PORTFOLIO COMMENTARY

FIRST TRUST ENHANCED EQUITY INCOME FUND

The investment objective of First Trust Enhanced Equity Income Fund ("FFA" or the "Fund") is to provide a high level of current income and gains and, to a lesser extent, capital appreciation. The Fund pursues its investment objective by investing in a diversified portfolio of equity securities. Under normal market conditions, the Fund pursues an integrated investment strategy in which the Fund invests substantially all of its managed assets in a diversified portfolio of common stocks of U.S. corporations and U.S. dollar-denominated equity securities of foreign issuers, in each case that are traded on U.S. securities exchanges. There can be no assurance that the Fund's investment objective will be achieved.

MARKET RECAP

EARLY PERIOD OF "EASY MONEY"

As reported in the Fund's Semi-Annual Report (for the six months ended June 30, 2007), Gross Domestic Product ("GDP") growth started out at a rate of 0.7% in the first quarter of 2007 but rebounded to an annualized 3.4% rate in the second quarter of the year as companies restocked inventories. Subsequent to the period covered in that Semi-Annual Report, GDP growth accelerated during the third quarter of 2007 as exports increased due to the falling dollar and consumer spending continued to be strong. This strong economic growth, combined with solid corporate earnings and continued support from private equity buyouts, propelled the S&P 500 Index through mid-July 2007 to a total return of over 10%. However, the end of the "easy money" period that had provided fuel to the economy and financial markets was imminent.

Edgar Filing: FIRST TRUST ENHANCED EQUITY INCOME FUND - Form N-CSR

THE CREDIT MARKET

Several news stories in the July 2007 financial press reported that two sub-prime mortgage related hedge funds were in serious financial trouble. Their subsequent collapse, along with further announcements of financial trouble for other entities tied to sub-prime mortgages, precipitated a seizing of the credit markets during the mid-to late-summer months of 2007. What had started as an issue at two hedge funds has become a very serious issue for the financial markets as a whole as entities of all kinds have had to write-off or mark down over \$100 billion worth of investments. This credit market freeze, combined with falling housing prices, appeared to have slowed the economy heading into the fourth quarter.

GDP GROWTH AND THE FEDERAL RESERVE

It was in this market environment that Chartwell Investment Partners, L.P. ("Chartwell") began serving as Sub-Advisor of the Fund, effective September 14, 2007. During Chartwell's brief tenure, GDP growth has slowed from 4.9% in the third quarter of 2007 to the advanced estimate of 0.6% for the fourth quarter of 2007 (with a possible economic slowdown or recession in 2008 being talked about in the financial and mainstream press). In an attempt to stimulate economic growth, the Federal Reserve has lowered the Federal Funds rate by a total of 225 basis points from September 18, 2007 through January 30, 2008.

PERFORMANCE ANALYSIS

The NAV total return of the Fund for the first full quarter of Chartwell's tenure ending December 31, 2007, was -2.50%,¹ and the total return on the Fund's common shares was -4.75%² for this same quarter. Both of these returns were inclusive of dividends of \$0.40 per share. During this same time period, the S&P 500 Index returned -3.33%. For the 12 months ended December 31, 2007, FFA's NAV total return was 8.19%¹ and the market value total return was -3.76%². For the same 12 months ended December 31, 2007, the S&P 500 Index total return was 6.22%.

The significant economic and financial events discussed above occurred while Chartwell had been transitioning the Fund's portfolio to one which will obtain more of its total return from dividends paid by the Fund's portfolio securities, thereby enabling Chartwell to be more flexible with the level of options overwriting, consistent with the Fund's investment objective. This could allow Chartwell to manage the portfolio for increased gains.

The main positive contributors to performance versus the S&P 500 Index during Chartwell's management were in the Telecom and Materials sectors. Telecom benefited from its position of being less economically sensitive, while the outperformance in Materials was primarily driven by the Fund's position in Monsanto. Underperformance came mostly from Consumer Discretionary, which was impacted by a close correlation with economic activity, as well as the Fund's underweighting in Electric Utilities, which benefited strongly from its "safe haven" status.

PORTFOLIO MANAGER Q & A

WHAT IS YOUR OUTLOOK FOR THE MARKET?

The outlook for the market depends on the economy. We believe that it is difficult to forecast the full extent of any further write-offs or mark-downs from the sub-prime mortgage meltdown, despite the billions that have already been taken. We believe the economic picture is further subdued by the weak employment reports issued in December 2007 and January

- 1 Total return based on NAV is the combination of reinvested dividend distributions and reinvested capital gains distributions, if any, at prices obtained by the Dividend Reinvestment Plan and changes in NAV per common share and does not reflect sales load.
 - 2 Total return based on market value is the combination of reinvested dividend distributions and reinvested capital gains distributions, if any, at prices obtained by the Dividend Reinvestment Plan and changes in common share market price per share.

