(unaudited)
Dear Shareholder,
For municipal bonds, the 12-month period was a tale of two halves: a good first half and a difficult second. For the first six months of the period under review, municipal bonds provided a haven of sorts from the volatility in the general stock market. In addition to their collective performance in a low interest rate environment, they also offered a diverse set of individual opportunities for investors looking for more customized exposure.
In early November, however, following the surprise election of Donald Trump as U.S. president, both U.S. government and municipal bonds were subject to heavy selling. In the week following the election, \$3 billion left both muni bond mutual funds and ETFs, a withdrawal not seen since June 2013. Much of this selling has been attributed to fears among investors, both institutional and individual, that the changes in tax rates proposed by President Trump would render municipal bonds less attractive from the standpoint of after-tax yield.
Some of the hardest hit were high yield muni bond funds, which were hammered and saw both significant outflows in November and December, as well as dramatic declines in performance. Equally as dramatic, though, was the turnaround, especially for high yield muni bond funds, in performance starting in January, and the reversal of outflows, also in January. VanEck Vectors High-Yield Municipal Index ETF (NYSE Arca: HYD) was the best performing of VanEck's suite of municipal bond ETFs for the 12-month period ending April 30, 2017.

Management	Discussion	(unaudited)

Market Review

During the 12-month period ended April, 30, 2017, the municipal bond market had to navigate a rough passage, particularly following the U.S. presidential election, immediately after which both government and municipal bonds were subject to heavy selling. Three funds, the VanEck Vectors High-Yield Municipal Index ETF (NYSE Arca: HYD), the VanEck Vectors Pre-Refunded Municipal Index ETF (NYSE Arca: PRB), and the VanEck Vectors AMT-Free Short Municipal Index ETF (NYSE Arca: SMB), performed positively for the 12-month period under review.

May 1, 2016 through April 30, 2017 VanEck Vectors Municipal Bond ETFs Total Return

Note: Neither VanEck Vectors AMT-Free 12-17 Year Municipal Index ETF (BATS: ITML) nor VanEck Vectors AMT-Free 6-8 Year Municipal Index ETF (BATS: ITMS) is included above as they were launched on September 19, 2016.

Source: VanEck Research. Returns based on NAV. The performance data quoted represents past performance. Past performance is not a guarantee of future results. Investment returns and ETF share values will fluctuate so that investors' shares, when redeemed, may be worth more or less than their original cost. ETF returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Current performance may be lower or higher than performance data quoted.

AMT-Free 6-8 Year Municipal Index ETF/AMT-Free 12-17 Year Municipal Index ETF

Both launched on September 19, 2016, the Funds had traded for only a little under seven and a half months by the end of the 12-month period under review. The Funds both suffered from the heavy selling that hit the municipal bond market following the U.S. presidential election. Their performances suffered as a consequence, the AMT-Free 6-8 Year Municipal Index ETF was down -1.96%* from launch and the AMT-Free 12-17 Year Municipal Index ETF was

down -3.12%* from launch.

AMT-Free Intermediate Municipal Index ETF

Munis from California and Texas detracted the most from the total return of the Fund. When grouped by state/U.S. territory, 19 contributed to performance, but each one minimally. The sector with the largest average weightings in the index, state general obligation, was the largest detractor from the Fund's performance.

AMT-Free Long Municipal Index ETF

All sectors except two, local general obligation and resource recovery, contributed negatively to the Fund's total return, with the electric sector being by far the greatest detractor. Grouped by state/U.S. territory, municipal bonds issued by Illinois and Indiana were the greatest contributors to performance, but even then only minimally. Municipal bonds issued by California and New York detracted by far the most from performance.

VANECK VECTORS ETFs

(unaudited) (continued)

AMT-Free Short Municipal Index ETF/Pre-Refunded Municipal Index ETF

Among short munis, the local general obligation and transportation sectors contributed most to the positive total return of the AMT-Free Short Municipal Index ETF. The industrial development revenue/pollution control revenue (IDR/PCR) sector was the largest detractor from performance. In terms of state/U.S. territory, New York contributed by far the most to the total return of the Fund, while Ohio detracted the most from performance.

Munis from Texas contributed the most to the positive total return of the Pre-Refunded Municipal Index ETF. Grouped by state/U.S. territory, munis from Wisconsin detracted the most from performance, but, then, only minimally.

Short High-Yield Municipal Index ETF/High-Yield Municipal Index ETF

Local general obligation, hospital, and transportation sectors contributed the most to performance for Short High-Yield Municipal Index ETF, while the IDR/PCR sector was by far the largest detractor from the Fund's performance. Grouped by state/U.S. territory, Illinois was the greatest contributor to the Fund's total return, while munis from Ohio and the Virgin Islands detracted the most from performance.

In the High-Yield Municipal Index ETF, the IDR/PCR sector contributed by far the most to the Fund's positive total return. The state general obligation, electric, prerefunded, special tax, and housing sectors were the only five sectors to detract from performance. Munis from California, Puerto Rico, and New Jersey made the greatest contribution to performance and those from the Virgin Islands detracted the most from performance.

CEF Municipal Income ETF

Over the 12 months under review, the average discount at which municipal closed-end funds (CEFs) traded was within a very wide range. Starting the period at -2.81 on May 1, 2016, the discount narrowed to -1.31 on August 3, 2016 only to widen to as much as -8.21 on November 11-12, 2016, following the election of Donald Trump as U.S. president. Thereafter it proceeded to narrow, somewhat haltingly, to end the 12-month period at -4.02.

Since many municipal CEFs use leverage, and short-term rates increased during the period under review, the cost of leverage, too, rose. This was, therefore, detrimental to the municipal closed-end fund market and the Fund returned a disappointing -1.93%* for the 12-month period.

Returns based on NAV. The performance data quoted represent past performance. Past performance is not a guarantee of future results. Performance information for the Funds reflects temporary waivers of expenses and/or *fees. Had the Funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

Life*(2.48)% (1.96)%(0.82)% (2.48)% (1.96)%(0.82)%

Bloomberg Barclays AMT-Free 6-8 Year Intermediate Continuous Municipal Index (BVE6TR) is a market sized weighted index comprised of publicly traded municipal bonds that cover the U.S. dollar denominated tax-exempt bond market with final maturities of 6-8 years and that must be rated Baa3/BBB- or higher by at least two of the following ratings agencies if all three agencies rate the security: Moody's, S&P and Fitch. If only two of the three agencies rate the security, the lower rating is used to determine index eligibility. If only one of the three agencies rates a security, the rating must be at least Baa3/BBB-. Potential Index constituents must have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million. The bonds must be fixed rate, have a dated date within the last five years and have an effective maturity of 6 to 8 years. The following types of bonds are excluded from the Index: bonds subject to the alternative minimum tax, taxable municipal bonds, floating rate bonds and derivatives.

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

Hypothetical Growth of \$10,000 (Since Inception)

S-Network Municipal Bond Closed-End Fund IndexSM (CEFMXTR) is a rules-based index intended to serve as a benchmark for closed-end funds listed in the U.S. that are principally engaged in asset management processes designed to produce federally tax-exempt annual yield. CEFMXTR employs a modified total net assets weighting methodology designed to provide investment exposure across the various business segments that together comprise the federally tax-exempt annual yield sector of the closed-end fund market. The Index is divided into four main closed-end fund segments including: leveraged municipal fixed income closed-end funds; unleveraged municipal fixed income closed-end funds; and unleveraged high yield municipal fixed income closed-end funds.

The revenue sector is divided into industry sectors that consist of but may not be limited to electric, health care, transportation, education, water & sewer, resource recovery, leasing and special tax. The Short High-Yield Index tracks the high yield municipal bond market with a targeted 65% weight in noninvestment grade municipal bonds, a targeted 25% weight in Baa/BBB rated investment grade municipal bonds and a targeted 10% weight in A1/A rated investment grade municipal bonds.

To be included in the index, 40% weighting of bonds must have an outstanding par value of at least \$3 million and be issued as part of a transaction of at least \$100 million; 25% weighting of bonds must have an outstanding par value of at least \$3 million and be issued as part of a transaction of under \$100 million but over \$20 million; 25% weighting of bonds must have must have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$100 million; 10% weighting of bonds must have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million.

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

Hypothetical Growth of \$10,000 (Since Inception)

Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares.

See "About Fund Performance" on page 14 for more information.

^{*}Commencement of Fund: 1/13/2014; First Day of Secondary Market Trading: 1/14/2014.

VANECK VECTORS ETF TRUST

ABOUT FUND PERFORMANCE

(unaudited)

The price used to calculate market return (Share Price) is determined by using the closing price listed on its primary listing exchange. Since the shares of each Fund did not trade in the secondary market until after each Fund's commencement, for the period from commencement to the first day of secondary market trading in shares of each Fund, the NAV of each Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for each Fund reflects temporary waivers of expenses and/or fees. Had each Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of each Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Fund returns reflect reinvestment of dividends and capital gains distributions. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell fund shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

The 6-8 Year Index, 12-17 Year Index, Intermediate Index, Long Index, Short Index, High Yield Index, Pre-Refunded Index, and Short High-Yield Index are published by Bloomberg Finance L.P. and its affiliates (Bloomberg). CEFMX

Index is published by S-Network Global Indexes, LLC (S-Network).

Bloomberg and S-Network are referred to herein as the "Index Providers." The Index Providers do not sponsor, endorse, or promote the Funds and bear no liability with respect to the Funds or any security.

Premium/discount information regarding how often the closing trading price of the Shares of each Fund were above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund for each of the four previous calendar quarters and the immediately preceding five years (if applicable) can be found at www.vaneck.com.

VANECK VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the period, November 1, 2016 to April 30, 2017.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period."

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Ratio of gross expenses to average net assets	0.24	%(d)
Ratio of net expenses to average net assets	0.24	%(d)
Ratio of net expenses, excluding interest expense, to average net assets	0.24	%(d)
Ratio of net investment income to average net assets	2.15	%(d)
Portfolio turnover rate (e)	16	%(c)

(a) Commencement of operations

Total return is calculated assuming an initial investment made at the net asset value at the beginning of period,

- (b) reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.
- (c) Not Annualized
- (d) Annualized
- (e) Portfolio turnover rates exclude securities received or delivered as a result of processing in-kind capital share transactions.

