UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
Form 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period-ended June 30, 2006

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number 0-15495

Mesa Air Group, Inc.

(Exact name of registrant as specified in its charter)

Nevada

(State or other jurisdiction of incorporation or organization)

85-0302351

(I.R.S. Employer Identification No.)

**410 North 44th Street, Suite 100,
Phoenix, Arizona**

(Address of principal executive offices)

85008

(Zip code)

Registrant's telephone number, including area code:

(602) 685-4000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the last 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

On August 2, 2006, the registrant had outstanding 36,267,542 shares of Common Stock.

MESA AIR GROUP, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. Business and Basis of Presentation

The accompanying unaudited, condensed consolidated financial statements of Mesa Air Group, Inc. (Mesa or the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for a complete set of financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the results for the periods presented have been made. Operating results for the three and nine-month periods ended June 30, 2006, are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2006. These condensed consolidated financial statements should be read in conjunction with the Company s consolidated financial statements and notes thereto included in the Company s annual report on Form 10-K/A for the fiscal year ended September 30, 2005.

The accompanying condensed consolidated financial statements include the accounts of Mesa Air Group, Inc. and its wholly-owned operating subsidiaries: Mesa Airlines, Inc. (Mesa Airlines), a Nevada corporation and certificated air carrier; Freedom Airlines, Inc. (Freedom), a Nevada corporation and certificated air carrier; Air Midwest, Inc. (Air Midwest), a Kansas corporation and certificated air carrier; MPD, Inc. (MPD), a Nevada corporation, doing business as Mesa Pilot Development; Regional Aircraft Services, Inc. (RAS) a Pennsylvania corporation; Mesa Leasing, Inc., a Nevada corporation; Mesa Air Group Airline Inventory Management, LLC (MAG-AIM), an Arizona Limited Liability Company; Ritz Hotel Management Corp., a Nevada Corporation; and MAGI Insurance, Ltd. (MAGI), a Barbados, West Indies based captive insurance company. MPD, Inc. provides pilot training in coordination with a community college in Farmington, New Mexico and with Arizona State University in Tempe, Arizona. RAS performs aircraft component repair and overhaul services and ground handling services. MAG-AIM is an inventory procurement and sales company. MAGI is a captive insurance company established for the purpose of obtaining more favorable aircraft liability insurance rates. All significant intercompany accounts and transactions have been eliminated in consolidation. In addition, the Company has launched its inter-island service in Hawaii under the brand name *go!* This operation is referred to herein as *go!*

2. Segment Reporting

Statement of Financial Accounting Standard (SFAS) No. 131, Disclosures about Segments of an Enterprise and Related Information, requires disclosures related to components of a company for which separate financial information is available that is evaluated regularly by a company s chief operating decision maker in deciding the allocation of resources and assessing performance. The Company has three airline operating subsidiaries, Mesa Airlines, Freedom Airlines and Air Midwest, as well as various other subsidiaries organized to provide support for the Company s airline operations. In addition, Mesa Airlines began providing inter-island service in Hawaii as *go!* in the third quarter of fiscal 2006. The Company has aggregated these subsidiaries into three reportable segments: Mesa Airlines / Freedom, Air Midwest / *go!* and Other. Mesa Airlines and Freedom Airlines operate regional jets and Dash-8 aircraft pursuant to revenue guarantee contracts. Air Midwest operates the Company s Beech 1900 turboprop aircraft and *go!* operates regional jets. Air Midwest and *go!* assume all revenue risk for their flying. The Other reportable segment includes Mesa Air Group (the holding company), RAS, MPD, MAG-AIM, MAGI, Mesa Leasing, Inc. and Ritz Hotel Management Corp., all of which support Mesa s operating subsidiaries. In October 2004, the Company transitioned certain of its regional jets from Freedom into Mesa and transferred a B1900D aircraft from Air Midwest into Freedom. As a result, Freedom was grouped with Air Midwest in fiscal 2005 for segment purposes. In fiscal 2006, Freedom began operating under a revenue-guarantee code-share agreement with Delta utilizing ERJ-145 aircraft that were transitioned from Mesa Airlines. As such, the Company has aggregated Freedom with Mesa Airlines beginning in the first quarter of fiscal 2006. Operating revenues in the Other segment are primarily sales of rotatable and expendable parts to the Company s operating subsidiaries and ground handling services performed by employees of RAS for Mesa Airlines.

Edgar Filing: MESA AIR GROUP INC - Form 10-Q

Mesa Airlines and Freedom Airlines provide passenger service with regional jets under revenue-guarantee contracts with United Airlines, Inc. (United), Delta Air Lines, Inc. (Delta) and US Airways, Inc. (US Airways). Mesa Airlines also provides passenger service with Dash-8 aircraft under revenue-guarantee contracts with US Airways and United. As of June 30, 2006, Mesa Airlines and Freedom Airlines operated a fleet of 160 aircraft 108 CRJs, 36 ERJs and 16 Dash-8s. Prior to operating ERJ 145 aircraft, Freedom most recently operated Beechcraft 1900D under a pro-rate agreement with US Airways.

Edgar Filing: MESA AIR GROUP INC - Form 10-Q

Air Midwest provides passenger service with Beechcraft 1900D aircraft under pro-rate contracts with US Airways and Midwest Airlines, Inc. (Midwest Airlines) as well as independent operations as Mesa Airlines. As of June 30, 2006, Air Midwest operated a fleet of 20 Beechcraft 1900D turboprop aircraft. Mesa Airlines, operating as *go!*, provides independent inter-island Hawaiian passenger service with CRJ-200 aircraft. *go!* operated a fleet of five CRJ-200 as of June 30, 2006. Air Midwest and Mesa, operating as *go!*, do not receive contractually-guaranteed revenue for their operations.

Activity in the Other category consists primarily of sales of rotatable and expendable parts and ground handling services to the Company's operating subsidiaries, but also includes all administrative functions not directly attributable to any specific operating company. These administrative costs are allocated to the operating companies based upon specific criteria including headcount, available seat miles (ASM s) and other operating statistics.

3. Marketable Securities

The Company has a cash management program which provides for the investment of excess cash balances primarily in short-term money market instruments, US treasury securities and intermediate-term debt instruments.

SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, requires that all applicable investments be classified as trading securities, available for sale securities or held-to-maturity securities. The Company currently has \$177.2 million in marketable securities that include US Treasury notes, government bonds, corporate bonds, short positions on common equity securities and auction rate securities (ARS). These investments are classified as trading securities during the periods presented and accordingly, are carried at market value with changes in value reflected in the current period operations. Unrealized losses relating to trading securities held at June 30, 2006 and September 30, 2005, were \$4.6 million and \$0.5 million, respectively.

ARS generally have long-term maturities; however, these investments have characteristics similar to short-term investments because at predetermined intervals, generally every 28 days, there is a new auction process. As such, the Company classifies ARS as short-term investments. The balance of marketable securities at June 30, 2006 and September 30, 2005 includes investments in ARS of \$48.3 million and \$46.7 million, respectively.

In the third quarter of fiscal 2006, the Company entered into a short position on certain equity securities in order to hedge its exposure to shares expected to be received in connection with a settlement. The Company marks short positions to market at each reporting period with the associated gain or loss in value reflected in other income (expense) in the condensed consolidated statement of income. Included in marketable securities are liabilities related to short positions on common equity securities of \$2.6 million at June 30, 2006. The short position was closed subsequent to June 30, 2006.

4. Restricted Cash

At June 30, 2006, the Company had \$11.7 million in restricted cash on deposit with two financial institutions. In September 2004, the Company entered into an agreement with a financial institution for a \$9.0 million letter of credit facility and to issue letters of credit for landing fees, workers compensation insurance and other business needs. Pursuant to the agreement, \$6.7 million of outstanding letters of credit at June 30, 2006 are collateralized by amounts on deposit. The Company also maintains \$5.0 million on deposit with another financial institution to collateralize its direct deposit payroll obligations.

5. Bankruptcy Settlement

In the quarter ended June 30, 2006, the Company determined, based upon publicly available bankruptcy court documents, that its minimum distribution from its US Airways bankruptcy claim would be 301,937 shares of US Airways common stock. The Company valued the minimum amount to be received based upon the closing market price of the stock on June 30, 2006 of \$50.54 per share; applied the expected proceeds to existing receivables and recorded the remaining amount of \$9.7 million as a bankruptcy settlement in the condensed consolidated statement of income. On July 11, 2006, the Company received 351,456 shares of US Airways common stock. The difference between the number of shares actually received and the amount recorded at June 30, 2006, will be valued at the market price of the shares on the date of receipt and recorded as a bankruptcy settlement in the fourth quarter.

6. Concentrations

The Company has code-share agreements with US Airways, United, Delta and Midwest Airlines. Approximately 99% of the Company's consolidated passenger revenue for the three months ended June 30, 2006 was derived from these agreements. Accounts receivable from the Company's code-share partners were 40% and 35% of total gross accounts receivable at June 30, 2006 and September 30, 2005, respectively.

Prior to the merger of America West and US Airways, US Airways filed for Chapter 11 bankruptcy protection on September 12, 2004. As a result of US Airways' emergence from bankruptcy in September 2005 and their non-assumption of the Company's revenue-guarantee code-share agreement, the Company expanded its regional jet revenue-guarantee code-share agreement with United and entered into a new revenue-guarantee code-share agreement with Delta. The Company completed the transition of aircraft from US Airways to United and Delta during the third quarter of fiscal year 2006. In addition, on September 14, 2005, Delta Air Lines filed for reorganization under Chapter 11 of the US Bankruptcy Code. Delta has not yet assumed the code-share agreement with the Company in its bankruptcy proceeding and could choose to terminate our regional jet agreement or seek to renegotiate the agreement on less favorable terms. At June 30, 2006, we operated twenty-six regional jet aircraft under the Delta agreement. Non-assumption of the Delta agreement in the bankruptcy proceeding could have a material adverse effect on our business, financial condition and results of operations.

7. Contract Incentives

In May 2005, the Company amended its code-sharing arrangement with United to allow the Company to put up to an additional 30 50-seat regional jet aircraft into the United Express system. The agreement with respect to the additional 30 50-seat regional jet aircraft expires in April 2010. Additionally, the expiration dates under the existing code-share agreement with respect to certain

aircraft were extended. The code-share agreement for (i) the ten Dash-8 aircraft terminates in July 2013, and United Airlines' right to terminate earlier will not begin until April 2010, (ii) the 15 50-seat CRJ-200s currently terminates in April 2010, (iii) the 15 70-seat regional jets (to be delivered upon the withdrawal of the 50-seat regional jets) terminates on the earlier of ten years from delivery date or October 2018 and (iv) the remaining 15 70-seat regional jets terminates in three tranches between December 2011 and December 2013. In connection with the amendment, the Company made three \$10 million payments to United as follows: i) \$10 million in June 2005, ii) \$10 million in October 2005, and iii) \$10 million in November 2005. Amounts paid are recorded as a deferred charge and included in other assets on the condensed consolidated balance sheet. The deferred charge is being amortized over the term of the code-share agreement as a reduction of passenger revenue. Amortization of \$1.0 million and \$2.5 million was recorded for the three and nine-month periods ended June 30, 2006, respectively.

