BOCA RESORTS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements of Boca Resorts, Inc. and subsidiaries (the Company) have been prepared in accordance with generally accepted accounting principles for interim financial statements and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, the financial information furnished in this report reflects all material adjustments (including normal recurring accruals) necessary for a fair presentation of the results for the interim periods presented. The results of operations for the three and nine months ended March 31, 2002 are not necessarily indicative of the results to be expected for the entire year primarily due to seasonal variations and because the nine months ended March 31, 2002 included a non-recurring gain on the disposition of the entertainment and sports business. See Notes 2 and 5. All significant intercompany accounts have been eliminated.

2. Nature of Operations

The Company is an owner and operator of five luxury resorts located in Florida with hotels, conference facilities, golf courses, spas, marinas and private clubs. The Company's resorts include the Boca Raton Resort & Club (Boca Raton), the Registry Resort at Pelican Bay (Naples), the Edgewater Beach Hotel (Naples), the Hyatt Regency Pier 66 Hotel and Marina (Fort Lauderdale), and the Radisson Bahia Mar Resort and Yachting Center (Fort Lauderdale). The Company also owns and operates two championship golf courses located in Florida - Grande Oaks Golf Club in Davie and Naples Grande Golf Club in Naples.

On July 25, 2001, the Company sold its entertainment and sports business, which primarily consisted of the operations of the Florida Panthers Hockey Club and related arena management operations. Accordingly, the Company's entertainment and sports business has been accounted for as discontinued operations and the accompanying Consolidated Financial Statements presented herein have been restated to report separately the net assets or liabilities and operating results of this discontinued operation. See Note 5.

3. Earnings Per Common Share

Basic earnings per share equals net income divided by the number of weighted average common shares outstanding. Diluted earnings per share includes the effects of common stock equivalents to the extent they are dilutive.

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2002	2001	2002	2001
(In Thousands)				
Basic weighted average shares outstanding	39,749	40,887	39,798	40,887
Stock options	907	779	759	615
Diluted weighted average shares outstanding	40,656	41,666	40,557	41,502

Options to purchase 5.8 million and 5.6 million shares of common stock were outstanding at March 31, 2002 and 2001, respectively, but were not included in the computation of earnings per share because the effect would be antidilutive.

4. Income Taxes

Edgar Filing: BOCA RESORTS INC - Form 10-Q

The Company recorded a provision for income taxes from continuing operations in the amount of \$10.7 million during the three months ended March 31, 2002 and \$1.9 million during the nine months ended

BOCA RESORTS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

March 31, 2002. No provision for income taxes was recorded during the three and nine months ended March 31, 2001 due to an offsetting decrease in the Company's tax valuation allowance. Realization of future tax benefits related to deferred tax assets is dependent on many factors, including the Company's ability to generate future taxable income. The tax valuation allowance is adjusted in the period management determines it is more likely than not that deferred tax assets will or will not be realized. The Company continued to maintain a tax valuation allowance at March 31, 2001 because management believed the Company's ability to generate future taxable income and realization of the deferred tax asset was not more likely than not due to the volatility of the entertainment and sports business. This business was subsequently sold and, therefore, the tax valuation allowance was released during the three months ended June 30, 2001.

5. Sale of Entertainment and Sports Business

On July 25, 2001 the Company sold its entertainment and sports business. The selling price for the business, which incorporated certain working capital adjustments, consisted of \$83.5 million in cash, an \$11.3 million secured promissory note (which was paid January 25, 2002) and the assumption by the purchasers of certain off-balance sheet contingencies including a \$10 million construction obligation secured by a performance bond. The net proceeds from the sale of the business after payment of disposal costs and income taxes is expected to approach \$70.0 million and the gain on disposition was \$23.7 million. Net liabilities from discontinued operations included in the accompanying Consolidated Balance Sheet in the amount of \$9.9 million at March 31, 2002 represents estimated income taxes payable associated with the gain on the sale and other disposal costs.

6. Legal Proceedings

Upon the sale of the Arizona Biltmore Resort & Spa in December 2000, the Company remained contingently liable for certain litigation relating to the property. Based on discussions and a settlement offer made in January 2002, which has been accepted by one plaintiff but remains subject to the approval of a second plaintiff, the Company estimates that the settlement amount resulting from the ultimate resolution of this litigation will approximate \$2.9 million. Such amount is included in accounts payable and accrued liabilities at March 31, 2002 in the accompanying Consolidated Balance Sheet.