Portfolio turnover rate (b)	17	%	3	%	4	%	5	%	3	%

Total return is calculated assuming an initial investment made at the net asset value at the beginning of period, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

(b) Portfolio turnover rates exclude securities received or delivered as a result of processing in-kind capital share transactions.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

April 30, 2017

Note 1—Fund Organization—VanEck Vectors ETF Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of April 30, 2017, offers fifty-nine investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: AMT-Free 6-8 Year Municipal Index ETF ("Free 6-8"), AMT-Free 12-17 Year Municipal Index ETF ("Free 12-17"), AMT-Free Intermediate Municipal Index ETF ("Intermediate"), AMT-Free Long Municipal Index ETF ("Long"), AMT-Free Short Municipal Index ETF ("Short"), CEF Municipal Income ETF ("CEF Municipal"), High-Yield Municipal Index ETF ("High-Yield"), Pre-Refunded Municipal Index ETF ("Pre-Refunded") and Short High-Yield Municipal Index ETF ("Short High-Yield"), each a "Fund" and collectively the "Funds". Each Fund's investment objective is to replicate as closely as possible, before fees and expenses, the price and yield performance of its index. The Funds (except CEF Municipal) expect to use a sampling approach in seeking to achieve their objectives. Sampling means that Van Eck Associates Corporation (the "Adviser") uses quantitative analysis to select bonds and other securities that represent a sample of securities in each Fund's respective index in terms of key risk factors, performance attributes and other characteristics. The number of securities in each Fund will be based upon several factors, including asset size of the Fund. The Adviser generally expects each Fund to hold less than the total number of securities in its index, but reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective. CEF Municipal seeks to achieve its objectives through a portfolio of securities in substantially the same weighting as its index.

The Funds' commencement of operations dates and their respective indices are presented below:

Fund	Commencement of Operations	Index
Free 6-8	September 19, 2016	Bloomberg Barclays AMT-Free 6-8 Year Intermediate Continuous Municipal Index
Free 12-17	September 19, 2016	Bloomberg Barclays AMT-Free 12-17 Year Intermediate Continuous Municipal Index
Intermediate	December 4, 2007	Bloomberg Barclays AMT-Free Intermediate Continuous Municipal Index
Long	January 2, 2008	Bloomberg Barclays AMT-Free Long Continuous Municipal Index
Short	February 22, 2008	Bloomberg Barclays AMT-Free Short Continuous Municipal Index
CEF Municipal	July 12, 2011	S-Network Municipal Bond Closed-End Fund Index SM
High-Yield	February 4, 2009	Bloomberg Barclays Municipal Custom High Yield Composite Index
Pre-Refunded	February 2, 2009	Bloomberg Barclays Municipal Pre-Refunded-Treasury-Escrowed Index
Short High-Yield	January 13, 2014	Bloomberg Barclays Municipal High-Yield Short Duration Index

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standards Codification ("ASC") 946 Financial Services - Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded, they are categorized as Level 1 in the fair value hierarchy (described below). Debt securities are valued on the basis of evaluated prices furnished by an independent pricing service approved by the Funds' Board of Trustees or provided by securities dealers. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date and/or (ii) quotations from bond dealers to determine current value and are categorized as Level 2 in the fair value hierarchy. Money market fund investments are valued at net asset value and are categorized

Security Valuation—The Funds value their investments in securities and other assets and liabilities at fair

169

as

A.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

Level 1 in the fair value hierarchy. Short-term debt securities with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. The Pricing Committee of the Adviser provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments or other assets. If market quotations for a security or other asset are not readily available, or if the Adviser believes it does not otherwise reflect the fair value of a security or asset, the security or asset will be fair valued by the Pricing Committee in accordance with the Funds' valuation policies and procedures. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, periodic comparisons to valuations provided by other independent pricing services, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of their investments on a recurring basis, which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 — Quoted prices in active markets for identical securities.

Level 2 — Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

Federal Income Taxes—It is each Fund's policy to comply with the provisions of the Internal Revenue Code **B.** applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Dividends and Distributions to Shareholders—Dividends to shareholders from net investment income, if any, are declared and paid at least monthly by each Fund. Distributions of net realized capital gains, if any, generally are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with income tax regulations, which may differ from such amounts determined in accordance with GAAP.

Restricted Securities—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the **D.** securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

Use of Derivative Instruments—The Funds may make investments in derivative instruments, including, but not **E.** limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. 170

Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter ("OTC") derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the investment adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. The Funds held no derivative instruments during the year ended April 30, 2017.

Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date.

F. The Funds record distributions received in excess of income from underlying investments as a reduction of cost of investments and/or an increase in realized gains. Such amounts are based upon estimates if actual amounts are not available, and actual amounts of income, realized gains and return of capital may differ from estimated amounts. Interest income, including amortization of premiums and discounts, is accrued as earned. Interest income is generally not earned on debt securities in default or upon determination that the income is not realizable.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund's average daily net assets. The Funds (except for CEF Municipal) utilize a unitary management fee where the Adviser is responsible for all expenses of the Funds, excluding the fee payment under the investment management agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

For CEF Municipal, the Adviser has agreed, at least until September 1, 2017 to voluntarily waive management fees and assume expenses to prevent the Fund's total annual operating expenses (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding the expense limitation listed in the table below.

The current management fee rate, expense limitation and the amounts waived/assumed by the Adviser for the year ended April 30, 2017 are as follows:

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

Fund	Management Fee Rate	Expense Limitation	Waiver of Management

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' distributor ("the Distributor"). Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

Note 4—Investments—For the year ended April 30, 2017, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

	Cost of	Proceeds from
Fund	Investments	Investments
	Purchased	Sold
Free 6-8	\$6,171,318	\$1,674,845
Free 12-17	5,783,103	773,450
Intermediate	526,903,346	103,806,689
Long	75,860,405	27,742,313
Short	66,131,977	32,362,932
CEF Municipal	11,423,393	11,389,817
High-Yield	1,015,889,507	200,319,656
Pre-Refunded	6,519,472	6,459,836
Short High-Yield	61,335,908	24,371,446

Note 5—Income Taxes—As of April 30, 2017, for Federal income tax purposes, the identified cost of investments owned, net unrealized appreciation (depreciation), gross unrealized appreciation, and gross unrealized depreciation of investments were as follows:

	Cost of	Gross	Gross	Net Unrealized
Fund		Unrealized	Unrealized	Appreciation
	Investments	Appreciation	Depreciation	(Depreciation)
Free 6-8	\$4,926,253	\$4,994	\$(109,269)	\$ (104,275)
Free 12-17	4,919,131	9,308	(195,308)	(186,000)
Intermediate	1,572,379,199	19,968,155	(22,107,987)	(2,139,832)
Long	159,061,047	1,949,433	(3,067,400)	(1,117,967)
Short	264,484,741	888,369	(1,333,503)	(445,134)
CEF Municipal	87,434,710	174,006	(3,920,957)	(3,747,909)
High-Yield	2,079,304,004	72,733,576	(72,257,498)	476,078
Pre-Refunded	14,469,268	127,239	(10,304)	116,935
Short High-Yield	116,585,743	1,346,154	(5,060,718)	(3,714,564)

At April 30, 2017, the components of accumulated earnings (deficit) on a tax basis, for each Fund, were as follows:

	Undistributed	Undistrib	Undistrib	Accumulated	Qualifi	e 0 ther	Unrealized	
Fund	Tax Exempt	Ordinary	Long-Te	Capital	Late-Y	e Te mporary	Appreciation	Total
	Income	Income	Capital Gains	Losses	Losses	*Difference	(Depreciation)

Short High-Yield	465,491	_	_	(2,589,226)) —	(941)	(3,714,564)	(5,839,240)

Qualified late-year losses, if any, are comprised of post-October capital losses incurred after October 31, 2016, and *certain late-year ordinary losses. Late-year ordinary losses represent ordinary losses incurred after December 31, 2016 and specified losses incurred after October 31, 2016. These losses are deemed to arise on the first day of the Fund's next taxable year. For the year ended April 30, 2017, the Funds had no such deferrals.

The tax character of dividends paid to shareholders during the years ended April 30, 2017 and April 30, 2016 were as follows:

	Tax-Exempt 1	Dividends	Ordinary Income		
Fund	April 30,	April 30,	April 30,	April 30,	
Tuliu	2017	2016	2017	2016	
Free 6-8	\$32,995	\$	\$665	\$ —	
Free 12-17	51,479	_	22	_	
Intermediate	33,471,797	27,852,120	12,583	18,910	
Long	4,923,087	3,758,435	8,993	7,410	
Short	2,987,470	3,027,135	3,305	_	
CEF Municipal	4,783,569	2,976,206	26,271	16,904	
High-Yield	85,842,615	77,632,113	1,425,685	723,857	
Pre-Refunded	172,207	172,440	1,563	_	
Short High-Yield	3,515,435	3,309,393	27,845	23,297	

At April 30, 2017, the Funds had capital loss carryforwards available to offset future capital gains, as follows:

	Post-Effective-	Post-Effective-		
	No Expiration	No Expiration		
	Short-Term	Long-Term	Amount Expirit	ng in the Year Ended April 30,
Fund	Capital Losses	Capital Losses	2019	2018
Free 6-8	\$ 32,583	\$—	\$ —	\$ —
Free 12-17	39,650			_
Intermediate	78,734		_	
Long	541,256		78,825	1,554,202
Short	143,943	538,664		_
CEF Municipal	1,102,321	1,254,514		_
High-Yield	9,287,871	33,558,673		
Pre-Refunded	231,072	299,734	_	
Short High-Yield	829,534	1,759,692	_	_

During the year ended April 30, 2017, the following Funds utilized accumulated capital loss carryforwards: Intermediate utilized \$1,692,763 and Long utilized \$281,863.

During the year ended April 30, 2017 \$603,978 of capital loss carryforwards expired for Long.

During the year ended April 30, 2017, as a result of permanent book to tax differences, primarily due to the tax treatment of market discount on tax exempt instruments and in-kind share transactions, the Funds incurred differences that affected undistributed net investment income, accumulated net realized gain (loss) on investments and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

Fund	Increase (Decrease) in Undistributed Net Investment Income/Loss	Increase (Decrease) in Accumulated Realized Gain/Loss	Increase (Decrease) in Aggregate Paid in Capital
Free 6-8	\$—	\$—	\$ —
Free 12-17		_	
Intermediate	(17,888)	(4,778,335)	4,796,223
Long		696,940	(696,940)
Short	1	74,103	(74,104)
CEF Municipal	(1,393)	(440,460)	441,853
High-Yield	(836,725)	10,961,154	(10,124,429)
Pre-Refunded		(3,975)	3,975
Short High-Yield	(266,794)	574,758	(307,964)

The Funds recognize the tax benefits of uncertain tax positions only where the position is "more-likely-than-not" to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for all open tax years. Therefore, no provision for income tax is required in the Funds' financial statements.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended April 30, 2017, the Funds did not incur any interest or penalties.

