The Company

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

Home Properties of New York, Inc. ("Home Properties" or the "Company") is a self-administered and self-managed real estate investment trust ("REIT") that owns, manages, acquires, rehabilitates and develops apartment communities. The Company's properties are regionally focused in the Northeastern, Mid-Atlantic and Midwestern United States. It was formed in November, 1993, to continue and expand the operations of Home Leasing Corporation ("Home Leasing"). The Company completed an initial public offering of 5,408,000 shares of common stock (the "IPO") on August 4, 1994.

The Company conducts its business through Home Properties of New York, L.P. (the "Operating Partnership"), a New York limited partnership in which the Company held a 60.0% partnership interest as of December 31, 2001 (57.6% at December 31, 2000) (such interest has been calculated as the percentage of outstanding common shares divided by the total outstanding common shares and Operating Partnership Units outstanding) and two management companies (together, the "Management Companies") - Home Properties Management, Inc. ("HP Management") and Home Properties Resident Services, Inc. ("HPRS") (formerly Conifer Realty Corporation), both of which are Maryland corporations.

Home Properties, through its affiliates described above, as of December 31, 2001, operated 293 communities with 49,745 apartment units. Of these, 39,007 units in 143 communities are owned outright (the "Owned Properties"), 8,035 units in 132 communities are managed and partially owned by the Company as general partner, and 2,703 units in 18 communities are managed for other owners (collectively, the "Managed Properties"). The Management Companies and the Operating Partnership, prior to 2001, were also involved in certain development activities.

The Owned Properties and the Managed Properties (collectively, the "Properties") are concentrated in the following market areas:

The Company's mission is to maximize shareholder value by acquiring, rehabilitating, and managing apartment communities while enhancing the quality of life for its residents, improving the broader communities in which the Company operates, providing employees with opportunities for growth and accomplishment, and demonstrating personal integrity and dedication at all times.

The Company's business strategies include: (i) aggressively managing and improving its communities to achieve increased net operating income; (ii) acquiring additional apartment communities with attractive returns at prices significantly below replacement costs; and (iii) maintaining a conservative capital structure with cost effective access to the capital markets.

Structure

The Company was formed in November, 1993 as a Maryland corporation and is the general partner of the Operating Partnership. On December 31, 2001, it owned a 62.9% interest in the Operating Partnership - one percent as sole general partner and the remainder as a limited partner through its wholly owned subsidiary, Home Properties Trust. A portion of the limited partner interests held by Home Properties Trust as of December 31, 2001 consisted of all of the Series B, C, D, and E Limited Partnership Units (3,150,000 units, or 7.3% of the total). Those preferred interests in the Operating Partnership have rights and preferences that mirror the rights and preferences of the holders of the related series of preferred shares in the Company held by GE Capital Equity Investment, Inc., an affiliate of Prudential Real Estate Investors, Teachers Insurance and Annuity Association of America, affiliates of AEW Capital Management and Pacific Life Insurance Company, and The Equitable Life Assurance Society of the United States. The remaining units (23,579,226 or 54.6% of the total) held by Home Properties Trust have basically the same rights as the other limited partner interests (the "Units") in the Operating Partnership. Those other Units are owned by certain individuals who received Units in the Operating Partnership as partial consideration for their interests in entities owning apartment communities purchased by the Operating Partnership, as well as certain officers of the Company.

The Operating Partnership is a New York limited partnership formed in December, 1993. Holders of Units in the Operating Partnership may redeem a Unit for one share of the Company's common stock or cash equal to the fair market value at the time of the redemption, at the option of the Company. Management expects that it will continue to utilize Units as a form of consideration for a significant portion of its acquisition properties.

Both of the Management Companies are Maryland corporations and, effective January 1, 2001, both converted to taxable REIT subsidiaries under the Tax Relief Extension Act of 1999. HP Management was formed in January, 1994 and HPRS was formed in December, 1995. As of December 31, 2001, the Operating Partnership held 95% of the economic interest in HP Management and 99% of the economic interest in HPRS. Nelson and Norman

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

Leenhouts (the "Leenhouts") hold the remaining five percent and one percent interest, respectively. The Management Companies manage, for a fee, certain of the residential, commercial and development activities of the Company and provide construction, development and redevelopment services for the Company.

In September, 1997, Home Properties Trust ("QRS") was formed as a Maryland real estate trust and as a qualified REIT subsidiary, with 100% of its shares being owned by the Company. The QRS has been admitted as a limited partner of the Operating Partnership and the Company transferred all but one percent of its interest in the Operating Partnership to the QRS.

The Company currently has approximately 2,000 employees and its executive offices are located at 850 Clinton Square, Rochester, New York 14604. Its telephone number is (585) 546-4900.

4

Operating Strategies

The Company will continue to focus on enhancing the investment returns of its Properties by: (i) acquiring apartment communities at prices below new construction costs and repositioning those properties for long-term growth; (ii) recycling assets by disposing of properties that have reached their potential or are less efficient to operate due to size or remote location; (iii) reinforcing its decentralized company philosophy by encouraging employees' personal improvement and by providing extensive training; (iv) enhancing the quality of living for the Company's residents by improving the quality of service and physical amenities available at each community every year; (v) readily adopting new technology so that the time and cost spent on administration can be minimized and the time spent attracting and serving residents can be maximized; (vi) continuing to utilize its written "Pledge" of customer satisfaction that is the foundation on which the Company has built its name-brand recognition; and (vii) engaging in aggressive cost controls and taking advantage of volume discounts, thus benefiting from economies of scale while constantly improving the level of customer service.

Acquisition, Sale and Development Strategies

The Company's core strategy is to grow primarily through acquisitions in geographic regions that have similar climates, easy access to the Company's headquarters, enough apartments available for acquisition to achieve a critical mass and minimal investment ownership by other apartment REITs. Targeted markets also possess other characteristics similar to the Company's existing markets, including a limited amount of new construction, acquisition opportunities below replacement costs, a mature housing stock and stable or moderate job growth. The Company expects that its growth will be focused in select metropolitan areas within the Northeast, Mid-Atlantic and Midwestern regions of the United States, where it has already established a presence. The six major metropolitan areas the Company will focus on include Baltimore/Washington, Boston, Chicago, Detroit, New York, and Philadelphia. The Company expects to maintain or grow existing portfolios in other markets as economic/market conditions permit. Continued geographic specialization is expected to have a greater impact on operating

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

efficiencies versus widespread accumulation of properties. The Company will continue to pursue the acquisition of individual properties as well as multi-property portfolios. It may also consider strategic investments in other apartment companies.

During 2001, the Company completed the sale of 14 communities with a total of 2,855 units for a total consideration of approximately \$122 million. The properties sold were either in slower growth markets or less efficient to operate due to their remote locations and/or smaller size. Over 50% of the properties sold were in the Upstate New York Region. The Company was able to achieve targeted price levels and reinvest the proceeds at higher returns. The Company reinvested proceeds by repurchasing 1.2 million common shares and UPREIT Units at an aggregate cost of \$32.5 million, or an average of \$27.08 per share/unit. In addition, the Company recycled the proceeds from those properties that were expected to produce an unleveraged internal rate of return ("IRR") from 9% to 10% with the purchase of properties expected to produce an unleveraged IRR of at least 12%. Several of the properties sold were originally acquired through UPREIT transactions; as a result, Section 1031 exchanges were used to defer taxable gains of the UPREIT investor.

The Company will continue to contemplate the sale of several of its mature communities. The Company has identified seven communities with over 1,700 units for potential sale during 2002. The total estimated value of these communities is \$100 million. The communities are spread over several markets, where they are less efficient to operate due to their remote locations and/or their small size. The Company will not sell these properties; however, unless it achieves targeted prices at levels which would allow it to reinvest the proceeds at higher returns by making acquisitions with repositioning potential. Several of these properties were originally acquired through UPREIT transactions, so that sales will have to be matched with suitable acquisitions using tax deferred exchanges.

5

Effective December 31, 2000, the Company sold its affordable housing development operations to Conifer, LLC. With the growth in the Company's owned portfolio of market-rate properties, the Company concluded that the affordable development activities required a disproportionate allocation of financial and management resources. The Company intends to minimize its involvement in the complex development and re-development of apartment communities utilizing various government programs. However, the Company retained the property management operations for 8,325 apartment units in 136 existing affordable communities. These activities are expected to generate ongoing management fees, incentive management fees and participation in residual value. They also increase the Company's volume purchasing ability, and position the Company to build market rate or affordable communities when and if market factors warrant.

Financing and Capital Strategies

The Company intends to adhere to the following financing policies: (i) maintaining a ratio of debt-to-total market capitalization (total debt of the Company as a percentage of the market value of outstanding diluted common stock and Units plus total debt) of approximately 50% or less; (ii) utilizing primarily fixed rate debt; (iii) varying debt

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

maturities to avoid significant exposure to interest rate changes upon refinancing; and (iv) maintaining a line of credit so that it can respond quickly to acquisition opportunities.

On December 31, 2001, the Company's debt was approximately \$993 million and the debt-to-total market capitalization ratio was 41% based on the year-end closing price of the Company's stock of \$31.60. The weighted average interest rate on the Company's mortgage debt as of December 31, 2001 was 7.2% and the weighted average maturity was approximately ten years. Debt maturities are staggered, ranging from August, 2002, through June, 2036. As of December 31, 2001, the Company had an unsecured line of credit facility from M&T Bank of \$100 million. This facility is available for acquisition and other corporate purposes and bears an interest rate at 1.25% over the one-month LIBOR rate. As of December 31, 2001, there was \$33 million in outstanding borrowings on the line of credit.

Management expects to continue to fund a significant portion of its continued growth by taking advantage of its UPREIT structure and using Units as currency in acquisition transactions. The Company issued approximately \$19 million worth of Units as partial consideration in acquisition transactions during 2001.

The Company also intends to continue to pursue other equity transactions to raise capital with limited transaction costs. In 2000, an aggregate of \$115 million of Series C, D and E Convertible Cumulative Preferred Stock ("Series C Preferred", "Series D Preferred" and "Series E Preferred") was issued in four private sales to an affiliate of Prudential Real Estate Investors, Teachers Insurance and Annuity Association of America, an affiliate of AEW Capital Management, and Pacific Life Insurance Company, and The Equitable Life Assurance Society of the United States.

The Company raised approximately \$32 million in 2001 under its Dividend Reinvestment and Direct Stock Purchase Plan (the "Dividend Reinvestment Plan"). Effective April 10, 2001, the Dividend Reinvestment Plan was amended to reduce the discount from the current market price from 3% to 2%. The maximum amount that can be invested without the Company's prior approval was reduced from \$5,000 to \$1,000. These changes were implemented to minimize amounts raised under the Dividend Reinvestment Plan at a time when the Company's common stock was trading below the Company's estimate of net asset value.

In 2001, the Company also announced a 1,000,000 share increase in management's authorization to buy back the Company's outstanding common stock. Shares may be repurchased through the open market or in privately-negotiated transactions. The Company's strategy is to opportunistically repurchase shares at a discount to its underlying net asset value, thereby continuing to build value for long-term shareholders. In 2001, the Company repurchased 754,600 of its shares of common stock for an aggregate price of \$20,600,000 (an average of

6

\$27.32 per share) and 436,700 UPREIT Units at an aggregate cost of \$11,900,000 (an average of \$27.25 per unit).

Competition

The Company competes with other multifamily owners and operators and other real estate companies in seeking properties for acquisition, and potential residents. The Company's Properties are primarily in developed areas where there are other properties of the same type which directly compete for residents. The Company, however, believes that its focus on service and resident satisfaction will enable it to continue to maintain its occupancy levels. The Company also believes that the moderate level of new construction of multifamily properties in its markets in 2001 will not have a material adverse effect on its turnover rates, occupancies or ability to increase rents and minimize operating expenses. To date, the Company has faced limited competition in acquiring properties from other REITs or other operators from outside its regional focus. The Company may encounter competition as it seeks attractive properties in broader geographic areas. Given the perceived depth of available opportunities, management does not believe that increased competition will result in the Company's not being able to meet its growth expectations.

Market Environment

From the IPO through 2000, the markets in which Home Properties operates could be characterized as stable, with moderate levels of job growth. During 2001, the national recession resulted in negative job growth for both the country as a whole and the Company's markets. The Company's markets compared favorably to national averages, with a 0.4% reduction in jobs verses a 0.8% reduction nationally.

New construction in the Company's markets is low, relative to the existing multifamily housing stock and, for the past two decades, has been limited, with most of the existing housing stock built before 1980. Zoning restrictions, a scarcity of land and high construction costs make new development difficult to justify in many of the Company's markets. In 2001, Home Properties' markets represented 18% of the total estimated existing U.S. multifamily housing stock, but only 11% of the country's estimated net new supply of multifamily housing units. In addition, after considering the obsolescence of older communities and the conversion of rental housing to condominiums or co-ops, historically, the net increase in the multifamily rental housing stock in the Company's markets represented only a fraction of the estimated number of new units needed to satisfy increased demand. In 2001, the recession reversed historical trends, with a net oversupply created.