PORTFOLIO COMMENTARY - CONTINUED

2008, weak retail sales that were reported over the past holiday season and the continued housing market slowdown. In addition, liquidity has become tight, which may restrict companies and individuals from borrowing. On the positive side, both the Federal Reserve and government policy makers are becoming more accommodative in both monetary and fiscal policy. As a result, we believe the economy could be growing in the second half of 2008.

In January 2008, the Federal Reserve lowered the Federal Funds rate by 125 basis points in an attempt to reduce the downside risks to economic growth, while also attempting to ease the tensions on the financial markets brought on by the sub-prime mortgage meltdown. It is anticipated that additional rate cuts will be made.

HOW HAVE YOU CHANGED THE FUND'S PORTFOLIO TO ACCOMMODATE YOUR MARKET OUTLOOK?

As a result of these economic changes, we reduced the Fund's exposure to late cycle businesses, adding to some of the more defensive areas of the market (Consumer Staples and Utilities), while slowly adding to some early cycle names which have high dividend yields. We currently anticipate maintaining a high level of covered calls written on the Fund's portfolio holdings. We will continue to manage the Fund's portfolio with the objectives of earning a high level of current income and gains to provide for the Fund's dividend, while also seeking to provide for capital appreciation opportunities over the market cycle.

NOTES TO FINANCIAL STATEMENTS

FIRST TRUST ENHANCED EQUITY INCOME FUND
(FORMERLY KNOWN AS FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND)
DECEMBER 31, 2007

1. FUND DESCRIPTION

First Trust Enhanced Equity Income Fund (formerly known as First Trust/Fiduciary Asset Management Covered Call Fund) (the "Fund") is a diversified, closed-end management investment company organized as a Massachusetts business trust on May 20, 2004 and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FFA on the New York Stock Exchange ("NYSE"). The Fund's name was changed to its current name effective September 30, 2007, following the appointment of Chartwell Investment Partners, L.P. ("Sub-Advisor" or "Chartwell") as Sub-Advisor of the Fund, pursuant to an interim investment sub-advisory agreement.

The Fund's investment objective is to provide a high level of current income and gains and, to a lesser extent, capital appreciation. The Fund seeks to achieve its investment objective by investing in a diversified portfolio of equity securities. There can be no assurance that the Fund's investment objective will be achieved.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

A. PORTFOLIO VALUATION:

The net asset value ("NAV") of the Fund's Common Shares is determined daily, as of the close of regular trading on the NYSE, normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. The NAV per Common Share is calculated by dividing the value of all assets of the Fund (including accrued interest and dividends), less all liabilities (including accrued expenses, the value of call options written (sold) and dividends declared but unpaid), by the total number of Common Shares outstanding.

The Fund's investments are valued at market value, or in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities trading on the NASDAQ, are valued at the closing bid prices. Fixed income securities with a remaining maturity of 60 days or more will be valued by the Fund using a pricing service. Short-term investments that

Edgar Filing: FIRST TRUST ENHANCED EQUITY INCOME FUND - Form N-CSR

mature in less than 60 days are valued at amortized cost.

The Fund values exchange-traded options and other derivative contracts at the closing price on the exchange on which they are principally traded, or if not traded, or no closing price is available, at the mean between the last bid and asked price.

B. OPTION CONTRACTS:

COVERED OPTIONS. The Fund may write (sell) covered call or put options ("options") on all or a portion of the equity securities held in the Fund's portfolio and on securities indices as determined to be appropriate by the Fund's Sub-Advisor, consistent with the Fund's investment objective. The number of options the Fund can write (sell) is limited by the amount of equity securities the Fund holds in its portfolio. Options on securities indices are designed to reflect price fluctuations in a group of securities or segment of the securities market rather than price fluctuations in a single security and are similar to options on single securities, except that the exercise of securities index options requires cash settlement payments and does not involve the actual purchase or sale of securities. The Fund will not write (sell) "naked" or uncovered options. If certain equity securities held in the Fund's portfolio are not covered by a related call option on the individual equity security, securities index options may be written on all or a portion of such uncovered securities. By writing (selling) options, the Fund seeks to generate additional income, in the form of premiums received for writing (selling) the options, and to provide a partial hedge against a market decline in the underlying equity security. Options are marked-to-market daily and

Page 17

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST ENHANCED EQUITY INCOME FUND
(FORMERLY KNOWN AS FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND)
DECEMBER 31, 2007

their value will be affected by changes in the value and dividend rates of the underlying equity securities, changes in interest rates, changes in the actual or perceived volatility of the securities markets and the underlying equity securities and the remaining time to the options' expiration. The value of options may also be adversely affected if the market for the options becomes less liquid or smaller.