Note 6—Capital Share Transactions—As of April 30, 2017, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Fund shares are not individually redeemable and are issued and redeemed at their net asset value per share only through certain authorized broker-dealers ("Authorized Participants") in blocks of shares ("Creation Units"), or multiples thereof, consisting of 50,000 shares, except for Intermediate and High-Yield, which have Creation Units consisting of 100,000 shares, or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index ("Deposit Securities") plus a balancing cash component to equate the transaction to the net asset value per share of the Fund on the transaction date. Cash may also be substituted in an amount equivalent to the value of certain Deposit Securities, generally when the securities are not available in sufficient quantity for delivery, are not eligible for trading by the Authorized Participant, or as a result of market circumstances. The Funds may issue Creation Units in advance of receipt of Deposit Securities subject to various conditions, including a requirement to maintain on deposit at the Custodian for the benefit of the Funds, collateral consisting of cash in the form of U.S. dollars at least equal to 115% of the daily marked to market value of the missing Deposit Securities.

Authorized Participants purchasing and redeeming Creation Units may pay transaction fees directly to The Bank of New York Mellon. In addition, the Funds may impose certain variable fees for creations and redemptions with respect to transactions in Creation Units for cash, or on transactions effected outside the clearing process, which are treated as increases in capital. These variable fees, if any, are reflected in share transactions in the Statements of Changes in Net Assets.

For the year ended April 30, 2017, the Funds had in-kind contributions and redemptions as follows:

Fund	In-Kind	In-Kind
Tuna	Contributions	Redemptions
Free 6-8	\$—	\$ —
Free 12-17		
Intermediate	191,987,674	371,419,300
Long	8,334,570	44,787,728
Short	70,338,874	90,968,341
CEF Municipal	33,637,025	36,611,365
High-Yield	106,808,631	634,992,292

Pre-Refunded — 4,763,485 Short High-Yield 2,039,551 28,413,718

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect shareholder transactions including any cash component of the transactions.

Note 7—Concentration and Other Risks—Investments in municipal securities involve risks similar to those of investing in any fund of fixed income securities traded on exchanges, such as market fluctuations caused by factors such as economic and political developments, changes in interest rates and perceived trends in security prices. The market for municipal bonds may be less liquid than for taxable bonds.

Each Fund (except Intermediate, Long, Short, CEF Municipal and High-Yield) is classified as non-diversified funds under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers.

High-Yield and Short High-Yield invest in non-investment grade securities, often referred to as "junk bonds." Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. These high yield securities may involve greater risks and considerations not typically associated with investing in U.S. government bonds and other high quality fixed-income securities. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities. High-Yield and Short High-Yield may not be able to sell bonds at desired prices and that large purchases or sales of certain high-yield bond issues may cause substantial fluctuations in share price, yield and total return.

CEF Municipal invests in closed-end funds that may trade at a discount or premium to their net asset value. A closed-end fund may be leveraged as part of its investment strategy. As a result, the Fund may be indirectly exposed to the effects of leverage through its investment in the underlying funds. Investments in underlying funds that use leverage may cause the value of the Fund's shares to be more volatile than if the Fund invested in underlying funds that do not utilize leverage.

High-Yield and Short High-Yield invest in Puerto Rico municipal securities that currently experience significant financial difficulties. Particularly, the Funds may be affected by political, economic, regulatory and other developments within Puerto Rico and by the financial condition of Puerto Rico's political subdivisions, agencies, instrumentalities and public authorities. As a result, certain securities issued by this municipality are currently considered below-investment-grade securities. The market for these investments may be limited, which may make them difficult to buy or sell. Municipal obligations issued by Puerto Rico are subject to heightened risks that may adversely affect the value of these Funds' portfolios and the repayment of such bonds are subject to significant uncertainties. If the economic situation in Puerto Rico persists or worsens, the volatility, credit quality and performance of the Funds could be adversely affected.

The Adviser continues to monitor the events in Puerto Rico surrounding the debt crisis. Over the past two years, Puerto Rico has defaulted on principal and interest payments due to municipal bond holders for a number of municipal issues, including issues held by the Funds. The Funds continue to be impacted by the overall increase in securities in default of interest and/or principal obligations due to the crisis though not materially.

The U.S. Congress passed legislation for Puerto Rico in 2016 enabling the Governor to suspend debt service payments on general obligation bonds and other constitutionally protected debt. The U.S. Congress also passed legislation in 2016 giving Puerto Rico a stay against creditor litigation that could have triggered cuts to public service. The legislation authorized an oversight board to oversee Puerto Rico's finances and to approve any court-supervised debt restructuring. Over the past two years, the Puerto Rican legislation and Governor have enacted legislation or executive orders to cut costs, raise tax revenue, prioritize payments for essential services, reduce debt and restructure debt payments. Some of these actions have been opposed by bond creditors and have been blocked by the courts.

At April 30, 2017, the Adviser owned approximately 25% of AMT-Free 12-17 Year Municipal Index ETF.

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the "Plan") for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

Effective September 1, 2010, High Yield, Intermediate, Long, Pre-Refunded and Short Funds adopted a unitary management fee where the Adviser is responsible for all expenses of the Funds. Therefore, the expense for the Plan for these Funds and for Short High-Yield, Free 6-8 and Free 12-17 are included in "Management fees". The liability for the Plan is shown as "Deferred Trustee fees" in the Statements of Assets and Liabilities for amounts accrued through September 1, 2010 and in "Due to Adviser" for amounts accrued after September 1, 2010.

For CEF Municipal, the expense for the Plan is included in "Trustees' fees and expenses" in the Statements of Operations. The liability for the Plan is shown as "Deferred Trustee fees" in the Statements of Assets and Liabilities.

Note 9—Bank Line of Credit—The Funds may participate in a \$200 million committed credit facility (the "Facility") to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the year ended April 30, 2017, the following Funds borrowed under this Facility:

Eund	Days	Average Daily	Average
Fund	Outstanding	Loan Balance	Interest Rate
Long	1	\$159,952	2.06 %
Short	3	1,406,070	1.98
CEF Municipal	247	169,692	1.95
Short High-Yield	17	358,284	1.79
175			

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

As of April 30, 2017, the Funds had no outstanding loan balances.

Note 10—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the year ended April 30, 2017, there were offsets to custodian fees and these amounts are reflected in custody expense in the Statement of Operations.

Note 11—Recent Accounting Pronouncements and Regulatory Requirements—The Fund adopted Accounting Standards Update No. 2014-15 ("ASU 2014-15"), Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern, which requires management to assess the Funds' ability to continue as a going concern and to provide related disclosures in certain circumstances. Under the new standard, disclosures are required when conditions give rise to substantial doubt about a company's ability to continue as a going concern within one year from the financial statement issuance date. Based on management's evaluation, there are no conditions or events that could adversely affect the Funds' ability to meet their obligations within one year after the date the financial statements are issued. Accordingly, no disclosures are required specific to going concern uncertainties in the Funds' financial statements.

In October 2016, the Securities and Exchange Commission (the "SEC") released its Final Rule on Investment Company Reporting Modernization (the "Rule"). The Rule contains amendments to Regulation S-X which impact financial statement presentation, particularly the presentation of derivative investments. Although still evaluating the impact of the Rule, management believes that many of the Regulation S-X amendments are consistent with the Funds' current financial statement presentation and expects that the Funds will be able to comply with the Rule's Regulation S-X amendments by the August 1, 2017 compliance date.

In December 2016, FASB issued Accounting Standards Update ("ASU") No. 2016-19, *Technical Corrections and Improvements*. ASU 2016-19 includes an amendment to FASB ASC Topic 820, *Fair Value Measurement* which clarifies the difference between a valuation approach and a valuation technique. The amendment also requires an entity to disclose when there has been a change in either or both a valuation approach and/or a valuation technique. The disclosure requirements are effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2016. Management is currently evaluating the potential impact of this new guidance to the financial statements.

Note 12—Subsequent Events—The Funds have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

The following dividends from net investment income were declared and paid subsequent to April 30, 2017:

Fund	Ex-Date	Record Date	Payable Date	Per Share
Free 6-8	5/1/17	5/3/17	5/5/17	\$0.0284
Free 12-17	5/1/17	5/3/17	5/5/17	\$0.0464

176				

Puerto Rico

In early May 2017, the Puerto Rico Governor, moved the debt crisis to a form of bankruptcy court. Unlike states and other municipalities, Puerto Rico does not have access to the U.S. bankruptcy regime, and is seeking protection under the 2016 law that gave Puerto Rico a stay against creditor litigation. With over \$70 billion in bond obligations and \$49 billion in unfunded pensions, this is the largest government to seek bankruptcy protection in U.S. history.

On May 30, 2017, payments on bonds issued by the Puerto Rico Sales Tax Financing Corp. were frozen by a U.S. District Court Judge just before a \$16.3 million scheduled interest payment. The decision effectively escrows funds normally paid out to creditors until litigation over claims linked to the \$16 billion worth of bonds issued by the government-owned corporation is resolved. The Funds were not impacted by the frozen payments.

VANECK VECTORS ETF TRUST

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Trustees and Shareholders of VanEck Vectors ETF Trust

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of AMT-Free 6-8 Year Municipal Index ETF, AMT-Free 12-17 Year Municipal Index ETF, AMT-Free Intermediate Municipal Index ETF, AMT-Free Long Municipal Index ETF, AMT-Free Short Municipal Index ETF, CEF Municipal Income ETF, High-Yield Municipal Index ETF, Pre-Refunded Municipal Index ETF and Short High-Yield Municipal Index ETF (nine of the series constituting VanEck Vectors ETF Trust) (the "Funds") as of April 30, 2017, and the related statements of operations, the statements of changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of April 30, 2017, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of AMT-Free 6-8 Year Municipal Index ETF, AMT-Free 12-17 Year Municipal Index ETF, AMT-Free Intermediate Municipal Index ETF, AMT-Free Long Municipal Index ETF, AMT-Free Short Municipal Index ETF, CEF Municipal Income ETF, High-Yield Municipal Index ETF, Pre-Refunded Municipal Index ETF and Short High-Yield Municipal Index ETF (nine of the series constituting VanEck Vectors ETF Trust) at April 30, 2017, and the results of their operations, the changes in their net assets and the financial highlights for the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

TAX INFORMATION

(unaudited)

The information set forth below is for each Fund's fiscal year as required by federal laws. Shareholders, however, must report dividends on a calendar year basis for income tax purposes, which may include dividends for portions of two fiscal years of a Fund.