In 2000, net new multifamily supply as a percent of net new multifamily demand in the Home Properties markets was approximately 49%, compared to a national average of 98%. In 2001, both the national and the Company's markets have resulted in an estimated oversupply. The 2001 demand (oversupply) for the Company's markets relative to estimated net new multifamily supply still compares favorably to national averages.

The third to the last column in the Multifamily Supply and Demand table on page 10 shows the net new multifamily supply as percent of existing multifamily housing stock. In the Company's markets, net new supply only represents 0.6% of the existing multifamily housing stock. This compares to the national average net new multifamily supply estimates at 0.9% of the multifamily housing stock.

The information on the Market Demographics table on page 9 was compiled by the Company from the sources indicated on the table. The

methods used includes estimates and, while the Company feels that the estimates are reasonable, there can be no assurance that the estimates are accurate. There can also be no assurance that the historical information included on the table will be consistent with future trends.

Regulation

Many laws and governmental regulations are applicable to the Properties and changes in the laws and regulations, or their interpretation by agencies and the courts, occur frequently. Under the Americans with Disabilities Act of 1990 (the "ADA"), all places of public accommodation are required to meet certain federal requirements related to access and use by disabled persons. In addition, the Fair Housing Amendments Act of 1988 (the "FHAA") requires apartment communities first occupied after March 13, 1990 to be accessible to the handicapped. Non-compliance with the ADA or the FHAA could result in the imposition of fines or an award of damages to private litigants. Management believes that the Properties are substantially in compliance with present ADA and FHAA requirements.

Under various laws and regulations relating to the protection of the environment, an owner of real estate may be held liable for the costs of removal or remediation of certain hazardous or toxic substances located on or in its property. These laws often impose liability without regard to whether the owner was responsible for, or even knew of, the presence of such substances. The presence of such substances may adversely affect the owner's ability to rent or sell the property or use the property as collateral. Independent environmental consultants have conducted "Phase I" environmental audits (which involve visual inspection but not soil or groundwater analysis) on substantially all of the Owned Properties. Phase I audit reports did not reveal any environmental liability that would have a material adverse effect on the Company. In addition, the Company is not aware of any environmental liability that management believes would have a material adverse effect on the Company. There is no assurance that Phase I reports would reveal all environmental liabilities or that environmental conditions not known to the Company may exist now or in the future which would result in liability to the Company for remediation or fines, either under existing laws and regulations or future changes to such requirements.

Under the Federal Fair Housing Act and state fair housing laws, discrimination on the basis of certain protected classes is prohibited. Violation of these laws can result in significant damage awards to victims. The Company has a strong policy against any kind of discriminatory behavior and trains its employees to avoid discrimination or the appearance of discrimination. There is no assurance, however, that an employee will not violate the Company's policy against discrimination and thus violate fair housing laws. This could subject the Company to legal actions and the possible imposition of damage awards.

Item 2. Properties

As of December 31, 2001, the Owned Properties consisted of 143

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

multifamily residential properties containing 39,007 apartment units. At the time of the IPO (August 4, 1994), Home Properties owned 11 communities containing 3,065 units and simultaneously with the closing of the IPO acquired an additional four communities containing 926 units. From the time just prior to the IPO to December 31, 2001, the Company experienced a compounded annualized growth rate of 41% in the number of apartment units it owned. In 2001, Home Properties acquired 2,820 apartment units in 10 communities for a total purchase price of approximately \$212 million. Also in 2001, the Company sold 14 communities with a total of 2,855 units for total consideration of \$122 million.

The Owned Properties are generally located in established markets in suburban neighborhoods and are well maintained and well leased. Average economic occupancy at the Owned Properties held throughout 2000 and 2001 was 93.7% for 2001. The Owned Properties are typically two and three story garden style apartment buildings in landscaped settings and a majority are of brick or other masonry construction. The Company believes that its strategic focus on appealing to middle income and senior residents and the quality of the services it provides to such residents results in low turnover. Average turnover at the Owned Properties was approximately 45% for 2001, which is significantly below the national average of 65% for garden apartments.

10

Resident leases are generally for one year terms. Security deposits equal to one month's rent are generally required.

Certain of the Owned Properties secure mortgage loans. See Schedule III contained herein (F-34 to F-38).

The table on the following pages illustrates certain of the important characteristics of the Owned Properties as of December 31, 2001.

- (1) "Core Communities" represents the 30,802 apartment units owned consistently throughout 2000 and 2001.
- (2) "Mature Residents" is the percentage of residents aged 55 years or older as of December 31, 2001.
- (3) "Resident Turnover" reflects, on an annual basis, the number of moveouts; divided by the total number of apartment units.
- (4) "Average % Occupancy" is the average economic occupancy for the 12 months ended December 31, 2000 and 2001. For communities acquired during 2000 and 2001, this is the average occupancy from the date of acquisition.
- (5) The Lansdowne Group consolidated figures are reflected in the Marshall House line.

Property Development -----

Management believes that new construction of market rate multifamily apartments is not economically feasible in most of its markets. Therefore, Home Properties' prior development and redevelopment activities were limited to government-assisted multifamily housing. In 1996, the Operating Partnership acquired substantially all of the assets of C.O.F., Inc. (formerly Conifer Realty, Inc.) and Conifer Development, Inc. (collectively, "Conifer"), a developer and manager of government-assisted multifamily housing.

Effective December 31, 2000, the Company sold its affordable housing development operations to Conifer, LLC. Conifer, LLC is led by Richard J. Crossed, a former Executive Vice President and former director of the Company. The Company retained property management operations for 8,325 apartment units in 136 existing affordable communities.

The Company has retained the ability to develop new communities, both affordable and market rate, but does not plan to focus on this activity. Rather, it plans to engage in development activity only on a very selective basis.

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

Property Management

As of December 31, 2001, the Managed Properties consist of: (i) 8,035 apartment units where Home Properties is the general partner of the entity that owns the property; (ii) 2,703 apartment units managed for others; (iii) commercial properties managed for an affiliate which contain approximately 2.2 million square feet of gross leasable area; (iv) a master planned community managed for an affiliate known as Gananda; (v) a 140-lot Planned Unit Development managed for an affiliate known as College Greene; (vi) a 202-lot Planned Unit Development managed for an affiliate known as Riverton; and (vii) 153 acres of vacant land in Old Brookside, the development of which, if it occurs, will be managed by HP Management. Management fees are based on a percentage of rental revenues or costs and, in certain cases, revenues from sales. The Company may pursue the management of additional properties not owned by the Company, but will only do so when such additional properties can be effectively and efficiently managed in conjunction with other properties owned or managed by Home Properties.

Supplemental Property Information

At December 31, 2001, none of the Properties have an individual net book value equal to or greater than ten percent of the total assets of the Company or would have accounted for ten percent or more of the Company's aggregate gross revenues for 2001.

Item 3. Legal Proceedings

The Company is a party to certain legal proceedings. All such proceedings, taken together, are not expected to have a material adverse effect on the Company's liquidity, financial position or results of operations. The Company is also subject to a variety of legal actions for personal injury or property damage arising in the ordinary course of its business, most of which are covered by liability insurance. While the resolution of these matters cannot be predicted with certainty, management believes that the final outcome of such legal proceedings and claims will not have a material adverse effect on the Company's liquidity, financial position or results of operations.

Item 4. Submission of Matters to Vote of Security Holders

None.

As of February 22, 2002, the Company had approximately 5,800 shareholders of record, 24,968,808 common shares (plus 15,981,163 UPREIT Units convertible into 15,981,163 common shares and Preferred Stock convertible into 4,605,943 common shares) were outstanding, and the closing price was \$32.70. It is the Company's policy to pay dividends. The Company has historically paid dividends on a quarterly basis in the months of February, May, August and November. The Credit Agreement relating to the Company's \$100 million line of credit provides that the Company may not pay any distribution if a distribution, when added to other distributions paid during the three immediately preceding fiscal quarters, exceeds the greater of: (i) 90% of funds from operations and 110% of cash available for distribution; and (ii) the amounts required to maintain the Company's status as a REIT.

- (1) Management considers funds from operations ("FFO") to be an appropriate measure of performance of an equity REIT. FFO is generally defined as net income (loss) before gains (losses) from the sale of property and business and extraordinary items, before minority interest in the Operating Partnership, plus real estate depreciation. Management believes that in order to facilitate a clear understanding of the combined historical operating results of the Company, FFO should be considered in conjunction with net income as presented in the consolidated financial statements included elsewhere herein. FFO does not represent cash generated from operating activities in accordance with generally accepted accounting principles and is not necessarily indicative of cash available to fund cash needs. FFO should not be considered as an alternative to net income as an indication of the Company's performance or to cash flow as a measure of liquidity.

The calculation of FFO for the previous five years is presented as follows:

- (2) Cash Available for Distribution is defined as Funds from Operations less an annual reserve for anticipated recurring, non-revenue generating capitalized costs of \$400 (\$375 for 1998-2000, \$350 for 1996-1997, and \$300 for 1995) per apartment unit. It is the Company's policy to fund its investing activities and financing activities with the proceeds of its line of credit, new debt, by the issuance of additional Units in the Operating Partnership, or proceeds from property dispositions.

Item 7. Management's Discussion and Analysis of Financial Condition and Results

 of Operations

Overview

The following discussion should be read in conjunction with consolidated financial statements, the notes thereto, and the selected financial data appearing elsewhere in this report. Historical results and percentage relationships set forth in the consolidated financial statements, including trends which might appear, should not be taken as indicative of future operations. The Company considers portions of the information to be "forward-looking statements" within the meaning of Section 27A of the Securities Exchange Act of 1933 and Section 21E of the Securities Exchange Act of 1934, both as amended, with respect to the Company's expectations for future periods. Forward-looking statements include, without limitation, statements related to acquisitions (including any related pro forma financial information) future capital expenditures, financing sources and availability and the effects of environmental and other regulations. Although the Company believes that the expectations reflected in those forward-looking statements are based upon reasonable assumptions, it can give no assurance that its expectations will be achieved. Factors that may cause actual results to differ include general economic and local real estate conditions, the weather and other conditions that might affect operating expenses, the timely completion of repositioning activities within anticipated budgets, the actual pace of future acquisitions, and continued access to capital to fund growth. For this purpose, any statements contained herein that are not statements of historical fact should be deemed to be forward-looking statements. Without limiting the foregoing, the words "believes", "anticipates", "plans", "expects", "seeks", "estimates", and similar expressions are intended to identify forward-looking statements. Readers should exercise caution in interpreting and relying on forward-looking statements since they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond the Company's control and could materially affect the Company's actual results, performance or achievements.

The Company is engaged primarily in the ownership, management, acquisition, rehabilitation and development of residential apartment communities in the Northeastern, Mid-Atlantic and Midwestern United States. As of December 31, 2001, the Company operated 293 apartment communities with 49,745 apartments. Of this total, the Company owned 143 communities, consisting of 39,007 apartments, managed as general partner 132 partnerships that owned 8,035 apartments and fee managed 2,703 apartments for affiliates and third parties. The Company also fee manages 2.2 million square feet of office and retail properties.

Results of Operations

Comparison of year ended December 31, 2001 to year ended December 31, 2000.

The Company owned 111 communities with 30,802 apartment units throughout 2000 and 2001 where comparable operating results are available for the years presented (the "2001 Core Properties"). For the year ending December 31, 2001, the 2001 Core Properties showed an increase in rental revenues of 6.2% and a net operating income increase of 7.7% over the 2000 year-end period. Property level operating

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

expenses increased 4.3%. Average economic occupancy for the 2001 Core Properties decreased from 94.4% to 93.7%, with average monthly rental rates increasing 7.1% to \$776.

A summary of the 2001 Core Property net operating income is as follows:

	2001 ----	2000 ----

28

During 2001, the Company acquired a total of 2,820 apartment units in 10 newly-acquired communities (the "2001 Acquisition Communities"). In addition, the Company experienced a full year results for the 5,384 apartment units in 22 apartment communities (the "2000 Acquisition Communities") acquired during 2000. The inclusion of these acquired communities generally accounted for the significant changes in operating results for the year ended December 31, 2001.

During 2001, the Company also disposed of 14 properties with a total of 2,855 units, which had partial results for 2001 (the "2001 Disposed Communities").

For the year ended December 31, 2001, operating income (income before gain on disposition of property and business, minority interest and extraordinary item) increased by \$3,458,000 when compared to the year ended December 31, 2000. The increase was primarily attributable to the following factors: an increase in rental income of \$50,054,000 and a decrease in all other income of \$1,579,000. These changes were partially offset by an increase in operating and maintenance expense of \$17,524,000, an increase in general and administrative expense of \$5,379,000, an increase in interest expense of \$9,654,000, and an increase in depreciation and amortization of \$12,460,000.

Of the \$50,054,000 increase in rental income, \$28,989,000 is attributable to the 2000 Acquisition Communities and \$14,032,000 is attributable to the 2001 Acquisition Communities, offset in part by a \$8,724,000 reduction attributable to the 2001 Disposed Communities. The balance of \$15,757,000 relates to a 6.2% increase from the 2001 Core Properties due primarily to an increase of 7.1% in weighted average rental rates, offset by a decrease in average economic occupancy from 94.4% to 93.7%.

