**EXPLANATORY NOTE**

We are filing this Amendment No. 1 (the Amended Report ) to our Quarterly Report on Form 10-Q (the Original Report ) for the purpose of correcting certain financial information provided in the table to Note 15 Financial Information by Segment to the financial statements included in the Original Report. The corrections, which relate to the presentation of certain operating expenses on a segment-by-segment basis (namely, depreciation and amortization expense and restructuring charges), do not impact the consolidated financial statements or any other footnotes to these financial statements and are being made solely to ensure consistency with segment information reported in subsequent periods. The remaining Items of our Original Report are not amended hereby and are repeated herein only for the reader s convenience.

In order to preserve the nature and character of the disclosures set forth in the Original Report, except as expressly noted herein, this report speaks as of the date of the filing of the Original Report, August 6, 2010, and we have not updated the disclosures in this report to speak as of a later date. All information contained in this Amended Report is subject to updating and supplementing as provided in our reports filed with the Securities and Exchange Commission subsequent to the date of the Original Report.

**ALERE INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
(unaudited)

**(1) Basis of Presentation of Financial Information**

The accompanying consolidated financial statements of Alere Inc., formerly known as Inverness Medical Innovations, Inc., are unaudited. In the opinion of management, the unaudited consolidated financial statements contain all adjustments considered normal and recurring and necessary for their fair presentation. Interim results are not necessarily indicative of results to be expected for the year. These interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, these consolidated financial statements do not include all of the information and footnotes necessary for a complete presentation of financial position, results of operations and cash flows. Our audited consolidated financial statements for the year ended December 31, 2009 included information and footnotes necessary for such presentation and were included in our Annual Report on Form 10-K, as amended, filed with the Securities and Exchange Commission, or SEC, on April 16, 2010. These unaudited consolidated financial statements should be read in conjunction with our audited consolidated financial statements and notes thereto for the year ended December 31, 2009.

Certain reclassifications of prior period amounts have been made to conform to current period presentation. These reclassifications had no effect on net income or equity.

**(2) Cash and Cash Equivalents**

We consider all highly-liquid cash investments with original maturities of three months or less at the date of acquisition to be cash equivalents. At June 30, 2010, our cash equivalents consisted of money market funds.

**(3) Inventories**

Inventories are stated at the lower of cost (first in, first out) or market and are comprised of the following (in thousands):

	<b>June 30, 2010</b>	<b>December 31, 2009</b>
Raw materials	\$ 76,100	\$ 62,397
Work-in-process	52,308	56,338
Finished goods	115,404	102,804
	<b>\$ 243,812</b>	<b>\$ 221,539</b>

**(4) Stock-based Compensation**

We recorded stock-based compensation expense in our consolidated statements of operations of \$8.1 million (\$6.2 million, net of tax), \$15.7 million (\$12.3 million, net of tax), \$6.6 million (\$5.3 million, net of tax) and \$12.5 million (\$10.1 million, net of tax) for the three and six months ended June 30, 2010 and 2009, respectively, as follows (in thousands):

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>

	<b>\$ 8,114</b>	<b>\$ 6,606</b>	<b>\$ 15,684</b>	<b>\$ 12,485</b>

We report excess tax benefits from the exercise of stock options as financing cash flows. For the three and six months ended June 30, 2010 there was \$0.9 million and \$1.2 million, respectively, of excess tax benefits generated from option exercises. For the three and six months ended June 30, 2009 there was \$2.1 million of excess tax benefits generated from option exercises.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
(unaudited)

Our stock option plans provide for grants of options to employees and others to purchase common stock at the fair market value of such shares on the grant date of the award. The options generally vest over a four-year period, beginning on the date of grant, with a graded vesting schedule of 25% at the end of each of the four years. We generally use a Black-Scholes option-pricing model to calculate the grant-date fair value of options. The fair value of the stock options granted during the three and six months ended June 30, 2010 and 2009 was calculated using the following weighted-average assumptions:

	<b>Three Months Ended June</b>		<b>Six Months Ended June</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>

**(6) Redeemable Non-controlling Interest**

We entered into a put arrangement as part of a shareholder agreement with respect to the common securities that represent the 21.25% non-controlling interest of a certain minority shareholder in Standard Diagnostics, Inc., or Standard Diagnostics. This put arrangement is exercisable at KRW 40,000 per share by the counterparty upon the occurrence of certain events which are outside of our control. As a result, this non-controlling interest is classified as mezzanine equity on our accompanying consolidated balance sheet as of June 30, 2010. The redeemable non-controlling interest was recorded at its fair value of KRW 57.9 billion, or \$49.2 million, as of the consummation of the transaction on February 8, 2010. The fair value of the redeemable non-controlling interest was determined using both a market approach and an income approach which utilizes a discounted cash flow model including assumptions of projected revenue, expenses, capital expenditures, other costs and a discount rate appropriate for the risk of

achieving the projected cash flows. The redeemable put arrangement has an estimated redemption price of KRW 65.4 billion, or \$53.7 million as of June 30, 2010. The redeemable non-controlling interest will be accreted to the redemption price, through equity, at the point at which the redemption becomes probable. In addition, if the put is exercised, we will incur a penalty in the amount of KRW 63.0 billion, or approximately \$51.7 million at June 30, 2010, which will be accounted for as compensation expense at the time of the exercise.

**(7) Preferred Stock**

As of June 30, 2010, we had 5.0 million shares of preferred stock, \$0.001 par value, authorized, of which 2.3 million shares were designated as Series B Convertible Perpetual Preferred Stock, or Series B preferred stock. In

(unaudited)

connection with our acquisition of Matria Healthcare Inc., or Matria, we issued shares of the Series B preferred stock and have paid dividends to date in shares of Series B preferred stock. At June 30, 2010, there were 2.0 million shares of Series B preferred stock outstanding with a fair value of approximately \$401.6 million.

Each share of Series B preferred stock, which has a liquidation preference of \$400.00 per share, is convertible, at the option of the holder and only upon certain circumstances, into 5.7703 shares of our common stock, plus cash in lieu of fractional shares. The initial conversion price is \$69.32 per share, subject to adjustment upon the occurrence of certain events, but will not be adjusted for accumulated and unpaid dividends. Upon a conversion of shares of the Series B preferred stock, we may, at our option, satisfy the entire conversion obligation in cash or through a combination of cash and common stock. Series B preferred stock outstanding at June 30, 2010 would convert into 11.8 million shares of our common stock which are reserved. There were no conversions as of June 30, 2010.

Generally, the shares of Series B preferred stock are convertible, at the option of the holder, if during any calendar quarter beginning with the second calendar quarter after the issuance date of the Series B preferred stock, if the closing sale price of our common stock for each of 20 or more trading days within any period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter exceeds 130% of the conversion price per share of common stock in effect on the last trading day of the immediately preceding calendar quarter. In addition, the shares of Series B preferred stock are convertible, at the option of the holder, in certain other circumstances, including those relating to the trading price of the Series B preferred stock and upon the occurrence of certain fundamental changes or major corporate transactions. We also have the right, under certain circumstances relating to the trading price of our common stock, to force conversion of the Series B preferred stock. Depending on the timing of any such forced conversion, we may have to make certain payments relating to foregone dividends, which payments we can make, at our option, in the form of cash, shares of our common stock, or a combination of cash and shares of our common stock.

Each share of Series B preferred stock accrues dividends at \$12.00, or 3%, per annum, payable quarterly on January 15, April 15, July 15 and October 15 of each year, commencing following the first full calendar quarter after the issuance date. Dividends on the Series B preferred stock are cumulative from the date of issuance. Accrued dividends are payable only if declared by our board of directors and, upon conversion by the Series B preferred stockholder, the holder will not receive any cash payment representing accumulated dividends. If our board of directors declares a dividend payable, we have the right to pay the dividends in cash, shares of common stock, additional shares of Series B preferred stock or a similar convertible preferred stock or any combination thereof.

Quarterly dividends paid in shares of common stock or Series B preferred stock are in an amount per share of such stock equal to the quotient of (a) \$3.00 divided by (b) 97% of the average of the volume-weighted average price per share of either our common stock or the Series B preferred stock, as the case may be, on the New York Stock Exchange for each of the five consecutive trading days ending on the second trading day immediately prior to the record date of the dividend.

For the three and six months ended June 30, 2010, Series B preferred stock dividends amounted to \$6.0 million and \$11.8 million, respectively, which reduced earnings available to common stockholders for purposes of calculating net (loss) income per common share for the three and six months ended June 30, 2010 (Note 5). For the three and six months ended June 30, 2009, Series B preferred stock dividends amounted to \$5.7 million and \$11.2 million, respectively, which reduced earnings available to common stockholders for purposes of calculating net (loss) income per common share for the three and six months ended June 30, 2009 (Note 5). As of July 15, 2010, payments have been made in shares of Series B preferred stock covering all dividend periods through June 30, 2010. As of June 30, 2010, 2.0 million shares of Series B preferred stock are issued and outstanding.

The holders of Series B preferred stock have liquidation preferences over the holders of our common stock and other classes of stock, if any, outstanding at the time of liquidation. Upon liquidation, the holders of outstanding Series B preferred stock would receive an amount equal to \$400.00 per share of Series B preferred stock, plus any accumulated and unpaid dividends. As of June 30, 2010, the liquidation preference of the outstanding Series B

preferred stock was \$814.7 million. The holders of the Series B preferred stock generally have no voting rights, except with respect to matters affecting the Series B preferred stock (including the creation of a senior preferred

stock) or in the event that dividends payable on the Series B preferred stock are in arrears for six or more quarterly periods, whether or not consecutive.

We evaluated the terms and provisions of our Series B preferred stock to determine if it qualified for derivative accounting treatment. Based upon our evaluation, these securities do not qualify for derivative accounting.

**(8) Comprehensive Income (Loss)**

In general, comprehensive income (loss) combines net income (loss) and other changes in equity during the year from non-owner sources. Our accumulated other comprehensive loss, which is a component of stockholders' equity, includes foreign currency translation adjustments, gains (losses) on available-for-sale securities and interest rate swap adjustments. For the three and six months ended June 30, 2010, we generated a comprehensive loss of \$32.1 million and \$35.9 million, respectively, and for the three and six months ended June 30, 2009, we generated comprehensive income of \$53.5 million and \$21.8 million, respectively.

#### **(9) Business Combinations**

On January 1, 2009, we adopted a new accounting standard issued by the Financial Accounting Standards Board, or FASB, related to accounting for business combinations using the acquisition method of accounting (previously referred to as the purchase method). Acquisitions consummated prior to January 1, 2009 were accounted for in accordance with the previously applicable guidance. In accordance with the new accounting standard, we expensed \$2.0 million and \$5.9 million of acquisition-related costs during the three and six months ended June 30, 2010, respectively, primarily in general and administrative expense. We expensed \$1.7 million and \$6.4 million of acquisition-related costs during the three and six months ended June 30, 2009, respectively, in general and administrative expense. Included in the \$6.4 million of expense during the six months ended June 30, 2009, was \$3.8 million of costs associated with acquisition-related activity for transactions not consummated prior to January 1, 2009.

Our business acquisitions have historically been made at prices above the fair value of the acquired net assets, resulting in goodwill, based on our expectations of synergies of combining the businesses. These synergies include elimination of redundant facilities, functions and staffing; use of our existing commercial infrastructure to expand sales of the acquired businesses products; and use of the commercial infrastructure of the acquired businesses to cost-effectively expand product sales.

Allocation of the purchase price for acquisitions is based on estimates of the fair value of the net assets acquired and, for acquisitions completed within the past year, is subject to adjustment upon finalization of the purchase price allocation. We are not aware of any information that indicates the final purchase price allocations will differ materially from the preliminary estimates. Determination of the estimated useful lives of the individual categories of intangible assets was based on the nature of the applicable intangible asset and the expected future cash flows to be derived from the intangible asset. Amortization of intangible assets with definite lives is recognized over the shorter of the respective lives of the agreement or the period of time the assets are expected to contribute to future cash flows. We amortize our finite-lived intangible assets on patterns in which the economic benefits are expected to be realized.

##### *(a) Acquisitions in 2010*

###### *(i) Acquisition of a privately-owned research and development operation*

On March 11, 2010, we acquired a privately-owned research and development operation. The preliminary aggregate purchase price was \$70.6 million, which consisted of an initial cash payment totaling \$35.0 million and a contingent consideration obligation of up to \$125.0 million with an acquisition date fair value of \$35.6 million.

We determined the acquisition date fair value of the contingent consideration obligation based on a probability-weighted approach derived from earn-out criteria estimates and the overall likelihood of achieving the targets before the corresponding delivery dates. The fair value measurement is based on significant inputs not observable in the market and thus represents a Level 3 measurement, as defined in fair value measurement accounting. The resultant

probability-weighted milestone payments were originally discounted using a discount rate of 6%. At each reporting date, we revalue the contingent consideration obligation to the reporting date fair value and record increases and decreases in the fair value as income or expense within general and administrative expense in our consolidated statements of operations. Increases or decreases in the fair value of the contingent consideration obligations may result from changes in discount periods and rates, changes in the timing and amount of revenue estimates and changes in probability assumptions with respect to the likelihood of achieving the various earn-out criteria. We recorded expense of approximately \$1.3 million and \$1.4 million in our consolidated statement of operations during the three and six months ended June 30, 2010, respectively, as a net result of a decrease in the discount period and fluctuations in the discount rate since the acquisition date. As of June 30, 2010, the fair value of the contingent consideration obligation was approximately \$37.0 million.

Included in our consolidated statements of operations for both the three and six months ended June 30, 2010 is revenue totaling approximately \$0.1 million related to this acquired operation. The operating results of this acquired operation are included in our professional diagnostics reporting unit and business segment.

(ii) Acquisition of the ATS business

On February 17, 2010, we acquired Kroll Laboratory Specialists, Inc., headquartered in Gretna, Louisiana, which provides forensic quality substance abuse testing products and services across the United States. The preliminary aggregate purchase price was \$109.5 million, which was paid in cash.

Included in our consolidated statements of operations for the three and six months ended June 30, 2010 is revenue totaling approximately \$9.5 million and \$14.3 million, respectively, related to the acquired business, which we have subsequently renamed Alere Toxicology Services, or ATS. The operating results of ATS are included in our professional diagnostics reporting unit and business segment.

(iii) Acquisition of Standard Diagnostics

On February 8, 2010, we acquired a 61.92% ownership interest in Standard Diagnostics via a tender offer for approximately \$162.1 million. On March 22, 2010, we acquired an incremental 13.37% ownership interest in Standard Diagnostics via a follow-on tender offer for approximately \$36.2 million. In June 2010, we acquired an incremental 2.84% ownership interest for approximately \$7.3 million, bringing our aggregate ownership interest in Standard Diagnostics to approximately 78.13% as of June 30, 2010. Standard Diagnostics specializes in the medical diagnostics industry. Its main product lines relate to diagnostic reagents and devices for hepatitis, infectious diseases, tumor markers, fertility, drugs of abuse, urine strips and protein strips. The preliminary aggregate purchase price was \$205.6 million in cash.

Included in our consolidated statements of operations for the three and six months ended June 30, 2010 is revenue totaling approximately \$20.7 million and \$32.0 million, respectively, related to Standard Diagnostics. (iv) Other acquisitions in 2010

During the first six months of 2010, we acquired the following businesses for a preliminary aggregate purchase price of \$40.2 million, which consisted of initial cash payments totaling \$38.7 million, a contingent consideration obligation with an acquisition date fair value of \$0.8 million and deferred purchase price consideration with an acquisition date present value of \$0.7 million.

RMD Networks, Inc., or RMD, located in Denver, Colorado, a provider of clinical groupware software and services designed to improve communication and coordination of care among providers, patients, and payers in the healthcare environment (Acquired January 2010)

certain assets of Streck, Inc., or Streck, located in Nebraska, a manufacturer of hematology, chemistry and immunology products for the clinical laboratory (Acquired January 2010)

assets of the diagnostics division of Micropharm Ltd., or Micropharm, located in Wales, United Kingdom, an expert in high quality antibody production in sheep for both diagnostic and therapeutic purposes, providing antisera on a contract basis for U.K. and overseas companies and academic institutions, mainly for research, therapeutic and diagnostic uses (Acquired March 2010)

Quantum Diagnostics Group Limited, or Quantum, headquartered in Essex, England, an independent provider of drug testing products and services to healthcare professionals across the U.K. and Europe (Acquired April 2010)

assets of the workplace health division of Good Health Solutions Pty Ltd., or GHS, located in East Sydney, Australia, an important player in the Australian health and wellness market, focusing on health screenings, health related consulting services, health coaching, and fitness instruction (Acquired April 2010)

certain assets of Unotech Diagnostics, Inc., or Unotech, located in California, a privately-owned company engaged in the development, formulation, manufacture, packaging, supply and distribution of our BladderCheck NMP22 lateral flow test and related lateral flow products (Acquired June 2010)

Scipac Holdings Limited, or Scipac, headquartered in Kent, England, a diagnostic reagent company with an extensive product portfolio supplying purified human antigens, recombinant proteins and disease state plasma to a global customer base (Acquired June 2010)

The operating results of Streck, Micropharm, Quantum, Unotech and Scipac are included in our professional diagnostics reporting unit and business segment. The operating results of RMD and GHS are included in our health management reporting unit and business segment. Our consolidated statements of operations for the three and six months ended June 30, 2010 included revenue totaling approximately \$2.8 million and \$2.9 million, respectively, related to these businesses.

*(b) Acquisitions in 2009*

During the year ended December 31, 2009, we acquired the following businesses for a preliminary aggregate purchase price of \$655.1 million (\$651.1 million present value at June 30, 2010), which consisted of \$425.2 million in cash; 3,430,435 shares of our common stock with an aggregate fair value of \$117.5 million; \$2.9 million of fair value associated with employee stock options exchanged as part of the transactions; deferred purchase price consideration payable in cash and common stock with an aggregate fair value of \$57.9 million; notes payable totaling \$7.8 million; warrants with a fair value of \$0.1 million and contingent consideration obligations with an acquisition date fair value of \$39.8 million. In addition, we assumed and immediately repaid debt totaling approximately \$45.1 million.

