FIRST TRUST STRATEGIC HIGH INCOME FUND

The primary investment objective of the First Trust Strategic High Income Fund (FHI) is to seek a high level of current income. The Fund seeks capital growth as a secondary objective. The Fund seeks to achieve its investment objectives by investing at least 80% of its managed assets in a diversified portfolio of high income producing securities the Sub-Advisor believes offer attractive yield and/or capital appreciation potential. Valhalla believes this combination of exposure to both consumer and commercial default risk provides investors with an investment vehicle more broadly diversified than a corporate-only "high-yield" strategy. There can be no assurance that the Fund will achieve its investment objectives. The Fund may not be appropriate for all investors.

MARKET RECAP

The six months ending October 31, 2007 have been the most treacherous the worldwide credit markets have seen in at least a decade, and perhaps ever. The problems that began earlier in the year in the sub-prime mortgage space spread to affect virtually every segment of the capital markets. Unprecedented supply and demand imbalances, combined with outright fear, drove prices down across the credit sectors, including corporate debt. In addition, the media focus that began last quarter intensified, generating waves of negative stories which frequently contained as much conjecture as they did fact. In short, by the end of the quarter, volatility and illiquidity had reached unprecedented levels in the structured-finance universe. Due to these adverse market conditions, in early August the Sub-Advisor adopted a temporary defensive posture. While in such posture, the Fund curtailed its purchase of additional structured-finance securities, including residential mortgage-backed securities ("RMBS").

FUND RECAP

The Fund was not immune to the massive downdraft in pricing across the credit

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

sectors. The Fund's net asset value ("NAV") total return was -14.65% (1) for the twelve-month period ended October 31, 2007. The months of August and September were the most severe. Not surprisingly, RMBS experienced the greatest price pressure; however, virtually every asset class in the Fund produced negative price performance during the second half of the period. In the end, it was the Fund's diversification across multiple asset-backed sectors that helped offset the severe price declines in RMBS. These negative market conditions, along with investor fear, also punished the Fund's market price total return, which was -25.30% (2) for the twelve-month period covered by this report. Since the Fund's fiscal year-end, the credit markets have continued to experience significant volatility. These difficult conditions have continued to pressure market prices and have caused a significant decline in the Fund's NAV through December 28, 2007. The duration of this difficult time period is uncertain.

MANAGER Q&A

HOW DID THE NEGATIVE FACTORS IN THE CREDIT MARKETS HURT THE MARKET?

The negative momentum, which started in the second quarter, picked up tremendous speed over the months of July and August and continued through the Fund's fiscal year ended October 31, 2007. Rating agencies announced that billions of dollars of mortgage-backed securities were being put on watch for a downgrade. In addition, continued forced liquidations dramatically increased the amount of bonds offered in the secondary market, often without any bid available. These trends significantly affected high yield fixed-income pricing and set the table for the subsequent meltdown. Over the next ten weeks, several prominent banks around the world faced insolvency crises; central banks would inject billions into the financial system; the commercial paper markets would seize up; the Federal Reserve would cut both the discount rate and the Fed Funds rate; and Wall Street would begin to announce billions of dollars of write-downs. We believe these events, among others, unleashed destructive forces in the mortgage and asset-backed sectors.

WHAT IS YOUR OUTLOOK FOR THE MARKET AND THE FUND?

Today, market participants are eagerly awaiting a return to normalcy in both secondary-market trading and primary issuance. This will be critical to ending this capital-market crisis and restoring a normal mortgage-lending environment. We believe the latter is an especially important variable in the Fund's longer-term performance for one simple reason: individual mortgage obligors of all types must have re-financing options. Without that liquidity in place, the capital markets will continue to struggle. In our opinion, most of the economic data shows the economy remains on solid footing, albeit with slower growth projected. With that intact, we believe the markets should be able to push through the storm and eventually re-establish liquidity for both the mortgage investor and borrower alike.

NOTES TO FINANCIAL STATEMENTS

FIRST TRUST STRATEGIC HIGH INCOME FUND OCTOBER 31, 2007

1. FUND DESCRIPTION

First Trust Strategic High Income Fund (the "Fund") is a diversified, closed-end management investment company organized as a Massachusetts business trust on April 15, 2005 and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FHI on the New York Stock Exchange ("NYSE").

The Fund's primary investment objective is to seek a high level of current income. The Fund seeks capital growth as a secondary objective. The Fund seeks to achieve its investment objectives by investing at least 80% of its managed assets in a diversified portfolio of high income producing securities that Valhalla Capital Partners, LLC ("Valhalla" or the "Sub-Advisor") believes offer attractive yield and/or capital appreciation potential. There can be no assurance that the Fund will achieve its investment objectives. The Fund may not be appropriate for all investors.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

A. PORTFOLIO VALUATION:

The net asset value ("NAV") of the Common Shares of the Fund is determined daily as of the close of regular trading on the NYSE, normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. Domestic debt securities and foreign securities are priced using data reflecting the earlier closing of the principal markets for those securities. The NAV per Common Share is calculated by subtracting the Fund's liabilities (including accrued expenses, dividends payable and any borrowings of the Fund) from the Fund's Total Assets (the value of the securities and other investments the Fund holds plus cash or other assets, including interest accrued but not yet received) and dividing the result by the total number of Common Shares outstanding.

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

The Fund's investments are valued daily at market value or, in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. Securities for which market quotations are readily available are valued at market value, which is currently determined using the last reported sale price on the business day as of which such value is being determined or, if no sales are reported on such day (as in the case of some securities traded over-the-counter), the last reported bid price, except that certain U.S. government securities are valued at the mean between the last reported bid and ask prices. The Fund values mortgage-backed securities and other debt securities not traded in an organized market on the basis of valuations provided by dealers who make markets in such securities or by an independent pricing service approved by the Board of Trustees which uses information with respect to transactions in such securities, quotations from dealers, market transactions for comparable securities, various relationships between securities and yield to maturity in determining value. In the Fund's financial statements, the Statement of Assets and Liabilities includes investments with a value of \$103,819,173 (56.9% of total investments) as of October 31, 2007, whose values have been determined based on prices supplied by dealers in the absence of readily determinable values. These values may differ from the values that would have been used had a ready market for these investments existed, and the differences could be material. The remaining investments, with a value of \$78,610,786 (43.1% of total investments), were valued by an independent pricing service.

Debt securities having a remaining maturity of less than sixty days when purchased are valued at cost adjusted for amortization of premiums and accretion of discounts.

In the event that market quotations are not readily available, the pricing service or dealer does not provide a valuation for a particular security, the valuations are deemed unreliable, or events occur after the close of the principal market for particular securities but before the Fund values its assets, that could materially affect NAV, First Trust Advisors L.P. ("First Trust") may use a fair value method to value the Fund's securities. As a general principle, the fair value of a security is the amount which the Fund might reasonably expect to receive for the security upon its current sale. A variety of factors may be considered in determining the fair value of such securities including 1) the fundamental business data relating to the issuer; 2) an evaluation of the forces which influence the market in which these securities are purchased and sold; 3) type of holding; 4) financial statements of the issuer; 5) cost at date of purchase; 6) size of holding; 7) credit quality and cash flow of issuer based on external analysis; 8) information as to any transactions in or offers for the holding; 9) price and extent of public trading in similar securities of the issuer/borrower, or comparable companies; and 10) other relevant factors. The use of fair value pricing by the Fund is governed by valuation procedures adopted by the Fund's Board of Trustees, and in accordance with the provisions of the 1940 Act. When fair value pricing of securities is employed, the prices of securities used by the Fund to calculate its NAV may differ from market quotations or official closing prices. In light of the judgment involved in fair valuations, there can be no assurance that a fair value assigned to a particular security will be the amount which the Fund might be able to receive upon its current sale.

The Fund invests a significant portion of its assets in below-investment grade debt securities, including mortgage-backed securities, asset-backed securities, corporate bonds and collateralized debt obligations. The value and related income of these securities is sensitive to changes in economic conditions, including delinquencies and/or defaults. Recent instability in the markets for fixed-income securities,

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST STRATEGIC HIGH INCOME FUND
OCTOBER 31, 2007

particularly mortgage-backed and asset-backed securities, has resulted in increased volatility of market prices and periods of illiquidity that have adversely impacted the valuation of certain securities held by the Fund.

B. SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Amortization of premiums and accretion of discounts are recorded using the effective interest method.

The Fund follows the provisions of Emerging Issues Task Force No. 99-20 ("EITF 99-20"), "Recognition of Interest Income and Impairment on Purchased and Retained Beneficial Interests in Securitized Financial Assets" for certain lower credit quality securitized assets that have contractual cash flows (for example, asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities). Under EITF 99-20, if there is a change in the estimated cash flows for any of these securities, based on an evaluation of current information, then the estimated yield is adjusted on a prospective basis over the remaining life of the security. Investment income is recorded net of foreign taxes withheld where recovery of such taxes is uncertain. Debt obligations may be placed on non-accrual status and related interest income may be reduced by ceasing current accruals and writing off interest receivables when the collection of all or a portion of interest has become doubtful based on consistently applied procedures. A debt obligation is removed from non-accrual status when the issuer resumes interest payments or when collectibility of interest is reasonably assured.

Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date; interest income on such securities is not accrued until settlement date. The Fund maintains liquid assets of the Fund with a current value at least equal to the amount of its when-issued or delayed-delivery purchase commitments. At October 31, 2007, the Fund had no when-issued or delayed-delivery purchase commitments.