Options the Fund writes (sells) will either be exercised, expire or be cancelled pursuant to a closing transaction. If the price of the underlying equity security exceeds the option's exercise price, it is likely that the option holder will exercise the option. If an option written (sold) by the Fund is exercised, the Fund would be obligated to deliver the underlying equity security to the option holder upon payment of the exercise price. In this case, the option premium received by the Fund will be added to the amount realized on the sale of the underlying equity security for purposes of determining gain or loss. If the price of the underlying equity security is less than the option's exercise price, the option will likely expire without being exercised. The option premium received by the Fund will, in this case, be treated as short-term capital gain on the expiration date of the option. The Fund may also elect to close out its position in an option prior to its expiration by purchasing an option of the same series as the option written (sold) by the Fund.

Edgar Filing: FIRST TRUST ENHANCED EQUITY INCOME FUND - Form N-CSR

The options that the Fund writes (sells) give the option holder the right, but not the obligation, to purchase a security from the Fund at the strike price on or prior to the option's expiration date. The ability to successfully implement the Fund's investment strategy depends on the ability of Chartwell to predict pertinent market movements, which cannot be assured. Thus, the use of options may require the Fund to sell portfolio securities at inopportune times or for prices other than current market value, may limit the amount of appreciation the Fund can realize on an investment, or may cause the Fund to hold a security that it might otherwise sell. As the writer (seller) of a covered option, the Fund forgoes, during the option's life, the opportunity to profit from increases in the market value of the security covering the option above the sum of the premium and the strike price of the option, but has retained the risk of loss should the price of the underlying security decline. The writer (seller) of an option has no control over the time when it may be required to fulfill its obligation as a writer (seller) of the option. Once an option writer (seller) has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying security to the option holder at the exercise price.

C. SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis, including amortization of premiums and accretion of discounts.

D. DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

Dividends from net investment income of the Fund are declared and paid quarterly or as the Board of Trustees may determine from time to time. Distributions of any net realized capital gains earned by the Fund are distributed at least annually. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and realized capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund.

The tax character of distributions paid during the fiscal years ended December 31, 2007 and December 31, 2006 is as follows:

	2007	2006
Distributions paid from:		
Ordinary Income	\$ 31,958,437	26,007,917
Long-Term Capital Gains	1,141,090	5,949,145

As of December 31, 2007, the components of distributable earnings on a tax basis were as follows:

Undistributed Ordinary Income	\$ 3,851,022
Net Unrealized Depreciation	(14,538,544)

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST ENHANCED EQUITY INCOME FUND
(FORMERLY KNOWN AS FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND)
DECEMBER 31, 2007

E. INCOME TAXES:

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, and by distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

In June 2006, Financial Accounting Standards Board Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement 109 ("FIN 48"), was issued and is effective for fiscal years beginning after December 15, 2006. This Interpretation prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. As of December 31, 2007, management has evaluated the application of FIN 48 to the Fund, and has determined that there is no material impact resulting from the adoption of this Interpretation on the Fund's financial statements.

POST-OCTOBER LOSSES. Under current laws, certain losses realized after October 31 may be deferred and treated as occurring on the first day of the following fiscal year. For the fiscal year ended December 31, 2007, the Fund intends to elect to defer net realized losses incurred from November 1, 2007 through December 31, 2007 of \$2,997,131.

F. EXPENSES:

The Fund pays all expenses directly related to its operations.

G. ACCOUNTING PRONOUNCEMENT:

In September 2006, Statement of Financial Accounting Standards No. 157 Fair Value Measurements ("SFAS 157") was issued by the FASB and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. At this time, management is evaluating the implications of SFAS 157 and its impact on the Fund's financial statements, if any, has not been determined.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust Advisors L.P. ("First Trust") is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for the ongoing monitoring of the Fund's investment portfolio, managing the Fund's business affairs and certain administrative services necessary for the management of the Fund. For these services, First Trust is entitled to a monthly fee calculated at an annual rate of 1.00% of the Fund's Managed Assets ("Managed Assets" means the average daily gross assets of the Fund minus the sum of the Fund's accrued and unpaid dividends on any outstanding Common Shares and accrued liabilities, including the value of call options written (sold)).