In addition to normal rent increases, the Company was successful in achieving above-normal increases at specific properties where rents were below the level of the average rent charged by our direct

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

competition. An additional component of the 7.1% increase in weighted average rent results from the significant upgrading and repositioning efforts discussed under the Capital Improvements section of this report. The Company seeks a minimum 15% internal rate of return for these revenue enhancing upgrades.

The decrease in average economic occupancy can be attributed to the decline in general economic conditions during 2001. Same-store occupancies have averaged approximately 95% for a number of years. During the second quarter of 2001, the Detroit regional market experienced softness that was related to a slowdown and announced lay-offs in the auto industry. A reduction in job growth leads to fewer household formations, which creates a reduction in demand for rental housing. During the third and fourth quarters of 2001, it became obvious that the recession was affecting all of our regions, as well as our competitors. Occupancy levels dipped to a low of 91.6% for the month of December.

In January, 2002, one of management's performance measures seemed to suggest that the Company may have reached the bottom of the decline in occupancy. Traffic at the communities had increased, and it was the first month since the end of the second quarter of 2001 that occupancy levels did not continue to decrease.

In this recessionary economic environment, it is very difficult to project rental rate and occupancy results. The Company has provided guidance for 2002, which, at the mid-point of the range, anticipates same store revenue growth of 6%, including above-average rental increases from the continued efforts to upgrade the properties. Occupancy levels are expected to remain low during the first quarter of 2002, averaging 91.8%. Improvement in occupancy is expected each successive quarter in 2002, producing an expected average for the year of 93.2%.

Property other income, which consists primarily of income from operation of laundry facilities, late charges, administrative fees, garage and carport rentals, net profits from corporate apartments, cable revenue, pet charges, and miscellaneous charges to residents, increased in 2001 by

29

\$1,930,000. Of this increase, \$980,000 is attributable to the 2000 Acquisition Communities, \$483,000 is attributable to the 2001 Acquisition Communities and \$720,000 represents a 7.4% increase from the 2001 Core Properties, offset in part by a \$271,000 reduction attributable to the 2001 Disposed Communities.

Interest and dividend income decreased in 2001 by \$4,732,000, due primarily to the Company contributing loans due from affiliates to HPRS, in March, 2001, described in the next paragraph. Subsequent to the transfer, the interest income is reported in Other income.

Other income, which reflects the net contribution from management and development activities after allocating certain overhead and interest expense, increased by \$1,223,000 due primarily to interest income on loans from affiliated partnerships. The general and administrative overhead represents an allocation of direct and indirect costs incurred by the Company estimated by management to be associated with these

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

activities. In March, 2001, HPRS was recapitalized with a contribution of \$23.7 million of loans to affiliated partnerships by the Company. This effectively shifted a significant amount of interest income to the Other income category, where the Company records its share of interest income through its equity earnings of affiliates.

Of the \$17,524,000 increase in operating and maintenance expenses, \$13,256,000 is attributable to the 2000 Acquisition Communities, \$4,418,000 is attributable to the 2001 Acquisition Communities and a reduction of \$4,785,000 is attributable to the 2001 Disposed Communities. The balance for the 2001 Core Properties, a \$4,635,000 increase in operating expenses or 4.3%, is primarily a result of increases in gas utilities, office and telephone expense, and real estate taxes, offset in part by decreases in repairs and maintenance, incentive compensation, and property insurance.

Natural gas costs for the Core Properties were up 43% for the twelve months, due to extraordinary increases in natural gas prices as well as lower temperatures in 2001 compared to above-average temperatures in 2000. Looking back the last ten years, the price of natural gas has been relatively stable. Historically, at the beginning of each heating season, rates experienced some pressures but start to stabilize at lower levels in January. The 2000/2001 heating season did not follow this same pattern. Spot prices per decatherm spiked over \$10 in December, 2000 and January, 2001. This unusual pattern made it more difficult to execute economically feasible fixed price contracts. During the first quarter of 2001, the Company experienced extremely high costs for natural gas, producing a same-store increase in operating and maintenance costs of 15.1%.

Management believed it was in the Company's best interest to take advantage of lower natural gas prices and to negotiate fixed price contracts starting in the Spring of 2001. As of December 31, 2001, the Company had fixed-price contracts covering 90% of its natural gas exposure for properties owned by the Company at December 31, 2001. For the 2002 heating season, the average price per decatherm is approximately \$4.50. Current twelve month strip pricing is about \$3.00 per decatherm. If rates do not increase, the Company stands to benefit from lower pricing, as existing contracts mature and are extended or renewed. The Company has fixed-price contracts covering 50% of its natural gas exposure for the 2003 heating season. Risk is further diversified by staggering contract term expirations.

In October, 2001, the Company resolved a legal claim with an insurance provider and received a total settlement of \$4.9 million. This refund was allocated to insurance expense in relation to the Company's estimate of loss spread over the corresponding policy term. The policy term covered November 1, 2000 to October 31, 2001 and November 1, 2001 to October 31, 2002. The amount of the settlement relating to the period from November 1, 2000 to December 31, 2001 was estimated to be \$2.2 million, and that amount reduced insurance expense in the fourth quarter of 2001. The remaining settlement of \$2.7 million relates to the remaining policy period from January 1, 2001, through October 31, 2002, and will be amortized on a straight-line basis over that period.

The Company has provided guidance for 2002 which anticipates same store expense growth at the mid-point of the range of 6.5%. Natural gas costs are assumed to improve 3%, personnel expense is projected to increase

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

9%, real estate taxes are expected to increase 6%, and insurance costs should almost double. Health care increases account for a large part of the personnel cost increase.

Certain quarterly variations are expected for 2002. The first quarter expense growth is expected to increase only 2.2% compared to the first quarter of 2001. This is due to an expected favorable variance in natural gas heating costs. The fourth quarter of 2002 is expected to increase over 12% compared to the same period in 2001. This is due to an expected significant negative variance for insurance expense. As previously discussed, the fourth quarter of 2001 reflected a large insurance settlement effectively recognizing the benefit for the previous fourteen months in the fourth quarter, which will produce a significant variance for comparison purposes.

The operating expense ratio (the ratio of operating and maintenance expense compared to rental and property other income) for the 2001 Core Properties was 40.5% and 41.3% for 2001 and 2000, respectively. This 0.8% reduction is a result of the 6.3% increase in total rental and property other income achieved through ongoing efforts to upgrade and reposition properties for maximum potential. In general, the Company's operating expense ratio is higher than that experienced in other parts of the country due to relatively high real estate taxes in its markets and the Company's practice, typical in its markets, of including heating expenses in base rent.

General and administrative expenses increased in 2001 by \$5,379,000, or 41% from \$13,235,000 in 2000 to \$18,614,000 in 2001. As the Company expands geographically, the increases reflect increased efforts in serving residents and employees through new and expanded initiatives, including a help desk, call center, and an education department. In addition, the increase can be attributed to overhead costs, which had, historically, been allocated to the Company's affordable housing development business, which was sold in 2000 and the net results of which were reported in other income. The percentage of general and administrative expenses compared to total revenue was 5.1% for 2001 compared to 4.1% for 2000.

Interest expense increased in 2001 by \$9,654,000 as a result of the acquisition of the 2001 Acquisition Communities and a full year of interest expense for the 2000 Acquisition Communities. The 2000 Acquisition Communities, costing in excess of \$322,000,000, were financed with \$163,000,000 of assumed debt in addition to the use of UPREIT Units. The 2001 Acquisition Communities, costing in excess of \$212,000,000, were financed with \$68,000,000 of assumed debt, in addition to the use of UPREIT Units. During 2001, the Company refinanced \$52,000,000 in existing mortgage debt resulting in new borrowings in excess of \$131,000,000. In addition, amortization from deferred charges relating to the financing of properties totaling \$632,000 and \$566,000 was included in interest expense for 2001 and 2000, respectively.

Depreciation and amortization expense increased \$12,460,000 due to the depreciation on the 2001 Acquisition Communities, the 2000 Acquisition Communities, the additions to the Core Properties, net of the 2001 Disposition Communities.

During 2001, the Company reported a gain on disposition of property and business of \$26,241,000. This includes the disposition of 14 apartment communities with 2,855 units in six separate transactions for a total sales price of \$122,000,000.

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

Minority interest increased \$7,967,000 due to the increase in income allocated to the OP Unitholders, which is attributable to the 2001 Acquisition Communities, the 2000 Acquisition Communities, net of the 2001 Disposition Communities, and the gain on disposition of property and business.

31

Net income increased \$23,050,000 or 56% primarily attributed to the results of the 2001 Acquisition Communities, the 2001 Acquisition Communities, net of the 2001 Disposition Communities, as previously discussed and the gain on disposition of property and business.

Comparison of year ended December 31, 2000 to year ended December 31, 1999.

The Company owned 95 communities with 23,530 apartment units throughout 1999 and 2000 where comparable operating results were available for the years presented (the "2000 Core Properties"). For the year ending December 31, 2000, the 2000 Core Properties showed an increase in rental revenues of 5.8% and a net operating income increase of 7.6% over the 1999 year-end period. Property level operating expenses increased 5.3%. Average economic occupancy for the 2000 Core Properties increased from 94.6% to 94.7%, with average monthly rental rates increasing 5.7% to \$701.

A summary of the 2000 Core Property net operating income is as follows:

	2000 ----	1999 ----
Rent	\$ 187,491,000	\$ 177,286,000
Property Other Income	7,412,000	5,606,000
	-----	-----
Total Income	194,903,000	182,892,000
Operating and Maintenance	(83,756,000)	(79,570,000)
	-----	-----
Net Operating Income	\$ 111,147,000 =====	\$ 103,322,000 =====

During 2000, the Company acquired the "2000 Acquisition Communities" and also experienced a full year of results for the 10,127 apartment units in 30 apartment communities (the "1999 Acquisition Communities") acquired during 1999. The inclusion of these acquired communities generally accounted for the significant changes in operating results for the year ended December 31, 2000.

The Company also disposed of one property during 2000, a 150-unit community located in Pittsburgh, Pennsylvania, which had partial results for 2000 (the "2000 Disposed Community").

For the year ended December 31, 2000, operating income (income before loss on disposition of property and business, minority interest and extraordinary item) increased by \$25,246,000 when compared to the year ended December 31, 1999. The increase was primarily attributable to the

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

following factors: an increase in rental income of \$81,269,000 and an increase in all other income of \$3,316,000. These changes were partially offset by an increase in operating and maintenance expense of \$32,834,000, an increase in general and administrative expense of \$2,539,000, an increase in interest expense of \$17,234,000, an increase in depreciation and amortization of \$15,080,000 and loss on available-for-sale securities and non-recurring acquisition expense totaling \$8,348,000 affecting only 1999.

Of the \$81,269,000 increase in rental income, \$47,376,000 is attributable to the 1999 Acquisition Communities and \$24,204,000 is attributable to the 2000 Acquisition Communities, offset in part by a \$516,000 reduction attributable to the 2000 Disposed Community. The balance of \$10,205,000 is a 5.8% increase from the 2000 Core Properties due primarily to an increase of 5.7% in weighted average rental rates, plus an increase in average economic occupancy from 94.6% to 94.7%.

Property other income, which consists primarily of income from operation of laundry facilities, administrative fees, garage and carport rentals, net profits from corporate apartments and miscellaneous charges to residents, increased in 2000 by \$4,511,000. Of this increase, \$1,847,000 is attributable to the 1999 Acquisition Communities, \$884,000 is attributable to the 2000 Acquisition Communities and \$1,806,000 represents a 32.2% increase from the 2000 Core Properties, offset in part by a \$26,000 reduction attributable to the 2000 Disposed Community.

32

The increase for the 2000 Core Properties included a one-time benefit from a favorable insurance settlement of \$239,000. Without the affect of the settlement, property other income would have increased 28%.

Interest and dividend income increased in 2000 by \$654,000, primarily attributable to an increase in loans to one of the Company's Management Companies used to acquire land held in inventory for future development, as well as increased levels of cash reserves invested. Dividend income of \$714,000 in 1999 from investments in marketable securities did not continue in 2000.

Other income reflects the net contribution from management and development activities after allocating certain overhead and interest expense. The net contribution decreased by \$1,849,000, or 64% from 1999 to 2000. The decrease is due primarily to a decrease in gross development fee revenues of \$1,462,000. Effective December 31, 2000, the Company sold its affordable housing development business to the key personnel who ran the division for approximately \$6,700,000.

Of the \$32,834,000 increase in operating and maintenance expenses, \$20,354,000 is attributable to the 1999 Acquisition Communities, \$8,604,000 is attributable to the 2000 Acquisition Communities and a reduction of \$310,000 is attributable to the 2000 Disposed Community. The balance for the 2000 Core Properties, a \$4,186,000 increase in operating expenses or 5.3%, is primarily a result of increases in gas utilities, personnel expenses, property insurance and real estate taxes.

Increases in utility expenses were a large contributor to operating and maintenance expense increases for the year and, as previously discussed, continued to unfavorably affect results in 2001. Natural gas

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

prices were very volatile in 2000. As previously discussed, over the last ten years, the price of natural gas has been relatively stable and, at the beginning of each heating season, rates experienced some pressures but started to stabilize at lower levels around January. The 1999/2000 heating season did not follow this same pattern. This unusual pattern made it more difficult to execute economically feasible fixed price contracts.