We determined the acquisition date fair value of the contingent consideration obligations based on a probability-weighted approach derived from earn-out criteria estimates and a probability assessment with respect to the likelihood of achieving the various earn-out criteria. The fair value measurements are based on significant inputs not observable in the market and thus represents a Level 3 measurement as defined in fair value measurement accounting. The resultant probability-weighted cash flows were then initially discounted using discount rates ranging from 6% to 18%. At each reporting date, we revalue the contingent consideration obligations at fair value and record increases and decreases in the fair values as income or expense within general and administrative expense in our consolidated statement of operations. Increases or decreases in the fair value of the contingent consideration obligations may result from changes in discount periods and rates, changes in the timing and amount of financial estimates and changes in probability assumptions with respect to the likelihood of achieving the various earn-out criteria. We recorded income of approximately \$5.1 million and \$8.3 million in our consolidated statements of operations during the three and six months ended June 30, 2010, respectively, as a result of a decrease in the discount period, changes in the discount rates since the various acquisition dates and changes in estimates and probability assumptions with respect to the various earn-out criteria. As of June 30, 2010, the fair value of the contingent

consideration obligations was approximately \$33.3 million, of which \$19.2 million is payable in shares of our common stock, unless certain 2010 financial targets are exceeded, in which case \$11.8 million may be settled in cash at the election of the sellers.

*(c) Restructuring Plans of Acquisitions*

In connection with several of our acquisitions consummated during 2008 and prior, we initiated integration plans to consolidate and restructure certain functions and operations, including the costs associated with the termination of certain personnel of these acquired entities and the closure of certain of the acquired entities' leased facilities. These

costs have been recognized as liabilities assumed in connection with the acquisition of these entities and are subject to potential adjustments as certain exit activities are refined. The following table summarizes the liabilities established for exit activities related to these acquisitions (in thousands):

	<b>Severance Related</b>	<b>Facility And Other</b>	<b>Total Exit Activities</b>
Balance, December 31, 2009	\$ 5,369	\$ 7,001	\$ 12,370

Balance, June 30, 2010	\$ 1,090	\$ 4,929	\$ 6,019

In connection with our acquisition of Matria, we implemented an integration plan to improve operating efficiencies and eliminate redundant costs resulting from the acquisition. The restructuring plan impacted all cost centers within the Matria organization, as activities were combined with our existing business operations. We recorded \$18.7 million in exit costs, of which \$13.8 million relates to change of control and severance costs to

involuntarily terminate employees and \$4.8 million related to facility exit costs. During the first quarter of 2010, we determined that \$1.5 million in change of control costs would not be incurred, therefore reducing the assumed liability and goodwill related to the Matria acquisition. As of June 30, 2010, \$2.1 million in exit costs remain unpaid. See Note 10 for additional restructuring charges related to the Matria facility exit costs within the health management business segment.

During 2007, we formulated restructuring plans in connection with our acquisition of Cholestech Corporation, or Cholestech, consistent with our acquisition strategy to realize operating efficiencies and cost savings. Additionally, in March 2008, we announced plans to close the Cholestech facility in Hayward, California. We have transitioned the manufacturing of the related products to our facility in San Diego, California and have transitioned the sales and distribution of the products to our shared services center in Orlando, Florida. Since inception of the plans, we recorded \$9.2 million in exit costs, of which \$6.5 million relates to executive change of control agreements and severance costs to involuntarily terminate employees and \$2.7 million relates to facility exit costs. As of June 30, 2010, \$3.0 million in exit costs remain unpaid. See Note 10 for additional restructuring charges related to the Cholestech facility closure and integration.

As a result of our acquisitions of Panbio Limited, or Panbio, Matritech, Inc. and Ostex International, Inc., we established plans to exit facilities and realize efficiencies and cost savings. Total costs associated with these plans were \$6.5 million, of which \$1.8 million related to severance costs and \$4.7 million related to facility and exit costs. As of June 30, 2010, \$0.9 million in facility costs remain unpaid.

Although we believe our plans and estimated exit costs for our acquisitions are reasonable, actual spending for exit activities may differ from current estimated exit costs.

*(d) Pro Forma Financial Information*

The following table presents selected unaudited financial information of our company, including the assets of the ACON Second Territory Business and Standard Diagnostics as if the acquisition of these entities had occurred on January 1, 2009. Pro forma results exclude adjustments for various other less significant acquisitions completed since January 1, 2009, as these acquisitions did not materially affect our results of operations. The less significant 2009 and 2010 acquisitions contributed \$77.5 million and \$150.6 million of net revenue during the three and six months ended June 30, 2010, respectively, and \$8.7 million during the three and six months ended June 30, 2009.

The pro forma results are derived from the historical financial results of the acquired businesses for the periods presented and are not necessarily indicative of the results that would have occurred had the acquisitions been consummated on January 1, 2009 (in thousands, except per share amounts).

*(a) 2010 Restructuring Plans*

In the first quarter of 2010, management developed additional plans to reduce costs and improve efficiencies in our health management business segment. As a result of these plans, we recorded \$0.7 million and \$6.2 million in charges during the three and six months ended June 30, 2010, respectively. The charges for the three-month period included \$0.6 million in severance costs and \$0.1 million in costs associated with facility exit costs. The charges for the six-month period included \$3.8 million in severance costs, \$2.3 million in costs associated with facility exit costs and \$0.1 million in present value accretion on facility exit costs, which was included in interest expense. As of June 30, 2010, \$3.9 million in costs remains unpaid. We anticipate incurring additional restructuring costs associated with the present value accretion on facility exit costs under these plans.

During the second quarter of 2010, management developed several plans to reduce costs and improve efficiencies in our professional diagnostics business segment. As a result of these plans, we recorded \$2.0 million in charges during the three and six months ended June 30, 2010, primarily related to severance costs. As of June 30, 2010, \$1.8 million of these costs remains unpaid. We anticipate incurring additional severance and facility exit costs of \$1.0 million under these plans.

*(b) 2009 Restructuring Plans*

In 2009, management developed plans to reduce costs and improve efficiencies in our health management business segment, as well as reduce costs and consolidate operating activities among several of our professional diagnostics related German subsidiaries. As a result of these plans, we recorded \$0.3 million in severance-related restructuring charges during the six months ended June 30, 2010. We have incurred \$3.5 million since the inception of the plans, including \$2.8 million in severance costs, \$0.5 million in contract cancellation costs and \$0.1 million in present value accretion on facility exit costs and \$0.1 million in fixed asset impairment costs. Of the \$3.4 million included in operating income, \$2.3 million and \$1.1 million was included in our health management and professional diagnostics business segments, respectively. We also recorded \$0.1 million in present value accretion related to facility exit costs to interest expense during 2009. As of June 30, 2010, \$0.2 million in exit costs remain unpaid. We expect to incur an additional \$0.3 million in severance and facility exit costs under these plans during 2010, which will be included primarily in our professional diagnostics business segment.

*(c) 2008 Restructuring Plans*

In May 2008, we decided to close our facility located in Bedford, England and initiated steps to cease operations at this facility and transition the manufacturing operations principally to our manufacturing facilities in Shanghai and Hangzhou, China. Based upon this decision, during the three and six months ended June 30, 2010, we recorded \$2.2 million and \$2.8 million in restructuring charges, respectively. Included in the charges for the three-month period were \$1.5 million related to transition costs, \$0.3 million in severance costs, \$0.3 million related to fixed asset and

inventory write-offs and \$0.1 million related to the acceleration of facility restoration costs. Of the charges recorded for the six-month period, \$0.1 million related to severance-related costs, \$2.1 million related to transition costs, \$0.4 million related to fixed asset and inventory write-offs and \$0.2 million related to the acceleration of facility restoration costs. During the three and six months ended June 30, 2009, we recorded \$1.7 million and \$2.3 million in restructuring charges, respectively. Included in the charges for the three-month period were \$0.9 million related primarily to severance-related costs, \$0.5 million related to fixed asset impairments, \$0.2 million related to transition costs and \$0.1 million related to the acceleration of facility restoration costs. Of the charges recorded for the six-month period, \$1.4 million

(unaudited)

related primarily to severance-related costs, \$0.5 million relates to fixed asset impairments, \$0.2 million related to transition costs and \$0.2 million related to the acceleration of facility restoration costs. Of the \$2.1 million and \$2.6 million included in operating income for the three and six months ended June 30, 2010, respectively, all was charged to our professional diagnostics business segment. Of the \$1.6 million included in operating income for the three months ended June 30, 2009, \$0.2 million and \$1.4 million were charged to our consumer diagnostics and professional diagnostics business segments, respectively. Of the \$2.1 million included in operating income for the six months ended June 30, 2009, \$0.2 million and \$1.9 million were charged to our consumer diagnostics and professional diagnostics business segments, respectively. We also recorded \$0.1 million and \$0.2 million during both the three and six months ended June 30, 2010 and 2009, respectively, related to the accelerated present value accretion of our lease restoration costs due to the early termination of our facility lease, to interest expense.

In addition to the restructuring charges discussed above, \$1.3 million and \$2.9 million of charges associated with the Bedford facility closure was borne by our 50/50 joint venture with P&G, or SPD, during the three and six months ended June 30, 2010, respectively, and \$3.7 million and \$5.8 million was borne by SPD during the three and six months ended June 30, 2009, respectively. The charges for the three months ended June 30, 2010 included \$0.3 million in severance and retention costs, \$0.6 million in transition costs and \$0.4 million in inventory write-offs. The charges for the six months ended June 30, 2010 included \$1.3 million in severance and retention costs and \$1.6 million in transition costs. Of the total restructuring charges, 50%, or \$0.7 million and \$1.5 million, has been included in equity earnings of unconsolidated entities, net of tax, in our consolidated statements of operations for the three and six months ended June 30, 2010, respectively. Included in the \$3.7 million of charges recorded by SPD for the three months ended June 30, 2009 were \$3.4 million in severance and retention costs, \$0.3 million of fixed asset impairments, a reduction of \$0.1 million in transition costs and \$0.1 million in acceleration of facility exit costs. Included in the \$5.8 million of charges recorded by SPD for the six months ended June 30, 2009 were \$5.2 million in severance and retention costs, \$0.4 million of fixed asset impairments, \$0.1 million in transition costs and \$0.1 million in acceleration of facility exit costs. Of these restructuring charges, \$1.8 million and \$2.9 million have been included in equity earnings of unconsolidated entities, net of tax, in our consolidated statements of operations for the three and six months ended June 30, 2009, respectively. Of the total exit costs incurred jointly with SPD under this plan, including severance-related costs, lease penalties and restoration costs, \$10.9 million remains unpaid as of June 30, 2010.

Since inception of the plan, we have recorded \$20.9 million in restructuring charges, including \$7.5 million related to the acceleration of facility restoration costs, \$5.9 million of fixed asset and inventory impairments, \$4.0 million in severance costs, \$0.7 million in early termination lease penalties, \$3.4 million in transition costs and \$0.6 million related to a pension plan curtailment gain associated with the Bedford employees being terminated. SPD has been allocated \$27.8 million in restructuring charges since the inception of the plan, including \$9.6 million of fixed asset and inventory impairments, \$11.2 million in severance and retention costs, \$2.9 million in early termination lease penalties, \$3.8 million in facility exit costs and \$0.3 million related to the acceleration of facility exit costs. We anticipate incurring additional costs of approximately \$4.8 million related to the closure of this facility, including, but not limited to, severance and retention costs, rent obligations, transition costs and incremental interest expense associated with our lease obligations which will terminate at the end of 2011. Of these additional anticipated costs, approximately \$1.2 million will be borne by us and included primarily in our professional diagnostics business segment. Additionally, approximately \$3.6 million will be borne by SPD. We expect the majority of these costs to be incurred by the end of 2010.

Additionally, in 2008, we formulated business transition plans related to the closure of our Cholestech, HemoSense, Inc. and Panbio facilities. In connection with these plans, we incurred \$1.6 million and \$2.3 million in restructuring charges related to our professional diagnostics business segment during the three and six months ended June 30, 2010, respectively. Included in the charges for the three-month period were \$0.9 million in facility closure and transition costs and \$0.7 million in fixed asset and inventory write-offs. Of the charges incurred in the six-month

period, \$0.3 million relates to severance and retention costs, \$1.3 million in facility closure and transition costs and \$0.7 million in fixed asset and inventory write-offs. During the three and six months ended June 30, 2009, we incurred \$0.9 million and \$4.0 million in restructuring charges, respectively. Of the charges incurred in the three-month period, \$0.4 million relates

(unaudited)

to severance and retention costs, \$0.4 million relates to transition costs and \$0.1 million relates to present value accretion of facility lease costs. Of the charges incurred in the six-month period, \$1.9 million relates to fixed asset impairments, \$1.2 million relates to severance and retention costs, \$0.6 million in transition costs, \$0.2 million in inventory write-offs and \$0.1 million in present value accretion of facility lease costs. During the three and six months ended June 30, 2009, respectively, \$0.8 million and \$3.9 million in charges were included in operating income of our professional diagnostics business segment. We charged \$0.1 million, related to the present value accretion of facility lease costs, to interest expense for the three and six months ended June 30, 2009. Since inception of the plans, we have incurred \$14.3 million in restructuring charges, of which \$4.6 million relates to severance and retention costs, \$3.4 million in fixed asset impairments, \$4.5 million in transition costs, \$1.4 million in inventory write-offs and \$0.4 million in present value accretion of facility lease costs related to these plans. Of the \$9.5 million in severance and exit costs, \$0.8 million remains unpaid as of June 30, 2010.

We anticipate incurring an additional \$0.5 million in restructuring charges under our Cholestech plan, primarily related to facility exit costs, along with costs to transition the Cholestech operations to our facility in San Diego which will be included in our professional diagnostics business segment. See Note 9(c) for further information and costs related to these plans.

*(a) 7.875% Senior Notes*

During the third quarter of 2009, we sold a total of \$250.0 million aggregate principal amount of 7.875% senior notes due 2016, or the 7.875% senior notes, in two separate transactions. On August 11, 2009, we sold \$150.0 million aggregate principal amount of 7.875% senior notes in a public offering. Net proceeds from this offering amounted to approximately \$145.0 million, which was net of underwriters' commissions totaling \$2.2 million and original issue discount totaling \$2.8 million. The net proceeds were used to fund our acquisition of Concateno. At June 30, 2010, we had \$147.5 million in indebtedness under this issuance of our 7.875% senior notes.

On September 28, 2009, we sold \$100.0 million aggregate principal amount of 7.875% senior notes in a private placement to initial purchasers, who agreed to resell the notes only to qualified institutional buyers. Net proceeds from this offering amounted to approximately \$95.0 million, which was net of the initial purchasers' original issue discount totaling \$3.5 million and offering expenses totaling approximately \$1.5 million. The net proceeds were used to partially fund our acquisition of Free & Clear. At June 30, 2010, we had \$96.8 million in indebtedness under this

issuance of our 7.875% senior notes.

The 7.875% senior notes were issued under an indenture dated August 11, 2009, as amended or supplemented, the August 2009 Indenture. The 7.875% senior notes accrue interest from the dates of their respective issuances at the rate of 7.875% per year. Interest on the notes is payable semi-annually on February 1 and August 1, commencing on February 1, 2010. The notes mature on February 1, 2016, unless earlier redeemed.

**ALERE INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
(unaudited)

We may redeem the 7.875% senior notes, in whole or part, at any time on or after February 1, 2013, by paying the principal amount of the notes being redeemed plus a declining premium, plus accrued and unpaid interest to, but excluding, the redemption date. The premium declines from 3.938% during the twelve months on and after February 1, 2013 to 1.969% during the twelve months on and after February 1, 2014 to zero on and after February 1, 2015. At any time prior to August 1, 2012, we may redeem up to 35% of the aggregate principal amount of the 7.875% senior notes with money that we raise in certain equity offerings so long as (i) we pay 107.875% of the principal amount of the notes being redeemed, plus accrued and unpaid interest to (but excluding) the redemption date; (ii) we redeem the notes within 90 days of completing such equity offering; and (iii) at least 65% of the aggregate principal amount of the 7.875% senior notes remains outstanding afterwards. In addition, at any time prior to February 1, 2013, we may redeem some or all of the 7.875% senior notes by paying the principal amount of the notes being redeemed plus the payment of a make-whole premium, plus accrued and unpaid interest to, but excluding, the redemption date.

If a change of control occurs, subject to specified conditions, we must give holders of the 7.875% senior notes an opportunity to sell their notes to us at a purchase price of 101% of the principal amount of the notes, plus accrued and unpaid interest to, but excluding, the date of the purchase.

If we or our subsidiaries engage in asset sales, we or they generally must either invest the net cash proceeds from such sales in our or their businesses within a specified period of time, prepay certain indebtedness or make an offer to purchase a principal amount of the 7.875% senior notes equal to the excess net cash proceeds, subject to certain exceptions. The purchase price of the notes will be 100% of their principal amount, plus accrued and unpaid interest.

The 7.875% senior notes are unsecured and are equal in right of payment to all of our existing and future senior debt, including our borrowing under our secured credit facilities. Our obligations under the 7.875% senior notes and the August 2009 Indenture are fully and unconditionally guaranteed, jointly and severally, on an unsecured senior basis by certain of our domestic subsidiaries, and the obligations of such domestic subsidiaries under their guarantees are equal in right of payment to all of their existing and future senior debt. See Note 21 for guarantor financial information.