Edgar Filing: FIRST TRUST ENHANCED EQUITY INCOME FUND - Form N-CSR

Prior to September 14, 2007, Fiduciary Asset Management, LLC served as the Fund's sub-advisor. Effective September 14, 2007, the Board of Trustees, after careful consideration, appointed Chartwell Investment Partners, L.P. ("Chartwell") as sub-advisor pursuant to an interim investment sub-advisory agreement pending shareholder approval of a new investment sub-advisory agreement with Chartwell (See Additional Information - Submission of Matters to Vote of Shareholders and Sub-Advisory Agreements).

Chartwell serves as the Fund's Sub-Advisor and manages the Fund's portfolio subject to First Trust's supervision. The Sub-Advisor receives a portfolio management fee calculated at an annual rate of 0.50% of the Fund's Managed Assets that is paid monthly by First Trust out of its investment advisory fee.

PFPC Inc. ("PFPC"), an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Administrator and Transfer Agent in accordance with certain fee arrangements. PFPC Trust Company, also an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Custodian in accordance with certain fee arrangements.

Effective January 1, 2007, the Trustees approved a revised compensation plan. Under the revised plan, each Trustee who is not an officer or employee of First Trust, any sub-advisor or any of their affiliates ("Independent Trustees") is paid an annual retainer of \$10,000 per trust for the first 14 trusts of the First Trust Fund Complex and an annual retainer of \$7,500 per trust for each subsequent trust added to the First Trust Fund Complex. The annual retainer is allocated equally among each of the trusts. No additional meeting fees are paid in connection with board or committee meetings.

As of December 31, 2007, 19,973,164 of \$0.01 par value Common Shares were issued and outstanding. An unlimited number of Common Shares has been authorized under the Fund's Dividend Reinvestment Plan.

6. INDEMNIFICATION

The Fund has a variety of indemnification obligations under contracts with its service providers. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

7. CHANGES IN INVESTMENT STRATEGY AND CONCENTRATION POLICY

On December 10, 2007, the Board of Trustees approved a change in the Fund's investment strategy, effective on or about April 30, 2008, whereby the Fund intends to invest substantially all, but in no event less than 90%, of its Managed Assets in common stocks and other equity securities such as Real Estate Investment Trusts, Master Limited Partnerships and Investment Companies (including exchange-traded funds and business development companies).

On September 14, 2007, the Board of Trustees approved a change in the Fund's investment strategy, effective on or about November 19, 2007, whereby the Fund no longer is required to write (or sell) call options on at least 80% of its Managed Assets. Chartwell, the Fund's Sub-Advisor, thereafter writes (sells) call options as determined to be appropriate, consistent with the Fund's investment objective.

FIRST TRUST ENHANCED EQUITY INCOME FUND
(FORMERLY KNOWN AS FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND)
DECEMBER 31, 2007

Edgar Filing: FIRST TRUST ENHANCED EQUITY INCOME FUND - Form N-CSR

At a Special Meeting of Shareholders of the Fund held on January 8, 2008, shareholders approved a change in the Fund's fundamental investment policy to provide the Fund may not invest 25% or more of its total assets in securities of issuers in any single industry, provided there shall be no limitation on the purchase of obligations issued or guaranteed by the U.S. Government, its agencies or instrumentalities. The policy became effective on January 8, 2008

8. RISK CONSIDERATIONS

EQUITY SECURITIES RISK: The Fund invests in equity securities. An adverse event affecting an issuer, such as an unfavorable earnings report, may depress the value of a particular equity security held by the Fund. Also, the prices of equity securities are sensitive to general movements in the stock market and a drop in the stock market may depress the prices of equity securities to which the Fund has exposure. Equity securities prices fluctuate for several reasons, including changes in investors' perceptions of the financial condition of an issuer or the general condition of the relevant stock market, or when political or economic events affecting the issuers or their industries occur.

OPTION RISK: The Fund may write (sell) covered call options on all or a portion of the equity securities held in the Fund's portfolio as determined to be appropriate by the Fund's Sub-Advisor, consistent with the Fund's investment objective. The ability to successfully implement the Fund's investment strategy depends on the Sub-Advisor's ability to predict pertinent market movements, which can not be assured. Thus, the use of options may require the Fund to sell portfolio securities at inopportune times or for prices other than current market values, may limit the amount of appreciation the Fund can realize on an investment, or may cause the Fund to hold an equity security that it might otherwise sell. There can be no assurance that a liquid market for the options will exist when the Fund seeks to close out an option position. Additionally, to the extent that the Fund purchases options pursuant to a hedging strategy, the Fund will be subject to additional risks.