C. RESTRICTED SECURITIES:

The Fund invests in restricted securities, which are securities that may not be offered for public sale without first being registered under the Securities Act of 1933, as amended (the "1933 Act"). Prior to registration, restricted securities may only be resold in transactions exempt from registration under Rule 144A of the 1933 Act, normally to qualified institutional buyers. As of October 31, 2007, the Fund held restricted securities as shown in the table below that the Sub-Advisor has deemed illiquid pursuant to procedures adopted by the Fund's Board of Trustees. The Fund does not have the right to demand that such securities be registered. These securities are valued according to the valuation procedures as stated in the Portfolio Valuation footnote (Note 2A) and are not expressed as a discount to the carrying value of a comparable unrestricted security. There are no unrestricted securities with the same maturity dates and yields for these issuers.

D. DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

The Fund will distribute to holders of its Common Shares monthly dividends of all or a portion of its net income after the payment of interest and dividends in connection with leverage. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund. Permanent differences incurred during the fiscal year ended October 31, 2007, resulting in book and tax accounting differences, have been reclassified at year end to reflect an increase in accumulated net investment income by \$2,967,816, a decrease in accumulated net realized gain on investments sold by \$2,831,219 and a decrease to paid-in capital of \$136,597. Net assets were not affected by this reclassification.

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST STRATEGIC HIGH INCOME FUND
OCTOBER 31, 2007

The tax character of distributions paid during the fiscal years ended October 31, 2007 and October 31, 2006 was as follows:

Distributions paid from:

	2007	2006
Ordinary Income	\$ 17,637,502	\$ 18,950,001
Long-Term Capital Gains	140,077	--

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

As of October 31, 2007, the components of distributable earnings on a tax basis were as follows:

Capital Loss Carryforward	\$ (2,290,311)
Undistributed Ordinary Income	8,385,241
Net Unrealized Depreciation	(40,671,835)

E. INCOME TAXES:

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, and by distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

The Fund intends to utilize provisions of the federal income tax laws, which allows it to carry a realized capital loss forward for eight years following the year of the loss and offset such loss against any future realized capital gains. At October 31, 2007, the Fund had an available realized capital loss of \$2,290,311 to offset future net capital gains through the fiscal year ended 2015.

In June 2006, Financial Accounting Standards Board ("FASB") Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement 109 ("FIN 48"), was issued and is effective for fiscal years beginning after December 15, 2006. This Interpretation prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. As of October 31, 2007, management has evaluated the application of FIN 48 to the Fund, and has determined that there is no material impact resulting from the adoption of this Interpretation on the Fund's financial statements.

F. EXPENSES:

The Fund pays all expenses directly related to its operations.

G. ACCOUNTING PRONOUNCEMENTS:

In September 2006, FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("SFAS 157"), was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements.

Also, in February 2007, FASB issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities ("SFAS 159"), which provides companies with an option to report selected financial assets and liabilities at fair value. The objective of SFAS 159 is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS 159 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect of the Fund's choice to use fair value on its earnings. SFAS 159 also requires entities to display the fair value of the selected assets and liabilities on the face of the balance sheet. SFAS 159 does not eliminate disclosure requirements of other accounting standards, including fair value measurement disclosures in SFAS 157. SFAS 159 is effective for fiscal years beginning after November 15, 2007.

At this time, management is evaluating the implications of SFAS 157 and SFAS 159 and their impact on the Fund's financial statements, if any, has not been

determined.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for the ongoing monitoring of the Fund's investment portfolio, managing the Fund's business affairs and certain administrative services necessary for the management of the Fund. For these investment management services, First Trust is entitled to a monthly fee calculated at an annual rate of 0.90% of the Fund's Managed Assets (the value of the securities and other investments the Fund holds plus cash or other assets, including interest accrued but not yet received minus accrued liabilities other than the principal amount of any borrowings).

PFPC Trust Company, also an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Custodian in accordance with certain fee arrangements.

Effective January 1, 2007, the Trustees approved a revised compensation plan. Under the revised plan, each Trustee who is not an officer or employee of First Trust, any sub-advisor or any of their affiliates ("Independent Trustees") is paid an annual retainer of \$10,000 per trust for the first 14 trusts of the First Trust Fund Complex and an annual retainer of \$7,500 per trust for each subsequent trust added to the First Trust Fund Complex. The annual retainer is allocated equally among each of the trusts. No additional meeting fees are paid in connection with board or committee meetings.

Additionally, Thomas R. Kadlec is paid \$10,000 annually to serve as the Lead Independent Trustee and Niel B. Nielson is paid \$5,000 annually to serve as the chairman of the Audit Committee, with such compensation paid by the trusts in the First Trust Fund Complex and divided among those trusts. Independent Trustees are also reimbursed by the trusts in the First Trust Fund Complex for travel and out-of-pocket expenses in connection with all meetings. Prior to January 1, 2007, the trusts paid each Trustee who is not an officer or employee of First Trust, any sub-advisor or any of their affiliates an annual retainer of \$10,000, which included compensation for all board and committee meetings. Effective January 1, 2008, each of the chairmen of the Nominating and Governance Committee and the Valuation Committee will be paid \$2,500 to serve in such

capacities with such compensation paid by the trusts in the First Trust Fund Complex and divided among those trusts.

4. PURCHASES AND SALES OF SECURITIES

As of October 31, 2007, the aggregate gross unrealized appreciation for all securities in which there as an excess of value over tax cost was \$8,219,928 and the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value was \$48,891,763.

5. COMMON SHARES

As of October 31, 2007, 8,983,394 of \$0.01 par value Common Shares were issued. An unlimited number of Common Shares has been authorized under the Fund's Dividend Reinvestment Plan.

COMMON SHARE TRANSACTIONS WERE AS FOLLOWS:

	YEAR ENDED OCTOBER 31, 2007		YEAR EN OCTOBER 31	
	SHARES	AMOUNT	SHARES	\$
Common Shares issued as reinvestment of dividends under the Dividend Reinvestment Plan	82,445	\$ 1,571,269	95,713	\$ 1
	82,445	\$ 1,571,269	95,713	\$ 1
	=====	=====	=====	=====

6. PREFERRED SHARES OF BENEFICIAL INTEREST

The Fund's Declaration of Trust authorizes the issuance of an unlimited number of preferred shares of beneficial interest, par value \$0.01 per share (the "Preferred Shares"), in one or more classes or series, with rights as determined by the Board of Trustees without the approval of Common Shareholders. As of October 31, 2007, no Preferred Shares had been issued.

7. REVOLVING LOAN AGREEMENT

On December 4, 2006, the Fund entered into a Revolving Credit and Security Agreement with Liberty Street Funding, as conduit lender, and The Bank of Nova Scotia, as secondary lender, which provides for a revolving credit facility to be used as leverage for the Fund. The credit facility provides for a secured line of credit for the Fund, where Fund assets are pledged against advances made to the Fund. Under the requirements of the 1940 Act, the Fund, immediately after any such borrowings, must have an "asset coverage" of at least 300% (33-1/3% of the Fund's total assets after borrowings). In addition, the Fund has agreed to pay facility commitment fees on the unutilized line of credit, which are included in "Interest and fees on outstanding loan" on the Statement of Operations. The total commitment under the Revolving Credit and Security Agreement is \$87,000,000. For the year ended October 31, 2007, the average amount outstanding was

\$60,043,373. The high and low annual interest rates during the year ended October 31, 2007 were 6.00% and 5.34%, respectively, and the weighted average interest rate was 5.45%. Total interest and fees incurred during the year ended October 31, 2007 were \$3,332,265. The interest rate at October 31, 2007 was 5.65%. The revolving credit facility has been extended until November 12, 2008.

8. RISK CONSIDERATIONS

INVESTMENT RISK: An investment in the Fund's Common Shares is subject to investment risk, including the possible loss of the entire principal invested. An investment in Common Shares represents an indirect investment in the securities owned by the Fund. The value of these securities, like other market investments, may move up or down, sometimes rapidly and unpredictably. Common Shares at any point in time may be worth less than the original investment, even after taking into account the reinvestment of Fund dividends and distributions. Security prices can fluctuate for several reasons including the general condition of the bond market, or when political or economic events affecting the issuers occur.

RESIDENTIAL MORTGAGE-BACKED SECURITIES CONCENTRATION RISK: The Fund will invest at least 25% of its total assets in residential mortgage-backed securities under normal market conditions. A fund concentrated in a single industry is likely to present more risks than a fund that is broadly diversified over several industries. Mortgage-backed securities may have less potential for capital appreciation than comparable fixed-income securities, due to the likelihood of increased prepayments of mortgages as interest rates decline. If the Fund buys mortgage-backed securities at a premium, mortgage foreclosures and prepayments of principal by mortgagors (which usually may be made at any time without penalty) may result in some loss of the Fund's principal investment to the extent of the premium paid. Alternatively, in a rising interest rate environment, the value of mortgage-backed securities may be adversely affected when payments on underlying mortgages do not occur as anticipated, resulting in the extension of the security's effective maturity and the related increase in interest rate sensitivity of a longer-term instrument. The value of mortgage-backed securities may also change due to shifts in the market's perception of issuers and regulatory or tax changes adversely affecting the markets as a whole. In addition, mortgage-backed securities are subject to the credit risk associated with the performance of the underlying mortgage properties. In certain instances, third-party guarantees or other forms of credit support can reduce the credit risk.

BELOW-INVESTMENT GRADE SECURITIES RISK: The Fund invests in below-investment grade securities. The market values for high-yield securities tend to be very volatile, and these securities are less liquid than investment grade debt securities. For these reasons, your investment in the Fund is subject to the following specific risks: (a) increased price sensitivity to changing interest rates and to a deteriorating economic environment; (b) greater risk of loss due to default or declining credit quality; (c) adverse company specific events are more likely to render the issuer unable to make interest and/or principal payments; and (d) a negative perception of the high-yield market may depress the price and liquidity of high-yield securities.

