- 1 The interest rates on the EdNotes may be changed by SLM Corporation from time to time, but any such change will not affect the interest rate on any EdNotes offered prior to the effective date of the change.
- 2 Expressed as a percentage of aggregate principal amount.
- 3 See Supplemental Plan of Distribution in the Prospectus supplement for additional information concerning price to public and underwriting compensation.
- 4 On the Interest Reset Date, the Calculation Agent will establish the new rate based on the BEY for the 3 month T Bill auction published in H.15 (<http://www.federalreserve.gov/Releases/h15/update/default.htm>).

In the event that the results of the 91 day Treasury Bill auction ceases to be published or reported, or that no auction is held in a particular week, then the rate in effect as a result of the last such report will remain in effect until such time, as the results of auctions of 91 day Treasury Bills will again be published.