The months of December, 2000 and January, 2001 yielded prices for natural gas topping out at over \$10 per decatherm. For deliveries in March, 2001 the price was reduced to approximately \$5.00 per decatherm. As a result, the Company negotiated fixed price contracts starting in the Spring of 2001 for close to 90% of its exposure for the 2001/2002 heating season.

Management believed at that time that these higher expenses would eventually be absorbed by our residents. As discussed in the Comparison of year ended December 31, 2001 to year ended December 31, 2000, rent increases were passed on to residents as leases (which typically have a one year term) were renewed.

The operating expense ratio (the ratio of operating and maintenance expense compared to rental and property other income) for the 2000 Core Properties was 43.0% and 43.5% for 2000 and 1999, respectively. This 0.5% reduction is a result of the 6.6% increase in total rental and property other income achieved through ongoing efforts to upgrade and reposition properties for maximum potential. In general, the Company's operating expense ratio is higher than that experienced in other parts of the country due to relatively high real estate taxes in its markets and the Company's practice, typical in its markets, of including heating expenses in base rent.

General and administrative expenses increased in 2000 by \$2,539,000, or 24% from \$10,696,000 in 1999 to \$13,235,000 in 2000. As the Company expands geographically, travel and lodging expenses have increased, along with expenses associated with new and expanding regional offices. In addition, personnel costs have increased to handle the growing owned portfolio, which increased in size by 15% as of December 31, 2000 compared to December 31, 1999. The percentage of G&A compared to total revenue was 4.1% for 2000 compared to 4.6% for 1999.

33

Interest expense increased in 2000 by \$17,234,000 as a result of the acquisition of the 2000 Acquisition Communities and a full year of interest expense for the 1999 Acquisition Communities. The 1999 Acquisition Communities, costing in excess of \$480,000,000, were financed with \$203,000,000 of assumed debt in addition to the use of UPREIT Units. The 2000 Acquisition Communities, costing in excess of \$322,000,000, were financed with \$163,000,000 of assumed debt, in addition to the use of UPREIT Units. In addition, amortization from deferred charges relating to the financing of properties totaling \$566,000 and \$516,000 was included in interest expense for 2000 and 1999, respectively.

Depreciation and amortization expense increased \$15,080,000 due to the depreciation on the 2000 Acquisition Communities, the 1999 Acquisition Communities, and the additions to the 2000 Core Properties.

During 2000, the Company reported a loss on disposition of property of

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

\$1,386,000. This included \$417,000 from the sale of Payne Hill in Pittsburgh, \$924,000 from the sale of the affordable housing development business and \$45,000 from the sale of a general partnership interest.

Minority interest increased \$8,325,000 due to the increase in income allocated to the OP Unitholders, which is attributable to the 2000 Acquisition Communities, the 1999 Acquisition Communities, and the loss on disposition of property and business.

Net income increased \$15,174,000 or 58% primarily attributed to the results of the 2000 Acquisition Communities, the 1999 Acquisition Communities, as previously discussed, net of the loss on disposition of property and business.

Liquidity and Capital Resources

The Company's principal liquidity demands are expected to be distributions to the common and preferred stockholders and Operating Partnership Unitholders, capital improvements and repairs and maintenance for the properties, acquisition of additional properties, stock repurchases and debt repayments. The Company may also engage in transactions whereby it acquires equity ownership in other public or private companies that own and manage portfolios of apartment communities. Management anticipates the acquisition of properties in the range of \$200 to \$300 million in 2002.

The Company intends to meet its short-term liquidity requirements through net cash flows provided by operating activities and the line of credit, as described below. The Company considers its ability to generate cash to be adequate to meet all operating requirements and make distributions to its stockholders in accordance with the provisions of the Internal Revenue Code, as amended, applicable to REITs.

To the extent that the Company does not satisfy its long-term liquidity requirements through net cash flows provided by operating activities and the line of credit described below, it intends to satisfy such requirements through the issuance of UPREIT Units, proceeds from the Dividend Reinvestment Plan ("DRIP"), proceeds from the sale of properties, property debt financing, or issuing additional common shares, shares of the Company's preferred stock, or other securities. As of December 31, 2001, the Company owned 27 properties, with 4,948 apartment units, which were unencumbered by debt.

In addition, an increase in a source of liquidity will be from the sale of properties. Since its IPO through 2000, the Company had sold only a few small properties. During 2001, the Company sold 14 communities for a total sales price of \$122 million. The Company was able to sell these properties at an average capitalization rate of 9.2% and reinvest in the acquisition of properties with more growth potential at an expected first year cap rate of 9.3%. Management believes that the Company will strategically dispose of assets aggregating between \$50 and \$100 million in 2002.

In May, 1998, the Company's Form S-3 Registration Statement was declared effective relating to the issuance of up to \$400 million of

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

common stock, preferred stock or other securities. The available balance on the shelf registration statement at December 31, 2001 was \$227,390,000.

In December, 1999, the Class A limited partnership interests held by the State of Michigan Retirement Systems (originally issued in December, 1996 for \$35 million) were converted to Series A Convertible Cumulative Preferred shares ("Series A Preferred Shares") which retained the same material rights and preferences that were associated with the limited partnership interests. On November 28, 2001, the Series A Preferred Shares were converted to common shares. The conversion had no effect on reported results of operations.

In September, 1999, the Company completed the sale of \$50 million of Series B Preferred Stock in a private transaction with GE Capital. The Series B Preferred stock carries an annual dividend rate equal to the greater of 8.36% or the actual dividend paid on the Company's common shares into which the preferred shares can be converted. The stock has a liquidation preference of \$25.00 per share, a conversion price of \$29.77 per share, and a five-year, non-call provision. On February 14, 2002, 1,000,000 shares of the Series B Preferred stock were converted to 839,771 common shares. The conversion will have no effect on the reported results of operations.

In May and June, 2000, the Company completed the sale of \$60 million of Series C Preferred Stock in a private transaction with affiliates of Prudential Real Estate Investors ("Prudential"), Teachers Insurance and Annuity Association of America ("Teachers"), affiliates of AEW Capital Management and Pacific Life Insurance Company. The Series C Preferred Stock carries an annual dividend rate equal to the greater of 8.75% or the actual dividend paid on the Company's common shares into which the preferred shares can be converted. The stock has a conversion price of \$30.25 per share and a five-year, non-call provision. As part of the Series C Preferred Stock transaction, the Company also issued 240,000 warrants to purchase common shares at a price of \$30.25 per share, expiring in five years.

In June, 2000, the Company completed the sale of \$25 million of Series D Preferred Stock in a private transaction with The Equitable Life Assurance Society of the United States. The Series D Preferred Stock carries an annual dividend rate equal to the greater of 8.775% or the actual dividend paid on the Company's common shares into which the preferred shares can be converted. The stock has a conversion price of \$30 per share and a five-year, non-call provision.

In December, 2000, the Company completed the sale of \$30 million of Series E Preferred Stock in a private transaction, again with affiliates of Prudential and Teachers. The Series E Preferred Stock carries an annual dividend rate equal to the greater of 8.55% or the actual dividend paid on the Company's common shares into which the preferred shares can be converted. The stock has a conversion price of \$31.60 per share and a five-year, non-call provision. In addition, as part of the Series E Preferred Stock transaction, the Company issued warrants to purchase 285,000 common shares at a price of \$31.60 per share, expiring in five years.

In 2000, the Company obtained an investment grade rating from Fitch, Inc. The Company was assigned an initial corporate credit rating of "BBB" (Triple-B), with a rating of "BBB-" (Triple-B Minus) for Series C through E convertible Preferred Stock.

The issuance of UPREIT Units for property acquisitions continues to be

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

a significant source of capital for the Company. During 2001, 520 apartment units in two separate transactions were acquired for a total cost of \$33,000,000, using UPREIT Units valued at approximately \$19,000,000 with the balance paid in cash or assumed debt. During 2000, 3,583 apartment units in eight separate transactions were acquired for a total cost of \$203,000,000, using UPREIT Units valued at approximately \$59,000,000 with the balance paid in cash or assumed debt.

In 1997, the Company's Board of Directors approved a stock repurchase program under which the Company may repurchase up to one million shares of its outstanding common stock and

35

UPREIT Units. The Board's action did not establish a target price or a specific timetable for repurchase. At December 31, 1999, there was approval remaining to purchase 795,100 shares. In 2000, the Board of Directors approved a 1,000,000-share increase in the stock repurchase program. During 2000, the Company repurchased 468,600 shares at a cost of \$12,664,000. In 2001, the Board of Directors approved a 1,000,000-share increase in the stock repurchase program. During 2001, the Company repurchased 754,000 shares and 436,700 UPREIT Units at a cost of \$20,600,000 and \$11,900,000, respectively. Approval to repurchase 1,135,800 shares of common stock and UPREIT Units remains at December 31, 2001.

In November, 1995, the Company established a Dividend Reinvestment Plan. The Plan provides the stockholders of the Company an opportunity to automatically invest their cash dividends at a discount of 3% from the market price. In addition, eligible participants may make monthly payments or other voluntary cash investments in shares of common stock, typically purchased at discounts, which have varied between 2% and 3%. During 2000, \$57,000,000 of common stock was issued under this plan, with an additional \$32,000,000 of common stock issued in 2001.

The DRIP was amended, effective April 10, 2001, in order to reduce management's perceived dilution from issuing new shares at or below the underlying net asset value. The discount on reinvested dividends and optional cash purchases was reduced from 3% to 2%. The maximum monthly investment (without receiving approval from the Company) was reduced from \$5,000 to \$1,000. As expected, these changes significantly reduced participation in the Plan. Management will continue to monitor the relationship between the Company's stock price and estimated net asset value. During times when this difference is small, management has the flexibility to issue waivers to DRIP participants to provide for investments in excess of the \$1,000 maximum monthly investment. In connection with the announcement of the February, 2002 dividend, the Company announced such waivers will be considered beginning with the March 2002 optional cash purchase, since management believes the stock is trading at or above its estimate of net asset value.

As of December 31, 2001, the Company had an unsecured line of credit from M&T Bank with a borrowing capacity of \$100,000,000 and \$32,500,000 outstanding. Borrowings under the facility bear interest at 1.25% over the one-month LIBOR rate. The line of credit expires on September 1, 2002. The Company is evaluating alternatives to replace or extend the line of credit after September 1, 2002.

As of December 31, 2001, the weighted average rate of interest on the

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

Company's mortgage debt was 7.2% and the weighted average maturity of such indebtedness was approximately ten years. Mortgage debt of \$960 million was outstanding with 99% at fixed rates of interest with staggered maturities. This limits the exposure to changes in interest rates, minimizing the effect of interest rate fluctuations on the Company's results of operations and cash flows.

The Company's net cash provided by operating activities increased from \$127,217,000 for the year ended December 31, 2000 to \$148,389,000 for the year ended December 31, 2001. The increase was principally due to the acquisition of the 2000 and 2001 Acquisition Communities, net of 2001 Disposition Communities.

Net cash used in investing activities decreased from \$178,465,000 in 2000 to \$139,106,000 in 2001. The level of properties purchased decreased in 2001 to \$212 million from \$328 million, the amount of mortgages assumed and UPREIT units issued decreased by \$135 million, additions to properties increase \$38 million, while proceeds from the sale of properties increased \$103 million, such that the net cash used in investing activities decreased, accounting for most of the year over year decrease.

The Company's net cash provided by (used in) financing activities decreased from providing \$56,955,000 in 2000 to using \$9,013,000 in 2001. The major source of financing in 2001 was \$8,423,000 of proceeds from sales of common stock, net of the purchase of treasury stock and

36

UPREIT Units and \$92,268,000 in net debt proceeds, used to fund property acquisitions and improvements. In 2000, proceeds from the sale of preferred stock and common stock totaling \$168,462,000 were used to fund property acquisitions and additions. Due to the lower number of acquisitions in 2001, such funding was not needed in 2001.

On February 4, 2002, the Board of Directors approved a dividend of \$.60 per share for the period from October 1, 2001 to December 31, 2001. This is the equivalent of an annual distribution of \$2.40 per share. The dividend is payable February 26, 2002 to shareholders of record on February 15, 2002.

Off-Balance Sheet Investments

The Company has investments in and advances to approximately 132 limited partnerships where the Company acts as the managing general partner. The Company accounts for these investments on the equity method of accounting, recording its share of the net income or loss based upon the terms of the partnership agreement. To the extent that it is determined that the limited partners cannot absorb their share of the losses, if any, the general partner will record the limited partners share of such losses.

The Company has guaranteed the low income housing tax credits to the limited partners for a period of five years in 42 partnerships totaling approximately \$48,500,000. Such guarantee requires the Company to operate the properties in compliance with Internal Revenue Code Section 42 for 15 years. In addition, acting as the general partner in certain partnerships, the Company is obligated to advance funds to meet partnership operating deficits. However, such funding requirements cease after a five year period. Should operating deficits continue to occur, the Company would determine on an individual partnership basis if it is in the best interest

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

of the Company to continue to fund these deficits.