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

ECONOMIC CONDITIONS RISK: Adverse changes in economic conditions are more likely to lead to a weakened capacity of a high-yield issuer to make principal payments and interest payments than an investment grade issuer. An economic downturn could severely affect the ability of highly leveraged issuers to service their debt obligations or to repay their obligations upon maturity. Under adverse market or economic conditions, the secondary market for high-yield securities could contract further, independent of any specific adverse changes in the condition of a particular issuer and these securities may become illiquid. As a result, the Fund could find it more difficult to sell these securities or may be able to sell the securities only at prices lower than if such securities were widely traded.

INTEREST RATE RISK: The Fund is also subject to interest rate risk. Interest rate risk is the risk that fixed-income securities will decline in value because of changes in market interest rates. Investments in debt securities with long-term maturities may experience significant price declines if long-term interest rates increase.

9. INDEMNIFICATION

The Fund has a variety of indemnification obligations under contracts with its service providers. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

10. SUBSEQUENT EVENTS

On October 23, 2007, the Fund declared a dividend of \$0.16 per share, which represents a dividend from net investment income to Common Shareholders of record November 5, 2007, payable November 15, 2007.

On November 20, 2007, the Fund declared a dividend of \$0.16 per share, which represents a dividend from net investment income to Common Shareholders of record December 5, 2007, payable December 12, 2007.

On December 20, 2007, the Fund declared a dividend of \$0.16 per share, which represents a dividend from net investment income to Common Shareholders of record December 31, 2007, payable January 15, 2008.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF FIRST TRUST STRATEGIC HIGH INCOME FUND:

We have audited the accompanying statements of assets and liabilities of First Trust Strategic High Income Fund (the "Fund"), including the portfolio of investments, as of October 31, 2007, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years then ended and the financial highlights for the periods presented. These financial statements and the financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2007, by correspondence with the Fund's custodian. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of First Trust Strategic High Income Fund as of October 31, 2007, the results of its operations and cash flows, the changes in its net assets, and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2A to the Fund's financial statements, the statement of assets and liabilities includes investments with a value of \$103,819,173 (56.9% of total investments) as of October 31, 2007, whose values have been determined based on prices supplied by dealers in the absence of readily determinable values. These values may differ from the values that would have been used had a ready market for these investments existed, and the differences could be material.

ADDITIONAL INFORMATION

FIRST TRUST STRATEGIC HIGH INCOME FUND OCTOBER 31, 2007 (UNAUDITED)

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect, by written notice to the Fund, to receive cash distributions, all dividends, including any capital gain distributions, on your Common Shares will be automatically reinvested by PFPC Inc. (the "Plan Agent"), in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc., as dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

receive will be determined as follows:

- 1) If Common Shares are trading at or above NAV at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) NAV per Common Share on that date or (ii) 95% of the market price on that date.
- 2) If Common Shares are trading below NAV at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the NYSE or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may elect to opt-out of or withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone at (800) 334-1710, in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all Common Shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you. Consult your financial advisor for more information.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PFPC Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

fulfilling these duties, the Adviser and Funds have adopted the following policies and procedures:

1. It is the Adviser's policy to seek to ensure that proxies for securities held by a Fund are voted consistently and solely in the best economic interests of the respective Fund.

2. The Adviser shall be responsible for the oversight of a Fund's proxy voting process and shall assign a senior member of its staff to be responsible for this oversight.

3. The Adviser has engaged the services of Institutional Shareholder Services, Inc. ("ISS") to make recommendations to the Adviser on the voting of proxies related to securities held by a Fund. ISS provides voting recommendations based on established guidelines and practices. The Adviser has adopted these ISS Proxy Voting Guidelines.

4. The Adviser shall review the ISS recommendations and generally will vote the proxies in accordance with such recommendations. Notwithstanding the foregoing, the Adviser may not vote in accordance with the ISS recommendations if the Adviser believes that the specific ISS recommendation is not in the best interests of the respective Fund.

5. If the Adviser manages the assets or pension fund of a company and any of the Adviser's clients hold any securities in that company, the Adviser will vote proxies relating to such company's securities in accordance with the ISS recommendations to avoid any conflict of interest. In addition, if the Adviser has actual knowledge of any other type of material conflict of interest between itself and the respective Fund with respect to the voting of a proxy, the Adviser shall vote the applicable proxy in accordance with the ISS recommendations to avoid such conflict of interest.

6. If a Fund requests the Adviser to follow specific voting guidelines or additional guidelines, the Adviser shall review the request and follow such guidelines, unless the Adviser determines that it is unable to follow such guidelines. In such case, the Adviser shall inform the Fund that it is not able to follow the Fund's request.

7. The Adviser may have clients in addition to the Funds which have provided the Adviser with discretionary authority to vote proxies on their behalf. In such cases, the Adviser shall follow the same policies and procedures.

1. OPERATIONAL ITEMS

ADJOURN MEETING

Generally vote AGAINST proposals to provide management with the authority to adjourn an annual or special meeting absent compelling reasons to support the proposal.

Vote FOR proposals that relate specifically to soliciting votes for a merger or transaction if supporting that merger or transaction. Vote AGAINST proposals if the wording is too vague or if the proposal includes "other business."

AMEND QUORUM REQUIREMENTS

Vote AGAINST proposals to reduce quorum requirements for shareholder meetings below a majority of the shares outstanding unless there are compelling reasons to support the proposal.

AMEND MINOR BYLAWS

Vote FOR bylaw or charter changes that are of a housekeeping nature (updates or corrections).

AUDITOR INDEMNIFICATION AND LIMITATION OF LIABILITY

Consider the issue of auditor indemnification and limitation of liability on a CASE-BY-CASE basis. Factors to be assessed include, but are not limited to:

The terms of the auditor agreement- the degree to which these agreements impact shareholders' rights;

Motivation and rationale for establishing the agreements;

Quality of disclosure; and

Historical practices in the audit area.

WITHHOLD against members of an audit committee in situations where there is persuasive evidence that the audit committee entered into an inappropriate indemnification agreement with its auditor that limits the ability of the company, or its shareholders, to pursue legitimate legal recourse against the audit firm.

AUDITOR RATIFICATION

Vote FOR proposals to ratify auditors, unless any of the following apply:

An auditor has a financial interest in or association with the company, and is therefore not independent,

There is reason to believe that the independent auditor has rendered an opinion which is neither accurate nor indicative of the company's financial position, or

Fees for non-audit services ("Other" fees) are excessive.

Non-audit fees are excessive if:

Non-audit ("other") fees > audit fees + audit-related fees + tax compliance/preparation fees

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

Tax compliance and preparation include the preparation of original and amended tax returns, refund claims and tax payment planning. All other services in the tax category, such as tax advice, planning or consulting should be added to "Other" fees. If the breakout of tax fees cannot be determined, add all tax fees to "Other" fees.

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED. 6

Vote CASE-BY-CASE on shareholder proposals asking companies to prohibit or limit their auditors from engaging in non-audit services.

Vote CASE-BY-CASE on shareholder proposals asking for audit firm rotation, taking into account:

The tenure of the audit firm;

The length of rotation specified in the proposal;

Any significant audit-related issues at the company;

The number of Audit Committee meetings held each year;

The number of financial experts serving on the committee; and

Whether the company has a periodic renewal process where the auditor is evaluated for both audit quality and competitive price.

CHANGE COMPANY NAME

Vote FOR proposals to change the corporate name.

CHANGE DATE, TIME, OR LOCATION OF ANNUAL MEETING

Vote FOR management proposals to change the date, time, and/or location of the annual meeting unless the proposed change is unreasonable.

Vote AGAINST shareholder proposals to change the date, time, and/or location of the annual meeting unless the current scheduling or location is unreasonable.

TRANSACT OTHER BUSINESS

Vote AGAINST proposals to approve other business when it appears as voting item.

- o Attendance at board and committee meetings;
- o Corporate governance provisions and takeover activity;
- o Disclosures under Section 404 of Sarbanes-Oxley Act;
- o Long-term company performance relative to a market and peer index;

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

- o Extent of the director's investment in the company;
- o Existence of related party transactions;
- o Whether the chairman is also serving as CEO;
- o Whether a retired CEO sits on the board;
- o Number of outside boards at which a director serves;
- o Majority vote standard for director elections without a provision to allow for plurality voting when there are more nominees than seats.

WITHHOLD from individual directors who:

- o Attend less than 75 percent of the board and committee meetings without a valid excuse (such as illness, service to the nation, work on behalf of the company);
- o Sit on more than six public company boards;
- o Are CEOs of public companies who sit on the boards of more than two public companies besides their own-- withhold only at their outside boards.

WITHHOLD from the entire board of directors, (except from new nominees, who should be considered on a CASE-BY-CASE basis) if:

- o The company's proxy indicates that not all directors attended 75% of the aggregate of their board and committee meetings, but fails to provide the required disclosure of the names of the directors involved. If this information cannot be obtained, withhold from all incumbent directors;
- o The company's poison pill has a dead-hand or modified dead-hand feature. Withhold every year until this feature is removed;
- o The board adopts or renews a poison pill without shareholder approval since the beginning of 2005, does not commit to putting it to shareholder vote within 12 months of adoption, or reneges on a commitment to put the pill to a vote, and has not yet received a withhold recommendation for this issue;
- o The board failed to act on a shareholder proposal that received approval by a majority of the shares outstanding the previous year;
- o The board failed to act on a shareholder proposal that received approval of the majority of shares cast for the previous two consecutive years;

- o WITHHOLD from Inside Directors and Affiliated Outside Directors (per the Classification of Directors below) when:
- o The inside or affiliated outside director serves on any of the three key committees: audit, compensation, or nominating;
- o The company lacks an audit, compensation, or nominating committee so that the full board functions as that committee;

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED.

