote on the proposal. The votes were cast as follows:

Removal of: -----	Shares IN FAVOR: -----	Shares AGAINST: -----	ABSTENTIONS: -----	Brok -----
Michael W. Wool	983,943	6,600	--	
Paul J. Corr	983,943	6,600	--	
William P. Greene	6,790	983,753	--	

Item-5. Other Information

None