Accordingly, the information needed by shareholders for calendar year 2017 income tax purposes will be sent to them in early 2018. Please consult your tax advisor for proper treatment of this information.

Of the dividends and distributions paid by the Funds, the corresponding percentages represent the amount of such dividends which, for regular Federal income tax purposes, are tax exempt, from ordinary income and/or from long-term capital gains.

VANECK VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

April 30, 2017 (unaudited)

At a meeting held on December 2, 2016 (the "Meeting"), the Board of Trustees (the "Board") of VanEck VectorETF Trust (the "Trust"), including all of the Trustees that are not interested persons of the Trust (the "Independent Trustees"), considered and approved an investment management agreement between the Trust and Van Eck Associates Corporation (the "Adviser") (the "Investment Management Agreement") with respect to the VanEck Vectors AMT-Free National Municipal Index ETF ("MUNY"), VanEck Vectors Green Bond ETF ("Green Bond") and VanEck Vectors REIT Preferred Securities ETF ("REIT Preferred") (each, a "Fund" and together, the "Funds").

The Board's approval of the Investment Management Agreement was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In advance of the Meeting, the Trustees received materials from the Adviser, including expense information for other funds. The Adviser provided the Trustees with information regarding, among other things, the various aspects of each Fund's proposed investment program, fee arrangements and service provider arrangements. The Independent Trustees' consideration of the Investment Management Agreement was based, in part, on their review of information obtained through discussions with the Adviser at the Meeting regarding the management of the Funds, information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others proposed to be involved in the management and administration of the Funds. In evaluating the terms of the Investment Management Agreement and the proposal for MUNY to adopt a unitary fee structure, the Trustees considered the risks being assumed by the Adviser under the unitary fee structure arrangement and the potential expense stability that may inure to the benefit of shareholders of MUNY. The Trustees also considered the terms and scope of services that the Adviser would provide under the Investment Management Agreement, including the Adviser's commitment to waive certain fees and/or pay expenses of Green Bond and REIT Preferred to the extent necessary to prevent the operating expenses of Green Bond and REIT Preferred from exceeding agreed upon limits for a period of at least one year following the effective date of their respective registration statements.

The Trustees considered the benefits, other than the fees under the Investment Management Agreement, that the Adviser would receive from serving as adviser to each Fund. The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability of each of the Funds to the Adviser because the Funds had not yet commenced operations. In addition, because the Funds had not yet commenced operations, the Trustees could not consider the historical performance or the quality of services previously provided to each of the Funds by the Adviser, although they concluded that the nature, quality, and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Meeting as part of their consideration of the Investment Management Agreement.

In voting to approve the Investment Management Agreement, the Trustees, including the Independent Trustees, concluded that the terms of the Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that the Investment Management Agreement is in the best interest of each Fund and such Fund's shareholders.

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a VanEck Vectors ETF Trust (the "Trust") Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus contains this and other information about the investment company. Please read the prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 800.826.2333, or by visiting vaneck.com, or on the Securities and Exchange Commission's website at http://www.sec.gov.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at http://www.sec.gov and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 800.826.2333 or by visiting vaneck.com.

Edgar Filling. Varieble Vocable ETF Track Form Wood
VANECK VECTORS ETFs
(unaudited)
Dear Shareholder:
On March 6, we launched the VanEck Vectors Green Bond ETF (NYSE Arca: GRNB). The fund is the first U.Slisted fixed income ETF to provide targeted exposure to the fast-growing green bond category and is the newest addition to our suite of fixed income ETFs.
"Green bonds" appear poised for significant growth, with issuance of green bonds having grown rapidly since the European Investment Bank issued the first such bond in 2007. These bonds are debt instruments issued to finance projects or activities that promote climate change mitigation or adaptation, including, for example, projects related to renewable energy, energy efficient buildings, and clean transportation, among others.
According to the Climate Bonds Initiative (CBI), an investor-focused non-profit organization that is working to promote large-scale investment in the low carbon economy, \$82 billion of green bonds were issued in 2016 and \$150 billion is expected to be issued in 2017.
Green Bond Issuance
Source: Climate Bonds Initiative, as of 12/31/2016. Not intended to be a forecast of future results, a guarantee of future results or investment advice. Current market conditions may not continue.
GRNB seeks to track the performance and yield characteristics of the S&P Green Bond Select Index (SPGRNSLT). ¹ To be included in the fund's underlying index, a bond's issuer must clearly disclose the rationale for the issuance, such as the use of proceeds, and the bond must be flagged as "green" by the CBI. All bonds must be rated by at least one rating agency and additional filters are applied with respect to minimum par amount outstanding, maturity, and market of issue.

Green bonds are, essentially, simply conventional bonds with an environmentally friendly use of proceeds. Overall, today's green bond universe resembles a core global aggregate fixed income benchmark in terms of yield, duration and credit quality. Global bond investors can, therefore, make an allocation to green bonds without significantly altering the risk and return profile of their portfolios. In addition, green bonds have also exhibited low historical correlation to

the broad U.S. fixed income market, suggesting potential diversification benefits within a U.S.-focused portfolio. We believe that there is demand for green bonds not only from ESG-focused² investors, but also that they may appeal to traditional fixed income investors. As the growth of the market progresses, we expect green bonds to make up an increasingly large share of the overall global debt market, and consequently, within investors' core fixed income portfolios.

Going forward we will, as always, continue to seek out and evaluate the most attractive opportunities for you as a shareholder, and we encourage you stay in touch with us through the videos and email subscriptions available on our website (www.vaneck.com). Should you have any questions, please contact us at 800.826.2333 or visit www.vaneck.com.

Thank you for participating in the VanEck Vectors ETF Trust. You will find the performance comparison of each of the funds for the 12 months ended April 30, 2017 on the following pages. You will also find their respective financial statements. We value your continuing confidence in us and look forward to helping you meet your investment goals in the future.

Jan F. van Eck Trustee and President VanEck Vectors ETF Trust

May 18, 2017

Represents the opinions of the investment adviser. Past performance is no guarantee of future results. Not intended to be a forecast of future events, a guarantee of future results or investment advice. Current market conditions may not continue.

All indices are unmanaged and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made. Bonds and bond funds will decrease in value as interest rates rise.

The S&P Green Bond Select Index (SPGRNSLT) is a market value-weighted subset of the S&P Green Bond Index that seeks to measure the performance of green-labeled bonds issued globally, subject to stringent financial and extra-financial eligibility criteria.

²ESG = environmental, social, and governance

Management Discussion (unaudited)

The suite of VanEck Vectors Income ETFs can most accurately be divided into three groups: equity income, international bonds, and corporate bonds. Over the 12 months ended April 30, 2017, 10 out of the suite of 11 funds posted positive returns.

Note: VanEck Vectors EM Investment Grade + BB Rated USD Sovereign Bond ETF (NYSE Arca: IGEM) and VanEck Vectors Green Bond ETF (NYSE Arca: GRNB) are not included above as they were launched on July 13, 2016 and March 3, 2017, respectively.

Source: VanEck Research. Returns based on NAV. The performance data quoted represents past performance. Past performance is not a guarantee of future results. Bonds and bond funds will decrease in value as interest rates rise. Performance information for the Funds reflects temporary waivers of expenses and/or fees. Had the Funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

EQUITY INCOME

Business Development Companies (BDCs)

BDCs typically lend to, and invest in, small privately held companies. An improving economy and increased lending benefit the industry, as do active buy-out and IPO markets.¹ Over the one-year period, BDCs posted an impressive 26.2% return, outperforming both the S&P 500® Index² return of 17.9% and BofA Merrill Lynch US High Yield Index return of 13.7%.³ BDCs gained as their valuations, on average, correlated with the high yield credit markets that had rallied during most of 2016 following the mid-February rebound in commodity prices. At the end of the period under review, BDCs were trading at a premium with a 1.1 price-to-book value. The industry ended the period offering a dividend yield of 9.0%, as measured by the MVISTM US Business Development Companies Index.⁴

Mortgage REITs (mREITs) borrow at short-term rates and lend at long-term rates, potentially profiting from the spread. As such, they can be affected by yield curve movements. A potential U.S. Federal Reserve increase combined with deteriorating markets could result in a flattening yield curve, which could hurt mREITs. However, if rates rise and markets strengthen, that could result in a rate increase being reflected across the yield spectrum or a steepening curve, which could bode well for mREITs. For example, while the yield curve has flattened slightly since the end of 2016, it has actually moved relatively parallel over the last 12 months. Despite rate increases over the past year, mREITs, as measured by the MVISTM Global Mortgage REITs Index⁵ (MVMORTTR), posted a commendable performance of 28.5%, much of which was attributable to improving price-to-book

VANECK INCOME ETFs

(unaudited)

values. Investor concern for rising interest rates weighed on the space most of 2016 and this was reflected in discounted book values. Subsequently, as rates rose, mREITs' price-to-book valuations appreciated, averaging about 1.1 on April 30, 2017. mREITs offered a dividend yield of 9.5%, as measured by MVMORTTR.

Preferred Securities ex Financials

Preferred securities are considered hybrid securities because they have features of both debt and equity securities. Historically, a company's preferred securities have offered higher yields than either its common stock or its senior debt. The Wells Fargo® Hybrid and Preferred Securities ex Financials Index excludes traditional financial companies which have been more volatile than other sectors historically. Over the 12-month period ending April 30, 2017, REITs positively contributed the most to performance, while the energy and mining industries detracted the most from performance. This subset of preferred securities ended the period offering a current yield of 6.4%, as measured by the Wells Fargo Hybrid and Preferred Securities ex Financials Index.⁶

INTERNATIONAL BOND

China Onshore Bonds

Once closed to foreign investors, China is home to the world's largest bond market among the emerging economies. The size of the market is now approximately US\$9.4 trillion.⁷ While it has increased in sheer size, a diverse array of bond categories spanning the yield curve has also evolved. Issuers include central and local governments, policy banks, state-owned enterprises and listed/non-listed corporations.

The Fund's performance was impacted negatively by depreciation of the Chinese renminbi. Most sectors contributed negatively to performance over the 12-month period ending April 30, 2017. Utility bonds provided a positive contribution to total return and bonds of issuers in the basic materials and diversified sectors detracted the least from total return, while those in the financial, industrial, and government sectors detracted the most.