8. Sale Leaseback of Rotable Spare Parts

In August 2005, the Company entered into a ten-year agreement with AAR Corp. (the "AAR Agreement"), for the management and repair of certain of the Company's CRJ-200, -700, -900 and ERJ-145 aircraft rotatable spare parts inventory. Under the agreement, the Company sold certain existing spare parts inventory to AAR for \$39.5 million in cash and \$21.5 million in notes receivable to be paid over four years. The AAR agreement was contingent upon the Company terminating an agreement for the Company's CRJ-200 aircraft rotatable spare parts inventory with GE Capital Aviation Services ("GECAS") and including these rotatables in the arrangement. The Company terminated the GECAS agreement and finalized the AAR agreement in November 2005. Upon entering into the agreement, the Company received \$22.8 million, which was recorded as a deposit at September 30, 2005, pending the termination of the GECAS agreement. An additional \$15.8 million was received in the quarter ended December 31, 2005. Under the agreement, the Company is required to pay AAR a monthly fee based upon flight hours for access to and maintenance and servicing of the inventory. The agreement also contains certain minimum monthly payments that Mesa must make to AAR. Based on this arrangement, the Company accounts for the transaction as a service agreement and an operating lease of rotatable spare parts with AAR. The sale of the rotatable spare parts resulted in a gain of \$2.1 million, which has been deferred and is being recognized over the term of the agreement. At termination, the Company may elect to purchase the covered inventory at fair value, but is not contractually obligated to do so.

Future minimum payments under the agreement are as follows:

	Years Ending September 30, (In thousands)
2006	\$ 5,554
2007	23,127
2008	26,650
2009	29,371
2010	32,225
Thereafter	169,090

In June 2006, the Company entered into a separate two-year agreement with AAR, for the management and repair of the Company's CRJ-200 aircraft rotatable spare parts inventory associated with its *go!* operations. Under the agreement, the Company transferred certain existing spare parts inventory to AAR for \$1.2 million in cash. AAR is required to purchase an additional \$2.9 million in rotatable spare parts to support the agreement. Under the agreement, the Company is required to pay AAR a monthly fee based upon flight hours for access to and maintenance of the inventory. At termination, the Company has guaranteed the fair value of the underlying rotatables. Based on this arrangement, the Company accounts for the transaction as a financing arrangement, thus recording both the rotatable spare parts inventory as an asset and the related payable to AAR as a liability.

9. Deferred Credits

Deferred credits consist of aircraft purchase incentives provided by the aircraft manufacturers and deferred gains on the sale and leaseback of interim financed aircraft. These incentives include credits that may be used to purchase spare parts, pay for training expenses or reduce other aircraft operating costs. These deferred credits and gains are

amortized on a straight-line basis as a reduction of lease expense over the term of the respective leases.

10. Short-Term Debt

10

The Company had three aircraft on interim financing with the manufacturer at June 30, 2006. Under interim financing arrangements, the Company takes delivery and title to the aircraft prior to securing permanent financing and the acquisition of the aircraft is accounted for as a purchase with debt financing. Accordingly, the Company reflects the aircraft and debt under interim financing on its condensed consolidated balance sheet during the interim financing period. After taking delivery of the aircraft, it is the Company's intention to permanently finance the aircraft as an operating lease through a sale and leaseback transaction with an independent third-party lessor. Upon permanent financing, the proceeds are used to retire the notes payable to the manufacturer. Any gain recognized on the sale and leaseback transaction is deferred and amortized over the life of the lease.

At June 30, 2006 and September 30, 2005, the Company had \$82.1 million and \$54.6 million, respectively, in notes payable to an aircraft manufacturer for aircraft on interim financing. These interim financings agreements typically have an initial term of six months and provide for monthly interest only payments at LIBOR plus three percent. The current interim financing agreement with the manufacturer allows for the Company to have a maximum of 15 aircraft on interim financing at a given time. Subsequent to June 30, 2006, the Company began making principal payments on these notes in the amount of \$0.1 million per aircraft per month.

11. Notes Payable and Long-Term Debt

Long-term debt consisted of the following:

	June 30, 2006	September 30, 2005
	(In thousands)	
Notes payable to bank, collateralized by the underlying aircraft, due 2019	\$ 334,271	\$ 348,452
Senior convertible notes due June 2023	37,834	100,112
Senior convertible notes due February 2024	100,000	100,000
Notes payable to manufacturer, principal and interest due monthly through 2011 at a current variable interest rate of 6.07%, collateralized by the underlying aircraft	80,855	87,947
Note payable to financial institution due 2013, principal and interest due monthly at 7% per annum through 2008 converting to 12.5% thereafter, collateralized by the underlying aircraft	23,178	24,181
Note payable to manufacturer, principal due semi-annually, interest at 7% due quarterly through 2007	2,185	2,578
Mortgage note payable to bank, principal and interest at 7.5% due monthly through 2009	892	923
Other	147	174
Total debt	579,362	664,369
Less current portion	(29,397)	(27,787)
Long-term debt	\$ 549,965	\$ 636,582

During fiscal 2006, holders of \$156.8 million in aggregate principal amount at maturity (\$62.3 million carrying amount) of the Company's Senior Convertible Notes due 2023 (the "Notes") converted Notes into shares of Mesa common stock. In connection with these conversions, the Company issued an aggregate of 6,227,845 shares of Mesa common stock in accordance with the terms of these Notes and also paid approximately \$11.3 million to these Noteholders. The Company also wrote off \$1.8 million in debt issue costs related to these notes. Amounts paid to Noteholders and the write-off of debt issue costs were recorded as Other Expense in the condensed consolidated statement of income. Under the terms of the Notes, each \$1,000 of aggregate principal amount at maturity of Notes is convertible into 39.727 shares of Mesa common stock at the option of the Noteholders under certain circumstances.

The shares of common stock issuable upon conversion of the Notes have previously been included in the calculation of diluted earnings per share. Consequently, issuance of the shares will not be further dilutive to reported diluted earnings per share.

12. Earnings Per Share

The Company accounts for earnings per share in accordance with SFAS No. 128, Earnings per Share. Basic net income per share is computed by dividing net income by the weighted average number of common shares outstanding during the periods presented. Diluted net income per share reflects the potential dilution that could occur if outstanding stock options and warrants were exercised. In addition, dilutive convertible securities are included in the denominator while interest on convertible debt, net of tax, is added back to the numerator. A reconciliation of the numerator and denominator used in computing net income per share is as follows:

	Three Months Ended		Nine Months Ended	
	June 30,		June 30,	
	2006	2005	2006	2005
	(In thousands)		(In thousands)	
Share calculation:				
Weighted average shares basic	36,020	28,830	32,980	29,297
Effect of dilutive outstanding stock options and warrants	708	105	1,017	111

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2006	2005	2006	2005
	(In thousands)		(In thousands)	
Effect of restricted stock	29	286	9	286
Effect of dilutive outstanding convertible debt	10,704	16,933	10,704	16,933
Weighted average shares diluted	47,461	46,154	44,710	46,627
Adjustments to net income:				
Net income	\$ 10,929	\$ 17,135	\$ 29,209	\$ 41,858
Interest expense on convertible debt, net of tax	900	1,524	3,428	4,573
Adjusted net income	\$ 11,829	\$ 18,659	\$ 32,637	\$ 46,431

Options to purchase 322,586 and 1,133,663 shares of common stock were outstanding during the quarters ended June 30, 2006 and 2005, respectively, but were excluded from the calculation of dilutive earnings per share because the options' exercise prices were greater than the average market price of the common shares and, therefore, the effect would have been antidilutive.

13. Stock Repurchase Program

The Company's Board of Directors has authorized the Company to purchase up to 19.4 million shares of the Company's outstanding common stock, including 10 million shares authorized in November 2005. As of June 30, 2006, the Company has acquired and retired approximately 8.1 million shares of its outstanding common stock at an aggregate cost of approximately \$48.7 million, leaving approximately 11.3 million shares available for purchase under existing Board authorizations. Purchases are made at management's discretion based on market conditions and the Company's financial resources.

The Company repurchased the following shares for \$0.5 million during the three months ended June 30, 2006:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares That May yet be Purchased Under the Plan
June 2006	52,806	\$ 8.84	8,112,667	11,309,594

14. Beechcraft 1900D Cost Reductions

On February 7, 2002, the Company entered into an agreement with Raytheon Aircraft Credit Company (the Raytheon Agreement) to reduce the operating costs of its Beechcraft 1900D fleet. In connection with the Raytheon Agreement and subject to the terms and conditions contained therein, Raytheon agreed to provide up to \$5.5 million in annual operating subsidy payments to the Company contingent upon satisfying certain spending requirements and, among other things, the Company remaining current on its payment obligations to Raytheon. The amount was subsequently reduced to \$5.2 million as a result of reductions in the Company's fleet of B1900D aircraft. Approximately \$1.3 million was recorded as a reduction to expense during the three months ended June 30, 2006 and 2005. Approximately \$3.9 million and \$4.0 million was recorded as a reduction to expense during the nine months ended June 30, 2006 and 2005, respectively.

In return, the Company granted Raytheon an option to purchase up to 233,068 warrants at a purchase price of \$1.50 per warrant. Each warrant entitles the holder to purchase one share of common stock at an exercise price of \$10.00 per share. At June 30, 2006, Raytheon was vested in all 233,068 warrants and exercised its option to purchase these warrants in prior years.

15. Interest Expense

Included in interest expense on the condensed consolidated statements of income was interest expense related to aircraft financing of \$7.9 million and \$8.8 million for the three months ended June 30, 2006 and 2005, respectively, and \$22.0 million and \$22.1 million for the nine months ended June 30, 2006 and 2005, respectively.

16. Impairment of Long-Lived Assets

The changes in the impairment and restructuring charges for the periods ended June 30, 2006 and 2005 are as follows:

Description of Charge	Reserve	Reversal of Charges	Non-Cash Utilized	Cash Utilized	Reserve	Cash Utilized	Non-Cash Utilized	Reserve
	Oct. 1, 2004				Dec. 31, 2004			Mar. 31, 2005
Restructuring:								
Costs to return aircraft	\$ (2,217)	\$ 1,187	\$	\$	\$ (1,030)	\$ 1,030	\$	\$
Aircraft lease payments	(450)	70	77	36	(267)	36	147	(84)
Total	\$ (2,667)	\$ 1,257	\$ 77	\$ 36	\$ (1,297)	\$ 1,066	\$ 147	\$ (84)

Description of Charge	Reserve Mar. 31, 2005	Cash Utilized	Reserve Jun. 30, 2005
Restructuring: Aircraft lease payments	\$ (84)	\$ 36	\$ (48)

17. Stockholders Equity

The Company has stock option plans. Prior to October 1, 2005, the Company accounted for these plans under the recognition and measurement provisions of Accounting Principles Board Opinion (APB) No. 25, *Accounting for Stock Issued to Employees*, and related interpretations, as permitted by SFAS No. 123, *Accounting for Stock-Based Compensation*. Effective October 1, 2005, the Company adopted the fair value recognition provisions of SFAS No. 123(R), *Share-Based Payments*, using the modified prospective transition method: option awards granted, modified, or settled after the date of adoption are required to be measured and accounted for in accordance with SFAS 123(R). Unvested equity-classified awards that were granted prior to the effective date will continue to be accounted for in accordance with SFAS 123, and compensation amounts for awards that vest will now be recognized in the income statement as an expense.

Stock-based compensation cost recognized in the quarter ended June 30, 2006 includes: (a) compensation cost for all share-based payments granted prior to October 1, 2005, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123, and (b) compensation cost for all share-based payments granted subsequent to September 30, 2005, based on the grant-date fair value estimated in accordance with the provisions of SFAS No. 123(R).