8

- o The company lacks a formal nominating committee, even if board

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

attests that the independent directors fulfill the functions of such a committee;

- o The full board is less than majority independent.

WITHHOLD from the members of the Audit Committee if:

- o The non - audit fees paid to the auditor are excessive (see discussion under Auditor Ratification);
- o A material weakness identified in the Section 404 Sarbanes-Oxley Act disclosures rises to a level of serious concern; there are chronic internal control issues and an absence of established effective control mechanisms;
- o There is persuasive evidence that the audit committee entered into an inappropriate indemnification agreement with its auditor that limits the ability of the company, or its shareholders, to pursue legitimate legal recourse against the audit firm.

WITHHOLD from the members of the Compensation Committee if:

- o There is a negative correlation between the chief executive's pay and company performance (see discussion under Equity Compensation Plans);
- o The company reprices underwater options for stock, cash or other consideration without prior shareholder approval, even if allowed in their equity plan;
- o The company fails to submit one-time transfers of stock options to a shareholder vote
- o The company fails to fulfill the terms of a burn rate commitment they made to shareholders;
- o The company has backdated options (see "Options Backdating" policy);
- o The company has poor compensation practices (see "Poor Pay Practices" policy). Poor pay practices may warrant withholding votes from the CEO and potentially the entire board as well.

WITHHOLD from directors, individually or the entire board, for egregious actions or failure to replace management as appropriate.

FOOTNOTES:

(1) "Affiliate" includes a subsidiary, sibling company, or parent company. ISS uses 50 percent control ownership by the parent company as the standard for applying its affiliate designation.

(2) "Executives" (officers subject to Section 16 of the Securities and Exchange Act of 1934) include the chief executive, operating, financial, legal, technology, and accounting officers of a company (including the president, treasurer, secretary, controller, or any vice president in charge of a principal business unit, division or policy function).

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED. 10

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

(3) ISS will look at the terms of the interim CEO's employment contract to determine if it contains severance pay, long-term health and pension benefits or other such standard provisions typically contained in contracts of permanent, non-temporary CEOs. ISS will also consider if a formal search process was underway for a full-time CEO at the time.

(4) "Relative" follows the SEC's new definition of "immediate family members" which covers spouses, parents, children, step-parents, step-children, siblings, in-laws, and any person (other than a tenant or employee) sharing the household of any director, nominee for director, executive officer, or significant shareholder of the company.

(5) Professional services can be characterized as advisory in nature and generally include the following: investment banking/financial advisory services; commercial banking (beyond deposit services); investment services; insurance services; accounting/audit services; consulting services; marketing services; and legal services. The case of participation in a banking syndicate by a non-lead bank should be considered a transaction (and hence subject to the associated materiality test) rather than a professional relationship.

(6) If the company makes or receives annual payments exceeding the greater of \$200,000 or five percent of the recipient's gross revenues. (The recipient is the party receiving the financial proceeds from the transaction).

(7) Interlocks include: (a) executive officers serving as directors on each other's compensation or similar committees (or, in the absence of such a committee, on the board) or (b) executive officers sitting on each other's boards and at least one serves on the other's compensation or similar committees (or, in the absence of such a committee, on the board).

(8) The operating involvement of the Founder with the company will be considered. Little to no operating involvement may cause ISS to deem the Founder as an independent outsider.

(9) For purposes of ISS' director independence classification, "material" will be defined as a standard of relationship (financial, personal or otherwise) that a reasonable person might conclude could potentially influence one's objectivity in the boardroom in a manner that would have a meaningful impact on an individual's ability to satisfy requisite fiduciary standards on behalf of shareholders.

AGE LIMITS

Vote AGAINST shareholder or management proposals to limit the tenure of outside directors through mandatory retirement ages.

BOARD SIZE

Vote FOR proposals seeking to fix the board size or designate a range for the board size.

Vote AGAINST proposals that give management the ability to alter the size of the board outside of a specified range without shareholder approval.

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED. 11

- o Majority vote standard in director elections, including a carve-out for plurality voting in contested situations;
- o Annually elected board;
- o Two-thirds of the board composed of independent directors;
- o Nominating committee composed solely of independent directors;
- o Confidential voting; however, there may be a provision for suspending confidential voting during proxy contests;
- o Ability of shareholders to call special meetings or act by written consent with 90 days' notice;
- o Absence of superior voting rights for one or more classes of stock;
- o Board does not have the right to change the size of the board beyond a stated range that has been approved by shareholders;
- o The company has not under-performed its both industry peers and index on both a one-year and three-year total shareholder returns basis*, unless there has been a change in the CEO position within the last three years; and
- o No director received a WITHHOLD vote level of 35% or more of the votes cast in the previous election.

* Starting in 2007, the industry peer group used for this evaluation will change from the 4-digit GICS group to the average of the 12 companies in the same 6-digit GICS group that are closest in revenue to the company. To fail, the company must under-perform its index and industry group on all 4 measures (1 and 3 year on industry peers and index).

DIRECTOR AND OFFICER INDEMNIFICATION AND LIABILITY PROTECTION

Vote CASE-BY-CASE on proposals on director and officer indemnification and liability protection using Delaware law as the standard.

Vote AGAINST proposals to eliminate entirely directors' and officers' liability for monetary damages for violating the duty of care.

Vote AGAINST indemnification proposals that would expand coverage beyond just legal expenses to liability for acts, such as negligence, that are more serious violations of fiduciary obligation than mere carelessness.

Vote AGAINST proposals that would expand the scope of indemnification to provide for mandatory indemnification of company officials in connection with acts that previously the company was permitted to provide indemnification for at the discretion of the company's board (i.e. "permissive indemnification") but that previously the company was not required to indemnify.

Vote FOR only those proposals providing such expanded coverage in cases when a director's or officer's legal defense was unsuccessful if both of the following apply:

If the director was found to have acted in good faith and in a manner that he reasonably believed was in the best interests of the company; and

If only the director's legal expenses would be covered.

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

ESTABLISH/AMEND NOMINEE QUALIFICATIONS

Vote CASE-BY-CASE on proposals that establish or amend director qualifications. Votes should be based on how reasonable the criteria are and to what degree they may preclude dissident nominees from joining the board.

Vote AGAINST shareholder proposals requiring two candidates per board seat.

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED. 12

FILLING VACANCIES/REMOVAL OF DIRECTORS

Vote AGAINST proposals that provide that directors may be removed only for cause.

Vote FOR proposals to restore shareholders' ability to remove directors with or without cause.

Vote AGAINST proposals that provide that only continuing directors may elect replacements to fill board vacancies.

Vote FOR proposals that permit shareholders to elect directors to fill board vacancies.

INDEPENDENT CHAIR (SEPARATE CHAIR/CEO)

Generally vote FOR shareholder proposals requiring the position of chair be filled by an independent director unless there are compelling reasons to recommend against the proposal, such as a counterbalancing governance structure. This should include all of the following:

- o Designated lead director, elected by and from the independent board members with clearly delineated and comprehensive duties. (The role may alternatively reside with a presiding director, vice chairman, or rotating lead director; however the director must serve a minimum of one year in order to qualify as a lead director.) At a minimum these should include:
 - Presides at all meetings of the board at which the chairman is not present, including executive sessions of the independent directors,
 - Serves as liaison between the chairman and the independent directors,
 - Approves information sent to the board,
 - Approves meeting agendas for the board,
 - Approves meetings schedules to assure that there is sufficient time for discussion of all agenda items,
 - Has the authority to call meetings of the independent directors,
 - If requested by major shareholders, ensures that he is available for consultation and direct communication;

Two-thirds independent board;

- o All-independent key committees;

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

- o Established governance guidelines;
- o The company should not have underperformed both its industry peers and index on both a one-year and three-year total shareholder returns basis*, unless there has been a change in the Chairman/CEO position within that time;
- o The company does not have any problematic governance issues.

* Starting in 2007, the industry peer group used for this evaluation will change from the 4-digit GICS group to the average of the 12 companies in the same 6-digit GICS group that are closest in revenue to the company. To fail, the company must under-perform its index and industry group on all 4 measures (1 and 3 year on industry peers and index).

MAJORITY OF INDEPENDENT DIRECTORS/ESTABLISHMENT OF COMMITTEES

Vote FOR shareholder proposals asking that a majority or more of directors be independent unless the board composition already meets the proposed threshold by ISS' definition of independent outsider. (See Classification of Directors.)

Vote FOR shareholder proposals asking that board audit, compensation, and/or nominating committees be composed exclusively of independent directors if they currently do not meet that standard.

MAJORITY VOTE SHAREHOLDER PROPOSALS

Generally vote FOR precatory and binding resolutions requesting that the board change the company's bylaws to stipulate that directors need to be elected with an affirmative majority of votes cast, provided it does not conflict with the state law where the company is incorporated. Binding resolutions need to allow for a carve-out for a plurality vote standard when there are more nominees than board seats.

Companies are strongly encouraged to also adopt a post-election policy (also know as a director resignation policy) that will provide guidelines so that the company will promptly address the situation of a holdover director.

OFFICE OF THE BOARD

Generally vote FOR shareholders proposals requesting that the board establish an Office of the Board of Directors in order to facilitate direct communications between shareholders and non-management directors, unless the company has all of the following:

- o Established a communication structure that goes beyond the exchange requirements to facilitate the exchange of information between shareholders and members of the board;
- o Effectively disclosed information with respect to this structure to its shareholders;
- o Company has not ignored majority-supported shareholder proposals or a majority withhold vote on a director nominee; and
- o The company has an independent chairman or a lead/presiding director, according to ISS' definition. This individual must be made available for periodic consultation and direct communication with major shareholders.