INDUSTRY RISK: The Fund may not invest 25% or more of its total assets in securities of issuers in any single industry. If the Fund is focused in an industry, it may present more risks than if it were broadly diversified over numerous industries of the economy. Individual industries may be subject to unique risks which may include, among others, governmental regulation, inflation, technological innovations that may render existing products and equipment obsolete, competition from new entrants, high research and development costs, and rising interest rates.

INCOME RISK: Net investment income paid by the Fund to its Common Shareholders is derived primarily from the premiums it receives from writing (selling) call options and, to a lesser extent, from the dividends and interest it receives from the equity securities and other investments held in the Fund's portfolio and short-term gains thereon. Premiums from writing (selling) call options and dividends and interest payments made by the securities in the Fund's portfolio can vary widely over time. Dividends on equity securities are not fixed but are declared at the discretion of an issuer's board of directors. There is no guarantee that the issuers of the equity securities in which the Fund invests will declare dividends in the future or that if declared they will remain at current levels or increase over time. The Fund cannot assure as to what percentage of the dividends paid on the Common Shares, if any, will consist of qualified dividend income or long-term capital gains, both of which are taxed at lower rates for individuals than are ordinary income and short-term capital gains.

NON-U.S. RISK: The Fund may invest a portion of its assets in the equity securities of issuers domiciled in jurisdictions other than the U.S. Investments in the securities and instruments of non-U.S. issuers involve certain

Edgar Filing: FIRST TRUST ENHANCED EQUITY INCOME FUND - Form N-CSR

considerations and risks not ordinarily associated with investments in securities and instruments of U.S. issuers. Non-U.S. companies are not generally subject to uniform accounting, auditing and financial standards and requirements comparable to those applicable to U.S. companies. Non-U.S. securities exchanges, brokers and listed companies may be subject to less government supervision and regulation than exists in the United States. Dividend and interest income may be subject to withholding and other non-U.S. taxes, which may adversely affect the net return on such investments. There may be difficulty in obtaining or enforcing a court judgment abroad.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF FIRST TRUST ENHANCED EQUITY INCOME FUND (FORMERLY KNOWN AS FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND)

We have audited the accompanying statement of assets and liabilities of First Trust Enhanced Equity Income Fund (formerly known as First Trust/Fiduciary Asset Management Covered Call Fund) (the "Fund"), including the portfolio of investments, as of December 31, 2007, the related statements of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended and the financial highlights for the periods presented. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2007, by correspondence with the Fund's custodian and broker; where replies were not received, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of December 31, 2007, the results of its operations, the changes in its net assets, and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect, by written notice to the Fund, to receive cash distributions, all dividends, including any capital gain distributions on your Common Shares will be automatically reinvested by PFPC Inc. (the "Plan Agent") in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc. as dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If Common Shares are trading at or above NAV at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) NAV per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If Common Shares are trading below NAV at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may elect to opt-out of or withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone at (800) 331-1710, in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all Common Shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information

Edgar Filing: FIRST TRUST ENHANCED EQUITY INCOME FUND - Form N-CSR

you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you. Consult your financial advisor for more information.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PFPC Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

SUB-ADVISORY AGREEMENTS

BOARD CONSIDERATIONS REGARDING APPROVAL OF SUB-ADVISORY CONTRACTS

The Board of Trustees of First Trust Enhanced Equity Income Fund (f/k/a First Trust/Fiduciary Asset Management Covered Call Fund) (the "Fund"), including a majority of the Independent Trustees, approved the Interim Sub-Advisory Agreement and the New Sub-Advisory Agreement (collectively, the "Agreements") among the Fund, First Trust Advisors L.P. (the "Advisor") and Chartwell Investment Partners, L.P. ("Chartwell") at special meetings held on September 14, 2007 and September 21, 2007, respectively. The Board determined that the terms of the Agreements are fair and reasonable and in the best interests of the Fund.

