ITEM 2. ACQUISITION OR DISPOSITION OF ASSETS.

On February 18, 2003, The Timken Company ("Timken") completed the acquisition of the Engineered Solutions business of Ingersoll-Rand Company Limited ("IR"). Under the terms of the definitive Stock and Asset Purchase Agreement, dated as of October 16, 2002, as amended as of February 18, 2003, by and between Timken, on behalf of itself and certain of its subsidiaries, and IR, on behalf of itself and certain of its subsidiaries (the "Purchase Agreement"), Timken acquired certain IR subsidiaries, including The Torrington Company, joint venture interests and other assets, including real property, manufacturing facilities and related machinery and equipment used in the Engineered Solutions business, effective as of February 16, 2003 (the "Transaction"). IR has historically used the assets sold in the Transaction in connection with the production of needle roller, heavy-duty roller and ball bearings and motion control components and assemblies. Timken continues to evaluate options concerning the use of these assets.

Pursuant to the Purchase Agreement, Timken paid IR cash consideration of \$700 million, which is subject to customary post-closing purchase price adjustments, and issued approximately \$140 million of Timken's common stock to Ingersoll-Rand Company, a subsidiary of IR. The cash consideration for the Transaction was financed, in addition to using cash on hand, through the incurrence of approximately \$86 million of debt under a new \$500 million five-year revolving credit facility, a \$125 million accounts receivable

The 9,395,973 shares Timken issued to IR represent approximately 11% of Timken's outstanding common stock after the public equity offering and the issuance of shares to IR.

The Transaction is described further in the press release, dated February 18, 2003, attached hereto as Exhibit 99.1.