7. Recently Implemented Accounting Standards

On July 1, 2001, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets which states, among other things, that goodwill is no longer subject to amortization over its estimated useful life. Under the statement, the Company was required to complete the goodwill transition impairment test by December 31, 2001, which resulted in no impairment charge. As a result of the adoption of the provisions of this statement, amortization expense for the nine months ended March 31, 2002 was \$702,000 less than during the nine months ended March 31, 2001.

The Financial Accounting Standards Board recently issued SFAS No. 145, which rescinds SFAS No. 4. Under SFAS No. 4, all gains and losses from extinguishment of debt were required to be aggregated and, if material, classified as an extraordinary item, net of related income tax effect. SFAS No. 145 eliminates SFAS No. 4 and, thus, gains and losses from extinguishment of debt should be classified as extraordinary items only if they meet the criteria in APB Opinion 30. Applying the provisions of APB Opinion 30 will distinguish transactions that are part of an entity's recurring operations from those that are unusual or infrequent or that meet the criteria for classification as an extraordinary item. The provisions of this Statement related to the rescission of SFAS No. 4 shall be applied in fiscal years beginning after May 15, 2002. Any gain or loss on extinguishment of debt that was classified as an extraordinary item in prior periods presented, that does not

meet the criteria in APB Opinion No. 30 for classification as an extraordinary item, shall be reclassified. Early application of the provisions of this Statement related to the rescission of Statement 4 is encouraged. Accordingly, upon adoption of SFAS No. 145, the Company will reclassify extraordinary losses resulting from the early extinguishment of debt associated with previous periods to recurring operations.

8. Comprehensive Income

Comprehensive income was the same as net income for the three and nine months ended March 31, 2002 and 2001.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This report may not contain all the information that is important to you and should be read together with the Annual Report on Form 10-K/A for the fiscal year ended June 30, 2001.

Business Philosophy

The Company's current business strategy is to focus on expanding the leisure and recreation business. However, management continuously evaluates ownership, acquisition and divestiture alternatives with the intention of maximizing shareholder value.

Seasonality

The resort operations are generally seasonal. The resorts have generally experienced greater revenue, costs and earnings in the second and third quarters of the fiscal year ended June 30 due to increased occupancy and room rates during the winter months. Historically, approximately 16%, 25%, 35% and 24% of annual revenue has been derived during the first, second, third and fourth fiscal quarters, respectively.

Events of September 11

During the three-month period following the September 11 terrorist attacks on New York's World Trade Center towers and on the Pentagon, the Company's results of operations were adversely affected by travel disruption and short-term cancellation of group bookings at its properties. The Company's resorts experienced an increase in demand during the three months ended March 31, 2002 and management is optimistic that lodging fundamentals will continue to advance and operations will continue to approach pre-September 11 levels.

Revenue

Leisure and recreation revenue totaled \$100.0 million and \$102.0 million during the three months ended March 31, 2002 and 2001, respectively, and \$197.3 million and \$257.1 million during the nine months ended March 31, 2002 and 2001, respectively.

The \$2.0 million decrease in leisure and recreation revenue during the three months ended March 31, 2002 compared to the three months ended March 31, 2001 was primarily due to a decline in occupancy to 77.8% for the three months ended March 31, 2002, from 82.4% for the same period of the prior year and a decline in the average daily rate to \$282.46 for the three months ended March 31, 2002, from \$287.75 for the year ago period. While the Company continued to face a challenging operating environment, demand rebounded during the recently completed three-month period as compared to that experienced in the months immediately subsequent to the September 11 terrorist attacks. The decrease in leisure and recreation revenue did not correspond to the decrease in total revenue per available room due to an increase in the number of available rooms following the completion of a new Yacht Club at the Boca Raton Resort & Club.

The \$59.8 million decrease in leisure and recreation revenue during the nine months ended March 31, 2002 compared to the nine months ended March 31, 2001 was partially because the prior year nine-month period included \$39.9 million in revenue from the Arizona Biltmore Resort & Spa, which was sold in December 2000. In addition, leisure and recreation revenue decreased due to a decline in same-resort occupancy to 60.1% for the nine months ended March 31, 2002, from 68.9% for the same period of the prior year as a result of travel disruption and short-term cancellations of group business in the wake of the September 11 terrorist attacks.