In April 2007, the Board was informed that Fiduciary Asset Management, LLC ("FAMCO"), which served as the Fund's sub-advisor, had entered into a definitive agreement with Piper Jaffray Companies ("Piper Jaffray") pursuant to which Piper Jaffray agreed to acquire FAMCO (the "Transaction"). The Board was also informed that, if the Transaction was consummated, the sub-advisory agreement between the

Edgar Filing: FIRST TRUST ENHANCED EQUITY INCOME FUND - Form N-CSR

Fund, the Advisor and FAMCO (the "FAMCO Sub-Advisory Agreement") would terminate pursuant to its terms and the requirements of the Investment Company Act of 1940, as amended (the "1940 Act"). In light of the potential termination of the FAMCO

Page 24

Sub-Advisory Agreement, the Board, over the course of several months, requested and evaluated all information it deemed reasonably necessary to evaluate the various alternatives the Fund could pursue if the Transaction were completed. As part of the review process, the Board met on several occasions with representatives of the Advisor to discuss the Transaction. The Independent Trustees also asked that written requests for information be sent on their behalf to FAMCO and Piper Jaffray. On June 11, 2007, the Board met with representatives of FAMCO and Piper Jaffray and received a presentation on the Transaction. The Board was able to ask questions about the possible effects of the Transaction on the services provided by FAMCO to the Fund. At the June 11th meeting, the Board also requested that the Advisor research and provide information on potential alternative sub-advisers for its July meeting. At the July 18, 2007 meeting, the Board met with representatives of Chartwell and received a presentation regarding Chartwell's investment style. Throughout the entire review process, the Independent Trustees were advised by their independent legal counsel.

As a result of the consummation of the Transaction and the termination of the FAMCO Sub-Advisory Agreement, the Board held a special meeting on September 14, 2007 to consider how to proceed. At this meeting, the Advisor recommended to the Board that Chartwell serve as the new sub-adviser for the Fund. Based on its consideration of all the information received prior to the closing of the Transaction, the Board appointed Chartwell as the interim sub-advisor to the Fund, pursuant to the Interim Sub-Advisory Agreement. At a special meeting on September 21, 2007, the Board approved the New Sub-Advisory Agreement and determined to recommend it to shareholders of the Fund for their approval. The Board noted that, at the request of the Independent Trustees, the Advisor and/or Chartwell had agreed to bear the costs associated with soliciting shareholder approval of the New Sub-Advisory Agreement.

To reach its determination, the Board considered its duties under the 1940 Act, as well as under the general principles of state law in reviewing and approving advisory contracts; the requirements of the 1940 Act in such matters; the fiduciary duty of investment advisers with respect to advisory agreements and compensation; the standards used by courts in determining whether investment company boards have fulfilled their duties; and the factors to be considered by the Board in voting on such agreements. To assist the Board in its evaluation of the Agreements, the Independent Trustees received a report from Chartwell responding to a request for information from the Advisor and counsel to the Independent Trustees. The report, among other things, outlined the services to be provided by Chartwell (including the relevant personnel responsible for these services and their experience); the sub-advisory fee for the Fund as compared to fees charged to other clients of Chartwell; the nature of expenses to be incurred in providing services to the Fund and the potential for economies of

Edgar Filing: FIRST TRUST ENHANCED EQUITY INCOME FUND - Form N-CSR

scale, if any; financial data on Chartwell; any fall out benefits to Chartwell; and information on Chartwell's compliance program. The Independent Trustees also met separately on a number of occasions with their independent legal counsel to discuss the information provided by Chartwell and the Advisor. The Board applied its business judgment to determine whether the arrangements between the Fund, the Advisor and Chartwell are reasonable business arrangements from the Fund's perspective as well as from the perspective of shareholders.

In reviewing the Agreements, the Board considered the nature, quality and extent of services to be provided by Chartwell under the Agreements. The Board noted the disciplined, team-oriented investment process of Chartwell and Chartwell's investment style. The Board considered, in particular, Chartwell's experience as advisor to another closed-end fund, the Chartwell Dividend and Income Fund. The Board considered the investment performance of the Fund under FAMCO, and also considered performance information for a carve-out of the equity and covered call component of the Chartwell Dividend and Income Fund. In light of the information presented and the considerations made, the Board concluded that the nature, quality and extent of services to be provided to the Fund by Chartwell under the Agreements are expected to be satisfactory.

The Board considered the sub-advisory fees to be paid under the Agreements, noting that they would be the same as the fees paid under the FAMCO Sub-Advisory Agreement. The Board considered the proposed sub-advisory fee and how it would relate to the overall management fee structure of the Fund, noting that the fees to be paid to Chartwell would be paid by the Advisor from its advisory fee. The Board also considered information provided by Chartwell as to the fees it charges to other clients, noting, in particular, that its advisory fee to the Chartwell Dividend and Income Fund was higher than the sub-advisory fee for the Fund. On the basis of all the information provided on the fees of the Fund, the Board concluded that the sub-advisory fees to be paid under the Agreements were reasonable and appropriate in light of the nature, quality and extent of services expected to be provided by Chartwell under the Agreements.

