PROXY STATEMENT

FOR THE 2008 ANNUAL MEETING OF STOCKHOLDERS

To Be Held On May 20, 2008

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of First Industrial Realty Trust, Inc. (the Company) for use at the 2008 Annual Meeting of Stockholders of the Company to be held on Tuesday, May 20, 2008, and at any adjournments or postponements thereof (the Annual Meeting). At the Annual Meeting, stockholders will be asked to vote on the election of three Class II Directors and one Class III Director of the Company, to ratify the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the current fiscal year and to act on any other matters properly brought before them.

This Proxy Statement and the accompanying Notice of Annual Meeting and Proxy Card are first being sent to stockholders on or about April 10, 2008. The Board of Directors has fixed the close of business on March 20, 2008 as the record date for the Annual Meeting (the Record Date). Only stockholders of record of the Company's common stock, par value \$.01 per share (the Common Stock), at the close of business on the Record Date will be entitled to notice of and to vote at the Annual Meeting. As of the Record Date, there were 44,169,156 shares of Common Stock outstanding and entitled to vote at the Annual Meeting. Holders of Common Stock outstanding as of the close of business on the Record Date will be entitled to one vote for each share held by them on each matter presented to the stockholders at the Annual Meeting.

Stockholders of the Company are requested to complete, sign, date and promptly return the accompanying Proxy Card in the enclosed postage-prepaid envelope. Shares represented by a properly executed Proxy Card received prior to the vote at the Annual Meeting and not revoked will be voted at the Annual Meeting as directed on the Proxy Card. If a properly executed Proxy Card is submitted and no instructions are given, the persons designated as proxy holders on the Proxy Card will vote (i) FOR the election of the three nominees for Class II Directors and the one nominee for Class III Director of the Company named in this Proxy Statement, (ii) FOR the ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the current fiscal year and (iii) in their own discretion with respect to any other business that may properly come before the stockholders at the Annual Meeting or at any adjournments or postponements thereof. It is not anticipated that any matters other than those set forth in the Proxy Statement will be presented at the Annual Meeting.

The presence, in person or by proxy, of holders of at least a majority of the total number of outstanding shares of Common Stock entitled to vote is necessary to constitute a quorum for the transaction of business at the Annual Meeting. The affirmative vote of the holders of a majority of the votes cast with a quorum present at the Annual Meeting is required for the election of directors and the ratification of the appointment of the Company's independent

registered public accounting firm. Abstentions and broker non-votes will not be counted as votes cast and, accordingly, will have no effect on the majority vote required, although they will be counted for quorum purposes.

PROXY STATEMENT

A stockholder of record may revoke a proxy at any time before it has been exercised by filing a written revocation with the Secretary of the Company at the address of the Company set forth above, by filing a duly executed proxy bearing a later date, or by appearing in person and voting by ballot at the Annual Meeting. Any stockholder of record as of the Record Date attending the Annual Meeting may vote in person whether or not a proxy has been previously given, but the presence (without further action) of a stockholder at the Annual Meeting will not constitute revocation of a previously given proxy. Street name stockholders who wish to vote in person will need to obtain a duly executed proxy form from the institution that holds their shares prior to the Annual Meeting.

In the pages preceding this Proxy Statement is a Letter to Stockholders from the Company's President and Chief Executive Officer. The Investment Committee met 38 times and acted once by unanimous consent in 2007.

Nominating/Corporate Governance Committee. The Nominating/Corporate Governance Committee recommends individuals for election as directors at the Annual Meeting of Stockholders of the Company and in connection with any vacancy that may develop on the Board of Directors. The Board of Directors, in turn, as a whole by a majority vote either approves all of the nominations so recommended by the Nominating/Corporate Governance Committee or rejects all of the nominations in whole, but not in part. In the event that the Board of Directors as a whole by a majority vote rejects the recommended nominations, the Nominating/Corporate Governance Committee develops a new recommendation. In addition, the Nominating/Corporate Governance Committee develops and oversees the Company's corporate governance policies. The current Nominating/Corporate Governance Committee consists of Messrs. Lynch, Slater and Wilson, each of whom, in the judgment of the Company's Board of Directors, is independent as required by the listing standards of the NYSE. Mr. Lynch is the current Chairman of the Nominating/Corporate Governance Committee and also presides at meetings of non-management directors. The Nominating/Corporate Governance Committee met four times during 2007 and met in February 2008 to determine its nominations for this Proxy Statement.