Emerging Markets Local Currency Bonds

Emerging markets governments issue bonds denominated in their own currency, which can provide yield enhancement and diversification opportunities for investors. These include bonds from countries in Africa, Latin America, Eastern Europe, the Middle East, and Asia.

Over the 12-month period ending April 30, 2017, three key themes positively impacted the emerging markets debt market: a benign interest rate environment in developed countries; improving economic fundamentals in many emerging markets; and signs of accelerating global growth.

Bonds denominated in Brazilian real, South African rand, and Russian ruble contributed most to the Fund's total return. Bonds denominated in Turkish lira, Mexican peso, and Malaysian ringgit were the greatest detractors from performance.

Emerging Markets Aggregate Bonds

The diverse universe of emerging markets bonds includes sovereign and corporate bonds denominated in U.S. dollars, euros, or local emerging markets currencies.

U.S. dollar-denominated bonds made the greatest positive contribution to performance in terms of currency. Among local currency bonds, Brazilian real, Russian ruble, and South African rand bonds were the greatest contributors to total return, and Turkish lira, Mexican peso, and Nigerian naira bonds were the greatest detractors from total return. All sectors contributed positively to performance, with government, energy, and financial sector bonds the greatest contributors to total return and diversified, industrial, and basic materials bonds contributing the least to total return.

Emerging Markets High Yield Bonds

Emerging markets high yield corporate bonds offer investors exposure to corporations, quasi-sovereign, and agency issuers from emerging markets countries.

Bonds of Brazilian, Chinese, and Venezuelan issuers were the greatest contributors to the Fund's total return. Bonds of Croatian issuers were the only detractors from performance in terms of country of risk. On a sector

level, financial, energy, and basic materials bonds were the greatest contributors to total return and technology was the only sector to detract from performance.

International High Yield Bonds

Non-U.S. high yield bonds have continued to provide an opportunity to diversify not only geographically, but also in terms of currency, with bonds denominated, for example, in euros, sterling, and Canadian dollars as well as U.S. dollars.

All sectors contributed positively to overall Fund performance, with the energy, basic materials, and financial sectors providing the largest contributions. U.S. dollar, euro, and Canadian dollar-denominated bonds contributed positively to Fund total return, while sterling-denominated bonds detracted from Fund performance. Brazilian, Canadian, and Russian issuers provided the greatest positive contribution to performance, while Croatian and Swiss issuers were the largest detractors.

Green Bonds

Launched on March 3, 2017, the Fund had traded for only a little under two months by the end of the 12-month period under review. The Fund was up 2.86%* from launch, benefitting from euro and sterling exposure. French, supranational, and German issuers contributed most to returns, while bonds issued by Canadian issuers were the only detractors. All sectors contributed positively to the Fund's total return during the period.

Emerging Markets Investment Grade and Sovereign Bonds

Launched on July 13, 2016, the Fund had traded for only a little over nine and a half months by the end of the 12-month period under review. During this period, bonds issued by Kazakhstan, the Dominican Republic, and Hungary contributed the most to performance, while bonds issued by the Philippines, Turkey, and South Africa were the greatest detractors. The Fund was down -0.44%* from launch.

CORPORATE BOND

Fallen Angel Bonds

Fallen angels warrant distinction for an embedded value proposition that is not common to all of high yield: fallen angels tend to have a higher rate of ascension to investment grade than original-issue high yield bonds. The default rate in this segment has averaged 3.51% historically, below the 4.51% average for U.S. bonds originally issued as high yield bonds.⁸

Energy and basic industry were the two best performing sectors during the period under review, while the automotive and real estate sectors were the lowest contributors to total return.

Teck Resources Limited 6.25% 01/15/41 bond (1.1% of Fund net assets) and Sprint Capital Corp. 8.75% 03/15/32 bond (1.6% of Fund net assets) were the top two performing bonds. FirstEnergy Solutions Corp. 6.05% 08/15/21 bond (0.15% of Fund net assets) and Illinois Power Generating Company 7.0% 04/15/18 bond (sold during period under review), were the bottom two performing bonds.

Investment Grade Floating Rate Notes

Floating rate notes (FRNs) are investment grade-rated corporate debt issues with variable coupons that reset to current interest rates, based on a particular benchmark. The coupons on these securities fluctuate with that benchmark. The combination of low average years to maturity, typically in the 1-5 year range, and floating interest rates creates the potential for relatively low price fluctuations. In addition, as short-term interest rates rise, portfolio securities reset to higher yields. This was seen over the last 12 months as three-month LIBOR⁹ rates rose over 50 basis points to 1.17% by April 30, 2017.

The top two performing notes were Goldman Sachs Group, Inc. FRN 11/29/23, rated BBB+ (1.5% of Fund net assets) and General Electric Capital Corporation FRN 05/05/26, rated AA-, (0.8% of Fund net assets). The bottom two performing notes were General Motors Financial Company, Inc. FRN 01/14/22, rated BBB (0.4% of Fund net assets) and Goldman Sachs Group, Inc. FRN 04/26/21, rated BBB+, (1.0% of Fund net assets).

Treasury-Hedged High Yield Bonds

The Treasury-Hedged High Yield Bond ETF tracks an index that combines the more liquid portion of the high yield universe with short positions in 5-year U.S. Treasury notes. The Fund uses futures on such notes to help hedge against the risk of rising interest rates. Together, the long high yield bond and short comparable U.S. Treasury portfolios offer a combination of income generation and protection against rising interest rates.

The main drivers of returns in this strategy are credit spreads and interest rates. Narrowing credit spreads help returns, while widening credit spreads detract from returns. However, because of the interest rate hedge, rising interest rates positively contribute to performance while declining interest rates detract from returns. Over the 12-month period under review, credit spreads over Treasuries narrowed 249 basis points and the 5-year U.S. Treasury increased 56 basis points, having positively contributed to performance.

The top performing bonds were Sprint Corporation 7.875% 09/15/23 (1.6% of Fund net assets) and EP Energy Corporation 9.375% 05/01/20 (0.8% of Fund net assets). The bottom performing bonds were Frontier Communications Corporation 11.0% 06/15/25 (1.2% of Fund net assets) and Univision Communications, Inc. 8.5% 05/15/21 (sold during the period under review).

† All Fund assets referenced are Total Net Assets as of April 30, 2017, unless otherwise stated.

Returns based on NAV. The performance data quoted represent past performance. Past performance is not a guarantee of future results. Performance information for the Funds reflects temporary waivers of expenses and/or *fees. Had the Funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

All indices listed are unmanaged indices and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made.

VANECK VECTORS ETF TRUST

ABOUT FUND PERFORMANCE

(unaudited)

The price used to calculate market return (Share Price) is determined by using the closing price listed on its primary listing exchange. Since the shares of each Fund did not trade in the secondary market until after each Fund's commencement, for the period from commencement to the first day of secondary market trading in shares of each Fund, the NAV of each Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for each Fund reflects temporary waivers of expenses and/or fees. Had each Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of each Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Fund returns reflect reinvestment of dividends and capital gains distributions. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell fund shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

BDC Index, EM Aggregate Bond Index, Floating Rate Index, Mortgage REITs Index and Treasury-Hedged High Yield Bond Index are published by MV Index Solutions GmbH (MVIS), a wholly owned subsidiary of the Adviser,

Van Eck Associates Corporation. ChinaBond Index is published by China Central Depository & Clearing Co., Ltd. (China Central Depository). Emerging Markets Core Index and EM Investment Grade Plus Index are published by JPMorgan Securities Inc. (J.P. Morgan). Emerging Markets High Yield Index, Fallen Angel Index and International High Yield Index are published by Merrill Lynch, Pierce, Fenner & Smith Incorporated (Merrill Lynch). Green Bond Index is published by S&P Dow Jones Indices (S&P). Preferred Securities Index is published by Wells Fargo & Company, LLC (Wells Fargo).

MVIS, China Central Depository, J.P. Morgan, Merrill Lynch, S&P, and Wells Fargo are referred to herein as the "Index Providers." The Index Providers do not sponsor, endorse, or promote the Funds and bear no liability with respect to the Funds or any security.

Premium/discount information regarding how often the closing trading price of the Shares of each Fund were above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund for each of the four previous calendar quarters and the immediately preceding five years (if applicable) can be found at www.vaneck.com.

VANECK VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the period, November 1, 2016 to April 30, 2017.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period."

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Expenses are equal to the Fund's annualized expense ratio (for the six months ended April 30, 2017) multiplied by

^{*} the average account value over the period, multiplied by the number of days in the most recent fiscal half year divided by the number of days in the fiscal year (to reflect the one-half year period).

^{**} Assumes annual return of 5% before expenses

Expenses are equal to the Fund's annualized expense ratio (for the period from March 3, 2017 (commencement of operations) to April 30, 2017) multiplied by the average account value over the period, multiplied by the number of days since commencement of operations divided by the number of days in the fiscal year.

- (a) Coupon is based upon predetermined growth targets for the Gross Domestic Product of Ukraine. The rate shown reflects the rate in effect at the end of the reporting period.
- (c) Callable Security the redemption date shown is when the security may be redeemed by the issuer
- (s) Step Bond coupon increases periodically based upon a predetermined schedule. The rate shown reflects the rate in effect at the end of the reporting period
- ^ Zero Coupon Bond the rate shown is the effective yield at purchase date
- † Security fully or partially on loan. Total market value of securities on loan is \$510,954.
- # Indicates a fair valued security which has been valued in good faith pursuant to guidelines established by the Board of Trustees. The aggregate value of fair valued securities is \$45,455 which represents 0.3% of net assets. Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from
- Reg registration securities offered and sold outside of the United States. Such a security cannot be sold in the United
- S States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.
 - Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended, or otherwise
- 144A restricted. These securities may be resold in transactions exempt from registration, unless otherwise noted, and the value amounted to \$1,927,210, or 12.7% of net assets.

