ACCORDINGLY, THEY DO NOT INCLUDE ALL OF THE INFORMATION AND FOOTNOTES REQUIRED BY ACCOUNTING PRINCIPLES GENERALLY ACCEPTED IN THE UNITED STATES FOR COMPLETE FINANCIAL STATEMENTS. IN THE OPINION OF MANAGEMENT, ALL ADJUSTMENTS (CONSISTING OF NORMAL RECURRING ACCRUALS) CONSIDERED NECESSARY FOR A FAIR PRESENTATION HAVE BEEN INCLUDED. OPERATING RESULTS FOR THE PERIODS PRESENTED ARE NOT NECESSARILY INDICATIVE OF THE RESULTS THAT MAY BE EXPECTED FOR THE FULL FISCAL YEAR. THE ACCOMPANYING FINANCIAL STATEMENTS INCLUDE THE RESULTS OF BPC HOLDING CORPORATION ("HOLDING") AND ITS WHOLLY-OWNED SUBSIDIARY, BERRY PLASTICS CORPORATION ("BERRY"), AND ITS WHOLLY-OWNED SUBSIDIARIES. AS A RESULT OF THE MERGER DESCRIBED IN NOTE 2 BELOW, THE FINANCIAL STATEMENTS HAVE BEEN PRESENTED SEPARATELY FOR HOLDING'S PRIOR OWNERSHIP THROUGH THE MERGER DATE ("PREDECESSOR") AND SUBSEQUENT TO THE MERGER ("COMPANY"). THESE FINANCIAL STATEMENTS AND RELATED NOTES SHOULD BE READ IN CONNECTION WITH THE COMPANY'S CONSOLIDATED FINANCIAL STATEMENTS AND FOOTNOTES THERETO INCLUDED IN HOLDING'S AND BERRY'S FORM 10-K FILED WITH THE SECURITIES AND EXCHANGE COMMISSION FOR THE YEAR ENDED DECEMBER 29, 2001.

2. THE MERGER

On July 22, 2002, GS Berry Acquisition Corp. (the "Buyer") merged (the "Merger") with and into BPC Holding Corporation, pursuant to the Agreement and Plan of Merger (as amended, the "Merger Agreement"), dated as of May 25, 2002, by and among Buyer, GS Capital Partners 2000 Offshore, L.P., GS Capital Partners 2000 GMBH & Co. Beteiligungs KG, Bridge Street Special Opportunities Fund 2000, L.P., GS Capital Partners 2000 Employee Fund, L.P., Stone Street Fund 2000, L.P., BPC Holding, Berry Plastics Corporation and certain stockholders and warrant holders of BPC Holding. At the effective time of the Merger, (i) each share of common stock of BPC Holding Corporation issued and outstanding immediately prior to the effective time of the Merger was converted into the right to receive cash pursuant to the terms of the Merger Agreement, and (ii) each share of common stock of the Buyer issued and outstanding immediately prior to the effective time of the Merger was converted into one share of common stock of BPC Holding.

The total amount of funds required to consummate the Merger and to pay estimated fees and expenses related to the Merger, including amounts related to the repayment of indebtedness, the redemption of the outstanding preferred stock and the payment of transaction costs incurred by Holding, were approximately \$869.2 million (which includes the amount of certain indebtedness which will remain outstanding and the value of certain shares of Holding common stock held by our employees that were contributed to the Buyer immediately prior to the Merger). The Buyer and its affiliates own approximately 63% of the common stock of Holding. The remaining common stock of Holding is held by J.P. Morgan Partners Global Investors, L.P. and other private equity funds affiliated with J.P. Morgan Partners, LLC, the private equity investment arm of J.P. Morgan Chase & Co., which own approximately 29% of Holding's common stock and by members of Berry's management, which own the remaining 8%. The Company loaned approximately \$14.0 million to management in order to purchase a portion of the common equity.