Page 25

ADDITIONAL INFORMATION - (CONTINUED)

FIRST TRUST ENHANCED EQUITY INCOME FUND
(FORMERLY KNOWN AS FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND)
DECEMBER 31, 2007 - (UNAUDITED)

The Board considered that the Fund's fee structure does not enable shareholders to benefit from any economies of scale achieved by Chartwell. The Board concluded that in light of the size of the Fund, the fees to be paid under the Agreements as well as under the investment management agreement with the Advisor reflect an appropriate sharing of any economies of scale. With respect to Chartwell's anticipated profitability under the Agreements, the Board noted that the sub-advisory fee rate was negotiated at arm's length between the Advisor and Chartwell, and that Chartwell would be paid by the Advisor. Based on the information provided, the Board concluded that the profitability of the Agreements to Chartwell was anticipated to be not unreasonable. The Board considered the fall-out benefits expected to be realized by Chartwell from its relationship with the Fund, including possible soft dollar arrangements.

Based on all of the information considered and the conclusions reached, the Board, including a majority of the Independent Trustees, determined that the terms of the Agreements are fair and reasonable and that the approval of the

Edgar Filing: FIRST TRUST ENHANCED EQUITY INCOME FUND - Form N-CSR

Agreements is in the best interests of the Fund. No single factor was determinative in the Board's analysis.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Proxy Voting Policies are attached herewith.

PURPOSE. Chartwell Investment Partners ("Chartwell") has adopted these Proxy Voting Policies and Procedures ("Policies") to seek to ensure that it exercises voting authority on behalf of Chartwell clients in a manner consistent with the best interests of each client and its agreement with the client.

SCOPE. These Policies apply where clients have delegated the authority and responsibility to Chartwell to decide how to vote proxies. Chartwell does not accept or retain authority to vote proxies in accordance with individual client guidelines. Clients that wish to arrange to vote proxies in accordance with their own guidelines may elect to do so at any time by notifying Chartwell. Chartwell generally will follow these Policies if asked to make recommendations about proxy voting to clients who request that advice but have not delegated proxy voting responsibility to Chartwell.

GUIDING PRINCIPLES. Chartwell believes that voting proxies in the best interests of each client means making a judgment as to what voting decision is most likely to maximize total return to the client as an investor in the securities being voted, and casting the vote accordingly. For this reason, Chartwell's evaluation of the possible impact of a proxy vote on the economic interests of company shareholders similarly situated to Chartwell's clients will be the primary factor governing Chartwell's proxy voting decisions.

Edgar Filing: FIRST TRUST ENHANCED EQUITY INCOME FUND - Form N-CSR

USE OF INDEPENDENT PROXY VOTING SERVICE. Chartwell has retained Institutional Shareholder Services, Inc., ("ISS") an independent proxy voting service, to assist it in analyzing specific proxy votes with respect to securities held by Chartwell clients and to handle the mechanical aspects of casting votes. Historically, Chartwell has placed substantial reliance on ISS' analyses and recommendations and generally gives instructions to ISS to vote proxies in accordance with ISS' recommendations, unless Chartwell reaches a different conclusion than ISS about how a particular matter should be voted. ISS proxy voting recommendations typically are made available to Chartwell about a week before the proxy must be voted, and are reviewed and monitored by members of the Proxy Voting Committee (and, in certain cases, by Chartwell portfolio managers), with a view to determining whether it is in the best interests of Chartwell's clients to vote proxies as recommended by ISS, or whether client proxies should be voted on a particular proposal in another manner.

ADMINISTRATION OF POLICIES. Chartwell has established a Proxy Voting Committee to oversee and administer the voting of proxies on behalf of clients, comprised of approximately five representatives of the firm's compliance and operations departments. The Committee's responsibilities include reviewing and updating these Policies as may be appropriate from time to time; identifying and resolving any material conflicts of interest on the part of Chartwell or its personnel that may affect particular proxy votes; evaluating and monitoring, on an ongoing basis, the analyses, recommendations and other services provided by ISS or another third party retained to assist Chartwell in carrying out its proxy voting responsibilities; when deemed appropriate by the Committee, consulting with Chartwell portfolio managers and investment professionals on particular proposals or categories of proposals presented for vote; and determining when and how client proxies should be voted other than in accordance with the general rules and criteria set forth in Chartwell's Proxy Voting Guidelines or with the recommendations of ISS or another independent proxy voting service retained by Chartwell. Chartwell maintains a copy of the AFL-CIO Key Votes Survey which is a list of proposals and meetings based on the AFL-CIO Proxy Voting Guidelines. This list includes the company, item number, proposal, recommendation and date of the meeting. Chartwell votes in accordance with these recommendations. In situations where ISS does not vote a proxy (as on behalf of LP's or LLC's), Chartwell generally votes with company management.

