PROXY STATEMENT

Annual Meeting of Shareholders of Movado Group, Inc. to be held Thursday, June 25, 2015
Some Questions You May Have Regarding This Proxy Statement

What is the purpose of these materials?

The Board of Directors (the “Board”) of Movado Group, Inc. (the “Company”) is soliciting proxies for our 2015 Annual Meeting of Shareholders (the “Annual Meeting”). The Annual Meeting will be held on Thursday, June 25, 2015 at 10:00 a.m. at the Company’s offices located at 25 West 39th Street, 15th Floor, New York, NY 10018. The information included in this proxy statement relates to the proposals to be voted on at the Annual Meeting, the voting process, the compensation of Directors and our most highly paid executive officers, and other required information. Our annual report to shareholders for the fiscal year ended January 31, 2015 is available to review with this proxy statement. We are mailing a notice of the Annual Meeting (and, for those who request it, a paper copy of this proxy statement and the enclosed form of proxy) to our shareholders on or about May 13, 2015.

What proposals will be voted on at the Annual Meeting?

The three matters scheduled to be voted on at the Annual Meeting are:

1. The election of nine directors to serve on the Board;
2. The ratification of the selection of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the fiscal year ending January 31, 2016; and
3. The approval, on an advisory basis, of the compensation of the Company’s named executive officers, as described in the proxy statement under “Executive Compensation”.

In addition, such other business as may properly come before the Annual Meeting or any adjournment or postponement thereof may be voted on.

Who can vote at the Annual Meeting?

Anyone owning shares of the Company’s Common Stock and/or its Class A Common Stock at the close of business on April 30, 2015, the record date for this year’s Annual Meeting, is entitled to attend and to vote on all items properly presented at the Annual Meeting.

Who is asking me for my vote?

The Company is soliciting your proxy on behalf of the Board and has retained Broadridge Investor Communications Solutions, Inc., professional proxy solicitors, to assist with the solicitation. We will pay the entire cost of this proxy solicitation, including the cost of preparing and mailing the Notice of Internet Availability of Proxy Material and the Proxy Statement and Broadridge’s fee, which we expect to be approximately \$10,000.

What are my voting rights?

Each share of Common Stock is entitled to one vote and each share of Class A Common Stock is entitled to 10 votes on each matter properly presented at the Annual Meeting. At the close of business on April 30, 2015, the record date

for determining the shareholders entitled to notice of, and to vote at, the Annual Meeting, there were 17,264,155 shares of Common Stock outstanding and 6,685,877 shares of Class A Common Stock outstanding. The Common Stock and the Class A Common Stock are hereinafter referred to together as the "Capital Stock". A list of all shareholders as of the record date will be available during ordinary business hours at the Company's principal place of business located at 650 From Road, Ste. 375, Paramus, NJ 07652-3556, from the Secretary of the Company, at least 10 days before the Annual Meeting and will also be available at the Annual Meeting.

How does the Board recommend that I vote?

The Board recommends that you vote:

1. FOR the election of each of the director nominees;
2. FOR the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the current fiscal year; and
3. FOR the approval, on an advisory basis, of the compensation of the Company's named executive officers, as described in the proxy statement under "Executive Compensation".

Why did I receive a one-page notice in the mail regarding the Internet availability of proxy materials instead of a full printed set?

In accordance with the rules of the Securities and Exchange Commission (the "SEC"), the Company is providing access to its proxy materials via the Internet. Accordingly, the Company is mailing a Notice of Internet Availability of Proxy Materials (the "Notice") to shareholders of record and beneficial owners. All shareholders will have the ability to access the proxy materials on a website referred to in the Notice or request to receive a printed set of the proxy materials. Instructions on how to access the proxy materials via the Internet or to request a printed set may be found on the Notice. In addition, shareholders may request to receive proxy materials in printed form by mail or electronically by email on an ongoing basis.

Where can I view the proxy materials on the Internet?

The Notice provides you with instructions on how to:

- view proxy materials for the Annual Meeting via the Internet; and
- instruct the Company to send future proxy materials to you by email.

You can view the proxy materials for the Annual Meeting online at www.movadogroup.com by clicking on Investor Center and then Annual Report & Proxy Materials.

How do I vote?

If you are a shareholder on the record date, you may vote by following the instructions for voting on the Notice. If you receive paper copies of these proxy materials, you can vote by completing, signing and dating your proxy card and returning it in the enclosed envelope. Alternatively, you may attend the Annual Meeting and vote your shares in person. If you vote online, by phone or mail in a proxy card, you may still attend the Annual Meeting and vote in person but, in that case, only your in-person votes will count. If you wish to vote your shares in person at the Annual Meeting and they are held by your broker in "street name," you must bring a letter from the broker to the Annual Meeting showing that you were the beneficial owner of the shares on April 30, 2015.

Can I change my vote after I have delivered my proxy?

Yes. You may change your vote at any time before voting concludes at the Annual Meeting by:

- providing another proxy, using any of the available methods for voting, with a later date;
- notifying the Company's Secretary in writing before the Annual Meeting that you wish to revoke your proxy; or
- voting in person at the Annual Meeting.

What is a quorum?

For the purposes of the Annual Meeting, a “quorum” is a majority in voting power of the outstanding shares of Capital Stock owned by shareholders on the record date who are present in person or represented by proxy at the Annual Meeting. There must be a quorum for the Annual Meeting to be held. Broker non-votes (as further described below) and abstentions are counted for purposes of determining whether a quorum is present.

3

What is broker “discretionary” voting?

Under the rules of the New York Stock Exchange (“NYSE”), brokers who have transmitted proxy materials to customers will have discretion to vote the shares of customers who fail to provide voting instructions on “routine matters,” but brokers may not vote such shares on “non-routine matters” without voting instructions. When a broker’s customer does not provide the broker with voting instructions on non-routine matters, the broker cannot vote either way and reports the number of such shares as broker “non-votes.” Broker non-votes are counted as present for the purpose of determining the presence of a quorum for the transaction of business, but they are not counted as shares voting. Thus, broker non-votes can have the effect of preventing approval of certain proposals where the number of affirmative votes, although a majority of the votes cast, does not constitute a majority of the required quorum. Non-routine matters include: the election of directors and the approval, on an advisory basis, of executive compensation of the Company’s named executive officers. Therefore, if you hold your shares in street name through a broker, you must cast your vote if you want it to count in respect of these non-routine matters. The ratification of the appointment of the Company’s independent registered public accounting firm is a routine matter, so brokers will have discretion to vote any uninstructed shares on that proposal (Proposal 2).