Resort Operating Expenses

Cost of leisure and recreation services totaled \$37.1 million, or 37% of revenue, during the three months ended March 31, 2002 compared to cost of leisure and recreation services of \$37.1 million, or 36% of revenue, during the three months ended March 31, 2001. Cost of leisure and recreation services totaled \$89.0 million, or 45% of revenue, during the nine months ended March 31, 2002 compared to cost of leisure and recreation services of \$111.7 million, or 43% of revenue, during the nine months ended March 31, 2001. The increase in cost of services as a percent of revenue during the current year periods was substantially due to the decrease in revenue following the September 11 terrorist attacks.

Selling, general and administrative expenses (S,G&A) of the leisure and recreation business totaled \$18.8 million, or 19% of revenue, during the three months ended March 31, 2002, compared to S,G&A of \$17.6 million, or 17% of revenue, during the three months ended March 31, 2001. S,G&A of the leisure and recreation business totaled \$55.1 million, or 28% of revenue, during the nine months ended March 31, 2002,

compared to S,G&A of \$63.0 million, or 24% of revenue, during the nine months ended March 31, 2001. The increase S,G&A as a percent of revenue during the current year periods was substantially due to the decrease in revenue following the September 11 terrorist attacks. In addition, the prior year nine-month period included a \$1.3 million credit to S,G&A expense for non-recurring insurance proceeds, while the current year nine-month period included an increase in property taxes and certain non-recurring severance and compensation charges. S,G&A of the leisure and recreation business includes, among other items, administrative payroll costs, selling and marketing expenses, energy and property costs, insurance, real estate taxes, franchise agreement fees and other administrative expenses.

While certain reductions were made to both variable cost of services and S,G&A expenses such as labor costs by March 31, 2002, management continues to actively work with the Company's resort managers to substantially reduce the operating costs of each resort. These initiatives include further reducing labor costs and streamlining staffing and service delivery.

Amortization and depreciation expense for the leisure and recreation business totaled \$8.6 million and \$7.6 million during the three months ended March 31, 2002 and 2001, respectively, and \$24.7 million and \$26.7 million during the nine months ended March 31, 2002 and 2001, respectively. The increase in amortization and depreciation expense during the three months ended March 31, 2002 compared to the three months ended March 31, 2001 was primarily the result of an increase in depreciation expense following the completion of several capital projects at the Boca Raton Resort and Club and Registry Resort, offset by a reduction to amortization expense pursuant to the provisions of SFAS No. 142, Goodwill and Other Intangible Assets. The decrease in amortization and depreciation expense during the nine months ended March 31, 2002 compared to the nine months ended March 31, 2001 was primarily because the prior year nine-month period included \$4.5 million in amortization and depreciation expense associated with the Arizona Biltmore Resort & Spa, which was partially offset by a \$2.5 million increase in depreciation expense during the current year following the completion of several capital projects at the Boca Raton Resort and Club and Registry Resort

Resort Operating Income

Operating income for the leisure and recreation business totaled \$35.6 million and \$39.7 million during the three months ended March 31, 2002 and 2001, respectively, and \$28.5 million and \$55.8 million during the nine months ended March 31, 2002 and 2001, respectively. The decrease in operating income of the leisure and recreation business during the three months ended March 31, 2002 compared to the three months ended March 31, 2001 was primarily due to the slow business recovery following the September 11 terrorist attacks. The decrease in operating income of the leisure and recreation business during the nine months ended March 31, 2002 compared to the nine months ended March 31, 2001 was primarily because of a decrease in revenue and corresponding earnings following the September 11 terrorist attacks and because the prior year nine-month period included \$8.4 million in operating income from the Arizona Biltmore Resort & Spa.

Corporate General and Administrative Expenses

Corporate general and administrative expenses totaled \$2.7 million and \$2.0 million during the three months ended March 31, 2002 and 2001, respectively, and \$6.5 million and \$6.8 million during the nine months ended March 31, 2002 and 2001, respectively. While the current and prior year period included certain non-recurring items, the decrease in corporate general and administrative expense during the nine months ended March 31, 2002 compared to the nine months ended March 31, 2001 was primarily due to a decline in the management fee, equal to 1% of total revenue, payable to Huizenga Holdings, Inc., a corporation whose sole shareholder is the Company's Chief Executive Officer and Chairman. Pursuant to the management services agreement, Huizenga Holdings, Inc. provides certain administrative, financing, tax, investor relations and strategy related services to the Company.