The Company estimates the fair value of stock awards issued using the Black-Scholes option pricing model. Expected volatilities are based on the historical volatility of the Company's stock and other factors. The Company uses historical data to estimate option exercises and employee terminations within the valuation model. The expected term of options granted is derived from historical exercise experience and represents the period of time the Company expects options granted to be outstanding. The risk-free rates for the periods within the contractual life of the option are based on the U.S. Treasury yield curve in effect at the time of the grant. Option valuation models require the input of subjective assumptions including the expected volatility and lives. Actual values of grants could vary significantly from the results of the calculations. The weighted average fair value of options granted during the quarter ended June 30, 2006 was \$6.75. The weighted average fair value of options granted during the nine months ended June 30, 2006 was \$6.53. The following assumptions were used to value stock option grants during the following period:

	Three Months Ended June 30, 2006	Nine Months Ended June 30, 2006
Dividend yield	0.0%	0.0%
Expected volatility	67.2%	67.5%
Risk-free interest rate	5.67%	5.27%
Forfeiture rate(1)	7.57%	7.57%
Expected lives (in years)	6.1	6.1

(1) Prior to the adoption of SFAS No. 123(R), forfeitures were recognized as they occurred.

Edgar Filing: MESA AIR GROUP INC - Form 10-Q

Compensation cost for options granted prior to October 1, 2005 was recognized on an accelerated amortization method over the vesting period of the options. Compensation cost for options granted after September 30, 2005 was recognized on a straight-line basis over the vesting period. The following amounts were recognized for stock-based compensation (in thousands):

	Three Months Ended June 30, 2006 (In thousands)	Nine Months Ended June 30, 2006 (In thousands)
General and administrative expenses:		
Stock options expense	\$ 401	\$ 1,851
Restricted stock expense	294	883
Total	\$ 695	\$ 2,734

As of June 30, 2006, there was \$1.6 million of total unrecognized compensation cost related to stock options. This cost is expected to be recognized over a weighted average period of 0.9 years.

Prior to the adoption of SFAS No. 123(R), the Company presented all tax benefits resulting from the exercise of stock options as operating cash flows in the condensed consolidated statement of cash flows. SFAS No. 123(R) requires cash flows resulting from excess tax benefits to be classified as financing cash flows. Excess tax benefits result from tax deductions in excess of the compensation cost recognized for those options.

Under the provisions of SFAS No. 123(R), the recognition of deferred compensation, a contra-equity account representing the amount of unrecognized restricted stock expense is no longer required. Therefore, at October 1, 2005,

Unearned compensation on restricted stock was combined with Common stock of no par value and additional paid-in capital in the Company's condensed consolidated balance sheet.

The Company applied the provision of APB Opinion No. 25 and related interpretations in accounting for its stock-based compensation plans prior to October 1, 2005. Accordingly, no compensation cost was recognized for awards made pursuant to its stock option plans. Had the compensation cost for the Company's stock-based compensation plans been determined consistent with the measurement provision of SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure, the Company's net income and net income per share would have been as indicated by the pro forma amounts indicated below:

	Three Months Ended June 30, 2005 (In thousands)	Nine Months Ended June 30, 2005 (In thousands)
Net income as reported	\$ 17,135	\$ 41,858
Stock-based employee compensation cost, net of tax	(314)	(640)
Pro forma net income	16,821	41,218
Interest expense on convertible debt, net of tax	1,524	4,573
Adjusted pro forma net income	\$ 18,345	\$ 45,791
Net income per share Basic:		
As reported	\$ 0.59	\$ 1.43
Pro forma	\$ 0.58	\$ 1.41
Net income per share Diluted:		
As reported	\$ 0.40	\$ 1.00
Pro forma	\$ 0.40	\$ 0.98

A summary of award activity under the stock option plans as of June 30, 2006 and changes during the three and nine month periods then ended are summarized as follows:

Three Months Ended June 30, 2005 Weighted Average	Nine Months Ended June 30, 2005 Weighted Average
--	---

	Shares (000)	Exercise Price	Shares (000)	Exercise Price
Outstanding at beginning of period	2,908	\$ 7.16	3,765	\$ 7.04
Granted	44	10.90	63	10.59
Exercised	(65)	5.73	(866)	5.09
Canceled/Forfeited	(63)		(138)	
Outstanding at end of period	2,824	\$ 7.26	2,824	\$ 7.26
Exercisable at end of period	2,080	\$ 7.17	2,080	\$ 7.17

The Company has 2,080,134 fully vested options outstanding as of June 30, 2006, which have a weighted average exercise price of \$7.17, an aggregate intrinsic value of \$9.1 million and a weighted average remaining contractual term of 4.5 years. The total intrinsic value of options exercised during the quarters ended June 30, 2006 and 2005 was \$0.4 million and \$0.1 million, respectively. The total

intrinsic value of options exercised during the nine-month periods ended June 30, 2006 and 2005 was \$4.0 million and \$0.2 million, respectively.

A summary of the activity for nonvested share awards as of June 30, 2006 and changes during the three and nine month periods then ended are summarized as follows:

	Three Months Ended June 30, 2005		Nine Months Ended June 30, 2005	
	Shares (000)	Weighted Average Exercise Price	Shares (000)	Weighted Average Exercise Price
Nonvested at beginning of period	1,056	\$ 7.00	1,056	\$ 7.00
Granted	44	10.90	44	10.90
Vested	(356)	7.21	(356)	7.21
Forfeited				
Nonvested at end of period	744	\$ 7.52	744	\$ 7.52

18. Commitments and Contingencies

In May 2001, the Company entered into an agreement with Bombardier Regional Aircraft Division (BRAD) under which the Company has an option to acquire 80 CRJ-700 and CRJ-900 regional jets. In January 2004, the Company converted options on 20 CRJ-900 aircraft to firm orders (seven of which can be converted to CRJ-700s). As of June 30, 2006, the Company has taken delivery of 13 CRJ-900 aircraft under the converted options. In conjunction with this purchase agreement, Mesa had \$16.0 million on deposit with BRAD that was included in lease and equipment deposits at June 30, 2006. The BRAD deposits are expected to be returned upon completion of permanent financing on each of the last five aircraft on order (\$3.0 million per aircraft) and \$1.0 million at the Company's option.

In February 2006, Hawaiian Airlines, Inc. (Hawaiian) filed a complaint against the Company in the United States Bankruptcy Court for the District of Hawaii (the Bankruptcy Court) alleging that the Company breached the terms of a Confidentiality Agreement entered into in April 2004 with the Trustee in Hawaiian's bankruptcy proceedings. Hawaiian's complaint alleges, among other things, that the Company breached the Confidentiality Agreement by (a) using the evaluation material to obtain a competitive advantage over Hawaiian, through the development and implementation of a business plan to compete with Hawaiian in the inter-island market, and (b) failing to return or destroy any evaluation materials after being notified by Hawaiian on or about May 12, 2004 that the Company had not been selected as a potential investor for a transaction with Hawaiian. Hawaiian, in its complaint, seeks unspecified damages, requests that the Company turn over to Hawaiian any evaluation material in the Company's possession, custody or control (the Turnover Claim), and an injunction preventing the Company from providing inter-island transportation services in the State of Hawaii for a period of two years from the date of such injunctive relief.

The Company vigorously denies Hawaiian's allegations and requests for relief contained in its complaint. In addition to answering Hawaiian's complaint, the Company filed a counterclaim containing three counts against Hawaiian. The Bankruptcy Court dismissed two of these counts, but the Company's primary allegation that Hawaiian's lawsuit against Mesa is itself an anticompetitive act in violation of the Sherman Anti-trust Act remains. Although the United States District Court for the District of Hawaii (the District Court) denied the Company's initial efforts to immediately withdraw the entire lawsuit from the Bankruptcy Court to the District Court, the District Court indicated that it may later withdraw the lawsuit or the Company's counterclaim prior to a trial. A trial is scheduled for April 2, 2007.

In May 2006, the Company filed a motion to dismiss the Turnover Claim contained in Hawaiian's complaint. The Bankruptcy Court denied the Company's motion to dismiss the Turnover Claim. The Company does not believe that this denial has a material impact on the Company's position in the lawsuit.

In June 2006, Hawaiian requested a preliminary injunction to prevent the Company from issuing new airline tickets for the Hawaiian inter-island market for a period of one year. In this request, Hawaiian alleges that initial discovery conducted reveals that the Company breached the Confidentiality Agreement. The Company denies these allegations and intends to vigorously defend against Hawaiian's request for a preliminary injunction. If Hawaiian is successful in obtaining a preliminary injunction, however, the Company's inter-island operations in Hawaii will effectively cease for one year. A hearing in this regard is scheduled for September 15, 2006.

In the event a preliminary injunction is issued in favor of Hawaiian, the Company believes the cessation and winding down of its operations in Hawaii could have an adverse impact on its financial condition or results of operations for a period of approximately six months following such event. The litigation and claims noted above are subject to inherent uncertainties and the Company's view of such matters may change in the future.

The Company is involved in various other legal proceedings and FAA civil action proceedings that the Company does not believe will have a material adverse effect upon the Company's business, financial condition or results of operations, although no assurance can be given to the ultimate outcome of any such proceedings.

19. Subsequent Event

In July 2006, the Company, through a newly formed wholly owned subsidiary, contributed \$15 million to the capital of a limited liability company. The purpose of the limited liability company is to make certain strategic investments.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis provides information which management believes is relevant to an assessment and understanding of the Company's results of operations and financial condition. The discussion should be read in conjunction with the Condensed Consolidated Financial Statements and the related notes thereto, and the Selected Financial Data and Operating Data contained elsewhere herein.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain statements including, but not limited to, information regarding the replacement, deployment, and acquisition of certain numbers and types of aircraft, and projected expenses associated therewith; costs of compliance with Federal Aviation Administration regulations and other rules and acts of Congress; the passing of taxes, fuel costs, inflation, and various expenses to the consumer; the relocation of certain operations of Mesa; the resolution of litigation in a favorable manner and certain projected financial obligations. These statements, in addition to statements made in conjunction with the words expect, anticipate, intend, plan, believe, seek, estimate, and similar expressions, are forward-looking statements within the meaning of the Safe Harbor provision of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements relate to future events or the future financial performance of Mesa and only reflect management's expectations and estimates. The following is a list of factors, among others, that could cause actual results to differ materially from the forward-looking statements: changing business conditions in certain market segments and industries; changes in Mesa's code-sharing relationships; the inability of US Airways, Delta Air Lines or United Airlines to pay their obligations under the code-share agreements; the ability of Delta Air Lines to reject our code-share agreements in bankruptcy; the inability to transition the planes we currently fly under our code-share agreement with Pre-Merger US Airways without undue cost and expense; an increase in competition along the routes Mesa operates or plans to operate; the inability to profitably operate our Hawaiian airline service; material delays in completion by the manufacturer of the ordered and yet-to-be delivered aircraft; availability and cost of funds for financing new aircraft; changes in general economic conditions; changes in fuel prices; changes in regional economic conditions; changes in Mesa's relationship with employees and the terms of future collective bargaining agreements; the impact of current and future laws; additional terrorist attacks; Congressional investigations, and governmental regulations affecting the airline industry and Mesa's operations; bureaucratic delays; amendments to existing legislation; consumers unwilling to incur greater costs for flights; unfavorable resolution of negotiations with municipalities for the leasing of facilities; and risks associated with the outcome of litigation. One or more of these or other factors may cause Mesa's actual results to differ materially from any forward-looking statement. Mesa is not undertaking any obligation to update any forward-looking statements contained in this Form 10-Q.

All references to we, our, us, or Mesa refer to Mesa Air Group, Inc. and its predecessors, direct and indirect subsidiaries and affiliates.

Investors should read the risks identified under Item 1.A. Risk Factors above for a more detailed discussion of these and other factors.

GENERAL

Executive Overview

General

Mesa is a holding company whose principle subsidiaries operate as regional air carriers providing scheduled passenger and airfreight service. As of June 30, 2006, we served 173 cities in 46 states, the District of Columbia, Canada and Mexico and operated a fleet of 185 aircraft with approximately 1,200 daily departures.

Approximately 99% of our consolidated passenger revenues for the quarter ended June 30, 2006 was derived from operations associated with code-share agreements. Our subsidiaries have code-share agreements with US Airways, United Airlines, Delta Air Lines and Midwest Airlines. Our remaining passenger revenues are derived from our independent operations.