How are matters presented at the Annual Meeting approved?

Directors are elected by a plurality of the votes cast at the Annual Meeting. Approval of the proposals to: (i) ratify the selection of PricewaterhouseCoopers LLP as the Company’s independent registered public accounting firm for fiscal 2016 and (ii) approve, on an advisory basis, the compensation of the Company’s named executive officers, requires the affirmative vote of the holders of a majority in voting power of the outstanding shares of Capital Stock present in person or represented by proxy and entitled to vote at the Annual Meeting. With respect to the aforementioned proposals, abstentions will not be counted as votes cast in accordance with New York law. For this reason, abstentions will have no effect on the election of directors or the advisory vote to approve the compensation of the Company’s named executive officers.

May I vote confidentially?

Yes. Our policy is to keep your vote confidential, except as otherwise legally required, to allow for the tabulation and certification of votes and to facilitate proxy solicitation.

Who will count the votes?

A representative of Broadridge will count the votes and act as the inspector of election for the Annual Meeting.

What if additional matters are presented to the Annual Meeting?

We do not know of any business to be considered at the Annual Meeting other than the proposals described in this proxy statement. If any other business is presented at the Annual Meeting, your properly executed proxy gives authority to Timothy F. Michno, our General Counsel and Corporate Secretary, and to Sallie A. DeMarsilis, our Chief Financial Officer, to vote on such matters at his or her discretion.

Where can I find the voting results from the Annual Meeting?

We will announce preliminary voting results at the Annual Meeting and will publish final results in a Form 8-K that we will file with the SEC within four business days after the date of the Annual Meeting.

How can I obtain information about the Company?

A copy of our fiscal 2015 Annual Report is available on our website at www.movadogroup.com. Shareholders may also obtain a free copy of our Annual Report on Form 10-K for the fiscal year ended January 31, 2015 by visiting our website or by sending a request in writing to Timothy F. Michno, Corporate Secretary, at the Company's address set forth in the Notice.

When are shareholder proposals due for consideration at next year's annual meeting?

Under the SEC rules, for shareholder proposals to be considered for inclusion in the proxy statement for the 2016 Annual Meeting, they must be submitted in writing to our Corporate Secretary, Movado Group, Inc., 650 From Road, Ste. 375, Paramus, NJ 07652-3556, on or before January 12, 2016. In addition, our by-laws provide that for directors to be nominated or other proposals to be properly presented at the 2016 Annual Meeting, an additional notice of any nomination or proposal must be received by us not less than 60 nor more than 90 days before the Annual Meeting. If less than 70 days' notice of our 2016 Annual Meeting is given, then to be timely, the notice by the shareholder must be received by us not later than the close of business on the tenth day following the day on which the first public announcement of the date of the 2016 Annual Meeting is made or the notice of the meeting is mailed, whichever occurs first.

THE BOARD OF DIRECTORS AND CORPORATE GOVERNANCE

Board Leadership Structure

Prior to January 31, 2009, the positions of Chairman of the Board of Directors and Chief Executive Officer were held by two individuals. Following the retirement and passing of the Company's former Chairman, Mr. Gedalio Grinberg, the Board appointed Mr. Efraim Grinberg, who at that time was the Chief Executive Officer and a sitting Board member, to also serve as Chairman. In making the decision to combine the positions of the Chairman and Chief Executive Officer, the Board took into consideration Mr. E. Grinberg's almost 30 years of management, financial and administrative leadership at the Company and his extensive knowledge of, and experience with, all other aspects of the Company's business and concluded that he is the director most capable of guiding our business, at both the strategic and operational levels.

In May 2011, upon the recommendation of the Nominating/Corporate Governance Committee, the Board established the position of "lead director" to help coordinate the activities of the other independent directors and to perform such other duties and responsibilities as the Board may determine from time to time. Mr. Howard was appointed by the Board as lead director at that time and currently continues to serve in that capacity, in addition to chairing the Compensation Committee. The primary duties of the lead director include providing advice on agendas for and the scheduling of Board meetings, advising the Chairman as to the quality, quantity and timeliness of the information submitted by the Company's management to the Board, serving as the principal liaison for consultation and communication between the independent directors of the Board and the Chairman, without inhibiting direct communication between the Chairman and the other directors, and presiding at meetings of the Board in the absence of or upon the request of the Chairman and presiding at all meetings of the independent directors.

The composition of the Board, the tenure of the directors with the Company, the overall experience of the directors and the experience that the directors have had with the Chairman, the lead director and the executive management group permit and encourage each member to take an active role in all discussions, and each member does actively participate in all substantive discussions. We believe that our current Board leadership structure is serving the Company well at this time.

Board Meetings and Committees

In fiscal 2015, the Board of Directors held ten meetings. All directors attended at least 75% of the meetings of the Board and of the committees on which they served.

The Board of Directors has three committees:

- Audit;
- Compensation; and
- Nominating/Corporate Governance.

The members of the committees and their chairs are appointed by the Board annually. Each committee is comprised entirely of independent directors in accordance with NYSE listing standards. Each committee operates under a written charter which is available at the Company's website at www.movadogroup.com by clicking on "Investor Center", "Corporate Governance", "Committee Composition" and then the name of the respective committee. Committee charters are also available in print upon the written request of any shareholder. The current committee membership is as follows:

Audit Committee

The Board of Directors has determined that each member of the Audit Committee is an “audit committee financial expert” as defined under the rules adopted by the SEC and, therefore, has accounting or related financial expertise in accordance with the NYSE listing standards. The Audit Committee held four meetings in fiscal 2015.

The principal functions of the Audit Committee are to (i) appoint, approve the compensation of, terminate and oversee the work of the Company’s independent auditors; (ii) approve in advance all audit and permissible non-audit services provided to the Company by independent auditors; (iii) review, in consultation with the Company’s independent auditors, management and the Company’s internal auditors, the Company’s financial reporting process, including its internal controls; (iv) review with management and the Company’s independent auditors, the Company’s annual and quarterly financial statements before the same are publicly filed, and (v) report regularly to the Board with respect to any issues that arise concerning, among other things, the quality or integrity of the Company’s financial statements, the performance of the internal audit function, the Company’s compliance with legal requirements and the performance and independence of the Company’s independent auditors.

