I. Supplemental information pertaining to the Summary and its German Translation

1. Supplemental information pertaining to "SUMMARY – Section D – Risks – Risks specific to Linde AG as [Issuer] [Guarantor]"

- On page 15 of the Supplemented Prospectus, "Element D.2 – Key information on the key risks that are specific to the Issuer" shall be supplemented by the following:

"Linde is exposed to risks in the context of the intended potential merger of Linde AG and Praxair, Inc. which may have a negative impact on Linde's operating results, business and financial condition."

Supplemental information pertaining to the German translation of the Summary section "GERMAN  
2. TRANSLATION OF THE SUMMARY – Abschnitt D – Risiken – Risiken, die der Linde AG als [Emittentin] [Garantin] eigen sind"

- On page 29 of the Supplemented Prospectus, "Element D.2 – Zentrale Angaben zu den zentralen Risiken, die dem Emittenten eigen sind" shall be supplemented by the following:

"Linde ist Risiken im Zusammenhang mit dem geplanten potentiellen Zusammenschluss der Linde AG mit Praxair, Inc. ausgesetzt, die Lindes Betriebsergebnis, Geschäft und finanzielle Lage beeinträchtigen können."

II. Supplemental information pertaining to the section "RISK FACTORS – Risk Factors regarding the Issuers – Risk Factors regarding Linde AG as Issuer and Guarantor"

The following additional risk factor shall be inserted on page 38 of the Supplemented Prospectus:

"Risks arising in the context of the intended potential merger of Linde AG and Praxair, Inc.

Linde is exposed to risks arising in the context of the intended potential merger of Linde AG and Praxair, Inc. ("Praxair") (for further details of such potential transaction see "LINDE AKTIENGESELLSCHAFT – Issuer and Guarantor – Recent Developments and Outlook – General" below) which may have a negative impact on Linde's operating results, business and financial condition. Such risks include in particular:

The discussion or consummation of a potential transaction with Praxair, a major U.S.-based competitor, may have adverse effects on the ability of Linde to maintain its business relationships, in particular with customers and suppliers.

The consummation of the potential transaction may constitute a change of control under certain contracts to which Linde is a party (including but not limited to material funding agreements), such that Linde's counterparties to such contracts may be permitted to terminate such contracts or exercise certain other rights under such contracts. Holders of notes issued or guaranteed by Linde may also have an option to require Linde to redeem their notes upon a change of control of Linde AG. If all the conditions to such option are fulfilled and the noteholders exercise such option, a large portion of Linde's financing debt may become due and payable. Linde may not be able to refinance such debt on favourable terms and conditions.

The discussion or consummation of the potential transaction may have adverse effects on Linde's ability to retain or hire key personnel.

The negotiation, preparation and implementation of the potential transaction may disrupt management time from ongoing business operations and the analysis of other strategic options.

---

The regulatory clearance of the potential transaction may require divestments of certain parts of Linde's and Praxair's businesses, which divestments might be implemented on unfavourable terms and conditions.

The preparation and implementation of the potential transaction may require significant one-time costs and expenses. The potential transaction may not be consummated; should the potential transaction fail, Linde may have spent significant financial resources without any benefit.

If the potential transaction is consummated and the new holding company holds at least 75% of the shares represented in the shareholders meeting of Linde AG, the new holding company could initiate the conclusion of a domination agreement or a domination and profit and loss transfer agreement with Linde AG. Such agreement would allow the new holding company to give instructions binding on the Executive Board of Linde AG which might be disadvantageous to Linde. If the new holding company holds at least 95% of the shares in Linde AG, the new holding company could initiate a squeeze-out of the minority shareholders of Linde AG and subsequently convert Linde AG into a limited liability company (Gesellschaft mit beschränkter Haftung – GmbH). If the new holding company indirectly held more than 90% of the shares in Linde AG, a squeeze-out and subsequent conversion into a GmbH would be possible in connection with a merger of Linde AG into a subsidiary of the new holding company in the legal form of a stock corporation. The sole shareholder of a GmbH can give instructions binding on the managing directors of the GmbH which might be disadvantageous to the GmbH. The capital of a GmbH is less strictly protected than the capital of a stock corporation; the shareholder of a GmbH may withdraw capital from the GmbH to a much broader extent than a shareholder of a stock corporation may withdraw capital from the stock corporation.

If the potential transaction is consummated, the new holding company may cause Linde to transfer assets out of Linde to other companies of the combined group and/or the combined group may raise future financing through other companies of the combined group, which may adversely affect the position of creditors of Linde.

The earnings position and business and financial condition of Linde following the completion of the potential transaction is not clear. Accordingly, the rating of Linde AG following the completion of the potential transaction cannot be precisely predicted. The potential transaction may therefore have adverse effects on the ability of Linde to obtain financing on favourable terms and conditions.

The rating of the new group may be lower than the present rating of Linde AG, which may result in a downgrade of the rating of the debt of Linde."