OPEN ACCESS

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

Generally vote FOR reasonably crafted shareholder proposals providing shareholders with the ability to nominate director candidates to be included on management's proxy card, provided the proposal substantially mirrors the SEC's proposed two-trigger formulation (see the proposed "Security Holder Director Nominations" rule ([HTTP://WWW.SEC.GOV/RULES/PROPOSED/34-48626.HTM](http://www.sec.gov/rules/proposed/34-48626.htm)) or ISS' comment letter to the SEC dated 6/13/2003, available on ISS website under Governance Center- ISS Position Papers).

PERFORMANCE TEST FOR DIRECTORS

WITHHOLD from directors of Russell 3000 companies that underperformed relative to their industry peers. The criterion used to evaluate such underperformance is a combination of four performance measures:

One measurement will be a market-based performance metric and three measurements will be tied to the company's operational performance. The market performance metric in the methodology is five-year Total Shareholder Return (TSR) on a relative basis within each four-digit GICS group. The three operational performance metrics are sales growth, EBITDA growth, and pre-tax operating Return on Invested Capital (ROIC) on a relative basis within each four-digit GICS group. All four metrics will be time-weighted as follows: 40 percent on the trailing 12 month period and 60 percent on the 48 month period prior to the trailing 12 months. This methodology emphasizes the company's historical performance over a five-year period yet also accounts for near-term changes in a company's performance.

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED. 14

The table below summarizes the new framework: Adopt a two-phased approach. In 2007 (Year 1), the worst performers (bottom five percent) within each of the 24 GICS groups will automatically receive CAUTIONARY LANGUAGE, except for companies that have already received cautionary language or withhold votes in 2006 under the current policy. The latter may be subject to withhold votes in 2007. For 2008 (Year 2), WITHHOLD votes from director nominees if a company continues to be in the bottom five percent within its GICS group for that respective year and/or shows no improvement in its most recent trailing 12 months operating and market performance relative to its peers in its GICS group. This policy would be applied on a rolling basis going forward.

Metrics	Basis of Evaluation	Weighting	2nd Weighting
OPERATIONAL PERFORMANCE			50%
5-year Average pre-tax operating ROIC	Management efficiency in deploying assets	33.3%	
5-year Sales Growth	Top-Line	33.3%

STOCK OWNERSHIP REQUIREMENTS

Generally vote AGAINST shareholder proposals that mandate a minimum amount of stock that directors must own in order to qualify as a director or to remain on the board. While stock ownership on the part of directors is desired, the company should determine the appropriate ownership requirement.

Vote CASE-BY-CASE on shareholder proposals asking that the company adopt a holding or retention period for its executives (for holding stock after the vesting or exercise of equity awards), taking into account any stock ownership requirements or holding period/retention ratio already in place and the actual ownership level of executives.

TERM LIMITS

Vote AGAINST shareholder or management proposals to limit the tenure of outside directors through term limits. However, scrutinize boards where the average tenure of all directors exceeds 15 years for independence from management and for sufficient turnover to ensure that new perspectives are being added to the board.

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED. 15

3. PROXY CONTESTS

VOTING FOR DIRECTOR NOMINEES IN CONTESTED ELECTIONS

Vote CASE-BY-CASE on the election of directors in contested elections, considering the following factors:

Long-term financial performance of the target company relative to its industry;

Management's track record;

Background to the proxy contest;

Qualifications of director nominees (both slates);

Strategic plan of dissident slate and quality of critique against management;

Likelihood that the proposed goals and objectives can be achieved (both slates);

Stock ownership positions.

REIMBURSING PROXY SOLICITATION EXPENSES

Vote CASE-BY-CASE on proposals to reimburse proxy solicitation expenses. When voting in conjunction with support of a dissident slate, vote FOR the reimbursement of all appropriate proxy solicitation expenses associated with the

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

election.

CONFIDENTIAL VOTING

Vote FOR shareholder proposals requesting that corporations adopt confidential voting, use independent vote tabulators, and use independent inspectors of election, as long as the proposal includes a provision for proxy contests as follows: In the case of a contested election, management should be permitted to request that the dissident group honor its confidential voting policy. If the dissidents agree, the policy remains in place. If the dissidents will not agree, the confidential voting policy is waived.

Vote FOR management proposals to adopt confidential voting.

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED. 16

4. ANTITAKEOVER DEFENSES AND VOTING RELATED ISSUES

ADVANCE NOTICE REQUIREMENTS FOR SHAREHOLDER PROPOSALS/NOMINATIONS

Vote CASE-BY-CASE on advance notice proposals, supporting those proposals which allow shareholders to submit proposals as close to the meeting date as reasonably possible and within the broadest window possible.

AMEND BYLAWS WITHOUT SHAREHOLDER CONSENT

Vote AGAINST proposals giving the board exclusive authority to amend the bylaws. Vote FOR proposals giving the board the ability to amend the bylaws in addition to shareholders.

POISON PILLS

Vote FOR shareholder proposals requesting that the company submit its poison pill to a shareholder vote or redeem it UNLESS the company has: (1) A shareholder approved poison pill in place; or (2) The company has adopted a policy concerning the adoption of a pill in the future specifying that the board will only adopt a shareholder rights plan if either:

- o Shareholders have approved the adoption of the plan; or
- o The board, in its exercise of its fiduciary responsibilities, determines that it is in the best interest of shareholders under the circumstances to adopt a pill without the delay in adoption that would result from seeking stockholder approval (i.e. the "fiduciary out" provision). A poison pill adopted under this fiduciary out will be put to a shareholder ratification vote within twelve months of adoption or expire. If the pill is not approved by a majority of the votes cast on this issue, the plan will immediately terminate.

Vote FOR shareholder proposals calling for poison pills to be put to a vote within a time period of less than one year after adoption. If the company has no non-shareholder approved poison pill in place and has adopted a policy with the provisions outlined above, vote AGAINST the proposal. If these conditions are not met, vote FOR the proposal, but with the caveat that a vote within twelve months would be considered sufficient.

Vote CASE-by-CASE on management proposals on poison pill ratification, focusing on the features of the shareholder rights plan. Rights plans should contain the following attributes:

- o No lower than a 20% trigger, flip-in or flip-over;
- o A term of no more than three years;
- o No dead-hand, slow-hand, no-hand or similar feature that

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

- o limits the ability of a future board to redeem the pill; Shareholder redemption feature (qualifying offer clause); if the board refuses to redeem the pill 90 days after a qualifying offer is announced, ten percent of the shares may call a special meeting or seek a written consent to vote on rescinding the pill.

SHAREHOLDER ABILITY TO ACT BY WRITTEN CONSENT

Vote AGAINST proposals to restrict or prohibit shareholder ability to take action by written consent. Vote FOR proposals to allow or make easier shareholder action by written consent.

SHAREHOLDER ABILITY TO CALL SPECIAL MEETINGS

Vote AGAINST proposals to restrict or prohibit shareholder ability to call special meetings. Vote FOR proposals that remove restrictions on the right of shareholders to act independently of management.

SUPERMAJORITY VOTE REQUIREMENTS

Vote AGAINST proposals to require a supermajority shareholder vote. Vote FOR proposals to lower supermajority vote requirements.

5. MERGERS AND CORPORATE RESTRUCTURINGS OVERALL APPROACH

For mergers and acquisitions, review and evaluate the merits and drawbacks of the proposed transaction, balancing various and sometimes countervailing factors including:

- o VALUATION - Is the value to be received by the target shareholders (or paid by the acquirer) reasonable? While the fairness opinion may provide an initial starting point for assessing valuation reasonableness, emphasis is placed on the offer premium, market reaction and strategic rationale.
- o MARKET REACTION - How has the market responded to the proposed deal? A negative market reaction should cause closer scrutiny of a deal.
- o STRATEGIC RATIONALE - Does the deal make sense strategically? From where is the value derived? Cost and revenue synergies should not be overly aggressive or optimistic, but reasonably achievable. Management should also have a favorable track record of successful integration of historical acquisitions.
- o NEGOTIATIONS AND PROCESS - Were the terms of the transaction negotiated at arm's-length? Was the process fair and equitable? A fair process helps to ensure the best price for shareholders. Significant negotiation "wins" can also signify the deal makers' competency. The comprehensiveness of the sales process (e.g., full auction, partial auction, no auction) can also affect shareholder value.
- o CONFLICTS OF INTEREST - Are insiders benefiting from the transaction disproportionately and inappropriately as compared to non-insider shareholders? As the result of potential conflicts, the directors and officers of the company may be more likely to vote to approve a merger than if they did not

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

hold these interests. Consider whether these interests may have influenced these directors and officers to support or recommend the merger. The CIC figure presented in the "ISS Transaction Summary" section of this report is an aggregate figure that can in certain cases be a misleading indicator of the true value transfer from shareholders to insiders. Where such figure appears to be excessive, analyze the underlying assumptions to determine whether a potential conflict exists.

- o GOVERNANCE - Will the combined company have a better or worse governance profile than the current governance profiles of the respective parties to the transaction? If the governance profile is to change for the worse, the burden is on the company to prove that other issues (such as valuation) outweigh any deterioration in governance.

APPRAISAL RIGHTS

Vote FOR proposals to restore, or provide shareholders with, rights of appraisal.

ASSET PURCHASES

Vote CASE-BY-CASE on asset purchase proposals, considering the following factors:

- o Purchase price;
- o Fairness opinion;

Vote CASE-BY-CASE on bundled or "conditional" proxy proposals. In the case of items that are conditioned upon each other, examine the benefits and costs of the packaged items. In instances when the joint effect of the conditioned items is not in shareholders' best interests, vote AGAINST the proposals. If the combined effect is positive, support such proposals.

- o Whether the interests of continuing and cashed-out shareholders are balanced; and
- o The market reaction to public announcement of transaction.