Compensation Committee

The Compensation Committee held eight meetings in fiscal 2015. The principal functions of the Compensation Committee are to (i) review and approve corporate goals and objectives relevant to the CEO’s compensation, evaluate the CEO’s performance in light of those goals and objectives and set the CEO’s compensation level based on that evaluation; (ii) review and approve compensation levels for executive non-CEO officers and key employees of the Company; (iii) review significant employee benefit programs and (iv) establish and administer executive compensation programs, including bonus plans, stock option and other equity-based programs, deferred compensation plans and any other cash or stock incentive programs.

For additional information concerning the operation of the Compensation Committee, including the role of outside compensation consultants and management in the process of determining the amount and form of executive compensation, see “Compensation Discussion and Analysis” below.

Compensation Committee Interlocks and Insider Participation

The Company's Compensation Committee was at all times during fiscal year 2015 comprised entirely of independent directors who at no time were executive officers or employees of the Company. No executive officer of the Company has ever served as a member of the board of directors or compensation committee of any company whose executive officers include a member of the Board of Directors or the Compensation Committee.

Nominating/Corporate Governance Committee

The Nominating/Corporate Governance Committee held two meetings in fiscal 2015. The principal functions of the Nominating/Corporate Governance Committee are to (i) identify individuals qualified to become directors, consistent with criteria approved by the Board, and recommend director candidates to the Board of Directors; (ii) develop and recommend corporate governance principles to the Board of Directors; (iii) oversee the adoption of a code of ethics for directors, officers and employees of the Company and assure that procedures are in place for disclosure of any waivers of that code for directors or executive officers; and (iv) facilitate an annual assessment of the performance of the Board and each of its committees.

The Board and individual committee self-assessments typically occur each May or June. The annual Board self-assessment is organized by the chairman of the Nominating/Corporate Governance Committee who generally circulates a list of proposed key discussion topics as well as current and relevant governance issues in advance of the

meeting to each member of the Board for review, consideration and input. Topics are centered on Board practices and performance and are intended to and do engender analysis and robust discussion. Management members of the Board attend and participate in the first part of the self-assessment meeting together with the independent directors, after which the independent directors meet alone. At the first regularly scheduled Board meeting following the self-assessment meetings, the Nominating/Corporate Governance Committee chairman reports to the full Board on the results of the Board self-assessment. Based on those results and any recommendations coming out of the self-assessment, the Board may implement changes, as appropriate, to its corporate governance guidelines or other processes.

Identifying and Evaluating Candidates for the Board

In considering possible candidates to serve on the Board of Directors, the Nominating/Corporate Governance Committee will take into account all appropriate qualifications, qualities and skills in the context of the current make-up of the Board and will consider the entirety of each candidate's credentials. In addition, the Nominating/Corporate Governance Committee will evaluate each nominee according to the following criteria: personal character, accomplishments, integrity, and reputation in the business community; knowledge of the industry in which the Company does business; sound business judgment; leadership ability and capacity for strategic thinking; experience working constructively with others; sufficient time to devote to Board matters; diversity of viewpoints and backgrounds and the absence of any conflict of interest that might interfere with performance as a director. While the Nominating/Corporate Governance Committee has no other policy with respect to the consideration of diversity in identifying nominees, it seeks directors who represent a diverse mix of backgrounds and experiences that will enhance the quality of the Board's deliberations and decisions.

Shareholders may recommend director candidates for consideration by the Nominating/Corporate Governance Committee. To have a candidate considered by the Nominating/Corporate Governance Committee, a shareholder must submit the recommendation in writing and must include the following information:

- The name and address of the shareholder and evidence of the shareholder's ownership of Company stock, including the number and class of shares owned and the length of time of ownership;
- A description of all arrangements or understandings between the shareholder and each candidate pursuant to which the nomination is being made;
- The name of the candidate, the candidate's resume or a listing of his or her qualifications to be a director of the Company and the person's consent to be named as a director if nominated by the Board of Directors; and
- Such other information regarding each proposed candidate as would be required to be included in a proxy statement under the rules of the SEC if such candidate had been nominated by the Board of Directors.

Each such recommendation must be sent to the Secretary of the Company at Movado Group, Inc., 650 From Road, Ste. 375, Paramus, New Jersey 07652-3556 and must be received within the time indicated above under "When are shareholder proposals due for consideration at next year's annual meeting?". The Nominating/Corporate Governance Committee will evaluate shareholder recommended director candidates in the same manner as it evaluates director candidates identified by other means.

Corporate Governance Guidelines

The Company has adopted a Code of Business Conduct and Ethics that applies to all directors, officers and employees, including the Company's Chief Executive Officer, Chief Financial Officer and principal accounting and financial officers.

The Company's Corporate Governance Guidelines and its Code of Business Conduct and Ethics are available on the Company's website at www.movadogroup.com by clicking on "Investor Center" and then "Corporate Governance". The Corporate Governance Guidelines and the Code of Business Conduct and Ethics are also available in print, without charge, upon the written request of any shareholder.

Director Independence

The listing standards of the NYSE require that a majority of the Board of Directors be independent. No director qualifies as independent unless the Board of Directors affirmatively determines that the director has no material relationship with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company). The Board of Directors broadly considers all relevant facts and circumstances relative to independence and considers the issue not merely from the standpoint of the director, but also from the viewpoint of persons or organizations with which the director has an affiliation. Material relationships can include

commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships (among others). In accordance with the NYSE listing standards, the Board has adopted categorical standards of director

independence that provide that none of the following relationships will be considered a material relationship that would impair a director's independence:

A director who is a director, an executive officer or an employee, or whose immediate family member is a director, an executive officer or an employee, of a company that makes payments to, or receives payments from, the Company for goods or services in an amount which, in any single fiscal year, is less than the greater of \$1,000,000 and 2% of such other company's consolidated gross revenues; or

A director who serves, or whose immediate family member serves, as an executive, officer, director, trustee or employee of a charitable organization and the Company's discretionary charitable contributions to the organization are less than the greater of \$1,000,000 and 2% of that organization's consolidated gross revenues.