Edgar Filing: BERRY PLASTICS CORP - Form 424B3

The Merger has been accounted for under the purchase method of accounting, and accordingly, the purchase price has been allocated to the identifiable assets and liabilities based on estimated fair values at the acquisition date. The allocation is preliminary and is subject to change pending the finalization of expenses related to the Merger, completion of property appraisals, and identification of definite and indefinite lived intangible assets. The Company has applied the provisions of Emerging Issues Task Force 88-16, whereby, the carryover equity interests of certain shareholders from the Predecessor to the Successor were recorded at their Predecessor basis. The application of these provisions reduced stockholder's equity and intangibles by \$145.4 million. In connection with the Merger, the Predecessor incurred Merger related expenses of approximately \$21.0 million, consisting primarily of investment banking fees, bonuses to management, non-cash modification of stock option awards, legal costs, and fees to the largest voting stockholder of the Predecessor. In addition, as a result of extinguishing debt in connection with the Merger, \$6.6 million of existing deferred financing fees and \$18.7 million of prepayment fees and related charges were charged to expense in the quarter as an extraordinary item. The following table summarizes the preliminary allocation of purchase price.

Purchase price	\$ 836,708
Estimated buyer transaction costs	12,715
Net tangible assets acquired	(280,947)
Adjustment for carryover basis of continuing stockholders	(145,404)

Intangibles	\$423,072
	=====

As part of the Merger, the Company incurred \$12.7 million of transaction costs, of which \$8.0 million was paid to entities affiliated with GS Capital Partners 2000 Offshore, L.P., GS Capital Partners 2000 GMBH & Co. Beteiligungs KG, Bridge Street Special Opportunities Fund 2000, L.P., GS Capital Partners 2000 Employee Fund, L.P., and Stone Street Fund 2000, L.P. for services provided to consummate the Merger.

3. Recent Acquisitions

On May 14, 2001, Berry acquired all of the outstanding capital stock of Pescor Plastics, Inc. ("Pescor") for aggregate consideration of approximately \$24.8 million. The purchase was financed through the issuance by Holding of \$9.8 million of 14% predecessor preferred stock and additional borrowings under the retired senior credit facility. The operations of Pescor are included in Berry's operations since the acquisition date using the purchase method of accounting.

On January 24, 2002, Berry acquired the Alcoa Flexible Packaging injection molding assets of Mt. Vernon Plastics Corporation ("Mount Vernon") for aggregate consideration of approximately \$2.6 million. The purchase price was allocated to fixed assets (\$2.0 million) and inventory (\$0.6 million). The purchase was financed through borrowings under the Company's revolving line of credit under its retired senior credit facility. The operations of Mount Vernon are included in Berry's operations since the acquisition date using the purchase method of accounting. On January 31, 2002, Berry entered into a sale/leaseback arrangement with respect to the Mt. Vernon fixed assets.

Edgar Filing: BERRY PLASTICS CORP - Form 424B3

The pro forma results listed below are unaudited and reflect purchase accounting adjustments assuming the Pescor acquisition, Mount Vernon acquisition, and the Merger occurred on December 31, 2000.

The pro forma financial information is presented for informational purposes only and is not necessarily indicative of the operating results that would have occurred had the acquisitions been consummated at the above dates, nor are they necessarily indicative of future operating results. Further, the information gathered on the acquired companies is based upon unaudited internal financial information and reflects only pro forma adjustments for additional interest expense and amortization of the excess of the cost over the underlying net assets acquired (amortization through December 29, 2001), net of the applicable income tax effects. In addition, for the Merger, pro forma adjustments have only been made to eliminate the Merger related expenses, including the extinguishment of debt, and reflect the interest expense reduction from the new financing.

The current portion of long-term debt at September 28, 2002 consists of \$3.3 million of term loans payable in quarterly installments, \$0.5 million in repayments of the industrial bonds, and \$4.9 million in principal payments related to capital lease obligations. In fiscal 2002, Berry has entered into various capital lease obligations with no immediate cash flow effect resulting in capitalized property and equipment and corresponding capital lease obligations of \$17,075.