In the third quarter of fiscal 2006, approximately 97% of our passenger revenue was associated with revenue-guarantee flying. The US Airways (regional jet and Dash-8), United (regional jet and Dash-8), and Delta (regional jet) code-share agreements are revenue-guarantee flying agreements. Under the terms of these flying agreements, the major carrier controls marketing, scheduling, ticketing, pricing and seat inventories. Our role is simply to operate our fleet in the safest and most reliable manner in exchange for fees paid under a generally fixed payment schedule. We receive a guaranteed payment based upon a fixed minimum monthly amount plus amounts related to departures and block hours flown in addition to direct reimbursement of expenses such as fuel, landing fees and insurance. We are also eligible to receive additional compensation based upon our performance under certain of our revenue-guarantee contracts. Among other advantages, revenue-guarantee arrangements reduce our exposure to fluctuations in passenger traffic and fare levels, as well as fuel prices. In the third quarter of fiscal 2006, approximately 98% of our fuel purchases were reimbursed under revenue-guarantee code-share agreements.

In the third quarter of fiscal 2006, approximately 3% of our passenger revenue was associated with pro-rate and independent flying. The US Airways (Beechcraft 1900D turboprop) and Midwest Airlines code-share agreements are pro-rate agreements, for which we received an allocated portion of each passenger's fare and we pay all of the costs of transporting the passenger.

In addition to carrying passengers, we carry freight and express packages on our passenger flights and have interline small cargo freight agreements with many other carriers. We also have contracts with the U.S. Postal Service for carriage of mail to the cities we serve and occasionally operate charter flights when our aircraft are not otherwise used for scheduled service.

Fleet

In June 2006, we began taking delivery of Dash-8 aircraft that will be flown by Freedom Airlines beginning in the fourth quarter of fiscal 2006 under a new agreement with Delta in support of their expanding operations at their New York-JFK hub.

Also in June 2006, we launched our independent, inter-island Hawaii service under the brand name *go!*, with three aircraft and doubled our schedule on June 30th when we added two additional aircraft. In June, *go!* had an overall completion factor of 100%, an on time arrival rate of 88.9%, and a load factor of 82.5%.

We also completed the transition of our 59 regional jets out of the US Airways operations into operation with United and Delta by placing 30 aircraft into revenue service with United (net of three lease returns) and 26 aircraft into revenue service with Delta. We are contractually committed to placing an additional four 50-seat regional jets into operation with Delta and expect to do so in the first quarter of fiscal 2007.

Code-Share Agreements

Freedom commenced operations with Delta in October 2005 and is contracted to operate 30 50-seat regional jet aircraft on routes throughout Delta's network. However, Delta has not yet assumed our code-share agreement in its bankruptcy proceedings and could choose to terminate our agreement at any time prior to its emergence from bankruptcy. The Company currently operates 26 ERJ-145 regional aircraft in revenue service for Delta.

In May 2005, we amended our code-sharing arrangement with United to allow us to put up to an additional 30 50-seat regional jet aircraft into the United Express system and extend the expiration dates under the existing code-share agreement with respect to certain

aircraft. In connection with the amendment, we made \$20 million in payments to United in the first quarter of fiscal 2006. We currently operate 72 aircraft in revenue service for United.

Summary of Financial Results

In the quarter ended June 30, 2006, Mesa Air Group recorded consolidated operating revenue of \$339.0 million, representing an increase of \$40.4 million, or 13.6%, from \$298.6 million in the quarter of the prior year. The Company also recorded consolidated net income of \$10.9 million in the third quarter of fiscal 2006, representing diluted earnings per share of \$0.25. This compares to consolidated net income of \$17.1 million or \$0.40 per share in the third quarter of fiscal 2005.

Operationally, the Company increased the number of aircraft in its fleet from 182 at June 30, 2005 to 185 at June 30, 2006. Despite increasing the number of aircraft in service, both ASM and block hours decreased quarter over quarter as a result of aircraft being out of service while transitioning from the US Airways system into the United and Delta systems.

The following tables set forth quarterly comparisons for the periods indicated below:

OPERATING DATA

RESULTS OF OPERATIONS***For the three months ended June 30, 2006 versus the three months ended June 30, 2005******Operating Revenues***

In the quarter ended June 30, 2006, operating revenue increased by \$40.4 million, or 13.6%, from \$298.6 million in the quarter ended June 30, 2005 to \$339.0 million in the quarter ended June 30, 2006. The increase in revenue is primarily attributable to a \$40.6 million increase in fuel reimbursements by our code-share partners at Mesa / Freedom compared to the quarter ended June 30, 2005. Under our revenue-guarantee code-share agreements, certain expenses such as fuel are a direct pass-through to our partners. As a result, any increase in the unit cost of these expenses results

in a corresponding increase in revenues. Revenue at Air Midwest / *go!* increased \$0.2 million with increases in passenger revenue of \$0.7 million offsetting a decrease in Essential Air Service (EAS) revenue of \$0.5 million. The increase in passenger revenue primarily was due to the launch of *go!* in June 2006. The decrease in EAS revenue is due to reductions in the number of cities served under the program.

Operating Expenses

Flight Operations

In the quarter ended June 30, 2006, flight operations expense increased \$14.6 million, or 18.7%, to \$92.9 million from \$78.3 million for the quarter ended June 30, 2005. On an ASM basis, flight operations expense increased 24.2% to 4.1 cents per ASM in the quarter ended June 30, 2006 from 3.3 cents per ASM in the quarter ended June 30, 2005. At Mesa / Freedom, flight operations expense increased \$16.2 million primarily due to a \$8.6 million increase in aircraft lease costs as a result of permanently financing 15 CRJ-900 aircraft as operating leases in the fourth quarter of fiscal 2005. Other increases include a \$3.6 million increase in pilot and flight attendant wages, a \$1.5 million increase in simulator rental fees and a \$0.6 million increase in crew lodging expenses. These increases are due to the additional regional jets in service and training costs associated with moving pilots from the Mesa certificate to the Freedom certificate as a result of the transition of aircraft from US Airways to Delta. These costs were partially offset by reduced flight operations expense in the other segment of \$1.0 million, which was primarily due to increased amortization of deferred credits, which reduced flight operations expense.

Fuel

In the quarter ended June 30, 2006, fuel expense increased \$40.6 million, or 49.8%, to \$122.0 million from \$81.4 million for the quarter ended June 30, 2005. On an ASM basis, fuel expense increased 51.4% to 5.3 cents per ASM in the quarter ended June 30, 2006 from 3.5 cents per ASM in the quarter ended June 30, 2005. Into-plane fuel cost in the second quarter increased 50% from \$1.54 per gallon in the third quarter of fiscal 2005 to \$2.31 per gallon in the third quarter of fiscal 2006, resulting in a \$40.3 million unfavorable price variance. Consumption was flat quarter over quarter resulting in a \$0.2 million unfavorable volume variance (excluding fuel used in other operations). In the quarter ended June 30, 2006, approximately 98% of our fuel costs were reimbursed by our code-share partners.

Maintenance Expense

In the quarter ended June 30, 2006, maintenance expense increased \$8.5 million, or 16.3%, to \$60.8 million from \$52.3 million for the quarter ended June 30, 2005. On an ASM basis, maintenance expense increased 22.7% to 2.7 cents per ASM in the quarter ended June 30, 2006 from 2.2 cents per ASM in the quarters ended June 30, 2005. At Mesa / Freedom, maintenance expense increased \$11.9 million. Included in the increase was a \$4.3 million increase in the cost of airframe checks due to timing these checks with aircraft transitions from the US Airways system into the United and Delta systems, a \$2.0 million increase in rotatable repair contract expenses as a result of moving rotatables for both the CRJ-700/900 fleet and the ERJ-145 fleet into these programs as part of the AAR sale in November 2005. Other increases included a \$1.6 million increase in other repair expenses, a \$1.2 million increase in expendable part usage, a \$1.1 million increase in wages and benefits and a \$1.0 million increase in facilities rent expense. These increases were offset by a \$2.6 million decrease in the Other category related to a reduction in inventory management fees.

Aircraft and Traffic Servicing

In the quarter ended June 30, 2006, aircraft and traffic servicing expense increased by \$3.7 million, or 21.3%, to \$20.9 million from \$17.2 million for the quarter ended June 30, 2005. On an ASM basis, aircraft and traffic servicing expense increased 28.6% to 0.9 cents per ASM in the quarter ended June 30, 2006 from 0.7 cents per ASM in the quarter ended June 30, 2005. The increase was primarily due to a \$3.6 million increase at Mesa / Freedom; which was comprised of a \$1.7 million increase in common use baggage expenses, \$0.5 million increase in landing fees, \$0.4 million increase in commissary expenses, \$0.4 million increase in TSA security costs and a \$0.4 million increase in baggage delivery costs. These increases were primarily driven by the transition of aircraft out of the US Airways hubs on the east coast into higher costing United and Delta hubs.

Promotion and Sales

In the quarter ended June 30, 2006, promotion and sales expense increased by \$0.3 million, or 38.9%, to \$1.3 million from \$1.0 million for the quarter ended June 30, 2005. On an ASM basis, promotion and sales expense increased from \$0.0 cents per ASM in the quarter ended June 30, 2005 to \$0.1 cent per ASM for the quarter ended June 30, 2006. The net increase in promotional expenses was due to a \$0.3 million increase at Air Midwest / *go!* The increase was comprised of \$0.6 million in promoting the launch of new inter-island Hawaiian service under the brand name *go!* The increase was offset by a \$0.3 million decrease in booking and franchise fees paid under our pro-rate agreements with our code-share partners caused by a decline in passengers carried under these agreements as a result of capacity reductions. We do not pay these fees under our regional jet revenue-guarantee contracts.

General and Administrative

In the quarter ended June 30, 2006, general and administrative expense decreased \$5.7 million, or 28.4%, to \$14.3 million from \$20.0 million for the quarter ended June 30, 2005. On an ASM basis, general and administrative expense decreased 33.3% to 0.6 cents per ASM in quarter ended June 30, 2006 from 0.9 cents per ASM in the quarter ended June 30, 2005. The net decrease included reductions in bad debt expense of \$7.4 million, medical insurance premium expenses of \$2.0 million and compensation expense of \$1.3 million. The reduction in bad debt expense was due to the reversal of allowances for receivables from the bankrupt US Airways as a result of the settlement of our bankruptcy claims. The reduction in medical premiums expense was due to the impact of increased employee contributions. The reduction in compensation expense was due to reduced bonuses being accrued in the third quarter of fiscal 2006, compared to the third quarter of fiscal 2005. These reductions were offset by increases in workers compensation expense of \$2.6 million, personal property tax expense of \$1.0 million and a \$0.4 million increase in

stock option expense as a result of the adoption of FASB 123(R). The increase in workers compensation expense is a result of higher loss development factors used to compute reserves. The increase in personal property tax expense was due to increases in our fleet of jet aircraft.

Depreciation and Amortization

In the quarter ended June 30, 2006, depreciation and amortization expense decreased \$2.6 million, or 22.4%, to \$9.0 million from \$11.6 million for the quarter ended June 30, 2005. On an ASM basis, depreciation expense decreased 20% to 0.4 cents per ASM in the quarter ended June 30, 2006 from 0.5 cents per ASM in the quarter ended June 30, 2005. The decrease is primarily due to a \$2.5 million reduction in depreciation expense at Mesa / Freedom as a result of permanently financing 15 CRJ-900 aircraft as operating leases in the fourth quarter of fiscal 2005.