The Nominating/Corporate Governance Committee will consider nominees recommended by stockholders of the Company. In order for a stockholder to nominate a candidate for election as a director at an Annual Meeting, notice must be given in accordance with the Bylaws of the Company to the Secretary of the Company not more than 180 days nor less than 75 days prior to the first anniversary of the preceding year's Annual Meeting. The fact that the Company may not insist upon compliance with the requirements contained in its Bylaws should not be construed as a waiver by the Company of its right to do so at any time in the future.

In general, it is the Nominating/Corporate Governance Committee's policy that, in its judgment, its recommended nominees for election as members of the Board of Directors of the Company must, at a minimum, have business experience of a breadth, and at a level of complexity, sufficient to understand all aspects of the Company's business and, through either experience or education, have acquired such knowledge as is sufficient to qualify as financially literate. In addition, recommended nominees must be persons of integrity and be committed to devoting the time and attention necessary to fulfill their duties to the Company.

The Nominating/Corporate Governance Committee may identify nominees for election as members of the Board of Directors of the Company through its own sources (including through nominations by stockholders made in accordance with the Company's Bylaws), through sources of other directors of the Company, and through the use of third-party search firms. The Company has previously engaged a third party search firm to identify potential nominees, including Mr. Brenninkmeijer, and may do so again in the future. Subject to the foregoing minimum

standards, the Nominating/Corporate Governance Committee will evaluate each nominee on a case-by-case basis, assessing each nominee's judgment, experience, independence, understanding of the Company's business or that of other related industries, and such other factors as the Nominating/Corporate Governance Committee concludes are pertinent in light of the current needs of the Company's Board of Directors.

Special Committee. The Special Committee is authorized, within limits specified by the Board of Directors, to approve the terms under which the Company issues Common Stock, preferred stock or depository shares representing fractional interests in preferred stock, or under which the Company or any of the Company's

PROXY STATEMENT

subsidiaries, including First Industrial, L.P., issues debt. The membership of the Special Committee currently consists of Messrs. Shidler, Brennan and Rau. The Special Committee acted by unanimous consent four times during 2007.

Communications by Stockholders. Stockholders of the Company may send communications to the Board of Directors as a whole, its individual members, its committees or its non-management members as a group. Communications to the Board of Directors as a whole should be addressed to The Board of Directors; communications to any individual member of the Board of Directors should be addressed to such individual member; communications to any committee of the Board of Directors should be addressed to the Chairman of such committee; and communications to non-management members of the Board of Directors as a group should be addressed to the Chairman of the Nominating/Corporate Governance Committee. In each case, communications should be further addressed c/o First Industrial Realty Trust, Inc., 311 South Wacker Drive, Suite 4000, Chicago, Illinois 60606. All communications will be forwarded to their respective addressees and, if a stockholder marks his or her communication Confidential, will be forwarded directly to the addressee.

DIRECTOR COMPENSATION

Directors of the Company who are also employees, namely Michael W. Brennan and Michael G. Damone, receive no additional compensation for their services as a director. Compensation of non-employee directors is reviewed annually by the Compensation Committee of the Board of Directors, which makes any recommendations of compensation changes to the entire Board of Directors. Currently, non-employee directors of the Company receive an annual director's fee equivalent in value to \$40,000. At least 50% of the value of such fee must be taken in the form of restricted Common Stock but directors can elect to receive a greater proportion of their fee in restricted Common Stock. The Chairman of the Audit Committee receives an additional fee of \$20,000 for his service as Chairman of the Audit Committee; the Chairman of the Compensation Committee receives an additional fee of \$10,000 for his service as Chairman of the Compensation Committee; and the Chairman of the Nominating/Corporate Governance Committee receives an additional fee of \$5,000 for his service as Chairman of the Nominating/Corporate Governance Committee. Each non-employee director also receives \$2,000 for each in-person meeting of the Board of Directors attended, \$1,500 for each telephonic Board meeting participated in, \$2,000 for each in-person committee meeting attended and \$1,500 for each telephonic committee meeting participated in. Following the 2007 Annual Meeting of Stockholders, each of the Company's non-employee directors also received 1,500 shares of restricted Common Stock under the 1997 Stock Plan. Shares of restricted Common Stock issued to directors receive dividends at the same rate as the Company's Common Stock. Non-employee directors are not entitled to retirement benefits, incentive compensation or perquisites, although they are reimbursed for their out-of-pocket expenses for meeting attendance.