On July 22, 2002, Berry completed an offering of \$250.0 million aggregate principal amount of 10 3/4 % Senior Subordinated Notes due 2012 (the "2002 Notes"). The net proceeds to Berry from the sale of the 2002 Notes, after expenses, were \$239.4 million. The proceeds from the 2002 Notes were used in the financing of the Merger. The 2002 Notes mature on July 15, 2012, and interest is payable semi-annually on January 15 and July 15 of each year beginning January 15, 2003. Holding and all of Berry's domestic subsidiaries fully, jointly, severally, and unconditionally guarantee on a senior subordinated basis the 2002 Notes. The 2002 Notes are not guaranteed by the foreign subsidiaries: Berry Plastics Acquisition Corporation II, NIM Holdings Limited, Berry Plastics U.K. Limited, Norwich Acquisition Limited, CBP Holdings S.r.l., Capsol Berry Plastics S.p.a., or Ociesse S.r.l.

IN CONNECTION WITH THE MERGER, BERRY ENTERED INTO A NEW CREDIT AND GUARANTY AGREEMENT DATED AS OF JULY 22, 2002 ("CREDIT AGREEMENT") WITH A SYNDICATE OF LENDERS LED BY GOLDMAN SACHS CREDIT PARTNERS L.P., AS ADMINISTRATIVE AGENT, FOR A SENIOR SECURED CREDIT FACILITY (THE "CREDIT FACILITY"). AS OF SEPTEMBER 28, 2002, THE CREDIT FACILITY PROVIDES BERRY WITH (I) A \$330.0 MILLION TERM LOAN, (II) A \$100.0 MILLION REVOLVING LINE OF CREDIT, AND (III) A \$50 MILLION DELAYED DRAW FACILITY, SUBJECT TO CERTAIN LIMITATIONS. AS OF SEPTEMBER 28, 2002, BERRY HAD \$94.1 MILLION AVAILABLE UNDER THE REVOLVING LINE OF CREDIT. THE INDEBTEDNESS UNDER THE CREDIT AGREEMENT IS GUARANTEED BY HOLDING AND ALL OF ITS DOMESTIC SUBSIDIARIES. THE OBLIGATIONS OF BERRY UNDER THE CREDIT AGREEMENT AND THE GUARANTEES THEREOF ARE SECURED BY SUBSTANTIALLY ALL OF THE ASSETS OF SUCH ENTITIES, INCLUDING A PLEDGE OF ALL THE CAPITAL STOCK OF THE DOMESTIC SUBSIDIARIES AND 65% OF ALL THE CAPITAL STOCK OF EACH OF THE FOREIGN SUBSIDIARIES. In October 2002, Berry entered into an interest rate collar arrangement to protect \$50.0 million of the outstanding variable rate term loan debt from future interest rate volatility. The collar floor is set at 1.97% LIBOR (London Interbank Offering Rate) and capped at 6.75% LIBOR. THE CREDIT FACILITIES ABOVE CONTAIN VARIOUS FINANCIAL AND NON-FINANCIAL COVENANTS.

5. OPERATING SEGMENTS

The Company has three reportable segments: containers, closures, and consumer products. The Company evaluates performance and allocates

Edgar Filing: BERRY PLASTICS CORP - Form 424B3

resources based on operating income before depreciation and amortization of intangibles adjusted to exclude (i) non-cash compensation, (ii) other non-recurring or "one-time" expenses, and (iii) management fees and reimbursed expenses paid to the Predecessor's largest voting stockholder ("Adjusted EBITDA"). One-time expenses primarily represent non-recurring expenses that relate to recently acquired businesses, Merger related expenses, and plant consolidations. In the thirteen weeks ended September 28, 2002, \$21.0 million of expenses related to the Merger are included in one-time expense in the following chart. Predecessor and Company results have been combined as this is consistent with the review of senior management. The accounting policies of the reportable segments are the same as those described in the summary of significant accounting policies in the Company's Form 10-K filed with the Securities and Exchange Commission for the year ended December 29, 2001.

8. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In June 2001, the FASB issued SFAS No. 141, BUSINESS COMBINATIONS and SFAS No. 142, GOODWILL AND OTHER INTANGIBLE ASSETS. These pronouncements significantly change the accounting for business combinations, goodwill, and intangible assets. SFAS No. 141 eliminates the pooling-of-interests method of accounting for business combinations and further clarifies the criteria to recognize intangible assets separately from goodwill. The requirements of SFAS No. 141 are effective for any business combination that is completed after June 30, 2001. SFAS No. 142 states goodwill and indefinite lived intangible assets are no longer amortized but are reviewed for impairment annually (or more frequently if impairment indicators arise). Separable intangible assets that are deemed to have a finite life will continue to be amortized over their estimated useful lives. The Company adopted the provisions of SFAS Nos. 141 and 142 as of the beginning of fiscal 2002. Predecessor has performed the first of the required impairment tests of goodwill and indefinite lived intangible assets and has determined that no write-down of the asset values is necessary. Application of the nonamortization provisions of SFAS No. 142 is expected to result in an increase in net income (or decrease in net loss) of approximately \$10.5 million per year based on goodwill related to acquisitions prior to the adoption of the new rules. The Merger has been accounted for under the purchase method of accounting, and accordingly, the purchase price has been allocated to the identifiable assets and liabilities based on estimated fair values at the acquisition date. The allocation is preliminary and is subject to change pending the finalization of expenses related to the Merger, completion of property appraisals, and identification of definite and indefinite lived intangible assets. The following table presents the quarterly results of the Company on a comparable basis:

In October 2001, the FASB issued SFAS No. 144, ACCOUNTING FOR THE IMPAIRMENT OR DISPOSAL OF LONG-LIVED ASSETS. This statement addresses the financial accounting and reporting for the impairment and disposal of long-lived assets. It supercedes and addresses significant issues relating to the implementation of SFAS No. 121, ACCOUNTING FOR THE IMPAIRMENT OF LONG-LIVED ASSETS AND FOR LONG-LIVED ASSETS TO BE DISPOSED OF. SFAS No. 144 retains many of the fundamental provisions of SFAS No. 121 and establishes a single accounting model, based on the framework established in SFAS No. 121, for long-lived assets to be disposed of by sale, whether previously held and used or newly acquired. The Company adopted this standard as of the beginning of fiscal 2002. The application of SFAS No. 144 did not have a material impact on the Company's results of operations and financial position.

In April 2002, the FASB issued Statement of Financial Accounting Standards No. 145, RESCISSION OF FASB STATEMENTS NO. 4, 44 AND 64, AMENDMENT OF FASB STATEMENT NO. 13 AND TECHNICAL CORRECTIONS (SFAS No. 145). Upon the adoption of SFAS No. 145, all gains and losses on the extinguishment of debt for periods presented in the financial statements will be classified as extraordinary items only if they meet the criteria in APB Opinion No. 30, REPORTING THE RESULTS OF OPERATIONS - REPORTING THE EFFECTS OF DISPOSAL OF A SEGMENT OF A BUSINESS, AND EXTRAORDINARY, UNUSUAL AND INFREQUENTLY OCCURRING EVENTS AND TRANSACTIONS (APB No. 30). The provisions of SFAS No. 145 related to the rescission of FASB Statement No. 4 and FASB Statement No. 64 shall be applied for fiscal years beginning after May 15, 2002. The Company is currently evaluating the effects, if any, that this standard will have on its results of operations and financial position. The provisions of SFAS No. 145 related to the rescission of FASB Statement No. 44, the amendment of FASB Statement No. 113 and Technical Corrections are effective as of May 15, 2002 and did not have a material impact on the Company.

In June 2002, the FASB issued Statement of Financial Accounting Standards No. 146, ACCOUNTING FOR COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES (SFAS No.146). SFAS No. 146 nullifies Emerging Issues Task Force (EITF) Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)." SFAS No. 146 generally requires companies to recognize costs associated with exit activities when they are incurred rather than at the date of a commitment to an exit or disposal plan and is to be applied prospectively to exit or disposal activities initiated after December 31, 2002. The Company is currently evaluating the effects, if any,

Edgar Filing: BERRY PLASTICS CORP - Form 424B3

that this standard will have on its results of operations and financial position.

ITEM 2.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Unless the context discloses otherwise, the "Company" as used in this Management's Discussion and Analysis of Financial Condition and Results of Operations shall include BPC Holding Corporation ("Holding") and its wholly-owned subsidiary, Berry Plastics Corporation ("Berry"), and its wholly-owned subsidiaries. For analysis purposes, the results under Holding's prior ownership ("Predecessor") have been combined with results subsequent to the merger on July 22, 2002 ("Company") described below. The following discussion should be read in conjunction with the consolidated financial statements of Holding and its subsidiaries and the accompanying notes thereto, which information is included elsewhere herein.

