### RECENT DEVELOPMENTS

On June 13 2002 we issued the following press release.

#### ALAMOSA REVISES SECOND QUARTER SUBSCRIBER EXPECTATIONS AND SUBSTANTIALLY INCREASES FULL YEAR 2002 EBITDA GUIDANCE

LUBBOCK, TEXAS (JUNE 13, 2002) - Alamosa Holdings, Inc. (NYSE: APS), the largest Sprint PCS (NYSE: PCS) Network Partner based on number of subscribers, today announced it is revising expectations for net subscriber additions and churn for the second quarter ending June 30, 2002 and increasing the Company's full-year 2002 EBITDA (earnings before interest, taxes, depreciation and amortization) guidance.

### REVISED GUIDANCE

-----

- o SECOND QUARTER NET SUBSCRIBERS - Alamosa now expects net subscriber additions to be approximately 15,000 to 25,000 for the second quarter. Alamosa previously expected net subscriber additions to be approximately 30,000 to 35,000 for the second quarter.
- o SECOND QUARTER CHURN - Alamosa now expects churn in the second quarter to be in the range of 3.1 to 3.3 percent.
- o 2002 EBITDA - Alamosa now expects to achieve positive EBITDA in the range of approximately \$25 million to \$35 million for 2002. Alamosa previously expected positive EBITDA in the range of approximately \$15 million to \$20 million for 2002.

"While we believe future demand for wireless services will be strong, as a result of lower than expected gross subscriber additions during late May and June to-date and a marginal increase in churn, we now expect our net subscriber growth during the second quarter will be below our previous expectations," said David E. Sharbutt, Chief Executive Officer of Alamosa Holdings, Inc. "We attribute the lower subscriber growth to several factors, including more competitive sales conditions, reduced additions of sub-prime customers as a result of the new deposit requirement, and a general expectation of slower subscriber growth in the second quarter."

"I am pleased to report that we now expect to achieve a substantial increase in positive EBITDA for the year. While the lower number of subscriber additions will have a positive impact on EBITDA during the second quarter, the increase during the year will be driven primarily by our continued focus on operational excellence and efficiencies throughout every level of our company. Overall, we believe 2002 will be a positive year for Alamosa as we focus on the

financial performance of our company. Alamosa continues to be over-funded in excess of \$50 million dollars at the point of becoming free cash flow positive in 2003."

Alamosa reaffirmed its previously announced guidance as follows.

### REAFFIRMED GUIDANCE

-----

## Edgar Filing: ALAMOSA HOLDINGS INC - Form 424B3

- o 2002 NET SUBSCRIBERS - Alamosa expects net subscriber additions for the year to remain in the range of 190,000 to 210,000 with year-end subscribers in the range of approximately 693,000 to 713,000. The second half of the year, which is seasonally much stronger for net adds than the first half, is expected to be positively impacted by the launch of third generation technology (1XRTT).
- o CAPITAL EXPENDITURES - Alamosa expects capital expenditures for the year to be approximately \$85 million.
- o ARPU - Alamosa expects ARPU without roaming for the full year to remain in the range of \$59 to \$61 and expects ARPU with roaming to continue to decline due to roaming revenue being spread over an increasing subscriber base.