These partnerships are funded with non-recourse financing. The Company's proportionate share of non-recourse financing was \$6,800,000 at December 31, 2001. The Company has guaranteed a total of \$606,000 of debt associated with two of these partnerships. In addition, the Company, including the Management Companies, has provided loans and advances to certain of the partnerships aggregating \$25,245,000 at December 31, 2001. The Company assesses the financial status and cash flow of each of the partnerships at each balance sheet date in order to assess recoverability of its investment in and advances to these affiliates.

The Company believes the properties operations conform to the applicable requirements as set forth above and do not anticipate any payment on the guarantees described above.

Summarized balance sheet information relating to these partnerships is as follows (amounts are in thousands):

	2001 ----	2000 ----

Acquisitions and Dispositions

37

In 2001, the Company acquired a total of 10 communities with a total of 2,820 units for total consideration of \$212,000,000, or an average of approximately \$75,200 per unit. For the same time period, the Company sold 14 properties with a total of 2,855 units for total consideration of \$122,400,000, or an average of \$42,900 per unit. The weighted average expected first year cap rate of the 2001 Acquisition Communities was 9.3% and of the 2001 Disposed Communities was 9.2%. The weighted average unleveraged internal rate of return (IRR) during the Company's ownership for the properties sold was 15.8%.

Although the Company has acquired properties every year since its initial public offering in 1994, 2001 was the first year of its asset disposition program. The Company's management was very pleased with the success of its strategy to recycle assets by disposing of properties that have reached their potential or are less efficient to operate due to size or remote location, while acquiring properties in targeted geographic regions with higher future growth characteristics. The Company indicated that the timing of sales and acquisitions worked well to avoid dilution and a negative spread in initial cap rates.

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

In January, 2002, the Company sold six communities with a total of 339 units in Eastern Pennsylvania and Baltimore, Maryland for total consideration of \$13,600,000, or an average of \$41,100 per unit. The expected weighted average first year cap rate on these sales is 10.5% (before a reserve for capital expenditures). A gain on sale of approximately \$500,000 is expected to be reported in the first quarter of 2002 from these sales.

Contractual Obligations and other Commitments

The primary obligations of the Company relate to its borrowings under the line of credit and mortgage notes payable. The \$32,500,000 outstanding under the line of credit matures in September, 2002. The \$960,000,000 in mortgage notes payable have varying maturities ranging from 1 to 11 years. The principal payments on the mortgage notes payable for the years subsequent to December 31, 2001 are as follows: \$53,378,000 - 2002, \$26,359,000 - 2003, \$36,675,000 - 2004, \$41,870,000 - 2005, \$68,485,000 - 2006 and \$733,591,000 - thereafter. The Company has a non-cancelable operating ground lease for one of its properties. The lease expires May 1, 2020, with options to extend the term of the lease for two successive terms of twenty-five years each. The lease provides for contingent rental payments based on certain variable factors. At December 31, 2001, future minimum rental payments required under the lease are \$70 per year until the lease expires.

As discussed in the section entitled "Off-Balance Sheet Investments," the Company has the following guarantees or commitments relating to its equity method partnership investments: a) guarantee for a total of \$606,000 of debt associated with two of partnerships, b) guarantee of the low income housing tax credits to the limited partners for a period of five years in 42 partnerships totaling approximately \$48,500,000, and c) the Company is obligated to advance funds to meet partnership operating deficits for a five year period for certain partnerships. The Company believes the properties operations conform to the applicable requirements as set forth above and do not anticipate any payment on the guarantees described above.

Capital Improvements

Total capital improvement expenditures increased from \$92,603,000 in 2000 to \$130,468,000 in 2001. Of the \$130,468,000 in total 2001 expenditures, \$37,140,000 is attributable to the 2000 Acquisition Communities, \$3,111,000 is attributable to the 2001 Acquisition Communities, and \$2,969,000 is attributable to the 2001 Disposition Communities. Of the remaining \$87,248,000, \$85,001,000 relates to the 2001 Core Properties and \$2,247,000 relates to corporate office expenditures.

Costs related to the acquisition, development, construction and improvement of properties are capitalized. Recurring, capital replacements typically include carpeting and tile, appliances, HVAC equipment, new roofs, site improvements and various exterior building improvements. Non-

recurring upgrades include, among other items, community centers, new appliances, new windows, kitchens and bathrooms. Interest costs are capitalized until construction is substantially complete. Ordinary repairs and maintenance that do not extend the life of the asset are expensed as incurred. The Company's financial statements are impacted by its

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

capitalization policies. Other companies may have different policies.

Funding for the above described capital replacements are provided by cash flows from operating activities. The Company estimates that during 2001, approximately \$400 per unit was spent on capital replacements to maintain the condition of its properties.

The schedule below summarizes the breakdown of capital improvements:

	Recurring Capital Replacements -----	Non-recurring Revenue Enhancing Upgrades -----	Combine Impro -----
2001 Core Properties	\$12,321,000	\$ 72,680,000	\$ 85
2000 Acquisition Communities	2,154,000	34,986,000	37
2001 Acquisition Communities	515,000	2,596,000	3
2001 Disposition Communities	566,000	2,403,000	2
Corporate office expenditures*	N/A	N/A	2
	-----	-----	----
	\$15,556,000	\$112,665,000	\$130
	=====	=====	=====

*No distinction is made between recurring or non-recurring expenditures for the corporate office.

The \$112,665,000 incurred to fund non-recurring, revenue enhancing upgrades included, among other items, the following: construction of seven new community centers; nearly 21,000 new windows; and the modernization of approximately 4,300 kitchens and 5,100 bathrooms. Management believes that these upgrades contributed significantly towards achieving 7.7% average growth in net operating income at the 2001 Core Properties. For the combined 2001 and 2000 Acquisition Communities, substantial rehabilitations were incurred as part of management's acquisition and repositioning strategies. The pace of capital replacements was accelerated to improve the overall competitive condition of the properties as quickly as possible. Funding for these capital improvements was provided by the line of credit and equity proceeds.

During 2002, management expects that the communities' revenue growth will benefit further from improvements completed in 2001 and plans to continue to fund similar non-recurring, revenue enhancing upgrades. Management anticipates expenditures of \$96 million in 2002, in addition to normal capital replacements. The Company selected J.D. Edwards as a platform for the new back office accounting system. The capital outlay during 2002 is estimated to be \$1.5 million. The system will be fully implemented around mid-year and should streamline the reporting process as well as provide improved management information.

Environmental Issues

Phase I environmental audits have been completed on substantially all of the Owned Properties. There are no recorded amounts resulting from environmental liabilities as there are no known contingencies with respect thereto. Furthermore, no condition is known to exist that would give rise to a material liability for site restoration or other costs that may be incurred with respect to the sale or disposal of a property.

New Accounting Pronouncements

On June 29, 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 141 (SFAS 141), Business Combinations, and No. 142 (SFAS 142), Goodwill and Other Intangible Assets. The provisions of SFAS 141 require the use of purchase accounting for all business combinations and the separate allocation of purchase price to intangible assets if specific criteria are met. The provisions of SFAS 142 state that

39

goodwill and intangible assets with indefinite useful lives should not be amortized but rather tested at least annually for impairment. Intangible assets that have finite useful lives should continue to be amortized over their estimated useful lives. SFAS 142 also provides specific guidance for testing goodwill and intangible assets for impairment. The Company does not anticipate that these standards will have a material impact on the Company's financial position, results of operations, or cash flows. The provisions of SFAS No. 141 apply to all business combinations initiated after June 30, 2001. The Company will adopt FAS 142 effective January 1, 2002.

In October 2001, the FASB issued Statement of Financial Accounting Standard No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", which addresses financial accounting and reporting for the impairment or disposal of long-lived assets. This standard harmonizes the accounting for impaired assets and resolves some of the implementation issues as originally described in SFAS 121. It retains the fundamental provisions of Statement 121 for (a) recognition and measurement of the impairment of long-lived assets to be held and used and (b) measurement of long-lived assets to be disposed of by sale. It also retains the basic provisions for presenting discontinued operations in the income statement but broadens the scope to include a component of an entity rather than a segment of a business. The Company will adopt this standard effective January 1, 2002. The Company does not expect this pronouncement to have a material impact on the Company's financial position, results of operations, or cash flows.

Economic Conditions

Substantially all of the leases at the communities are for a term of one year or less, which enables the Company to seek increased rents upon renewal of existing leases or commencement of new leases. These short-term leases minimize the potential adverse effect of inflation on rental income, although residents may leave without penalty at the end of their lease terms and may do so if rents are increased significantly.

Historically, real estate has been subject to a wide range of cyclical economic conditions, which affect various real estate sectors and geographic regions with differing intensities and at different times. In 2001, many regions of the United States have experienced varying degrees of economic recession; and the tragic events of September 11, 2001 accelerated certain recessionary trends, such as the cost of obtaining sufficient property and liability insurance coverage, short term interest rates, and a temporary reduction in occupancy. The Company believes, however, that these tragic events did not have a material effect on the Company's portfolio, given our property type and the geographic regions in which we are located. We will continue to review our business strategy and do not anticipate any

changes in strategy or material effects in financial performance.

Contingency

The Company has recently undergone a state tax audit. The state has assessed taxes of \$469,000 for the 1998 and 1999 tax years under audit. If the state's position is applied to all tax years through December 31, 2001, the assessment would be \$1.8 million. The Company believes the assessment and the state's underlying position is not supportable by the law nor consistent with previously provided interpretative guidance from the office of the State Secretary of Revenue. The Company has been advised that it has meritorious positions for its previous tax filings. As a result, no amounts were accrued by the Company as of December 31, 2001.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

The Company's primary market risk exposure is interest rate risk. At December 31, 2001 and 2000, approximately 96% and 99%, respectively, of the Company's debt bore interest at fixed rates with a weighted average maturity of approximately 10 and 11 years, respectively, and a weighted average interest rate of approximately 7.27% and 7.41%, respectively, including the \$35 million of debt swapped to a fixed rate. The remainder of the Company's debt bears interest at variable rates with a weighted average maturity of approximately 1 year and 6 years, respectively,

40

and a weighted average interest rate of 3.27% and 6.54%, respectively, at December 31, 2001 and 2000. The Company does not intend to utilize permanent variable rate debt to acquire properties in the future. On occasion, the Company may assume variable rate debt or use its line of credit in connection with a property acquisition with the intention to swap to or refinance with fixed rate debt. The Company believes, however, that in no event would increases in interest expense as a result of inflation significantly impact the Company's distributable cash flow.

At December 31, 2001 and 2000, the interest rate risk on \$35 million of such variable rate debt has been mitigated through the use of interest rate swap agreements (the "Swaps") with major financial institutions. The Company is exposed to credit risk in the event of non-performance by the counter-parties to the Swaps. The Company believes it mitigates its credit risk by entering into these Swaps with major financial institutions. The Swaps effectively convert an aggregate of \$35 million in variable rate mortgages to fixed rates of 5.91%, 7.66%, 8.40% and 8.22%.

At December 31, 2001 and 2000, the fair value of the Company's fixed rate debt, including the \$35 million which was swapped to a fixed rate, amounted to a liability of \$958 million and \$859 million compared to its carrying amount of \$960 million and \$833 million, respectively. The Company estimates that a 100 basis point decrease in market interest rates at December 31, 2001 would have changed the fair value of the Company's fixed rate debt to a liability of \$1,016 million.

The Company intends to continuously monitor and actively manage interest costs on its variable rate debt portfolio and may enter into swap positions based upon market fluctuations. In addition, the Company believes that it has the ability to obtain funds through additional equity offerings or the issuance of UPREIT Units. Accordingly, the cost of obtaining such interest rate protection agreements in relation to the Company's access to capital

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

markets will continue to be evaluated. The Company has not, and does not plan to, enter into any derivative financial instruments for trading or speculative purposes. As of December 31, 2001, the Company had no other material exposure to market risk.

42

Home Properties of New York, L.P. (the "Operating Partnership"). Mr. Gosule was the nominee of the State Treasurer under the terms of the investment agreements relating to that transaction. Those retirement funds divested their interest in Home Properties in 2001 and no longer have the right to nominate a board member. Mr. Gosule is expected to continue to serve as a nominee of the Board of Directors.

Leonard F. Helbig, III has been a director of the Company since August, 1994. Since 1999 Mr. Helbig has served as President, Financial Services for Cushman & Wakefield. Prior to that, Mr. Helbig was the Executive Managing Director of the Asset Services and Financial Services Groups since 1984. He joined Cushman & Wakefield in 1980 and is also a member of that firm's Board of Directors and Executive Committee. Mr. Helbig is a member of the Urban Land Institute, the Pension Real Estate Association and the International Council of Shopping Centers. Mr. Helbig is a graduate of LaSalle University and holds the MAI designation of the American Institute of Real Estate Appraisers.

Roger W. Kober has been a director of the Company since August, 1994. Mr. Kober is currently a director of RGS Energy Corporation and its wholly owned subsidiary, Rochester Gas and Electric Corporation. He was employed by Rochester Gas and Electric Corporation from 1965 until his retirement on January 1, 1998. University and has a PhD from the University of North Carolina at Chapel Hill.