On July 22, 2002, GS Berry Acquisition Corp. (the "Buyer") merged (the "Merger") with and into BPC Holding Corporation, pursuant to the Agreement and Plan of Merger (as amended, the "Merger Agreement"), dated as of May 25, 2002, by and among Buyer, GS Capital Partners 2000 Offshore, L.P., GS Capital Partners 2000 GMBH & Co. Beteiligungs KG, Bridge Street Special Opportunities Fund 2000, L.P., GS Capital Partners 2000 Employee Fund, L.P., Stone Street Fund 2000, L.P., BPC Holding, Berry Plastics Corporation and certain stockholders and warrant holders of BPC Holding. At the effective time of the Merger, (i) each share of common stock of BPC Holding Corporation issued and outstanding immediately prior to the effective time of the Merger was converted into the right to receive cash pursuant to the terms of the Merger Agreement, and (ii) each share of common stock of the Buyer issued and outstanding immediately prior to the effective time of the Merger was converted into one share of common stock of BPC Holding.

The Company remains highly leveraged. The high degree of leverage could have important consequences, including, but not limited to, the following: (i) a substantial portion of Berry's cash flow from operations must be dedicated to the payment of principal and interest on its indebtedness, thereby reducing the funds available to Berry for other purposes; (ii) Berry's ability to obtain additional debt financing in the future for working capital, capital expenditures, acquisitions, general corporate purposes or other purposes may be impaired; (iii) certain of Berry's borrowings are at variable rates of interest, which expose Berry to the risk of higher interest rates; (iv) the indebtedness outstanding under the senior credit facility is secured by substantially all of the assets of Berry; (v) Berry is substantially more leveraged than certain of its competitors, which may place Berry at a competitive disadvantage, particularly in light of its acquisition strategy; and (vi) Berry's degree of leverage may hinder its ability to adjust rapidly to changing market conditions and could make it more vulnerable in the event of a downturn in general economic conditions or its business.

CRITICAL ACCOUNTING POLICIES

The Company has disclosed those accounting policies that it considers to be significant in determining the amounts to be utilized for communicating its consolidated financial position, results of operations and cash flows in the

Edgar Filing: BERRY PLASTICS CORP - Form 424B3

second note to its consolidated financial statements included in its Form 10-K filed with the Securities and Exchange Commission for the year ended December 29, 2001. Our discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of financial statements in conformity with these principles requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results are likely to differ from these estimates, but management does not believe such differences will materially affect the Company's financial position or

19

results of operations. The following accounting policies represent the most critical based on management's analysis due the impact on the Company's results of operations.

ACCOUNTS RECEIVABLE. The Company evaluates the allowance for doubtful accounts on a quarterly basis and reviews any significant customers with delinquent balances to determine future collectibility. The determination includes a review of legal issues (such as bankruptcy status), past history, current financial and credit reports, and the experience of the credit representative. Allowances are established in the quarter in which the account is deemed uncollectible. The Company maintains additional allowances based on historical bad debt experience. The Company believes, based on past history and credit policies, that the net accounts receivable are of good quality.

MEDICAL. The Company offers medical insurance that is primarily self-insured to its employees. The Company evaluates the medical claims liability on a quarterly basis and obtains an independent actuarial analysis on an annual basis. A liability is accrued for the expected claims incurred but not reported plus any known claims. Based on its analysis, the Company believes that the medical claims liability is sufficient.

WORKERS' COMPENSATION. Effective in fiscal 2000, the Company converted the majority of its facilities to a large deductible program for workers' compensation insurance. On a quarterly basis, the Company evaluates the liability based on third-party adjusters' independent analyses by claim. Based on its analysis, the Company believes that the workers' compensation liability is sufficient.

Based on a critical assessment of its accounting policies and the underlying judgements and uncertainties affecting the application of those policies, management believes that the Company's consolidated financial statements provide a meaningful and fair perspective of the Company. This is not to suggest that other risk factors such as changes in economic conditions, changes in material costs, and others could not adversely impact the Company's consolidated financial position, results of operations and cash flows in future periods.