The August 2009 Indenture contains covenants that will limit our ability and the ability of our subsidiaries to, among other things, incur additional debt; pay dividends on capital stock or redeem, repurchase or retire capital stock or subordinated debt; make certain investments; create liens on assets; transfer or sell assets; engage in transactions with affiliates; create restrictions on our or their ability to pay dividends or make loans, asset transfers or other payments to us or them; issue capital stock; engage in any business, other than our or their existing businesses and related businesses; enter into sale and leaseback transactions; incur layered indebtedness; and consolidate, merge or transfer all or substantially all of our or their assets, taken as a whole. These covenants are subject to certain exceptions and qualifications.

Interest expense related to our 7.875% senior notes for the three and six months ended June 30, 2010, including amortization of deferred financing costs and original issue discounts, was \$5.4 million and \$10.6 million, respectively. As of June 30, 2010, accrued interest related to the 7.875% senior notes amounted to \$8.2 million.

*(b) 9% Senior Subordinated Notes*

On May 12, 2009, we completed the sale of \$400.0 million aggregate principal amount of 9% senior subordinated notes due 2016, or the 9% subordinated notes, in a public offering. Net proceeds from this offering amounted to \$379.5 million, which was net of underwriters' commissions totaling \$8.0 million and original issue discount totaling \$12.5 million. The net proceeds are intended to be used for general corporate purposes. At June 30, 2010, we had \$389.0 million in indebtedness under our 9% subordinated notes.

The 9% subordinated notes, which were issued under an indenture dated May 12, 2009, as amended or supplemented, the May 2009 Indenture, accrue interest from the date of their issuance, or May 12, 2009, at the rate of 9% per year. Interest on the notes is payable semi-annually on May 15 and November 15, commencing on November 15, 2009. The notes mature on May 15, 2016, unless earlier redeemed.

(unaudited)

We may redeem the 9% subordinated notes, in whole or part, at any time on or after May 15, 2013, by paying the principal amount of the notes being redeemed plus a declining premium, plus accrued and unpaid interest to, but excluding, the redemption date. The premium declines from 4.50% during the twelve months after May 15, 2013 to 2.25% during the twelve months after May 15, 2014 to zero on and after May 15, 2015. At any time prior to May 15, 2012, we may redeem up to 35% of the aggregate principal amount of the 9% subordinated notes with money that we raise in certain equity offerings so long as (i) we pay 109% of the principal amount of the notes being redeemed, plus accrued and unpaid interest to (but excluding) the redemption date; (ii) we redeem the notes within 90 days of completing such equity offering; and (iii) at least 65% of the aggregate principal amount of the 9% subordinated notes remains outstanding afterwards. In addition, at any time prior to May 15, 2013, we may redeem some or all of the 9% subordinated notes by paying the principal amount of the notes being redeemed plus the payment of a make-whole premium, plus accrued and unpaid interest to, but excluding, the redemption date.

If a change of control occurs, subject to specified conditions, we must give holders of the 9% subordinated notes an opportunity to sell their notes to us at a purchase price of 101% of the principal amount of the notes, plus accrued and unpaid interest to, but excluding, the date of the purchase.

If we or our subsidiaries engage in asset sales, we or they generally must either invest the net cash proceeds from such sales in our or their businesses within a specified period of time, prepay senior debt or make an offer to purchase a principal amount of the 9% subordinated notes equal to the excess net cash proceeds, subject to certain exceptions. The purchase price of the notes will be 100% of their principal amount, plus accrued and unpaid interest.

The 9% subordinated notes are unsecured and are subordinated in right of payment to all of our existing and future senior debt, including our borrowing under our secured credit facilities. Our obligations under the 9% subordinated notes and the May 2009 Indenture are fully and unconditionally guaranteed, jointly and severally, on an unsecured senior subordinated basis by certain of our domestic subsidiaries, and the obligations of such domestic subsidiaries under their guarantees are subordinated in right of payment to all of their existing and future senior debt. See Note 21 for guarantor financial information.

The May 2009 Indenture contains covenants that will limit our ability and the ability of our subsidiaries to, among other things, incur additional debt; pay dividends on capital stock or redeem, repurchase or retire capital stock or subordinated debt; make certain investments; create liens on assets; transfer or sell assets; engage in transactions with affiliates; create restrictions on our or their ability to pay dividends or make loans, asset transfers or other payments to us or them; issue capital stock; engage in any business, other than our or their existing businesses and related businesses; enter into sale and leaseback transactions; incur layered indebtedness; and consolidate, merge or transfer all or substantially all of our or their assets, taken as a whole. These covenants are subject to certain exceptions and qualifications.

Interest expense related to our 9% subordinated notes for the three and six months ended June 30, 2010, including amortization of deferred financing costs and original issue discounts, was \$9.8 million and \$19.5 million, respectively. Interest expense related to our 9% subordinated notes for the three and six months ended June 30, 2009, including amortization of deferred financing costs and original issue discounts, was \$5.2 million. As of June 30, 2010, accrued interest related to the senior subordinated notes amounted to \$5.1 million.

*(c) Secured Credit Facilities*

As of June 30, 2010, we had approximately \$946.1 million in aggregate principal amount of indebtedness outstanding under our First Lien Credit Agreement and \$250.0 million in aggregate principal amount of indebtedness outstanding under our Second Lien Credit Agreement (collectively with the First Lien Credit Agreement, the secured credit facilities). Included in the secured credit facilities is a revolving line of credit of \$150.0 million, of which \$142.0 million was outstanding as of June 30, 2010. Under the terms of the secured credit facilities, substantially all of the assets of our U.S. subsidiaries are pledged as collateral. With respect to shares or ownership interests of foreign subsidiaries owned by U.S. entities, we have pledged 66% of such assets.

Interest on our First Lien indebtedness, as defined in the credit agreement, is as follows: (i) in the case of Base Rate Loans, at a rate per annum equal to the sum of the Base Rate and the Applicable Margin, each as in effect from

time to time, (ii) in the case of Eurodollar Rate Loans, at a rate per annum equal to the sum of the Eurodollar Rate and the Applicable Margin, each as in effect for the applicable Interest Period, and (iii) in the case of other Obligations, at a rate per annum equal to the sum of the Base Rate and the Applicable Margin for Revolving Loans that are Base Rate Loans, each as in effect from time to time. The Base Rate is a floating rate which approximates the U.S. Prime rate and changes on a periodic basis. The Eurodollar Rate is equal to the LIBOR rate and is set for a period of one to three months at our election. Applicable margin with respect to Base Rate Loans is 1.00% and with respect to Eurodollar Rate Loans is 2.00%. Applicable margin ranges for our revolving line of credit with respect to Base Rate Loans is 0.75% to 1.25% and with respect to Eurodollar Rate Loans is 1.75% to 2.25%.

The outstanding indebtedness under the Second Lien Credit Agreement are term loans in the aggregate amount of \$250.0 million. Interest on these term loans, as defined in the credit agreement, is as follows: (i) in the case of Base Rate Loans, at a rate per annum equal to the sum of the Base Rate and the Applicable Margin, each as in effect from time to time, (ii) in the case of Eurodollar Rate Loans, at a rate per annum equal to the sum of the Eurodollar Rate and the Applicable Margin, each as in effect for the applicable Interest Period, and (iii) in the case of other Obligations, at a rate per annum equal to the sum of the Base Rate and the Applicable Margin for Base Rate Loans, as in effect from time to time. Applicable margin with respect to Base Rate Loans is 3.25% and with respect to Eurodollar Rate Loans is 4.25%.

For the three and six months ended June 30, 2010, interest expense, including amortization of deferred financing costs, under the secured credit facilities was \$15.8 million and \$31.5 million, respectively. For the three and six months ended June 30, 2009, interest expense, including amortization of deferred financing costs, under the secured credit facilities was \$15.9 million and \$31.8 million, respectively. As of June 30, 2010, accrued interest related to the secured credit facilities amounted to \$0.9 million. As of June 30, 2010, we were in compliance with all debt covenants related to the secured credit facility, which consisted principally of maximum consolidated leverage and minimum interest coverage requirements.

In August 2007, we entered into interest rate swap contracts, with an effective date of September 28, 2007, that have a total notional value of \$350.0 million and a maturity date of September 28, 2010. These interest rate swap contracts pay us variable interest at the three-month LIBOR rate, and we pay the counterparties a fixed rate of 4.85%. In March 2009, we extended our August 2007 interest rate hedge for an additional two-year period commencing in September 2010 at a one-month LIBOR rate of 2.54%. These interest rate swap contracts were entered into to convert \$350.0 million of the \$1.2 billion variable rate term loans under the secured credit facilities into fixed rate debt.

In January 2009, we entered into interest rate swap contracts, with an effective date of January 14, 2009, that have a total notional value of \$500.0 million and a maturity date of January 5, 2011. These interest rate swap contracts pay us variable interest at the one-month LIBOR rate, and we pay the counterparties a fixed rate of 1.195%. These interest rate swap contracts were entered into to convert \$500.0 million of the \$1.2 billion variable rate term loans under the secured credit facilities into fixed rate debt.

*(d) 3% Senior Subordinated Convertible Notes*

In May 2007, we sold \$150.0 million aggregate principal amount of 3% senior subordinated convertible notes, or senior subordinated convertible notes. At June 30, 2010, we had \$150.0 million in indebtedness under our senior subordinated convertible notes. The senior subordinated convertible notes are convertible into 3.4 million shares of our common stock at a conversion price of \$43.98 per share.

Interest expense related to our senior subordinated convertible notes for the three and six months ended June 30, 2010, including amortization of deferred financing costs, was \$1.2 million and \$2.5 million, respectively. Interest expense related to our senior subordinated convertible notes for the three and six months ended June 30, 2009, including amortization of deferred financing costs, was \$1.2 million and \$2.5 million, respectively. As of June 30, 2010, accrued interest related to the senior subordinated convertible notes amounted to \$0.6 million.

**(12) Derivative Financial Instruments**

We use derivative financial instruments (interest rate swap contracts) in the management of our interest rate exposure related to our secured credit facilities. We do not hold or issue derivative financial instruments for speculative purposes.

The following tables summarize the fair value of our derivative instruments and the effect of derivative instruments on/in our accompanying consolidated balance sheets and consolidated statements of operations and in accumulated other comprehensive loss (in thousands):

**(13) Fair Value Measurements**

We apply fair value measurement accounting to value our financial assets and liabilities. Fair value measurement accounting provides a framework for measuring fair value under U.S. GAAP and requires expanded disclosures regarding fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. A fair value hierarchy requires an entity to maximize the use of observable inputs, where available, and minimize the use of unobservable inputs when measuring fair value.

Described below are the three levels of inputs that may be used to measure fair value:

- Level 1      Quoted prices in active markets for identical assets or liabilities. Our Level 1 assets and liabilities include investments in marketable securities related to a deferred compensation plan assumed in a business combination. The liabilities associated with this plan relate to deferred compensation, which is indexed to the performance of the underlying investments.
  
- Level 2      Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Our Level 2 liabilities include interest rate swap contracts.
  
- Level 3      Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. The fair value of the contingent consideration obligations related to our acquisitions completed after January 1, 2009 are valued using Level 3 inputs.

The following tables present information about our assets and liabilities that are measured at fair value on a recurring basis as of June 30, 2010 and December 31, 2009, and indicates the fair value hierarchy of the valuation techniques we utilized to determine such fair value (in thousands):

Total liabilities	\$ 59,123	\$	\$ 15,945	\$ 43,178

<sup>(1)</sup> The fair value of our interest rate swaps is based on the application of standard discounted cash flow models using market interest rate data. As of

June 30, 2010, \$1,917 was included in accrued expenses and other current liabilities and \$14,756 was included in other long-term liabilities on our accompanying consolidated balance sheet. As of December 31, 2009, \$15,945 was included in other long-term liabilities on our accompanying consolidated balance sheet.

- (2) The fair value measurement of the contingent consideration obligations related to the acquisitions completed after January 1, 2009, are valued using Level 3 inputs. We determine the fair value of the contingent consideration obligations based on a probability-weighted approach derived from earn-out criteria estimates and a probability assessment with respect to the likelihood of achieving the various earn-out criteria. The measurement is based upon significant inputs not observable in the market. Changes in the value of these contingent

consideration obligations are recorded as income or expense, a component of operating income in our consolidated statement of operations. See Note 9 for additional information on the valuation of our contingent consideration obligations.

Changes in the fair value of our Level 3 contingent consideration obligations during the six months ended June 30, 2010 were as follows (in thousands):

Fair value of contingent consideration obligations, January 1, 2010	\$ 43,178
Acquisition date fair value of contingent consideration obligations recorded	35,043
Payments	
Adjustments, net (income) expense	(6,897)
Fair value of contingent consideration obligations, June 30, 2010	\$ 71,324

At June 30, 2010 and December 31, 2009, the carrying amounts of cash and cash equivalents, restricted cash, marketable securities, receivables, accounts payable and other current liabilities approximated their estimated fair values because of the short maturity of these financial instruments.

The carrying amount and the estimated fair value of our long-term debt were \$2.1 billion and \$2.0 billion, respectively, at June 30, 2010. The carrying amount and the estimated fair value of our long-term debt were \$2.1 billion each at December 31, 2009. The estimated fair value of our long-term debt was determined using market

**(15) Financial Information by Segment**

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. Our chief operating decision-making group is composed of the chief executive officer and members of senior management. Our reportable operating segments are Professional Diagnostics, Health Management, Consumer Diagnostics and Corporate and Other. Our operating results include license and royalty revenue which is allocated to Professional Diagnostics and Consumer Diagnostics on the basis of the original license or royalty agreement.

On January 15, 2010, we completed the sale of our vitamins and nutritional supplements business (Note 20). The sale included our entire private label and branded nutritional businesses and represents the complete divestiture of our entire vitamins and nutritional supplements business segment. The results of the vitamins and nutritional supplements business, which represents our entire vitamins and nutritional supplements business segment, are included in income (loss) from discontinued operations, net of tax, for all periods presented. The net assets and net liabilities associated with the vitamins and nutritional supplements business were reclassified to assets held for sale and liabilities related to assets held for sale within current assets and current liabilities, respectively, and were presented in Corporate and Other as of December 31, 2009.

We evaluate performance of our operating segments based on revenue and operating income (loss). Segment information for the three and six months ended June 30, 2010 and 2009 is as follows (in thousands):

**(16) Related Party Transactions**

In May 2007, we completed the formation of SPD, our 50/50 joint venture with P&G, for the development, manufacturing, marketing and sale of existing and to-be-developed consumer diagnostic products, outside the cardiology, diabetes and oral care fields. Upon completion of the arrangement to form SPD, we ceased to consolidate the operating results of our consumer diagnostic products business related to SPD and instead account for our 50% interest in the results of SPD under the equity method of accounting.

We had a net payable to SPD of \$1.8 million and \$0.5 million as of June 30, 2010 and December 31, 2009, respectively. Additionally, customer receivables associated with revenue earned after SPD was completed have been classified as other receivables within prepaid and other current assets on our accompanying consolidated balance sheets in the amount of \$5.7 million and \$12.3 million as of June 30, 2010 and December 31, 2009, respectively. In connection with the joint venture arrangement, SPD bears the collection risk associated with these receivables. Sales to SPD under our manufacturing agreement totaled \$16.7 million and \$34.7 million during the three and six months ended June 30, 2010, respectively, and \$24.0 million and \$49.3 million during the three and six months ended June 30, 2009, respectively. Additionally, services revenue generated pursuant to the long-term services agreement with SPD totaled \$0.2 million and \$0.5 million during the three and six months ended June 30, 2010, respectively, and \$0.5 million and \$0.9 million during the three and six months ended June 30, 2009, respectively. Sales under our manufacturing agreement and long-term services agreement are included in net product sales and services revenue, respectively, in our accompanying consolidated statements of operations.

Under the terms of our product supply agreement, SPD purchases products from our manufacturing facilities in the U.K. and China. SPD in turn sells a portion of those tests back to us for final assembly and packaging. Once packaged, the tests are sold to P&G for distribution to third-party customers in North America. As a result of these related transactions, we have recorded \$8.8 million and \$14.5 million of trade receivables which are included in accounts receivable on our accompanying consolidated balance sheets as of June 30, 2010 and December 31, 2009, respectively, and \$14.9 million and \$23.2 million of trade accounts payable which are included in accounts payable on our accompanying consolidated balance sheets as of June 30, 2010 and December 31, 2009, respectively. During the six months ended June 30, 2010, we received \$8.8 million in cash from SPD as a return of capital.

**(17) Material Contingencies and Legal Settlements***(a) Legal Proceedings*

Our material pending legal proceedings are described in Part I, Item 3, Legal Proceedings of our Annual Report on Form 10-K, as amended, for the year ended December 31, 2009, or the Form 10-K. We entered into a settlement related to the two intellectual property litigation matters relating to our health management businesses described in the Form 10-K and, on May 17, 2010, orders of dismissal were entered by the relevant Courts. During the six months ended June 30, 2010, we recognized a net gain of approximately \$5.3 million associated with this settlement in other income in our consolidated statements of operations.

*(b) Contingent Consideration Obligations*

Effective January 1, 2009, we adopted changes issued by the FASB to accounting for business combinations. These changes apply to all assets acquired and liabilities assumed in a business combination that arise from certain contingencies and require: (i) an acquirer to recognize at fair value, at the acquisition date, an asset acquired or liability assumed in a business combination that arises from a contingency if the acquisition-date fair value of that asset or liability can be determined during the measurement period; otherwise the asset or liability should be recognized at the acquisition date if certain defined criteria are met and (ii) contingent consideration arrangements of an acquiree assumed by the acquirer in a business combination be recognized initially at fair value. The adoption of this guidance was done on a prospective basis. For acquisitions completed prior to January 1, 2009, contingent consideration will be accounted for as an increase in the aggregate purchase price, if and when the contingencies occur.

