Universal Forest Products, Inc. Posts Record 2001 Results
Reports 25% Increase in Fourth Quarter Earnings

Grand Rapids, MI, January 28, 2002 - Universal Forest Products, Inc. (Nasdaq: UFPI) today announced record fourth quarter net earnings of \$4.1 million or \$0.20 per share (diluted), a 25% increase over net earnings of \$3.3 million or \$0.16 per share (diluted) reported for the fourth quarter of 2000. Net sales for the quarter were \$326.4 million, an increase of 16.4% over net sales of \$280.4 million reported for the same quarter last year.

For the year ended December 29, 2001, net earnings were \$33.1 million or \$1.63 per share (diluted) compared to \$30.4 million or \$1.49 per share (diluted) a

year ago. Net sales for the year were \$1.53 billion, a 10.3% increase over net sales of \$1.39 billion in 2000.

"We are pleased to have achieved such strong results in a year when the economy and many of our markets presented so many challenges," said William G. Currie, UFPI's chief executive officer. "Our diversity, commitment to serving our customers, and sound acquisitions have allowed us to continue to grow despite price deflation in the wood fiber market, a soft manufactured housing market, and a depressed economy. Our performance this year is a tribute to the incredible employees of Universal, who remain focused on our goals and who exhibit a strong work ethic and sense of perseverance."

Currie added that favorable weather conditions in the fourth quarter helped drive strong sales to the Do-It-Yourself ("D-I-Y") market in many areas of the United States.

By market, Universal posted annual sales of:

- |X| \$738.9 million in retail D-I-Y, up 11.9% from 2000;
- |X| \$308.7 million in site-built construction, an increase of 26.6% over 2000;

MORE...

- |X| \$280.5 million in manufactured housing, down only 3.8% from 2000, despite a decrease in industry production of almost 25%; and
- |X| \$201.9 million in industrial/agricultural, up 5.5% over 2000.

OUTLOOK

In January 2002, Universal completed the previously announced redemption of shares from its chairman of the board, Peter F. Secchia. Universal purchased two million shares from Chairman Secchia at a price of \$18.00 per share. This transaction gave the Company the opportunity to acquire shares at an attractive purchase price and was consistent with the objectives of its previously announced share repurchase program.

The stock buy back is expected to redirect financial resources from acquisitions, which have been a key component to the Company's growth strategy, for most of 2002. Other key assumptions with respect to the Company's 2002 outlook include:

- |X| A commodity lumber market that remains stabilized;
- |X| A manufactured housing market that has already reached its low point for shipments and will experience a slight recovery; |X| A D-I-Y market that shows slow to moderate growth; and
- |X| A site-built housing market that will be soft for at least the first six months of the year.

With the factors expressed above in mind, the Company has targeted the following for 2002:

- |X| An increase in sales of 6% to 10%;
- |X| An increase in EPS of 18% to 22%, which includes the effect of changes in accounting for goodwill, other intangible assets and related amortization.

UNIVERSAL HONORED BY FORBES

In early January, Universal was named to Forbes magazine's Platinum 400, an annual ranking of the 400 best-performing U.S. companies with more than \$1 billion in annual revenue. "We are honored to be chosen by Forbes magazine as one of the top companies in 2001, which is a reflection of the talents of our management team," said Peter F. Secchia, UFPI's chairman of the board.