RESULTS OF OPERATIONS

13 WEEKS ENDED SEPTEMBER 29, 2002 ("QUARTER")
COMPARED TO 13 WEEKS ENDED SEPTEMBER 29, 2001 ("PRIOR QUARTER")

NET SALES. Net sales increased \$5.7 million, or 5%, to \$127.6 million for the Quarter from \$121.9 million for the Prior Quarter despite an approximate 3% decrease in net selling price. Container net sales increased \$4.3

Edgar Filing: BERRY PLASTICS CORP - Form 424B3

million from the Prior Quarter with the Mount Vernon acquisition providing approximately \$4.0 million of net sales in the Quarter. Closure net sales decreased \$1.3 million from the Prior Quarter due primarily to shedding low margin business in the Norwich facility. Consumer product sales for the Quarter increased \$2.6 million from the Prior Quarter primarily due to increased sales from the thermoformed drink cup line.

GROSS PROFIT. Gross profit decreased by \$0.5 million to \$30.1 million (24% of net sales) for the Quarter from \$30.6 million (25% of net sales) for the Prior Quarter. This decrease of 2% includes the combined impact of the added Mount Vernon sales volume, the effect of net selling prices and raw material costs, acquisition integration and productivity improvement initiatives. The historical margin percentage of the Mount Vernon acquired business is significantly less than the Company's historical gross margins thereby reducing consolidated margins until the business is fully integrated. Also, depreciation for the Quarter exceeded the Prior Quarter by \$0.9 million. In addition, the Company has continued to consolidate products and business of recent acquisitions to the most efficient tooling, providing customers with improved products and customer service. As part of the integration, the Company removed the molding operations from its Fort Worth, Texas facility (acquired in the Pescor acquisition). The business from this location was distributed throughout Berry's facilities. Also, significant productivity improvements were made during the Quarter,

20

including the addition of state-of-the-art injection molding equipment, molds and printing equipment at several of the Company's facilities.

OPERATING EXPENSES. Selling expenses increased by \$0.2 million to \$5.8 million for the Quarter from \$5.6 million for the Prior Quarter principally as a result of the 5% increase in net sales. General and administrative expenses decreased from \$6.3 million for the Prior Quarter to \$5.6 million for the Quarter. This decrease of \$0.7 million is primarily attributable to decreased accrued bonus expenses and cost reduction efforts. During the Quarter, one-time transition expenses were \$0.2 million related to acquisitions, \$0.8 million related to the shutdown and reorganization of facilities, \$0.3 million related to an acquisition that was not completed, and \$21.0 million related to the Merger. In the Prior Quarter, one-time transition expenses related to acquisitions were \$0.3 million and \$0.4 million related to the shutdown and reorganization of facilities.

INTEREST EXPENSE, NET. Net interest expense decreased \$1.6 million to \$11.9 million for the Quarter compared to \$13.5 million for the Prior Quarter primarily due to decreased rates of interest on borrowings.

INCOME TAX. For the Quarter, the Company recorded income tax expense of \$0.1 million compared to \$0.1 million for the Prior Quarter. The Company continues to operate in a net operating loss carryforward position for federal income tax purposes.

EXTRAORDINARY ITEM. As a result of extinguishing the Company's debt in connection with the Merger, \$6.6 million of existing deferred financing fees and \$18.7 million of prepayment fees and related charges were charged to expense in the Quarter as an extraordinary item.

NET INCOME (LOSS). The Company recorded a net loss of \$42.1 million for the Quarter compared to net income of \$0.2 million for the Prior Quarter for the reasons discussed above.

Edgar Filing: BERRY PLASTICS CORP - Form 424B3

39 Weeks Ended September 28, 2002 ("YTD")
Compared to 39 Weeks Ended September 29, 2001 ("Prior YTD")

NET SALES. Net sales increased \$15.6 million, or 4%, to \$378.5 million for the YTD from \$362.9 million for the Prior YTD despite an approximate 3% decrease in net selling price due to the cyclical impact of lower resin costs. Container net sales increased \$4.0 million from the Prior YTD, including approximately \$10.3 million of YTD sales from the Mount Vernon acquisition. The decrease, excluding the acquisition, can be primarily attributed to lower selling prices and a large promotion in the Prior YTD. Closure net sales decreased \$1.8 million from the Prior YTD due primarily to shedding low margin business in the Norwich facility. Consumer product sales for the YTD increased \$13.4 million from the Prior YTD primarily attributable to the Pescor acquisition and increased sales from the thermoformed drink cup line.