(a) Commencement of operations

Total return is calculated assuming an initial investment made at the net asset value at the beginning of period, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

(c) Not Annualized

(d) Annualized

- (e) Portfolio turnover rates exclude securities received or delivered as a result of processing in-kind capital share transactions.
- The ratios presented do not reflect the Fund's proportionate share of income and expenses from the Fund's investment in underlying funds.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

April 30, 2017

Note 1—Fund Organization—VanEck Vectors ETF Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of April 30, 2017, offers fifty-nine investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: BDC Income ETF ("BDC Income"), China AMC China Bond ETF ("China AMC China Bond"), EM Investment Grade + BB Rated USD Sovereign Bond ETF ("EM Investment Grade + BB Rated USD Sovereign Bond"), Emerging Markets Aggregate Bond ETF ("Emerging Markets Aggregate"), Emerging Markets High Yield Bond ETF ("Emerging Markets High Yield"), Fallen Angel High Yield Bond ETF ("Fallen Angel"), Green Bond ETF ("Green Bond"), International High Yield Bond ETF ("International High Yield"), Investment Grade Floating Rate ETF ("Investment Grade"), J.P. Morgan EM Local Currency Bond ETF ("J.P. Morgan EM"), Mortgage REIT Income ETF ("Mortgage REIT"), Preferred Securities ex Financials ETF ("Preferred Securities") and Treasury-Hedged High Yield Bond ETF ("Treasury-Hedged"), each a "Fund" and collectively the "Funds". Each Fund's investment objective is to replicate as closely as possible, before fees and expenses, the price and yield performance of its index. The Funds (except BDC Income, Mortgage REIT and Preferred Securities) expect to use a sampling approach in seeking to achieve their objectives. Sampling means that Van Eck Associates Corporation (the "Adviser") uses quantitative analysis to select bonds and other securities that represent a sample of securities in the index in terms of key risk factors, performance attributes and other characteristics. The number of securities in each Fund will be based upon several factors, including asset size of the Fund. The Adviser generally expects each Fund to hold less than the total number of securities in the index, but reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective. China Asset Management (Hong Kong) Limited (the "Sub-Adviser") is the sub-adviser to ChinaAMC China Bond. ChinaAMC China Bond seeks to achieve its investment objective by primarily investing in bonds issued in the People's Republic of China ("PRC") via the Sub-Adviser. BDC Income, Mortgage REIT and Preferred Securities each seek to achieve their investment objective through a portfolio of securities in substantially the same weighting as their index.

The Funds' commencement of operations dates and their respective indices are presented below:

Fund	Commencement of Operations	Index
BDC Income	February 11, 2013	MVISTM US Business Development Companies Index*

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standards Codification ("ASC") 946 Financial Services—Investment Companies.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded, they are categorized as Level 1 in the fair value hierarchy (described below). Debt securities are valued on the basis of evaluated prices furnished by an independent pricing service approved by the Funds' Board of Trustees or provided by securities dealers. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date and/or (ii) quotations from bond dealers to determine current value and are categorized as Level 2 in the fair value hierarchy. Money market fund investments are valued at net asset value and are categorized as Level 1 in the fair value hierarchy. Short-term debt securities with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. The Pricing Committee of the Adviser provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments or other assets. If market quotations for a security or other asset are not readily available, or if the Adviser believes it does not otherwise reflect the fair value of a security or asset, the security or asset will be fair valued by the Pricing Committee in accordance with the Funds' valuation policies and procedures. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, periodic comparisons to valuations provided by other independent pricing services, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of their investments on a recurring basis, which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3

measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 — Quoted prices in active markets for identical securities.

Level 2 — Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

Federal Income Taxes—It is each Fund's policy to comply with the provisions of the Internal Revenue Code **B.** applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Dividends and Distributions to Shareholders—Dividends to shareholders from net investment income, if any, are declared and paid at least monthly by each Fund (except BDC Income and Mortgage REIT, which are declared

- **C.** and paid quarterly). Distributions of net realized capital gains, if any, generally are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with income tax regulations, which may differ from such amounts determined in accordance with GAAP.
 - **Currency Translation**—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day as quoted by one or more sources. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the
- **D.** exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.
- Restricted Securities—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the E. securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included

at the end of each Fund's Schedule of Investments.

Repurchase Agreements—The Funds may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Adviser, to generate income from their excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires securities from a seller, subject to resale to the seller at an agreed upon price and date. A Fund, through its custodian/securities lending agent, takes possession of securities collateralizing the repurchase agreement. Pursuant to the terms of the repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of

- the repurchase price plus accrued interest at all times. If the value of the underlying securities falls below the value of the repurchase price plus accrued interest, the Funds will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the Funds maintain their right to sell the underlying securities at market value and may claim any resulting loss against the seller. Repurchase agreements held as of April 30, 2017 are reflected in the Schedules of Investments.
- **G.** Warrants—The Funds may invest in warrants whose values are linked to indices or underlying instruments. The Funds may use these warrants to gain exposure to markets that might be difficult to invest in through conventional securities. Warrants may be more volatile than their linked indices or underlying instruments. Potential losses are limited to the amount of the original investment. Warrants are obligations of the issuer and are not secured by any collateral. Warrants may be exercised by the Funds during the exercise period. If the warrants have not been

exercised on the last day of the exercise period, the warrants will be automatically exercised on that day. Warrants held at April 30, 2017, if any, are reflected in the Schedules of Investments.

Use of Derivative Instruments—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter ("OTC") derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the investment adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments.

Futures Contracts—The Funds may purchase or sell futures contracts to gain exposure or to hedge against interest rate movement. Using futures contracts involves various market risks, including interest rate and equity risk as well as the risks that there may be an illiquid market or that a change in the value of the contract may not correlate with changes in the value of the underlying securities.

Upon entering into a futures contract, a Fund is required to deliver to a broker an amount of cash and/or government securities equal to a certain percentage of the contract amount. This amount is known as the "initial margin". Subsequent payments, known as "variation margin", generally are made or received by the Fund each day depending on the fluctuations in the value of the underlying futures contracts, except that in the case of certain futures contracts payments may be made or received at settlement. Such variation margin is recorded for financial statement purposes on a daily basis as an unrealized gain or loss on futures until the futures contract is closed or expires, at which time the net gain or loss is reclassified to realized gain or loss on futures. Treasury-Hedged held futures contracts for 12 months during the year ended April 30, 2017, with an average notional amount of \$4,309,125. Futures contracts held by Treasury-Hedged at April 30, 2017 are reflected in the Schedule of Investments.

At April 30, 2017, Treasury-Hedged held the following derivative instruments:

Liability Derivatives Interest Rate Risk

Futures contracts¹ \$35,438

¹ Statement of Assets and Liabilities location: Variation margin on futures contracts

For Treasury-Hedged, the impact of transactions in derivative instruments during the year ended April 30, 2017, was as follows:

Interest Rate Risk

Net change in unrealized appreciation (depreciation):

Futures contracts² \$(33,469)

Net realized gain (loss):

Futures contracts³ 73,969

Offsetting Assets and Liabilities—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds present securities lending and repurchase agreement assets and liabilities on a gross basis in the Statements of Assets and Liabilities. Collateral held at April 30, 2017 is presented in the Schedules of Investments. Refer to related disclosures in Note 2F (Repurchase Agreements) and Note 9 (Securities Lending).

Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash J. in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized upon notification of ex-dividend date/rate. The 104

² Statements of Operations location: Net change in unrealized appreciation (depreciation) on futures contracts

³ Statements of Operations location: Net realized gain (loss) on futures contracts

Funds may record distributions received in excess of income from certain underlying investments as a reduction of cost of investments and/or an increase in realized gains. Such amounts are based upon estimates if actual amounts are not available, and actual amounts of income, realized gains and return of capital may differ from estimated amounts. Interest income, including amortization of premiums and discounts, is accrued as earned. Interest income is generally not earned on debt securities in default or upon determination that the income is not realizable.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

At April 30, 2017, ChinaAMC China Bond included \$1,375 in cash denominated in foreign currency, at value on the Statements of Assets and Liabilities which represents foreign investor minimum settlement reserve funds required by China Securities Depository and Clearing Corporation Limited.

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund's average daily net assets. The Adviser has agreed, at least until September 1, 2017 (September 1, 2018 for J.P. Morgan EM), to voluntarily waive management fees and assume expenses to prevent each Fund's total annual operating expenses (excluding acquired fund fees and expenses, interest expense, trading expenses, offering costs, and taxes and extraordinary expenses) from exceeding the expense limitations listed in the table below.

The current expense limitations, management fee rates and the amounts waived/assumed by the Adviser for the year ended April 30, 2017 are as follows:

Fund	Expense Limitation	Management Fee Rate	Waiver of Management Fees	Expenses Assumed by the Adviser
BDC Income	0.40 %	0.40 %	\$141,806	\$ —
ChinaAMC China Bond	0.50	0.40	32,591	81,003

Qualified late-year losses are comprised of post-October capital losses incurred after October 31, 2016, and certain late-year ordinary losses. Late-year ordinary losses represent ordinary losses incurred after December 31, 2016, and *specified losses incurred after October 31, 2016. These losses are deemed to arise on the first day of the Funds' next taxable year. For the year ended April 30, 2017, the Funds intend to defer to May 1, 2017 for federal tax purposes qualified late-year losses as follows:

	Late-Year
Fund	Ordinary
	Losses
ChinaAMC China Bond	\$26,883
Emerging Markets Aggregate	54,071
International High Yield	615,331
J.P. Morgan EM	8,470,201
Preferred Securities	488,434

Treasury-Hedged	140,155	323,580

During the year ended April 30, 2017, the following Funds utilized accumulated capital loss carryforwards: ChinaAMC China Bond utilized \$7,865, Emerging Markets Aggregate utilized \$8,361, and Investment Grade utilized \$47,392.

During the year ended April 30, 2017, as a result of permanent book to tax differences, primarily due to the tax treatment of foreign currency gains and losses, reclassification of income from BDC and REIT securities, bond bifurcation adjustments, in-kind share transactions, net operating losses and deemed distributions on shareholder redemptions, the Funds incurred differences that affected undistributed (accumulated) net investment income (loss), accumulated net realized gain (loss) on investments and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

Fund	Increase (Decrease)	Increase (Decrease)	Increase (Decrease)

J.P. Morgan EM	(72,275,785))	73,511,065		(1,235,280)
Mortgage REIT	(513,894)	221,422		292,472
Preferred Securities	(593,947)	(136,273)	730,220
Treasury-Hedged	_		2		(2)

The Funds recognize the tax benefits of uncertain tax positions only where the position is "more-likely-than-not" to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for all open tax years. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds' financial statements. The Funds are subject to foreign taxes on the appreciation in value of certain investments. The Funds provide for such taxes on both realized and unrealized appreciation.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended April 30, 2017, the Funds did not incur any interest or penalties.