We have contractual contingent consideration terms related to our acquisitions of Accordant, Ameditech Inc., or Ameditech, Binax, Inc., or Binax, Free & Clear, JSM, Mologic, Tapestry, a privately-owned research and development operation acquired in March 2010, Vision Biotech Pty Ltd, or Vision, a privately-owned health management business acquired in 2008, and certain other small businesses.

*(i) Acquisitions Completed Prior to January 1, 2009**Ameditech*

With respect to Ameditech, the terms of the acquisition agreement require us to pay an earn-out upon successfully meeting certain revenue targets for the one-year period ending on the first anniversary of the acquisition date and the one-year period ending on the second anniversary of the acquisition date. As of June 30, 2010, the remaining contingent consideration to be earned is approximately \$4.0 million. Contingent consideration is accounted for as an increase in the aggregate purchase price, if and when the contingency occurs.

*Binax*

With respect to Binax, the terms of the acquisition agreement provide for \$11.0 million of contingent cash consideration payable to the Binax shareholders upon the successful completion of certain new product developments during the five years following the acquisition. The final milestone totaling approximately \$3.7 million was earned and accrued during the second quarter of 2010. The achievement of this milestone was accounted for as an increase in the aggregate purchase price during the second quarter of 2010.

*Privately-owned health management business*

With respect to a privately-owned health management business which we acquired in 2008, the terms of the acquisition agreement provide for contingent consideration payable upon successfully meeting certain revenue and EBITDA targets. The remaining contingent consideration to be earned will be payable upon meeting certain EBITDA targets for the year ending December 31, 2010. Contingent consideration is accounted for as an increase in the aggregate purchase price, if and when the contingency occurs.

*Vision*

With respect to Vision, the terms of the acquisition agreement provide for incremental consideration payable to the former Vision shareholders upon the completion of certain product development milestones and successfully maintaining certain production levels and product costs during each of the two years following the acquisition date, which was September 4, 2008. As of June 30, 2010, the remaining contingent consideration to be earned is approximately \$1.2 million. Contingent consideration is accounted for as an increase in the aggregate purchase price, if and when the contingency occurs.

**Accordant**

With respect to Accordant, the terms of the acquisition agreement require us to pay an earn-out upon successfully meeting certain revenue and cash collection targets starting after the second anniversary of the acquisition date and completed prior to the third anniversary date of the acquisition. The maximum amount of the earn-out payment is \$6.0 million and, if earned, payment will be made during 2012 and 2013.

We determined the acquisition date fair value of the contingent consideration obligation based on a probability-weighted income approach derived from revenue and cash collection estimates and a probability assessment with respect to the likelihood of achieving the various earn-out criteria. The fair value measurement is based on significant inputs not observable in the market and thus represents a Level 3 measurement as defined in fair value measurement accounting. The resultant probability-weighted cash flows were originally discounted using a discount rate of 18%. At each reporting date, we revalue the contingent consideration obligation to the reporting date fair value and record increases and decreases in the fair value as income or expense in our consolidated statements of operations. Increases or decreases in the fair value of the contingent consideration obligation may result from changes in discount periods and rates, changes in the timing and amount of revenue and cash collection estimates and changes in probability assumptions with respect to the likelihood of achieving the various earn-out criteria. We recorded expense of approximately \$0.2 million and \$0.3 million within general and administrative expense in our consolidated statements of operations during the three and six months ended June 30, 2010, respectively, as a net result of a decrease in the discount period and fluctuations in the discount rate since the acquisition date. As of June 30, 2010, the fair value of the contingent consideration obligation was approximately \$3.6 million.

**Free & Clear**

With respect to Free & Clear, the terms of the acquisition agreement require us to pay an earn-out upon successfully meeting certain revenue and EBITDA targets during fiscal year 2010. The maximum amount of the earn-out payment is \$30.0 million and, if earned, payment will be made in 2011.

We determined the acquisition date fair value of the contingent consideration obligation based on a probability-weighted income approach derived from 2010 revenue and EBITDA estimates and a probability assessment with respect to the likelihood of achieving the various earn-out criteria. The fair value measurement is based on significant inputs not observable in the market and thus represents a Level 3 measurement, as defined in fair value measurement accounting. The resultant probability-weighted cash flows were originally discounted using a discount rate of 13%. At each reporting date, we revalue the contingent consideration obligation to the reporting date fair value and record increases and decreases in the fair value as income or expense in our consolidated statements of operations. Increases or decreases in the fair value of the contingent consideration obligation may result from changes in discount periods and rates, changes in the timing and amount of revenue and EBITDA estimates and changes in probability assumptions with respect to the likelihood of achieving the various earn-out criteria. We recorded income of approximately \$1.3 million and \$5.4 million within general and administrative expense in our consolidated statements of operations during the three and six months ended June 30, 2010, respectively, as a net result of changes to revenue and EBITDA estimates, changes in probability assumptions, a decrease in the discount period and fluctuations in the discount rate since the acquisition date. As of June 30, 2010, the fair value of the contingent consideration obligation was approximately \$9.3 million.

**JSM**

With respect to JSM, the terms of the acquisition agreement require us to pay an earn-out upon successfully meeting certain revenue and operating income targets during each of the fiscal years 2010 through 2012. The maximum amount of the earn-out payments is approximately \$3.0 million.

We determined the acquisition date fair value of the contingent consideration obligation based on a probability-weighted income approach derived from revenue and operating income estimates and a probability assessment with respect to the likelihood of achieving the various earn-out criteria. The fair value measurement is based on significant inputs not observable in the market and thus represents a Level 3 measurement, as defined in fair

value measurement accounting. The resultant probability-weighted cash flows were originally discounted using a discount rate of 16%. At each reporting date, we revalue the contingent consideration obligation to the reporting date fair value and record increases and decreases in the fair value as income or expense in our consolidated statements of

operations. Increases or decreases in the fair value of the contingent consideration obligation may result from changes in discount periods and rates, changes in the timing and amount of revenue and operating income estimates and changes in probability assumptions with respect to the likelihood of achieving the various earn-out criteria. We recorded expense of approximately \$0.1 million within general and administrative expense in our consolidated statements of operations during the three and six months ended June 30, 2010, as a net result of a decrease in the discount period, changes in probability assumptions and fluctuations in the discount rate since the acquisition date. As of June 30, 2010, the fair value of the contingent consideration obligation was approximately \$1.2 million.

**Mologic**

With respect to Mologic, the terms of the acquisition agreement require us to pay earn-outs upon successfully meeting five R&D project milestones during the four years following the acquisition. The maximum amount of the earn-out payments is \$19.0 million, which will be paid in shares of our common stock.

We determined the acquisition date fair value of the contingent consideration obligation based on a probability-weighted approach derived from the expected delivery value based upon the overall probability of achieving the targets before the corresponding delivery dates. The fair value measurement is based on significant inputs not observable in the market and thus represents a Level 3 measurement, as defined in fair value measurement accounting. The resultant probability-weighted earn-out amounts were originally discounted using a discount rate of 6%. At each reporting date, we revalue the contingent consideration obligation to the reporting date fair value and record increases and decreases in the fair value as income or expense in our consolidated statements of operations. Increases or decreases in the fair value of the contingent consideration obligation may result from changes in discount periods and rates, changes in management estimates and changes in probability assumptions with respect to the likelihood of achieving the various earn-out criteria. We recorded income of approximately \$0.6 million and \$0.2 million within general and administrative expense in our consolidated statements of operations during the three and six months ended June 30, 2010, respectively, as a net result of a decrease in the discount period, adjustments to certain probability factors and fluctuations in the discount rate since the acquisition date. As of June 30, 2010, the fair value of the contingent consideration obligation was approximately \$5.6 million.

**Privately-owned research and development operation**

With respect to our acquisition of a privately-owned research and development operation in March 2010, the terms of the acquisition agreement require us to pay an earn-out upon successfully meeting certain revenue and product development targets during an eight-year period ending on the eighth anniversary of the acquisition date. The maximum amount of the earn-out payments is \$125.0 million and, if earned, payments will be made during the eight year period following the acquisition date.

We determined the acquisition date fair value of the contingent consideration obligation based on a probability-weighted approach derived from the overall likelihood of achieving the targets before the corresponding delivery dates. The fair value measurement is based on significant inputs not observable in the market and thus represents a Level 3 measurement, as defined in fair value measurement accounting. The resultant probability-weighted milestone payments were originally discounted using a discount rate of 6%. At each reporting date, we revalue the contingent consideration obligation to the reporting date fair value and record increases and decreases in the fair value as income or expense in our consolidated statements of operations. Increases or decreases in the fair value of the contingent consideration obligation may result from changes in discount periods and rates, changes in the timing and amount of revenue estimates and changes in probability assumptions with respect to the likelihood of achieving the various earn-out criteria. We recorded expense of approximately \$1.3 million and \$1.4 million within general and administrative expense in our consolidated statements of operations during the three and six months ended June 30, 2010, respectively, as a net result of a decrease in the discount period and fluctuations in the discount rate since the acquisition date. As of June 30, 2010, the fair value of the contingent consideration obligation was approximately \$37.0 million.

**Tapestry**

With respect to Tapestry, the terms of the acquisition agreement require us to pay an earn-out upon successfully meeting certain revenue and EBITDA targets during each of the fiscal years 2010 and 2011. The maximum amount of the earn-out payments is \$25.0 million which, if earned, will be paid in shares of our common stock, except in the case that the 2010 financial targets defined under the earn-out agreement are exceeded, in which case the seller may elect to be paid the 2010 earn-out in cash.

We determined the acquisition date fair value of the contingent consideration obligation based on a probability-weighted income approach derived from revenue and EBITDA estimates and a probability assessment with respect to the likelihood of achieving the various earn-out criteria. The fair value measurement is based on significant inputs not observable in the market and thus represents a Level 3 measurement, as defined in fair value measurement accounting. The resultant probability-weighted cash flows were originally discounted using a discount rate of 16%. At each reporting date, we revalue the contingent consideration obligation to the reporting date fair value and record increases and decreases in the fair value as income or expense in our consolidated statements of operations. Increases or decreases in the fair value of the contingent consideration obligation may result from changes in discount periods and rates, changes in the timing and amount of revenue and EBITDA estimates and changes in probability assumptions with respect to the likelihood of achieving the various earn-out criteria. We recorded income of approximately \$3.5 million and \$3.1 million within general and administrative expense in our consolidated statements of operations during the three and six months ended June 30, 2010, respectively, as a net result of a decrease in the discount period, adjustments to certain probability factors and fluctuations in the discount rate since the acquisition date. As of June 30, 2010, the fair value of the contingent consideration obligation was approximately \$13.6 million.

*(c) Contingent Obligations***Distribution agreement with Epocal**

In November 2009, we entered into a distribution agreement with Epocal, Inc., or Epocal, to distribute the epoc<sup>®</sup> Blood Analysis System for blood gas and electrolyte testing for \$20.0 million, which is recorded on our accompanying consolidated balance sheet in other intangible assets, net. We also entered into a definitive agreement to acquire all of the issued and outstanding equity securities of Epocal for a total potential purchase price of up to \$255.0 million, including a base purchase price of up to \$172.5 million if Epocal achieves certain gross margin and other financial milestones on or prior to October 31, 2014, plus additional payments of up to \$82.5 million if Epocal achieves certain other milestones relating to its gross margin and product development efforts on or prior to this date. We also agreed that, if the acquisition is consummated, we will provide \$12.5 million in management incentive arrangements, 25% of which will vest over three years and 75% of which will be payable only upon the achievement of certain milestones. The acquisition will also be subject to other closing conditions, including the receipt of any required antitrust or other approvals.

**Option agreement with P&G**

In connection with the formation of SPD in May 2007, we entered into an option agreement with P&G, pursuant to which P&G has the right, for a period of 60 days commencing on the fourth anniversary date of the agreement, to require us to acquire all of P&G's interest in SPD at fair market value, and P&G has the right, upon certain material breaches by us of our obligations to SPD, to acquire all of our interest in SPD at fair market value. No gain on the proceeds that we received from P&G through the formation of SPD will be recognized in our financial statements until P&G's option to require us to purchase its interest in SPD expires. If P&G chooses to exercise its option, the deferred gain carried on our books would be reversed in connection with the repurchase transaction. As of June 30, 2010, the deferred gain of \$287.7 million is presented as a current liability on our accompanying consolidated balance sheet. As of December 31, 2009, the deferred gain of \$288.7 million is presented as a long-term liability.

**Put arrangement with minority shareholder in Standard Diagnostics**

We entered into a put arrangement as part of a shareholder agreement with respect to the common securities that represent the 21.25% non-controlling interest of a certain minority shareholder in Standard Diagnostics. This put

arrangement is exercisable at KRW 40,000 per share by the counterparty upon the occurrence of certain events which are outside of our control. As a result, this non-controlling interest is classified as mezzanine equity on our accompanying consolidated balance sheet as of June 30, 2010. The redeemable non-controlling interest was recorded at its fair value of KRW 57.9 billion, or \$49.2 million, as of the consummation of the transaction on

February 8, 2010. The redeemable put arrangement has an estimated redemption price of KRW 65.4 billion, or \$53.7 million, as of June 30, 2010. The redeemable non-controlling interest will be accreted to the redemption price, through equity, at the point at which the redemption becomes probable. In addition, if the put is exercised, we will incur a penalty in the amount of KRW 63.0 billion, or approximately \$51.7 million at June 30, 2010, which will be accounted for as compensation expense at the time of exercise.

**(18) Recent Accounting Pronouncements***Recently Issued Standards*

In April 2010, the FASB issued Accounting Standards Update, or ASU, No. 2010-17, *Revenue Recognition Milestone Method (Topic 605): Milestone Method of Revenue Recognition*, or ASU 2010-17. ASU 2010-17 allows the milestone method as an acceptable revenue recognition methodology when an arrangement includes substantive milestones. ASU 2010-17 provides a definition of substantive milestone and should be applied regardless of whether the arrangement includes single or multiple deliverables or units of accounting. ASU 2010-17 is limited to transactions involving milestones relating to research and development deliverables. ASU 2010-17 also includes enhanced disclosure requirements about each arrangement, individual milestones and related contingent consideration, information about substantive milestones and factors considered in the determination. ASU 2010-17 is effective on a prospective basis for milestones achieved in fiscal years, and interim periods within those years, beginning on or after June 15, 2010, with early adoption permitted. We are currently evaluating the potential impact of this standard.

In April 2010, the FASB issued ASU No. 2010-13, *Compensation – Stock Compensation (Topic 718): Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades*, or ASU 2010-13. ASU 2010-13 clarifies that a share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity securities trades should not be considered to contain a condition that is not a market, performance, or service condition. Therefore, such an award should not be classified as a liability if it otherwise qualifies as equity. ASU 2010-13 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010, with early adoption permitted. We are currently evaluating the potential impact of this standard.

In March 2010, the FASB issued ASU No. 2010-11, *Derivatives and Hedging (Topic 815): Scope Exception Related to Credit Derivatives*, or ASU 2010-11. ASU 2010-11 clarifies that embedded credit-derivative features related only to the transfer of credit risk in the form of subordination of one financial instrument to another are not subject to potential bifurcation and separate accounting. ASU 2010-11 also provides guidance on whether embedded credit-derivative features in financial instruments issued by structures such as collateralized debt obligations are subject to bifurcations and separate accounting. ASU 2010-11 is effective at the beginning of a company's first fiscal quarter beginning after June 15, 2010, with early adoption permitted. The adoption of this standard will not have an impact on our financial position, results of operations or cash flows.

In October 2009, the FASB issued ASU No. 2009-14, *Software (Topic 985): Certain Revenue Arrangements That Include Software Elements – a consensus of the FASB EITF*, or ASU 2009-14. ASU 2009-14 changes the accounting model for revenue arrangements that include tangible products and software elements. The amendments of this update provide additional guidance on how to determine which software, if any, relating to the tangible product also would be excluded from the scope of the software revenue recognition guidance. The amendments in this update also provide guidance on how a vendor should allocate arrangement consideration to deliverables in an arrangement that includes both tangible products and software, as well as arrangements that have deliverables both included and excluded from the scope of software revenue recognition guidance. This standard is effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. We are currently evaluating the potential impact of this standard.

In October 2009, the FASB issued ASU No. 2009-13, *Revenue Recognition (Topic 650): Multiple-Deliverable Revenue Arrangements – a consensus of the FASB EITF*, or ASU 2009-13. ASU 2009-13 will separate multiple-deliverable revenue arrangements. This update establishes a selling price hierarchy for determining the

selling price of a deliverable. The amendments of this update will replace the term fair value in the revenue allocation guidance

**Table of Contents**

**ALERE INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
(unaudited)

with selling price to clarify that the allocation of revenue is based on entity-specific assumptions rather than assumptions of a marketplace participant. The amendments of this update will eliminate the residual method of allocation and require that arrangement consideration be allocated at the inception of the arrangement to all deliverables using the relative selling price method. The amendments in this update will require that a vendor determine its best estimated selling price in a manner consistent with that used to determine the price to sell the deliverable on a standalone basis. This standard is effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. We are currently evaluating the potential impact of this standard.

*Recently Adopted Standards*

Effective January 1, 2010, we adopted ASU No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*, or ASU 2010-06. A reporting entity should provide additional disclosures about the different classes of assets and liabilities measured at fair value, the valuation techniques and inputs used, the activity in Level 3 fair value measurements, and the transfers between Levels 1, 2, and 3 fair value measurements. The adoption of the additional disclosures for Level 1 and Level 2 fair value measurements did not have an impact on our financial position, results of operations or cash flows. The disclosures regarding Level 3 fair value measurements do not become effective until January 1, 2011 and, given such, we are currently evaluating the potential impact of this part of the update.