The Board of Directors has determined that all of the members of the Board of Directors, with the exception of those three members who are employees of the Company (namely Alex Grinberg, Efraim Grinberg and Richard Coté), representing a majority of the entire Board, are independent under the NYSE listing standards and satisfy the Company's categorical standards set forth above.

In addition, in accordance with the NYSE listing standards, the Board of Directors has determined that the Compensation Committee and Nominating/Corporate Governance Committee are composed entirely of independent directors. The Board of Directors has also determined that each member of the Audit Committee is independent under the applicable rules of the SEC and under the NYSE listing standards.

Executive Sessions of Non-Management Directors

The non-management directors hold regular executive sessions without management at least once each quarter. The lead director is designated to chair these executive sessions under the Company's Corporate Governance Guidelines.

Board Role in Risk Oversight

While management is responsible for managing the various risks that may arise in the course of the Company's business, the Board has a role in the oversight of the risk management process. The Board and, as appropriate, its committees regularly meet to receive and discuss operating and financial reports presented by the Chairman of the Board and Chief Executive Officer, the President and Chief Operating Officer, the Chief Financial Officer, the Company's General Counsel, the Senior Vice President of Human Resources, the Senior Vice President of Global Business Processes and Chief Information Officer, the Vice President of Internal Audit and Business Controls and numerous other officers and employees of the Company as well as experts and other advisors. In addition, each year management presents a budget and business plan for the following fiscal year which is reviewed by and discussed with the Board. Management also regularly discusses with the Board strategic initiatives and the associated risks. The Board also reviews specific risk areas on a regular basis. These include insured risks, disaster recovery, management authority and internal controls, litigation risks, risks associated with the Company's information systems and data privacy, foreign currency risks, risks associated with the Company's customer mix, supply chain and credit risks, inventory risks and other operational and financial risks. The Audit Committee has particular oversight responsibility with respect to the preparation and audit of the Company's financial statements and internal audit issues and is specifically charged in its charter to, and does, discuss with management and the independent auditor the Company's policies with respect to risk assessment and risk management. The Audit Committee concerns itself most specifically with the integrity of the financial reporting process, but also with personnel, asset and information security risk. All committee meetings are open to the other directors and many regularly attend because the committee meetings are regularly scheduled on the same day as Board meetings.

Compensation Risk Assessment

We believe that the performance goals and incentive plan structures generally established under the Company's executive, annual and long-term incentive programs would not contribute to excessive risk by our senior executives or employees. The approved goals under our incentive programs are consistent with our financial operating plans and strategies, and these programs are discussed and reviewed by the Compensation Committee. The Company's compensation systems are balanced, rewarding both short-term and long-term performance, and its

15

performance goals are team oriented rather than individually focused, and are based on measurable factors and objective criteria that are transparent to shareholders. The Compensation Committee is actively engaged in setting compensation systems, monitoring those systems during the year and using discretion in making rewards, as necessary. As a result of the procedures and practices described above, the Committee believes that the Company's compensation policies and practices for its employees do not encourage risk taking that is reasonably likely to have a material adverse effect on the Company.

Communications with the Board of Directors

Shareholders and other interested parties desiring to communicate directly with the full Board of Directors, the Audit Committee of the Board of Directors, the non-management directors as a group or with any individual director or directors may do so by sending such communication in writing addressed to the attention of the intended recipient(s), c/o Secretary and General Counsel, Movado Group, Inc., 650 From Road, Ste. 375, Paramus, NJ 07652-3556. All communications received that relate to accounting, internal accounting controls or auditing matters will be referred to the chairman of the Audit Committee unless the communication is otherwise addressed. All other communications received will be forwarded to the appropriate director or directors.

Director Attendance at Annual Meeting

The Company encourages all of the directors to attend each annual meeting of shareholders. To the extent reasonably practicable, the Company regularly schedules a meeting of the Board of Directors on the same day as the Annual Meeting of Shareholders. All members of the Board of Directors attended the 2014 Annual Meeting of Shareholders.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Role of the Compensation Committee

The Compensation Committee of the Board of Directors (for purposes of this analysis, the “Committee”) is responsible for reviewing and approving annually corporate goals with respect to the compensation of the Company’s Chief Executive Officer (“CEO”), evaluating the performance of the CEO against those goals and determining the CEO’s compensation based on that evaluation. In addition, the Committee also reviews and approves the structure and levels of compensation for the Company’s other executive officers and senior management; reviews and approves significant compensation programs generally, including performance goals under annual and long-term incentive plans; and reviews and administers the Company’s 1996 Stock Incentive Plan, as amended and restated as of April 8, 2004 and as further amended and restated as of April 4, 2013 (the “Stock Plan”). Throughout this proxy statement, the individuals who served as the Company’s CEO or Chief Financial Officer (“CFO”) during fiscal 2015, as well as the other individuals included in the SUMMARY COMPENSATION TABLE below, are referred to as the “named executive officers”.

The Committee considers feedback from our shareholders regarding the Company’s executive compensation programs, including the results of our shareholders’ advisory vote on executive compensation. At the 2014 annual meeting, our shareholders approved the executive compensation program by over 99% of the votes cast. Also, in accordance with the preference indicated by more than 97% of the votes cast regarding the frequency of future advisory votes on executive compensation, the Board of Directors decided that such future advisory votes would be submitted to shareholders every year. Shareholders are invited to express their views to the Board of Directors regarding executive compensation as well as other matters as described in this proxy statement under the heading “Communications with the Board of Directors”.

Compensation Objectives

The fundamental purpose served by every compensation recommendation made by the Company and approved by the Committee is to attract, retain, motivate and appropriately reward a group of highly qualified individuals who contribute to the Company’s continued success, with the ultimate objective of enhancing shareholder value. The three most significant elements of compensation used by the Company in developing specific compensation packages offered to its executives and management level employees generally are: (1) base salary, (2) annual incentive cash

bonuses and (3) long term equity participation. Of these, the variable elements, incentive cash bonuses and equity compensation, are performance-based, are directly linked to the creation of long-term shareholder value and, as such, most closely align executives' interests with those of the Company's shareholders by rewarding performance for meeting or exceeding the established goals. The Company and the Committee believe that the most effective executive compensation programs are those designed to reward the achievement of specific

annual and long-term strategic goals set by the Company and therefore a significant portion of the total compensation that may be earned by the named executive officers is determined by these variable elements.