GROSS PROFIT. Gross profit decreased by \$2.9 million to \$95.7 million (25% of net sales) for the YTD from \$98.6 million (27% of net sales) for the Prior YTD. This decrease of 3% includes the combined impact of the added Pescor and Mount Vernon sales volume, the effect of net selling prices and raw material costs, acquisition integration and productivity improvement initiatives. The historical margin percentage of the Mount Vernon acquired business is significantly less than the Company's historical gross margins thereby reducing consolidated margins until the business is fully integrated. Also, depreciation for the YTD exceeded the Prior YTD by \$3.9 million. The Company has continued to consolidate products and business of recent acquisitions to the most efficient tooling, providing customers with improved products and customer service. As part of the integration, the Company removed molding operations from its Fort Worth, Texas facility (acquired in the Pescor acquisition). The business from this location was distributed throughout Berry's facilities. Also, significant productivity improvements were made during the year, including the addition of state-of-the-art injection molding equipment, molds and printing equipment at several of the Company's facilities.

21

OPERATING EXPENSES. Selling expenses decreased by \$0.3 million to \$16.7 million for the YTD from \$17.0 million for the Prior YTD, principally a result of cost reduction efforts. General and administrative expenses decreased from \$22.6 million for the Prior YTD to \$19.8 million for the YTD. This decrease of \$2.8 million is primarily attributable to decreased accrued bonus expenses and cost reduction efforts. During the YTD, one-time transition expenses were \$0.9 million related to acquisitions, \$2.2 million related to the shutdown and reorganization of facilities, \$0.3 million related to an acquisition that was not completed, and \$21.0 million related to the Merger. In the Prior YTD, one-time transition expenses related to acquisitions were \$1.4 million and \$1.6 million related to the shutdown and reorganization of facilities.

INTEREST EXPENSE, NET. Net interest expense decreased \$4.0 million to \$37.5 million for the YTD compared to \$41.5 million for the Prior YTD primarily due to decreased rates of interest on borrowings and reduced borrowings under the predecessor's senior credit facility.

INCOME TAX. For the YTD, the Company recorded income tax expense of \$0.4 million compared to \$0.2 million for the Prior YTD. The Company continues to operate in a net operating loss carryforward position for federal income tax purposes.

Edgar Filing: BERRY PLASTICS CORP - Form 424B3

EXTRAORDINARY ITEM. As a result of extinguishing the Company's debt in connection with the Merger, \$6.6 million of existing deferred financing fees and \$18.7 million of prepayment fees and related charges were charged to expense in the Quarter as an extraordinary item.

NET INCOME (LOSS). The Company recorded a net loss of \$32.1 million for the YTD compared to net income of \$3.1 million for the Prior YTD for the reasons discussed above.

LIQUIDITY AND CAPITAL RESOURCES

Net cash provided by operating activities was \$15.1 million for the YTD compared to \$57.3 million for the Prior YTD. The decrease is primarily the result of expenses related to the Merger.

Net cash used for investing activities decreased from \$47.4 million for the Prior YTD to \$39.3 million for the YTD primarily as a result of the Pescor acquisition in the Prior YTD. YTD capital spending of \$22.8 million included \$1.2 million for buildings and systems, \$8.6 million for molds, \$9.1 million for molding and printing machines, and \$3.9 million for accessory equipment and systems.

Net cash provided by financing activities was \$36.7 million for the YTD compared to net cash used of \$9.2 million for the Prior YTD. The increase of \$45.9 million can be attributed to the financing of the Merger.

In connection with the Merger, Berry received approximately \$330.0 million from a senior term loan from a syndicate of lenders led by Goldman Sachs Credit Partners L.P., as administrative agent, approximately \$250.0 million from the issuance of 10 3/4 % Senior Subordinated Notes to various private institutional buyers, and, as a result of the Merger, approximately \$268.8 million in equity contributions from affiliates of the Buyer and certain existing stockholders and members of Berry's management. The \$330.0 million senior term loan is part of Berry's new senior secured credit facility that also includes a \$100.0 million revolving line of credit and a \$50.0 million delayed draw facility, both of which have not been drawn upon. THE CREDIT FACILITIES ABOVE CONTAIN VARIOUS FINANCIAL AND NON-FINANCIAL COVENANTS.