- o Signs of entrenched board and management;

22

6. STATE OF INCORPORATION

CONTROL SHARE ACQUISITION PROVISIONS

Control share acquisition statutes function by denying shares their voting rights when they contribute to ownership in excess of certain thresholds. Voting rights for those shares exceeding ownership limits may only be restored by approval of either a majority or supermajority of disinterested shares. Thus, control share acquisition statutes effectively require a hostile bidder to put its offer to a shareholder vote or risk voting disenfranchisement if the bidder continues buying up a large block of shares.

Vote FOR proposals to opt out of control share acquisition statutes unless doing so would enable the completion of a takeover that would be detrimental to shareholders.

Vote AGAINST proposals to amend the charter to include control share acquisition provisions.

Vote FOR proposals to restore voting rights to the control shares.

CONTROL SHARE CASH-OUT PROVISIONS

Control share cash-out statutes give dissident shareholders the right to "cash-out" of their position in a company at the expense of the shareholder who has taken a control position. In other words, when an investor crosses a preset threshold level, remaining shareholders are given the right to sell their shares to the acquirer, who must buy them at the highest acquiring price.

Vote FOR proposals to opt out of control share cash-out statutes.

DISGORGEMENT PROVISIONS

Disgorgement provisions require an acquirer or potential acquirer of more than a certain percentage of a company's stock to disgorge, or pay back, to the company any profits realized from the sale of that company's stock purchased 24 months before achieving control status. All sales of company stock by the acquirer occurring within a certain period of time (between 18 months and 24 months) prior to the investor's gaining control status are subject to these

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

recapture-of-profits provisions.

Vote FOR proposals to opt out of state disgorgement provisions.

FAIR PRICE PROVISIONS

Vote CASE-BY-CASE on proposals to adopt fair price provisions (provisions that stipulate that an acquirer must pay the same price to acquire all shares as it paid to acquire the control shares), evaluating factors such as the vote required to approve the proposed acquisition, the vote required to repeal the fair price provision, and the mechanism for determining the fair price.

Generally, vote AGAINST fair price provisions with shareholder vote requirements greater than a majority of disinterested shares.

FREEZE-OUT PROVISIONS

Vote FOR proposals to opt out of state freeze-out provisions. Freeze-out provisions force an investor who surpasses a certain ownership threshold in a company to wait a specified period of time before gaining control of the company.

GREENMAIL

Greenmail payments are targeted share repurchases by management of company stock from individuals or groups seeking control of the company. Since only the hostile party receives payment, usually at a substantial premium over the market value of its shares, the practice discriminates against all other shareholders.

Vote FOR proposals to adopt anti-greenmail charter or bylaw amendments or otherwise restrict a company's

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED. 23

ability to make greenmail payments.

Vote CASE-BY-CASE on anti-greenmail proposals when they are bundled with other charter or bylaw amendments.

The reasons for reincorporating;

A comparison of the governance provisions;

Comparative economic benefits;and

A comparison of the jurisdictional laws.

Vote FOR re-incorporation when the economic factors outweigh any neutral or negative governance changes.

STAKEHOLDER PROVISIONS

Vote AGAINST proposals that ask the board to consider non-shareholder constituencies or other non-financial effects when evaluating a merger or business combination.

STATE ANTITAKEOVER STATUTES

Vote CASE-BY-CASE on proposals to opt in or out of state takeover statutes

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

(including control share acquisition statutes, control share cash-out statutes, freezeout provisions, fair price provisions, stakeholder laws, poison pill endorsements, severance pay and labor contract provisions, anti-greenmail provisions, and disgorgement provisions).

In addition, for capital requests less than or equal to 300 percent of the current authorized shares that marginally fail the calculated allowable cap (i.e., exceed the allowable cap by no more than 5 percent), on a CASE-BY-CASE basis, vote FOR the increase based on the company's performance and whether the company's ongoing use of shares has shown prudence. Factors should include, at a minimum, the following:

- o Rationale;
- o Good performance with respect to peers and index on a five-year total shareholder return basis;
- o Absence of non-shareholder approved poison pill;
- o Reasonable equity compensation burn rate;

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

Vote AGAINST proposals authorizing the creation of new classes of preferred stock with unspecified voting, conversion, dividend distribution, and other rights ("blank check" preferred stock).

Vote FOR proposals to create "declawed" blank check preferred stock (stock that cannot be used as a takeover defense).

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED.

25

Vote FOR proposals to authorize preferred stock in cases where the company specifies the voting, dividend, conversion, and other rights of such stock and the terms of the preferred stock appear reasonable.

- o Conflicts of interest; and
- o Other alternatives considered.

SHARE REPURCHASE PROGRAMS

Vote FOR management proposals to institute open-market share repurchase plans in which all shareholders may participate on equal terms.

STOCK DISTRIBUTIONS: SPLITS AND DIVIDENDS

Vote FOR management proposals to increase the common share authorization for a stock split or share dividend, provided that the increase in authorized shares would not result in an excessive number of shares available for issuance as determined using a model developed by ISS.

TRACKING STOCK

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

Vote CASE-BY-CASE on the creation of tracking stock, weighing the strategic value of the transaction against such factors as:

- o Adverse governance changes;
- o Excessive increases in authorized capital stock;
- o Unfair method of distribution;
- o Diminution of voting rights;
- o Adverse conversion features;
- o Negative impact on stock option plans; and
- o Alternatives such as spin-off.

8. EXECUTIVE AND DIRECTOR COMPENSATION EQUITY COMPENSATION PLANS

Vote CASE-BY-CASE on equity-based compensation plans. Vote AGAINST the equity plan if any of the following factors apply:

- o The total cost of the company's equity plans is unreasonable;
- o The plan expressly permits the repricing of stock options without prior shareholder approval;
- o There is a disconnect between CEO pay and the company's performance;
- o The company's three year burn rate exceeds the greater of 2% and the mean plus 1 standard deviation of its industry group; or
- o The plan is a vehicle for poor pay practices.

Each of these factors is further described below:

COST OF EQUITY PLANS

Generally, vote AGAINST equity plans if the cost is unreasonable. For non-employee director plans, vote FOR the plan if certain factors are met (see Director Compensation section).

The cost of the equity plans is expressed as Shareholder Value Transfer (SVT), which is measured using a binomial option pricing model that assesses the amount of shareholders' equity flowing out of the company to employees and directors. SVT is expressed as both a dollar amount and as a percentage of market value, and includes the new shares proposed, shares available under existing plans, and shares granted but unexercised. All award types are valued. For omnibus plans, unless limitations are placed on the most expensive types of awards (for example, full value awards), the assumption is made that all awards to be granted will be the most expensive types. See discussion of specific types of awards.

The Shareholder Value Transfer is reasonable if it falls below the company-specific allowable cap. The allowable cap is determined as follows: The top quartile performers in each industry group (using the Global Industry Classification Standard GICS) are identified. Benchmark SVT levels for each industry are established based on these top performers' historic SVT. Regression analyses are run on each industry group to identify the variables most strongly correlated to SVT. The benchmark industry SVT level is then adjusted upwards or downwards for the specific company by plugging the company-specific performance measures, size and cash compensation into the industry cap equations to arrive at the company's allowable cap.

REPRICING PROVISIONS

Vote AGAINST plans that expressly permit the repricing of underwater stock options without prior shareholder approval, even if the cost of the plan is reasonable. Also, WITHHOLD from members of the Compensation Committee who

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

approved and/or implemented an option exchange program by repricing and buying out underwater options for stock, cash or other consideration or canceling underwater options and regranting options with a lower exercise price without prior shareholder approval, even if such repricings are allowed in their equity plan.

Vote AGAINST plans if the company has a history of repricing options without shareholder approval, and the applicable listing standards would not preclude them from doing so.

PAY-FOR PERFORMANCE DISCONNECT

Generally vote AGAINST plans in which:

- o there is a disconnect between the CEO's pay and company performance (an increase in pay and a decrease in performance);
- o the main source of the pay increase (over half) is equity-based, and
- o the CEO is a participant of the equity proposal.

Performance decreases are based on negative one- and three-year total shareholder returns. CEO pay increases are

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED.

27

based on the CEO's total direct compensation (salary, cash bonus, present value of stock options, face value of restricted stock, value of non-equity incentive payouts, change in pension value and nonqualified deferred compensation earnings, and all other compensation) increasing over the previous year.

WITHHOLD votes from the Compensation Committee members when the company has a pay for performance disconnect.

On a CASE-BY-CASE basis, vote for equity plans and FOR compensation committee members with a pay-for-performance disconnect if compensation committee members can present strong and compelling evidence of improved committee performance. This evidence must go beyond the usual compensation committee report disclosure. This additional evidence necessary includes all of the following:

- o The compensation committee has reviewed all components of the CEO's compensation, including the following:
 - Base salary, bonus, long-term incentives;
 - Accumulative realized and unrealized stock option and restricted stock gains;
 - Dollar value of perquisites and other personal benefits to the CEO and the total cost to the company;
 - Earnings and accumulated payment obligations under the company's nonqualified deferred compensation program;
 - Actual projected payment obligations under the company's supplemental executive retirement plan (SERPs).
- o A tally sheet with all the above components should be disclosed for the following termination scenarios:

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

- Payment if termination occurs within 12 months: \$_____;
 - Payment if "not for cause" termination occurs within 12 months: \$_____;
 - Payment if "change of control" termination occurs within 12 months: \$_____.
- o The compensation committee is committed to providing additional information on the named executives' annual cash bonus program and/or long-term incentive cash plan for the current fiscal year. The compensation committee will provide full disclosure of the qualitative and quantitative performance criteria and hurdle rates used to determine the payouts of the cash program. From this disclosure, shareholders will know the minimum level of performance required for any cash bonus to be delivered, as well as the maximum cash bonus payable for superior performance.