Interest and Other Income

Interest and other income totaled \$50,000 and \$2.6 million during the three months ended March 31, 2002 and 2001, respectively, and \$1.0 million and \$4.1 million during the nine months ended March 31, 2002 and 2001, respectively. The decrease in interest and other income during the three and nine months ended March 31, 2002 compared to the three and nine months ended March 31, 2001 was primarily because the Company invested a portion of the proceeds from the sale of the Arizona Biltmore Resort & Spa in time deposit accounts during the prior year nine-month period until such proceeds were ultimately used to pay down higher rate indebtedness.

Interest and Other Expense

Interest and other expense totaled \$6.0 million and \$10.5 million during the three months ended March 31, 2002 and 2001, respectively, and \$18.1 million and \$38.5 million during the nine months ended March 31, 2002 and 2001, respectively. The decrease in interest and other expense followed a reduction in indebtedness with the proceeds from the sale of the Arizona Biltmore Resort & Spa. The Company's consolidated indebtedness totaled \$216.3 million and \$377.3 million at March 31, 2002 and 2001, respectively.

Provision for Income Taxes

The Company recorded a provision for income taxes from continuing operations in the amount of \$10.7 million during the three months ended March 31, 2002 and \$1.9 million during the nine months ended March 31, 2002. No provision for income taxes was recorded during the three and nine months ended March 31, 2001 due to an offsetting decrease in the Company's tax valuation allowance. Realization of future tax benefits related to deferred tax assets is dependent on many factors, including the Company's ability to generate future taxable income. The tax valuation allowance is adjusted in the period management determines it is more likely than not that deferred tax assets will or will not be realized. The Company continued to maintain a tax valuation allowance at March 31, 2001 because management believed the Company's ability to generate future taxable income and realization of the deferred tax asset was not more likely than not due to the volatility of the entertainment and sports business. This business was subsequently sold and, therefore, the tax valuation allowance was released during the three months ended June 30, 2001.

EBITDA/Adjusted EBITDA

EBITDA represents earnings before extraordinary items, interest expense, interest income, income taxes, depreciation and amortization. Adjusted EBITDA represents EBITDA plus the amount of net membership fees deferred during the periods presented. EBITDA and Adjusted EBITDA (see below) are used by management and certain investors as indicators of the Company's historical ability to service debt, to sustain potential future increases in debt and to satisfy capital requirements. However, neither EBITDA nor Adjusted EBITDA is intended to represent cash flows for the period. In addition, they have not been presented as alternatives to either (a) operating income (as determined by GAAP) as an indicator of operating performance or (b) cash flows from operating, investing and financing activities (as determined by GAAP) and are thus susceptible to varying calculations. EBITDA as presented may not be comparable to other similarly titled measures of other companies.

EBITDA

EBITDA totaled \$41.4 million and \$45.3 million during the three months ended March 31, 2002 and 2001, respectively, and \$46.6 million and \$75.7 million during the nine months ended March 31, 2002 and 2001, respectively. While the prior year nine-month period included \$13.0 million in EBITDA from the Arizona Biltmore Resort & Spa, the decrease in EBITDA for the periods presented was primarily the result of a decrease in revenue and corresponding earnings following the September 11 terrorist attacks.

Adjusted EBITDA

Adjusted EBITDA represents EBITDA plus the amount of net membership fees deferred during the periods presented. The net membership fees deferred represents the quarterly change in deferred revenue arising from the Premier Clubs at the Boca Raton Resort & Club, Naples Grande and Grande Oaks Golf Clubs. Net memberships deferred totaled \$1.5 million and \$3.5 million during the three months ended March 31, 2002 and 2001, respectively, and \$4.1 million and \$8.7 million during the nine months ended March 31, 2002 and 2001, respectively. The Company opened Naples Grande Golf Club in February 2000, which resulted in strong introductory membership sales during its initial twelve-month sales season, which are reflected in the net memberships deferred during the three and nine months ended March 31, 2001.