Setting Executive Compensation

With the foregoing objectives in mind, the Company targets overall compensation levels for the named executive officers and senior management at the median percentile for similar positions, subject to exceptions that may occur from time to time based on particular facts and circumstances, including, for example, the experience level and performance of the individual executive and market factors.

The Committee has periodically engaged the services of independent executive compensation and benefits consulting firms, primarily Frederic W. Cook & Co., Inc. (“FW Cook”), to advise on the structure of the Company’s compensation programs and to assist it in assessing the competitiveness of the Company’s executive and independent director compensation levels. The chairman of the Committee typically discusses compensation matters with representatives of FW Cook annually. The Committee has the sole authority to select, retain, and terminate any compensation consultant as well as the sole authority to direct the compensation consultant's work and approve fees. The Committee assessed the independence of FW Cook in fiscal 2015 and concluded that its work for the Committee did not raise any conflict of interest. Accordingly, in fiscal 2015, the Committee engaged FW Cook to consult on matters relating to the structure and levels of equity compensation for the senior executives, including the named executive officers, and the level of compensation for the independent directors.

The Committee does not rely solely, or even primarily, on available compensation data from any single group of companies because the Committee believes that the Company competes for top executive talent with many other larger companies in addition to companies that may be considered to be the Company’s peer group. Therefore, the Committee considers prevailing compensation trends and practices in other industries and other companies but does not engage in any formal benchmarking with respect to these other industries or companies.

Consistent with the Company’s compensation philosophy, a significant percentage of total compensation, particularly in the case of the named executive officers, is allocated to variable incentive compensation.. The Committee reviews all information made available to it periodically from outside compensation consultants and annually from the Company’s Senior Vice President of Human Resources to determine the appropriate level and mix of incentive compensation as among cash and non-cash or short-term and long-term incentive compensation. In setting the compensation for the CEO and the other named executive officers for fiscal 2015, the Committee considered FW Cook’s recommendations based on its analysis of the Company’s compensation programs for senior executives, the financial performance of the Company in fiscal 2014, the Company’s projected financial performance in fiscal 2015, the Company’s historical base pay, bonus and equity grant data from the previous three fiscal years and information relating to compensation survey data from the luxury goods industry provided by the Company’s Senior Vice President of Human Resources.

The Committee makes all compensation decisions affecting the compensation awarded to the CEO. With respect to the compensation of Mr. Coté, the Company’s Vice Chairman and Chief Operating Officer (“Vice Chairman/COO”), the Committee considers the recommendation of the CEO and the Company’s Senior Vice President of Human Resources. With respect to the compensation of the other named executive officers and other senior executives, the Committee considers the recommendations of the CEO, the Vice Chairman/COO and the Senior Vice President of Human Resources, including recommendations regarding salary adjustments and annual award amounts. Subject to any applicable plan limitations, the Committee can exercise its discretion in modifying any recommended adjustments or awards to executives. The Committee also takes into account total compensation earned by and awarded to the named executive officers for the prior three years.

Fiscal 2015 Executive Compensation Components

For the fiscal year ended January 31, 2015, the principal components of compensation for the named executive officers were:

- base salary;
- performance-based annual cash compensation;
- equity incentive compensation;
- retirement and other post-employment benefits; and
- perquisites and other personal benefits.

Base Salary

The Company provides named executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. Base salaries for named executive officers are determined by the Committee for each individual in light of the Committee's assessment of the responsibilities relative to the position under consideration, as well as each individual's background, training, experience and by reference to the competitive marketplace for comparable talent. Annual increases in base salary levels, if warranted, are reviewed with reference to the individual's performance, the performance of the Company as a whole and the prevailing rate of increase in base salary levels generally in the competitive marketplace with respect to similar executive positions. During its review of base salaries for executives, the Committee primarily considers:

- market data with respect to average merit and cost of living increases for similar positions;
- internal review of the executive's compensation, both individually and relative to other executive officers; and
- individual performance of the executive.

For fiscal 2015, the Committee reviewed an analysis at the beginning of the year prepared by FW Cook of executive management compensation levels and, based on that analysis, determined to keep the annual base salary of the CEO unchanged as compared to fiscal 2014 at \$1 million, to increase the base salary levels for the CFO and the Chief Information Officer by \$15,000 each and to increase Mr. Coté's annual base salary from \$700,000 to \$750,000. Mr. Quintero was hired as President of the Company in July 2014 and his base salary was established by the Committee at that time based on the recommendation of the Company's Senior Vice President of Human Resources and a consideration of base salary levels for similar executive level positions generally.

Performance-Based Annual Cash Compensation

The Company has two plans under which it provides its named executive officers, other executives and key management level employees annual performance-based opportunities for cash bonuses: the Movado Group, Inc. Executive Performance Plan (the "EPP"), in which only the CEO and the three most highly compensated executive officers as of the last day of the Company's taxable year, excluding the principal financial officer ("Covered Employees") participate, and the Annual Incentive Compensation Plan, in which the remaining bonus-eligible employees participate. Both plans are designed to tie a significant portion of participants' annual cash compensation to the Company's annual financial performance.

On May 5, 2014, the Committee unanimously approved the adoption of an amendment and restatement, effective February 1, 2014, of the EPP, previously amended and restated effective February 1, 2011 and originally established effective February 1, 2001. The EPP was submitted to and approved by the Company's shareholders at the 2014 annual meeting, the effect of which was to extend the termination date of the EPP to January 31, 2019 and expand the performance criteria for awards under the EPP to match the performance criteria for performance awards under the Company's Stock Plan.

Under the EPP and consistent with the requirements of Section 162(m) of the Internal Revenue Code, as amended (the "Code"), within 90 days after the beginning of each fiscal year the Committee establishes target and maximum cash incentive levels for the Covered Employees that are expressed as a percentage of their respective base salaries. At the same time it sets cash incentive targets, the Committee also establishes a corporate performance objective that must be met before any cash incentive payments can be made under the EPP to any of the Covered Employees. As was the case in the three prior fiscal years, for fiscal 2015 the Committee selected adjusted operating profit as the performance objective for the EPP.