EXECUTIVE COMPENSATION DISCUSSION AND ANALYSIS

OVERVIEW OF COMPENSATION PROGRAM OBJECTIVES AND DESIGN

The Compensation Committee of the Company's Board of Directors (the Committee) has overall responsibility for approving and evaluating the compensation plans, policies and programs relating to the executive officers of the Company.

The Company maintains the philosophy that compensation of its executive officers and other employees should serve the best interests of the Company's stockholders. Accordingly, the Company believes its executive compensation program should not only serve to attract and retain talented, capable individuals, but also to provide them with proper incentives linked to performance criteria that are designed to maximize the Company's overall performance. To this end, the Company's compensation program consists of a mix of compensation that is intended to compensate executive officers for their contributions during the year and to reward them for achievements that lead to increased Company performance and increases in stockholder value.

THE EXECUTIVE COMPENSATION PROCESS AND THE ROLE OF EXECUTIVE OFFICERS IN COMPENSATION DECISIONS

The Compensation Committee typically formulates executive compensation beginning in the December before and in the first quarter of the applicable fiscal year by setting that year's salary and, if applicable, maximum cash and equity bonus for each of its Chief Executive Officer, its Chief Financial Officer and its three other most highly compensated executive officers (the Named Executive Officers) and certain other members of senior management. Also, typically, in the first quarter of the applicable fiscal year, the Compensation Committee adopts, and the full Board of Directors ratifies, the performance criteria to be used to determine the Chief Executive Officer's and other Named Executive Officers (other than Gerald Pientka) incentive compensation for that year. Then, after the end of the applicable fiscal year, the Compensation Committee meets to determine incentive compensation to be paid to the Named Executive Officers (other than Mr. Pientka) with respect to that year. At that time, the Compensation Committee also reviews the calculations of the incentive compensation of senior management with respect to that year, per the terms of the respective plans and agreements covering those members of senior management. Per such determination, the Company pays cash bonuses, typically in February, and issues restricted stock, typically in March. In the case of the Named Executive Officers' 2007 incentive compensation, the Compensation Committee reviewed/determined both the cash and equity components of incentive compensation at meetings on January 23, 2008, February 2, 2008 and February 12, 2008. Cash bonuses were paid on February 22, 2008 and restricted stock awards were granted on March 7, 2008. The restricted stock awards were granted in the ordinary course, and the number of shares to be awarded was based on the closing price of the Company's Common Stock on February 11, 2008, the day prior to the Compensation Committee's final meeting to approve incentive compensation.

Periodically, though not every year, the Company and the Compensation Committee engage the services of outside consultants to evaluate the Company's executive compensation program. In 2007, the Compensation Committee retained FPL Associates, an outside consultant, to review the appropriateness of the compensation of the Company's Chief Executive Officer, Chief Financial Officer, Chief Investment Officer and Executive Vice President - Operations, and certain other members of senior management. As part of its review, the outside consultant surveyed a range of real estate companies that included not only the Company's industrial peers, but

PROXY STATEMENT

similarly sized companies and companies with similar operating strategies from other sectors of the REIT industry. Peers identified by management and the Compensation Committee for inclusion in the survey were: AMB Property Corp., Archstone-Smith Trust, Boston Properties, Inc., BRE Properties, Inc., Corporate Office Properties Trust, Cousins Properties, Inc., Crescent Real Estate Equities, Developers Diversified Realty, Duke Realty Corp., Eastgroup Properties, Inc., Essex Property Trust, Inc., FelCor Lodging Trust, Inc., Home Properties, Inc., Kimco Realty Corporation, Liberty Property Trust, Mack-Cali Realty Corp., Maguire Properties, Inc., Pennsylvania REIT, PS Business Parks, Inc., ProLogis, Realty Income Corporation, SL Green Realty Corp., Taubman Centers, Inc. and Vornado Realty Trust. The Compensation Committee used this survey not as a benchmark, per se, but rather to gauge generally the appropriateness of the Company's executive compensation programs.