Bankruptcy Settlement

In the quarter ended June 30, 2006, the Company determined that it would be receiving a minimum of \$15.3 million in value from US Airways as a settlement of its bankruptcy claim. As a result, we applied the expected proceeds to existing receivables and recorded the remaining amount of \$9.7 million as a bankruptcy settlement.

Interest Expense

In the quarter ended June 30, 2006, interest expense decreased \$2.2 million, or 18.5%, to \$9.4 million from \$11.6 million for the quarter ended June 30, 2005. On an ASM basis, interest expense decreased 20% to 0.4 cents per ASM in the quarter ended June 30, 2006 from 0.5 cents per ASM in the quarter ended June 30, 2005. The decrease in interest expense is primarily due a \$4.7 million reduction in interest expense as a result of permanently financing 15 CRJ-900 aircraft with operating leases in the fourth quarter of fiscal 2005, a \$1.0 million reduction in convertible debt interest expense as a result of the conversion from debt to equity and a \$0.3 million reduction in interest expense related to the financing of rotatable inventory that was retired in the first quarter of fiscal 2006. These decreases were partially offset by a \$3.9 million increase in interest expense on aircraft financing as a result of increases in variable interest rates.

Interest Income

In the quarter ended June 30, 2006, interest income increased \$2.8 million to \$3.6 million from \$0.8 million for the quarter ended June 30, 2005. The increase is due to increases in the rates of return on our portfolio of marketable securities.

Other Income (Expense)

In the quarter ended June 30, 2006, other income (expense) decreased \$5.4 million from income of \$1.8 million for the quarter ended June 30, 2005 to expense of (\$3.7) million for the quarter ended June 30, 2006. In the quarter ended June 30, 2006, other income (expense) is primarily comprised of \$3.5 million in unrealized losses on investment securities.

In the quarter ended June 30, 2005, other income (expense) is primarily comprised of investment income of \$1.9 million.

Income Taxes

In the quarter ended June 30, 2006, income tax expense decreased \$3.5 million, or 33.6%, to \$7.1 million from \$10.6 million for the quarter ended June 30, 2005. The effective tax rate increased from 38.3% for the quarter ended June 30, 2005 to 39.2% for the quarter ended June 30, 2006 mainly as a result of increased flying in states with higher tax rates.

For the nine months ended June 30, 2006 versus the nine months ended June 30, 2005

Operating Revenues

In the nine months ended June 30, 2006, operating revenue increased by \$147.5 million, or 17.8%, from \$827.2 million in the nine months ended June 30, 2005 to \$974.7 million in the nine months ended June 30, 2006. The increase in revenue is primarily attributable to a \$160.1 million increase in passenger revenue at Mesa / Freedom. The increase includes a \$120.6 million increase in fuel reimbursements by our code-share partners compared to the quarter ended June 30, 2005. Under our revenue-guarantee code-share agreements, certain expenses such as fuel are a direct pass-through to our partners. As a result, any increase in the unit cost of these expenses results in a corresponding increase in revenues. Also included in the increase in revenue is \$37.8 million in revenue associated with the operation of seven additional regional jets flown by Mesa / Freedom compared to the nine months ended June 30,

2005. This increase was partially offset by a net decrease in revenue of approximately \$9.8 million at Air Midwest / *go!* The decrease in revenue at Air Midwest / *go!* was primarily comprised of a \$6.9 million net decrease in passenger revenue and a \$2.8 million decrease in EAS subsidies. The decrease in passenger revenue was due to reduced Beechcraft 1900D capacity from 24 aircraft as of June 30, 2005 to 20 aircraft as of June 30, 2006 as a result of leasing these aircraft to other carriers. The decrease in EAS revenue is due to reductions in the number of cities served under the program.

Operating Expenses

Flight Operations

In the nine months ended June 30, 2006, flight operations expense increased \$37.0 million, or 15.6%, to \$273.6 million from \$236.6 million for the nine months ended June 30, 2005. On an ASM basis, flight operations expense increased 8.1% to 4.0 cents per ASM in the nine months ended June 30, 2006 from 3.7 cents per ASM in the nine months ended June 30, 2005. At Mesa / Freedom, flight operations expense increased \$44.3 million primarily due to a \$27.3 million increase in aircraft lease costs as a result of permanently financing 15 CRJ-900 aircraft as operating leases in the fourth quarter of fiscal 2005. Other increases include a \$9.6 million increase in pilot and flight attendant wages, a \$2.1 million increase in simulator rental fees and a \$1.7 million increase in crew lodging expenses. These increases are due to the additional regional jets in service, training costs associated with moving pilots from the Mesa certificate to the Freedom certificate as a result the transition of aircraft from US Airways to Delta. These costs were partially offset by reduced flight operations expense in the other segment of \$3.0 million, which was primarily due to increased amortization of deferred credits, which reduced flight operations expense.

Fuel

In the nine months ended June 30, 2006, fuel expense increased \$116.3 million, or 54.4%, to \$330.0 million from \$213.7 million for the nine months ended June 30, 2005. On an ASM basis, fuel expense increased 44.1% to 4.9 cents per ASM in the nine months ended June 30, 2006 from 3.4 cents per ASM in the nine months ended June 30, 2005. Into-plane fuel cost in the nine months ended June 30, 2006 increased 49% from \$1.43 per gallon in the nine months ended June 30, 2005 to \$2.13 per gallon in the nine months ended June 30, 2006, resulting in a \$104.3 million unfavorable price variance. Consumption increased 4% in the nine months ended June 30, 2006 resulting in a \$11.8 million unfavorable volume variance (excluding fuel used in other operations). In the nine months ended June 30, 2006, approximately 98% of our fuel costs were reimbursed by our code-share partners.

Maintenance Expense

In the nine months ended June 30, 2006, maintenance expense increased \$16.2 million, or 10.9%, to \$164.0 million from \$147.8 million for the nine months ended June 30, 2005. On an ASM basis, maintenance expense increased 4.3% to 2.4 cents per ASM in the nine months ended June 30, 2006 from 2.3 cents per ASM in the nine months ended June 30, 2005. At Mesa / Freedom, maintenance expense increased \$24.7 million. Included in the increase was a \$8.3 million increase in the cost of airframe checks due to timing these checks with aircraft transitions from the US Airways system into the United and Delta systems, a \$6.1 million increase in rotatable repair contract expenses as a result of moving rotatables for both the CRJ-700/900 fleet and the ERJ-145 fleet into these programs as part of the AAR sale in November 2005. Other increases included a \$3.0 million increase in other repair expenses, a \$1.2 million increase in wages and benefits and a \$2.0 million increase in facilities rent expense. Offsetting these increases was a \$1.1 million decrease in expendable part usage primarily due to timing of airframe checks. These increases were offset by a \$5.7 million decrease at Air Midwest as a result of increased maintenance in fiscal 2005 (incurred to prepare aircraft for lease) and a \$2.9 million decrease in the other category related to a reduction in inventory management fees.

Aircraft and Traffic Servicing

In the nine months ended June 30, 2006, aircraft and traffic servicing expense increased by \$3.8 million, or 7.4%, to \$55.4 million from \$51.6 million for the nine months ended June 30, 2005. On an ASM basis, aircraft and traffic servicing expense remained the same at 0.8 cents per ASM in the nine months ended June 30, 2006 and 0.8 cents per ASM in the nine months ended June 30, 2005. The increase was primarily due to a \$5.5 million increase at Mesa / Freedom; which was comprised of a \$2.7 million increase in common use baggage expenses, \$1.5 million increase in landing fees, \$1.3 million increase in TSA security costs and a \$1.0 million increase in baggage delivery costs. These

increases were offset by a \$1.2 million decrease in wage and related benefit costs. The increases were primarily driven by the transition of aircraft out of the US Airways hubs on the east coast into higher costing United and Delta hubs. The decrease in wages and benefits is due to outsourcing gate and ramp services to other carriers. The

increase at Mesa / Freedom was offset by a \$1.7 million decrease at Air Midwest / *go!*, primarily a result of reductions in capacity (leasing aircraft to other carriers).

Promotion and Sales

In the nine months ended June 30, 2006, promotion and sales expense decreased by \$0.1 million, or 4.2%, to \$3.0 million from \$3.1 million for the nine months ended June 30, 2005. On an ASM basis, promotion and sales expense equates to less than \$0.1 cent. The net decrease in promotional expenses was in the Air Midwest / *go!* segment, where amounts spent promoting the launch of new inter-island Hawaiian service under the brand name *go!* were offset by a decrease in booking and franchise fees paid under our pro-rate agreements with our code-share partners caused by a decline in passengers carried under these agreements as a result of capacity reductions. We do not pay these fees under our regional jet revenue-guarantee contracts.

General and Administrative

In the nine months ended June 30, 2006, general and administrative expense decreased \$4.0 million, or 7.8%, to \$47.2 million from \$51.2 million for the nine months ended June 30, 2005. On an ASM basis, general and administrative expense decreased 12.5% to 0.7 cents per ASM in nine months ended June 30, 2006 from 0.8 cents per ASM in the nine months ended June 30, 2005. The net decrease included reductions in bad debt expense of \$10.7 million, medical insurance premium expenses of \$2.4 million and compensation expense of \$1.4 million. The reduction in bad debt expense was primarily due to the reversal of allowances for receivables from the bankrupt US Airways as a result of the settlement of our bankruptcy claims. The reduction in medical premiums expense was due to the impact of increased employee contributions. The reduction in compensation expense was due to reduced bonuses being accrued in the third quarter of fiscal 2006, compared to the third quarter of fiscal 2005. These reductions were offset by increases in workers compensation expense of \$3.3 million, personal property tax expense of \$3.1 million and a \$1.9 million increase in stock option expense as a result of the adoption of FASB 123(R). The increase in workers compensation expense is a result of higher loss development factors used to compute reserves. The increase in personal property tax expense was due to increases in our fleet of jet aircraft.

Depreciation and Amortization

In the nine months ended June 30, 2006, depreciation and amortization expense decreased \$3.9 million, or 12.5%, to \$27.0 million from \$30.9 million for the nine months ended June 30, 2005. On an ASM basis, depreciation expense decreased 20% to 0.4 cents per ASM in the nine months ended June 30, 2006 from 0.5 cents per ASM in the nine months ended June 30, 2005. The decrease was primarily due to a \$3.9 million reduction in depreciation expense at Mesa / Freedom as a result of permanently financing 15 CRJ-900 aircraft as operating leases in the fourth quarter of fiscal 2005.

Bankruptcy Settlement

In the quarter ended June 30, 2006, the Company determined that it would be receiving a minimum of \$15.3 million in value from US Airways as a settlement of its bankruptcy claim. As a result, we applied the expected proceeds to existing receivables and recorded the remaining amount of \$9.7 million as a bankruptcy settlement.

Impairment and Restructuring Charges (Credits)

In the nine months ended June 30, 2005, we reversed \$1.3 million in reserves for lease and lease return costs related to two Shorts 360 aircraft that we returned to the lessor in January 2005.

Interest Expense

In the nine months ended June 30, 2006, interest expense decreased \$2.8 million, or 9.1%, to \$27.7 million from \$30.5 million for the nine months ended June 30, 2005. On an ASM basis, interest expense decreased 20% to 0.4 cents per ASM in the nine months ended June 30, 2006 from 0.5 cents per ASM in the nine months ended June 30, 2005. The decrease in interest expense is primarily due a \$7.0 million reduction in interest expense as a result of permanently financing 15 CRJ-900 aircraft with operating leases in the fourth quarter of fiscal 2005, a \$1.8 million reduction in convertible debt interest expense as a result of the conversion from debt to equity and a \$0.7 million reduction in interest expense related to the financing of rotatable inventory that was retired in the first quarter

of fiscal 2006. These decreases were partially offset by a \$6.9 million increase in interest expense on aircraft financing as a result of increases in variable interest rates.