Discontinued Operations

On July 25, 2001 the Company sold its entertainment and sports business. The selling price for the business, which incorporated certain working capital adjustments, consisted of \$83.5 million in cash, an \$11.3 million secured promissory note (which was paid January 25, 2002) and the assumption by the purchasers of certain off-balance sheet contingencies including a \$10 million construction obligation secured by a performance bond. The net proceeds from the sale of the business after payment of disposal costs and income taxes is estimated to approach \$70.0 million and the gain on disposition was \$23.7 million.

Extraordinary Loss

The Company recorded a \$968,000 extraordinary loss (net of a benefit for income taxes) relating to the repurchase of \$57.0 million principal amount of its 9.875% senior subordinated notes during the nine months ended March 31, 2002. The Company recorded a \$1.8 million extraordinary loss relating to the repurchase of \$60.0 million principal amount of its 9.875% senior subordinated notes during the nine months ended March 31, 2001. The extraordinary losses substantially represent the non-cash charge-off of a pro rata portion of the debt issuance costs previously capitalized when the notes were issued.

RESULTS OF OPERATIONS COMPARISON TO PRIOR YEAR PRO FORMA

The accompanying table for the nine months ended March 31 (expressed in 000 s) is set forth on a pro forma basis for the prior year, which excludes the operating results from the Arizona Biltmore Resort & Spa, which was sold in December 2000. Management believes the pro forma information, which is supplemental to the historical discussion (which appears under the heading Results of Operations Comparison to Prior Year Historical), provides readers with a meaningful comparison of the periods presented on a same-resort basis.

Liquidity and Capital Resources

Unrestricted cash and cash equivalents decreased to \$9.6 million at March 31, 2002, from \$9.9 million at June 30, 2001. The major components of the change are discussed below.

Net Cash Provided by Operating Activities

Net cash provided by operating activities totaled \$40.1 million and \$33.0 million during the nine months ended March 31, 2002 and 2001, respectively. The increase in net cash provided by activities during the nine months ended March 31, 2002 compared to the nine months ended March 31, 2001 was because during the prior year nine-month period the Company paid \$8.6 million to fund operating losses of its entertainment and sports business. The Company sold this business in July 2001, and therefore, had no operating activities associated with this discontinued operation during the current year. While the Company received significantly less cash from its leisure and recreation business during the nine months ended March 31, 2002 than during the nine months ended March 31, 2001 because of a decline in earnings and corresponding net cash flow following the September 11 terrorist attacks and because of the sale of the Arizona Biltmore Resort & Spa, this decrease was nearly offset by a reduction in interest paid over the same periods because the Company used the proceeds from these sales to repay indebtedness.

Net Cash Provided by Investing Activities

Net cash provided by investing activities amounted to \$18.0 million and \$229.9 million during the nine months ended March 31, 2002 and 2001, respectively. The change was largely because of the Company's disposition activities. During the nine months ended March 31, 2002 the Company received \$80.1 million from the sale of the entertainment and sports business while during the nine months ended March 31, 2001 the Company received \$279.9 million in net proceeds from the disposition of the Arizona Biltmore Resort & Spa. Other changes in investing activities are discussed below.

Capital expenditures totaled \$61.9 million and \$48.0 million during the nine months ended March 31, 2002 and 2001, respectively. During the nine months ended March 31, 2002, the Company continued construction on various projects at the Boca Raton Resort & Club including 112 new water-view rooms (the Yacht Club), which opened in January 2002 and a new 50,000 square foot state-of-the-art spa complex (the Spa Palazzo), as well as, a new golf clubhouse with casual restaurant, which opened in December 2001.

During the nine months ended March 31, 2001, capital spending primarily related to continued spending on a luxury guestroom renovation at the Boca Raton Resort & Club; construction of a new pool/aquatic center, 6,000 square feet of additional conference space and enhancements to the beach facility and boardwalk at the Registry Resort; and spending on a guestroom renovation at the Bahia Mar Resort and Yachting Center.

Restricted cash increased \$167,000 from June 30, 2001 to March 31, 2002 and increased \$3.9 million from June 30, 2000 to March 31, 2001. The \$3.9 million increase during the nine months ended March 31, 2001 related to escrow accounts maintained in accordance with the terms of mortgage-note agreements, which notes were subsequently paid by the Company.

Cash provided by investing activities from discontinued operations totaled \$1.9 million during the nine months ended March 31, 2001 and represents the decrease in restricted cash associated with the entertainment and sports business. No cash was generated from investing activities from discontinued operations during the nine months ended March 31, 2002 as a result of the sale of this business.

