Yes No

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82

**CGGVeritas Provides its Vessel Utilization
Update for the First Quarter 2011**

PARIS, France April 8 2011

CGGVeritas (ISIN: 0000120164 NYSE: CGV) provides its vessel utilization and its fleet allocation updates for the first quarter of 2011.

Vessel utilization for the first quarter 2011:

The **vessel availability rate** was **81%** including 13% for the on-going upgrades of the Master and the Endeavour as part of our performance plan. This compares to a 84% availability rate in the fourth quarter of 2010 and a 90% rate in the first quarter of 2010.

The **vessel production rate** was **80%** following operational interruptions that resulted from maritime incidents and piracy risks which led to stand-by, additional transit and non-planned shipyards. This compares to a 92% production rate in the fourth quarter of 2010 and a 92% rate in the first quarter of 2010.

Fleet allocation update for the first quarter 2011:

During the first quarter of 2011, our 3D vessels were allocated 94% to contract and 6% to multi-client programs.

Multi-client sales for the first quarter 2011:

Following very strong seasonal sales in the fourth quarter of 2010, multi-client sales were low this quarter.

- ¹ - The **vessel availability rate**, a metric measuring the structural availability of our vessels to meet demand; this metric is related to the entire fleet, and corresponds to the total vessel time reduced by the standby time between contracts, the shipyard time and the steaming time (the available time), all divided by total vessel time;
- ² - The **vessel production rate**, a metric measuring the effective utilization of the vessels once available; this metric is related to the entire fleet, and corresponds to the available time reduced by the operational downtime, all then divided by available time.

About CGGVeritas

CGGVeritas (www.cggveritas.com) is a leading international pure-play geophysical company delivering a wide range of technologies, services and equipment through Sercel, to its broad base of customers mainly throughout the global oil and gas industry.
