**First half 2009 Business Highlights:**

Going forward, the Company will continue to bring the best online games to Chinese and overseas players.

**Discussion of The9's Unaudited First and Second Quarter 2009 Results**

**Revenues**

For the first quarter of 2009, The9 reported total net revenues of RMB426.2 million (US\$62.4 million), which increased by 4% compared to RMB408.6 million (US\$59.8 million) in the fourth quarter of 2008 and decreased by 3% compared to RMB439.4 million (US\$64.3 million) in the first quarter of 2008. Despite the negative seasonality factors, the Company managed to deliver a quarter-over-quarter growth in the revenues through effective marketing campaigns and ground promotions.

In the first quarter of 2009, net revenues attributable to the operations of subscription-based game (refers to WoW), which included revenues from game playing time, merchandise and installation package sales, increased by 5% quarter-over-quarter and by 3% year-over-year to RMB403.1 million (US\$59.0 million). Net revenues attributable to the operations of item-sales based games decreased by 11% quarter-over-quarter and by 47% year-over-year to RMB20.9 million (US\$3.1 million) in the first quarter of 2009 mainly due to the lower than expected operating performance of Granado Espada which caused the decline in active paying users.

For the second quarter of 2009, The9 reported total net revenues were RMB287.9 million (US\$42.2 million), which decreased by 32% compared to RMB426.2 million (US\$62.4 million) in the first quarter of 2009 and by 37% compared to RMB455.1 million (US\$66.6 million) in the second quarter of 2008. The decrease was primarily due to decreased revenue from World of Warcraft, which expired on June 7, 2009.

In the second quarter of 2009, net revenues attributable to the operations of subscription-based game (refers to WoW), which included revenues from game playing time, merchandise and installation package sales, decreased by 33% quarter-over-quarter and by 35% year-over-year to RMB269.8 million (US\$39.5 million) in the second quarter of 2009. Net revenues attributable to the operations of item-sales based games decreased by 24% quarter-over-quarter and by 58% year-over-year to RMB15.9 million (US\$2.3 million) in the second quarter of 2009. The sequential decrease in such revenues was mainly due to the lower than expected operating performance of Granado Espada.

### **Gross Profit**

Gross profit for the first quarter of 2009 decreased by 57% quarter-over-quarter and by 65% year-over-year to RMB67.9 million (US\$9.9 million). The decrease is mainly due to write-off of prepaid royalties and withholding tax related to WoW due to the non-renewal of license amounting to RMB103.2 million (US\$15.1 million). Gross profit margin for the first quarter of 2009 was 16% compared to 39% of fourth quarter of 2008 and 44% of first quarter of 2008.

Gross profit for the second quarter of 2009 decreased by 5% quarter-over-quarter and by 67% year-over-year to RMB64.3 million (US\$9.4 million). The sequential decrease of gross profit was mainly due to the decrease in WoW revenue by RMB133.3 million (US\$19.5 million) since expiration of WoW license on June 7, 2009, which were offset partially by write-off of prepaid royalties and withholding tax related to WoW due to the non-renewal of license of RMB103.2 million (US\$15.1 million) in first quarter of 2009. The year-over-year decrease of gross profit was mainly due to the decrease in WoW revenue by RMB146.5 million (US\$21.4 million) and the additional accruals of RMB22.1 million (US\$3.2 million) settling costs for the refund of WoW point cards resulting from the rebate program announced in the second quarter of 2009. Gross profit margin for the second quarter of 2009 was 22%, increased from 16% for the previous quarter but decreased compared to 43% for the same period of last year.

### **Operating Expenses**

For the first quarter of 2009, operating expenses were RMB125.1 million (US\$18.3 million), representing a 56% decrease from RMB281.7 million (US\$41.2 million) in the previous quarter and a 33% increase from RMB94.0 million (US\$13.8 million) in the same period of last year. The sequential decrease was primarily the result of impairment provision of a receivable and prepayment and advance to suppliers; and impairments on the upfront license fees for certain games made in the fourth quarter of 2008, while there was no such impairments in the first quarter. The year-over-year increase was primarily due to increased headcount in research and development and increased marketing expenses on new games in the first quarter of 2009.

For the first quarter of 2009, share-based compensation was RMB15.7 million (US\$2.3 million), compared to RMB15.7 million (US\$2.3 million) in the fourth quarter of 2008 and RMB12.0 million (US\$1.8 million) in the first quarter of 2008.

For the second quarter of 2009, operating expenses were RMB152.5 million (US\$22.3 million), representing a 22% increase from RMB125.1 million (US\$18.3 million) in the previous quarter and a 52% increase from RMB100.3 million (US\$14.7 million) in the same period of last year. The increase in operating expenses was primarily due to increased product development expenses due to the expansion of our research and development team and the increased in general and administrative expenses primarily due to the impairment of goodwill of RMB30.2 million (US\$4.4 million) related to WoW in the second quarter.

For the second quarter of 2009, share-based compensation was RMB15.0 million (US\$2.2 million), compared to RMB15.7 million (US\$2.3 million) in the first quarter of 2009 and to RMB12.1 million (US\$1.8 million) in the second quarter of 2008.

### **Interest Income**

Interest income for the first quarter of 2009 was RMB9.0 million (US\$1.3 million), compared to RMB14.0 million (US\$2.0 million) in the fourth quarter of 2008 and RMB12.8 million (US\$1.9 million) in the first quarter of 2008. The decrease of interest income was primarily due to a reduction in bank interest rate.

Interest income for the second quarter of 2009 was RMB6.9 million (US\$1.0 million), compared to RMB9.0 million (US\$1.3 million) in the first quarter of 2009 and RMB14.5 million (US\$2.1 million) in the second quarter of 2008. The sequential decrease of interest income was primarily due to the decrease of cash balance, the year-over-year decrease of interest income was due to a reduction in bank interest rate and the decrease of cash balance.

### **Other (Expenses) Income, net**

Other expenses for the first quarter of 2009 was RMB0.4 million (US\$0.06 million), compared to other expenses of RMB1.1 million (US\$0.2 million) in the fourth quarter of 2008 and other expenses of RMB24.4 million (US\$3.6 million) in the first quarter of 2008. The sequential and year-over-year decrease of other expenses was primarily due to the decrease of foreign exchange loss.

Other income for the second quarter of 2009 was RMB0.1 million (US\$0.01 million), compared to other expenses of RMB0.4 million (US\$0.06 million) in the first quarter of 2009 and other expense of RMB4.7 million (US\$0.7 million) in the second quarter of 2008. Foreign exchange gain was recognized in the second quarter compared with the foreign exchange loss recorded in the first quarter of 2009 and second quarter of 2008.

### **Income Tax Expense**

Income tax expense for the first quarter of 2009 was RMB0.7 million (US\$0.1 million), compared to income tax expense of RMB24.1 million (US\$3.5 million) in the fourth quarter of 2008 and income tax expenses of RMB10.5 million (US\$1.5 million) in the first quarter of 2008. The sequential decrease was primarily because in the fourth quarter of 2008, a full valuation allowance was provided for deferred tax assets, which created a significant tax charge. The year-over-year decrease was consistent to the decrease in taxable income.

There was no income tax expense for the second quarter of 2009, compared to income tax expense of RMB0.7 million (US\$0.1 million) in the first quarter of 2009 and income tax expense of RMB7.0 million (US\$1.0 million) in the second quarter of 2008. As a result, the presentation of the Company s noncontrolling interest has changed in the income statement and balance sheet in accordance with FAS 160 and a portion of losses of the Company s VIE subsidiary are allocated to non-controlling interests, even when the non-controlling interests result in a deficit balance.