The repetition of the compensation committee report does not meet ISS' requirement of compelling and strong evidence of improved disclosure. The level of transparency and disclosure is at the highest level where shareholders can understand the mechanics of the annual cash bonus and/or long-term incentive cash plan based on the additional disclosure.

- o The compensation committee is committed to granting a substantial portion of performance-based equity awards to the named executive officers. A substantial portion of performance-based awards would be at least 50 percent of the shares awarded to each of the named executive officers. Performance-based equity awards are earned or paid out based on the achievement of company performance targets. The company will disclose the details of the performance criteria (e.g., return on equity) and the hurdle rates (e.g., 15 percent) associated with the performance targets. From this disclosure, shareholders will know the minimum level of performance required for any equity grants to be made. The performance-based equity awards do not refer to non-qualified stock options(1) or performance-accelerated grants.(2) Instead, performance-based equity awards are performance-contingent grants where the individual will not receive the equity grant by not meeting the target performance and vice versa.

The level of transparency and disclosure is at the highest level where shareholders can understand the mechanics of the performance-based equity awards based on the additional disclosure.

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED. 28

- o The compensation committee has the sole authority to hire and fire outside compensation consultants. The role of the outside compensation consultant is to assist the compensation committee to analyze executive pay packages or contracts and understand the company's financial measures.

THREE-YEAR BURN RATE/BURN RATE COMMITMENT

Generally vote AGAINST plans if the company's most recent three-year burn rate exceeds one standard deviation in excess of the industry mean (per the following

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

Burn Rate Table) and is over two percent of common shares outstanding. The three-year burn rate policy does not apply to non-employee director plans unless outside directors receive a significant portion of shares each year.

However, vote FOR equity plans if the company fails this burn rate test but the company commits in a public filing to a three-year average burn rate equal to its GICS group burn rate mean plus one standard deviation (or 2%, whichever is greater), assuming all other conditions for voting FOR the plan have been met.

If a company fails to fulfill its burn rate commitment, vote to WITHHOLD from the compensation committee.

(1) Non-qualified stock options are not performance-based awards unless the grant or the vesting of the stock options is tied to the achievement of a pre-determined and disclosed performance measure. A rising stock market will generally increase share prices of all companies, despite of the company's underlying performance.

(2) Performance-accelerated grants are awards that vest earlier based on the achievement of a specified measure. However, these grants will ultimately vest over time even without the attainment of the goal(s).

For companies that grant both full value awards and stock options to their employees, ISS shall apply a premium on full value awards for the past three fiscal years. The guideline for applying the premium is as follows:

CHARACTERISTICS	ANNUAL STOCK PRICE VOLATILITY	PREMIUM
High annual volatility	53% and higher	1 full-value award will count as shares
Moderate annual volatility	25% - 52%	1 full-value award will count as shares
Low annual volatility	Less than 25%	1 full-value award will count as shares

POOR PAY PRACTICES

Vote AGAINST equity plans if the plan is a vehicle for poor compensation practices.

WITHHOLD from compensation committee members, CEO, and potentially the entire board, if the company has poor compensation practices. The following practices, while not exhaustive, are examples of poor compensation practices that may warrant withholding votes:

Egregious employment contracts (e.g., those containing multi-year guarantees for bonuses and grants);

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

Excessive perks that dominate compensation (e.g., tax gross-ups for personal use of corporate aircraft);

Huge bonus payouts without justifiable performance linkage or proper disclosure;

Performance metrics that are changed (e.g., canceled or replaced during the performance period without adequate explanation of the action and the link to performance);

Egregious pension/SERP (supplemental executive retirement plan) payouts (e.g., the inclusion of additional years of service not worked or inclusion of performance-based equity awards in the pension calculation);

New CEO awarded an overly generous new hire package (e.g., including excessive "make whole" provisions or any of the poor pay practices listed in this policy);

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED. 31

Excessive severance provisions (e.g., including excessive change in control payments);

Change in control payouts without loss of job or substantial diminution of job duties;

Internal pay disparity;

Options backdating (covered in a separate policy); and

Other excessive compensation payouts or poor pay practices at the company.

=====
(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED. 29

SPECIFIC TREATMENT OF CERTAIN AWARD TYPES IN EQUITY PLAN EVALUATIONS:

DIVIDEND EQUIVALENT RIGHTS

Options that have Dividend Equivalent Rights (DERs) associated with them will have a higher calculated award value than those without DERs under the binomial model, based on the value of these dividend streams. The higher value will be applied to new shares, shares available under existing plans, and shares awarded but not exercised per the plan specifications. DERS transfer more shareholder equity to employees and non-employee directors and this cost should be captured.

LIBERAL SHARE RECYCLING PROVISIONS

Under net share counting provisions, shares tendered by an option holder to pay for the exercise of an option, shares withheld for taxes or shares repurchased by the company on the open market can be recycled back into the equity plan for awarding again. All awards with such provisions should be valued as full-value awards. Stock-settled stock appreciation rights (SSARs) will also be considered as full-value awards if a company counts only the net shares issued to employees towards their plan reserve.

OTHER COMPENSATION PROPOSALS AND POLICIES

401(K) EMPLOYEE BENEFIT PLANS

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

Vote FOR proposals to implement a 401(k) savings plan for employees.

DIRECTOR COMPENSATION

Vote CASE-BY-CASE on compensation plans for non-employee directors, based on the cost of the plans against the company's allowable cap.

On occasion, director stock plans that set aside a relatively small number of shares when combined with employee or executive stock compensation plans exceed the allowable cap. Vote for the plan if ALL of the following qualitative factors in the board's compensation are met and disclosed in the proxy statement:

Director stock ownership guidelines with a minimum of three times the annual cash retainer.

- o Vesting schedule or mandatory holding/deferral period:
 - A minimum vesting of three years for stock options or restricted stock; or
 - Deferred stock payable at the end of a three-year deferral period.
- o Mix between cash and equity:
 - A balanced mix of cash and equity, for example 40% cash/60% equity or 50% cash/50% equity; or
 - If the mix is heavier on the equity component, the vesting schedule or deferral period should be more stringent, with the lesser of five years or the term of directorship.

No retirement/benefits and perquisites provided to non-employee directors; and

Detailed disclosure provided on cash and equity compensation delivered to each non-employee director for the most recent fiscal year in a table. The column headers for the table may include the following: name of each non-employee director, annual retainer, board meeting fees, committee retainer, committee-meeting fees, and equity grants.

DIRECTOR RETIREMENT PLANS

Vote AGAINST retirement plans for non-employee directors.

Vote FOR shareholder proposals to eliminate retirement plans for non-employee directors.

EMPLOYEE STOCK OWNERSHIP PLANS (ESOPS)

Vote FOR proposals to implement an ESOP or increase authorized shares for existing ESOPs, unless the number of shares allocated to the ESOP is excessive (more than five percent of outstanding shares).

EMPLOYEE STOCK PURCHASE PLANS-- QUALIFIED PLANS

Vote CASE-BY-CASE on qualified employee stock purchase plans. Vote FOR employee stock purchase plans where all of the following apply:

Purchase price is at least 85 percent of fair market value;

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

Offering period is 27 months or less; and

The number of shares allocated to the plan is ten percent or less of the outstanding shares.

Vote AGAINST qualified employee stock purchase plans where any of the following apply:

Purchase price is less than 85 percent of fair market value; or

Offering period is greater than 27 months; or

The number of shares allocated to the plan is more than ten percent of the outstanding shares.

EMPLOYEE STOCK PURCHASE PLANS-- NON-QUALIFIED PLANS

Vote CASE-by-CASE on nonqualified employee stock purchase plans. Vote FOR nonqualified employee stock purchase plans with all the following features:

Broad-based participation (i.e., all employees of the company with the exclusion of individuals with 5 percent or more of beneficial ownership of the company);

Limits on employee contribution, which may be a fixed dollar amount or expressed as a percent of base salary;

Company matching contribution up to 25 percent of employee's contribution, which is effectively a discount of 20 percent from market value;

No discount on the stock price on the date of purchase since there is a company matching contribution.

Vote AGAINST nonqualified employee stock purchase plans when any of the plan features do not meet the above criteria. If the company matching contribution exceeds 25 percent of employee's contribution, evaluate the cost of the plan against its allowable cap.

INCENTIVE BONUS PLANS AND TAX DEDUCTIBILITY PROPOSALS (OBRA-RELATED COMPENSATION PROPOSALS)

Vote FOR proposals that simply amend shareholder-approved compensation plans to include administrative features or place a cap on the annual grants any one participant may receive to comply with the provisions of Section 162(m).

Vote FOR proposals to add performance goals to existing compensation plans to comply with the provisions of

Section 162(m) unless they are clearly inappropriate.

Vote CASE-BY-CASE on amendments to existing plans to increase shares reserved and to qualify for favorable tax treatment under the provisions of Section 162(m) as long as the plan does not exceed the allowable cap and the plan does not violate any of the supplemental policies.

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

Generally vote FOR cash or cash and stock bonus plans that are submitted to shareholders for the purpose of exempting compensation from taxes under the provisions of Section 162(m) if no increase in shares is requested.

OPTIONS BACKDATING

In cases where a company has practiced options backdating, WITHHOLD on a CASE-BY-CASE basis from the members of the compensation committee, depending on the severity of the practices and the subsequent corrective actions on the part of the board. WITHHOLD from the compensation committee members who oversaw the questionable options grant practices or from current compensation committee members who fail to respond to the issue proactively, depending on several factors, including, but not limited to:

Reason and motive for the options backdating issue, such as inadvertent vs. deliberate grant date changes;

Length of time of options backdating;

Size of restatement due to options backdating;

Corrective actions taken by the board or compensation committee, such as canceling or repricing backdated options, or recoupment of option gains on backdated grants;

Adoption of a grant policy that prohibits backdating, and creation of a fixed grant schedule or window period for equity grants going forward.