The Company's Chief Executive Officer and Chief Financial Officer participate in meetings with the Compensation Committee at various times throughout the year. During the December before and first quarter of the applicable fiscal year, they meet with the Compensation Committee to present and discuss recommendations with respect to the applicable fiscal year's salaries for the Named Executive Officers and maximum cash and equity bonus for the Named Executive Officers (other than Mr. Pientka). In the first quarter of each year, they meet with the Compensation Committee to present and discuss recommendations with respect to incentive compensation for the year just ended. They also meet with the Compensation Committee regarding employment agreements that the Company has entered into and assist the Compensation Committee in providing compensation information to outside consultants engaged to evaluate the Company's compensation programs.

EXECUTIVE COMPENSATION COMPONENTS

The components of the Company's executive compensation program are base salary, incentive bonuses (both cash and equity awards) and benefits/perquisites (including premiums paid by the Company on term life insurance and long-term disability insurance, car allowances, moving and housing allowances, personal financial planning allowances, 401(k) matching contributions and standard health, life and disability insurance).

Each component of the Company's executive compensation program serves to attract and retain talented, capable individuals to the Company's management ranks. Incentive bonuses serve the added purpose of providing such individuals with proper incentives linked to performance criteria that are designed to maximize the Company's overall performance.

The Company considers base salary, incentive bonuses and benefits/perquisites as independent components of the Company's executive compensation program. Base salary and benefits/perquisites are intended to compensate Named Executive Officers for services rendered and increases to their base salary are a function of individual performance and general economic conditions. Incentive bonuses, by contrast, are linked to, and are a function of the achievement of, performance criteria that are designed to maximize the Company's overall performance. Base salary and benefits/perquisites constitute approximately 1/3 of Named Executive Officers' compensation in a typical year, while incentive bonus makes up approximately 2/3. This allocation between base salary and incentive compensation is consistent with the Compensation Committee's compensation philosophy that executive officers' compensation should be largely tied to performance criteria designed to maximize the Company's overall performance.

The Compensation Committee does not have a specific policy regarding the mix of cash and non-cash compensation awarded to its executive officers, although it believes that a significant portion of executive officer compensation should be paid in the form of equity. The mix of maximum cash and non-cash incentive compensation our executive officers are entitled to receive is set forth in their respective employment agreements. Depending on the individual, non-cash compensation makes up approximately 40% of the executive officers' potential incentive compensation.

When granting non-cash compensation to the executive officers, the Compensation Committee uses restricted stock awards. Typically, such restricted stock awards vest ratably over 3 years and are denominated based on the closing price of the Company's Common Stock on the day prior to the submission of award information and recommendations to the Compensation Committee for purposes of its award determinations. The Compensation

PROXY STATEMENT

Committee believes that restricted stock awards play an important role in aligning management's interests with those of the Company's stockholders in that restricted stock (other than the vesting and transfer restrictions applicable to it) is economically identical to stockholders' common stock. For this reason, restricted stock awards have been and, the Company expects, will continue to be a significant part of executive compensation.