Interest Income

In the nine months ended June 30, 2006, interest income increased \$7.4 million to \$9.2 million from \$1.8 million for the nine months ended June 30, 2005. The increase is due to increases in the rates of return on our portfolio of marketable securities.

Other Income (Expense)

In the nine months ended June 30, 2006, other income (expense) decreased \$21.0 million from income of \$3.0 million for the nine months ended June 30, 2005 to an expense of \$18.0 million for the nine months ended June 30, 2006. In the nine months ended June 30, 2006, other income (expense) is primarily comprised of \$13.1 million of debt conversion costs and \$4.3 million in losses on investment securities.

In the nine months ended June 30, 2005, other income (expense) is primarily comprised of investment income of \$4.0 million, \$2.4 million in insurance proceeds on the Company's EMB120 aircraft and \$1.0 million in income from a settlement of a dispute with a vendor, offset by \$4.1 million in lease return costs on the EMB120s.

Income Taxes

In the nine months ended June 30, 2006, income tax expense decreased \$7.5 million, or 28.8%, to \$18.5 million from \$26.0 million for the nine months ended June 30, 2005. The effective tax rate increased from 38.3% for the nine months ended June 30, 2005 to 38.8% for the nine months ended June 30, 2006 mainly as a result of increased flying in states with higher tax rates.

LIQUIDITY AND CAPITAL RESOURCES

Sources and Uses of Cash

At June 30, 2006, we had cash, cash equivalents, and marketable securities (including restricted cash) of \$269.7 million, compared to \$280.4 million at September 30, 2005. Our cash and cash equivalents and marketable securities are intended to be used for working capital, capital expenditures, acquisitions, and to fund our obligations with respect to regional jet deliveries.

Sources of cash included \$26.6 million provided from operations (excluding \$53.6 million in net purchases and \$4.6 million in unrealized losses on marketable securities), \$18.7 million from the sale of assets including the sale and leaseback of rotatable parts and \$6.0 million from exercise of stock options.

Uses of cash included \$15.9 million to retire our financing obligation for rotatable spare parts, principal payments of \$22.7 million and capital expenditures of \$26.5 million attributable to the expansion of our regional jet fleet and related provisioning of rotatable inventory to support the additional jets.

As of June 30, 2006, we had receivables of approximately \$51.0 million (net of an allowance for doubtful accounts of \$3.9 million), compared to receivables of approximately \$29.0 million (net of an allowance for doubtful accounts of \$8.9 million) as of September 30, 2005. The amounts due consist primarily of receivables due from our code-share partners, subsidy payments due from Raytheon, Federal excise tax refunds on fuel, insurance proceeds, the bankruptcy settlement, proceeds from the sale of inventory, manufacturers credits, credit card holdback amounts and passenger ticket receivables due through the Airline Clearing House. Accounts receivable from our code-share partners was 40% of total gross accounts receivable at June 30, 2006.

Code-Share Partner in Bankruptcy

On September 14, 2005, Delta Air Lines filed for reorganization under Chapter 11 of the US Bankruptcy Code. Delta has not yet assumed our code-share agreement in its bankruptcy proceeding and could choose to seek to renegotiate the agreement on terms less favorable to us or terminate this agreement. As of the date of this report, we believe that there is a reasonable likelihood that Delta will assume our code-share agreement in such proceedings. This belief is based primarily on the continued expansion of the aircraft we fly under our agreement with Delta and our current business relations with them. Notwithstanding this belief, no assurance can be given that Delta will assume our code-share agreement or otherwise not seek to renegotiate the terms of the agreement. If Delta and the

Company did renegotiate the terms of the existing agreement, our profitability would be impacted and liquidity would be reduced. If Delta rejected our code-share agreement in its bankruptcy proceedings, we would seek to mitigate the effect of such event by seeking alternative code-share partners, subleasing the aircraft to another carrier or carriers or parking the aircraft. These options could have a material adverse effect on our liquidity, financial condition and results of operations.

Sale Leaseback of Rotable Spare Parts

In August 2005, the Company entered into a ten-year agreement with AAR Corp. (the *AAR Agreement*), for the management and repair of certain of the Company's CRJ-200, -700, -900 and ERJ-145 aircraft rotable spare parts inventory. Under the agreement, the Company sold certain existing spare parts inventory to AAR for \$39.5 million in cash and \$21.5 million in notes receivable to be paid over four years. The AAR agreement was contingent upon the Company terminating an agreement for the Company's CRJ-200 aircraft rotable spare parts inventory with GE Capital Aviation Services (*GECAS*) and including these rotatables in the arrangement. The Company terminated the GECAS agreement and finalized the AAR agreement in November 2005. Upon entering into the agreement, the Company received \$22.8 million, which was recorded as a deposit at September 30, 2005, pending the termination of the GECAS agreement. An additional \$15.8 million was received in the quarter ended December 31, 2005. Under the agreement, the Company is required to pay AAR a monthly fee based upon flight hours for access to and maintenance and servicing of the inventory. The agreement also contains certain minimum monthly payments that Mesa must make to AAR. Based on this arrangement, the Company accounts for the transaction as a service agreement and an operating lease of rotable spare parts with AAR. The sale of the rotable spare parts resulted in a gain of \$2.1 million, which has been deferred and is being recognized over the term of the agreement. At termination, the Company may elect to purchase the covered inventory at fair value, but is not contractually obligated to do so.

In June 2006, the Company entered into a separate two-year agreement with AAR, for the management and repair of the Company's CRJ-200 aircraft rotable spare parts inventory associated with its *go!* operations. Under the agreement, the Company transferred certain existing spare parts inventory to AAR for \$1.2 million in cash. AAR is required to purchase an additional \$2.9 million in rotable spare parts to support the agreement. Under the agreement, the Company is required to pay AAR a monthly fee based upon flight hours for access to and maintenance of the inventory. At termination, the Company has guaranteed the fair value of the underlying rotatables. Based on this arrangement, the Company accounts for the transaction as a financing arrangement, thus recording both the rotable spare parts inventory as an asset and the related payable to AAR as a liability.

Operating Leases

We have significant long-term lease obligations primarily relating to our aircraft fleet. These leases are classified as operating leases and are therefore excluded from our condensed consolidated balance sheets. At June 30, 2006, we leased 146 aircraft with remaining lease terms ranging from one to 18 years. Future minimum lease payments due under all long-term operating leases were approximately \$2.3 billion at June 30, 2006.

3.625% Senior Convertible Notes due 2024

In February 2004, we completed the private placement of senior convertible notes due 2024, which resulted in gross proceeds of \$100.0 million (\$97.0 million net). Cash interest is payable on the notes at the rate of 2.115% per year on the aggregate amount due at maturity, payable semiannually in arrears on February 10 and August 10 of each year, beginning August 10, 2004, until February 10, 2009. After that date, we will not pay cash interest on the notes prior to maturity, and the notes will begin accruing original issue discount at a rate of 3.625% until maturity. On February 10, 2024, the maturity date of the notes, the principal amount of each note will be \$1,000. The aggregate amount due at maturity, including interest accrued from February 10, 2009, will be \$171.4 million. Each of our wholly owned domestic subsidiaries guarantees the notes on an unsecured senior basis. The notes and the note guarantees are senior unsecured obligations and rank equally with our existing and future senior unsecured indebtedness. The notes and the note guarantees are junior to the secured obligations of our wholly owned subsidiaries to the extent of the collateral pledged.

The notes are convertible into shares of our common stock at a conversion rate of 40.3737 shares per \$1,000 in principal amount at maturity of the notes. This conversion rate is subject to adjustment in certain circumstances. Holders of the notes may convert their notes only if: (i) after June 30, 2004, the sale price of our common stock

exceeds 110% of the accreted conversion price for at least 20 trading days in the 30 consecutive trading days ending on the last trading day of the preceding quarter; (ii) on or prior to February 10, 2019, the trading price for the notes falls below certain thresholds; (iii) the notes have been called for redemption; or (iv) specified corporate transactions occur. We may redeem the notes, in whole or in part, beginning on February 10, 2009, at a redemption price equal to the issue price, plus accrued original issue discount, plus any accrued and unpaid cash interest. The holders of the notes may require us to repurchase the notes on February 10, 2009 at a price of \$583.40 per note plus accrued and unpaid cash interest, if any, on

February 10, 2014 at a price of \$698.20 per note plus accrued and unpaid cash interest, if any, and on February 10, 2019 at a price of \$835.58 per note plus accrued and unpaid cash interest, if any.

6.25% Senior Convertible Notes Due 2023

In June 2003, we completed the private placement of senior convertible notes due 2023, which resulted in gross proceeds of \$100.1 million (\$96.9 million net). Cash interest is payable on the notes at the rate of 2.4829% per year on the aggregate amount due at maturity, payable semiannually in arrears on June 16 and December 16 of each year, beginning December 16, 2003, until June 16, 2008. After that date, we will not pay cash interest on the notes prior to maturity, and the notes will begin accruing original issue discount at a rate of 6.25% until maturity. On June 16, 2023, the maturity date of the notes, the principal amount of each note will be \$1,000. The aggregate amount due at maturity, including interest accrued from June 16, 2008, will be \$252 million. Each of our wholly owned domestic subsidiaries guarantees the notes on an unsecured senior basis. The notes and the note guarantees are senior unsecured obligations and rank equally with our existing and future senior unsecured indebtedness. The notes and the note guarantees are junior to the secured obligations of our wholly owned subsidiaries to the extent of the collateral pledged.

The notes are convertible into shares of our common stock at a conversion rate of 39.727 shares per \$1,000 in principal amount at maturity of the notes. This conversion rate is subject to adjustment in certain circumstances. Holders of the notes may convert their notes only if: (i) the sale price of our common stock exceeds 110% of the accreted conversion price for at least 20 trading days in the 30 consecutive trading days ending on the last trading day of the preceding quarter; (ii) prior to June 16, 2018, the trading price for the notes falls below certain thresholds; (iii) the notes have been called for redemption; or (iv) specified corporate transactions occur. The Company may redeem the notes, in whole or in part, beginning on June 16, 2008, at a redemption price equal to the issue price, plus accrued original issue discount, plus any accrued and unpaid cash interest. The holders of the notes may require the Company to repurchase the notes on June 16, 2008 at a price of \$397.27 per note plus accrued and unpaid cash interest, if any, on June 16, 2013 at a price of \$540.41 per note plus accrued and unpaid cash interest, if any, and on June 16, 2018 at a price of \$735.13 per note plus accrued and unpaid cash interest, if any.

During the second quarter of fiscal 2006, holders of \$144.8 million in aggregate principal amount at maturity (\$57.5 million carrying amount) of our 2023 notes converted into shares of Mesa common stock. In connection with these conversions, we issued an aggregate of 5,751,121 shares of Mesa common stock and paid approximately \$10.5 million to these noteholders. Under the terms of the notes, each \$1,000 of aggregate principal amount at maturity of notes is convertible into 39.727 shares of Mesa common stock at the option of the noteholders under certain circumstances. The aggregate outstanding principal amount of the notes at maturity prior to these conversions was \$240 million. The shares of common stock issuable upon conversion of the notes have previously been included in the calculation of diluted earnings per share. Consequently, issuance of the shares will not be further dilutive to reported diluted earnings per share.

Interim and Permanent Aircraft Financing Arrangements

We had three aircraft on interim financing with the manufacturer at June 30, 2006. Under interim financing arrangements, we take delivery and title to the aircraft prior to securing permanent financing and the acquisition of the aircraft is accounted for as a purchase with debt financing. Accordingly, we reflect the aircraft and debt under interim financing on our condensed consolidated balance sheet during the interim financing period. After taking delivery of the aircraft, it is our intention to permanently finance the aircraft as an operating lease through a sale and leaseback transaction with an independent third-party lessor. Upon permanent financing, the proceeds are used to retire the notes payable to the manufacturer. Any gain recognized on the sale and leaseback transaction is deferred and amortized over the life of the lease.