Effective January 1, 2010, we adopted ASU No. 2010-01, *Equity (Topic 505): Accounting for Distributions to Shareholders with Components of Stock and Cash (A Consensus of the FASB Emerging Issues Task Force)*, or ASU 2010-01. The amendments in this update clarify that the stock portion of a distribution to shareholders that allows them to elect to receive cash or stock with a potential limitation on the total amount of cash that all shareholders can elect to receive in the aggregate is considered a share issuance that is reflected in earnings per share prospectively and is not a stock dividend for purposes of applying Topics 505 and 260 (Equity and Earnings Per Share). Those distributions should be accounted for and included in earnings per share calculations. The adoption of this standard did not have an impact on our financial position, results of operations or cash flows.

Effective January 1, 2010, we adopted ASU No. 2009-17, *Consolidations (Topic 810): Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities*, or ASU 2009-17. The amendments in this update replace the quantitative-based risks and rewards calculation for determining which reporting entity, if any, has a controlling financial interest in a variable interest entity with an approach focused on identifying which reporting entity has the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and (1) the obligation to absorb losses of the entity or (2) the right to receive benefits from the entity. An approach that is expected to be primarily qualitative will be more effective for identifying which reporting entity has a controlling financial interest in a variable interest entity. The amendments in this update also require additional disclosures about a reporting entity's involvement in variable interest entities, which will enhance the information provided to users of financial statements. We evaluated our business relationships to identify potential variable interest entities and have concluded that consolidation of such entities is not required for the periods presented. On a quarterly basis, we will continue to reassess our involvement with variable interest entities.

Effective January 1, 2010, we adopted ASU No. 2009-16, *Transfers and Servicing (Topic 860): Accounting for Transfers of Financial Assets*, or ASU 2009-16. The amendments in this update improve financial reporting by eliminating the exceptions for qualifying special-purpose entities from the consolidation guidance and the exception that permitted sale accounting for certain mortgage securitizations when a transferor has not surrendered control over the transferred financial assets. In addition, the amendments require enhanced disclosures about the risks that a transferor continues to be exposed to because of its continuing involvement in transferred financial assets. Comparability and consistency in accounting for transferred financial assets will also be improved through clarifications of the requirements for isolation and limitations on portions of financial assets that are eligible for sale accounting. The adoption of this standard did not have an impact on our financial position, results of operations or

cash flows.

Effective January 1, 2010, we adopted ASU No. 2009-15, *Accounting for Own-Share Lending Arrangements in Contemplation of Convertible Debt Issuance or Other Financing*, or ASU 2009-15. ASU 2009-15 provides guidance

on equity-classified share-lending arrangements on an entity's own shares when executed in contemplation of a convertible debt offering or other financing. The adoption of this standard did not have an impact on our financial position, results of operations or cash flows.

**(19) Equity Investments**

We account for the results from our equity investments under the equity method of accounting in accordance with ASC 323, *Investments - Equity Method and Joint Ventures*, based on the percentage of our ownership interest in the business. Our equity investments primarily include the following:

**(i) SPD**

In May 2007, we completed the formation of SPD, our 50/50 joint venture with P&G for the development, manufacturing, marketing and sale of existing and to-be-developed consumer diagnostic products, outside the cardiology, diabetes and oral care fields. Upon completion of the arrangement to form SPD, we ceased to consolidate the operating results of our consumer diagnostics business related to SPD. We recorded earnings of \$3.6 million and \$7.2 million during the three and six months ended June 30, 2010, respectively, and we recorded earnings of \$0.3 million and \$2.4 million during the three and six months ended June 30, 2009, respectively, in equity earnings of unconsolidated entities, net of tax, in our accompanying consolidated statements of operations, which represented our 50% share of SPD's net income for the respective periods.

**(ii) TechLab**

In May 2006, we acquired 49% of TechLab, Inc., or TechLab, a privately-held developer, manufacturer and distributor of rapid non-invasive intestinal diagnostics tests in the areas of intestinal inflammation, antibiotic associated diarrhea and parasitology. We recorded earnings of \$0.5 million and \$1.0 million during the three and six months ended June 30, 2010, respectively, and we recorded earnings of \$0.6 million and \$1.0 million during the three and six months ended June 30, 2009, respectively, in equity earnings of unconsolidated entities, net of tax, in our accompanying consolidated statements of operations, which represented our minority share of TechLab's net income for the respective periods.

Summarized financial information for the P&G joint venture and TechLab on a combined basis is as follows (in thousands):

businesses and represents the complete divestiture of our entire vitamins and nutritional supplements business segment. We recognized a gain of approximately \$19.6 million (\$12.0 million, net of tax) in the first quarter of 2010. The results of the vitamins and nutritional supplements business, which represents our entire vitamins and nutritional supplements business segment, are included in income (loss) from discontinued operations, net of tax, for all periods presented. The net assets and net liabilities associated with the vitamins and nutritional supplements business were classified as assets held for sale and liabilities related to assets held for sale as of December 31, 2009.

The following assets and liabilities have been segregated and classified as assets held for sale and liabilities related to assets held for sale, as appropriate, in the consolidated balance sheet as of December 31, 2009. The amounts presented below were adjusted to exclude cash, intercompany receivables and payables and certain assets and liabilities between the business held for sale and our company, which were excluded from the transaction (amounts in thousands).

**(21) Guarantor Financial Information**

Our 9% senior subordinated notes due 2016, as well as our 7.875% senior notes due 2016, are guaranteed by certain of our consolidated subsidiaries, or the Guarantor Subsidiaries. The guarantees are full and unconditional and joint and several. The following supplemental financial information sets forth, on a consolidating basis, balance sheets as of June 30, 2010 and December 31, 2009, the statements of operations for the three and six months ended June 30, 2010 and 2009 and cash flows for the six months ended June 30, 2010 and 2009 for Alere Inc., the Guarantor Subsidiaries and our other subsidiaries, or the Non-Guarantor Subsidiaries. The supplemental financial information reflects the investments of Alere Inc. and the Guarantor Subsidiaries in the Guarantor and Non-Guarantor Subsidiaries using the equity method of accounting.

We have extensive transactions and relationships between various members of the consolidated group. These transactions and relationships include intercompany pricing agreements, intellectual property royalty agreements and general and administrative and research and development cost-sharing agreements. Because of these relationships, it is possible that the terms of these transactions are not the same as those that would result from transactions among wholly unrelated parties.

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Forward-Looking Statements**

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. You can identify these statements by forward-looking words such as may, could, should, would, intend, will, expect, anticipate, believe, continue or similar words. You should read statements that contain these words carefully because they discuss our future expectations, contain projections of our future results of operations or of our financial condition or state other forward-looking information. Forward-looking statements in this item include, without limitation, statements regarding anticipated expansion and growth in certain of our product and service offerings; the development and introduction of new technologies and products; the potential impact of these technologies and products under development; our expectations with respect to Apollo, our new integrated health management technology platform; our ability to accelerate adoption of our health management services; and our funding plans for our future working capital needs and commitments. Actual results or developments could differ materially from those projected in such statements as a result of numerous factors, including, without limitation, those risks and uncertainties set forth in Part I, Item 1A, Risk Factors, of our Annual Report on Form 10-K, as amended, for the year ended December 31, 2009 and other risk factors identified herein or from time to time in our periodic filings with the SEC. We do not undertake any obligation to update any forward-looking statements. This report and, in particular, the following discussion and analysis of our financial condition and results of operations, should be read in light of those risks and uncertainties and in conjunction with our accompanying consolidated financial statements and notes thereto.

**Financial Overview**

We enable individuals to take charge of improving their health and quality of life at home by developing new capabilities in near-patient diagnosis, monitoring and health management. Our global, leading products and services, as well as our new product development efforts, currently focus on cardiology, women's health, infectious disease, oncology and drugs of abuse. We are continuing to expand our product and service offerings in all of these categories both through acquisitions and new product development.

Through our February 2010 acquisition of Kroll Laboratory Specialists, Inc., which we have since renamed Alere Toxicology Services, or ATS, we continued to expand the range of drugs of abuse testing products and services that we can offer the government, employers, health plans and healthcare professionals. ATS laboratories, which are certified by the U.S. Substance Abuse and Mental Health Services Administration, or SAMHSA, allow us to reach the growing U.S. regulated drugs of abuse testing market. Our acquisition of a majority interest in Standard Diagnostics, Inc., or Standard Diagnostics, during the first quarter of 2010 brought us a comprehensive range of rapid diagnostic products, with particular strength in the infectious disease category.

Our research and development efforts continue to focus on developing diagnostic technology platforms, including our Stirling CHF and Clondiag molecular devices, which will facilitate movement of testing from the hospital and central laboratory to the physician's office and, ultimately, the home. Additionally, through our strong pipeline of novel proteins or combinations of proteins that function as disease biomarkers, we are developing new point-of-care tests targeted toward all of our areas of focus.

As a global, leading supplier of near-patient monitoring tools, as well as value-added healthcare services, we are well positioned to improve care and lower healthcare costs for both providers and patients. Our rapidly growing home coagulation monitoring business, which supports doctors and patients' efforts to monitor warfarin therapy using our INRatio blood coagulation monitoring system, represents an early example of the convergence of diagnostic devices with health management services. Our new innovative, integrated health management software system, called Apollo, which we began to make available to customers on January 1, 2010, is also aimed at improving the integration and quality of distributed care services. Using a sophisticated data engine for acquiring and analyzing information, combined with a state-of-the-art solution for communicating with individuals and their health partners, we expect Apollo to benefit healthcare providers, health insurers and patients alike by enabling more efficient and effective health management programs. Our acquisition of RMD Networks, Inc., or RMD, in January 2010 has added a physician portal which we hope will accelerate provider adoption of our services.

Net revenue increased by \$84.3 million, or 19%, to \$523.0 million for the three months ended June 30, 2010, from \$438.7 million for the three months ended June 30, 2009. Net revenue increased primarily as a result of our health management and professional diagnostics-related acquisitions which contributed \$103.0 million of the increase. Offsetting the increased net revenue contributed by acquisitions was a decrease in North American flu-

**Table of Contents**

related net product sales during the three months ended June 30, 2010, as compared to the three months ended June 30, 2009. Net product sales from our North American flu sales declined approximately \$13.9 million, comparing the three months ended June 30, 2010 to the three months ended June 30, 2009, as a result of unusually strong flu sales during the three months ended June 30, 2009 caused by the H1N1 flu outbreak. Additionally, net revenue in our health management segment, excluding net revenue contributed by our health management acquisitions completed after June 30, 2009, was adversely impacted as a result of the increasing competitive environment, particularly in the less differentiated services.

Net revenue increased by \$174.4 million, or 20%, to \$1.0 billion for the six months ended June 30, 2010, from \$863.8 million for the six months ended June 30, 2009. Net revenue increased primarily as a result of our health management and professional diagnostics-related acquisitions, which contributed \$197.7 million of the increase. Offsetting the increased net revenue contributed by acquisitions was a decrease in North American flu-related net product sales during the six months ended June 30, 2010, as compared to the six months ended June 30, 2009. Net product sales from our North American flu sales declined approximately \$18.1 million, comparing the six months ended June 30, 2010 to the six months ended June 30, 2009, as a result of a weaker than normal flu season and unusually strong flu sales during the six months ended June 30, 2009 caused by the H1N1 flu outbreak. Additionally, net revenue in our health management segment, excluding net revenue contributed by our health management acquisitions completed after June 30, 2009, was adversely impacted as a result of the increasing competitive environment, particularly in the less differentiated services.

For the three and six months ended June 30, 2010, we generated a net loss available to common stockholders of \$8.3 million and net income available to common stockholders of \$0.6 million, respectively, compared to a net loss available to common stockholders of \$1.2 million and \$0.4 million for the three and six months ended June 30, 2009, respectively.

**Results of Operations**

The following discussions of our results of continuing operations exclude the results related to the vitamins and nutritional supplements business segment, which was previously presented as a separate operating segment prior to its divestiture in January 2010. The vitamins and nutritional supplements business segment has been segregated from continuing operations and reflected as discontinued operations for all periods presented. See Discontinued Operations below. Results excluding the impact of currency translation are calculated on the basis of local currency results, using foreign currency exchange rates applicable to the earlier comparative period. We believe presenting information using the same foreign currency exchange rates helps investors isolate the impact of changes in those rates from other trends. Our results of operations were as follows:

**Net Product Sales and Services Revenue, Total and by Business Segment.** Total net product sales and services revenue increased by \$81.9 million, or 19%, to \$516.9 million for the three months ended June 30, 2010, from \$435.0 million for the three months ended June 30, 2009. The effects of foreign currency translation had an immaterial impact on net products sales and services revenue for the three months ended June 30, 2010, as compared to the three months ended June 30, 2009. Total net product sales and services revenue increased by \$175.2 million, or 21%, to \$1.0 billion for the six months ended June 30, 2010, from \$851.1 million for the six months ended June 30, 2009. Excluding the impact of currency translation, net product sales and services revenue for the six months ended June 30, 2010 increased by \$166.2 million, or 20%, compared to the six months ended June 30, 2009. Net product sales and services revenue by business segment for the three and six months ended June 30, 2010 and 2009 are as follows (in thousands):

**Table of Contents***Professional Diagnostics*

Net product sales and services revenue from our professional diagnostics business segment increased by \$63.2 million, or 23%, comparing the three months ended June 30, 2010 to the three months ended June 30, 2009. Net product sales and services revenue increased primarily as a result of our acquisitions of: (i) the ACON Second Territory Business, in April 2009, which contributed \$4.8 million of net product sales and services revenue in excess of those earned in the prior year's comparative period, (ii) Concateno plc, or Concateno, in August 2009, which contributed \$19.7 million of net product sales and services revenue, (iii) Standard Diagnostics, in the first quarter of 2010, which contributed \$20.7 million of net product sales and services revenue, (iv) the ATS business, in February 2010, which contributed \$9.5 million of net product sales and services revenue and (v) various less significant acquisitions, which contributed an aggregate of \$7.8 million of such increase. Offsetting the increased net product sales and services revenue contributed by acquisitions was a decrease in North American flu-related net product sales during the three months ended June 30, 2010, as compared to the three months ended June 30, 2009. Net product sales from our North American flu sales declined approximately \$14.0 million, comparing the three months ended June 30, 2010 to the three months ended June 30, 2009, as a result of unusually strong flu sales during the three months ended June 30, 2009 caused by the H1N1 flu outbreak. The effects of foreign currency translation had an immaterial impact on our professional diagnostics net products sales and services revenue for the three months ended June 30, 2010, as compared to the three months ended June 30, 2009. Excluding the impact of the decrease in flu-related sales during the comparable periods, the adjusted organic growth for our professional diagnostics net product sales and services revenue was 6%.

Net product sales and services revenue from our professional diagnostics business segment increased by \$137.9 million, or 25%, comparing the six months ended June 30, 2010 to the six months ended June 30, 2009. Net product sales and services revenue increased primarily as a result of our acquisitions of: (i) the ACON Second Territory Business, in April 2009, which contributed \$15.1 million of net product sales and services revenue in excess of those earned in the prior year's comparative period, (ii) Concateno, in August 2009, which contributed \$40.2 million of net product sales and services revenue, (iii) Standard Diagnostics, in the first quarter of 2010, which contributed \$32.0 million of net product sales and services revenue, (iv) the ATS business, in February 2010, which contributed \$14.2 million of net product sales and services revenue and (v) various less significant acquisitions, which contributed an aggregate of \$14.7 million of such increase. Offsetting the increased net product sales and services revenue contributed by acquisitions was a decrease in North American flu-related net product sales during the six months ended June 30, 2010, as compared to the six months ended June 30, 2009. Net product sales from our North American flu sales declined approximately \$18.1 million, comparing the six months ended June 30, 2010 to the six months ended June 30, 2009, as a result of a weaker than normal flu season in 2010 and unusually strong flu sales during the six months ended June 30, 2009 caused by the H1N1 flu outbreak. Excluding the impact of currency translation, net product sales and services revenue from our professional diagnostics business segment increased by \$129.2 million, or 24%, comparing the six months ended June 30, 2010 to the six months ended June 30, 2009. Excluding the decrease in flu-related sales during the comparable periods, organic growth for our professional diagnostics net product sales and services revenue was 8%. Excluding the impact of currency translation and the decrease in flu-related sales during the comparable periods, organic growth for our professional diagnostics net product sales and services revenue was 6%.

*Health Management*

Our health management net product sales and services revenue increased by \$27.2 million, or 22%, comparing the three months ended June 30, 2010 to the three months ended June 30, 2009. Of the increase, net product sales and services revenue increased primarily as a result of our acquisitions of: (i) Free & Clear, Inc., or Free & Clear, in September 2009, which contributed \$18.4 million of net products sales and services revenue, (ii) Tapestry Medical, Inc., or Tapestry, in November 2009, which contributed \$12.8 million of net product sales and services revenue (which includes revenue transferred to Tapestry from our Quality Assured Services, Inc., or QAS, subsidiary), (iii) CVS Caremark's Accordant Common disease management program, or Accordant, in September 2009, which contributed \$6.6 million of net product sales and services revenue and (iv) various less significant acquisitions, which contributed an aggregate of \$2.1 million of such increase. Net product sales and services revenue in our health

management segment, excluding the impact of these acquisitions, was adversely impacted by the increasing competitive environment, particularly in the less differentiated services.

Our health management net product sales and services revenue increased by \$53.6 million, or 22%, comparing the six months ended June 30, 2010 to the six months ended June 30, 2009. Of the increase, net product sales and services revenue increased primarily as a result of our acquisitions of: (i) Free & Clear, in September 2009, which

**Table of Contents**

contributed \$37.1 million of net products sales and services revenue, (ii) Tapestry, in November 2009, which contributed \$26.1 million of net product sales and services revenue (which includes revenue transferred to Tapestry from our QAS subsidiary), (iii) Accordant, in September 2009, which contributed \$13.1 million of net product sales and services revenue and (iv) various less significant acquisitions, which contributed an aggregate of \$3.8 million of such increase. Net product sales and services revenue in our health management segment, excluding the impact of these acquisitions, was adversely impacted by the increasing competitive environment, particularly in the less differentiated services.

