ITEM 1.01. ENTRY INTO MATERIAL DEFINITIVE AGREEMENT.

On March 30, 2005, Elite Pharmaceuticals, Inc., a Delaware corporation (the "REGISTRANT") wholly owned subsidiary entered into an agreement with a privately held specialty dermatological marketing company and a privately held boutique formulation development company for the development and marketing of a generic controlled release drug delivery system; the drug to be produced will be a broad spectrum antibiotic used against a wide variety of bacterial infections. The agreement provides for the development and manufacture of the drug by the Registrant and its sale to the marketing company for distribution, and the formulation development company to be responsible for the requisite submissions, if any to the FDA. The Registrant is to share in profits, if any, from sales of the drug. Prior to obtaining an ANDA, the agreement may be terminated by the marketing company at any time upon 30 days notice.

The drug is a generic equivalent to a branded drug, which the Registrant believes has addressable market revenues of approximately \$80 million per year.
