EX-99 Slide Presentation Given By The Company

Item 7.01 Regulation FD Disclosure

National Fuel Gas Company (the "Company") will be making presentations to financial analysts and/or Company shareholders on Wednesday, November 16, 2005 and Thursday, November 17, 2005. A copy of the slide presentation is hereby incorporated by reference into this Item 7.01 and furnished as part of this Current Report as Exhibit 99.

Neither the furnishing of the slide presentation as an exhibit to this Current Report nor the inclusion in such presentation of any reference to the Company's internet address shall, under any circumstances, be deemed to incorporate the information available at such internet address into this Current Report. The information available at the Company's internet address is not part of this Current Report or any other report filed or furnished by the Company with the Securities and Exchange Commission.

In addition to financial measures calculated in accordance with generally accepted accounting principles ("GAAP"), the slide presentation furnished as part of this Current Report as Exhibit 99 contains certain non-GAAP financial measures. The Company believes that such non-GAAP financial measures are useful to investors because they provide an alternative method for assessing the Company's operating results in a manner that is focused on the performance of the Company's ongoing operations. The Company's management uses these non-GAAP financial measures for the same purpose, and for planning and forecasting purposes. The presentation of non-GAAP financial measures is not meant to be considered a substitute for financial measures prepared in accordance with GAAP.

Certain statements contained herein or incorporated by reference from the slide presentation, including statements regarding earnings projections, statements designated with an asterisk (*) and statements identified by the use of the words anticipates, estimates, expects, intends, plans, predicts, projects, and similar expressions, are forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. There is no assurance that the Company's projections will in fact be achieved nor do these projections reflect any acquisitions or divestitures that may occur during fiscal 2006. While the Company's expectations, beliefs and projections are expressed in good faith and are believed to have a reasonable basis, actual results may differ materially from those in the forward-looking statement. Furthermore, each forward-looking statement speaks only as of the date on which it is made. In addition to other factors, the following are important factors that could cause actual results to differ materially from those discussed in the forward-looking statements: changes in economic conditions, including economic disruptions caused by terrorist activities or acts of war; changes in demographic patterns or weather conditions, including the occurrence of severe weather; changes from expectations with respect to the extent of damage caused by recent hurricanes or the amount of time necessary for repairs to be made to the Company's exploration and production facilities or those of third parties; disputes with insurance providers; increasing costs of insurance, changes in coverage and the ability to obtain insurance; changes in the availability and/or price of natural gas or oil and the effect of such changes on the accounting treatment or valuation of derivative financial instruments or the Company's natural gas and oil reserves; impairments under the Securities and Exchange Commission's full cost ceiling test for natural gas and oil reserves; changes in the availability and/or price of derivative financial

instruments; changes in the price differentials between various types of oil; failure of the price differential between heavy sour crude oil and light sweet crude oil to return to its historical norm; inability to obtain new customers or retain existing ones; significant changes in competitive factors affecting the Company; governmental/regulatory actions, initiatives and proceedings, including those involving acquisitions, financings, rate cases (which address, among other things, allowed rates of return, rate design and retained gas), affiliate relationships, industry structure, franchise renewal, and environmental/safety requirements; unanticipated impacts of restructuring initiatives in the natural gas and electric industries; significant changes from expectations in actual capital expenditures and operating expenses and unanticipated project delays or changes in project costs; the nature and projected profitability of pending and potential projects and other investments; occurrences affecting the Company's ability to obtain funds from operations, debt or equity to finance needed capital expenditures and other investments, including any downgrades in the Company's credit ratings; uncertainty of oil and gas reserve estimates; ability to successfully identify and finance acquisitions or other investments and ability to operate and integrate existing and any subsequently acquired business or properties; ability to successfully identify, drill for and produce economically viable natural gas and oil reserves; significant changes from expectations in the Company's actual production levels for natural gas or oil; regarding foreign operations, changes in trade and monetary policies, inflation and exchange rates, taxes, operating conditions, laws and regulations related to foreign operations, and political and governmental changes; significant changes in tax rates or policies or in rates of inflation or interest; significant changes in the Company's relationship with its employees or contractors and the potential adverse effects if labor disputes, grievances or shortages were to occur; changes in accounting principles or the application of such principles to the Company; changes in laws and regulations to which the Company is subject, including tax, environmental, safety and employment laws and regulations; the cost and effects of legal and administrative claims against the Company; changes in actuarial assumptions and the return on assets with respect to the Company's retirement plan and post-retirement benefits; or increasing health care costs and the resulting effect on health insurance premiums and on the obligation to provide post-retirement benefits. The Company disclaims any obligation to update any forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