SETTING EXECUTIVE COMPENSATION**Base Salary**

The Company provides the Named Executive Officers with base salary to compensate them for services rendered during the fiscal year. The base salaries of the Named Executive Officers are a function of the minimum base salaries specified in their employment agreements and the increases to such base salaries approved by the Compensation Committee. The Compensation Committee consulted with outside compensation consultants in setting the base salaries of the Named Executive Officers that are specified in their employment agreements. In determining increases to such base salaries for the following year, the Compensation Committee considers individual performance of the Named Executive Officers in the most recently completed year, including organizational and management development and sales leadership exhibited from year-to-year and peer information provided by compensation consultants. The Compensation Committee also considers general economic conditions prevailing at the end of such year, when the increases for the following year are typically determined. Overall, the increases in base salaries for 2007 were relatively modest and reflect a cost of living increase. The increase in the base salary of the Company's Chief Executive Officer reflects, in addition to a cost of living increase, the Compensation Committee's consideration of the Chief Executive Officer's leadership of the Company and the Company's strong performance during 2006.

Incentive Bonuses

The Company provides the executive officers with incentive compensation, which currently includes cash and equity awards in the form of restricted stock, to incentivize and reward them for Company and individual performance in specified areas that serves the best interests of the Company's stockholders. Our Chief Executive Officer, Chief Financial Officer, Chief Investment Officer and Executive Vice President - Operations each participate in an incentive compensation plan (the Executive Officer Bonus Plan) which derives from the Company's strategic plan, while other members of senior management are covered by separate plans/agreements.

The Executive Officer Bonus Plan seeks to tie executive officer compensation to achievement of the Company's business plan and individual goals. Under the Executive Officer Bonus Plan, awards are made in cash and restricted stock based on maximum cash and equity bonuses, expressed as a percentage of participants' base salaries. The maximum cash and equity bonuses are based on the participants' employment agreements and are subject to increase by the Compensation Committee. The maximum bonus for 2007 for the Named Executive Officers that participated in the Executive Officer Bonus Plan were as follows:

Named Executive Officer	Maximum Cash Bonus	Maximum Equity Bonus
Michael W. Brennan	225%	187%
Michael J. Havala	200%	187%
Johannson L. Yap	200%	187%
David P. Draft	180%	187%

PROXY STATEMENT

When granting awards under the Executive Officer Bonus Plan, the Compensation Committee evaluates five broad performance categories designed to reward different areas of executive officer performance. These categories include earnings growth, growth in stockholder value, customer base growth, personnel excellence and competitiveness. Under these five broad categories are more specific goals and objectives: for example, under the broad category earnings growth there is a funds from operations (or FFO) growth percentage target, among other targets; under growth in stockholder value there is a target total stockholder return, among other targets; under customer base growth there is a tenant retention target, among other targets; under personnel excellence there is a target percentage for employee satisfaction, among other targets; under competitiveness there is a target percentage for portfolio occupancy to exceed market occupancy, among other targets.

The Compensation Committee sets targets based on the above-described criteria at the beginning of each year and evaluates whether the Company met, exceeded or failed to meet each of these more specific goals and objectives. Based on this evaluation, the Compensation Committee assigns an overall grade to each of the broad categories. An overall weighted average grade, expressed as a percentage, is then established based on the weight the Compensation Committee has assigned to each of the broad categories: currently 50% to earnings growth and 12.5% to each of customer base growth, personnel excellence, competitiveness and growth in stockholder value. Earnings growth is given the greatest weight in this calculation because the Compensation Committee believes this category represents the most important goal for our executive officers for the reasons stated in the note below.

For 2007, the Compensation Committee assigned a high grade to the earnings growth category. This grade was primarily based on FFO per share growth of 12%, compared to a target of 10%. In addition to the grade for earnings growth, the Compensation Committee assigned average grades for customer base growth, personnel excellence, and competitiveness and a low grade for growth in stockholder value. The overall weighted average grade is then applied to the applicable officer's maximum cash and equity bonus to compute the executive officers' estimated cash and non-cash bonus payout.