Paul L. Smith has been a director of the Company since August, 1994. Mr. Smith was a director, Senior Vice President and the Chief Financial Officer of the Eastman Kodak Company from 1983 until he retired in 1993. He is currently a director of Performance Technologies, Inc. and Constellation Brands, Inc. He is also a member of the Board of Trustees of the George Eastman House and Ohio Wesleyan University. Mr. Smith is a graduate of Ohio Wesleyan University and holds an MBA Degree in finance from Northwestern University.

Amy L. Tait has served as a director of the Company since its inception in 1993. Effective February 15, 2001, Mrs. Tait resigned her full-time position as Executive Vice President of the Company and as a director of HP Management. She is currently the principal of Tait Realty Advisors, LLC, and continued as a consultant in the Company pursuant to a consulting agreement that terminated on February 15, 2002. Mrs. Tait joined Home Leasing in 1983 and held several positions with the Company, including Senior and Executive Vice President and Chief Operating Officer. She currently serves on the M & T Bank Advisory Board and the boards of the United Way of Rochester, Princeton Club of Rochester, the Al Sigl Center, and The Commission Project. Mrs. Tait is a graduate of Princeton University and holds an MBA from the William E. Simon Graduate School of Business Administration of the University of Rochester. She is the daughter of Norman Leenhouts.

See Item 4A in Part I hereof for information regarding executive officers of the Company.

Compliance with Section 16(a) of the Securities Act of 1934.

Section 16(a) of the Securities Exchange Act of 1934, as amended, (the "Exchange Act") requires the Company's executive officers and directors, and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission and the New York Stock Exchange. Officers, directors and greater than 10% shareholders are required to furnish the Company with copies of all Section 16(a) forms they file.

To the Company's knowledge, based solely on review of the copies of such reports furnished to the Company and written representations that no other reports were required during the fiscal year ended December 31, 2001, all Section 16(a) filing requirements applicable to its executive officers, directors and greater than 10% beneficial owners were satisfied.

Report of Independent Accountants

To the Board of Directors and Shareholders of
Home Properties of New York, Inc.:

In our opinion, the consolidated financial statements listed in the index appearing under Item 14(a)(1) and (2) on page 46 present fairly, in all material respects, the financial position of Home Properties of New York, Inc. and its subsidiaries at December 31, 2001 and 2000, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2001 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the index appearing under Item 14(a)(1) and (2) on page 46 presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. These financial statements and the financial statement schedule are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements and the financial statement schedule based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(DOLLARS IN THOUSANDS, EXCEPT SHARE AND PER SHARE DATA)

1 ORGANIZATION AND BASIS OF PRESENTATION

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

Organization

Home Properties of New York, Inc. (the "Company") was formed in November 1993, as a Maryland corporation and is engaged primarily in the ownership, management, acquisition, rehabilitation and development of residential apartment communities in the Northeastern, Mid-Atlantic and Midwestern United States. The Company conducts its business through Home Properties of New York, L.P. (the "Operating Partnership"), a New York limited partnership. As of December 31, 2001, the Company operated 293 apartment communities with 49,745 apartments. Of this total, the Company owned 143 communities, consisting of 39,007 apartments, managed as general partner 132 partnerships that owned 8,035 apartments and fee managed 2,703 apartments for affiliates and third parties. The Company also fee managed 2.2 million square feet of office and retail properties.

Basis of Presentation

The accompanying consolidated financial statements include the accounts of the Company and its 60.0% (57.6% at December 31, 2000) partnership interest in the Operating Partnership. Such interest has been calculated as the percentage of outstanding common shares divided by the total outstanding common shares and Operating Partnership Units ("UPREIT Units") outstanding. The remaining 40.0% (42.4% at December 31, 2000) is reflected as Minority Interest in these consolidated financial statements. For financing purposes, the Company has formed a limited liability company (the "LLC") and a partnership (the "Financing Partnership") which beneficially own certain apartment communities encumbered by mortgage indebtedness. The LLC is wholly owned by the Operating Partnership. The Financing Partnership is owned 99.9% by the Operating Partnership and .1% by Home Properties Trust, a wholly owned qualified REIT subsidiary ("QRS") of the Company.

Investments in entities where the Company has the ability to exercise significant influence over but does not have financial and operating control are accounted for using the equity method. All significant intercompany balances and transactions have been eliminated in these consolidated financial statements.

The Company accounts for its investment as managing general partner ("GP") in unconsolidated limited partnerships ("LP") using the equity method of accounting. As managing GP of the LP, the Company has the ability to exercise significant influence over operating and financial policies. This influence is evident in the terms of the respective partnership agreements, participation in policy-making processes, and the employment of its management personnel. However, the Company does not have a controlling interest in the respective LPs. The limited partners have significant rights, such as the right to replace the general partner (for cause) and the right to approve the sale or refinancing of the assets of the respective partnership in accordance with the partnership agreement.

The Company records its allocable share of the respective partnership's income or loss based on the terms of the agreement. To the extent it is determined that the LPs cannot absorb their share of the losses, if any, the GP will record the LPs share of such losses.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Real Estate

Real estate is recorded at cost. Costs related to the acquisition, development, construction and improvement of properties are capitalized. Recurring capital replacements typically include carpeting and tile, appliances, HVAC equipment, new roofs, site improvements and various exterior building improvements. Non-recurring upgrades include, among other items, community centers, new appliances, new windows, kitchens and bathrooms. Interest costs are capitalized until construction is substantially complete. There was \$520, \$260, and \$263 of interest capitalized in 2001, 2000 and 1999, respectively. When retired or otherwise disposed of, the related asset cost and accumulated depreciation are cleared from the respective accounts and the net difference, less any amount realized from disposition, is reflected in income. Ordinary repairs and maintenance that do not extend the life of the asset are expensed as incurred.

Management reviews its long-lived assets used in operations for impairment when there is an event or change in circumstances that indicates an impairment in value. An asset is considered impaired when the undiscounted future cash flows are not sufficient to recover the asset's carrying value. If such impairment is present, an impairment loss is recognized based on the excess of the carrying amount of the asset over its fair value. No such losses have been recognized to date. The Company records impairment losses and reduces the carrying amounts of assets held for sale when the carrying amounts exceed the estimated selling proceeds less the costs to sell.

Depreciation

Properties are depreciated using a straight-line method over the estimated useful lives of the assets as follows: buildings, improvements and equipment - 5-40 years; and tenant improvements - life of related lease. Depreciation expense charged to operations was \$64,684, \$52,221, and \$37,176 for the years ended December 31, 2001, 2000 and 1999, respectively.

Cash and Cash Equivalents

Cash and cash equivalents include all cash and highly liquid investments purchased with original maturities of three months or less. The Company estimates that the fair value of cash equivalents approximates the carrying value due to the relatively short maturity of these instruments.

Cash in Escrows

Cash in escrows consists of cash restricted under the terms of various loan agreements to be used for the payment of property taxes and insurance as well as required replacement reserves and tenant security deposits for residential properties.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Charges

Costs relating to the financing of properties are deferred and amortized over the life of the related financing agreement. The straight-line method, which approximates the effective interest method, is used to amortize all financing costs; such amortization is reflected as interest expense in the consolidated statement of operations. The range of the terms of the agreements are from 1-23 years. Accumulated amortization was \$1,548 and \$1,270, as of December 31, 2001 and 2000, respectively.

Intangible Assets

Intangible assets of \$4,942 and \$7,501 at December 31, 2001 and 2000, respectively, included in Other Assets, consist primarily of property management contracts obtained through the acquisition of real estate management businesses, which are amortized on the straight-line basis over their estimated useful lives of 40 years. The carrying value of intangible assets is periodically reviewed by the Company and impairments are recognized when the expected future operating cash flows derived from such intangible assets is less than their carrying value. Accumulated amortization was \$888 and \$684 as of December 31, 2001 and 2000, respectively.

Revenue Recognition

The Operating Partnership leases its residential properties under leases with terms generally one year or less. Rental income is recognized when earned. Property other income, which consists primarily of income from operation of laundry facilities, administrative fees, garage and carport rentals and miscellaneous charges to residents, is recognized when earned.

Property management fees are recognized when earned based on a contractual percentage of net monthly cash collected on rental income.

Prior to 2001, the Operating Partnership earned development and other fee income from properties in the development phase. This fee income is recognized on the percentage of completion method.

Gains on Real Estate Sales

Gains from sales of operating properties are recognized using the full accrual method in accordance with the provisions of Statement of Financial Accounting Standards No. 66, Accounting for Real Estate Sales, provided that various criteria relating to the terms of sale and any subsequent involvement by the Company with the properties sold are met.

Advertising

Advertising expenses are charged to operations during the year in which they were incurred. Advertising expenses incurred and charged to operations were approximately \$5,486, \$5,366, and \$3,966 for the years

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

ended December 31, 2001, 2000 and 1999, respectively.

Insurance Settlement

In October, 2001, the Company resolved a legal claim with an insurance provider and received a total settlement of \$4.9 million. This refund was allocated to insurance expense in relation to the Company's estimate of loss spread over the corresponding policy term. The policy term covered November 1, 2000 to October 31, 2001 and November 1, 2001 to October 31, 2002. The amount of the settlement relating to the period from November 1, 2000 to December 31, 2001 was estimated to be \$2.2 million, and that amount reduced insurance expense in the fourth quarter of 2001. The remaining settlement of \$2.7 million relates to the remaining policy period from January 1, 2001, through October 31, 2002, and will be amortized on a straight-line basis over that period.

Federal Income Taxes

The Company has elected to be taxed as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986, as amended, commencing with the taxable year ended December 31, 1994. As a result, the Company generally will not be subject to Federal or State income taxation at the corporate level to the extent it distributes annually at least 90% (95% in years prior to 2001) of its REIT taxable income to its shareholders and satisfies certain other requirements. For the years ended December 31, 2001, 2000 and 1999, the Company distributed 100% of its taxable income; accordingly, no provision has been made for federal income taxes in the accompanying consolidated financial statements. Stockholders are taxed on dividends and must report such dividends as either ordinary income, capital gains, or as return of capital.

The tax basis of assets is less than the amounts reported in the accompanying consolidated financial statements by approximately \$202 million and \$188 million at December 31, 2001 and 2000, respectively.

The following table reconciles net income to taxable income for the years ended December 31, 2001, 2000 and 1999:

Earnings Per Share

Basic Earnings Per Share ("EPS") is computed as net income available to common shareholders divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock-based compensation including stock options and the conversion of any cumulative convertible preferred stock. The exchange of an Operating Partnership Unit for common stock will have no effect on diluted EPS as unitholders and stockholders effectively share equally in the net income of the Operating Partnership.

Income before extraordinary item, extraordinary item and net income available to common shareholders are the same for both the basic and diluted calculation. The reconciliation of the basic and diluted earnings per share for the years ended December 31, 2001, 2000 and 1999, is as follows:

	2001 ----	2000 ----
Net Income	\$ 64,506	\$ 41,456

For the year ended December 31, 2001, the 4,816,667 shares of the Series A (prior to the November 27, 2001 conversion), B, C, D and E Convertible Cumulative Preferred Stock (7,112,381 common stock equivalents) on an as-converted basis has an antidilutive effect and is not included in the computation of diluted EPS.

Reclassification

Certain reclassifications have been made to the 2000 and 1999 consolidated financial statements to conform to the 2001 presentation.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements

On June 29, 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 141 (SFAS 141), Business Combinations, and No. 142 (SFAS 142), Goodwill and Other Intangible Assets. The provisions of SFAS 141 require the use of purchase accounting for all business combinations and the separate allocation of purchase price to intangible assets if specific criteria are met. The provisions of SFAS 142 provide that goodwill and intangible assets with indefinite useful lives should not be amortized but rather tested at least annually for impairment. Intangible assets that have finite useful lives should continue to be amortized over their estimated useful lives. SFAS 142 also provides specific guidance

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

for testing goodwill and intangible assets for impairment. The Company does not anticipate that these standards will have a material impact on the Company's financial position, results of operations, or cash flows. The provisions of SFAS No. 141 apply to all business combinations initiated after June 30, 2001. The Company will adopt FAS 142 effective January 1, 2002.

In October 2001, the FASB issued Statement of Financial Accounting Standard No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", which addresses financial accounting and reporting for the impairment or disposal of long-lived assets. This standard harmonizes the accounting for impaired assets and resolves some of the implementation issues of SFAS 121. It retains the fundamental provisions of Statement 121 for (a) recognition and measurement of the impairment of long-lived assets to be held and used and (b) measurement of long-lived assets to be disposed of by sale. It also retains the basic provisions for presenting discontinued operations in the income statement but broadens the scope to include a component of an entity rather than a segment of a business. The Company will adopt this standard effective January 1, 2002. The Company does not expect this pronouncement to have a material impact on the Company's financial position, results of operations, or cash flows.