For fiscal 2015, the Committee set the target cash incentive payments (based on 100% bonus pool funding of the Annual Incentive Compensation Plan discussed below) for the CEO at 100% of his base salary; for Mr. Coté at 75% of his base salary, and for Mr. Morelli at 50% of his base salary. Mr. Quintero was hired as President of the Company in July 2014 and therefore the Committee did not establish a target bonus under the EPP for him in fiscal 2015. The Committee determines the target bonus under the EPP for each named executive officer by exercising its subjective judgment of what an appropriate percentage is, informed by a consideration of the target bonus that was in effect for such officer for each of the three previous years and such person's total compensation compared to target bonus levels

and total compensation payable to other executive officers in other positions within the Company and, more generally, relative to similar executive positions in the broad competitive marketplace. In addition, the Committee established the maximum cash incentive payments under the EPP to any of the named executive officers

at 200% of their target cash incentive amounts. The EPP provides that total cash incentives payable thereunder to all the named executive officers (or any single named executive officer) in any year may not exceed \$5 million. Please see the GRANTS OF PLAN-BASED AWARDS TABLE for the target and maximum cash incentive awards payable to each of the named executive officers in respect of fiscal 2015.

No cash incentives are paid to any of the named executive officers under the EPP unless the threshold corporate performance objective for the year is achieved. For fiscal 2015, the threshold performance goal under the EPP was established as operating profit of \$40 million, adjusted for restructuring charges and other unusual items.

If the Company achieves the corporate performance goal under the EPP, the Committee then assesses the Company's overall financial performance and each Covered Employee's individual performance in exercising its discretion to determine the cash incentive actually paid to any of them under the EPP, which may not, in any event, exceed the maximum set at the beginning of the year. To assess corporate performance for the fiscal year, the Committee considers as a threshold matter whether the Company met the criteria for funding the bonus pool under the Annual Incentive Compensation Plan. As there is no separate bonus pool for the EPP, the bonus pool under the Annual Incentive Compensation Plan must be funded for there to be any payment under the EPP to any of the participants in that plan. Just as with the corporate performance objective established by the Committee under the EPP, the financial performance measures approved by the Committee under the Annual Incentive Compensation Plan (including the performance measure necessary to fund the bonus pool under that plan) are determined within 90 days after the beginning of the award period when the only information available to the Committee with respect to the Company's financial performance for the fiscal year is the Company's operating budget for the year. If the Annual Incentive Compensation Plan bonus pool is funded, then the Committee also considers the overall level of bonus pool funding under that plan and the other criteria for measuring corporate performance that are established as financial targets under the Annual Incentive Compensation Plan as part of the annual budgeting process and approved by the Committee within 90 days after the beginning of each fiscal year.

In fiscal 2015, the Annual Incentive Compensation Plan provided for 100% bonus pool funding (comprised primarily of cash with an equity component) if the Company achieved its operating profit goal of \$90 million, adjusted for restructuring charges and other unusual items, and additional bonus pool funding if actual operating profit for fiscal 2015 exceeded the goal. The Annual Incentive Compensation Plan for fiscal 2015 did not provide for any partial bonus pool funding for operating profit of less than \$90 million. The equity component of the Annual Incentive Compensation Plan payments consists of a Common Stock award that cliff vests on the third anniversary of the grant date subject to the continued employment of the award grantee with the Company. See discussion under Equity Incentive Compensation below.

If the bonus pool is funded, the Committee considers the extent to which the other financial criteria under the Annual Incentive Compensation Plan have been met in determining the cash incentive amount to pay to each Covered Employee under the EPP. The financial performance measures serve the purpose of providing the Committee with objective criteria by which to assess the Company's performance notwithstanding that they are not assigned a relative weight to one another. Those criteria consist of key indicators against which to measure how well or how poorly the Company performed overall for the year.

It is not necessary that every single corporate performance measure be met for bonuses to be paid. However, as discussed above, the corporate performance objective established by the Committee under the EPP must be met as a precondition to making any payments under that plan and the financial performance measure under the Annual Incentive Compensation Plan required for bonus pool funding must also be met before any bonuses will be paid under the EPP. If those predicate corporate performance measures are met, then the Committee may determine in its discretion to pay bonuses regardless of whether any of the other measures are met. Similarly, even if all the corporate performance measures are met, the Committee retains the discretion to decrease or eliminate but not to increase the maximum cash incentive payable to each Covered Employee under the EPP. In other words, the Committee has the

discretion to pay no bonuses or to pay reduced bonuses to the Covered Employees even if all of the identified corporate performance measures are met.

In fiscal 2015, the Company exceeded the operating profit goal of \$40 million that had been established under the EPP but did not reach the required level of \$90 million in operating profit necessary to fund the bonus pool under the Annual Incentive Compensation Plan. Therefore no bonuses were paid to any of the Covered Employees or to any of the other named executive officers, including the CEO, and it was unnecessary for the Committee to look to any other financial performance measures under the Annual Incentive Compensation Plan.

There is no relative weight given by the Committee to the financial performance of the Company as compared to the individual performance of any executive officer. However, it is a precondition for any Covered Employee to receive any payment under the EPP that the defined corporate performance objective under that plan must have been met. Further, as there is no separate funding for the EPP other than the bonus pool provided for under the Annual Incentive Compensation Plan, unless the predicate corporate performance measure for bonus pool funding under the Annual Incentive Compensation Plan is met, then there is no bonus pool from which to pay bonuses to the Covered Employees or the other named executive officers, including the CEO, under either plan. Therefore, although the Committee does not assign any numerical or weighted value to individual performance as compared to corporate financial performance, unless the foregoing threshold corporate performance measures are satisfied, the Committee will not approve a cash incentive payment to any named executive officer under the EPP or the Annual Incentive Compensation Plan regardless of individual performance.

