**Report of Independent Registered Public Accounting Firm**

The Deferred Salary Savings Plan Committee

The Board of Directors

Univest Corporation of Pennsylvania:

We have audited the accompanying statements of net assets available for benefits of the Univest Corporation of Pennsylvania Deferred Salary Savings Plan (the Plan) as of December 31, 2008 and 2007, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2008 and 2007, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Schedule H, Line 4i Schedule of Assets (Held at End of Year) as of December 31, 2008, is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's *Rules and Regulations for Reporting and Disclosure Under the Employee Retirement Income Security Act of 1974*. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**UNIVEST CORPORATION OF PENNSYLVANIA  
DEFERRED SALARY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2008 and 2007

**(1) Description of Plan**

The following brief description of the Univest Corporation of Pennsylvania Deferred Salary Savings Plan (the Plan) provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

**(a) General**

The Plan is a deferred salary savings plan established June 23, 1982 and restated effective January 1, 2008, covering all employees of Univest Corporation of Pennsylvania (the Corporation) and its wholly owned subsidiaries (Employer) who have attained the age of 18. Employees can enter the Plan on the first day of the month following the fulfillment of the eligibility requirements. However, with respect to matching contributions, qualified non-elective contributions and discretionary profit-sharing contributions, employees are eligible to receive these contributions in the Plan after they completed at least six months of service. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Deferred Salary Savings Plan Committee appointed by the board of directors of the Corporation. The trustees have appointed Univest National Bank and Trust Co. (the Bank), a wholly owned subsidiary of the Corporation, as investment manager of the Plan.

**(b) Contributions**

Participants may contribute a percentage of eligible compensation up to a maximum of \$15,500 if under age 50 and \$20,500 if over age 50.

The Employer makes a matching contribution of up to 50% of the participants' contributions under the plan provisions. Matching contributions are limited to the initial 6% of compensation a participant contributes. Additional amounts may be contributed at the election of the Corporation's board of directors. Participants may also contribute amounts representing distributions from other qualified plans (rollovers).

**(c) Investment Options**

Participants direct the investment of their contributions, matching contributions, qualified non-elective contributions and discretionary contributions into various investment options offered by the Plan. The Plan currently offers investments in the Employer's common stock, registered investment companies and guaranteed interest accounts.

**Table of Contents**

**UNIVEST CORPORATION OF PENNSYLVANIA  
DEFERRED SALARY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2008 and 2007

***(d) Participant Accounts***

Each participant's account is credited with the participant's contribution and an allocation of (a) the Employer's contribution, (b) plan earnings (losses), and (c) an allocation of forfeitures of terminated participants' nonvested accounts attributable to the Employer's discretionary contributions. Allocations are based on participant contributions or account balances, as defined in the Plan document.

***(e) Vesting***

Participants are considered fully vested at all times in their voluntary contributions, plus actual earnings (losses) thereon.

Vesting in the remainder of their accounts is based upon the number of years of continuous service. A participant is 50% vested at the end of two years of service, 75% vested at the end of three years of service, and fully vested at the end of four years of service.

***(f) Payment of Benefits***

The benefit to which a participant is entitled is that which can be provided from the participant's account. Benefits shall be paid in either a lump-sum payment or calculated periodic payments when payable, based upon the election of the participant. Generally, benefit payments must commence not later than the year in which a participant attains age 70<sup>1/2</sup>.

***(g) Plan Termination***

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

***(h) Forfeited Accounts***

At December 31, 2008 and 2007, forfeited nonvested accounts that were unallocated to participants totaled \$7,048 and \$6,215, respectively. These amounts will be used to reduce future Employer contributions. During 2008 and 2007, Employer contributions were reduced by \$10,477 and \$38,811, respectively.

**(2) Summary of Accounting Policies**

***(a) Basis of Accounting***

The accompanying financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

**Table of Contents**

**UNIVEST CORPORATION OF PENNSYLVANIA  
DEFERRED SALARY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2008 and 2007

**(b) Investment Valuation and Income Recognition**

Investments are stated at fair value. The underlying securities in each registered investment company are listed on national securities exchanges and valued on the basis of year-end closing prices; securities traded in the over-the-counter market are valued at the closing price on the last business day of the year; and guaranteed interest accounts are valued at cost plus accrued interest which approximates fair value. Gain or loss on securities sold is based on average cost. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

**(c) Use of Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**(d) Expenses**

The Corporation pays the costs of trust and other administrative services.

**(e) Payment of Benefits**

Benefits are recorded when paid.