Cash Used in Financing Activities

Net cash used in financing activities amounted to \$58.4 million during the nine months ended March 31, 2002 and includes the repurchase of \$57.0 million principal amount of 9.875% senior subordinated notes. Net cash used in financing activities during the nine months ended March 31, 2001 totaled \$149.5 million and

Edgar Filing: BOCA RESORTS INC - Form 10-Q

includes \$87.1 million in net repayments under various credit agreements as well as the repurchase of \$60.0 million principal amount of 9.875% senior subordinated notes.

Capital Resources

The Company's capital resources are provided from both internal and external sources. The primary capital resources from internal operations include (1) room rentals, food and beverage sales, retail sales, golf and tennis revenue, spa revenue, marina and conference services at the resorts and (2) Premier Club memberships. The primary external sources of liquidity have been the issuance of debt securities and borrowing under term loans and credit lines.

As of May 14, 2002, the Company had no outstanding balance under its revolving credit line (which matures on October 31, 2003) and had \$129.3 million in immediate availability. As a result of the current availability under this credit line, combined with cash on hand, management believes the Company has sufficient funds to continue its capital enhancement plans and support on-going operations, including meeting debt service obligations as they come due.

Financial Condition

Significant changes in balance sheet data from June 30, 2001 to March 31, 2002 are discussed below.

Accounts Receivable

Accounts receivable increased to \$28.2 million at March 31, 2002, from \$23.4 million at June 30, 2001. It is customary for the Company's trade receivables to be highest following the March 31 operating quarter as a result of the seasonality of its business.

Other Current Assets

Other current assets decreased to \$2.6 million at March 31, 2002, from \$6.0 million at June 30, 2001 primarily due to the amortization of prepaid property insurance.

Property and Equipment

Property and equipment increased to \$828.0 million at March 31, 2002, from \$792.1 million at June 30, 2001. The increase primarily relates to capital spending at the Boca Raton Resort & Club on projects including a Yacht Club consisting of 112 water-view luxury guestrooms, a spa complex, a golf clubhouse and marina slips, offset by depreciation expense.

Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses increased to \$36.0 million at March 31, 2002, from \$32.4 million at June 30, 2001. The increase was primarily due to higher accrued interest on the Company's 9.875% senior subordinated notes. Interest on the notes is paid semi-annually on October 15 and April 15. At March 31, 2002, the accrual for interest totaled \$9.9 million (and represented interest for 167 days on \$216 million outstanding notes). At June 30, 2001, the accrual for interest totaled \$5.7 million (and represented interest for 76 days on \$273 million outstanding notes).

Current Portion of Deferred Revenue and Advance Deposits

Current portion of deferred revenue and advance deposits increased to \$27.5 million at March 31, 2002, from \$18.7 million at June 30, 2001. Approximately \$5.0 million of the increase related to annual Premier Club dues collected at the Boca Raton Resort & Club, which will be recognized as revenue ratably over the residual six months of the membership year. The remaining \$3.8 million increase in this account from June 30, 2001 to March 31, 2002 relates to higher group and leisure traveler deposits for future bookings at the Company's resorts, which tend to increase around the Company's peak operating season.

Net Assets/Liabilities of Discontinued Operations

Net liabilities of discontinued operations totaled \$9.9 million at March 31, 2002 and primarily represent estimated income taxes payable associated with the gain on the sale and other disposal costs.

Deferred Revenue, Net of Current Portion

Deferred revenue, net of current portion, increased to \$39.9 million at March 31, 2002, from \$35.5 million at June 30, 2001 due to additional memberships sales for the Company's exclusive social club known as the Premier Club.

Senior Subordinated Notes Payable

Senior subordinated notes payable decreased to \$216.0 million at March 31, 2002, from \$273.0 million at June 30, 2001. The decrease was the result of the repurchase of \$57.0 million principal amount of such notes.

Working Capital

Current liabilities exceeded current assets by \$21.7 million at March 31, 2002, compared to positive working capital of \$45.5 million at June 30, 2001. The change is primarily because the Company used cash to repurchase \$57.0 million principal amount of notes, which would have otherwise matured in April 2009. However, the ratio of current liabilities to current assets is not indicative of a lack of liquidity as the Company maintains a revolving credit line that represents an additional and immediate potential source of liquidity.