22

INCREASED WORKING CAPITAL NEEDS OCCUR WHENEVER THE COMPANY EXPERIENCES STRONG INCREMENTAL DEMAND OR A SIGNIFICANT RISE IN THE COST OF RAW MATERIAL, PARTICULARLY PLASTIC RESIN. THE COMPANY ANTICIPATES THAT ITS CASH INTEREST, WORKING CAPITAL AND CAPITAL EXPENDITURE REQUIREMENTS FOR 2002 WILL BE SATISFIED THROUGH A COMBINATION OF FUNDS GENERATED FROM OPERATING ACTIVITIES AND CASH ON HAND, TOGETHER WITH FUNDS AVAILABLE UNDER THE REVOLVING LINE OF CREDIT. MANAGEMENT BASES SUCH BELIEF ON HISTORICAL EXPERIENCE AND THE SUBSTANTIAL CASH BALANCE AND FUNDS AVAILABLE UNDER THE REVOLVING LINE OF CREDIT. HOWEVER, THE COMPANY CANNOT PREDICT ITS FUTURE RESULTS OF OPERATIONS. AS OF SEPTEMBER 28, 2002, THE COMPANY HAD \$94.1 MILLION AVAILABLE UNDER THE REVOLVING LINE OF CREDIT AND \$13.2 MILLION IN CASH AND CASH EQUIVALENTS.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk changes in interest rates primarily through its senior credit facility. The Company utilizes interest rate instruments to reduce the impact of either increases or decreases in interest rates on its floating rate debt. As a result of the current economic slowdown and corresponding interest rate

Edgar Filing: BERRY PLASTICS CORP - Form 424B3

reductions, Berry entered into an interest rate collar arrangement in October 2002 to protect \$50.0 million of the outstanding variable rate term loan debt from future interest rate volatility. The collar floor is set at 1.97% LIBOR (London Interbank Offering Rate) and capped at 6.75% LIBOR. The Company is of the opinion that it is well positioned to manage interest exposures in the short term.

The Company is also subject to market risks with respect to pricing of its primary raw material (resin). Plastic resins are subject to cyclical price fluctuations, including those arising from supply shortages and changes in the prices of natural gas, crude oil and other petrochemical intermediates from which resins are produced. Management believes based on past experience that Berry can pass on a significant portion of any increase in resin costs over a period of time, but there may be a short-term negative impact to its financial performance. The Company also mitigates this risk by increasing resin inventories through its large infrastructure.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures.

As required by new Rule 13a-15 under the Securities Exchange Act of 1934, within the 90 days prior to the date of this report, the Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. In connection with the new rules, we currently are in the process of further reviewing and documenting our disclosure controls and procedures, including our internal controls and procedures for financial reporting, and may from time to time make changes aimed at enhancing their effectiveness and to ensure that our systems evolve with our business.

Upon the consummation of the tender offers and consent solicitations for the Notes (the "Offers"), each of the indentures governing the Notes was amended to eliminate the significant restrictive covenants and related events of default contained in such indentures. Substantially all of the Notes were tendered and purchased by Berry and Holding and, on August 21, 2002, Berry and Holding consummated the redemption of all outstanding Notes not purchased pursuant to the Offers. After the consummation of such redemption, no Notes remained outstanding.

The offering was exempt from registration under the Securities Act of 1933 pursuant to Rule 506 of Regulation D promulgated thereunder, as there were less than 35 purchasers of the Common Stock and the nature of the purchasers complied with Rule 506.

On July 15, 2002, the holders of a majority of Holding's Common Stock and each class of its then-outstanding Series C Preferred Stock executed a written consent pursuant to Section 228 of the General Corporation Law of the State of Delaware, whereby such stockholders approved an amendment to Holding's Amended and Restated Certificate of Incorporation so as to decrease the stated value and liquidation preference of each share of Holding's Class C Preferred Stock.