III. Supplemental and replacement information pertaining to the section "LINDE AKTIENGESELLSCHAFT – Issuer and Guarantor –"

- "Dr Wolfgang Buechele" shall be replaced by "Prof. Dr Aldo Belloni" in the list of Executive Board members in the first paragraph of the section "Executive Board and Supervisory Board" on page 45 of the Supplemented Prospectus.
- The first three paragraphs in the section "Recent Developments and Outlook - General" on page 47 of the Supplemented Prospectus shall be replaced by the following:

"Linde has launched a Group-wide efficiency programme. The three-year programme taken together with measures introduced from 2015 onwards should result in significant yearly cost savings from 2019. The estimated total restructuring costs relating to this programme of around EUR 400 million should be incurred by the end of 2017. In the nine months to 30 September 2016, costs relating to efficiency measures of EUR 50 million have already been

recognised.

---

On 7 December 2016, the Executive Board of Linde AG, after consultation with the Supervisory Board and on the basis of the proposal received from the U.S.-based company Praxair, Inc. ("Praxair"), decided to resume talks over the essential terms of a potential merger of equals between the two companies. Also on 7 December 2016, Dr Wolfgang Büchele resigned from his office as a member of the Executive Board and Chief Executive Officer of Linde with immediate effect. The Supervisory Board appointed Professor Dr Aldo Belloni to succeed him as a member of the Executive Board and Chief Executive Officer. Professor Dr Belloni's term will cease at the end of 2018.

On 20 December 2016, the Executive Board of Linde AG, upon approval of the Supervisory Board, agreed on a non-binding term sheet with Praxair governing the essential terms and conditions of a potential merger of equals between the two companies. The term sheet provides for a combination of the group's business under a publicly traded new holding company bearing Linde's name.

The new holding company would launch a public exchange offer to the shareholders of Linde AG. The transaction and the public exchange offer would be based on a 50% : 50% valuation ratio of Linde and Praxair. Linde AG shareholders would receive 1.540 shares in the new holding company for each Linde AG share and Praxair shareholders would receive one share in the new holding company for each Praxair share. The new holding company would be listed on the New York Stock Exchange and on the Frankfurt Stock Exchange. Membership in the board of the combined company would be split 50% : 50% between Linde and Praxair. The current Chairman and CEO of Praxair, Mr. Steve Angel, would become CEO of the new holding company; the current Chairman of the Supervisory Board of Linde AG, Professor Dr. Wolfgang Reitzle, would become Chairman. The new holding company would be formed and domiciled in a neutral member state of the European Economic Area ("EEA"), with the CEO based in Danbury, Connecticut USA. Corporate functions would be appropriately split between Danbury, Connecticut and Munich, Germany to help achieve efficiencies for the combined company. However, there is no assurance that a binding definitive agreement on the combination will be reached or that a transaction will be consummated. The signing of any legally binding agreement is subject to the agreement of both parties with respect to all terms and conditions of any combination, satisfactory results of further regulatory, tax and legal due diligence and the approval of any definitive agreement by the Board of Directors of Praxair and the Executive Board and the Supervisory Board of Linde AG. Further, the consummation of any definitive agreement would, inter alia, be subject to the approval of the transaction by the shareholders meeting of Praxair with the required majority, the acceptance of the holding company's public exchange offer by a minimum of 75% of the outstanding Linde AG shares and clearance of the transaction by the competent regulatory authorities."

- The table "The current members of Linde AG's Executive Board are:" in the section "Executive Board, Supervisory Board and Board Practice – Executive Board" on page 48 of the Supplemented Prospectus shall be replaced by the following:

#### IV. Replacement information pertaining to the section "TAXATION"

- The paragraph "Residents" of section "3. Grand Duchy of Luxembourg" on page 213 of the Supplemented Prospectus shall be replaced entirely by the following:

"Residents

Under the Luxembourg law dated 23 December 2005 as amended, a 20% Luxembourg withholding tax is levied on interest payments or similar income made by Luxembourg paying agents to (or for the benefit of) Luxembourg individual residents. This withholding tax also applies on accrued interest received upon disposal, redemption or repurchase of the Notes.

If the individual Holder holds the Notes in the course of the management of his or her private wealth, the aforementioned 20% withholding tax will operate a full discharge of income tax due on such payments.

---

Further, Luxembourg individual residents who are the beneficial owners of interest payments and other similar income made by a paying agent established outside Luxembourg in a Member State of the European Union or of the European Economic Area, may also opt for a final 20% levy. In such case, the 20% levy is calculated on the same amounts as for the payments made by Luxembourg resident paying agents. The option for the 20% levy must cover all interest payments made by paying agents established outside Luxembourg to the Luxembourg individual resident during the entire civil year.

Interest on Notes paid by a Luxembourg paying agent to a resident Holder of Notes who is not an individual is not subject to withholding tax."