So long as the corporate performance objective established under the EPP has been met, the Committee retains the discretion to pay an award to any of the Covered Employees under that plan regardless of whether any other performance criteria (individual or corporate) are met. However, in exercising its discretion the Committee does, in practice, take into account these other criteria, including individual performance. In considering individual performance, the Committee is briefed by, and relies on a general summary assessment and recommendation provided by, the Company's CEO and/or Senior Vice President of Human Resources relative to the performance of each of the named executive officers (other than the CEO). That summary assessment and recommendation is based on and generally reflects the individual assessment provided to the Human Resources department by each named executive officer's immediate supervisor which itself would typically address the individual performance goals of such named executive officer as well as his or her overall performance. Therefore, when the Committee considers individual named executive officer performance in this way, including consideration of whether individual goals have been met, the Committee does so indirectly as it is not apprised of any named executive officer's specific personal goals nor does it (with the exception of the CEO) independently consider, or assess individual named executive officer performance relative to, those goals.

When it considers the individual performance of the CEO in exercising its discretion to approve any cash incentive payment made to him under the EPP, the Committee refers to the CEO's individual performance goals but does not base its assessment of his performance solely or even primarily on those goals since it may, consistent with the plan, approve award payments regardless of whether other performance criteria (besides the requisite corporate performance goal established under the EPP) have been met. In fiscal 2015, the CEO's individual objectives included net sales of \$645 million, operating profit of \$90 million and cash flow from operations of \$60 million, none of which targets were achieved. Therefore, although the operating profit goal under the EPP was achieved for the year, no bonus was paid to the CEO in respect of fiscal 2015. Other goals set by the CEO for fiscal 2015 included non-quantitative objectives that were not specifically considered by the Committee as part of its determination not to make any cash incentive payment to him under the EPP. However, the Committee does evaluate the CEO's individual performance against those other objectives for the year subsequent to and separate from the deliberative process conducted under the EPP.

Equity Incentive Compensation

Stock ownership is a key element of the Company's compensation program for the named executive officers, senior management generally, as well as mid-level managers throughout the Company. Under the Stock Plan, the Committee may grant participants shares of the Company's Common Stock, restricted stock, share units, stock options, stock appreciation rights, performance units and/or performance bonuses. In granting these awards, the Committee may establish any conditions or restrictions it deems appropriate.

All grants made by the Committee under the Stock Plan since its inception have been either in the form of stock options, time-vesting stock awards (pursuant to which, unrestricted shares of Common Stock are issued to the grantee

when the award vests) or performance-based awards (under which vesting occurs only if one or more predetermined financial goals are achieved within the relevant performance period). The Committee believes that all of these equity awards are useful retention tools to the extent that vesting only occurs after a period of several years and are also an effective means of encouraging award recipients to focus on enhancing shareholder value over the long term by directly aligning the recipient's financial interests with the interests of the Company's shareholders. The Committee normally makes annual grants under the Stock Plan within 30 days after the release of the Company's fourth quarter and year-end earnings.

All stock options granted under the Stock Plan have an exercise price equal to or greater than the fair market value of the Company's Common Stock on the grant date and typically have either vested incrementally over a period of three or five years or cliff-vested after three years. Most grants under the Stock Plan were in the form of stock options until fiscal 2004 when the Committee decided to utilize primarily time-vesting stock awards for most Stock Plan participants and to use stock options exclusively for grants to certain newly hired and/or newly promoted employees and for the CEO and the President/COO. Newly hired and promoted employees who receive stock options are granted them by the Committee either prospectively, effective on the specified date of their hire or the date of their promotion, or after their hiring or promotion on the next regularly scheduled meeting date of the Committee. Although the Committee did not make any stock option grants to any of the named executive officers between fiscal 2010 and fiscal 2012, it continues to view stock options as an effective means to closely tie individual performance directly to the Company's stock price performance because stock options will have no value unless the Company's share price has increased from the date of grant (unlike time-vesting stock awards, which have some value upon vesting even if the price of the Company's stock has declined since the date of grant). Accordingly, the Committee decided to resume the use of stock options as a long-term, non-cash incentive for the named executive officers and other senior executives beginning in fiscal 2013.

In the beginning of fiscal 2011, the Committee approved management's recommendation to suspend further grants of performance-based equity awards (such awards having been previously forfeited) and, in lieu thereof, to grant three year cliff-vesting stock awards to all Stock Plan participants at the director level and above, including to the named executive officers (except to Mr. E. Grinberg and Mr. Coté in fiscal 2011). Management concluded, and the Committee agreed, that time-vesting awards would be more effective than performance-based awards in motivating and retaining key employees in the three year period before vesting occurred.

Also in the beginning of fiscal 2011, the Committee approved management's recommendation to include an equity component as part of the Annual Incentive Compensation Plan to supplement the maximum realizable value to bonus eligible employees, recognizing that no cash bonuses had been paid for the previous two fiscal years, while continuing to prudently limit the Company's current compensation expenses in light of ongoing uncertain economic conditions prevailing at that time. Each such equity grant was for that number of shares of Common Stock equal in value on the grant date to approximately 25% of the grantee's then current, full target bonus amount. The Annual Incentive Compensation Plans approved by the Committee for each fiscal year since then have also contained the same equity component consisting of three year, cliff-vesting stock awards. Such stock grants made to the named executive officers in April 2014 are reported in the SUMMARY COMPENSATION TABLE for fiscal 2015 and in the GRANTS OF PLAN-BASED AWARDS table below.

Considering this history of using various types of equity grants under the Stock Plan, the Committee currently believes that the most effective use of equity as a component of compensation for the named executive officers and other senior level executives is a mix of three-year time-vesting stock awards and stock options which cliff-vest three years from the grant date. In this way, a significant portion of their compensation is directly dependent on an increase in the share price, thereby more closely aligning their long term objectives with enhancing shareholder value over time.

Retirement and Other Post Employment Benefits

401(k) Plan

All employees in the United States including the named executive officers are eligible to participate in the Company's Employee Savings and Investment Plan ("401(k) Plan"). In addition, the named executive officers as well as certain other executives selected by the Committee are eligible to participate in the Deferred Compensation Plan for Executives.