There are still some uncertainties in the Chinese tax rules governing taxation of income and gains from investments in the PRC due to the lack of formal guidance from the PRC's tax authorities that could result in unexpected tax liabilities for ChinaAMC China Bond. China generally imposes withholding income tax ("WHT") at a rate of 10% (which may be

reduced by the double taxation agreement/arrangement) on dividends and interest derived by nonresidents, including Qualified Foreign Institutional Investors ("QFII") and Renminbi Qualified Foreign Institutional Investors ("RQFIIs"), from issuers resident in China. Under the PRC Corporate Income Tax regime, China also imposes WHT at a rate of 10% (subject to treaty relief) on PRC-sourced capital gains derived by nonresident enterprises, provided that the nonresident enterprises (i) do not have places of business, establishments or permanent establishments in the PRC; and (ii) are not PRC tax resident enterprises. ChinaAMC China Bond currently considers capital gains derived from Chinese bonds to be non PRC-sourced and not subject to WHT.

PRC rules for taxation of RQFIIs (and QFIIs) are evolving and certain of the tax regulations to be issued by the PRC State Administration of Taxation and/or PRC Ministry of Finance to clarify the subject matter may apply retrospectively, even if such rules are adverse to the Fund and their shareholders.

If the PRC tax authorities were to issue differing formal guidance or tax rules regarding the taxation of capital gains from Chinese Bonds to RQFIIs, such as the Sub-Adviser, and/or begin collecting WHT on gains from such investments, ChinaAMC China Bond could be subject to WHT liability. The impact of any such tax liability on the Fund's return could be substantial. The Fund may also be liable to the Sub-Adviser for any tax that is imposed on the Sub-Adviser by the PRC with respect to the Fund's investments.

Note 6—Capital Share Transactions—As of April 30, 2017, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Fund shares are not individually redeemable and are issued and redeemed at their net asset value per share only through certain authorized broker-dealers ("Authorized Participants") in blocks of shares ("Creation Units"), or multiples thereof, as follows:

Fund	Creation Units
BDC Income	50,000
ChinaAMC China Bond	100,000
EM Investment Grade + BB Rated USD Sovereign Bond	100,000
Emerging Markets Aggregate	50,000
Emerging Markets High Yield	200,000
Fallen Angel	50,000
Green Bond	100,000
International High Yield	200,000
Investment Grade	100,000
J.P. Morgan EM	200,000
Mortgage REIT	50,000
Preferred Securities	50,000
Treasury-Hedged	100,000

The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index ("Deposit Securities") plus a balancing

cash component to equate the transaction to the net asset value per share of the Fund on the transaction date. Cash may also be substituted in an amount equivalent to the value of certain Deposit Securities, generally when the securities are not available in sufficient quantity for delivery, are not eligible for trading by the Authorized Participant, or as a result of market circumstances. The Funds may issue Creation Units in advance of receipt of Deposit Securities subject to various conditions, including a requirement to maintain on deposit at the Custodian for the benefit of the Funds, collateral consisting of cash in the form of U.S. dollars at least equal to 115% of the daily marked to market value of the missing Deposit Securities.

Authorized Participants purchasing and redeeming Creation Units may pay transaction fees directly to The Bank of New York Mellon. In addition, the Funds may impose certain variable fees for creations and redemptions with respect to transactions in Creation Units for cash, or on transactions effected outside the clearing process, which are treated as increases in capital. These variable fees, if any, are reflected in share transactions in the Statements of Changes in Net Assets.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

For the year ended April 30, 2017, the Funds had in-kind contributions and redemptions as follows:

Fund	In-Kind Contributions	In-Kind Redemptions
BDC Income	\$86,192,405	\$7,395,347
ChinaAMC China Bond		
EM Investment Grade + BB Rated USD Sovereign Bond	4,841,419	
Emerging Markets Aggregate		
Emerging Markets High Yield	146,205,903	64,552,471
Fallen Angel	262,575,653	29,742,137
Green Bond	_	_
International High Yield	34,713,261	42,895,165
Investment Grade	2,055,349	2,379,100
J.P. Morgan EM	892,254,892	49,182,402
Mortgage REIT	35,575,349	5,534,649
Preferred Securities	173,972,228	37,906,314
Treasury-Hedged	20,543	20,543

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect shareholder transactions including any cash component of the transactions.

Note 7—Concentration and Other Risks—Each Fund (except BDC Income, Emerging Markets High Yield, Fallen Angel, International High Yield, and Treasury-Hedged) is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers.

Investments in the Funds involve risks similar to those of investing in any bond fund, such as market fluctuations caused by factors such as economic and political developments, changes in interest rates and perceived trends in security prices.

The Funds (except ChinaAMC China Bond, Investment Grade, Mortgage REIT and Preferred Securities) may directly or indirectly invest in non-investment grade securities, often referred to as "junk bonds." Economic downturns may

disrupt the high yield market and impair the ability of issuers to repay principal and interest. These high yield securities may involve greater risks and considerations not typically associated with investing in U.S. government bonds and other high quality fixed-income securities. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities. These Funds may not be able to sell bonds at desired prices and large purchases or sales of certain high-yield bond issues may cause substantial fluctuations in share price, yield and total return.

BDC Income invests in business development companies which generally invest in less mature private companies or thinly traded U.S. public companies which involve greater risk than well-established publicly-traded companies.

ChinaAMC China Bond, EM Investment Grade + BB Rated USD Sovereign Bond, Emerging Markets Aggregate, Emerging Markets High Yield, Fallen Angel, Green Bond, International High Yield, Investment Grade and J.P. Morgan EM invest in foreign securities. Investments in foreign securities may involve a greater degree of risk than investments in domestic securities due to political, economic or social instability. Foreign investments may also be subject to foreign taxes and settlement delays. Since the Funds may have significant investments in foreign debt securities, they may be subject to greater credit and interest risks and greater currency fluctuations than portfolios with significant investments in domestic debt securities.

Green Bond may invest in bonds whose proceeds are used principally for climate mitigation, climate adaption or other environmentally beneficial projects. Some "green" investments may be dependent on government tax incentives and subsidies and on political support for certain environmental technologies and companies.

Mortgage REIT invests directly in mortgage real estate investment trusts ("mortgage REITs") and is exposed to the risks specific to the real estate market as well as the risks that relate specifically to the way in which mortgage REITs are organized and operated. Mortgage REITs receive principal and interest payments from the owners of the mortgaged

properties. Accordingly, mortgage REITs are subject to the credit risk of the borrowers to whom they extend credit. To the extent that a mortgage REIT invests in mortgage-backed securities, it may be subject to default risk or interest rate risk.

Mortgage REIT may invest in mortgage REITs that may trade at a discount or premium to their net asset value.

Preferred Securities invests in preferred securities which are essentially contractual obligations that declare distributions but permit the issuer to defer or suspend distributions. This may require the Fund to account for the distribution that has been deferred or suspended for tax purposes, even though it may not have received this income. Preferred securities are also subject to credit risk. Credit risk refers to the possibility that the issuer of a security will be unable and/or unwilling to make timely distributions of dividends. In addition, preferred securities are subject to interest rate risk. Preferred securities interest rates may move in an inverse direction to that of general interest rates.

Preferred Securities may invest directly in real estate investment trusts ("REITs") and is exposed to the risk of owning real estate directly, as well as to risks that relate specifically to the way in which REITs are organized and operated. REITs generally invest directly in real estate, in mortgages or in some combination of the two. The Fund indirectly bears management expenses along with the direct expenses of the Fund. Individual REITs may own a limited number of properties and may concentrate in a particular region or property type. REITs may also be subject to heavy cash flow dependency, default by borrowers and self-liquidation.

Treasury-Hedged invests directly in futures contracts and may invest in securities sold short which are designed to hedge against the price sensitivity of below investment grade corporate bonds. A risk of hedging is the imperfect correlation between price movement of the securities sold short and the price movement of the Fund's investments.

Should the Chinese government impose restrictions on the ability of ChinaAMC China Bond to repatriate funds associated with direct investment in bonds issued in the PRC, the Fund may be unable to satisfy distribution requirements applicable to regulated investment companies ("RICs") under the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), and the Fund may therefore be subject to Fund-level U.S. federal taxes.

Certain Funds may invest directly in the Russian local market. As a result of events involving Ukraine and the Russian Federation, the United States and the European Union ("EU") have imposed sanctions on certain Russian individuals and companies. These sanctions do not currently impact any of the Funds. Additional economic sanctions may be imposed or other actions may be taken that may adversely affect the value and liquidity of the Russian-related issuers' held, if any, by the Funds.

In 2016, the United Kingdom decided to leave the EU, creating economic and political uncertainty in its wake. Significant uncertainty exists regarding the timing of the United Kingdom's withdrawal from the EU and the effects such withdrawal will have on the Euro, European economies and the global markets. This may further impact the value of the Euro and the British pound sterling, and has caused volatility and uncertainty in European and global markets.

At April 30, 2017, the Adviser owned approximately 64% and 57% of EM Investment Grade + BB Rated USD Sovereign Bond and Emerging Markets Aggregate, respectively.

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the "Plan") for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

For each Fund, the expense for the Plan is included in "Trustees' fees and expenses" in the Statements of Operations. The liability for the Plan is shown as "Deferred Trustee fees" in the Statements of Assets and Liabilities.

Note 9—Securities Lending—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds' custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. Daily market fluctuations could cause the value of loaned securities to be more or less than the value of the collateral received. When this occurs, the collateral is adjusted and settled on the next business day. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

equivalent thereto, on the securities loaned while receiving a fee from the borrower and/or earning interest on the investment of the cash collateral. Such fees and collateral interest earned are shared with the securities lending agent under the terms of the securities lending agreement. The Funds may pay reasonable finders', administrative and custodial fees in connection with a loan of its securities. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds' behalf by the lending agent and is invested in repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at April 30, 2017 is presented on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities.