4 MANAGEMENT COMPANIES

Certain property management, leasing and development activities are performed by Home Properties Management, Inc. and Home Properties Resident Services, Inc. (formerly Conifer Realty Corp.) (together the "Management Companies"). Both are Maryland corporations and, effective January 1, 2001, elected to convert to taxable REIT subsidiaries under the Tax Relief Extension Act of 1999. The Operating Partnership owns non-voting common stock in the Management Companies which entitles it to receive 95% and 99% of the economic interest

in Home Properties Management, Inc. and Home Properties Resident Services, respectively. Effective March 1, 2001, the Company recapitalized Home Properties Resident Services, Inc. by contributing to capital \$23.7 million of loans due from affiliated partnerships. Simultaneous with the recapitalization, the Company increased its effective economic interest from 95% to 99% diluting the economic interest held by certain of the Company's officers and inside directors. The Company's share of income from the Management Companies, included in Other Income in the consolidated statement of operations, for the twelve months ended December 31, 2001, 2000 and 1999, is summarized as follows:

	2001 ----	2000 ----

The general and administrative expenses reflected above represent an allocation of direct and indirect costs incurred by the Company estimated by management to be associated with the operations of the Management Companies.

Included in assets of the Management Companies are notes and other receivables due from affiliated partnerships (Note 3) of approximately \$25,000 and \$0 at December 31, 2001 and 2000, respectively. The interest rates of the notes receivable include both fixed and variable rate terms. The variable rate loans are at one percent over the Prime rate of interest. The fixed rate agreements range from 8.47% to 8.75% per annum. The maturity dates for these notes receivable range from 2002 to 2032.

5 MORTGAGE NOTES PAYABLE

The Company's mortgage notes payable are summarized as follows:

	2001

Fixed rate mortgage notes payable	\$954,203
Variable rate mortgage notes payable	6,155

Total mortgage notes payable	\$960,358
	=====

Mortgage notes payable are collateralized by certain apartment communities and mature at various dates from August, 2002, through June, 2036. The weighted average interest rate of the Company's variable rate notes and credit facility was 3.27% and 6.54% at December 31, 2001

F-15

and 2000, respectively. The weighted average interest rate of the Company's fixed rate notes was 7.27% and 7.41% at December 31, 2001 and 2000, respectively.

Principal payments on the mortgage notes payable for years subsequent to December 31, 2001 are as follows:

2002		\$ 53,378
2003		26,359
2004		36,675
2005		41,870
2006		68,485
Thereafter		733,591

		\$960,358
		=====

The Company determines the fair value of the mortgage notes payable based on the discounted future cash flows at a discount rate that approximates the Company's current effective borrowing rate for comparable loans. Based on this analysis, the Company has determined that the fair value of the mortgage notes payable approximates \$958,452 and \$858,743, at December 31, 2001 and 2000, respectively.

The Company has incurred prepayment penalties on debt restructurings which are accounted for as extraordinary items in the statement of operations. Prepayment penalties were approximately \$116, \$0, and \$174 for the years ended December 31, 2001, 2000 and 1999, respectively. The 2001 repayments on eight debt instruments totaled \$51,969 and were refinanced by eleven new borrowings in excess of \$131,370. The 2000 repayments on two debt instruments totaled \$25,067 and were refinanced by two new borrowings in excess of \$39,000.

6 LINE OF CREDIT

As of December 31, 2001, the Company had an unsecured line of credit from M & T Bank of \$100 million with \$32.5 million outstanding. Borrowings under the line of credit bear interest at 1.25% over the one-month LIBOR rate. Accordingly, increases in interest rates will increase the Company's interest expense and as a result will effect the Company's results of operations and financial condition. The line of credit expires on September 1, 2002. The Company is evaluating alternatives to replace or extend the line of credit after September 1, 2002. The LIBOR interest rate was 1.93% at December 31, 2001.

7 MINORITY INTEREST

Minority interest in the Company relates to the interest in the Operating Partnership not owned by Home Properties of New York, Inc. Holders of UPREIT Units may redeem a Unit for one share of the Company's common stock or cash equal to the fair market value at the time of the redemption, at the option of the Company.

did not establish a target price or a specific timetable for repurchase. At December 31, 1999, there was approval remaining to purchase 795,100 shares. In 2000, the Board of Directors approved a 1,000,000-share increase in the stock repurchase program. During 2000, the Company repurchased 468,600 shares at a cost of \$12,664,000. In 2001, the Board of Directors approved a 1,000,000-share increase in the stock repurchase program. During 2001, the Company repurchased 754,000 shares and 436,700 UPREIT Units at a cost of \$20,600,000 and \$11,900,000, respectively. Approval to repurchase 1,135,800 shares of common stock and UPREIT Units remains at December 31, 2001.

Preferred Stock

On December 22, 1999, the holder of the Class A limited partnership interests converted its ownership to 9% Series A convertible cumulative preferred stock ("Series A Preferred Shares"), liquidation preference of \$21.00 per Common Share, total shares outstanding of 1,666,667. The conversion to preferred stock occurred at the Company's request and permits the Operating Partnership to continue to use favorable tax depreciation methods. The Series A Preferred Shares were convertible at any time by the holder on a one-for-one basis into Common Shares. On November 28, 2001, the Series A Preferred Shares were converted to common shares. The conversion had no effect on reported results of operations.

On September 30, 1999, the Company privately placed 2,000,000 of its 8.36% Series B convertible cumulative preferred stock ("Series B Preferred Shares"), \$25 liquidation preference per share. This offering generated net proceeds of approximately \$48.7 million after offering costs of \$1.3 million. The net proceeds were used to pay down Company borrowings. The Series B Preferred Shares are convertible at any time by the holder into Common Shares at a conversion price of \$29.77 per Common Share, equivalent to a conversion ratio of .8398 Common Shares for

F-17

each Series B Preferred Share (equivalent to 1,679,543 Common Shares assuming 100% converted). The Series B Preferred Shares are non-callable for five years. Each Series B Preferred Share will receive the greater of a quarterly distribution of \$0.5225 per share or the dividend paid on a share of common stock on an as converted basis. The Company has determined that the Series B Preferred Shares contain certain contingent provisions that could cause such shares to be redeemable at the option of the holder and has presented this class of preferred stock outside of stockholders' equity.

In May and June of 2000, the Company privately placed 600,000 of its 8.75% Series C convertible cumulative preferred stock ("Series C Preferred Shares"), \$100 liquidation preference per share. This offering generated net proceeds of approximately \$60 million. The net proceeds were used to fund acquisitions and property upgrades. The Series C Preferred shares are convertible at any time by the holder

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

into Common Shares at a conversion price of \$30.25 per Common Share, equivalent to a conversion ratio of 3.3058 Common Shares for each Series C Preferred share (equivalent to 1,983,471 Common shares assuming 100% converted). The Series C Preferred shares are non-callable for five years. Each Series C Preferred share will receive the greater of a quarterly distribution of \$2.1875 per share or the dividend paid on a share of common stock on an as-converted basis. The Company also issued 240,000 additional warrants to purchase common shares at a price of \$30.25 per share, expiring in 2005.

In June, 2000, the Company privately placed 250,000 of its 8.78% Series D convertible cumulative preferred stock ("Series D Preferred Shares"), \$100 liquidation preference per share. This offering generated net proceeds of approximately \$25 million. The net proceeds were used to fund Company acquisitions and property upgrades. The Series D Preferred Shares are convertible at any time by the holder into Common Shares at a conversion price of \$30.00 per Common Share, equivalent to a conversion ratio of 3.333 Common Shares for each Series D Preferred share (equivalent to 833,333 Common Shares assuming 100% converted). The Series D Preferred shares are non-callable for five years. Each Series D Preferred share will receive the greater of a quarterly distribution of \$2.195 per share or the dividend paid on a share of common stock on an as-converted basis.

In December, 2000, the Company privately placed 300,000 of its 8.55% Series E convertible cumulative preferred stock ("Series E Preferred Shares"), \$100 liquidation preference per share. This offering generated net proceeds of approximately \$30 million. The net proceeds were used to pay down Company borrowings. The Series E Preferred Shares are convertible at any time by the holder into Common Shares at a conversion price of \$31.60 per Common Share, equivalent to a conversion ratio of 3.1646 Common Shares for each Series E Preferred Share (equivalent to 949,367 Common Shares assuming 100% converted). The Series E Preferred Shares are non-callable for five years. Each Series E Preferred Share will receive the greater of a quarterly distribution of \$2.1375 per share or the dividend paid on a share of common stock on an as-converted basis. In addition, the Company issued warrants to purchase 285,000 common shares at a price of \$31.60 per share, expiring in 2005.

Dividend Reinvestment Plan

The Company has a Dividend Reinvestment, Stock Purchase, Resident Stock Purchase and Employee Stock Purchase Plan (the "DRIP"). The DRIP provides the stockholders, employees and residents of the Company an opportunity to automatically invest their cash dividends at a

F-18

discount of 3% from the market price. In addition, eligible participants may make monthly or other voluntary cash investments, also

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

typically at a discount, which has varied between 2% and 3% from the market price, in shares of common stock. In response to a perceived dilution from issuing new shares at or below the underlying net asset value, effective April 10, 2001, the DRIP was amended to reduce the share purchase discount from the current market price from 3% to 2%. The maximum amount that can be invested without the Company's prior permission was also reduced from \$5,000 to \$1,000. A total of \$32 million, \$57 million, and \$49 million was raised through this program during 2001, 2000 and 1999, respectively.

Officer and Director Notes for Stock Purchases

On August 12, 1996, eighteen officers and the six independent directors purchased an aggregate of 208,543 shares of Common Stock through the DRIP at the price of \$19.79. The purchases were financed 50% from a bank loan and 50% by a recourse loan from the Company. The Company loans bear interest at 7% per annum and mature in August, 2016. The Company loans are subordinate to the above-referenced bank loans, and are collateralized by pledges of the 208,543 Common Shares. The loans are paid from the regular quarterly dividends paid on the shares of common stock pledged, after the corresponding bank loans are paid in full.

On November 10, 1997, twenty-one officers and five of the independent directors purchased an aggregate of 169,682 shares of common stock through the DRIP at the price of \$26.66. The purchases were financed 50% from a bank loan and 50% by a recourse loan from the Company. The Company loans bear interest at 6.7% per annum and mature in November, 2017. The Company loans are subordinate to the above-referenced bank loans, and are collateralized by pledges of the 169,682 common shares. The loans are expected to be repaid from the regular quarterly dividends paid on the shares of common stock pledged, after the corresponding bank loans are paid in full.

Stock Purchase and Loan Plan

In May, 1998, the Company adopted the Director, Officer and Employee Stock Purchase and Loan Plan (the "Stock Purchase Plan"). The program provides for the sale and issuance, from time to time as determined by the Board of Directors, of up to 500,000 shares of the Company's Common Stock to the directors, officers and key employees of the Company for consideration of not less than 97% of the market price of the Common Stock. The Stock Purchase Plan also allows the Company to loan, on a recourse basis, the participants up to 100% of the purchase price (50% for non-employee directors).

On August 12, 1998, thirty officers/key employees and the six independent directors purchased an aggregate of 238,239 shares of common stock through the Stock Purchase Plan at the price of \$24.11. The purchases for the officers/key employees were financed 100% by a recourse loan from the Company (50% for non-employee directors). The loans bear interest at 7.13% per annum and mature on the earlier of the maturity of the 1996 and 1997 phases of the loan program or August, 2018. The loans are collateralized by pledges of the common stock and are expected to be repaid from the regular quarterly dividends paid on

bears interest at 8% per annum and matures on February 15, 2021. The loan was repaid in full on January 25, 2002.

Dividends

Stockholders are taxed on dividends and must report such dividends as either ordinary income, capital gains, or as return of capital. The Company has declared a \$2.31 distribution per common share during its most recent fiscal year (Cusip 437306103). Pursuant to Internal Revenue Code Section 857 (b) (3) (C), for the year ended December 31, 2001, the Company designates the following cash distributions to holders of common shares as capital gain dividends, in the amounts set forth in the table following on the next page:

9 STOCK BENEFIT PLAN

The Company has adopted the 1994 Stock Benefit Plan, as amended (the "Plan"). Plan participants include officers, non-employee directors, and key employees of the Company. The Company has reserved 1,596,000 shares for issuance to officers and employees and 154,000 shares for issuance to non-employee directors. Options granted to officers and employees of the Company vest 20% for each year of service until 100% vested on the fifth anniversary. Certain officers' options (264,000) and directors' options (149,100) vest immediately upon grant. The exercise price per share for stock options may not be less than 100% of the fair market value of a share of common stock on the date the stock option is granted (110% of the fair market value in

F-20

the case of incentive stock options granted to employees who hold more than 10% of the voting power of the Company's common stock). Options granted to directors and employees who hold more than 10% of the voting power of the Company expire after five years from the date of grant. All other options expire after ten years from the date of grant. The Plan also allows for the grant of stock appreciation rights and restricted stock awards. At December 31, 2001, 335,397 and 346 common shares were available for future grant of options or awards under the Plan for officers and employees and non-employee directors, respectively.

9 STOCK BENEFIT PLAN (Continued)

On February 1, 2000, the Company adopted the 2000 Stock Benefit Plan (the "2000 Plan"). Plan participants have been expanded to include directors, officers, regional managers and on-site property managers. It is expected that all future awards of stock options and restricted stock will be granted under the 2000 Plan. The 2000 Plan limits the number of shares issuable under the plan to 2.2 million, of which 200,000 are to be available for issuance to the non-employee directors. At December 31, 2001, 703,484 and 99,240 common shares were available for future grant of options or awards under the 2000 plan for officers and employees and non-employee directors, respectively.