**(3) Investments**

Investments that represent 5% or more of the fair value of the Plan's net assets as of December 31, 2008 and 2007 are as follows:

	2008	2007
John Hancock Lifestyle Growth Fund	\$ 2,078,060	\$ 2,956,138
John Hancock Lifestyle Balanced Fund	2,148,231	2,937,183
John Hancock Money Market Fund	1,228,163	
Federated Total Return Bond Fund	1,101,829	1,814,556
Univest Corporation of Pennsylvania common stock	5,682,352	3,732,248

**Table of Contents**

**UNIVEST CORPORATION OF PENNSYLVANIA**  
**DEFERRED SALARY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2008 and 2007

For the years ended December 31, 2008 and 2007, the Plan's investments, including investments purchased and sold, as well as held during the year appreciated (depreciated) in fair value as follows:

	<b>Net Appreciation (Depreciation) in</b>	
	<b>Fair Value of Investments</b>	
	<b>2008</b>	<b>2007</b>
Univest Corporation of Pennsylvania common stock	\$ 1,950,104	\$ (1,656,616)
Shares of registered investment companies	(5,479,348)	1,040,620
John Hancock guaranteed interest accounts	138	
	<b>\$ (3,529,106)</b>	<b>\$ (615,996)</b>

**(4) Fair Value Disclosure**

As of January 1, 2008, the Plan adopted the Financial Accounting Standards Board Statement of Financial Accounting Standards (SFAS) No. 157. The adoption of SFAS No. 157 did not have an effect on the net assets available for benefits or changes in net assets available for benefits. SFAS No. 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability.

SFAS 157 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's assumptions that the market participants would use in pricing the asset or liability based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1 Valuations are based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

Level 2 Valuations are based on quoted prices in markets that are not active or on observable inputs other than quoted prices and for which all significant inputs are observable, either directly or indirectly.

Level 3 Valuations are based on inputs that are unobservable and significant to the overall fair value measurement. Assets and liabilities utilizing Level 3 inputs include: financial instruments whose value is determined using pricing models, discounted cash-flow methodologies, or similar techniques, as well as instruments for which the fair value calculation requires significant management judgment or estimation.

**Table of Contents**

**UNIVEST CORPORATION OF PENNSYLVANIA  
DEFERRED SALARY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2008 and 2007

An asset's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. Where quoted prices are available in an active market for identical instruments, investment securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. In cases where there is limited activity or less transparency around inputs to the valuation, investment securities are classified within Level 3 of the valuation hierarchy.

Following is a description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Common stock is valued at the closing price reported on the active market on which the individual securities were traded.

The Federated Total Return Bond Fund is a registered investment company which is valued at the net asset value (NAV) on a market exchange as of the close of business at year end. Investments in other registered investment companies are held through an insurance company and are valued at each fund's NAV calculated as of the close of business and adjusted for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items.

Guaranteed Interest Accounts are valued at cost plus accrued interest. Interest rates range from 2.40% to 3.45%.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the end of the reporting date.

The following table presents the fair value of plan investments on a recurring basis as of December 31, 2008, classified using the SFAS 157 valuation hierarchy:

	<b>Fair Value Measurements at December 31, 2008</b>			
	<b>Total</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>
Investments:				
Cash money market account	\$ 8,223	\$ 8,223	\$	\$
Univest Corporation of Pennsylvania common stock	5,682,352	5,682,352		
Shares of registered investment companies	11,801,668		11,801,668	
Federated Total Return Bond Fund	1,101,829	1,101,829		
John Hancock guaranteed interest accounts	17,271			17,271
<b>Total investments</b>	<b>\$ 18,611,343</b>	<b>\$ 6,792,404</b>	<b>\$ 11,801,668</b>	<b>\$ 17,271</b>

**Table of Contents**

**UNIVEST CORPORATION OF PENNSYLVANIA  
DEFERRED SALARY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2008 and 2007

The Plan has \$11,801,668 of investments in shares of registered investment companies held through sub-accounts of a separate account of an insurance company. The Plan has concluded that the NAV as adjusted and reported by the insurance company approximates fair value of the investments. The investments are redeemable at the adjusted NAV under agreements with the insurance company. However, it is possible that the redemptions rights may be restricted or eliminated in the future. Due to the nature of the investments, changes in the market conditions, liquidity requirements, and the economic environment may significantly affect the NAV of the registered investment companies and, consequently, the fair value of the Plan's investments.

**(5) Related-Party Transactions**

At December 31, 2008 and 2007, the Plan had interest-bearing deposits with the Bank of \$8,223 and \$59,426 respectively. In addition, the Plan holds common stock of the Corporation. At December 31, 2008 and 2007, the Plan held 176,800 shares of the Corporation's common stock and the fair value of this common stock was \$5,682,352 and \$3,732,248, respectively.

The Bank, a subsidiary of the Corporation, is the custodian of the Plan's investments in the common stock of the Corporation and the Federated Total Return Bond Fund.

**(6) Income Tax Status**

The Plan has received a favorable determination letter from the Internal Revenue Service ( IRS ) dated September 3, 2002, stating that the Plan and related trust is qualified under Section 401(a) of the Internal Revenue Code (IRC); therefore, the related trust is exempt from taxation. Although the Plan has been amended and restated since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust is tax-exempt. Accordingly, no provision for income taxes is included in the accompanying financial statements.

In connection with the restatement of the Plan effective January 1, 2008, the Plan has filed an application with the IRS for a new determination letter with respect to the restated Plan.

**(7) Risks and Uncertainties**

The Plan has holdings in various investments including common stock of the Corporation, registered investment companies, and guaranteed accounts sponsored by an insurance company. These investments are exposed to various risks such as interest rate risk, market, and credit risk. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts recorded in the statement of net assets available for benefits.