The following table presents repurchase agreements held as collateral by type of security on loan pledged as of April 30, 2017:

Fund	Corporate Bonds	Equity Securities	Foreign Government Obligations	Gross amount of Recognized Liabilities for Securities Loaned in the Statements of Assets and Liabilities*
BDC Income	\$ —	\$35,839,031	\$ —	\$35,839,031
EM Investment Grade + BB Rated USD Sovereign Bond	318,247			318,247
Emerging Markets Aggregate	528,682	_	_	528,682
Emerging Markets High Yield	23,682,259			23,682,259
Fallen Angel	69,372,219			69,372,219
International High Yield	5,268,145	_	_	5,268,145
Investment Grade	2,708,095	_	_	2,708,095
J.P. Morgan EM			1,897,009	1,897,009
Mortgage REIT		5,886,873		5,886,873
Preferred Securities		24,633,265		24,633,265
Treasury-Hedged	445,291	_	_	445,291

Note 10—Bank Line of Credit—The Funds may participate in a \$200 million committed credit facility (the "Facility") to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the year ended April 30, 2017, the following Funds borrowed under this Facility:

				Outstanding
Fund	Days Outstanding	Average	Avaraga	Loan
		Daily	Average Interest	Balance as
		Loan	Rate	of
		Balance	Rate	April 30,
				2017
BDC Income	296	\$513,112	1.90 %	\$250,952
ChinaAMC China Bond	3	1,300,000	1.80	_
Fallen Angel	1	1,056,106	1.77	_
Investment Grade	3	215,308	1.80	_
J.P. Morgan EM	69	2,773,549	1.92	
Mortgage REIT	292	734,086	1.91	_
Preferred Securities	258	1,677,266	1.90	721,446

Note 11—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the year ended April 30, 2017, there were offsets to custodian fees and these amounts are reflected in custody expense in the Statement of Operations.

^{*}Remaining contractual maturity of the agreements: overnight and continuous

Note 12—Recent Accounting Pronouncements and Regulatory Requirements—The Funds adopted Accounting Standards Update No. 2014-15 ("ASU 2014-15"), Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern, which requires management to assess the Funds' ability to continue as a going concern and to provide related disclosures in certain circumstances. Under the new standard, disclosures are required when conditions give rise to substantial doubt about a company's ability to continue as a going concern within one year from the financial statement issuance date. Based on management's evaluation, there are no conditions or events that could adversely affect the Funds' ability to meet their obligations within one year after the date the financial statements are issued. Accordingly, no disclosures are required specific to going concern uncertainties in the Funds' financial statements.

In October 2016, the Securities and Exchange Commission (the "SEC") released its Final Rule on Investment Company Reporting Modernization (the "Rule"). The Rule contains amendments to Regulation S-X which impact financial statement presentation, particularly the presentation of derivative investments. Although still evaluating the impact of the Rule, management believes that many of the Regulation S-X amendments are consistent with the Portfolios' current financial statement presentation and expects that the Funds will be able to comply with the Rule's Regulation S-X amendments by the August 1, 2017 compliance date.

In December 2016, FASB issued Accounting Standards Update ("ASU") No. 2016-19, *Technical Corrections and Improvements*. ASU 2016-19 includes an amendment to FASB ASC Topic 820, *Fair Value Measurement* which clarifies the difference between a valuation approach and a valuation technique. The amendment also requires an entity to disclose when there has been a change in either or both a valuation approach and/or a valuation technique. The disclosure requirements are effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2016. Management is currently evaluating the potential impact of this new guidance to the financial statements.

Note 13—Subsequent Events—The Funds have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

The following dividends from net investment income were declared and paid subsequent to April 30, 2017:

Fund	Ex-Date	Record Date	Payable Date	Per Share

VANECK VECTORS ETF TRUST

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Trustees and Shareholders of VanEck Vectors ETF Trust

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of BDC Income ETF, ChinaAMC China Bond ETF, EM Investment Grade + BB Rated USD Sovereign Bond ETF, Emerging Markets Aggregate Bond ETF, Emerging Markets High Yield Bond ETF, Fallen Angel High Yield Bond ETF, Green Bond ETF, International High Yield Bond ETF, Investment Grade Floating Rate ETF, J.P. Morgan EM Local Currency Bond ETF, Mortgage REIT Income ETF, Preferred Securities ex Financials ETF, and Treasury-Hedged High Yield Bond ETF (thirteen of the series constituting VanEck Vectors ETF Trust) (the "Funds") as of April 30, 2017, and the related statements of operations, the statements of changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of April 30, 2017, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of BDC Income ETF, ChinaAMC China Bond ETF, EM Investment Grade + BB Rated USD Sovereign Bond ETF, Emerging Markets Aggregate Bond ETF, Emerging Markets High Yield Bond ETF, Fallen Angel High Yield Bond ETF, Green Bond ETF, International High Yield Bond ETF, Investment Grade Floating Rate ETF, J.P. Morgan EM Local Currency Bond ETF, Mortgage REIT Income ETF, Preferred Securities ex Financials ETF, and Treasury-Hedged High Yield Bond ETF (thirteen of the series constituting VanEck Vectors ETF Trust) at April 30, 2017, and the results of their operations, the changes in their net assets and the financial highlights for the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

TAX INFORMATION

(unaudited)

The information set forth below is for each Fund's fiscal year as required by federal laws. Shareholders, however, must report dividends on a calendar year basis for income tax purposes, which may include dividends for portions of two fiscal years of a Fund.

Accordingly, the information needed by shareholders for calendar year 2017 income tax purposes will be sent to them in early 2018. Please consult your tax advisor for proper treatment of this information.

The Funds listed below intend to pass through foreign tax credits in the maximum amounts as shown. The gross foreign source income earned during the fiscal year ended April 30, 2017 by the Funds is as shown below.

	Foreign	Gross Foreign
Fund	Tax	Source
	Credits	Income
ChinaAMC China Bond	\$26,339	\$359,379
Emerging Markets Aggregate	6,852	845,656
J.P. Morgan EM	2,163,674	134,691,304

Corporate Dividends Received Deduction

The Fund listed below had the following percentage of ordinary income dividends paid that qualified for the Corporate Dividends Received Deduction for the fiscal year ended April 30, 2017.

Preferred Securities 18.73% 115

VANECK VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

April 30, 2017 (unaudited)

At a meeting held on December 2, 2016 (the "Meeting"), the Board of Trustees (the "Board") of VanEck VectorETF Trust (the "Trust"), including all of the Trustees that are not interested persons of the Trust (the "Independent Trustees"), considered and approved an investment management agreement between the Trust and Van Eck Associates Corporation (the "Adviser") (the "Investment Management Agreement") with respect to the VanEck Vectors AMT-Free National Municipal Index ETF ("MUNY"), VanEck Vectors Green Bond ETF ("Green Bond") and VanEck Vectors REIT Preferred Securities ETF ("REIT Preferred") (each, a "Fund" and together, the "Funds").

The Board's approval of the Investment Management Agreement was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In advance of the Meeting, the Trustees received materials from the Adviser, including expense information for other funds. The Adviser provided the Trustees with information regarding, among other things, the various aspects of each Fund's proposed investment program, fee arrangements and service provider arrangements. The Independent Trustees' consideration of the Investment Management Agreement was based, in part, on their review of information obtained through discussions with the Adviser at the Meeting regarding the management of the Funds, information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others proposed to be involved in the management and administration of the Funds. In evaluating the terms of the Investment Management Agreement and the proposal for MUNY to adopt a unitary fee structure, the Trustees considered the risks being assumed by the Adviser under the unitary fee structure arrangement and the potential expense stability that may inure to the benefit of shareholders of MUNY. The Trustees also considered the terms and scope of services that the Adviser would provide under the Investment Management Agreement, including the Adviser's commitment to waive certain fees and/or pay expenses of Green Bond and REIT Preferred to the extent necessary to prevent the operating expenses of Green Bond and REIT Preferred from exceeding agreed upon limits for a period of at least one year following the effective date of their respective registration statements.

The Trustees considered the benefits, other than the fees under the Investment Management Agreement, that the Adviser would receive from serving as adviser to each Fund. The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability of each of the Funds to the Adviser because the Funds had not yet commenced operations. In addition, because the Funds had not yet commenced operations, the Trustees could not consider the historical performance or the quality of services previously provided to each of the Funds by the Adviser, although they concluded that the nature, quality, and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Meeting as part of their consideration of the Investment Management Agreement.

In voting to approve the Investment Management Agreement, the Trustees, including the Independent Trustees, concluded that the terms of the Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that the Investment Management Agreement is in the best interest of each Fund and such Fund's shareholders.

119

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a VanEck Vectors ETF Trust (the "Trust") Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus contains this and other information about the investment company. Please read the prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 800.826.2333, or by visiting vaneck.com, or on the Securities and Exchange Commission's website at http://www.sec.gov.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at http://www.sec.gov and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 800.826.2333 or by visiting vaneck.com.

Item 2. CODE OF ETHICS.

- (a) The Registrant has adopted a code of ethics (the "Code of Ethics") that applies to the principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.
- (b) The Registrant's code of ethics is reasonably designed as described in this Form N-CSR.
- (c) The Registrant has not amended its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (d) The Registrant has not granted a waiver or an implicit waiver from a provision of its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (e) Not applicable.
- (f) The Registrant's Code of Ethics is attached as an Exhibit hereto.

Item 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Registrant's Board of Trustees has determined that David Chow, R. Alastair Short and Richard Stamberger, members of the Audit and Governance Committees, are "audit committee financial experts" and "independent" as such terms are defined in the instructions to Form N-CSR Item 3(a)(2).

Item 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

The principal accountant fees disclosed in Item 4(a), 4(b), 4(c), 4(d) and 4(g) are for the Funds of the Registrant for which the fiscal year end is April 30.

- (a) Audit Fees. The aggregate Audit Fees of Ernst & Young for professional services billed for the audits of the financial statements, or services that are normally provided in connection with statutory and regulatory filings or engagements for the fiscal years ended April 30, 2017 and April 30, 2016, were \$531,620 and \$464,920, respectively.
- (b) Audit-Related Fees. Not applicable.
- (c) Tax Fees. The aggregate Tax Fees of Ernst & Young for professional services billed for the review of Federal, state and excise tax returns and other tax compliance consultations for the fiscal years ended April 30, 2017 and April 30, 2016, were \$326,456 and \$359,052, respectively.
- (d) All Other Fees

None.

(e) The Audit Committee will pre-approve all audit and non-audit services, to be provided to the Funds, by the independent accountants as required by Section 10A of the Securities Exchange Act of 1934. The Audit Committee has authorized the Chairman of the Audit Committee to approve, between meeting dates, appropriate non-audit services.

The Audit Committee after considering all factors, including a review of

independence issues, will recommend to the Board of Trustees the independent auditors to be selected to audit the financial statements of the Funds.

(f) Not applicable. (g) Not applicable. (h) Not applicable. Item 5. AUDIT COMMITTEE OF LISTED REGISTRANTS. The Registrant's Board has an Audit Committee established in accordance with Section 3(a)(58)(A) of the Exchange Act (15 U.S.C. 78c(a)(58)(A)) consisting of four Independent Trustees. Messrs. Chow, Short, Sidebottom and Stamberger currently serve as members of the Audit Committee. Mr. Short is the Chairman of the Audit Committee. Item 6. SCHEDULE OF INVESTMENTS.