At June 30, 2006 and September 30, 2005, the Company had \$82.1 million and \$54.6 million, respectively, in notes payable to an aircraft manufacturer for aircraft on interim financing. These interim financings agreements are six months in length and provide for monthly interest only payments at LIBOR plus three percent. The current interim financing agreement with the manufacturer provides for us to have a maximum of 15 aircraft on interim financing at a given time. Subsequent to June 30, 2006, the Company began making principal payments on these notes in the amount of \$0.1 million per aircraft per month.

Other Indebtedness and Obligations

In 2004, we permanently financed 11 CRJ-900 and five CRJ-700 aircraft with debt. The current outstanding balance of \$334.3 million bears interest at the monthly LIBOR plus three percent and requires monthly principal and interest payments.

Edgar Filing: MESA AIR GROUP INC - Form 10-Q

Payments under operating leases:							
Cash aircraft rental payments(2)	65,210	226,012	203,673	184,229	182,541	1,427,751	2,289,416
Lease payments on equipment and operating facilities	338	1,351	1,392	962	947	2,154	7,144
Total lease payments	65,548	227,363	205,065	185,191	183,488	1,429,905	2,296,560
Future aircraft acquisition costs(3)					175,000		175,000
Rotable inventory financing commitments(4)	150	587	563	540	2,241		4,081
Minimum payments due under rotable spare parts maintenance agreement	5,554	23,127	26,650	29,371	32,225	169,090	286,017
Total	\$ 93,4112	\$ 330,114	\$ 308,705	\$ 287,176	\$ 479,100	\$ 2,397,022	\$ 3,895,528

- (1) Represents the principal and interest on notes payable to the manufacturer for interim financed aircraft. For purposes of this schedule, we have assumed that aircraft on interim financing are converted to permanent financing as debt upon the expiration of the notes with future maturities included on this line.
- (2) Aircraft ownership costs, including depreciation and interest expense on owned aircraft and rental payments on operating leased aircraft, of aircraft flown pursuant to our guaranteed-revenue agreements are reimbursed by the applicable code-share partner.
- (3) Represents the estimated cost of commitments to acquire CRJ-900 aircraft.
- (4) Represents the principal and interest related to financed rotatable spare parts

inventory.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations is based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. In connection with the preparation of these financial statements, we are required to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue, and expenses, and related disclosure of contingent liabilities. On an ongoing basis, we evaluate our estimates, including those related to revenue recognition, the allowance for doubtful accounts, medical claims reserve, valuation of assets held for sale and costs to return aircraft and a valuation allowance for certain deferred tax assets. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances. Such historical experience and assumptions form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We have identified the accounting policies below as critical to our business operations and the understanding of our results of operations. The impact of these policies on our business operations is discussed throughout Management's Discussion and Analysis of Financial Condition and Results of Operations where such policies affect our reported and expected financial results. The discussion below is not intended to be a comprehensive list of our accounting policies. For a detailed discussion on the application of these and other accounting policies, see Note 1 in the Notes to the Condensed Consolidated Financial Statements for the year ended September 30, 2005, which contains accounting policies and other disclosures required by accounting principles generally accepted in the United States of America.

Revenue Recognition

The US Airways, United and Delta regional jet code-share agreements are revenue-guarantee flying agreements. Under a revenue-guarantee arrangement, the major airline generally pays a fixed monthly minimum amount, plus certain additional amounts based upon the number of flights flown and block hours performed. The contracts also include reimbursement of certain costs incurred by us in performing flight services. These costs, known as pass-through costs, may include aircraft ownership costs, passenger and hull insurance, aircraft property taxes as well as fuel, landing fees and catering. The contracts also include a profit component that may be determined based on a percentage of profits on the Mesa flown flights, a profit margin on certain reimbursable costs as well as a profit margin based on certain operational benchmarks. We recognize revenue under our revenue-guarantee agreements when the transportation is provided. The majority of the revenue under these contracts is known at the end of the accounting period and is booked as actual. We perform an estimate of the profit component based upon the information available at the end of the accounting period. All revenue recognized under these contracts is presented at the gross amount billed.

Under our revenue-guarantee agreements with US Airways, United and Delta, we are reimbursed under a fixed rate per block-hour plus an amount per aircraft designed to reimburse us for certain aircraft ownership costs. In accordance with Emerging Issues Task Force Issue No. 01-08, *Determining Whether an Arrangement Contains a Lease*, we have concluded that a component of our revenue under the agreement discussed above is rental income, inasmuch as the agreement identifies the right of use of a specific type and number of aircraft over a stated period of time. The amount deemed to be rental income during the quarters ended June 30, 2006 and 2005 was \$62.5 million and \$60.7 million, respectively. The amount deemed to be rental income during the nine months ended June 30, 2006 and 2005 was \$185.4 million and \$174.8 million, respectively. These amounts are included in passenger revenue on our condensed consolidated statements of income.

In connection with providing service under our revenue-guarantee agreement with Pre-Merger US Airways, our fuel reimbursement is capped at \$0.85 per gallon. Under this agreement, we have the option to purchase fuel from a subsidiary of US Airways at the capped rate. As a result, amounts included in revenue for fuel reimbursement and expense for fuel cost may not

represent market rates for fuel for our Pre-Merger US Airways flying. We purchased 0.9 million gallons and 17.2 million gallons of fuel under this arrangement in the quarters ended June 30, 2006 and 2005, respectively. We purchased 13.9 million gallons and 49.7 million gallons of fuel under this arrangement in the nine months ended June 30, 2006 and 2005, respectively.

The US Airways and Midwest Airlines B1900D turboprop code-share agreements are pro-rate agreements. Under a prorate agreement, we receive a percentage of the passenger's fare based on a standard industry formula that allocates revenue based on the percentage of transportation provided. Revenue from our pro-rate agreements and our independent operation is recognized when transportation is provided. Tickets sold but not yet used are included in air traffic liability on the condensed consolidated balance sheets.

We also receive subsidies for providing scheduled air service to certain small or rural communities. Such revenue is recognized in the period in which the air service is provided. The amount of the subsidy payments is determined by the United States Department of Transportation on the basis of its evaluation of the amount of revenue needed to meet operating expenses and to provide a reasonable return on investment with respect to eligible routes. EAS rates are normally set for two-year contract periods for each city.

Allowance for Doubtful Accounts

Amounts billed by us under revenue guarantee arrangements are subject to our interpretation of the applicable code-share agreement and are subject to audit by our code-share partners. Periodically our code-share partners dispute amounts billed and pay amounts less than the amount billed. Ultimate collection of the remaining amounts not only depends upon Mesa prevailing under audit, but also upon the financial well-being of the code-share partner. As such, we periodically review amounts past due and records a reserve for amounts estimated to be uncollectible. The allowance for doubtful accounts was \$3.9 million and \$8.9 million at June 30, 2006 and September 30, 2005, respectively. If our actual ability to collect these receivables and the actual financial viability of our partners is materially different than estimated, the Company's estimate of the allowance could be materially understated or overstated.

Aircraft Leases

The majority of our aircraft are leased from third parties. In order to determine the proper classification of a lease as either an operating lease or a capital lease, we must make certain estimates at the inception of the lease relating to the economic useful life and the fair value of an asset as well as select an appropriate discount rate to be used in discounting future lease payments. These estimates are utilized by management in making computations as required by existing accounting standards that determine whether the lease is classified as an operating lease or a capital lease. All of our aircraft leases have been classified as operating leases, which results in rental payments being charged to expense over the terms of the related leases. Additionally, operating leases are not reflected in our condensed consolidated balance sheet and accordingly, neither a lease asset nor an obligation for future lease payments is reflected in our condensed consolidated balance sheet.

Accrued Health Care Costs

We are currently self-insured up to a cap for health care costs and as such, a reserve for the cost of claims that have not been paid as of the balance sheet date is estimated. Our estimate of this reserve is based upon historical claim experience and upon the recommendations of our health care provider. At June 30, 2006, we accrued \$2.7 million for the cost of future health care claims. If the ultimate development of these claims is significantly different than those that have been estimated, the accrual for future health care claims could be materially overstated or understated.

Accrued Worker's Compensation Costs

Beginning in fiscal 2005, we implemented a new worker's compensation program. Under the program, we are self-insured up to a cap for worker's compensation claims and as such, a reserve for the cost of claims that have not been paid as of the balance sheet date is estimated. Our estimate of this reserve is based upon historical claim experience and upon the recommendations of our third-party administrator. At June 30, 2006, we accrued \$3.8 million for the cost of worker's compensation claims. If the ultimate development of these claims is significantly different than those that have been estimated, the accrual for future worker's compensation claims could be materially overstated or understated.

Long-lived Assets, Aircraft and Parts Held for Sale

Property and equipment are stated at cost and depreciated over their estimated useful lives to their estimated salvage values using the straight-line method. Long-lived assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the related carrying amount may be impaired. Under the provisions of Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the Company records an impairment loss if

the undiscounted future cash flows are found to be less than the carrying amount of the asset. If an impairment loss has occurred, a charge is recorded to reduce the carrying amount of the asset to fair value. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to sell.

Valuation of Deferred Tax Assets

We record deferred tax assets for the value of benefits expected to be realized from the utilization of alternative minimum tax credit carryforwards and state and federal net operating loss carryforwards. We periodically review these assets for realizability based upon expected taxable income in the applicable taxing jurisdictions. To the extent we believe some portion of the benefit may not be realizable, an estimate of the unrealized portion is made and an allowance is recorded. At June 30, 2006, we had a valuation allowance of \$0.4 million for certain state net operating loss carryforwards because we believe we will not be able to generate sufficient taxable income in these jurisdictions in the future to realize the benefits of these recorded deferred tax assets. We believe we will generate sufficient taxable income in the future to realize the benefits of our other deferred tax assets. This belief is based upon the Company having had pretax income in fiscal 2005, 2004 and 2003 and we have taken steps to minimize the financial impact of our unprofitable subsidiaries. Realization of these deferred tax assets is dependent upon generating sufficient taxable income prior to expiration of any net operating loss carryforwards. Although realization is not assured, management believes it is more likely than not that the remaining, recorded deferred tax assets will be realized. If the ultimate realization of these deferred tax assets is significantly different from our expectations, the value of its deferred tax assets could be materially overstated.

AIRCRAFT

The following table lists the aircraft owned and leased by Mesa for scheduled operations as of June 30, 2006:

Type of Aircraft	Owned	Interim Financed	Leased	Total	Operating on June 30, 2006	Passenger Capacity
Canadair 200/100 Regional Jet	2		58	60	60	50
Canadair 700 Regional Jet	5		10	15	15	64
Canadair 900 Regional Jet	11	3	24	38	38	86
Embraer 145 Regional Jet			36	36	36	50
Beechcraft 1900D	34			34	20	19
Dash 8-200			16	16	16	37
Embraer EMB 120			2	2		30
Total	52	3	146	201	185	

CRJ Program

As of June 30, 2006, we operated 113 Canadair Regional Jets (60 CRJ-200/100, 15 CRJ-700 and 38 CRJ-900s).

In January 2004, we exercised options to purchase 20 CRJ-900 aircraft (seven of which can be converted to CRJ-700 aircraft). To date, we have taken delivery of 13 CRJ-900 aircraft under the exercise of these options. We also have an option to acquire an additional 60 CRJ-700 or CRJ-900 regional jets in the future.

In June 2006, we launched inter-island service in Hawaii with five CRJ-200s under short-term operating leases.

ERJ Program

As of June 30, 2006, we operated 36 Embraer 145 aircraft.