*Consumer Diagnostics*

Net product sales and services revenue from our consumer diagnostics business segment decreased by \$8.5 million, or 27%, comparing the three months ended June 30, 2010 to the three months ended June 30, 2009. Net product sales and services revenue from our consumer diagnostics business segment decreased by \$16.3 million, or 25%, comparing the six months ended June 30, 2010 to the six months ended June 30, 2009. The decrease during the three and six months ended June 30, 2010, as compared to the three and six months ended June 30, 2009, was primarily driven by a decrease of approximately \$7.3 million and \$14.6 million, respectively, of manufacturing revenue associated with our manufacturing agreement with our 50/50 joint venture with P&G, or SPD, whereby we manufacture and sell consumer diagnostic products to SPD. Our manufacturing revenue is generated on a cost-plus basis. Manufacturing revenue has been adversely impacted as a result of transitioning the manufacturing of our consumer diagnostic related products to some of our lower cost facilities. Net product sales by SPD were \$48.4 million and \$104.3 million during the three and six months ended June 30, 2010, respectively, as compared to \$53.4 million and \$102.0 million during the three and six months ended June 30, 2009.

**License and Royalty Revenue.** License and royalty revenue represents license and royalty fees from intellectual property license agreements with third parties. License and royalty revenue increased by approximately \$2.4 million, or 65%, to \$6.1 million for the three months ended June 30, 2010, from \$3.7 million for the three months ended June 30, 2009. The increase in license and royalty revenue during the three months ended June 30, 2010, as compared to the three months ended June 30, 2009, was largely attributed to an increase in royalty payments received from Quidel Corporation, or Quidel, under existing licensing agreements, as well as approximately \$0.5 million in royalty payments received as a result of acquisitions. License and royalty revenue decreased by approximately \$0.8 million, or 6%, to \$11.9 million for the six months ended June 30, 2010, from \$12.7 million for the six months ended June 30, 2009. The decrease in license and royalty revenue during the six months ended June 30, 2010, as compared to the six months ended June 30, 2009, was largely attributed to a \$5.0 million royalty received in connection with a license arrangement in the field of animal health diagnostics during the six months ended June 30, 2009. Partially offsetting this decrease during the six months ended June 30, 2010 as compared to the six months ended June 30, 2009, was an increase of approximately \$1.2 million in royalty payments received from Quidel under existing licensing agreements as well as approximately \$1.0 million in royalty payments received as a result of acquisitions.

**Gross Profit and Margin.** Gross profit increased by \$34.1 million, or 14%, to \$272.0 million for the three months ended June 30, 2010, from \$237.9 million for the three months ended June 30, 2009. Gross profit increased by \$73.6 million, or 16%, to \$546.0 million for the six months ended June 30, 2010, from \$472.3 million for the six months ended June 30, 2009.

The increase in gross profit during the three and six months ended June 30, 2010 compared to the three and six months ended June 30, 2009 was largely attributed to the increase in net product sales and services revenue resulting from acquisitions and organic growth from our professional diagnostics business segment. Cost of net revenue during the three and six months ended June 30, 2010 included amortization of \$2.8 million and \$5.6 million, respectively, relating to the write-up of inventory to fair value in connection with the acquisition of Standard Diagnostics during the first quarter of 2010.

Cost of net revenue included amortization expense of \$15.7 million and \$10.2 million for the three months ended June 30, 2010 and June 30, 2009, respectively, and \$30.6 million and \$20.2 million for the six months ended June 30, 2010 and June 30, 2009, respectively.

Overall gross margin was 52% and 53% for the three and six months ended June 30, 2010, respectively, compared to 54% and 55% for the three and six months ended June 30, 2009, respectively.

**Table of Contents**

**Gross Profit from Net Product Sales and Services Revenue, Total and by Business Segment.** Gross profit from total net product sales and services revenue increased by \$31.5 million, or 13%, to \$267.7 million for the three months ended June 30, 2010, from \$236.2 million for the three months ended June 30, 2009. Gross profit from total net product sales and services revenue increased by \$74.6 million, or 16%, to \$537.6 million for the six months ended June 30, 2010, from \$463.0 million for the six months ended June 30, 2009. Gross profit from net product sales and services revenue by business segment for the three and six months ended June 30, 2010 and 2009 are as follows (in thousands):

	Three Months Ended			Six Months Ended		
	June 30,		%	June 30,		%
	2010	2009	Change	2010	2009	Change
Professional diagnostics	\$ 184,683	\$ 163,479	13%	\$ 375,557	\$ 318,964	18%
Health management	77,086	66,829	15%	150,922	134,489	12%
Consumer diagnostics	5,951	5,885	1%	11,156	9,559	17%
Total gross profit from net product sales and services revenue	\$ 267,720	\$ 236,193	13%	\$ 537,635	\$ 463,012	16%

*Professional Diagnostics*

Gross profit from net product sales and services revenue from our professional diagnostics business segment increased by \$21.2 million, or 13%, to \$184.7 million during the three months ended June 30, 2010, compared to \$163.5 million for the three months ended June 30, 2009, principally as a result of gross profit earned on revenue from acquired businesses, as discussed above. Reducing gross profit for the three months ended June 30, 2010 was amortization of \$2.8 million relating to the write-up of inventory to fair value in connection with the acquisition of Standard Diagnostics during the first quarter of 2010.

Gross profit from net product sales and services revenue from our professional diagnostics business segment increased by \$56.6 million, or 18%, to \$375.6 million during the six months ended June 30, 2010, compared to \$319.0 million for the six months ended June 30, 2009, principally as a result of gross profit earned on revenue from acquired businesses, as discussed above. Reducing gross profit for the six months ended June 30, 2010 was amortization of \$5.6 million relating to the write-up of inventory to fair value in connection with the acquisition of Standard Diagnostics during the first quarter of 2010.

As a percentage of our professional diagnostics net product sales and services revenue, gross margin for the three and six months ended June 30, 2010 was 54% and 55%, respectively, compared to 58% and 59% for the three and six months ended June 30, 2009, respectively. The inventory write-up noted above, coupled with higher revenue from our recently acquired drugs of abuse businesses, which contribute lower than segment average gross margins, and a decrease in North American flu-related net product sales, which contribute higher than segment average gross margin, contributed to the decrease in gross margin percentage for the three and six months ended June 30, 2010, compared to the three and six months ended June 30, 2009.

*Health Management*

Gross profit from net product sales and services revenue from our health management business segment increased by \$10.3 million, or 15%, to \$77.1 million during the three months ended June 30, 2010, compared to \$66.8 million during the three months ended June 30, 2009. Gross profit from net product sales and services revenue from our health management business segment increased by \$16.4 million, or 12%, to \$150.9 million during the six months ended June 30, 2010 compared to \$134.5 million during the six months ended June 30, 2009. The increase in gross profit for the three and six months ended June 30, 2010 compared to the three and six months ended June 30, 2009, was largely attributed to gross margins earned on revenue from recent acquisitions, as discussed above.

As a percentage of our health management net product sales and services revenue, gross margin for both the three and six months ended June 30, 2010 was 51%, compared to 55% for both the three and six months ended June 30,

2009, respectively. The lower margin percentage earned during both the three and six months ended June 30, 2010, as compared to the three and six months ended June 30, 2009, is a result of the increasing competitive environment for the health management segment, particularly in the less differentiated services.

**Table of Contents***Consumer Diagnostics*

Gross profit from net product sales and services revenue from our consumer diagnostics business segment increased by \$0.1 million, or 1%, to \$6.0 million for the three months ended June 30, 2010, compared to \$5.9 million for the three months ended June 30, 2009. Gross profit from net product sales and services revenue from our consumer diagnostics business segment increased by \$1.6 million, or 17%, to \$11.2 million for the six months ended June 30, 2010, compared to \$9.6 million for the six months ended June 30, 2009.

As a percentage of our consumer diagnostics net product sales and services revenue, gross margin for the three and six months ended June 30, 2010 was 25% and 23%, respectively, compared to 18% and 15% for the three and six months ended June 30, 2009, respectively.

**Research and Development Expense.** Research and development expense increased by \$6.7 million, or 26%, to \$32.8 million for the three months ended June 30, 2010, from \$26.0 million for the three months ended June 30, 2009. Research and development expense increased by \$10.7 million, or 20%, to \$63.8 million for the six months ended June 30, 2010, from \$53.1 million for the six months ended June 30, 2009.

Research and development expense as a percentage of net revenue was 6% for both the three and six months ended June 30, 2010 and 2009.

**Sales and Marketing Expense.** Sales and marketing expense increased by \$21.6 million, or 21%, to \$123.8 million for the three months ended June 30, 2010, from \$102.2 million for the three months ended June 30, 2009. The increase in sales and marketing expense partially relates to additional spending related to newly-acquired businesses. Amortization expense of \$52.4 million and \$43.9 million was included in sales and marketing expense for the three months ended June 30, 2010 and 2009, respectively.

Sales and marketing expense increased by \$42.8 million, or 21%, to \$243.4 million for the six months ended June 30, 2010, from \$200.6 million for the six months ended June 30, 2009. The increase in sales and marketing expense partially relates to additional spending related to newly-acquired businesses. Amortization expense of \$103.2 million and \$85.3 million was included in sales and marketing expense for the six months ended June 30, 2010 and 2009, respectively.

Sales and marketing expense as a percentage of net revenue was 24% and 23% for the three and six months ended June 30, 2010, respectively, compared to 23% for both the three and six months ended June 30, 2009.

**General and Administrative Expense.** General and administrative expense increased by approximately \$11.0 million, or 13%, to \$93.4 million for the three months ended June 30, 2010, from \$82.4 million for the three months ended June 30, 2009. The increase in general and administrative expense relates primarily to additional spending related to newly-acquired businesses. Partially offsetting the increase in spending related to newly-acquired businesses was \$3.8 million of income recorded in connection with fair value adjustments to acquisition-related contingent consideration obligations in accordance with ASC 805, *Business Combinations*. Amortization expense of \$4.6 million and \$5.5 million was included in general and administrative expense for the three months ended June 30, 2010 and 2009, respectively.

General and administrative expense increased by approximately \$27.1 million, or 17%, to \$188.0 million for the six months ended June 30, 2010, from \$160.9 million for the six months ended June 30, 2009. The increase in general and administrative expense relates primarily to additional spending related to newly-acquired businesses. Partially offsetting the increase in spending related to newly-acquired businesses was \$6.9 million of income recorded in connection with fair value adjustments to acquisition-related contingent consideration obligations in accordance with ASC 805, *Business Combinations*. Amortization expense of \$9.6 million and \$11.6 million was included in general and administrative expense for the six months ended June 30, 2010 and 2009, respectively.

General and administrative expense as a percentage of net revenue was 18% for both the three and six months ended June 30, 2010, compared to 19% for both the three and six months ended June 30, 2009.

**Table of Contents**

**Interest Expense.** Interest expense includes interest charges, amortization of deferred financing costs and amortization of original issue discounts associated with certain debt issuances. Interest expense increased by \$10.0 million, or 42%, to \$33.6 million for the three months ended June 30, 2010, from \$23.6 million for the three months ended June 30, 2009. Such increase was principally due to additional interest expense incurred on our 9% subordinated notes and 7.875% senior notes, totaling \$15.2 million and \$5.2 million for the three months ended June 30, 2010 and 2009, respectively.

Interest expense increased by \$25.2 million, or 61%, to \$66.7 million for the six months ended June 30, 2010, from \$41.5 million for the six months ended June 30, 2009. Such increase was principally due to additional interest expense incurred on our 9% subordinated notes and 7.875% senior notes, totaling \$30.1 million and \$5.2 million for the six months ended June 30, 2010 and 2009, respectively.

**Other Income (Expense), Net.** Other income (expense), net includes interest income, realized and unrealized foreign exchange gains and losses, and other income and expense. The components and the respective amounts of other income (expense), net are summarized as follows (in thousands):

	Three Months Ended June 30,			Six Months Ended June 30,		
	2010	2009	Change	2010	2009	Change
Interest income	\$ 582	\$ 636	\$ (54)	\$ 937	\$ 923	\$ 14
Foreign exchange gains (losses), net	3,604	1,400	2,204	3,383	(1,630)	5,013
Other	(74)	508	(582)	2,836	538	2,298
Total other income (expense), net	\$ 4,112	\$ 2,544	\$ 1,568	\$ 7,156	\$ (169)	\$ 7,325

The increase in foreign exchange gains (losses), net for both the three and six months ended June 30, 2010, was primarily a result of realized and unrealized foreign exchange losses associated with changes in exchange rates. Other income of \$2.8 million for the six months ended June 30, 2010, includes a \$3.1 million net gain associated with legal settlements related to previously disclosed intellectual property litigation relating to our health management businesses, approximately \$0.7 million of income associated with a settlement of prior years' royalties during 2010, partially offset by a charge related to an accounts receivable reserve for a prior year's sale.

**(Benefit) Provision for Income Taxes.** The (benefit) provision for income taxes decreased by \$3.5 million, to a \$1.2 million benefit for the three months ended June 30, 2010, from a \$2.3 million provision for the three months ended June 30, 2009. The (benefit) provision for income taxes decreased by \$7.7 million, to a \$0.8 million benefit for the six months ended June 30, 2010, from a \$6.9 million provision for the six months ended June 30, 2009. The effective tax rate was 17% and 9% for the three and six months ended June 30, 2010, compared to 36% and 44% for the three and six months ended June 30, 2009. The income tax provision for the three and six months ended June 30, 2010 and 2009 relates to federal, foreign and state income tax provisions. The income tax provision decrease for the three and six months ended June 30, 2010 is primarily due to an increase in foreign lower-taxed earnings during the three and six months ended June 30, 2010, as compared to the three and six months ended June 30, 2009.

**Equity Earnings in Unconsolidated Entities, Net of Tax.** Equity earnings in unconsolidated entities is reported net of tax and includes our share of earnings in entities that we account for under the equity method of accounting. Equity earnings in unconsolidated entities, net of tax for the three and six months ended June 30, 2010 reflects the following: (i) our 50% interest in SPD in the amount of \$3.7 million and \$7.3 million, respectively, (ii) our 40% interest in Vedalab S.A., or Vedalab, in the amount of \$0.1 million for both of the respective periods and (iii) our 49% interest in TechLab, Inc., or TechLab, in the amount of \$0.5 million and \$1.0 million, respectively. Equity earnings in unconsolidated entities, net of tax for the three and six months ended June 30, 2009 reflects the following: (i) our 50% interest in our joint venture with P&G in the amount of \$0.3 million and \$2.4 million, respectively, (ii) our 40%

interest in Vedalab in the amount of \$0.1 million for both of the respective periods and (iii) our 49% interest in TechLab in the amount of \$0.6 million and \$1.0 million, respectively.

**(Loss) Income from Discontinued Operations, Net of Tax.** The results of the vitamins and nutritional supplements business are included in (loss) income from discontinued operations, net of tax, for all periods presented. For the three and six months ended June 30, 2010, the discontinued operations generated a net loss of approximately \$35,000 and net income of \$11.9 million, respectively, as compared to a net loss of \$0.2 million and \$1.5 million for the three and six months ended June 30, 2009, respectively. The net income of \$11.9 million for the

**Table of Contents**

six months ended June 30, 2010 includes a gain of \$19.6 million (\$12.0 million, net of tax) on the sale of the vitamins and nutritional supplements business.

**Net (Loss) Income Available to Common Stockholders.** For the three months ended June 30, 2010, we generated a net loss available to common stockholders of \$8.3 million, or \$0.10 per basic and diluted common share, compared to a net loss available to common stockholders of \$1.2 million, or \$0.02 per basic and diluted common share for the three months ended June 30, 2009. For the six months ended June 30, 2010, we generated net income available to common stockholders of \$0.7 million, or \$0.01 per basic and diluted common share, compared to a net loss available to common stockholders of \$0.4 million, or \$0.01 per basic and diluted common share for the six months ended June 30, 2009. See Note 5 of the accompanying consolidated financial statements for the calculation of net income per common share.

**Liquidity and Capital Resources**

Based upon our current working capital position, current operating plans and expected business conditions, we currently expect to fund our short and long-term working capital needs primarily through our operating cash flow, and we expect our working capital position to improve as we improve our operating margins and grow our business through new product and service offerings and by continuing to leverage our strong intellectual property position. At this point in time, our liquidity has not been materially impacted by the recent and unprecedented disruption in the current capital and credit markets and we do not expect that it will be materially impacted in the near future. However, we cannot predict with certainty the ultimate impact of these events on us. We will therefore continue to closely monitor our liquidity and capital resources.

In addition, we may also utilize our revolving credit facility, or other sources of financing, to fund a portion of our capital needs and other future commitments, including our contractual contingent consideration obligations and future acquisitions. We utilized these resources to complete our recent acquisitions of Standard Diagnostics and the ATS business. If the capital and credit markets continue to experience volatility and the availability of funds remains limited, we may incur increased costs associated with issuing commercial paper and/or other debt instruments. In addition, it is possible that our ability to access the capital and credit markets may be limited by these or other factors at a time when we would like, or need, to do so, which could have an impact on our ability to refinance maturing debt and/or react to changing economic and business conditions.

Our funding plans for our working capital needs and other commitments may be adversely impacted by unexpected costs associated with prosecuting and defending our existing lawsuits and/or unforeseen lawsuits against us, integrating the operations of newly-acquired companies and executing our cost savings strategies. We also cannot be certain that our underlying assumed levels of revenues and expenses will be realized. In addition, we intend to continue to make significant investments in our research and development efforts related to the substantial intellectual property portfolio we own. We may also choose to further expand our research and development efforts and may pursue the acquisition of new products and technologies through licensing arrangements, business acquisitions, or otherwise. We may also choose to make significant investment to pursue legal remedies against potential infringers of our intellectual property. If we decide to engage in such activities, or if our operating results fail to meet our expectations, we could be required to seek additional funding through public or private financings or other arrangements. In such event, adequate funds may not be available when needed, or, may be available only on terms which could have a negative impact on our business and results of operations. In addition, if we raise additional funds by issuing equity or convertible securities, dilution to then existing stockholders may result.