- The third paragraph under "EU Withholding Tax Act" of section "4. Republic of Austria" on page 215 of the Supplemented Prospectus shall be replaced by the following:

"Upon a proposal of the European Commission, the EU Savings Tax Directive was repealed by the Council of the European Union on 10 November 2015 which – in the case of Austria – has entered into effect as from 1 January 2017 (on certain accounts Austria has undertaken to initiate automatic exchange of information from 30 September 2017 with respect to taxable periods beginning on or after 1 October 2016) and has entered into effect as from 1 January 2016 in the case of all other EU Member States. Since 1 January 2016 the provisions of the EU Council Directive 2014/107/EU amending Directive 2011/16/EU as regards mandatory exchange of information in the field of taxation apply to all EU Member States but for Austria. In relation to Austria, the provisions apply – with the exception of certain accounts mentioned above – since 1 January 2017."

## Forward-looking Statements

This communication includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are based on Linde's, Praxair's and/or New Holdco's beliefs and assumptions on the basis of factors currently known to them. These forward-looking statements are identified by terms and phrases such as: anticipate, believe, intend, estimate, expect, continue, should, could, may, plan, project, predict, will, potential, forecast, and similar expressions. These forward-looking statements include, but are not limited to, statements regarding benefits of the proposed business combination, integration plans and expected synergies, and anticipated future growth, financial and operating performance and results. Forward-looking statements involve risks and uncertainties that may cause actual results to be materially different from the results predicted or expected. No assurance can be given that these forward-looking statements will prove accurate and correct, or that projected or anticipated future results will be achieved. Factors that could cause actual results to differ materially from those indicated in any forward-looking statement include, but are not limited to: the expected timing and likelihood of the entry into, or the completion of the contemplated business combination, including the timing, receipt and terms and conditions of any required governmental and regulatory approvals of the contemplated business combination that could reduce anticipated benefits or cause the parties not to enter into, or to abandon the transaction; the occurrence of any event, change or other circumstances that could give rise to the termination of the proposed business combination agreement; the ability to successfully complete the proposed business combination and the exchange offer; regulatory or other limitations imposed as a result of the proposed business combination; the success of the business following the proposed business combination; the ability to successfully integrate the Praxair and Linde businesses; the possibility that Praxair stockholders may not approve the proposed business combination agreement or that the requisite number of Linde shares may not be tendered in the public offer; the risk that the parties may not be able to satisfy the conditions to closing of the proposed business combination in a timely manner or at all; risks related to disruption of management time from ongoing business operations due to the proposed business combination; the risk that the announcement or consummation of the proposed business combination could have adverse effects on the market price of Linde's or Praxair's common stock or the ability of Linde and Praxair to retain customers, retain or hire key personnel, maintain relationships with their respective suppliers and customers, and on their operating results and businesses generally; the risk that New Holdco may be unable to achieve expected synergies or that it may take longer or be more costly than expected to achieve those synergies; state, provincial, federal and foreign legislative and regulatory initiatives that affect cost and investment recovery, have an effect on rate structure, and affect the speed at and degree to which competition enters the industrial gas, engineering and healthcare industries; outcomes of litigation and regulatory investigations, proceedings or inquiries; the timing and extent of changes in commodity prices, interest rates and foreign currency exchange rates; general economic conditions, including the risk of a prolonged economic slowdown or decline, or the risk of delay in a recovery, which can affect the long-term demand for industrial gas, engineering and healthcare and related services; potential effects arising from terrorist attacks and any consequential or other hostilities; changes in environmental, safety and other laws and regulations; the development of alternative energy resources; results and costs of financing efforts, including the ability to obtain financing on favorable terms, which can be affected by various factors, including credit ratings and general market and economic conditions; increases in the cost of goods and services required to complete capital projects; the effects of accounting pronouncements issued periodically by accounting standard-setting bodies; conditions of the debt and capital markets; market acceptance of and continued demand for Linde's and Praxair's products and services; changes in tax laws, regulations or interpretations that could increase Praxair's, Linde's or New Holdco's consolidated tax liabilities; and such other factors as are set forth in Linde's annual and interim financial reports made publicly available and Praxair's and New Holdco's public filings made with the SEC from time to time, including but not limited to those described under the headings "Risk Factors" and "Forward-Looking Statements" in Praxair's Form 10-K for the fiscal year ended December 31, 2015, which are available via the SEC's website at [www.sec.gov](http://www.sec.gov). The foregoing list of risk factors is not exhaustive. These risks, as well as other risks associated with the contemplated business combination, will be more fully discussed in the proxy

statement/prospectus and the offering prospectus that will be included in the Registration Statement on Form S-4 or Form F-4 that will be filed with the SEC and in an offering document and/or any prospectuses or supplements to be filed with BaFin in connection with the contemplated business combination. In light of these risks, uncertainties and assumptions, the events described in the forward-looking statements might not occur or might occur to a different extent or at a different time than Linde, Praxair or New Holdco has described. All such factors are difficult to predict and beyond their control. All forward-looking statements included in this document are based upon information available to Linde, Praxair and New Holdco on the date hereof, and each of Linde, Praxair and New Holdco disclaims and does not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