Once the Compensation Committee has determined the estimated cash and non-cash bonus payout for each executive officer, it has the discretion to increase or decrease such amounts, and to alter the mix of cash versus non-cash compensation. Based on the achievement of these and other factors and on the Compensation Committee's evaluation of certain other qualitative factors, including organizational and management development and sales leadership exhibited from year-to-year, the Compensation Committee awarded bonuses to the Named Executive Officers that participate in the Executive Officer Bonus Plan ranging from 58% to 87% of the executive officer's maximum cash bonus potential and 58% to 87% of the executive officer's maximum equity bonus potential (based on the closing price of the Company's common stock on February 11, 2008 (\$31.28)). This range is primarily attributable to differences in individual performance evaluations. The Compensation Committee rewarded Michael

(2) FFO is a non-GAAP measure that the Company defines as net income available to common stockholders, plus depreciation and amortization of real estate, minus accumulated depreciation and amortization on real estate sold. Investors in and analysts following the real estate industry utilize FFO, variously defined, as a supplemental performance measure. The Company considers FFO, given its wide use by and relevance to investors and analysts, an appropriate supplemental performance measure. FFO, reflecting the assumption that real estate asset values rise or fall with market conditions, principally adjusts for the effects of GAAP depreciation/amortization of real estate assets. In addition, FFO is commonly used in various ratios, pricing multiples/yields and returns and valuation calculations used to measure financial position, performance and value. FFO does not represent cash generated from operating activities in accordance with GAAP and is not necessarily indicative of cash available to fund cash needs, including the repayment of principal on debt and payment of dividends and distributions. FFO should not be considered as a

substitute for net income available to common stockholders (calculated in accordance with GAAP) as a measure of results of operations or cash flows (calculated in accordance with GAAP) as a measure of liquidity. FFO as calculated by the Company may not be comparable to similarly titled, but differently calculated, measures of other REITs or to the definition of FFO published by NAREIT. Please see the reconciliation of FFO to net income available to common stockholders contained in our Current Report on Form 8-K dated February 21, 2008.

PROXY STATEMENT

Havala's success in expanding the Company's access to private equity capital notwithstanding the difficult environment for such transactions and rewarded Johansson Yap's success in initiating the Company's international expansion.

Incentive compensation for other members of senior management is covered by their respective employment agreements. In the case of Mr. Pientka, his employment agreement provides that his annual incentive compensation is based on an amount equal to two percent (2%) of net after-tax profits generated from land purchases and sales, ground-up development and redevelopment activities. Mr. Pientka's incentive compensation metrics are more narrowly focused than the other Named Executive Officers because Mr. Pientka's responsibilities are primarily related to the Company's development activities rather than Company-wide activities. For 2007, it also provides a guaranteed bonus draw of \$275,000 against his incentive compensation and that incentive compensation in excess of his bonus draw shall be paid 60% in cash and 40% in restricted stock. Mr. Pientka has no maximum cash and equity bonus under his employment agreement.

Benefits/Perquisites

The Company provides the Named Executive Officers with certain benefits/perquisites, which, depending on the officer, include premiums paid by the Company on term life insurance and long-term disability insurance, car allowances, personal financial planning allowances, and, when applicable, moving and housing allowances. The Named Executive Officers, along with all of the Company's other full time employees, also receive 401(k) matching contributions and standard health, life and disability insurance. Premiums are paid by the Company on term life insurance and long-term disability insurance and personal financial planning allowances are provided only if specified in the employment agreements of the Named Executive Officers. Current car allowances were set in 2000, 2001 and 2006 and are a function of the then prevailing market rates to lease and operate an executive class vehicle. 401(k) matching payments are a function of each Named Executive Officer's contribution to his 401(k) account during the year and the percentage match which management determines to apply to the Company's 401(k) Plan for that year. Standard health, life and disability insurance benefits are a function of the group benefit packages the Company is able to negotiate with third party providers.

Termination and Change-in-Control Triggers

Each of the Company's Named Executive Officers has an employment agreement, along with an agreement in respect of his restricted stock awards pursuant to the Company's stock incentive plans, and such agreements specify events, including involuntary termination and change-in-control, that trigger the payment of cash and/or vesting in restricted stock awards. The Company believes having such events as triggers for the payment of cash and/or vesting in restricted stock awards promotes stability and continuity of management. See Potential Payments Upon Termination or Change of Control below for more information on the payments triggered by such events.