Details of stock option activity during 2001, 2000 and 1999 are as follows:

The Company has adopted the disclosure only provisions of SFAS No. 123, "Accounting for Stock-Based Compensation." Accordingly, the Company does not recognize compensation cost for stock options when the option exercise price equals or exceeds the market value on the date of grant. The compensation cost that would have been recorded had the Company adopted the accounting provisions of SFAS 123, relative to the above-mentioned awards was \$834, \$489 and \$217 for 2001, 2000 and 1999, respectively. The Company's proforma net income before preferred dividends and proforma basic earnings per common share would have been \$63,672, \$40,956, and \$26,063 and \$2.08, \$1.39, and \$1.33, respectively. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions used for grants in 2001, 2000 and 1999: dividend yield of 9.40%; expected volatility of 19.03%; forfeiture rate of 5%; and expected lives of 7.5 years for options with a lifetime of ten years, and five years for options with a lifetime of five years. The interest rate used in the option-pricing model is based on a risk free interest rate ranging from 5.43% to 6.87%.

In 2001, the Company granted 20,600 shares of restricted stock. The restricted stock was granted to key employees of the Company and vests 100% on the fifth anniversary of the date of grant. The restricted shares were granted at price ranges of \$27.01 to \$30.15 per share. Total compensation cost recorded for the year ended December 31, 2001 for the restricted share grants was \$95,600.

10 SEGMENT REPORTING

The Company is engaged in the ownership and management of market rate apartment communities. Each apartment community is considered a separate operating segment. Each segment on a stand alone basis is less than 10% of the revenues, profit or loss, and assets of the combined reported operating segments. The operating segments are aggregated and segregated as Core and Non-core properties.

F-22

HOME PROPERTIES OF NEW YORK, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (DOLLARS IN THOUSANDS, EXCEPT SHARE AND PER SHARE DATA)

10 SEGMENT REPORTING (Continued)

Non-segment revenue to reconcile total revenue consists of unconsolidated management and development fees and interest income. Non-segment assets to reconcile to total assets include cash and cash equivalents, cash in escrows, accounts receivable, prepaid expenses, investments in and advances to affiliates, deferred charges and other assets.

Core properties consist of all apartment communities which have been owned more than one full calendar year. Therefore, the Core Properties represent communities owned as of January 1, 2000. Non-core properties

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

consist of apartment communities acquired during 2000 and 2001, such that full year comparable operating results are not available.

The accounting policies of the segments are the same as those described in Notes 1 and 2.

The Company assesses and measures segment operating results based on a performance measure referred to as Funds from Operations ("FFO"). FFO is generally defined as net income (loss), before gains (losses) from the sale of property and business, extraordinary items, plus real estate depreciation including adjustments for unconsolidated partnerships and joint ventures. For the year ended December 31, 1999, the Company's previously reported FFO excluded a non-recurring loss on available-for-sale securities of \$2,123 and a non-recurring acquisition expense of \$6,225. FFO is not a measure of operating results or cash flows from operating activities as measured by generally accepted accounting principles and it is not indicative of cash available to fund cash needs and should not be considered an alternative to cash flows as a measure of liquidity. Other companies may calculate similarly titled performance measures in a different manner.

11 DERIVATIVE FINANCIAL INSTRUMENTS

The Company has entered into interest rate swaps to minimize significant unplanned fluctuations in earnings that are caused by interest rate volatility. The Company does not utilize these arrangements for trading or speculative purposes. The principal risk to the Company through its interest rate hedging strategy is the potential inability of the financial institutions from which the interest rate protection was purchased to cover all of their obligations. To mitigate this exposure, the Company purchases its interest rate swaps from either the institution that holds the debt or from institutions with a minimum A- credit rating.

All derivatives, which have historically been limited to interest rates

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

swaps designated as cash flow hedges, are recognized on the balance sheet at their fair value. On the date that the Company enters into an interest rate swap, it designates the derivative as a hedge of the variability of cash flows that are to be received or paid in connection with a recognized liability. To the extent effective, subsequent changes in the fair value of a derivative designated as a cash flow hedge are recorded in other comprehensive income, until earnings are affected by the variability of cash flows of the hedged transaction. Any hedge ineffectiveness will be reported in interest expense in the consolidated statement of operations.

The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking various hedge transactions. The Company formally assesses (both at the hedge's inception and on an ongoing basis) whether the derivatives that are used in hedging transactions have been highly effective in offsetting changes in the cash flows of the hedged items and whether those derivatives may be expected to remain highly effective in future periods. Should it be determined that a derivative is not (or has ceased to be) highly effective as a hedge, the Company will discontinue hedge accounting prospectively.

The Company has four interest rate swaps that effectively convert variable rate debt to fixed rate debt. The notional amount amortizes in conjunction with the principal payments of the hedged items. The terms as follows:

Original Notional Amount	Fixed Interest Rate	Variable Interest Rate	Maturity D
-----	-----	-----	-----
\$17,600,000	5.91%	LIBOR + 1.60%	June 24, 2
\$12,000,000	7.66%	LIBOR + 1.25%	August 1,
\$3,000,000	8.22%	LIBOR + 1.40%	June 25, 2
\$4,625,000	8.40%	LIBOR + 1.40%	June 25, 2

On January 1, 2001, the Company adopted Statement of Financial Accounting Standards No. 133 (SFAS 133), Accounting for Derivative Instruments and Hedging Activities. At that time, the Company designated all of its interest rate swaps as cash flow hedges in accordance with the requirements of SFAS 133. The aggregate fair value of the derivatives on January 1, 2001 was \$583, prior to the allocation of minority interest, and was recorded as a liability on the consolidated balance sheet with an offset to other comprehensive income representing the cumulative effect of the transition adjustment pursuant to the provisions of Accounting Principles Board Opinion No. 20, Accounting Changes.

11 DERIVATIVE FINANCIAL INSTRUMENTS (Continued)

As of December 31, 2001, the aggregate fair value of the Company's interest rate swaps was \$920, prior to the allocation of minority interest, and is included in accrued expenses and other liabilities in the consolidated balance sheets. For the twelve months ending December 31, 2001, as the critical terms of the interest rate swaps and the hedged items are the same, no ineffectiveness was recorded in the consolidated statements of operations. All components of the interest rate swaps were included in the assessment of hedge effectiveness. The Company expects that within the next twelve months it will reclassify as a charge to earnings \$838, prior to the allocation of minority interest, of the amount recorded in accumulated other comprehensive loss. The fair value of the interest rate swaps is based upon the estimate of amounts the Company would receive or pay to terminate the contract at the reporting date and is estimated using interest rate market pricing models.

12 TRANSACTIONS WITH AFFILIATES

The Company and the Management Companies recognized management and development fee revenue, interest income and other miscellaneous income from affiliated entities of \$8,174, \$15,088, and \$15,199 for the years ended December 31, 2001, 2000 and 1999, respectively. The Company had accounts receivable outstanding due from affiliated entities of \$2,629 and \$3,279 at December 31, 2001 and 2000, respectively.

A director and former officer of the Company provided consulting services to the Company during 2001 for fees approximating \$271.

In 1997, certain officers and inside directors of the Company entered into a lease termination agreement with the Company. The agreement provided for a contingent termination fee based on the performance of the underlying property. In 2001, amounts of \$350 became payable to the Company under the terms of the agreement. This amount was classified in Other Property Income in the Consolidated Statement of Operations.

The Company leases its corporate office space from an affiliate. The lease requires an annual base rent of \$663 through December, 2002, \$802 for the year ended 2003, and \$872 for the year ended 2004. The lease also requires the Company to pay a pro rata portion of property improvements, real estate taxes and common area maintenance. Rental expense was \$956, \$712, and \$698 for the years ended December 31, 2001, 2000 and 1999, respectively.

From time to time, the Company advances funds as needed to the Management Companies which totaled \$15,954 and \$19,534 at December 31, 2001 and 2000, respectively, and bear interest at 1% over prime.

13 COMMITMENTS AND CONTINGENCIES

Ground Lease

Edgar Filing: HOME PROPERTIES OF NEW YORK INC - Form 10-K405

The Company has a non-cancelable operating ground lease for one of its properties. The lease expires May 1, 2020, with options to extend the term of the lease for two successive terms of twenty-five years each. The lease provides for contingent rental payments based on certain variable factors. The lease also requires the lessee to pay real estate taxes, insurance and certain other operating expenses applicable to the leased property. Ground lease expense was \$211, \$201, and \$194 including contingent rents of \$141, \$131, and \$124 for the years ended December 31, 2001, 2000 and 1999, respectively. At December 31, 2001, future minimum rental payments required under the lease are \$70 per year until the lease expires.

401(K) Savings Plan

The Company sponsors a contributory savings plan. Under the plan, the Company will match 75% of the first 4% of participant contributions. The matching expense under this plan was \$893, \$512, and \$398 for the years ended December 31, 2001, 2000 and 1999, respectively.

Incentive Compensation Plan

The Incentive Compensation Plan provides that eligible officers and key employees may earn a cash bonus based on increases in FFO per share/unit (computed based on the diluted shares/units outstanding). No cash bonuses are payable under the Incentive Compensation Plan unless the increase in FFO per share, after giving effect to the bonuses, was equal to or greater than 5%. The Board of Directors used its discretionary authority to approve a bonus for 2001 even though FFO growth per share was less than 5%. The bonus expense charged to operations (including that portion allocated to the Management Companies) was \$725, \$103, and \$2,190 for the years ended December 31, 2001, 2000 and 1999, respectively.

Contingencies

The Company is party to certain legal proceedings. All such proceedings, taken together, are not expected to have a material adverse effect on the Company. The Company is also subject to a variety of legal actions for personal injury or property damage arising in the ordinary course of its business, most of which are covered by liability insurance. While the resolution of these matters cannot be predicted with certainty, management believes that the final outcome of such legal proceedings and claims will not have a material adverse effect on the Company's liquidity, financial position or results of operations.

The Company has recently undergone a state tax audit. The state has assessed taxes of \$469 for the 1998 and 1999 tax years under audit. If the state's position is applied to all tax years through December 31, 2001, the assessment would be \$1,800. The Company believes the assessment and the state's underlying position is not supportable by the law nor consistent with previously provided interpretative guidance from the office of the State Secretary of Revenue. The Company has been advised that it has meritorious positions for its previous tax filings. As a result, no amounts were accrued by the Company as of December 31, 2001.

13 COMMITMENTS AND CONTINGENCIES (Continued)

Contingencies

In connection with various UPREIT transactions, the Company has agreed to maintain certain levels of nonrecourse debt associated with the contributed properties acquired. In addition, the Company is restricted in its ability to sell certain contributed properties (59% of the owned portfolio) for a period of time except through a tax deferred Internal Revenue Code Section 1031 like-kind exchange.

Debt Covenants

The line of credit loan agreement contain restrictions which, among other things, require maintenance of certain financial ratios and limit the payment of dividends.

Guarantees

The Company has guaranteed a total of \$606 of debt associated with two entities where the Company is the general partner. All other mortgage notes payable of affiliates are non-recourse debt to the limited partnerships and the Company. In addition, the Company has guaranteed the Low Income Housing Tax Credits to limited partners in 42 partnerships totaling approximately \$48,500. As of December 31, 2001, there were no known conditions that would make such payments necessary. In addition, the Company, acting as general partner in certain partnerships, is obligated to advance funds to meet partnership operating deficits.

Executive Retention Plan

Effective February 2, 1999, the Executive Retention Plan provides for severance benefits and other compensation to be received by certain employees in the event of a change in control of the Company and a subsequent termination of their employment without cause or voluntarily with good cause.

15 PROFORMA CONDENSED FINANCIAL INFORMATION

The Company acquired ten apartment communities ("2001 Acquired Communities") with 2,820 units in nine unrelated transactions during the twelve-month period ended December 31, 2001. The total purchase price (including closing costs) of \$212 million equates to approximately \$76,000 per unit. Consideration for the communities included \$68 million of assumed debt, \$19 million of UPREIT Units, and \$126 million of cash.

In addition, the Company disposed of fourteen apartment communities ("2001 Disposed Properties") with 2,855 units in six unrelated transactions during the twelve-month period ended December 31, 2001. The total selling price (including closing costs) of \$122 million resulted in \$26 million of gain on sale of real estate.

The following unaudited proforma information was prepared as if (i) the 2001 transactions related to the acquisition of the "2001 Acquired Communities" had occurred on January 1, 2000, (ii) the 2000 transactions related to the acquisitions of 22 apartment communities in twelve separate transactions had occurred on January 1, 1999, (iii) the 1999 transactions

related to the acquisition of 30 apartment communities in ten transactions had occurred on January 1, 1999, (iv) the disposition of the "2001 Disposed Properties" had occurred on January 1, 2000, and (v) the \$115 million Series B, C, D and E Preferred stock offerings had occurred on January 1, 1999. The proforma financial information is presented for informational purposes only and may not be indicative of what actual results of operations would have been had if the transactions been consummated as indicated, nor does it purport to represent the results of operations for future periods. Adjustments to the proforma condensed combined statement of operations for the twelve months ended December 31, 2001 and 2000, consist principally of providing for the net operating activity and recording interest, depreciation and amortization from January 1, 1999 to the acquisition date.