Beechcraft 1900D

As of June 30, 2006, we owned 34 Beechcraft 1900D aircraft and were operating 20 of these aircraft. We lease four of our Beechcraft 1900D to Gulfstream International Airlines, a regional turboprop air carrier based in Ft. Lauderdale, Florida and lease an additional ten Beechcraft 1900D aircraft to Big Sky Transportation Co., a regional turboprop carrier based in Billings, Montana (Big Sky).

Dash-8

As of June 30, 2006, we operated 16 leased Dash-8 aircraft.

In the second quarter of fiscal 2006, we announced that we will add 12 Dash-8 aircraft into service out of New York's JFK airport under our current code-share agreement with Delta. We have taken delivery of three of these aircraft as of June 30, 2006, and

anticipate placing all the aircraft into service during our fiscal fourth quarter. We are currently in negotiations to lease these aircraft under short-term operating leases.

Aircraft Financing Relationships with the Manufacturer

We had three aircraft on interim financing with the manufacturer at June 30, 2006. Under interim financing arrangements, we take delivery and title to the aircraft prior to securing permanent financing and the acquisition of the aircraft is accounted for as a purchase with debt financing. Accordingly, the Company reflects the aircraft and debt under interim financing on our condensed consolidated balance sheet during the interim financing period. After taking delivery of the aircraft, it is our intention to permanently finance the aircraft as an operating lease through a sale and leaseback transaction with an independent third-party lessor. Upon permanent financing, the proceeds are used to retire the notes payable to the manufacturer. Any gain recognized on the sale and leaseback transaction is deferred and amortized over the life of the lease.

At June 30, 2006 and September 30, 2005, we had \$82.1 million and \$54.6 million, respectively, in notes payable to an aircraft manufacturer for aircraft on interim financing. These interim financings agreements are typically six months in length and provide for monthly interest only payments at LIBOR plus three percent. The current interim financing agreement with the manufacturer provides for Mesa to have a maximum of 15 aircraft on interim financing at a given time. Subsequent to June 30, 2006, the Company began making principal payments on these notes in the amount of \$0.1 million per aircraft per month.

Item 3. *Qualitative and Quantitative Disclosure about Market Risk.*

There have been no material changes in our market risk since September 30, 2005.

Item 4. *Controls and Procedures.*

In accordance with Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the Exchange Act), as of the end of the period covered by this *Quarterly Report on Form 10-Q*, the Company's management evaluated, with the participation of the Company's principal executive officer and principal financial officer, the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Exchange Act). Based on their evaluation of these disclosure controls and procedures, the Company's chairman of the board and chief executive officer and the Company's executive vice president and chief financial officer have concluded that the disclosure controls and procedures were effective as of the date of such evaluation to ensure that material information relating to the Company, including its consolidated subsidiaries, was made known to them by others within those entities, particularly during the period in which this *Quarterly Report on Form 10-Q* was being prepared.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2006, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

The Company is in the process of implementing and documenting additional controls over the preparation of its condensed consolidated statement of cash flows, as a result of improperly presenting certain changes in other assets within its consolidated statements of cash flows for the year ended September 30, 2005 and its condensed consolidated statement of cash flows for the quarter ended December 31, 2005.

PART II. OTHER INFORMATION

Item 1. *Legal Proceedings.*

In February 2006, Hawaiian Airlines, Inc. (Hawaiian) filed a complaint against the Company in the United States Bankruptcy Court for the District of Hawaii (the Bankruptcy Court) alleging that the Company breached the terms of a Confidentiality Agreement entered into in April 2004 with the Trustee in Hawaiian's bankruptcy proceedings. Hawaiian's complaint alleges, among other things, that the Company breached the Confidentiality Agreement by (a) using the evaluation material to obtain a competitive advantage over Hawaiian, through the development and implementation of a business plan to compete with Hawaiian in the inter-island market, and (b) failing to return or destroy any evaluation materials after being notified by Hawaiian on or about May 12, 2004 that the Company had not been selected as a potential investor for a transaction with Hawaiian. Hawaiian, in its complaint, seeks unspecified damages, requests that the Company turn over to Hawaiian any evaluation material in the Company's possession, custody or control (the Turnover Claim), and an injunction preventing the Company from providing inter-island transportation services in the State of Hawaii for a period of two years from the date of such injunctive relief.

The Company vigorously denies Hawaiian's allegations and requests for relief contained in its complaint. In addition to answering Hawaiian's complaint, the Company filed a counterclaim containing three counts against Hawaiian. The Bankruptcy Court dismissed two of these counts, but the Company's primary allegation that Hawaiian's lawsuit against Mesa is itself an anticompetitive act in violation of the Sherman Anti-trust Act remains. Although the United States District Court for the District of Hawaii (the District Court) denied the Company's initial efforts to immediately withdraw the entire lawsuit from the Bankruptcy Court to the District Court, the District Court indicated that it may later withdraw the lawsuit or the Company's counterclaim prior to a trial. A trial is scheduled for April 2, 2007.

In May 2006, the Company filed a motion to dismiss the Turnover Claim contained in Hawaiian's complaint. The Bankruptcy Court denied the Company's motion to dismiss the Turnover Claim. The Company does not believe that this denial has a material impact on the Company's position in the lawsuit.

In June 2006, Hawaiian requested a preliminary injunction to prevent the Company from issuing new airline tickets for the Hawaiian inter-island market for a period of one year. In this request, Hawaiian alleges that initial discovery conducted reveals that the Company breached the Confidentiality Agreement. The Company denies these allegations and intends to vigorously defend against Hawaiian's request for a preliminary injunction. If Hawaiian is successful in obtaining a preliminary injunction, however, the Company's inter-island operations in Hawaii will effectively cease for one year. A hearing in this regard is scheduled for September 15, 2006.

In the event a preliminary injunction is issued in favor of Hawaiian, the Company believes the cessation and winding down of its operations in Hawaii could have an adverse impact on its financial condition or results of operations for a period of approximately six months following such event. The litigation and claims noted above are subject to inherent uncertainties and the Company's view of such matters may change in the future.

We are involved in various other legal proceedings and FAA civil action proceedings that the Company does not believe will have a material adverse effect upon our business, financial condition or results of operations, although no assurance can be given as to the ultimate outcome of any such proceedings.

Item 1.A. *Risk Factors.*

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part 1, Item 1A. Risk Factors in our Annual Report on Form 10-K/A for the year ended September 30, 2005, and quarters ended December 31, 2005 and March 31, 2006, which could materially affect our business, financial condition or future results. We caution the reader that these risk factors may not be exhaustive. We operate in a continually changing business environment and new risk factors emerge from time to time. Management cannot predict such new risk factors, nor can we assess the impact, if any, of such new risk factors, nor can we assess the impact, if any, of such new risk factors on our business or to the extent to which any factor or combination of factors may impact our business. As a result of litigation relating to our Hawaiian operations, we may face additional risk factors, including the one identified below. All of these factors, in addition to the information discussed elsewhere herein, should be carefully considered in evaluating us and our business:

If we become involved in any material litigation or any existing litigation is concluded in a manner adverse to us, our earnings may decline.

We are, from time to time, subject to various legal proceedings and claims, either asserted or unasserted. Any such claims, whether with or without merit, could be time-consuming and expensive to defend and could divert management's attention and resources. There can be no assurance regarding the outcome of current or future litigation.

In February 2006, Hawaiian Airlines, Inc. (Hawaiian) filed a complaint against the Company in the United States Bankruptcy Court for the District of Hawaii (the Bankruptcy Court) alleging that the Company breached the terms of a Confidentiality Agreement entered into in April 2004 with the Trustee in Hawaiian's bankruptcy proceedings. Hawaiian's complaint alleges, among other things, that the Company breached the Confidentiality Agreement by (a) using the evaluation material to obtain a competitive advantage over Hawaiian, through the development and implementation of a business plan to compete with Hawaiian in the inter-island market, and (b) failing to return or destroy any evaluation materials after being notified by Hawaiian on or about May 12, 2004 that the Company had not been selected as a potential investor for a transaction with Hawaiian. Hawaiian, in its complaint, seeks unspecified damages, requests that the Company turn over to Hawaiian any evaluation material in the Company's possession, custody or control (the Turnover Claim), and an injunction preventing the Company from providing inter-island transportation services in the State of Hawaii for a period of two years from the date of such injunctive relief.

The Company vigorously denies Hawaiian's allegations and requests for relief contained in its complaint. In addition to answering Hawaiian's complaint, the Company filed a counterclaim containing three counts against Hawaiian. The Bankruptcy Court dismissed two of these counts, but the Company's primary allegation that Hawaiian's lawsuit against Mesa is itself an anticompetitive act in violation of the Sherman Anti-trust Act remains. Although the United States District Court for the District of Hawaii (the District Court) denied the Company's initial efforts to immediately withdraw the entire lawsuit from the Bankruptcy Court to the District Court, the District Court indicated that it may later withdraw the lawsuit or the Company's counterclaim prior to a trial. A trial is scheduled for April 2, 2007.

In May 2006, the Company filed a motion to dismiss the Turnover Claim contained in Hawaiian's complaint. The Bankruptcy Court denied the Company's motion to dismiss the Turnover Claim. The Company does not believe that this denial has a material impact on the Company's position in the lawsuit.

In June 2006, Hawaiian requested a preliminary injunction to prevent the Company from issuing new airline tickets for the Hawaiian inter-island market for a period of one year. In this request, Hawaiian alleges that initial discovery conducted reveals that the Company breached the Confidentiality Agreement. The Company denies these allegations and intends to vigorously defend against Hawaiian's request for a preliminary injunction. If Hawaiian is successful in obtaining a preliminary injunction, however, the Company's inter-island operations in Hawaii will effectively cease for one year. A hearing in this regard is scheduled for September 15, 2006.

In the event a preliminary injunction is issued in favor of Hawaiian, the Company believes the cessation and winding down of its operations in Hawaii could have an adverse impact on its financial condition or results of operations for a period of approximately six months following such event. The litigation and claims noted above are subject to inherent uncertainties and the Company's view of such matters may change in the future.

We may be unable to profitably operate our Hawaiian airline service, which could negatively impact our business and operations.

In June 2006, we launched our independent inter-island Hawaiian airline operation named *go!* Providing service in Hawaii will require ongoing investment of working capital by Mesa and significant management attention and focus.

Further, in light of the costs and risks associated with operating an independent low fare regional jet airline, we may be unable to operate the Hawaiian airline profitably, which would negatively impact our business, financial condition and results of operations.

In addition, our results under our revenue-guarantee contracts offer no meaningful guidance with respect to our future performance in running an independent airline because we have not previously operated as an independent regional jet carrier in Hawaii. We are operating under a new brand that will initially have limited market recognition. Future performance will depend on a number of factors, including our ability to:

establish a brand that is attractive to our target customers;

maintain adequate controls over our expenses;

monitor and manage operational and financial risks;

secure favorable terms with airports, suppliers and other contractors;

maintain the safety and security of our operations;

attract, retain and motivate qualified personnel; and

react to responses from competitors who are more established in the Hawaiian markets.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(A) None

(B) None

(C) The Company's Board of Directors authorized the Company to purchase up to 19.4 million shares of the Company's outstanding common stock, including 10 million shares authorized in November 2005. As of June 30, 2006, the Company has acquired and retired approximately 8.1 million shares of its outstanding common stock at an aggregate cost of approximately \$48.7 million, leaving approximately 11.3 million shares available for purchase under existing Board authorizations. Purchases are made at management's discretion based on market conditions and the Company's financial resources.

The Company repurchased the following shares for \$0.5 million during the three months ended June 30, 2006:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares That May yet be Purchased Under the Plan
June 2006	52,806	\$ 8.84	8,112,667	11,309,594

Item 3. Defaults upon Senior Securities.