Stock Ownership Guidelines

The stock ownership guidelines for the Company's directors and senior executive officers are as follows:

Position	Base Salary Multiple	Time to Attain
Directors	3x	5 years
Chief Executive Officer	5x	5 years

Chief Financial Officer, Chief Investment Officer and Executive Vice Presidents 4x 5 years

The stock ownership goal for each person subject to the ownership guidelines is determined on an individual basis, first in dollars as a multiple of the executive's base salary, and then by converting that amount to a fixed number of shares. A copy of the Stock Ownership Guidelines can be found on the Investor Relations/Corporate Governance section of the Company's website at www.firstindustrial.com.

PROXY STATEMENT

Stock Retention Requirements

Until the directors and senior executive officers reach their respective stock ownership goal, they will be required to retain shares that are owned on the date they became subject to the Stock Ownership Guidelines and at least seventy-five percent (75%) of net shares delivered through the Company's executive compensation plans. Net shares deducts from the number of shares obtained by exercising stock options or through the vesting of awards the number of shares the executive sells to pay exercise costs or taxes. If the executive transfers an award to a family member, the transferee becomes subject to the same retention requirements. Until the director and executive stock ownership goals have been met, shares may be disposed of only for one or more of the exclusion purposes as set forth in the Company's Stock Ownership Guidelines.

TAX AND ACCOUNTING IMPLICATIONS

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), generally limits the deductible amount of annual compensation paid by a public company to a covered employee (the chief executive officer and four other most highly compensated executive officers of the Company) to no more than \$1 million. The Company does not believe that Section 162(m) of the Code is applicable to its current arrangements with its executive officers.

Accounting for Restricted Stock

Effective January 1, 2006, the Company adopted FAS 123R, using the modified prospective application method, which requires measurement of compensation cost for the Company's restricted stock awards at fair value on the date of grant and recognition of compensation over the service period for awards expected to vest. Although the Compensation Committee has considered the impacts of FAS 123R, it has not altered its equity award practices as a result of it.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board of Directors of the Company has reviewed, and discussed with management, the Compensation Discussion and Analysis included above in this Proxy Statement. Based on such review and discussions, the Compensation Committee recommended to the Board of Directors of the Company that the Compensation Discussion and Analysis be included in the Company's annual report on Form 10-K for the Company's fiscal year ended December 31, 2007.

PROXY STATEMENT**EXECUTIVE COMPENSATION SUMMARY**

The Summary Compensation Table below sets forth the aggregate compensation, including cash compensation and amortization expenses of, and ordinary dividends with respect to, restricted stock awards, paid by the Company to its Chief Executive Officer, its Chief Financial Officer and its three other most highly compensated executive officers (the Named Executive Officers) for the fiscal year ended December 31, 2007. The Grants of Plan Based Awards Table following the Summary Compensation Table provides additional information regarding the cash compensation paid and restricted stock awarded by the Company to Named Executive Officers.

The Company's Chief Executive Officer, Chief Financial Officer, Chief Investment Officer and Executive Vice President Operations have employment agreements which provide for an annual base salary, subject to increase or decrease at the discretion of the Compensation Committee, an annual cash and/or equity bonus at the discretion of the Board of Directors and as may be determined by the Committee and/or the Board, and certain other benefits.

Base salary of the Named Executive Officers accounted for only approximately 20% of the aggregate total compensation of the Named Executive Officers for 2007. This is consistent with the Company's compensation philosophy, which is to weight compensation towards incentive compensation to better align executive compensation with the Company's actual economic performance during the applicable fiscal year.

Restricted Common Stock granted to the Named Executive Officers typically vests in three approximately equal installments on each January 1st following the year of grant. From and after the date of issuance, holders of the restricted Common Stock are entitled to vote such Common Stock and receive dividends at the same rate applicable to unrestricted shares of Common Stock.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL**Employment Agreements**

The Company has entered into written employment agreements with Messrs. Brennan, Havala, Yap, Draft and Pientka. These employment agreements may require the Company to make payments and provide benefits to these executives in the event of a termination of their employment or of a change of control. Severance amounts payable to Messrs. Havala, Yap and Draft upon their termination will be reduced if such amounts become payable after their respective 67th birthdays. In addition to their rights under the standard grant agreements under our stock incentive plans, Messrs. Havala, Yap and Draft are entitled to the accelerated vesting of their restricted stock and stock options in the event their employment is terminated without cause. In addition to his rights under the standard grant agreements under our stock incentive plans, Mr. Pientka is entitled to the accelerated vesting of his restricted stock in the event his employment is terminated without cause.