Deferred Compensation Plan

The Company's Amended and Restated Deferred Compensation Plan for Executives ("DCP") was originally adopted effective June 1, 1995, and was originally approved by the Company's shareholders on June 14, 1996. It was subsequently amended and most recently amended and restated at the annual shareholders meeting in 2013 to extend its term through June 13, 2023. The DCP is designed to offer retirement benefits to the named executive officers, senior management and key employees, consistent with overall market practices to attract and retain the talent needed in the Company. Under the DCP, participants may defer amounts from their base salary and cash bonus (if any) annually, and the Company will credit to the account of each participant a matching contribution in an amount equal to one hundred percent of the compensation deferral, up to a maximum match equal to either

10% (for “Group I” participants) or 5% (for “Group II” participants) of the participant’s base salary. Of the named executive officers, Mr. Grinberg, Mr. Coté and Mr. Quintero are Group I participants. Mr. Morelli and Ms. DeMarsilis are Group II participants. Twenty percent of the Company’s matching contribution is in the form of rights to Common Stock vesting ratably in annual installments over five years. The DCP also permits the Company to make discretionary contributions to any participant’s DCP account.

Participants may direct the investment of amounts in their DCP accounts (other than rights to Common Stock) among investment funds that are made available to them under the plan. Those funds and their returns for fiscal 2015 are shown and further information regarding the participation by the named executive officers in the DCP is discussed in further detail under the heading “NONQUALIFIED DEFERRED COMPENSATION” below.

Severance and Change of Control Agreements

The Company has severance agreements with Mr. Morelli and Mr. Quintero which provide for certain benefits to the executives in exchange for certain post-employment restrictions. The agreements prohibit them from working in the watch or jewelry business after the termination of their employment for any reason for the 12 months during which the Company pays them severance and prevent them from soliciting Company employees for 12 months after the termination of their employment. In addition, the Company has a change-in-control agreement with each of Mr. Coté and Mr. Morelli. Under these change-in-control agreements, each of Mr. Coté and Mr. Morelli will continue to be paid his then current base salary (for 24 months in the case of Mr. Coté and for 18 months in the case of Mr. Morelli) after the termination of his employment following a change in control unless termination was by the Company for cause (or as a result of his death or disability) or was voluntary by the employee without good reason.

For a detailed description of the agreements between the Company and each of Messrs. Coté, Morelli and Quintero, please refer to the discussion under POTENTIAL PAYMENTS ON TERMINATION OR CHANGE IN CONTROL below.

Perquisites and Other Personal Benefits

As part of providing a competitive executive compensation program, the Company provides to the CEO and the other named executive officers certain perquisites, described below, that the Company and the Committee believe are reasonable and consistent with its overall compensation program. The Committee reviews annually the levels of perquisites provided to the named executive officers.

The Company pays the CFO a taxable housing allowance for the rental of an apartment located near the Company’s New Jersey headquarters.

The Company provides each of its named executive officers with a taxable car allowance, and in some cases, automobile insurance reimbursement.

The Company has purchased life insurance policies insuring the CEO and pays the premiums for that insurance. Under the Company’s arrangement with the CEO, the named insured is entitled to the cash surrender value in respect of these life insurance policies and the respective beneficiaries are entitled to the applicable death benefits without, in either event, reimbursement to the Company.

Attributed costs of the perquisites described above for the named executive officers for the fiscal year ended January 31, 2015 are included in column (i) of the SUMMARY COMPENSATION TABLE below.

Tax and Accounting Implications

Deductibility of Executive Compensation

The Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code, which provides that the Company may not deduct compensation of more than \$1,000,000 that is paid to the chief executive officer and the three other highest paid executives (other than our chief financial officer) unless the compensation meets certain requirements relating to performance-based compensation. The Company's compensation plans (including our Stock Plan and EPP) have been approved by our shareholders and are designed to enable the Committee to award annual bonuses and grants of stock options and other equity-based awards which could qualify for exemption from the application of Section 162(m). The Committee reviews compensation plans in light of applicable tax provisions, including Section 162(m), and may revise compensation plans from time to time

to maximize deductibility. However, the Committee may approve compensation that does not qualify for deductibility when we deem it to be in our best interests (including grants of time-based restricted stock and use of discretion in our annual bonus arrangements).

Accounting for Stock-Based Compensation

Beginning on February 1, 2006, the Company began accounting for stock-based payments in accordance with the requirements of FASB ASC Topic 718 (previously FASB Statement 123(R)). The Committee considers the expense implications of the equity compensation awards in determining the aggregate annual award levels.

(1) Salary amounts include amounts deferred at the election of the executive under the Company’s DCP and under the 401(k) plan. Amounts deferred under the DCP are also shown in the NONQUALIFIED DEFERRED

COMPENSATION TABLE. Salary amounts for fiscal 2014 also reflect 27 bi-weekly pay periods which occurred in that year due to a calendar shift (compared to the usual 26 periods).

Amounts shown under the “Stock Awards” column do not reflect compensation actually received by the named executive officers. Instead the dollar value of these awards represents the fair value of the stock awards on the date of grant calculated in accordance with FASB ASC Topic 718 (previously FAS 123(R)). Assumptions used in calculating these amounts are described in Note 10 to the Company’s audited financial statements for the fiscal year (2) ended January 31, 2015, included in our Annual Report on Form 10-K filed with the SEC on March 31, 2015. The stock awards granted in fiscal 2013, 2014 and 2015 cliff-vest on the third anniversary of the grant date and are not subject to any performance conditions other than the continued employment of the grantee, except that the stock award granted to Mr. Quintero in fiscal 2015 vests in equal installments on each of the first, second and third anniversaries of the grant date.

Amounts shown under the “Option Awards” column do not reflect compensation actually received by the named executive officers. Instead the dollar value of these awards represents the fair value of the option awards on the date of grant calculated in accordance with FASB ASC Topic 718 (previously FAS 123(R)). Assumptions used in calculating these amounts are described in Note 10 to the Company’s audited financial statements for the fiscal year (3) ended January 31, 2015, included in our Annual Report on Form 10-K filed with the SEC on March 31, 2015. The option awards granted in fiscal 2013, 2014 and 2015 cliff-vest on the third anniversary of the grant date and are not subject to any performance conditions other than the continued employment of the grantee, except that the stock option granted to Mr. Quintero in fiscal 2015 vests in equal installments on each of the first, second and third anniversaries of the grant date.

(4) Represents annual incentive payments under the EPP and the Annual Incentive Compensation Plan. See “Fiscal 2015 Executive Compensation Components – Performance-Based Annual Cash Compensation” above.