*7.875% Senior Notes*

During the third quarter of 2009, we sold a total of \$250.0 million aggregate principal amount of 7.875% senior notes due 2016, or the 7.875% senior notes, in two separate transactions. On August 11, 2009, we sold \$150.0 million aggregate principal amount of 7.875% senior notes in a public offering. Net proceeds from this offering amounted to approximately \$145.0 million, which was net of underwriters' commissions totaling \$2.2 million and original issue discount totaling \$2.8 million. The net proceeds were used to fund our acquisition of Concateno. At June 30, 2010, we had \$147.5 million in indebtedness under this issuance of our 7.875% senior notes.

**Table of Contents**

On September 28, 2009, we sold \$100.0 million aggregate principal amount of 7.875% senior notes in a private placement to initial purchasers, who agreed to resell the notes only to qualified institutional buyers or outside the United States. Net proceeds from this offering amounted to approximately \$95.0 million, which was net of the initial purchasers' original issue discount totaling \$3.5 million and offering expenses totaling approximately \$1.5 million. The net proceeds were used to partially fund our acquisition of Free & Clear. At June 30, 2010, we had \$96.8 million in indebtedness under this issuance of our 7.875% senior notes.

The 7.875% senior notes were issued under an indenture dated August 11, 2009, as amended or supplemented, the August 2009 Indenture. The 7.875% senior notes accrue interest from the dates of their respective issuances at the rate of 7.875% per year. Interest on the notes is payable semi-annually on February 1 and August 1, commencing on February 1, 2010. The notes mature on February 1, 2016, unless earlier redeemed.

We may redeem the 7.875% senior notes, in whole or part, at any time on or after February 1, 2013, by paying the principal amount of the notes being redeemed plus a declining premium, plus accrued and unpaid interest to, but excluding, the redemption date. The premium declines from 3.938% during the twelve months on and after February 1, 2013 to 1.969% during the twelve months on and after February 1, 2014 to zero on and after February 1, 2015. At any time prior to August 1, 2012, we may redeem up to 35% of the aggregate principal amount of the 7.875% senior notes with money that we raise in certain equity offerings so long as (i) we pay 107.875% of the principal amount of the notes being redeemed, plus accrued and unpaid interest to (but excluding) the redemption date; (ii) we redeem the notes within 90 days of completing such equity offering; and (iii) at least 65% of the aggregate principal amount of the 7.875% senior notes remains outstanding afterwards. In addition, at any time prior to February 1, 2013, we may redeem some or all of the 7.875% senior notes by paying the principal amount of the notes being redeemed plus the payment of a make-whole premium, plus accrued and unpaid interest to, but excluding, the redemption date.

If a change of control occurs, subject to specified conditions, we must give holders of the 7.875% senior notes an opportunity to sell their notes to us at a purchase price of 101% of the principal amount of the notes, plus accrued and unpaid interest to, but excluding, the date of the purchase.

If we or our subsidiaries engage in asset sales, we or they generally must either invest the net cash proceeds from such sales in our or their businesses within a specified period of time, prepay certain indebtedness or make an offer to purchase a principal amount of the 7.875% senior notes equal to the excess net cash proceeds, subject to certain exceptions. The purchase price of the notes will be 100% of their principal amount, plus accrued and unpaid interest.

The 7.875% senior notes are unsecured and are equal in right of payment to all of our existing and future senior debt, including our borrowing under our secured credit facilities. Our obligations under the 7.875% senior notes and the August 2009 Indenture are fully and unconditionally guaranteed, jointly and severally, on an unsecured senior basis by certain of our domestic subsidiaries, and the obligations of such domestic subsidiaries under their guarantees are equal in right of payment to all of their existing and future senior debt. See Note 21 for guarantor financial information.

The August 2009 Indenture contains covenants that will limit our ability and the ability of our subsidiaries to, among other things, incur additional debt; pay dividends on capital stock or redeem, repurchase or retire capital stock or subordinated debt; make certain investments; create liens on assets; transfer or sell assets; engage in transactions with affiliates; create restrictions on our or their ability to pay dividends or make loans, asset transfers or other payments to us or them; issue capital stock; engage in any business, other than our or their existing businesses and related businesses; enter into sale and leaseback transactions; incur layered indebtedness; and consolidate, merge or transfer all or substantially all of our or their assets, taken as a whole. These covenants are subject to certain exceptions and qualifications.

Interest expense related to our 7.875% senior notes for the three and six months ended June 30, 2010, including amortization of deferred financing costs and original issue discounts, was \$5.4 million and \$10.6 million, respectively. As of June 30, 2010, accrued interest related to the 7.875% senior notes amounted to \$8.2 million.

**Table of Contents***9% Senior Subordinated Notes*

On May 12, 2009, we completed the sale of \$400.0 million aggregate principal amount of 9% senior subordinated notes due 2016, or the 9% subordinated notes, in a public offering. Net proceeds from this offering amounted to \$379.5 million, which was net of underwriters' commissions totaling \$8.0 million and original issue discount totaling \$12.5 million. The net proceeds are intended to be used for general corporate purposes. At June 30, 2010, we had \$389.0 million in indebtedness under our 9% subordinated notes.

The 9% subordinated notes, which were issued under an indenture dated May 12, 2009, as amended or supplemented, the May 2009 Indenture, accrue interest from the date of their issuance, or May 12, 2009, at the rate of 9% per year. Interest on the notes is payable semi-annually on May 15 and November 15, commencing on November 15, 2009. The notes mature on May 15, 2016, unless earlier redeemed.

We may redeem the 9% subordinated notes, in whole or part, at any time on or after May 15, 2013, by paying the principal amount of the notes being redeemed plus a declining premium, plus accrued and unpaid interest to, but excluding, the redemption date. The premium declines from 4.50% during the twelve months after May 15, 2013 to 2.25% during the twelve months after May 15, 2014 to zero on and after May 15, 2015. At any time prior to May 15, 2012, we may redeem up to 35% of the aggregate principal amount of the 9% subordinated notes with money that we raise in certain equity offerings so long as (i) we pay 109% of the principal amount of the notes being redeemed, plus accrued and unpaid interest to (but excluding) the redemption date; (ii) we redeem the notes within 90 days of completing such equity offering; and (iii) at least 65% of the aggregate principal amount of the 9% subordinated notes remains outstanding afterwards. In addition, at any time prior to May 15, 2013, we may redeem some or all of the 9% subordinated notes by paying the principal amount of the notes being redeemed plus the payment of a make-whole premium, plus accrued and unpaid interest to, but excluding, the redemption date.

If a change of control occurs, subject to specified conditions, we must give holders of the 9% subordinated notes an opportunity to sell their notes to us at a purchase price of 101% of the principal amount of the notes, plus accrued and unpaid interest to, but excluding, the date of the purchase.

If we or our subsidiaries engage in asset sales, we or they generally must either invest the net cash proceeds from such sales in our or their businesses within a specified period of time, prepay senior debt or make an offer to purchase a principal amount of the 9% subordinated notes equal to the excess net cash proceeds, subject to certain exceptions. The purchase price of the notes will be 100% of their principal amount, plus accrued and unpaid interest.

The 9% subordinated notes are unsecured and are subordinated in right of payment to all of our existing and future senior debt, including our borrowing under our secured credit facilities. Our obligations under the 9% subordinated notes and the May 2009 Indenture are fully and unconditionally guaranteed, jointly and severally, on an unsecured senior subordinated basis by certain of our domestic subsidiaries, and the obligations of such domestic subsidiaries under their guarantees are subordinated in right of payment to all of their existing and future senior debt. See Note 21 for guarantor financial information.

The May 2009 Indenture contains covenants that will limit our ability and the ability of our subsidiaries to, among other things, incur additional debt; pay dividends on capital stock or redeem, repurchase or retire capital stock or subordinated debt; make certain investments; create liens on assets; transfer or sell assets; engage in transactions with affiliates; create restrictions on our or their ability to pay dividends or make loans, asset transfers or other payments to us or them; issue capital stock; engage in any business, other than our or their existing businesses and related businesses; enter into sale and leaseback transactions; incur layered indebtedness; and consolidate, merge or transfer all or substantially all of our or their assets, taken as a whole. These covenants are subject to certain exceptions and qualifications.

Interest expense related to our 9% subordinated notes for the three and six months ended June 30, 2010, including amortization of deferred financing costs and original issue discounts, was \$9.8 million and \$19.5 million, respectively. Interest expense related to our 9% subordinated notes for the three and six months ended June 30, 2009, including amortization of deferred financing costs and original issue discounts, was \$5.2 million. As of June 30, 2010, accrued interest related to the senior subordinated notes amounted to \$5.1 million.

**Table of Contents***Secured Credit Facilities*

As of June 30, 2010, we had approximately \$946.1 million in aggregate principal amount of indebtedness outstanding under our First Lien Credit Agreement and \$250.0 million in aggregate principal amount of indebtedness outstanding under our Second Lien Credit Agreement (collectively with the First Lien Credit Agreement, the secured credit facilities). Included in the secured credit facilities is a revolving line of credit of \$150.0 million, of which \$142.0 million was outstanding as of June 30, 2010. Under the terms of the secured credit facilities, substantially all of the assets of our U.S. subsidiaries are pledged as collateral. With respect to shares or ownership interests of foreign subsidiaries owned by U.S. entities, we have pledged 66% of such assets.

Interest on our First Lien indebtedness, as defined in the credit agreement, is as follows: (i) in the case of Base Rate Loans, at a rate per annum equal to the sum of the Base Rate and the Applicable Margin, each as in effect from time to time, (ii) in the case of Eurodollar Rate Loans, at a rate per annum equal to the sum of the Eurodollar Rate and the Applicable Margin, each as in effect for the applicable Interest Period, and (iii) in the case of other Obligations, at a rate per annum equal to the sum of the Base Rate and the Applicable Margin for Revolving Loans that are Base Rate Loans, each as in effect from time to time. The Base Rate is a floating rate which approximates the U.S. Prime rate and changes on a periodic basis. The Eurodollar Rate is equal to the LIBOR rate and is set for a period of one to three months at our election. Applicable margin with respect to Base Rate Loans is 1.00% and with respect to Eurodollar Rate Loans is 2.00%. Applicable margin ranges for our revolving line of credit with respect to Base Rate Loans is 0.75% to 1.25% and with respect to Eurodollar Rate Loans is 1.75% to 2.25%.

The outstanding indebtedness under the Second Lien Credit Agreement are term loans in the aggregate amount of \$250.0 million. Interest on these term loans, as defined in the credit agreement, is as follows: (i) in the case of Base Rate Loans, at a rate per annum equal to the sum of the Base Rate and the Applicable Margin, each as in effect from time to time, (ii) in the case of Eurodollar Rate Loans, at a rate per annum equal to the sum of the Eurodollar Rate and the Applicable Margin, each as in effect for the applicable Interest Period, and (iii) in the case of other Obligations, at a rate per annum equal to the sum of the Base Rate and the Applicable Margin for Base Rate Loans, as in effect from time to time. Applicable margin with respect to Base Rate Loans is 3.25% and with respect to Eurodollar Rate Loans is 4.25%.

For the three and six months ended June 30, 2010, interest expense, including amortization of deferred financing costs, under the secured credit facilities was \$15.8 million and \$31.5 million, respectively. For the three and six months ended June 30, 2009, interest expense, including amortization of deferred financing costs, under the secured credit facilities was \$15.9 million and \$31.8 million, respectively. As of June 30, 2010, accrued interest related to the secured credit facilities amounted to \$0.9 million. As of June 30, 2010, we were in compliance with all debt covenants related to the secured credit facility, which consisted principally of maximum consolidated leverage and minimum interest coverage requirements.

In August 2007, we entered into interest rate swap contracts, with an effective date of September 28, 2007, that have a total notional value of \$350.0 million and a maturity date of September 28, 2010. These interest rate swap contracts pay us variable interest at the three-month LIBOR rate, and we pay the counterparties a fixed rate of 4.85%. In March 2009, we extended our August 2007 interest rate hedge for an additional two-year period commencing in September 2010 at a one-month LIBOR rate of 2.54%. These interest rate swap contracts were entered into to convert \$350.0 million of the \$1.2 billion variable rate term loans under the secured credit facilities into fixed rate debt.

In January 2009, we entered into interest rate swap contracts, with an effective date of January 14, 2009, that have a total notional value of \$500.0 million and a maturity date of January 5, 2011. These interest rate swap contracts pay us variable interest at the one-month LIBOR rate, and we pay the counterparties a fixed rate of 1.195%. These interest rate swap contracts were entered into to convert \$500.0 million of the \$1.2 billion variable rate term loans under the secured credit facilities into fixed rate debt.

*3% Senior Subordinated Convertible Notes*

In May 2007, we sold \$150.0 million aggregate principal amount of 3% senior subordinated convertible notes, or senior subordinated convertible notes. At June 30, 2010, we had \$150.0 million in indebtedness under our senior

subordinated convertible notes. The senior subordinated convertible notes are convertible into 3.4 million shares of our common stock at a conversion price of \$43.98 per share.

Interest expense related to our senior subordinated convertible notes for the three and six months ended June 30, 2010, including amortization of deferred financing costs, was \$1.2 million and \$2.5 million, respectively. Interest expense related to our senior subordinated convertible notes for the three and six months ended June 30, 2009, including amortization of deferred financing costs, was \$1.2 million and \$2.5 million, respectively. As of June 30, 2010, accrued interest related to the senior subordinated convertible notes amounted to \$0.6 million.

*Series B Convertible Perpetual Preferred Stock*

As of June 30, 2010, we had 2.0 million shares of our Series B preferred stock issued and outstanding. Each share of Series B preferred stock, which has a liquidation preference of \$400.00 per share, is convertible, at the option of the holder and only upon certain circumstances, into 5.7703 shares of our common stock, plus cash in lieu of fractional shares. The initial conversion price is \$69.32 per share, subject to adjustment upon the occurrence of certain events, but will not be adjusted for accumulated and unpaid dividends. Upon a conversion of these shares of Series B preferred stock, we may, at our option and in our sole discretion, satisfy the entire conversion obligation in cash, or through a combination of cash and common stock, to the extent permitted under our secured credit facilities and under Delaware law. There were no conversions as of June 30, 2010.

*Summary of Changes in Cash Position*

As of June 30, 2010, we had cash and cash equivalents of \$266.0 million, a \$226.7 million decrease from December 31, 2009. Our primary sources of cash during the six months ended June 30, 2010 included \$133.8 million generated by our operating activities, \$63.4 million received from the sale of our vitamins and nutritional supplements business, an \$8.8 million return of capital from SPD, and \$13.0 million from common stock issuances under employee stock option and stock purchase plans. Our primary uses of cash during the six months ended June 30, 2010 related to \$377.1 million net cash paid for acquisitions and transactional costs, \$41.4 million of capital expenditures, net of proceeds from the sale of equipment, \$4.9 million in repayment of long-term debt and \$4.7 million related to net repayments under our revolving lines of credit, other debt and capital lease obligations. Fluctuations in foreign currencies negatively impacted our cash balance by \$13.5 million during the six months ended June 30, 2010.

*Cash Flows from Operating Activities*

Net cash provided by operating activities during the six months ended June 30, 2010 was \$133.8 million, which resulted from net income from continuing operations of \$0.2 million and \$170.4 million of non-cash items, offset by \$36.8 million of cash used to meet net working capital requirements during the period. The \$170.4 million of non-cash items included, among various other items, \$183.2 million related to depreciation and amortization, \$15.7 million related to non-cash stock-based compensation expense and \$7.2 million of interest expense related to the amortization of deferred financing costs and original issue discounts, partially offset by a \$23.0 million decrease primarily related to changes in our deferred tax assets and deferred tax liabilities for current year losses and tax loss carryforwards and \$8.3 million in equity earnings in unconsolidated entities.

*Cash Flows from Investing Activities*

Our investing activities during the six months ended June 30, 2010 utilized \$350.2 million of cash, including \$377.1 million net cash paid for acquisitions and transaction-related costs and \$41.4 million of capital expenditures, net of proceeds from the sale of equipment, offset by \$63.4 million received for the sale of our vitamins and nutritional supplements business and a \$4.9 million net decrease in investments and other assets, which was primarily driven by an \$8.8 million return of capital from SPD.

*Cash Flows from Financing Activities*

Net cash provided by financing activities during the six months ended June 30, 2010 was \$3.1 million. Financing activities during the six months ended June 30, 2010 primarily included \$13.0 million cash received from common

stock issuances under employee stock option and stock purchase plans and \$1.2 million related to the excess tax benefit on exercised stock options, offset by \$4.9 million in repayments of long-term debt, \$1.5 million paid for financing costs related to certain debt issuances and \$4.7 million related to net repayments under our revolving lines-of-credit, other debt and capital lease obligations.

As of June 30, 2010, we had an aggregate of \$3.2 million in outstanding capital lease obligations which are payable through 2015.

**Income Taxes**

As of December 31, 2009, we had approximately \$184.5 million of domestic net operating loss, or NOL, and capital loss carryforwards and \$33.5 million of foreign NOL and capital loss carryforwards, respectively, which either expire on various dates through 2028 or may be carried forward indefinitely. These losses are available to reduce federal, state and foreign taxable income, if any, in future years. These losses are also subject to review and possible adjustments by the applicable taxing authorities. In addition, the domestic NOL carryforward amount at December 31, 2009 included approximately \$143.3 million of pre-acquisition losses at Matria Healthcare, Inc., QAS, ParadigmHealth, Inc., Biosite Incorporated, Cholestech Corporation, Redwood Toxicology Laboratory, Inc., HemoSense, Inc., Inverness Medical Nutritionals Group, Ischemia, Inc. and Ostex International, Inc. Effective January 1, 2009, we adopted a new accounting standard for business combinations. Prior to adoption of this standard, the pre-acquisition losses were applied first to reduce to zero any goodwill and other non-current intangible assets related to the acquisitions, prior to reducing our income tax expense. Upon adoption of the new accounting standard, the reduction of a valuation allowance is generally recorded to reduce our income tax expense.