In addition to the events of termination of employment identified in the following table, the employment agreements provide for payments in the event of an executive's death or disability. Mr. Brennan's agreement provides that, upon a termination related to disability, Mr. Brennan is entitled to receive his current annual base salary for five years after

termination and to the continuation of his health benefits or comparable health coverage for a period of up to five years. Upon a work-related disability, each of Mr. Havala, Mr. Yap and Mr. Draft is entitled to severance in an amount equal to three times his annual base salary, plus 75% of his maximum bonus potential for the then-current year prorated through the date of termination. Upon death, each executive is entitled to such base salary and unused vacation pay that has accrued and remains unpaid through the date of death and 75% of the maximum cash bonus for which he would have been eligible, prorated through the date of his death. Mr. Pientka is entitled to 50% of his prior year's total compensation upon permanent disability or death.

The employment agreements also contain important non-financial provisions that apply in the event of a termination of employment or of a change of control. Benefits payable upon a merger, acquisition or other changes in control are payable upon consummation of such transactions regardless of whether the executive is terminated. Each of Mr. Havala, Mr. Yap and Mr. Draft has agreed to a one-year covenant not to compete after his termination, except in connection with certain changes in control of the Company. Each of Mr. Havala, Mr. Yap and Mr. Draft has agreed to a six-month covenant not to compete in connection with certain changes in control of the Company. In the event of termination, Mr. Brennan has agreed to a one-year covenant not to compete and a two-year covenant (one year in the case of a change of control) not to solicit Company employees after termination. Mr. Pientka has agreed to a one-year covenant not to compete after his termination.

PROXY STATEMENT**Stock Incentive Plans**

Under the 1994, 1997 and 2001 Stock Plans, unvested restricted Common Stock vests in the event of a change of control or involuntary termination. Brennan, Havala, Yap, Draft and Pientka would have vested in restricted Common Stock having the respective values set forth in the table below.

The following table includes estimated payments owed and benefits required to be provided to the applicable Named Executive Officer under the employment agreements and stock incentive plans described above, exclusive of benefits available on a non-discriminatory basis generally, in each case assuming that the triggering event described in the table occurred on December 31, 2007.

TRANSACTIONS WITH RELATED PERSONS, PROMOTERS AND CERTAIN CONTROL PERSONS

Transactions with Related Persons. The Company often engages in transactions for which CB Richard Ellis, Inc. (CBRE) acts as a broker. CBRE is among the largest real estate brokerage companies in the world. The brother of Michael W. Brennan, the President and Chief Executive Officer and a director of the Company, is an employee of CBRE and a member of CBRE's national Single Tenant Net Lease Properties Group. In 2007, in two transactions in which the Company sold property for approximately \$26.6 million and \$35.8 million, Mr. Brennan's brother received \$81,438 and \$42,250, respectively, as a portion of the brokerage commissions paid by the Company to CBRE in connection with such transactions. Also in 2007, in one transaction in which the Company sold property for approximately \$48.8 million, Mr. Brennan's brother received \$116,750, as a portion of the brokerage commissions paid by the buyer to CBRE in connection with such transactions. Management of the Company believes the terms of brokerage services provided by CBRE in such transaction were as favorable to the Company as could be obtained in arm's length transactions.

Review, Approval or Ratification of Transactions with Related Persons. Transactions involving the Company and its executive officers and directors that are reportable under Item 404 of Regulation S-K are required by the Company's written policies to be reported to and approved by the Nominating/Corporate Governance Committee of the Board of Directors. The Nominating/Corporate Governance Committee addresses such transactions on a case-by-case basis, after considering the relevant facts and circumstances. The Company's engagement in transactions involving CBRE and Mr. Brennan's brother (e.g. as discussed above) was approved by the Board of Directors prior to the implementation of such policies.