CONFLICTS OF INTEREST. It is Chartwell's policy not to exercise its authority to decide how to vote a proxy if there is a material conflict of interest between Chartwell's interests and the interests of the client that owns the shares to be voted that could affect the vote on that matter. To seek to identify any such material conflicts, a representative of the Proxy Voting Committee screens all proxies and presents any potential conflicts identified to the Committee for determination of whether the conflict exists and if so, whether it is material.

Conflicts of interest could result from a variety of circumstances, including, but not limited to, significant personal relationships between executive officers of an issuer and Chartwell personnel, a current or prospective investment adviser-client relationship between an issuer or a pension plan sponsored by an issuer and Chartwell, a significant ownership interest by Chartwell or its personnel in the issuer and various other business, personal or investment relationships. Generally, a current or prospective adviser-client relationship will not be considered material for these purposes if the net advisory revenues to Chartwell have not in the most recent fiscal year and are not expected in the current fiscal year to exceed 1/2 of 1 percent of Chartwell's annual advisory revenue.

In the event the Committee determines that there is a material conflict of interest that may affect a particular proxy vote, Chartwell will NOT make the decision how to vote the proxy in accordance with these Policies unless the Policies specify how votes shall be cast on that particular type of matter, i.e., "for" or "against" the proposal. Where the Policies provide that the

Edgar Filing: FIRST TRUST ENHANCED EQUITY INCOME FUND - Form N-CSR

voting decision will be made on a "case-by-case" basis, Chartwell will either request the client to make the voting decision, or the vote will be cast in accordance with the recommendations of ISS or another independent proxy voting service retained by Chartwell for that purpose. Chartwell also will not provide advice to clients on proxy votes without first disclosing any material conflicts to the client requesting such advice.

WHEN CHARTWELL DOES NOT VOTE PROXIES. Chartwell may not vote proxies respecting client securities in certain circumstances, including, but not limited to, situations where (a) the securities are no longer held in a client's account; (b) the proxy and other relevant materials are not received in sufficient time to allow analysis or an informed vote by the voting deadline; (c) Chartwell concludes that the cost of voting the proxy will exceed the expected potential benefit to the client; or (d) the securities have been loaned out pursuant to a client's securities lending program and are unavailable to vote.

POTENTIAL CONFLICTS OF INTERESTS

The portfolio manager and supporting team members manage other accounts for Chartwell including registered investment companies, institutional portfolios, and high net worth accounts using a similar investment style. The portfolio manager and supporting team members do not manage any hedge funds nor any accounts with performance-based fees.

When registered funds and other investment accounts are managed side-by-side, firm personnel must strictly follow the policies and procedures outlined in Chartwell's Compliance Manual and trade allocation policy to ensure that accounts are treated in a fair and equitable manner, and that no client or account is favored over another. When registered funds and investment accounts are trading under the same investment product, and thus trading the same securities, shares are allocated on a pro-rata basis based on market value, and all portfolios obtain the same average price.

Internal controls and compliance policies and procedures are in place to mitigate risk and to ensure that all portfolios that are managed under the same investment product are treated fairly, and traded in accordance with firm policy

(A) (3) COMPENSATION STRUCTURE OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS

The compensation paid to a Chartwell portfolio manager and analyst consists of base salary, annual bonus, ownership distribution, and an annual profit-sharing contribution to the firm's retirement plan.

A portfolio manager's and analyst's base salary is determined by Chartwell's Compensation Committee and is reviewed at least annually. A portfolio manager's and analyst's experience, historical performance, and role in firm or product team management are the primary considerations in determining the base salary. Industry benchmarking is utilized by the Compensation Committee on an annual basis.

Annual bonuses are determined by the Compensation Committee based on a number of factors. The primary factor is a discretionary performance-based compensation approach that is applied to all accounts managed by a portfolio manager within a particular investment product, and is not specific to any one account. The performance consideration is based on the gross composite performance of such accounts versus the appropriate benchmark and peer group rankings when applicable. Portfolio construction, sector and security weighting, and performance are reviewed by the Compliance Committee and Compensation Committee to prevent a manager from taking undue risks. Additional factors used to determine the annual bonus include the portfolio manager's contribution as an analyst, product team management, and contribution to the strategic planning and development of the investment group as well as the firm.

Ownership distributions are paid to a portfolio manager and analyst based on the portfolio manager's and analyst's ownership interest, or percentage limited partnership interest, in Chartwell multiplied by total net cash distributions paid during the year.