OPTION EXCHANGE PROGRAMS/REPRICING OPTIONS

Vote CASE-by-CASE on management proposals seeking approval to exchange/reprice options taking into consideration:

Historic trading patterns--the stock price should not be so volatile that the options are likely to be back "in-the-money" over the near term;

Rationale for the re-pricing--was the stock price decline beyond management's control?

Is this a value-for-value exchange?

Are surrendered stock options added back to the plan reserve?

Option vesting--does the new option vest immediately or is there a black-out period?

Term of the option--the term should remain the same as that of the replaced option;

Exercise price--should be set at fair market or a premium to market;

Participants--executive officers and directors should be excluded.

If the surrendered options are added back to the equity plans for re-issuance, then also take into consideration the company's three-year average burn rate. In addition to the above considerations, evaluate the intent, rationale, and timing of the repricing proposal. The proposal should clearly articulate why the board is choosing to conduct an exchange program at this point in time. Repricing underwater options after a recent precipitous drop in the company's stock price demonstrates poor timing. Repricing after a recent decline in stock price triggers additional scrutiny and a potential AGAINST vote on the proposal. At a minimum, the decline should not have happened within the past year. Also, consider the terms of the surrendered options, such as the grant date, exercise

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

price and vesting schedule. Grant dates of surrendered options should be far enough back (two to three years) so as not to suggest that repricings are being done to take advantage of short-term downward price movements. Similarly, the exercise price of surrendered options should be above the 52-week high for the stock price.

STOCK PLANS IN LIEU OF CASH

Vote CASE-by-CASE on plans which provide participants with the option of taking all or a portion of their cash compensation in the form of stock.

Vote FOR non-employee director only equity plans which provide a dollar-for-dollar cash for stock exchange.

Vote CASE-by-CASE on plans which do not provide a dollar-for-dollar cash for stock exchange. In cases where the exchange is not dollar-for-dollar, the request for new or additional shares for such equity program will be considered using the binomial option pricing model. In an effort to capture the total cost of total compensation, ISS will not make any adjustments to carve out the in-lieu-of cash compensation.

TRANSFER PROGRAMS OF STOCK OPTIONS One-time Transfers: WITHHOLD votes from compensation committee members if they fail to submit one-time transfers for to shareholders for approval.

Vote CASE-BY-CASE on one-time transfers. Vote FOR if:

Executive officers and non-employee directors are excluded from participating;

Stock options are purchased by third-party financial institutions at a discount to their fair value using option pricing models such as Black-Scholes or a Binomial Option Valuation or other appropriate financial models;

There is a two-year minimum holding period for sale proceeds (cash or stock) for all participants.

Additionally, management should provide a clear explanation of why options are being transferred and whether the events leading up to the decline in stock price were beyond management's control. A review of the company's historic stock price volatility should indicate if the options are likely to be back "in-the-money" over the near term.

SHAREHOLDER PROPOSALS ON COMPENSATION

ADVISORY VOTE ON EXECUTIVE COMPENSATION (SAY-ON-PAY)

Generally, vote FOR shareholder proposals that call for non-binding shareholder ratification of the compensation of the named Executive Officers and the accompanying narrative disclosure of material factors provided to understand the Summary Compensation Table.

DISCLOSURE/SETTING LEVELS OR TYPES OF COMPENSATION FOR EXECUTIVES AND DIRECTORS

Generally, vote FOR shareholder proposals seeking additional disclosure of executive and director pay information, provided the information requested is relevant to shareholders' needs, would not put the company at a competitive disadvantage relative to its industry, and is not unduly burdensome to the company.

Vote AGAINST shareholder proposals seeking to set absolute levels on compensation or otherwise dictate the amount or form of compensation.

Vote AGAINST shareholder proposals requiring director fees be paid in stock only.

OPTION REPRICING

Vote FOR shareholder proposals to put option repricings to a shareholder vote.

PAY FOR SUPERIOR PERFORMANCE

Generally vote FOR shareholder proposals based on a case-by-case analysis that requests the board establish a pay-for-superior performance standard in the company's executive compensation plan for senior executives. The proposals call for:

the annual incentive component of the plan should utilize financial performance criteria that can be benchmarked against peer group performance, and provide that no annual bonus be awarded based on financial performance criteria unless the company exceeds the median or mean performance of a disclosed group of peer companies on the selected financial criteria;

the long-term equity compensation component of the plan should utilize financial and/or stock price performance criteria that can be benchmarked against peer group performance, and any options, restricted shares, or other equity compensation used should be structured so that compensation is received only when company performance exceeds the median or mean performance of the peer group companies on the selected financial and stock price performance criteria; and

the plan disclosure should allow shareholders to monitor the correlation between pay and performance.

Consider the following factors in evaluating this proposal:

What aspects of the company's annual and long -term equity incentive programs are performance driven?

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

If the annual and long-term equity incentive programs are performance driven, are the performance criteria and hurdle rates disclosed to shareholders or are they benchmarked against a disclosed peer group?

Can shareholders assess the correlation between pay and performance based on the current disclosure?

What type of industry and stage of business cycle does the company belong to?

PENSION PLAN INCOME ACCOUNTING

Generally vote FOR shareholder proposals to exclude pension plan income in the calculation of earnings used in determining executive bonuses/compensation.

PERFORMANCE-BASED AWARDS

Vote CASE-BY-CASE on shareholder proposal requesting that a significant amount of future long-term incentive compensation awarded to senior executives shall be performance-based and requesting that the board adopt and disclose challenging performance metrics to shareholders, based on the following analytical steps:

First, vote FOR shareholder proposals advocating the use of performance-based equity awards, such as performance contingent options or restricted stock, indexed options or premium-priced options, unless the proposal is overly restrictive or if the company has demonstrated that it is using a "substantial" portion of performance-based awards for its top executives. Standard stock options and performance-accelerated awards do not meet the criteria to be considered as performance-based awards. Further, premium-priced options should have a premium of at least 25 percent and higher to be considered performance-based awards.

Second, assess the rigor of the company's performance-based equity program. If the bar set for the performance-based program is too low based on the company's historical or peer group comparison, generally vote FOR the proposal. Furthermore, if target performance results in an above target payout, vote FOR the shareholder proposal due to program's poor design. If the company does not disclose the performance metric of the performance-based equity program, vote FOR the shareholder proposal regardless of the outcome of the first step to the test.

(C) 2006 INSTITUTIONAL SHAREHOLDER SERVICES INC. ALL RIGHTS RESERVED. 36

In general, vote FOR the shareholder proposal if the company does not meet both of the above two steps.

SEVERANCE AGREEMENTS FOR EXECUTIVES/GOLDEN PARACHUTES

Vote FOR shareholder proposals to require golden parachutes or executive severance agreements to be submitted for shareholder ratification, unless the proposal requires shareholder approval prior to entering into employment contracts.

Vote on a CASE-BY-CASE basis on proposals to ratify or cancel golden parachutes. An acceptable parachute should include, but is not limited to, the following:

The triggering mechanism should be beyond the control of management;

The amount should not exceed three times base amount (defined as the average annual taxable W-2 compensation during the five years prior to

Edgar Filing: FIRST TRUST STRATEGIC HIGH INCOME FUND - Form N-CSR

the year in which the change of control occurs;

Change-in-control payments should be double-triggered, i.e., (1) after a change in control has taken place, and (2) termination of the executive as a result of the change in control. Change in control is defined as a change in the company ownership structure.

SUPPLEMENTAL EXECUTIVE RETIREMENT PLANS (SERPS)

Generally vote FOR shareholder proposals requesting to put extraordinary benefits contained in SERP agreements to a shareholder vote unless the company's executive pension plans do not contain excessive benefits beyond what is offered under employee-wide plans.

Generally vote FOR shareholder proposals requesting to limit the executive benefits provided under the company's supplemental executive retirement plan (SERP) by limiting covered compensation to a senior executive's annual salary and excluding of all incentive or bonus pay from the plan's definition of covered compensation used to establish such benefits.

9. CORPORATE RESPONSIBILITY CONSUMER ISSUES AND PUBLIC SAFETY

ANIMAL RIGHTS

Generally vote AGAINST proposals to phase out the use of animals in product testing unless:

The company is conducting animal testing programs that are unnecessary or not required by regulation;

The company is conducting animal testing when suitable alternatives are accepted and used at peer firms;

The company has been the subject of recent, significant controversy related to its testing programs.

Generally vote FOR proposals seeking a report on the company's animal welfare standards unless:

The company has already published a set of animal welfare standards and monitors compliance;

The company's standards are comparable to or better than those of peer firms; and

There are no serious controversies surrounding the company's treatment of animals.

DRUG PRICING

Deviation from established industry pricing norms;

Whether the proposal focuses on specific products or geographic regions.

DRUG REIMPORTATION

Generally vote FOR proposals requesting that companies report on the financial and legal impact of their policies regarding prescription drug reimportation unless such information is already publicly disclosed.

Generally vote AGAINST proposals requesting that companies adopt specific policies to encourage or constrain prescription drug reimportation.

GENETICALLY MODIFIED FOODS

Vote AGAINST proposals asking companies to voluntarily label genetically engineered (GE) ingredients in their products or alternatively to provide interim labeling and eventually eliminate GE ingredients due to the costs and feasibility of labeling and/or phasing out the use of GE ingredients.

Vote CASE-BY-CASE on proposals asking for a report on the feasibility of labeling products containing GE ingredients taking into account:

The relevance of the proposal in terms of the company's business and the proportion of it affected by the resolution;

The quality of the company's disclosure on GE product labeling and related voluntary initiatives and how this disclosure compares with peer company disclosure;

Company's current disclosure on the feasibility of GE product labeling, including information on the related costs;