Furthermore, all domestic losses are subject to the Internal Revenue Service Code Section 382 limitation and may be limited in the event of certain cumulative changes in ownership interests of significant shareholders over a three-year period in excess of 50%. Section 382 imposes an annual limitation on the use of these losses to an amount equal to the value of the company at the time of the ownership change multiplied by the long-term tax exempt rate. We have recorded a valuation allowance against a portion of the deferred tax assets related to our NOLs and certain of our other deferred tax assets to reflect uncertainties that might affect the realization of such deferred tax assets, as these assets can only be realized via profitable operations.

**Off-Balance Sheet Arrangements**

We had no material off-balance sheet arrangements as of June 30, 2010.

**Contractual Obligations**

The following table summarizes our principal contractual obligations as of June 30, 2010 that have changed significantly since December 31, 2009 and the effects such obligations are expected to have on our liquidity and cash flow in future periods. Contractual obligations that were presented in our Annual Report on Form 10-K, as amended, for the year ended December 31, 2009, but omitted in the table below, represent those that have not changed significantly since that date (in thousands):

	Total	Payments Due by Period			Thereafter

**Table of Contents**

In addition, we have contractual contingent consideration obligations related to the following acquisitions:

Accordant has a maximum earn-out of \$6.0 million that, if earned, will be paid in quarterly payments of \$1.5 million beginning in the fourth quarter of 2012.

Ameditech, Inc., or Ameditech, has a maximum earn-out of \$4.0 million that, if earned, will be paid during 2010 and 2011.

Free & Clear has a maximum earn-out of \$30.0 million that, if earned, will be paid in 2011.

Jinsung Meditech, Inc., or JSM, has a maximum earn-out of \$3.0 million that, if earned, will be paid in annual amounts during 2011 through 2013.

Mologic Limited, or Mologic, has a maximum earn-out of \$19.0 million that, if earned, will be paid in annual amounts during 2011 and 2012, and is payable in shares of our common stock.

Tapestry has a maximum earn-out of \$25.0 million that, if earned, will be paid in annual amounts during 2011 and 2013. The earn-out is to be paid in shares of our common stock, except in the case that the 2010 financial targets defined under the earn-out agreement are exceeded, in which case the seller may elect to be paid the earn-out relating to the 2010 financial targets in cash.

The privately-owned research and development operation acquired in March 2010 has a maximum earn-out of up to \$125.0 million that, if earned, will be paid during an eight-year period ending on the eighth anniversary of the acquisition.

Vision Biotech Pty Ltd, or Vision, has a maximum remaining earn-out of \$1.2 million that, if earned, will be paid in 2010.

The privately-owned health management business acquired in 2008 has an earn-out that, if earned, will be paid in 2011.

For further information pertaining to our contractual contingent consideration obligations see Note 17 of our accompanying consolidated financial statements.

**Distribution agreement with Epocal**

In November 2009, we entered into a distribution agreement with Epocal, Inc., or Epocal, to distribute the epoc<sup>®</sup> Blood Analysis System for blood gas and electrolyte testing for \$20.0 million, which is recorded on our accompanying consolidated balance sheet in other intangible assets, net. We also entered into a definitive agreement to acquire all of the issued and outstanding equity securities of Epocal for a total potential purchase price of up to \$255.0 million, including a base purchase price of up to \$172.5 million if Epocal achieves certain gross margin and other financial milestones on or prior to October 31, 2014, plus additional payments of up to \$82.5 million if Epocal achieves certain other milestones relating to its gross margin and product development efforts on or prior to this date. We also agreed that, if the acquisition is consummated, we will provide \$12.5 million in management incentive arrangements, 25% of which will vest over three years and 75% of which will be payable only upon the achievement of certain milestones. The acquisition will also be subject to other closing conditions, including the receipt of any required antitrust or other approvals.

**Option agreement with P&G**

In connection with the formation of SPD in May 2007, we entered into an option agreement with P&G, pursuant to which P&G has the right, for a period of 60 days commencing on the fourth anniversary date of the agreement, to require us to acquire all of P&G's interest in SPD at fair market value, and P&G has the right, upon certain material breaches by us of our obligations to SPD, to acquire all of our interest in SPD at fair market value. No gain on the proceeds that we received from P&G through the formation of SPD will be recognized in our financial statements until P&G's option to require us to purchase its interest in SPD expires. If P&G chooses to exercise its option, the deferred gain carried on our books would be reversed in connection with the repurchase transaction. As of June 30, 2010, the deferred gain of \$287.7 million is presented as a current liability on our accompanying consolidated balance sheet.

**Table of Contents****Put arrangement with minority shareholder in Standard Diagnostics**

We entered into a put arrangement as part of a shareholder agreement with respect to the common securities that represent the 21.25% non-controlling interest of a certain minority shareholder in Standard Diagnostics. This put arrangement is exercisable at KRW 40,000 per share by the counterparty upon the occurrence of certain events which are outside of our control. As a result, this non-controlling interest is classified as mezzanine equity on our accompanying consolidated balance sheet as of June 30, 2010. The redeemable non-controlling interest was recorded at its fair value of KRW 57.9 billion, or \$49.2 million, as of the consummation of the transaction on February 8, 2010. The redeemable put arrangement has an estimated redemption price of KRW 65.4 billion, or \$53.7 million, as of June 30, 2010. The redeemable non-controlling interest will be accreted to the redemption price, through equity, at the point at which the redemption becomes probable. In addition, if the put is exercised, we will incur a penalty in the amount of KRW 63.0 billion, or approximately \$51.7 million at June 30, 2010, which will be accounted for as compensation expense at the time of exercise.

**Critical Accounting Policies**

The discussion and analysis of our financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements in accordance with generally accepted accounting principles requires us to make estimates and judgments that may affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On a quarterly basis, we evaluate our estimates, including those related to revenue recognition and related allowances, bad debt, inventory, valuation of long-lived assets, including intangible assets and goodwill, income taxes, including any valuation allowance for our net deferred tax assets, contingencies and litigation, and stock-based compensation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions.

There have been no significant changes in our critical accounting policies or management estimates since the year ended December 31, 2009. A comprehensive discussion of our critical accounting policies and management estimates is included in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K, as amended, for the year ended December 31, 2009.

**Recent Accounting Pronouncements**

See Note 18 in the notes to the consolidated financial statements included in this Quarterly Report on Form 10-Q, as amended, regarding the impact of certain recent accounting pronouncements on our consolidated financial statements.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The following discussion of our market risk disclosures involves forward-looking statements. Actual results could differ materially from those discussed in the forward-looking statements. We are exposed to market risk related to changes in interest rates and foreign currency exchange rates. We do not use derivative financial instruments for speculative or trading purposes.

**Interest Rate Risk**

We are exposed to market risk from changes in interest rates primarily through our investing and financing activities. In addition, our ability to finance future acquisition transactions or fund working capital requirements may be impacted if we are not able to obtain appropriate financing at acceptable rates.

Our investing strategy to manage interest rate exposure is to invest in short-term highly-liquid investments. Our investment policy also requires investment in approved instruments with an initial maximum allowable maturity of eighteen months and an average maturity of our portfolio that should not exceed six months, with at least \$500,000 cash available at all times. Currently, our short-term investments are in money market funds with original maturities of 90 days or less. At June 30, 2010, the carrying value of our short-term investments approximated market value.

**Table of Contents**

At June 30, 2010, we had term loans in the amount of \$946.1 million and a revolving line of credit available to us of up to \$150.0 million, of which \$142.0 million was outstanding as of June 30, 2010, under our First Lien Credit Agreement. Interest on these term loans, as defined in the credit agreement, is as follows: (i) in the case of Base Rate Loans, at a rate per annum equal to the sum of the Base Rate and the Applicable Margin, each as in effect from time to time, (ii) in the case of Eurodollar Rate Loans, at a rate per annum equal to the sum of the Eurodollar Rate and the Applicable Margin, each as in effect for the applicable Interest Period, and (iii) in the case of other Obligations, at a rate per annum equal to the sum of the Base Rate and the Applicable Margin for Revolving Loans that are Base Rate Loans, each as in effect from time to time. The Base Rate is a floating rate which approximates the U.S. Prime rate and changes on a periodic basis. The Eurodollar Rate is equal to the LIBOR rate and is set for a period of one to three months at our election. Applicable margin with respect to Base Rate Loans is 1.00% and with respect to Eurodollar Rate Loans is 2.00%. Applicable margin ranges for our revolving line of credit with respect to Base Rate Loans is 0.75% to 1.25% and with respect to Eurodollar Rate Loans is 1.75% to 2.25%.

At June 30, 2010, we also had term loans in the amount of \$250.0 million under our Second Lien Credit Agreement. Interest on these term loans, as defined in the credit agreement, is as follows: (i) in the case of Base Rate Loans, at a rate per annum equal to the sum of the Base Rate and the Applicable Margin, each as in effect from time to time, (ii) in the case of Eurodollar Rate Loans, at a rate per annum equal to the sum of the Eurodollar Rate and the Applicable Margin, each as in effect for the applicable Interest Period, and (iii) in the case of other Obligations, at a rate per annum equal to the sum of the Base Rate and the Applicable Margin for Base Rate Loans, as in effect from time to time. Applicable margin with respect to Base Rate Loans is 3.25% and with respect to Eurodollar Rate Loans is 4.25%.

In August 2007, we entered into interest rate swap contracts, with an effective date of September 28, 2007, that have a total notional value of \$350.0 million and a maturity date of September 28, 2010. These interest rate swap contracts pay us variable interest at the three-month LIBOR rate, and we pay the counterparties a fixed rate of 4.85%. In March 2009, we extended our August 2007 interest rate hedge for an additional two-year period commencing in September 2010 at a one-month LIBOR rate of 2.54%. These interest rate swap contracts were entered into to convert \$350.0 million of the \$1.2 billion variable rate term loans under the senior credit facility into fixed rate debt.

In January 2009, we entered into interest rate swap contracts, with an effective date of January 14, 2009, that have a total notional value of \$500.0 million and a maturity date of January 5, 2011. These interest rate swap contracts pay us variable interest at the one-month LIBOR rate, and we pay the counterparties a fixed rate of 1.195%. These interest rate swap contracts were entered into to convert \$500.0 million of the \$1.2 billion variable rate term loans under the secured credit facility into fixed rate debt.

Assuming no changes in our leverage ratio, which would affect the margin of the interest rates under the credit agreements, the effect of interest rate fluctuations on outstanding borrowings as of June 30, 2010 over the next twelve months is quantified and summarized as follows (in thousands):

	<b>Interest Expense Increase</b>
Interest rates increase by 100 basis points	\$ 4,881
Interest rates increase by 200 basis points	\$ 9,763

**Foreign Currency Risk**

We face exposure to movements in foreign currency exchange rates whenever we, or any of our subsidiaries, enter into transactions with third parties that are denominated in currencies other than our, or its, functional currency. Intercompany transactions between entities that use different functional currencies also expose us to foreign currency risk. During the three and six months ended June 30, 2010, the net impact of foreign currency changes on transactions was a gain of \$3.6 million and \$3.4 million, respectively. Generally, we do not use derivative financial instruments or other financial instruments with original maturities in excess of three months to hedge such economic exposures.

**Table of Contents**

Gross margins of products we manufacture at our foreign plants and sell in U.S. Dollars and manufactured by our U.S. plants and sold in currencies other than the U.S. dollar are also affected by foreign currency exchange rate movements. Our gross margin on total net product sales was 52.4% for the three months ended June 30, 2010. If the U.S. Dollar had been stronger by 1%, 5% or 10%, compared to the actual rates during the three months ended June 30, 2010, our gross margin on total net product sales would have been 52.4%, 52.7% or 53.0%, respectively. Our gross margin on total net product sales was 52.8% for the six months ended June 30, 2010. If the U.S. Dollar had been stronger by 1%, 5% or 10%, compared to the actual rates during the six months ended June 30, 2010, our gross margin on total net product sales would have been 52.9%, 53.1% or 53.5%, respectively.

In addition, because a substantial portion of our earnings is generated by our foreign subsidiaries, whose functional currencies are other than the U.S. Dollar (in which we report our consolidated financial results), our earnings could be materially impacted by movements in foreign currency exchange rates upon the translation of the earnings of such subsidiaries into the U.S. Dollar. If the U.S. Dollar had been uniformly stronger by 1%, 5% or 10%, compared to the actual average exchange rates used to translate the financial results of each of our foreign subsidiaries, our net product sales revenue and our net income would have been impacted by approximately the following amounts (in thousands):

	<b>Approximate decrease in net revenue</b>	<b>Approximate decrease in net income</b>
<b>If, during the three months ended June 30, 2010, the U.S. dollar was stronger by:</b>		
1%	\$ 1,437	\$ 106
5%	\$ 7,183	\$ 528
10%	\$ 14,366	\$ 1,057
	<b>Approximate decrease in net revenue</b>	<b>Approximate decrease in net income</b>
<b>If, during the six months ended June 30, 2010, the U.S. dollar was stronger by:</b>		
1%	\$ 2,901	\$ 303
5%	\$ 14,504	\$ 1,516
10%	\$ 29,008	\$ 3,031

**Table of Contents****ITEM 4. CONTROLS AND PROCEDURES***Evaluation of Disclosure Controls and Procedures*

Our management evaluated, with the participation of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on this evaluation, our management, including the CEO and CFO, concluded that our disclosure controls and procedures were effective at that time. We and our management understand nonetheless that controls and procedures, no matter how well designed and operated, can provide only reasonable assurances of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating and implementing possible controls and procedures. In reaching their conclusions stated above regarding the effectiveness of our disclosure controls and procedures, our CEO and CFO concluded that such disclosure controls and procedures were effective as of such date at the reasonable assurance level.

*Changes in Internal Control over Financial Reporting*

There was no change in our internal control over financial reporting that occurred during the most recent fiscal quarter covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**PART II OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

There are no material changes or additions to any of the material pending legal proceedings or other matters previously disclosed in Part I, Item 3, Legal Proceedings, of our Annual Report on Form 10-K, as amended, for the year ended December 31, 2009, or in Part II, Item 1, Legal Proceedings of any Quarterly Report filed subsequent to the Annual Report on Form 10-K, other than as set forth below.

*Healthways, Inc. and Robert Bosch North America Corp., v. Alere, Inc.*

The parties to this litigation entered into a settlement which included an exchange of cross-licenses of certain patent rights, and an order of dismissal was entered by the Court on May 17, 2010. Accordingly, this matter has concluded. As part of the settlement, we also resolved previously disclosed infringement claims brought by Health Hero Network, Inc., a subsidiary of Robert Bosch North America Corp.

**ITEM 1A. RISK FACTORS**

There have been no material changes from the Risk Factors previously disclosed in Part I, Item 1A, Risk Factors, of our Annual Report on Form 10-K, as amended, for the fiscal year ending December 31, 2009, except for the following:

**Healthcare reform legislation could adversely affect our revenue and financial condition.**

The Patient Protection and Affordable Care Act of 2010 (as amended by the Health Care and Education Reconciliation Act of 2010), or the PPACA, makes comprehensive reforms at the federal and state level affecting the coverage and payment for healthcare services in the United States. These provisions include comprehensive health insurance reforms and expansion of coverage of the uninsured, and long-term payment reforms to Medicare, Medicaid and other government programs. In particular, federal legislation has significantly altered Medicare Advantage reimbursements by setting the federal benchmark payment closer to the payments in the traditional Medicare program. This change could reduce our revenues from the Medicare Advantage plans for which we perform services, although the effect on any particular plan, much less the impact on us, is impossible to predict. Effective January 1, 2013, the legislation includes a 2.3% excise tax on the sale of certain medical devices. Legislative provisions impose federal reporting requirements regarding payments or relationships between manufacturers of covered drugs, devices or biological or medical supplies and physicians, among others.

**Table of Contents**

Legislative and regulatory bodies are likely to continue to pursue healthcare reform initiatives and may continue to reduce the funding of the Medicare and Medicaid programs, including Medicare Advantage, in an effort to reduce overall federal healthcare spending. The ultimate impact of all of the reforms in the PPACA, and its impact on us, is impossible to predict. If all of the reforms in the legislation are implemented, or if other reforms in the United States or elsewhere are adopted, those reforms may have an adverse effect on our financial condition and results of operations.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

During the period covered by this report, we issued 5,245 shares of our common stock upon the net exercise of warrants to purchase 39,098 shares of our common stock, resulting in aggregate non-cash consideration to us of \$1,164,338, and 7,055 shares of our common stock upon the exercise of warrants for cash, resulting in aggregate proceeds to us of \$43,040. The warrants were either issued in 2001 in connection with our formation or issued or assumed by us in private placements relating to various acquisitions. The shares issued upon exercise of the warrants were offered and sold pursuant to the exemption from registration afforded by Section 4(2) of the Securities Act of 1933, as amended.

On April 7, 2010, we issued 9,613 shares of restricted common stock as part of compensation packages to certain key executives in connection with our acquisition of Quantum. We relied on the exemptions from registration afforded by Regulation S under the Securities Act and Section 4(2) of the Securities Act.

On June 7, 2010, we issued a total of 470,412 shares of common stock to settle a deferred purchase price obligation related to our April 2009 acquisition of certain assets of the ACON Second Territory Business. We relied on the exemptions from registration afforded by Regulation S under the Securities Act and Section 4(2) of the Securities Act.
