Templeton Dragon Fund

Notes to Statement of Investments (unaudited)

1. ORGANIZATION

Templeton Dragon Fund, Inc. (Fund) is registered under the Investment Company Act of 1940, as amended, as a closed-end investment company.

2. FINANCIAL INSTRUMENT VALUATION

The Fund values its investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date.

Under procedures approved by the Fund's Board of Directors, the Fund may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-Q

Equity and other securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities may be valued utilizing a market-based approach in which the fundamental characteristics or relationships to similar securities are used to determine the fair value of the security held.

The Fund has procedures to determine the fair value of investments for which market prices are not readily available or which may not be reliably priced. Under these procedures, the Fund primarily employs a market-based approach, which may use prices of recent transactions, various market multiples, book values, and other relevant information for the investment, related assets or liabilities or other comparable assets or liabilities to determine the fair value of the investment. In developing this fair value, the Fund may also give consideration to an income-based approach valuation, which considers anticipated future cash flows of the investment and converts those amounts into a net present value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had a ready market existed.

Trading in securities on foreign exchanges and over-the-counter markets may be completed before the daily close of business on the NYSE. Occasionally, events occur between the time at which trading in a foreign security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a foreign security held by the Fund. As a result, variances may arise between the value of the Fund's portfolio securities as determined at the foreign market close and the latest indications of value at the close of the NYSE. In order to minimize the potential for these discrepancies, the investment manager monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depositary Receipts, futures contracts and exchange traded funds). These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred that may call into question the reliability of the values of the foreign securities held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services.

Investments in open-end mutual funds are valued at the closing net asset value.

3. INCOME TAXES

At March 31, 2010, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

Cost of investments	\$510,093,044
	=====
Unrealized appreciation	\$601,460,880
Unrealized depreciation	(15,765,917)

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-Q

Net unrealized appreciation (depreciation)	----- \$585,694,963 =====
--	---------------------------------

4. FAIR VALUE MEASUREMENTS

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and are summarized in the following fair value hierarchy:

- Level 1 - quoted prices in active markets for identical securities
- Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speed, credit risk, etc.)
- Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

For movements between the levels within the fair value hierarchy, the Fund has adopted a policy of recognizing the transfers as of the date of the underlying event which caused the movement.

At March 31, 2010, all of the Fund's investments in securities carried at fair value were in Level 1 inputs. For detailed industry descriptions, see the accompanying Statement of Investments.

5. SUBSEQUENT EVENTS

The Fund has evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure.

ITEM 2. CONTROLS AND PROCEDURES.

(a) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-Q

and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Quarterly Schedule of Portfolio Holdings on Form N-Q, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(b) CHANGES IN INTERNAL CONTROLS. There have been no significant changes in the Registrant's internal controls or in other factors that could significantly affect the internal controls subsequent to the date of their evaluation in connection with the preparation of this Quarterly Schedule of Portfolio Holdings on Form N-Q.
